HOUSE JOURNAL No. 1

Wednesday, December 6, 2006

On the first Wednesday in December in the year of our Lord, two thousand six, it being the day designated by the Constitution for assembling, the one hundred and sixtieth General Court of the State of New Hampshire convened at the Capitol in the City of Concord. The Representatives-elect were called to order by Karen O. Wadsworth, Clerk of the House for the preceding session.

Prayer was offered by House Chaplain, Reverend Jared A. Rardin, Pastor of the South Congregational Church in Concord.

O Holy One, whose living presence refuses to be reduced by human thought or stymied by stilted language, we gather in one another's company this afternoon to convene another new session of this House of Representatives. With all that needs to go on in this legislative body in the year to come, O God, would that You might grant above all else a sense of unexpected joy in coming together to serve the good people of New Hampshire. Surprise us with exciting ideas. Delight us with one another's humor. Sneak up on us now and then with an abiding sense that the things which unite us are far greater and more numerous than the things which divide us.

We pray that Your Spirit would guide and support each Representative here in their work, and that You would grant them a sense of satisfaction in their leadership. We ask that You would sustain and guide our Governor, Representative-elect Norelli, Representative-elect Whalley, members of the Senate, and the staff whose daily work it will be to streamline and support the many proceedings, meetings and logistics which make governance possible.

Extend Your divine care to those in our lives who are struggling with an illness, who are grieving the death of someone they love, who find themselves particularly alone and for whom this season is darkness rather than light. And be especially with those in our beloved state who find themselves without the joys and comforts of the season we here take for granted. All this we pray in Your holy name. Amen.

Representatives-elect Jeffrey P. Fontas and Andrew J. Edwards of Nashua led the Pledge of Allegiance.

The National Anthem was sung by Representative-elect David M. Pierce of Etna.

CALL OF THE ROLL BELKNAP COUNTY (18)

- Dist. No. 1 (1)** Fran Wendelboe, r

With 388 members-elect having answered the call of the roll, a quorum was declared present.

NOTIFICATIONS OF ABSENCE

The following representatives-elect notified the Clerk of their absence for the day:
Representatives-elect Daler, Goyette, Oppenheimer, Roberts and Francis Sullivan, the day, illness.
Representatives-elect C. Pennington Brown, Garcia, Gorman, L'Heureux, Moran and Oliver, the day, important business.

RESOLUTION

Representatives-elect Kopka and Whalley offered the following:

RESOLVED, that a committee be appointed to wait upon the Governor and the Honorable Council to inform them that a quorum of the House is assembled and requests their attendance.

Adopted.

The Chair appointed the following: Representatives-elect Robert A. Johnson, Laura C. Pantelakos, Mary Jane Wallner and Betty B. Hall.

INTRODUCTION OF GUESTS

Victor Schulze, Jeanne Schulze, Victoria Robinson, Julia and Suzanne Mazak, Melia and Peter Robinson, Kate, Dylan, Willem and Anders Schulze, husband, daughters and grandchildren of Rep-elect Schulze. Marcia, Maurine and John Preston, guests of Rep-elect Mark Preston. Kristen and Matt Warren, guests of Rep-elect Warren. Gail E. Kennedy, wife of Rep-elect Kennedy. Jon Woodhull, husband of Rep-elect Skinder. K.C. DeStanto, guest of Rep-elect Holden. Carol, Jeffrey and Jennifer Day, wife, son and daughter of Rep-elect Russell Day. Erika A. Spaulding, guest of Rep-elect Spaulding. Jean Barry, wife of Rep-elect Barry. Theresa Kappler, wife of Rep-elect Kappler. Pauline Martineau, Kimberly Kopaczewski and Ben Martineau, guests of Rep-elect Martineau. Nancy Kelley, wife of Rep-elect John Kelley. Joseph, Phillip and Hadassah Edwards and Sebastian Cheramie, guests of Rep-elect Edwards. Pat Srncac, wife of Rep-elect Srncac. Carol Perry, wife of Rep-elect Perry. Diane Goodman, Hon. Jim Curran, former member from Hancock, Polly Curran, Amy Markus and Karen Premienau, wife and guests of Rep-elect Mack. Christine Reuschel, wife of Rep-elect Reuschel. Alicen Hogan, Kathryn Hogan-Bouchie and Dominique Hogan, guests of Rep-elect Hogan. Tabatha Hebert, guest of Rep-elect Hebert. Joe, Owen and Ryan Russell, husband and sons of Rep-elect Kathleen Russell. Dennis Kepner, Meg Kepner and Richard Devor, husband, daughter and guest of Rep-elect Kepner. John Lisle, Frank Miethe and Gerry Small, husband, brother and guest of Rep-elect Lisle. Larry Miller, husband of Rep-elect Judy Day. Rick Merrick, Michel Sturm, Mathew, Ryan and Hannah Sturm, Larry Brown, Judy Garfinkel and Celeste Pitts, husband, sister, nephews, niece and guests of Rep-elect Evalyn Merrick. John Kjellman, Jameyenne and Mary Fuller, guests of Rep-elect Kjellman. Doug and Nora Kelly, husband and sister-in-law of Rep-elect Sally Kelly. Deborah and Erin Murphy, spouse and daughter of Rep-elect Emiro. Les and Ken Schoof and Marilyn Nussbaum, guests of Rep-elect Butler. Emmy Brown, mother of Rep-elect Nord. Gloria Pilotte, Ronald and Lorraine Pilotte, spouse, brother and sister-in-law of Rep-elect Pilotte. William Thomas, husband of Rep-elect Yvonne Thomas. Thomas and Myra Opal and Gail Kinney, guests of Reps-elect Solomon, Mulholland and Laliberte. Janice Ulery, wife of Rep-elect Ulery. Regina and Christopher O'Neil, wife and son of Rep-elect O'Neil. Constance Cunningham, wife of Rep-elect Cunningham. Sally Humphries and Debbie Stohrer, wife and guest of Rep-elect Humphries. Garrett Lear, guest of Rep-elect Itse. Violet and Cagney Hatch, wife and son of Rep-elect Hatch. Bill Hanson, guest of Rep-elect Sara Kelly. Seth Wall, son of Rep-elect Wall. Sydni, Ashley, Katelin and Franklin Garrity, wife, daughters and son of Rep-elect James Garrity. Anna Mulholland, daughter of Rep-elect Mulholland. Kerry Virgien, guest of Rep-elect Scott Merrick. Joseph, Ellen and Jonathan Derosa, guests of Reps-elect James Garrity and Winchell. Edward and Virginia Rinaldi, guests of Rep-elect Crane. Virginia Foose, Patricia Bechok, Greg and Henry Bechok, wife, daughter and grandsons of Rep-elect Foose. Anastasiya and Stanislav Mickelonis, Anna and Gilman Hibbard and Doralee and Robert Ray, wife, son and guests of Rep-elect Mickelonis. Emma Duff Pierce, Robert Duff, Elizabeth and Catherine Sensenig and Heather Irbinskas, daughter and guests of Rep-elect Pierce. Purr Whalley, guest of Rep-elect Whalley. Lorinda Rausch, guest of Rep-elect Rausch. Beth Campbell, guest of Rep-elect Wheeler. Maria and Paul McKenna, parents of Rep-elect McKenna. Brenda Major, wife of Rep-elect Major. Jessica Paul-Levasseur, Jean, Kim and Chelsea Levasseur, wife, parents and sister of Rep-elect Levasseur. Jaci Grote, wife of Rep-elect Grote. Nancy Borden, wife of Rep-elect Borden. Patricia Davis and Anne Maxwell, wife and sister of Rep-elect Davis. Hon. Janet Fortnam, former member from Pembroke, Janet Anderson, Ken Ayles and Reggie Baxter, guests of the Pembroke delegation. Lois Hofemann, wife of Rep-elect Hofemann. Patricia Manseau, guest of Rep-elect Greco. Kathryn Coughlin, daughter of Rep-elect Coughlin. Rita Cloney, guest of Reps-elect Sandra Smith and Brunelle. Christopher Messier, son of Rep-elect Messier. June Cyr, wife of Rep-elect Cyr. Elsie Domingo, wife of Rep-elect Domingo. Christie Vilsack, First Lady of

the State of Iowa, guest of Rep-elect Ryan. Allison and Daryl Browne, Jordan, Alexander and Orion Browne, and Walt Mayshack, daughter, son-in-law, grandsons and guest of Rep-elect Estes. Faith, Jennifer and Reily Tobin, wife, daughter and granddaughter of Rep-elect Tobin. Ruth Ann Williams, wife of Rep-elect Burton Williams. Betty King, wife of Rep-elect King. Roberta Ingram, wife of Rep-elect Ingram. Joel Sherburn, Hon. Bob Davidson, former member from Newmarket, Hon. William McCann, former member from Dover and Patricia Holmes, family and guests of Rep-elect DeChane. Carol and Jennifer Day, wife and daughter of Rep-elect Day. David and Sandra Bettencourt, parents of Rep-elect Bettencourt. Kathleen DiFruscia, Barbara Bunker and Camaron Iannafo, wife and guests of Rep-elect DiFruscia. Allen, Gina and Daniel Norelli, Vince Lombardi, Ellen Fineberg, Sarah Fineberg-Lombardi, Hon. Raymond Buckley, former member from Manchester, Hon. Sandra Keans, former member from Rochester and Hon. Marion Copenhaver, former member from Etna, guests of Rep-elect Norelli. Charlene Kane, daughter of former Rep. Cecelia Kane, guest of the Portsmouth delegation. Kathy Sullivan, Chair of the New Hampshire Democratic Party, Hon. Jim Craig, Hon. Rick Trombly and Hon. Chris Spirou, past House Minority Leaders, guests of the Democratic Caucus. Former Minority Leaders who were invited, but unable to attend: Hon. Mary Chambers, Hon. Bob Raiche and Hon. Bill Craig.

OATH OF OFFICE

Governor John H. Lynch, having been informed that a quorum of the House was assembled, appeared, accompanied by the Honorable Councilors Raymond S. Burton, Peter J. Spaulding, Ruth L. Griffin, Raymond J. Wiczorek and Debora B. Pignatelli. The members-elect, having presented their credentials, were duly qualified by the Governor as members of the House of Representatives by taking and subscribing the oath of office agreeable to the provisions of the Constitution of the State of New Hampshire.

The Governor and Executive Councilors retired.

ELECTION OF HOUSE SPEAKER

The Chair declared that nominations for Speaker were in order.

Rep. Abbott placed the name of Rep. Terie Norelli in nomination for Speaker. Reps. Rous and Daniel Eaton seconded the nomination.

Rep. Whalley moved that nominations be closed and one ballot be cast for Rep. Terie Norelli. Adopted.

The Chair declared Rep. Terie Norelli the duly-elected Speaker of the House for the 2007-2008 biennium.

The Sergeant-at-Arms escorted Speaker Norelli to the rostrum. The Speaker addressed the House.

(Speaker Norelli in the Chair)

MOTION TO PRINT REMARKS

Rep. Daniel Eaton moved that the remarks by Speaker Norelli be placed in the Permanent Journal. Adopted.

REMARKS

Speaker Norelli: Good afternoon. It is a good afternoon. There are two things that many people in New Hampshire thought that they would never see in their lifetime: the Boston Red Sox winning the World Series and a Democratic Speaker of the New Hampshire House.

It is with a profound sense of humility and recognition of the history of this moment, that I accept this gavel and gratefully acknowledge the confidence that you have placed in me. In doing so, I take an office that once was thought to be unattainable for a member of my party.

Please allow me to recognize some of the very most important people in my life who have joined us here today: My husband, Allen, and my children, Gina and Daniel. Certainly without their support and patience over the past few months I wouldn't possibly have been able to stay grounded and I am sure to tell the three of them that a lot of you would appreciate it if they kept up the job for a little bit longer. Here also are our very dear family friends, Vince Lombardi, the other Vince Lombardi, Ellen Fineberg, Sarah Fineberg-Lombardi and their exchange student from Romania, Raz Birca. I saw that nice smile on Raz' face. What a nice treat it is for him to see New Hampshire democracy up close in action. I would also like to take this opportunity to recognize the presence

of my predecessor, Doug Scamman, whose devotion to this institution and love of our state is unquestioned. Doug has been most gracious and helpful to me during this transition, and it is truly an honor for me to take the gavel from him today. Thanks to you Doug, and to Stella, for all you have both done to make New Hampshire a wonderful place to live in.

Let me take a moment to congratulate Sylvia Larsen on her election as Senate President. I look forward to working with her and with her Senate colleagues as we strive to meet the challenges that lay ahead.

The gavel that has been placed in my hands today has been passed through the hands of my predecessors for over 200 years, and I am mindful of the awesome responsibility of this office. I pledge to you and to the people of New Hampshire that I will uphold the dignity of this, the people's House, to ensure that this institution lives up to the highest standards that are expected of us. As the next session begins and we inevitably get locked in the debates of the issues of the day, we must not lose sight of the historical perspective, because today, along with our Senate colleagues, we gather in the oldest legislative chambers that are in continuous use in the United States.

Those who have come before us would marvel at the complexity of our modern society and the issues we will begin to debate as the legislative session gets underway. Let us remember that there is a continuous thread that binds us all to the past and to those who have labored and deliberated here, often long into the night. We should treasure the society that they built for us. We owe these citizens who stepped forward and volunteered their time and their energy an enormous debt of gratitude, and I will do everything that I can possibly do to honor the legacy that they have left for us.

I would like to acknowledge Governor Lynch for his strong leadership and for his climate of bipartisanship. I believe this is the message that the citizens of New Hampshire powerfully affirmed in the last election, and it should set the tone for our deliberations going forward. We have an opportunity to work together to address the needs of the people we came here to represent, and an opportunity to send a clear message that we can cooperate for the common good. Today, on behalf of the majority, I extend a hand of friendship across the aisle. I trust that we will agree when that's possible, that we will disagree when that's necessary, and that we will put into practice the old adage that it is possible to disagree without being disagreeable. I offer my congratulations to Representative Whalley and look forward to working with him and with our fellow Republican members to ensure that our deliberations are fair to every member of this House.

I recognize that the Republican members of this House find themselves in a position that is as foreign to you as being in the majority is to myself and my Democratic colleagues. That means there will be a period of adjustment as we all grow accustomed to our new offices and our new roles, and I ask for your indulgence during this historic transition. Let us also be mindful of the peaceful and smooth transfer of power, and understand that it is a symbol of the maturity of our democratic form of governance that we now take something so significant as something that's almost ordinary.

We all recognize the political nature of the work that we do and how our actions are and will be analyzed by those already looking ahead to the next election. We all understand the vital role of the election process, but there is, and there must be, a separation between legislative and electoral politics. Therefore, the Majority and the Minority Offices will be staffed by professionals who understand and respect the legislative process and the dignity of this House.

We are a unique institution, by far the most representative state legislative body in the nation; almost in the world. While it's almost unheard of elsewhere to have husbands and wives, parents and children, and all other combinations of family members serving in the state legislature, here in New Hampshire it is pretty commonplace. It has been said that if you live long enough, you will eventually serve in the New Hampshire Legislature. So those of you up there that haven't been here yet, you will. Many of you who sit here today can recall a parent or grandparent, aunt or uncle, or a sibling that sat in this chamber once before. I know it is a source of great pride for Doug Scamman that his father once wielded the gavel, and it is interesting to note that Doug's father was the Speaker when Jim Craig's father was the Democratic Leader.

We must never lose sight of the fact that many of you are seated now next to someone who might become your very best friend. We have had people from every walk of life, representing every profession. Get to know them. Every profession and every faith has formed a bond of friendship that lasted well beyond their service in this chamber. They recounted their child's latest athletic, academic and professional successes, shared photos of their newest grandchild, attended weddings and other joyous events, and even sometimes consoled one another in their shared grief at the loss of one of our colleagues.

There are people who came here with an unshakeable belief in their position on a particular issue, only to find that indeed there are two sides to every coin. Ultimately, this business of legislating is about building relationships, and we all discover, at some point in our careers here, that party affiliation can sometimes serve as little more than a distraction. When our service here has ended, whether by choice or because the voters have made that choice for us, each of us hopes to look back with pride on the public policy that we had a hand in crafting, hopeful that our state is a better place because we served here. Our work will be bound and placed on the shelves in our public libraries, judicial chambers and law offices, and pored over for years to come by attorneys, judges, scholars and future legislators. But what they won't be able to see on those pages are the handshakes, the kind words and the lasting bonds of friendship.

In the coming two years, much will be asked of me, and in turn, I will ask much of you: patience, understanding, and bridging the political divide in order to enact laws that will benefit the citizens of our great state. As I speak to you today, I acknowledge that one of the most important duties of the Speaker of this House is to uphold the House position on legislation, determined by the committee process and by vote of this body. I will work cooperatively, but I also will be firm in my dealings in representing the House before the Governor and the Senate.

We know our responsibility to resolve the ongoing challenge of providing an adequate education for our children. There is no simple solution. If there was, we all know this would have been solved a long time ago. As a former teacher, education is a subject that I hold near and dear to my heart and a profession that I hold in the highest esteem. This issue will be debated in full, and I remain hopeful that a lasting and bipartisan solution can be found. We owe it to our children, the future of our state, to solve this issue once and for all.

Of course, this is not the only issue that we face. Many of you are hard at work crafting legislation and formulating plans to address a wide array of complex and critically important issues facing our state. I look forward to a thorough and open dialogue and encourage the citizens of our state to participate in this important process.

Thank you all for the confidence you have placed in me and for the kind words, for all the offers of support. The people of New Hampshire are justifiably proud of our citizen Legislature. I care passionately about the life of this institution and I look forward to working with all of you as we do the work of the people of our great state. Thank you.

ELECTION OF HOUSE OFFICERS

The Speaker declared nominations were in order for Clerk of the House.

Rep. Campbell placed in nomination the name of Karen O. Wadsworth for Clerk of the House.

Rep. Hager seconded the nomination.

Rep. Weyler moved that nominations be closed and one ballot cast for Karen O. Wadsworth.

Adopted.

The Speaker declared Karen O. Wadsworth the duly-elected Clerk of the House for the 2007-2008 biennium.

The Speaker declared nominations were in order for Sergeant-at-Arms.

Rep. Parkhurst placed in nomination the name of Deborah Nielsen for Sergeant-at-Arms.

Rep. Winchell seconded the nomination.

Rep. Weyler moved that nominations be closed and one ballot cast for Deborah Nielsen.

Adopted.

The Speaker declared Deborah Nielsen the duly-elected Sergeant-at-Arms of the House for the 2007-2008 biennium.

The Speaker administered the oath of office to Karen O. Wadsworth and Deborah Nielsen.

RESOLUTION

Reps. Foster and Whalley offered the following: **RESOLVED**, that the House inform the Honorable Senate it has organized and has elected its officers and is ready to meet with the Senate in Joint Convention for the purpose of electing a Secretary of State and a State Treasurer.

Adopted.

SENATE MESSAGES

The Senate has organized and has elected as its officers: Sen. Sylvia B. Larsen, President; Tammy L. Wright, Clerk; Robert Buchholz, Assistant Clerk; and Carleton Marshall, Sergeant-at-Arms and Doorkeeper, Henry W. Wilson.

The Senate is organized and ready to meet with the Honorable House of Representatives in Joint Convention for the purpose of electing a Secretary of State and a State Treasurer.

JOINT CONVENTION

(Speaker Norelli presiding)

The Speaker called the Joint Convention to order.

The Chair declared nominations were in order for Secretary of State.

Sen. Jack Barnes placed the name of William M. Gardner in nomination for Secretary of State. Dean of the House, Rep. Robert A. Johnson and Reps. Pantelakos, David Cote and Villeneuve non-spoke and seconded the nomination.

There being no further nominations, the Chair declared nominations closed and instructed the Clerk to cast one ballot for William M. Gardner.

The Chair declared William M. Gardner the duly-elected Secretary of State for the 2007-2008 biennium and administered the oath of office to Mr. Gardner.

The Chair declared nominations were in order for State Treasurer.

Rep. Wallner placed the name of Catherine Provencher in nomination for State Treasurer. Rep. Weyler and Sen. D'Allesandro seconded the nomination.

Rep. McRae placed the name of Frank Sapareto in nomination for State Treasurer.

Rep. Lund and Sen. Roberge seconded the nomination.

Rep. Eric Anderson placed the name of Anthony Stevens in nomination for State Treasurer. Reps. Pierce and McMahon and Sen. Cilley seconded the nomination.

There being no further nominations, the Speaker declared nominations closed.

Sen. Burling moved that the State Treasurer be elected by a majority vote of those members present and voting.

Seconded by Rep. Phinizy.

Adopted.

The Clerk, at the request of the candidate, named Reps. Walz and Phinizy as tellers for Anthony Stevens.

RECESS FOR BALLOTING

(Speaker Norelli in the Chair)

Of the 393 votes cast, 197 votes were needed for election. Catherine Provencher received 237 votes, Frank Sapareto received 12 votes and Anthony Stevens received 144 votes. The Chair declared Catherine Provencher the duly-elected State Treasurer for the 2007-2008 biennium.

Sen. Foster and Rep. Wallner moved that the Joint Convention arise.

Adopted.

The Joint Convention adjourned.

HOUSE SESSION

(Speaker Norelli in the Chair)

The Speaker reconvened the House session.

APPOINTMENTS

The Speaker made the following appointments:

Deputy Speaker, Linda T. Foster

Majority Leader, Mary Jane Wallner

Minority Leader, Michael D. Whalley

Reps. Wallner and Whalley offered the following:

HOUSE RESOLUTION NO. 1

RESOLVED, that the House adopt the Rules of the 2006 session for the 2007-2008 biennium.
Adopted.

Reps. Wallner and Whalley offered the following:

HOUSE RESOLUTION NO. 2

RESOLVED, that all action taken at all sessions of the House of Representatives be recorded on tapes through the public address system, and that the tapes be used by the Clerk to confirm and correct the Permanent Journal. The Permanent Journal as prepared by the Clerk and as may be corrected by the House shall be the official record of the House.
Adopted.

Reps. Wallner and Whalley offered the following:

HOUSE RESOLUTION NO. 3

RESOLVED, that the following policy be established for the distribution of House calendars and journals, bills and resolutions to members of the General Court and state departments:

1. Every citizen is entitled, free of charge, to one copy of any publication at the legislative counter or to have the publication mailed to that person upon individual request for one such copy.
 2. Persons requesting copies for the entire session will be charged a fee sufficient to cover postage, envelopes and handling. Such fees may be prorated when service is received for portions of the session only. All fees are payable in advance. The subscriber list may be submitted for legislative accounting and auditing purposes, but is not for publication or sale.
 3. All fees charged for publications in accordance with this resolution shall be fixed with the approval of the Speaker, paid into the state treasury and credited to the legislative appropriation.
- Adopted.

Reps. Wallner and Whalley offered the following:

HOUSE RESOLUTION NO. 4

RESOLVED, that the Speaker may employ such personnel as she may deem necessary and, with the approval of the House subcommittee of the Committee on Legislative Facilities, may fix their compensation in accordance with RSA 17-E:5.
Adopted.

Reps. Wallner and Whalley offered the following:

HOUSE RESOLUTION NO. 5

RESOLVED, that the members will be paid their legislative salary, as provided in the Constitution, in the month of January 2007, and that mileage of members of the House of Representatives be paid every two weeks during the session.
Adopted.

**SEATING OF MEMBER FROM HILLSBOROUGH, DISTRICT 3
COMMUNICATION**

77 Old Dublin Road
Peterborough, NH 03458
November 27, 2006

Office of the House Clerk
State House, Room 317
Concord, NH 03301

Dear Ms. Wadsworth,

I write to you regarding the tied vote in Hillsborough County District 3 which is to be decided by the General Court on December 6, 2006.

It has been a unique experience being a candidate and declared the winner, attending the education forum and caucus, and participating in the recount. I am impressed by the care the state takes to ensure accu-

racy and fairness to candidates. Both Steve Spratt and I were surprised at the outcome, a tied vote, and then learning that only the General Court, respecting voters' choices, could decide whom to seat. District 3 is composed of four towns, Greenville, New Ipswich, Peterborough and Sharon, as you well know. The three duly elected candidates all live in Peterborough, and so do I. It seems very wrong to me that all the representatives come from only one of the four towns, and none of the representatives live in Greenville, New Ipswich, or Sharon.

Steve Spratt is a good man. He lives in Greenville. I supported his candidacy and voted for him. He is well liked in both Greenville and New Ipswich. He is on the Mascenic Regional School District Board. He has a creative mind, and he is a problem solver. I recommend that the representatives seat him. If circumstances had been different, I would have been delighted to serve.

Yours truly,
Shirley R. Garhart

Reps. Wallner and Whalley offered the following:

HOUSE RESOLUTION NO. 6

Relative to the tied election in Hillsborough County District 3:

WHEREAS, the general election in Hillsborough County District 3 has resulted in a tie between Shirley R. Garhart and Stephen P. Spratt, and

WHEREAS, this House has the constitutional authority to settle this matter by voting to seat one of these individuals as a member, and

WHEREAS, Shirley R. Garhart has communicated her desire that the House seat Stephen P. Spratt in order to provide representation to the smaller towns in the District, now, therefore, be it RESOLVED by the House of Representatives that Stephen P. Spratt be seated as a member representing Hillsborough County District 3, and be it further

RESOLVED that the Clerk of the House transmit a copy of this Resolution to the Secretary of State, to Shirley R. Garhart and to Stephen P. Spratt.

Rep. Hess spoke in favor and yielded to questions.

Rep. Vaillancourt spoke against.

Rep. Irwin spoke in favor.

Adopted.

MOTION TO PRINT REMARKS

Rep. Whalley moved that the remarks made by Rep. Hess be printed in the Permanent Journal. Adopted.

REMARKS

Rep. Hess: Thank you very much Madam Speaker, and may I say that has a lyrical sound to it. Madam Speaker, I do not rise to oppose this resolution, but I want to make the facts, the unique facts and circumstances of this resolution perfectly clear on the record so that the action that we are about to take will not be cited as an improper or inappropriate precedent or misused for partisan purposes in the future. As the resolution states, we as seated members of the House have the unique and exclusive power to determine, to judge the qualifications, returns and elections of our members. That power is awesome because there is no appeal from our decision. It doesn't have to be passed by another body. It doesn't have to be voted upon by any member of the executive branch. It is ours and ours alone and we decide it.

Very rarely do we have tie votes in this House. The last one occurred about twenty odd years ago. Some four thousand of us have been sworn in since then and at that time, at that tie vote, this House adopted a long standing, fair, impartial and bipartisan precedent. This House voted to call a special election limited only to the two candidates who had gotten tie votes so that the voice of the people that they were to represent would be fully, completely and honestly reflected in the House. This resolution does something different, but it does it for a very unique reason. Because, in effect, one of the candidates has conceded the election to the other and the one that we are presently going to be voting on to seat is the candidate that the other tie vote getter wants us to elect. I think it is very important that we put firmly and clearly on the record it is for that circumstance and for that circumstance only that we are choosing between two candidates who have received a tie vote. And I thank you for your time, Madam Speaker.

RESOLUTION

Rep. Wallner offered the following: RESOLVED, that the House now adjourn from the early session, that the business of the late session be in order at the present time, that the reading of resolutions be by caption only and that all resolutions be read a third time and passed. Adopted.

UNANIMOUS CONSENT

Reps. Winchell and Larry Brown addressed the House.

ADJOURNMENT

The Speaker adjourned the House at 4:57 p.m. until Wednesday, January 3, 2007 at 10:00 a.m.

HOUSE JOURNAL No. 2

Wednesday, January 3, 2007

The House assembled at 10:00 a.m., the hour to which it stood adjourned, and was called to order by the Speaker.

His Excellency, Governor John H. Lynch, joined the Speaker on the rostrum for the day's opening ceremonies.

MOMENT OF SILENCE

A moment of silence was observed in honor and memory of President Gerald R. Ford.

Prayer was offered by House Chaplain, Reverend Jared A. Rardin, Pastor of the South Congregational Church in Concord.

O God, we gather in the freshness of this New Year, filled with all the eagerness and all the uncertainty and all the opportunity You always seem to bring our way whether we seek it or not. Fill us with faith in all that awaits us in the session ahead. Give us new faith in one another. Give us renewed faith in the future, and every now and then grant us the indelible joy of knowing that we were able to help someone somewhere. And give us the courage to trust that if we would but stop long enough to discern Your spirit as it moves in our midst, that all shall be well.

Invigorate, we pray, our passion for public service. Help us to embrace and to truly love the public we serve, as though they were sitting right here beside us. Help us also to learn to love the act of serving them, seeking not so much to be successful as to be effective. Help us to have our differences without letting our differences have us. And guide us in such a way that we might become a model of dialogue and creativity in the year to come.

We offer up our special prayers this morning for the nation and for the family of President Gerald Ford, and give thanks for the healing he brought to the nation in a time of scandal and distrust. We pray for Governor Lynch, whose inauguration we celebrate tomorrow and who continues to invite us to work together. We pray for Speaker Norelli as she shoulders the mantle of guidance and leadership; we pray for Majority Leader Wallner and her staff; we pray for Republican Leader Whalley and his staff; we pray for our colleagues across the hall in the Senate as they begin their work today; we pray for our Clerk of the House Karen Wadsworth and her staff as they shepherd us through a mind-numbing avalanche of protocol and paperwork; and we pray for all those behind the scenes here at the Capitol who prepare the bills, who field the phone calls, who sweep the floors and who serve the food.

And perhaps most of all, we pray for those we know and those we don't who are sick, grieving, alone, hopeless, homeless, or at their wits or resources end. Bless them, heal them, and keep us ever mindful of their need. In Your Holy name we pray. Amen.

Rep. Henry Parkhurst, member from Winchester, led the Pledge of Allegiance.

LEAVES OF ABSENCE

Reps. Bleyler, Lessard and Srnec, the day, illness.

Reps. Camm, Hilliard, Jane Kelley, Mesa, Priestley, Reeves, Serlin and Wickson, the day, important business.

Rep. Butcher, the day, illness in the family.

Rep. Jennifer Brown, the day, death in the family.

COMMUNICATION

December 12, 2006

Karen Wadsworth, Clerk of the House

Dear Karen,

The following representatives-elect were sworn into office by the Governor and Executive Council on this day:

Hillsborough County District 3, Stephen P. Spratt, d, Greenville (PO Box 168) 03048

Hillsborough County District 19, Robert L'Heureux, r, Merrimack (94 Back River Rd) 03054
Hillsborough County District 27, Peter R. Goyette, Jr., r, Hudson (6 Linda Street) 03051
Merrimack County District 9, James H. Oliver, r, Hooksett (1465 Hooksett Rd #119) 03106
Rockingham County District 4, Marilinda Garcia, r, Salem (23 School Street) 03079

Sincerely,

Karen Ladd, Assistant Secretary of State

INTRODUCTION OF GUESTS

Irene Kelly, daughter of Rep. Sally Kelly. Anna Pawley, mother of Rep. Movsesian. Hon. Gloria Seldin, former member from Concord, Hon. Sandra Harris and Hon. Joseph Harris, former members from Claremont, guests of Reps. Wallner and DeJoie. Richard Boutwell, Joseph Lavigne and Edward Thorburn, guests of Rep. Parkhurst. Sarah and Colby Aiken, guests of Rep. DeJoie. Joshua, Rebecca, Sarah, Ashley, Brianna, Julia and Brenda Blanchard and Steve Kurtz, grandchildren and guest of Rep. Blanchard. Hon. Raymond Buckley, former member from Manchester, guest of Rep. Brunelle. David Goodwin, son of Rep. Goodwin. Lou and Vivianne Versace, guests of Rep. Tupper. Gary Provencher, Emily and Curtis Provencher, Curtis, Ellen and Amy Laffin and Judith and Mark Timney, guests of the House.

RESOLUTION

Reps. Wallner and Whalley offered the following: **RESOLVED**, that the House of Representatives inform the Honorable Senate it is ready to meet in Joint Convention for the purpose of canvassing the votes for Governor and Executive Council, and for the taking of the oath by the State Treasurer. Adopted.

SENATE MESSAGE

The Senate is now ready to meet with the Honorable House of Representatives in Joint Convention for the purpose of canvassing the votes for Governor and Executive Council and for the swearing in of the State Treasurer.

JOINT CONVENTION

(Speaker Norelli presiding)

RESOLUTION

Rep. Wallner and Sen. Foster offered the following: **RESOLVED**, that the Honorable Deputy Secretary of State be requested to lay before the Joint Convention the return votes for Governor and Executive Council.

Adopted.

In accordance with Article 42, Part 2 of the New Hampshire Constitution, the Honorable David M. Scanlan, Deputy Secretary of State, appeared before the Joint Convention and presented the return votes for Governor and the Executive Council cast in the General Election held November 7, 2006 as follows:

FOR GOVERNOR

	John H. Lynch, d	James B. Coburn, r
Belknap	15,467	5,050
Carroll	13,403	5,225
Cheshire	20,459	5,278
Coos	7,746	2,216
Grafton	22,452	6,573
Hillsborough	81,222	32,478
Merrimack	39,351	10,412
Rockingham	61,102	26,998
Strafford	27,168	6,776
Sullivan	10,391	3,282
TOTALS	298,761	104,288

John H. Lynch, having a plurality of 194,473 votes, was elected.

FOR EXECUTIVE COUNCILORS

First District	Raymond S. Burton, r	47,598
	Mark Blotner, d	35,156
	Plurality for Burton	12,442
Second District	John D. Shea, d	41,618
	Peter J. Spaulding, r	40,435
	Plurality for Shea	1,183
Third District	Beverly Hollingworth, d	46,512
	Charles W. Morse, r	35,329
	Plurality for Hollingworth	11,183
Fourth District	Raymond J. Wieczorek, r	36,939
	Paul R.R. Martineau, d	28,972
	Plurality for Wieczorek	7,967
Fifth District	Debora B. Pignatelli, d	44,671
	Robert L. Wheeler, r	30,740
	Plurality for Pignatelli	13,931

RESOLUTION

Rep. Wallner and Sen. Foster offered the following: **RESOLVED**, that the vote for Governor and Executive Council be referred to a committee consisting of two on the part of the Senate and three on the part of the House to compare and count the same and report thereon.

Adopted.

The Chair appointed Reps. Robert Johnson, Wallner and Pantelakos and Sens. Foster and Gatsas.

OATH OF OFFICE

The Sergeant-at-Arms escorted State Treasurer-elect Catherine Provencher to the rostrum. The Speaker administered the oath of office to Catherine Provencher who thereafter addressed the Joint Convention.

Rep. Wallner and Sen. Foster moved that the Joint Convention arise.

Adopted.

The Joint Convention adjourned.

HOUSE SESSION**(Speaker Norelli in the Chair)**

The Speaker reconvened the House Session.

SPECIAL PRESENTATION

The Speaker presented Rep. Robert A. Johnson with Dean of the House Legislative license plates.

MOTION TO PRINT REMARKS

Rep. Hess moved that the remarks made by the Dean of the House, Rep. Robert Johnson, be printed in the Permanent Journal.

Adopted.

REMARKS

Rep. Robert Johnson: Thank you, Madam Speaker. My comments will probably be as brief as I am about some subjects. I very much appreciate being the Dean of the House. It seems like yesterday in 1940 that I had my first session, and with the exception of time that I spent in the state prison, I have enjoyed the House. I don't know. I think I have said enough.

[Clerk's Note: Rep. Robert A. Johnson served as Director of the New Hampshire Parole Board, retiring in 1984]

UNANIMOUS CONSENT

Rep. Rowe addressed the House.

RECESS MOTION

Rep. Wallner moved that the House stand in recess until Thursday, January 4, 2007 at 11:00 a.m.
Adopted.

The House recessed at 11:10 a.m.

RECESS**(Speaker Norelli in the Chair)**

RECESS**(Speaker Norelli in the Chair)**

Rep. Wallner moved that the House adjourn.
Adopted.

HOUSE JOURNAL No. 3

Thursday, January 4, 2007

The House assembled at 11:00 a.m., the hour to which it stood adjourned, and was called to order by the Speaker.

Prayer was offered by House Chaplain, Reverend Jared A. Rardin, Pastor of the South Congregational Church in Concord.

O gracious and loving God, on this festive day of inauguration and of oath taking, we pause to ground ourselves in the realities of our own lives and to lift up for just a moment in our own hearts the prayers that we hold for those who are near and dear to us; family and friends who may be in need or under great stress or duress; people who are in the hospital or in need of Your care. These we offer up to You in our hearts. We pray for a spirit of community during this day of celebration and inauguration and ask that Your presence be ever present. In Your Holy name we pray. Amen.

Rep. Whalley, member from Alton, led the Pledge of Allegiance.

LEAVES OF ABSENCE

Reps. Bleyler, Flockhart, Hunt, Lessard and Major, the day, illness.

Reps. Aguiar, Ahlgren, Janet Allen, Gene Andersen, Arsenault, Beaulieu, Carolyn Brown, Larry Brown, Butler, Chris Christensen, Converse, David Cote, Coughlin, DeJoie, DiFruscia, Stephanie Eaton, Emiro, Espieffs, Donald Flanders, Gargas, Goodwin, Greco, Heald, Henson, Hilliard, Hopfgarten, Hutchinson, Hutz, Infantine, Ingbretson, Introne, Jean, Stephen Johnson, Phyllis Katsakiores, Sally Kelly, Kepner, Kjellman, Lasky, Lister, Manney, Martin, Matheson, McEachern, McGuirk, McKinney, Charles McMahon, Mears, Merrow, Mesa, Mooney, Bennett Moore, Nagle, Nedeau, Nielsen, O'Connell, O'Keefe, Patten, Peterson, Priestley, Reagan, Reed, Reeve, Reeves, Reuschel, Carl Robertson, Michael Rollo, David Russell, Sanders, Schmidt, Schulze, Serlin, Spang, Spaulding, Stevens, Stohl, Sysyn, Tahir, Tholl, Weed and Wickson, the day, important business. Rep. Butcher, the day, illness in the family.

Rep. Jennifer Brown, the day, death in the family.

INTRODUCTION OF GUESTS

Pauline Chabot, partner of Rep. Morrison. Patricia Holmes, Ken and Jodi Roos and Tammy Clark, partner and guests of Rep. DeChane. Faith Tobin, wife of Rep. Tobin. Kathy Walsh and Larry Murphy, guests of the Speaker.

RESOLUTION

Reps. Wallner and Whalley offered the following: **RESOLVED**, that the House of Representatives inform the Honorable Senate that it is ready to meet in Joint Convention for the purpose of hearing the report of the Joint Committee appointed to compare and count the votes for Governor and Executive Council, for the Inauguration of the Governor and for the taking of the oath by the Executive Council. Adopted.

SENATE MESSAGE

The Senate is now ready to meet with the Honorable House of Representatives in Joint Convention for the purpose of hearing the report of the Joint Committee appointed to compare and count the votes for Governor and Executive Council, and for the Inauguration of the Governor, the Honorable John H. Lynch, and for the taking of the oath by the Executive Council.

JOINT CONVENTION

(Speaker Norelli presiding)

The Sergeant-at-Arms introduced the Honorable Senate and Senate President, Sylvia B. Larsen from Concord.

REPORT

Reps. Robert Johnson, Wallner and Pantelakos and Sens. Foster and Gatsas offered the following report: The Joint Committee appointed to compare and count the votes for Governor and Executive Council reports that it has attended to its duties and the vote is correct.

INTRODUCTION AND SEATING OF SPECIAL GUESTS

The Sergeant-at-Arms introduced special guests who were escorted to their seats by the following Aides-de-camp: Major Daniel T. Wilson, Major Jeanne B. Jones, Captain Stephanie J. Saturno, Chief Warrant Officer Richard F. Plante, Major David A. Fink, Lieutenant Colonel James M. Moody, Lieutenant Colonel Luis N. Maldonado, Major Stephanie A. Riley, Major Strider Sulley, Major Jeffrey R. Cole, Lieutenant Colonel Eugene Ritzo, Major Baldwin Domingo.

Special guests included family and friends of Governor-elect Lynch. Mayors: Hon. Michael Donovan of Concord and Hon. Steve Marchand of Portsmouth. Commissioners and Department Heads. State Treasurer Catherine Provencher. Secretary of State William Gardner. House Leadership. Representatives of state and local law enforcement: Trooper First Class Louis A. Copponi and Chief James S. Valiquet, Town of Bedford. Attorney General Kelly Ayotte. Ambassador to the United States, Hon. Edward Shumaker and Mrs. Polly Shumaker. Former House Speaker, Hon. W. Douglas Scamman and Hon. Stella Scamman. Administrative Judge representing New Hampshire Probate Courts, Hon. David King. Administrative Judge representing New Hampshire District Courts and the Family Division, Hon. Edwin W. Kelly. Chief Justice representing New Hampshire Superior Courts, Hon. Robert Lynn. Associate Justices of the New Hampshire Supreme Court: Hon. James Duggan, Hon. Richard Galway and the Hon. Gary Hicks. Senior Associate Justice of the New Hampshire Supreme Court, Hon. Linda Dalianis. Chief Justice of the New Hampshire Supreme Court, Hon. John T. Broderick, Jr. Former Governors: Hon. Walter Peterson and Mrs. Dorothy Peterson, Hon. Stephen E. Merrill, Hon. Jeanne C. Shaheen and Mr. William Shaheen. The Reverend Clergy. Retiring Executive Councilor representing District 3, Hon. Ruth L. Griffin. The Executive Council elect: Hon. Raymond Burton, Hon. John D. Shea, Hon. Beverly A. Hollingworth, Hon. Raymond J. Wiczorek and Hon. Debora B. Pignatelli. Hayden, Julia and Jacqueline Lynch, son and daughters of Governor-elect Lynch. Hon. Mary Louise Hancock, guest of Governor-elect Lynch.

Governor-elect John H. Lynch and Dr. Susan Lynch were escorted to the rostrum by the Adjutant General, Kenneth Clark.

The New Hampshire Police Association Pipes and Drums performed.

INVOCATION

Offered by Rabbi Beth D. Davidson of Temple Adath Yeshurun in Manchester.

Nearly two thousand years ago, Rabbi Tarphon taught - you are not required to complete the work, but neither are you free to abstain from it. This new year is rich with possibilities and fraught with challenges. The governance of our state will require much from those that we have elected to lead us. Time, energy, open minds and hearts, a willingness to compromise and a commitment to the good and welfare of all of New Hampshire's residents. There will always be more to do and none of us, the Governor, the Legislature or the citizens can rest on our laurels until our state is a place where each and every one of us can dwell under the proverbial fig tree and vine in security and comfort and in peace. The enormity of the task however may not frighten or defeat us as we do our best to accomplish everything for which we hope and pray. So as we stand here today, O God, we ask that You bless all of our public servants with vision and strength, with humility and dignity, with compassion and hope, with civic pride and civil discourse, with mutual respect and true tolerance. May they lead us ever mindful of the diversity which enriches New Hampshire, with appreciation for the bounty You have given us and with care for our environment and our populace. May they continue to be committed to the pursuit of life, liberty and happiness for each of us and to a New Hampshire that is prosperous and compassionate. May our Governor, John H. Lynch, be blessed with good health and sound judgment. May he never be afraid to lead by example or to ask for help. May he be inspired not only by the acts of so many men and women who have preceded him in a life of public service, but by You, the God of the universe, who wants all of us to live in peace. And let us together say Amen.

POSTING OF COLORS

Members of the New Hampshire National Guard Honor Guard posted the Colors.

PLEDGE OF ALLEGIANCE

Kristina Abbot, Madison Noyes, Isabel Price, Johnny Silk, Matthew Stone, Maya Swope, Logan Symonds, Rusty Wilder, Fiona Morris, Galena Walker and Julia Walker from the Wells Memorial School Civics Club of Harrisville, led the Pledge of Allegiance.

NATIONAL ANTHEM

The National Anthem was sung by the members of Alabaster Blue from the University of New Hampshire in Durham.

OATHS OF OFFICE

The Honorable John T. Broderick, Jr., Chief Justice of the New Hampshire Supreme Court administered the oath of office to Governor-elect John H. Lynch. Dr. Susan Lynch, Jackie, Hayden and Julia Lynch joined the Governor on the rostrum.

Governor Lynch administered the oath of office to the Honorable Executive Councilors-elect Raymond S. Burton, John D. Shea, Beverly A. Hollingworth, Raymond J. Wieczorek and Debora B. Pignatelli.

PRAYER

A Prayer for a Successful Administration was offered by Rev. Jared A. Rardin of the South Congregational Church, United Church of Christ in Concord. He was accompanied by Debra Douglas, Robert and Helen McGlashan and Alan McGlashan performing a musical interlude with their rendition of "We Gather Together."

Though we are many today, we are in many ways one. During this Prayer for Governor Lynch and his administration, I invite us to express that oneness in heart and voice. After the spoken prayer, the quartet will sing three verses of the Thanksgiving hymn "We Gather Together." We will then invite everyone who wishes to join in by singing or humming the first verse one last time.

O God, on this festive inaugural day of oath-taking and promise making; on this day when the high ideals and weighty responsibilities of public leadership converge, we pause. We pause to remember the human beings who find themselves in the middle of it all. We pray for Your servant, our Governor John Lynch. We give You thanks for John's willingness to lead, and for his constant invitation to collaboration. We pray that You would help him to stay human through the daily onslaught of needs and wants which find their way to him. Grant him the occasional moment to take sanctuary from the daily grind and to breathe deeply; grant him frequent laughter, and plenty of room, when he needs it, to ground himself anew in the leadings of his own conscience. And we pause to pray also for his wife Dr. Susan Lynch and their children Jacqueline, Julia and Hayden; that they might know a daily sense of Your Holy Presence. Guide them through the inevitable times of private and public challenge, and grant to them the energy and the wisdom to remain authentic and real in a world so bent on pretense. Let Your wisdom also guide the members of the Executive Council, Raymond Burton, Beverly Hollingworth, John Shea, Raymond Wieczorek and Debora Pignatelli, that together this administration might indeed be successful. And may its success be measured not only in bills passed and policies shaped, in business developed and dollars spent. May it be measured in the meeting of minds and the deepening of community. May it be measured by a sense of working together and shared humanity. May it be measured in families blessed, individual lives strengthened, strangers welcomed, hungry fed, homeless housed. May it be measured in hands outstretched and hearts awakened. Bless this Administration, we pray, and all who work to support it. And bless us all, that, together, we may indeed be a blessing to others. Amen.

POEM

New Hampshire Poet Laureate Patricia Fargnoli of Walpole recited one of her works.

INAUGURAL ADDRESS

Governor John H. Lynch delivered his Inaugural Address.

Thank you all very much. Madam Speaker, Madam President, Mr. Chief Justice and members of the judiciary, Honorable members of the House, Senate and Executive Council, and my fellow citizens of New Hampshire:

You have again entrusted me with the sacred responsibility of serving as a steward of our great state, of protecting our traditions and building our future, of protecting your interests and those of generations to come. I pledge to you once again that every day, in every endeavor, I will work to honor your trust.

Let me take a moment to thank the four most important people in my life. The love of my life, my best friend and our exceptional first lady, my wife Susan. Our children; Jackie, a college student; Julia, a senior in high school; and Hayden, an eighth grader. I would not be here today without their love and support.

Many of our citizens are serving today with the New Hampshire National Guard and other armed services in Iraq, Afghanistan and other troubled spots around the world. I've had the privilege of meeting many of these brave men and women. Let us pray for their safe return to their families and please join me in thanking them for their courage and their sacrifice.

We live in the greatest state in the greatest country in the world. Today is a day of new beginnings, a day to celebrate all that makes New Hampshire so special. We celebrate the history and traditions that still guide our state. We celebrate the innovation that drives our strong economy. We celebrate the volunteer and civic spirit that makes our communities so strong. We celebrate New Hampshire's natural beauty – majestic mountains, abundant forests and clean waters. But most of all we celebrate New Hampshire's people. We celebrate the veterans who sacrificed to protect us, the seniors who built our great state. We celebrate the police officers, firefighters and EMTs who keep us safe; the teachers who shape the next generation; the state employees and the municipal employees who serve us all; the hard-working men and women who keep our state vibrant; and the children who represent our hope for the future. Our people are what make New Hampshire so strong and great.

Today, we celebrate New Hampshire's past and present, and begin the next chapter of our history. In 1819, Samuel Bell delivered the first address by a Governor to a Legislature in this State House, saying: "Important trusts have been committed to us by our fellow citizens. The general good is the object which we should have in view." It is, he said, "...a trust of great responsibility." These are trusts we all share, regardless of political party: improving education, strengthening our economy, expanding access to health care, ensuring public safety, and preserving our natural environment.

There has been a historic change in the composition of this Legislature, but our duty to the people has not changed. Our duty is not to seek Democratic solutions or Republican solutions, but rather, we must seek New Hampshire solutions to the challenges we face. To all the members of the Legislature, please know that I am committed to working with all of you. We will not always agree, but we are united in our love for New Hampshire and its people. That common devotion is stronger than anything that may divide us. Together, we can rise to meet the expectations of our citizens. This is the lesson of the past two years; and let us go forward in that same spirit.

The New Hampshire we live in today was shaped by the decisions and ideas of all those who came before us. As we begin our work together, let us remember that the decisions that we make will shape New Hampshire and the lives of our people for 10, 20, 100 years to come. By committing ourselves to the people of this state, by embracing New Hampshire values and traditions, by working together, we will lay a strong foundation for New Hampshire's future.

Our future depends on our children and our children's future depends on their education. The state of New Hampshire plays an important role in public education – from setting clear standards for what we expect our children to learn to helping finance the costs of education. Let us embrace that responsibility and work toward a sensible and sustainable approach for ensuring a quality education for all of our children.

Too often, our education debates have focused on the frustration with the courts or the desire by some to fundamentally change our state's tax structure. The people of New Hampshire have spoken clearly. They believe, as I do, that the state has a responsibility for public education. They believe, as I do, that the state should meet that responsibility without fundamentally changing our tax structure, particularly without a sales or income tax. Let us put these old debates behind. Let us move past distrust for one another's motives. Let us trust that we all want what's best for New Hampshire's children.

Our first step is to define more clearly an adequate education – what our students will need to know to succeed as citizens and to compete in today's economy. As a state, we already have curriculum requirements in our school approval standards that clearly spell out what we believe all students should know by the time they graduate from high school. By using these requirements as our foundation, we can most certainly meet this challenge. Our goal is to ensure educational opportunity for all of our children. We know that there are some communities that can offer more to their students, while other communities struggle to just provide the basics. A school funding formula that distributes essentially the same amount of state aid for every student, regardless of community and need, will only widen these disparities of opportunity. In contrast, directing education aid to the communities with the greatest need will help ensure fair opportunities for all of our students. We can lift up the communities that are struggling to provide a quality education and ease the burden of property taxes in communities that struggle the most.

As a state, we have a moral and a constitutional responsibility for education. To make real progress on this issue, we need to focus on how we ensure the best education possible for every child in New Hampshire. When this is our only focus, I believe most people in New Hampshire and in this Legislature would agree that we should target education aid to the children and to the communities that need it most. However, we must recognize that the court's interpretation of the Constitution makes it difficult to implement an effective targeted aid law. To implement the best education policy for our state, I strongly believe that we must be open to considering a narrow amendment to our Constitution. Not an amendment that allows the state to walk away from its responsibility for education. Not an amendment to take the courts out of education. But instead, an amendment that affirms the state's responsibility for education, and allows us to direct education aid to the children and communities which need it the most. I ask everyone in this chamber to work with me to craft a solution that is right for our children and right for our state.

In 1903, the New Hampshire Legislature passed a law requiring young people to stay in school until age 16. Their goal was to make sure children did not leave school without the basic education they needed to get good jobs and live better lives.

The world today is very different than it was in 1903. Today a high school diploma is the minimum price of admission for most jobs. Yet 20 percent of our young people are dropping out of high school. These young people will not get the opportunities they deserve. Half a high school education is now no longer enough. That's why we must increase our compulsory attendance age from 16 to 18.

In my budget, I will propose the funding necessary to expand alternative learning programs, including technical education, internships and night school, to help students who don't necessarily do well in traditional classroom settings. This is just the first step in a comprehensive approach to giving every child a chance to succeed. Quality early learning, kindergarten and early intervention are also important parts of our long-term strategy for increasing the graduation rate. Together, we will make it possible for every child in New Hampshire to graduate from high school.

To keep businesses here in New Hampshire, we must encourage more of our young people to pursue careers right here in New Hampshire. That's why we must make it possible for more of our students to attend college in our state. Two years ago, we launched a new scholarship program at the university system. Last year, we froze tuition at the community technical colleges. Now, we must continue to work together to make higher education more affordable and accessible for our families here in New Hampshire. Project Running Start opens the door to college for many students. It allows high school students to take college-level classes right at their own local schools. They can earn credits that are accepted by colleges across New Hampshire and across the nation. Let us set a goal of doubling the number of students who can enroll in Project Running Start so we can help more families save on college costs.

The door to college should be open to every student who works hard.

Let us also invest in today's workers. In every part of New Hampshire, business leaders tell me that they have the products; they have the customers; but they need skilled workers if their businesses are to stay and grow in New Hampshire. Our workers – and the companies that employ them – must continually master new skills and new technologies to compete globally. By reinstating the Job Training Fund, we can partner with companies to train New Hampshire workers for good jobs. Let's keep businesses and jobs right here in New Hampshire.

I want every person in New Hampshire to have the chance for a better life. That means helping move people off welfare into sustained employment and lasting self-sufficiency. That will not be accomplished just with sanctions, but with a helping hand – child care, transportation, and, most importantly job training. In two years, I don't want to say that we've cut our welfare rolls. I want to say that we've made it possible for more families to take care of themselves.

Our economy is strong now, and we must act to secure that prosperity for the future. Innovation spurs economic growth, and creates opportunities for all of our people. Creating a research-and-development tax credit will nurture creativity and attract emerging industries to New Hampshire. It is a small investment that will pay big dividends for our workers and for our families.

Our nation needs a comprehensive energy policy for its continued economic growth. But we can take steps here in New Hampshire to help stabilize energy costs. I have set a goal of ensuring that 25 percent of our energy comes from renewable sources by 2025. Reaching that goal will give us more choices; will make our air and water cleaner; and will help create jobs right here in New Hampshire – by expanding uses of our wood products, in building clean power plants, and in research and development. This is the future; let us put New Hampshire right at the forefront.

Many of our families in New Hampshire are working hard just to get by – to pay for food, housing and child care. There is often not enough for the basics, let alone the extras. Let us do the right thing for our families and finally increase the minimum wage. In New Hampshire we value fiscally responsible government that puts the needs of the people first. That's why I will present to this Legislature in February a responsible and balanced budget. It will be a budget that protects the interests of our people, and invests in building a stronger future. And I will work with you to address our state's long-term fiscal challenges, including safeguarding our public retirement system. Our state and municipal employees, our firefighters, our police officers, our teachers have served us well. They deserve a secure retirement.

In making appointments, I will continue to select the best and most competent people for the job, regardless of political party. Leaders who share our New Hampshire values of compassion, innovation and cooperation. We came together in the past two years to restore the people's trust in state government and to pass comprehensive ethics reform. Together, we must continue to demand the highest standards of ethics and integrity.

New Hampshire was once again named one of the healthiest states in the nation. I am confident that we can make health care even better in New Hampshire. Our population is aging and that is putting a greater strain on our Medicaid system. We should look to reform, but thoughtfully, compassionately. We should help more seniors stay in their own homes and communities. We will accomplish that goal not with arbitrary rules, or by making it difficult for eligible seniors to receive Medicaid. But by holding true to our values and ensuring that there is the community care available to give our seniors the quality care and respect that they have earned. By harnessing new technologies, we can and we will make health care more affordable and accessible to all of our citizens. My Citizens Health Initiative is putting New Hampshire at the vanguard of change, and it is doing it the New Hampshire way – by bringing providers, consumers and business leaders to find common ground and real solutions. New Hampshire is the first state in the nation to set an aggressive timetable – October 2008 – for ensuring that all our health care providers have the ability to write prescriptions electronically. Electronic prescribing will reduce medical errors, save lives and save tens of millions of dollars a year in health care costs.

We all pay a high cost for the number of uninsured. When preventable illnesses turn into chronic diseases, or when an uninsured person is forced to seek emergency room care, we all see these costs in our insurance premiums. We must work together to reduce costs and expand access to health care for all of our citizens. That starts with making sure every child has access to health insurance and quality health care. Children with access to health care do better in school and better later in life. Our children's health insurance program is one of the best investments we make as a state. It is the right thing to do for our children and the smart thing to do for our future. We must act to expand our children's health insurance program this year.

New Hampshire is one of the safest states in the nation and this is in large part due to the commitment of our first responders. In October, we experienced a terrible reminder of the dangers these men and women face with the murder of the Police Officer from Manchester, Michael Briggs. Officer Briggs was a dedicated public servant who gave his life protecting all of us. The murder of a police officer strikes at the very heart and fabric of our society, and we all felt the loss of Officer Briggs. But, in the face of that tragedy, we also saw what makes New Hampshire strong – in the continued commitment to duty of Manchester's police officers and law enforcement all over our state and in the outpouring of support from people across Manchester and across New Hampshire. We all have a role to play in keeping our communities safer.

I will soon create a Crime Commission, with representatives of law enforcement, communities and nonprofits, to make concrete recommendations on how we can improve our laws and work together to keep New Hampshire safe. We must crack down on the crimes in the 21st century. Technology is changing the way we all work and the way we do business. But it also poses new threats. I will propose legislation to toughen penalties on people who use the Internet to prey on our children. Let's make sure that our children are safe in their neighborhoods, schools and online. Our state's breathtaking landscapes and natural resources are part of our heritage and part of the legacy we are entrusted with safeguarding for the future.

The burning of toxic construction and demolition debris poses an unnecessary danger to the health of our citizens and the health of our environment. A moratorium is not enough. The risks are too great. We must permanently ban the burning of construction and demolition debris here in New Hampshire.

Groundwater is a resource essential to the future health of our citizens, and to meeting the future demands of our economy. Without access to clean water, our businesses cannot grow and our families cannot thrive. Our state needs a comprehensive groundwater policy that balances the needs of our citizens. We must act now to protect our groundwater.

Our state parks here in New Hampshire attract tens of thousands of visitors every year. They are treasures that belong to all of our citizens, today and tomorrow. We must come together to protect our state parks for the future. Some of our most historic places are falling into disrepair and some of our most beautiful places are in danger of being lost to us forever. We must preserve what is special about New Hampshire by recommitting ourselves to the Land and Community Heritage Investment Program.

I've traveled to every corner of this great state. I've visited police stations and firehouses, schools, state agencies and town offices, state parks and farms, businesses, big and small. I have met with our veterans, our seniors, our workers and with our children. I've seen how the traditions of our state live on and I've seen the great promise our future holds.

Let our legacy be that we came together, Democrats, Republicans and Independents to put partisanship aside and rose to meet the real challenges our state faced. Let our legacy be that we protected what is special about New Hampshire. Let our legacy be of clean, honest and representative government. Let our legacy be that we came together to lay the foundation for expanded opportunity for all of our citizens; the foundation for a safer, healthier and more prosperous New Hampshire. Generations before us came together to preserve and build the great state that we live in today. Let us, together, keep the promise of New Hampshire's future.

BENEDICTION

Cynthia Johnson, Minister of Education of the First Baptist Church of New London, offered the Benediction.

Creator, sustainer, our source and our center who gives wings to ideas and hopes and vision. Lift us up by the strength found from within and beyond ourselves to that place where the world's needs and where our passions meet. May we be moved today to take steps toward each other, toward the center inward and upward. May our vision be illuminated by this sustaining power of the One who lights the star fields and even still promises to burn bright as the light to our human hearts. May our ears be opened beyond distraction to this same voice that in the breath of dawn awakens us and stirs us to be agents of change in this world. Breathe in us newness and hope. And may we, O liberator God, have the courage and the commitment to diligently seek after what is good and right. To do justice, to love kindness and to walk humbly with You, in the end, recognizing and trusting in Your sustaining hand that holds the celestial skies and even still embraces and dearly loves all of creation. O love that fires the sun, O love that fires the sun, keep us burning. And may God raise you up on eagle's wings and bear you on the breath of dawn. And make you to shine like the sun and hold you in the palm of God's hand. And hold you; hold you in the palm of God's hand. Amen.

Trumpeters Nick Garlow, Timothy Denoncour, Nicholas Ellis, Shannon MacKenzie and Heather Scammon from Hopkinton High School played as the Governor and special guests were escorted from the Hall.

Rep. Wallner and Sen. Foster moved that the Joint Convention arise.
Adopted.

The Joint Convention adjourned.

HOUSE SESSION (Speaker Norelli in the Chair)

RESOLUTION

Rep. Wallner offered the following: RESOLVED, that in accordance with the list in the possession of the Clerk, House Bills numbered 31 through 49, and 51 through 56 shall be by this resolution read a first and second time by the therein listed titles, sent for printing and referred to the therein designated committees.

Adopted.

INTRODUCTION OF HOUSE BILLS

First, second reading and referral

HB 31-FN, requiring the licensure of property and casualty insurance appraisers. (Marshall Quandt, Rock 13; Matthew Quandt, Rock 13: Commerce)

HB 32, requiring photo identification to obtain a ballot. (Lund, Rock 5; Hopfgarten, Rock 5; Hinkle, Hills 19; Villeneuve, Hills 18: Election Law)

HB 33, relative to the compensation of members of the county convention. (Stohl, Coos 1; King, Coos 1; Tholl, Coos 2; Theberge, Coos 4: Municipal and County Government)

HB 34, establishing a committee to study barbering and barbering training. (Marshall Quandt, Rock 13; Matthew Quandt, Rock 13; Welch, Rock 8; J. Flanders, Rock 8; Weyler, Rock 8: Executive Departments and Administration)

- HB 632-FN**, relative to the penalty for death resulting from the trafficking of controlled drugs. (W. Knowles, Straf 6; Welch, Rock 8; Tholl, Coos 2; Movsesian, Hills 22; Forest, Hills 17; Gottesman, Dist 12; Hassan, Dist 23: Criminal Justice and Public Safety)
- HB 634-FN-A**, establishing a dropout prevention number plate. (Hilliard, Straf 2; Splaine, Rock 16: Transportation)
- HB 635-FN-A**, removing exemptions under the interest and dividends tax. (Camm, Rock 8: Ways and Means)

HB 636-FN, relative to physician credentialing under the managed care law. (McLeod, Graf 2; Nordgren, Graf 9; DeStefano, Merr 13; Pantelakos, Rock 16; Rosenwald, Hills 22; Odell, Dist 8: Commerce)

HB 637-FN-A-L, establishing a gaming oversight authority and video lottery gaming. (King, Coos 1: Ways and Means)

HB 638-FN, relative to lease agreements entered into by the department of transportation. (Graham, Hills 18; Chandler, Carr 1; Rausch, Rock 5; Lerandau, Ches 6: Public Works and Highways)

HB 639, relative to limitations on withdrawal from a cooperative school district. (Irwin, Hills 3; Spratt, Hills 3; J. Hammond, Hills 3; Peterson, Hills 3: Education)

HJR 1, urging that more veterans' mental health counseling centers be established in New Hampshire. (Hawkins, Hills 18; Graham, Hills 18; Major, Rock 8; J. Thomas, Belk 5; Coughlin, Hills 4; Letourneau, Dist 19; Kenney, Dist 3; Roberge, Dist 9: State-Federal Relations and Veterans Affairs)

RECESS

(Speaker Norelli in the Chair)

Rep. Wallner moved that the House adjourn.

Adopted.

HOUSE JOURNAL No. 4

Wednesday, January 31, 2007

The House assembled at 10:00 a.m. and was called to order by the Speaker.

His Excellency, Governor John H. Lynch, joined the Speaker on the rostrum for the day's opening ceremonies.

Prayer was offered by House Chaplain, Reverend Jared A. Rardin, Pastor of the South Congregational Church in Concord.

O God, every now and then, like the first glimpse of a mountaintop sunrise or the spray from a freshly-torn grapefruit, Your presence bursts out into the most common of moments and we rub our eyes and scratch our head and marvel at just how much of You we miss seeing everyday.

O God of irrepressible newness and life, grant to us here gathered a freshly new sense of Your presence. Teach us to place our trust in that which is possible and to lead from the places of our deepest hopes. We pray for one another, regardless of position or party. Bless us in the session ahead with a sense of common purpose. And bless those among us, among our families and among the people of New Hampshire who find themselves in need of Your care this day. In Your Holy name we pray. Amen.

Rep. Dudley Dumaine, member from Auburn, led the Pledge of Allegiance.

The National Anthem was sung by Kaycee Sawyer of New Hampton, a student at Newfound Memorial Middle School in Bristol.

LEAVES OF ABSENCE

Reps. Drisko, Forsing, Haefner, Houde, Stephen Johnson, Jane Kelley, John Kelley, King and Mesa the day, illness.

Reps. Abbott, Hall, Hilliard, Howard, Introne, Mickelonis, Nagle, Nowe, O'Brien, Priestley, Deanna Rollo and Marjorie Smith, the day, important business.

Reps. Emiro and L'Heureux, the day, illness in the family.

INTRODUCTION OF GUESTS

Richard and Janet Heitmiller, guests of Rep. Mooney. Nathaniel and Laurie Sawyer, parents of the singer, guests of the House. Beatrice Jillette, wife of Rep. Jillette.

Sara Moe, Winnacunnet High School student, Page for the Day.

COMMUNICATION

January 4, 2007

Karen Wadsworth

Clerk of the NH House of Representatives

State House

Concord, N.H. 03301

Dear Karen:

The following representatives-elect were sworn into office by the Governor and Executive Council on this day:

Cheshire County District 3, Kris E. Roberts, d, Keene (58 Grove Street) 03431

Hillsborough County District 12, Francis Sullivan, d, Manchester (14 Watson Street) 03103

Hillsborough County District 18, Edward P. Moran, r, Bedford (19 Ministerial Road) 03110

Rockingham County District 9, C. Pennington Brown, d, Epping (153 Old Hedding Road #40) 03042

Strafford County District 3, Kay Oppenheimer, d, Strafford (88 Province Road) 03884

Sincerely,

Karen Ladd, Assistant Secretary of State

COMMUNICATION

January 4, 2007

To Whom It May Concern:

I, Catherine Hackett, currently a member of the New Hampshire General Court representing Hillsborough County District 9, am writing today to inform you that I have just recently moved

from my residence to another residence which is located in Manchester Ward 6. Therefore, in accordance with New Hampshire law, I am formally submitting to you my resignation from the New Hampshire House of Representatives.

On a personal note, I want to express my deep disappointment to Speaker Norelli, Majority Leader Wallner, Clerk Wadsworth, and all of the distinguished members of the New Hampshire House. While I was not able to fulfill the promise I made to my constituents, I look forward to staying actively involved in both state and local government. If it were not for a pressing family issue which required that I move, I would have been honored and privileged to serve the people of New Hampshire in the General Court.

Respectfully,
Rep. Catherine Hackett
Hillsborough District 9

The Speaker accepted the resignation.

RESOLUTION

Rep. Wallner offered the following: RESOLVED, that in accordance with the list in the possession of the Clerk, House Bills numbered 640 through 649, 651 through 667, 669 through 674 and 676 through 691 shall be by this resolution read a first and second time by the therein listed titles, sent for printing and referred to the therein designated committees.

Adopted.

INTRODUCTION OF HOUSE BILLS

First, second reading and referral

HB 640-FN, relative to requiring reimbursement of search and rescue costs of the fish and game department. (Weyler, Rock 8; L'Heureux, Hills 19; Nowe, Rock 9; M. Smith, Straf 7; Foster, Hills 4: Fish and Game)

HB 652-FN, relative to the collection of debts owed to the state. (Hawkins, Hills 18; Mooney, Hills 19; Hinkle, Hills 19; Bergin, Hills 6; L'Heureux, Hills 19; Roberge, Dist 9; Kenney, Dist 3: Executive Departments and Administration)

HB 653, relative to the membership of the New Hampshire retirement system board of trustees. (Hawkins, Hills 18; Price, Hills 26: Executive Departments and Administration)

HB 654-FN, prohibiting offenders against children from attending certain activities or events. (Crane, Hills 21; Mooney, Hills 19; J. Tilton, Merr 6; Kenney, Dist 3: Criminal Justice and Public Safety)

HB 655-FN, relative to unborn victims of violence. (Mooney, Hills 19; Rowe, Hills 6; Manney, Hills 7; Kappler, Rock 2; Wendelboe, Belk 1; Roberge, Dist 9; Barnes, Dist 17; Letourneau, Dist 19; Kenney, Dist 3: Criminal Justice and Public Safety)

HB 656-FN, relative to the issuance of identification cards to individuals who lack the ability to obtain a nondriver's picture identification card. (D. Smith, Hills 22; Almy, Graf 11; L'Heureux, Hills 19; Velez, Hills 12; Sgambati, Dist 4: Transportation)

HB 657, authorizing the executive director of fish and game to issue moose hunting adventure permits. (L'Heureux, Hills 19; Greco, Merr 7; Fletcher, Hills 7; Nowe, Rock 9; Stohl, Coos 1; Gallus, Dist 1: Fish and Game)

HB 658, prohibiting the taking of game by use of a tranquilizer. (L'Heureux, Hills 19; Greco, Merr 7; Nowe, Rock 9; D. Smith, Hills 22; Roberge, Dist 9; Gallus, Dist 1; Barnes, Dist 17: Fish and Game)

HB 659-FN, exempting certain motor vehicles manufactured prior to 1941 from vehicle equipment and inspection requirements. (Greco, Merr 7; Perry, Straf 3; L'Heureux, Hills 19; Barnes, Dist 17; Gatsas, Dist 16; Odell, Dist 8: Transportation)

HB 660-FN, relative to an assistant state veterinarian. (Wells, Rock 8; Phinizy, Sull 5: Environment and Agriculture)

HB 661-FN-A, establishing an executive planning commission on special education. (Stiles, Rock 15; Claire Clarke, Merr 6; Jillette, Sull 2; Casey, Rock 11; Hassan, Dist 23: Education)

HB 662-FN-A-L, exempting vehicles adapted for use by persons with disabilities from motor vehicle registration fees. (Martin, Carr 5; Knox, Carr 4; Hatch, Coos 3; DeVries, Dist 18: Municipal and County Government)

HB 663-FN-A, making an appropriation to implement the comprehensive shoreland protection act. (Spang, Straf 7; Foose, Merr 1: Resources, Recreation and Development)

HB 664-FN, relative to annual dam registration and permit application fees. (Brueggemann, Merr 12; Davis, Merr 7; Hamm, Merr 4; Parkhurst, Ches 4; Burling, Dist 5: Resources, Recreation and Development)

HB 665-FN, relative to the comprehensive shoreland protection act. (Spang, Straf 7; Weed, Ches 3; Foose, Merr 1; Fuller Clark, Dist 24; DeVries, Dist 18: Resources, Recreation and Development)

HB 666-FN, establishing a license fee for the sale of animal vaccines. (O'Connell, Hills 6; Beaulieu, Hills 17: Environment and Agriculture)

HB 667-FN-A, making an appropriation for the purposes of the catastrophic illness program. (Bergin, Hills 6; Dokmo, Hills 6; Leishman, Hills 6: Finance)

HB 669-FN-A-L, relative to kindergarten aid and kindergarten construction aid. (C. Christensen, Hills 19; Wells, Rock 8; Hinkle, Hills 19; Batula, Hills 19; Emerton, Hills 7; Letourneau, Dist 19: Education)

HB 670, relative to repealing the incorporation of the New Hampshire Bar Association. (L. Christiansen, Hills 27: Judiciary)

HB 671, relative to certain data used for workers' compensation rates. (DiFruscia, Rock 4; Holden, Hills 7; Bishop, Rock 2: Labor, Industrial and Rehabilitative Services)

HB 672, establishing a commission to study requirements for safe and secure landfills. (Hamm, Merr 4; Lockwood, Merr 6; Millham, Belk 5; Fuller Clark, Dist 24; Janeway, Dist 7: Environment and Agriculture)

HB 673, allowing advanced registered nurse practitioners to certify walking disabilities. (Harding, Graf 11; Manney, Hills 7; Skinder, Sull 1; Millham, Belk 5; Sgambati, Dist 4: Executive Departments and Administration)

HB 674, extending the veterans' property tax credit to all honorably discharged veterans. (Lawrence, Hills 27; Goyette, Hills 27; Bergeron, Hills 27; P. Katsakiores, Rock 5; Ulery, Hills 27: Municipal and County Government)

HB 676, relative to interest on deposits required under gasoline franchise agreements. (Greco, Merr 7; Davis, Merr 7; Reed, Merr 2; L'Heureux, Hills 19: Commerce)

HB 677-FN, relative to special education procedural safeguards and the dispute resolution process. (Stiles, Rock 15; Claire Clarke, Merr 6; Jillette, Sull 2; Casey, Rock 11; Itse, Rock 9; Hassan, Dist 23: Education)

HB 678-FN, revising the special education program approval and monitoring process. (Stiles, Rock 15; Claire Clarke, Merr 6; Jillette, Sull 2; Casey, Rock 11; Itse, Rock 9; Hassan, Dist 23: Education)

HB 679-FN-L, relative to delivery of special education services. (Stiles, Rock 15; Claire Clarke, Merr 6; Jillette, Sull 2; Casey, Rock 11; Itse, Rock 9; Hassan, Dist 23: Education)

HB 680, allowing municipalities to determine the hours for the Saturday session for correction of the checklist. (G. Katsakiores, Rock 5; P. Katsakiores, Rock 5; Nowe, Rock 9; Rausch, Rock 5; Letourneau, Dist 19: Municipal and County Government)

HB 681-FN-A, relative to full cent gas pricing and road tolls. (Benn, Graf 9; Cloutier, Sull 4; Waterhouse, Rock 4; Almy, Graf 11; Fuller Clark, Dist 24: Public Works and Highways)

HB 682, relative to the court's authority to award parental rights and responsibilities to a "psychological parent." (Lawrence, Hills 27: Children and Family Law)

HB 683, relative to nominations by party committees. (D. Cote, Hills 23; C. Chase, Hills 2; Gorman, Hills 23: Election Law)

HB 684, establishing a rest area and state liquor store retail opportunities commission. (Crane, Hills 21; Mooney, Hills 19; Nowe, Rock 9; Baldasaro, Rock 3; Buxton, Rock 10; Kenney, Dist 3: Public Works and Highways)

HB 685, prohibiting New Hampshire from participating in a national identification card system. (Kurk, Hills 7; Phinizy, Sull 5; Winters, Hills 17; L. Christiansen, Hills 27; Almy, Graf 11; Burling, Dist 5: Transportation)

HB 686-FN, relative to the regulation of tracking devices. (Kurk, Hills 7; M. Smith, Straf 7: Commerce)

HB 687, requiring the redistricting of the house of representatives for the 2008 elections. (Kurk, Hills 7; Hunter, Hills 7; Manney, Hills 7; Itse, Rock 9: Election Law)

HB 688, establishing the council on the relationship between public health and the environment. (French, Merr 5; Pilliod, Belk 5; Miller, Straf 7; Fuller Clark, Dist 24: Health, Human Services and Elderly Affairs)

HB 689, establishing a commission to study production and distribution of biodiesel fuel in New Hampshire. (Borden, Rock 18; Almy, Graf 11; Essex, Hills 1; Harvey, Hills 21; Fuller Clark, Dist 24; Janeway, Dist 7: Science, Technology and Energy)

HB 690, relative to job skill training in volunteer work by unemployed individuals. (Jane Kelley, Rock 15: Labor, Industrial and Rehabilitative Services)

HB 691, excluding the value of a view from property tax assessments on working farms. (Kurk, Hills 7; Kaelin, Hills 4; Spaulding, Hills 18: Municipal and County Government)

COMMITTEE REPORTS

CONSENT CALENDAR

Rep. Wallner moved that the Consent Calendar as printed in the day's House Record be adopted.

HB 87, relative to the exceptions to compulsory school attendance, removed by Rep. Sorg.
Consent Calendar adopted.

HB 33, relative to the compensation of members of the county convention. **OUGHT TO PASS.**
Rep. Andy R. Peterson for Municipal and County Government: This bill repeals an outdated provision in the mileage reimbursement for participation by delegates in county conventions and was unanimously seen as an appropriate update to the statutes. Vote 19-0.

HB 70, including nonresident property owners who are veterans and at least 65 years of age in the persons qualified to receive the veterans' property tax credit. **INEXPEDIENT TO LEGISLATE.**
Rep. Eric G. Stohl for Municipal and County Government: The purpose of this bill is to allow nonresident property owners who are at least 65 years of age and have owned their property for at least 25 consecutive years to become qualified to receive the veteran's property tax credit in this state. This bill fails to restrict the credit qualifications to one municipality and does not provide a definition of "nonresident." This term could refer to someone from another town within the state, not necessarily from another state. There wasn't any reference to reciprocity in the bill for residents of New Hampshire to receive the same benefits in other states for the granting of the credit in this state. The committee unanimously agreed that passing this bill would shift additional tax burden onto other taxpayers within the municipality unfairly. Vote 18-0.

REGULAR CALENDAR

HB 53, relative to school health personnel. **OUGHT TO PASS.**

Rep. Charles B. Yeaton for Education: The bill clarifies the language of the current education statute relative to school nurses consistent with the Nurse Practice Act. The bill removes the word "direct" from the education statute and simply refers to the word "supervision." There is no longer a definition of the word "direct" in the Nurse Practice Act. Vote 12-2.

Committee report adopted and ordered to third reading.

HB 39, repealing the penalty provision in discretionary preservation easements. MAJORITY: OUGHT TO PASS. MINORITY: INEXPEDIENT TO LEGISLATE.

Rep. Andy R. Peterson for the Majority of Municipal and County Government: The majority of the committee voted in favor of this bill which removes the option for communities to impose up to a 10% penalty upon the expiration of discretionary preservation easements. These easements of 10 or more years duration are designed to provide a reduced assessment, negotiated between 25% or 75% of full valuation, with the community or an individual basis for the purpose of preserving and maintaining historic barn structures. The change will remove a troublesome "catch-22" in the current law which testimony revealed has depressed interest of otherwise willing historic barn owners to participate in this program, in which approximately 260 parties statewide have participated since the original bill was passed in 2002. The ability of communities to levy penalties for early withdrawal or breach of the preservation agreement, including failure to upkeep the property, would however remain in effect. In order to increase the power of this tool to retain an important part of our history and preserve structures which beautify our state, the majority agrees with the NH Preservation Alliance and the NH Director of Historical Resources and others who appeared before us that the bill be made law. Vote 11-8.

Rep. Betsey L. Patten for the Minority of Municipal and County Government: A discretionary preservation easement is entitled to a partial exemption from property taxes during the life of the easement. For a public benefit a private benefit is given. The taxpayer is granted a reduction of the assessed value on the preserved building and the land supporting that building within a range of 25 to 75 percent of the fair market value for a period no less than ten years. This lowers the tax burden on the easement holder by shifting the cost to the rest of the taxpayers in the municipality. The governing body of a town and an individual easement holder may negotiate the terms of the easement including an option of a payment not to exceed 10 percent of the fair market value prior to the town accepting the easement. Currently when the easement runs out both parties are able to negotiate for either renewal or expiration. If either event happens the municipality is entitled to recoup the agreed upon amount. The discretionary easement statute RSA 79-D has only been in effect for four years. Consequently we have no history of non renewals making the repeal premature. Removing this payment is renegeing on a sworn duty made by the governing body to watch over and protect the community assets. Is it fair that one taxpayer gets a tax benefit while the rest of the community pays for that benefit without even having an opportunity to vote on the granting of easements? The minority feels that repealing this payment would cause an increase in property taxes at the local level. Is this the intent of RSA 79-D? The minority does not believe so. The minority also agrees with the New Hampshire Municipal Association, who on behalf of New Hampshire cities and towns, testified in opposition to this repeal.

Rep. Stohl spoke against.

Rep. Patten spoke against and yielded to questions.

Reps. Peterson and Theberge spoke in favor and yielded to questions.

Rep. Kurk requested a roll call; sufficiently seconded.

BILL REMOVED FROM CONSENT CALENDAR

HB 87, relative to the exceptions to compulsory school attendance. **OUGHT TO PASS.**

Rep. Kimberley S. Casey for Education: This bill clarifies language with regard to compulsory attendance and out of state placement in approved schools. Vote 14-0.

Rep. Sorg spoke against.

Rep. Dunn spoke in favor and yielded to questions.

Committee report adopted and ordered to third reading.

RESOLUTION

Reps. Wallner and Whalley offered the following: **RESOLVED**, that the House adopt amendments to House Rules 30 and 64.

AMENDMENT TO HOUSE RULES

Amend House Rule 30 to read as follows:

30. The following standing policy committees shall be appointed at the commencement of any session and will consist of not more than 24 members, *with the exception of the House Finance Committee, which will have 25 members*: Children and Family Law; Commerce; Criminal Justice and Public Safety; Education; Election Law; Environment and Agriculture; Executive Departments and Administration; Finance; Fish and Game; Health, Human Services and Elderly Affairs; Judiciary; Labor, Industrial and Rehabilitative Services; Legislative Administration; Municipal and County Government; Public Works and Highways; Resources, Recreation and Development; Rules; Science, Technology and Energy; State-Federal Relations and Veterans Affairs; Transportation and Ways and Means.

Amend House Rule 64 by adding the following:

Wednesday, January 31, 2007	Last day to introduce House bills
	Last day to amend House Rules by majority vote
Thursday, February 22, 2007, noon	Last day to report House bills going to a second committee
Wednesday, March 7, 2007	Last day to act on House bills going to a second committee
Thursday, March 22, 2007, noon	Last day to report all House bills not in a second committee, except budgets
Wednesday, March 28, 2007	Last day to act on all House bills not in a second committee, except budgets
Thursday, April 5, 2007, noon	Last day to report all remaining House bills for action in the first year session
	Last day to report list of retained House bills
Thursday, April 12, 2007	Last day to act on House bills: CROSSOVER
Thursday, May 10, 2007, noon	Last day to report Senate bills going to a second committee
Wednesday, May 16, 2007	Last day to act on Senate bills going to a second committee
Thursday, May 31, 2007, noon	Last day to report all remaining Senate bills for action in the first year session
	Last day to report list of retained Senate bills
Wednesday, June 6, 2007	Last day to act on Senate bills
Wednesday, June 13, 2007	Last day to form Committees of Conference
Thursday, June 21, 2007, noon	Last day to sign Committee of Conference reports
Wednesday, June 27, 2007	Last day to act on Committee of Conference reports

Reps. Wallner and Whalley spoke in favor.
Adopted.

RESOLUTION

Rep. Wallner offered the following: **RESOLVED**, that the House now adjourn from the early session, that the business of the late session be in order at the present time, that the reading of bills be by title only and resolutions by caption only and that all bills ordered to third reading be read a third time by this resolution, and that all titles of bills be the same as adopted, and that they be passed at the present time, and when the House adjourns today it be to meet Thursday, February 15, 2007 at 10:00 a.m.

Adopted.

LATE SESSION

Third reading and final passage

HB 33, relative to the compensation of members of the county convention.

HB 53, relative to school health personnel.

HB 39, repealing the penalty provision in discretionary preservation easements.

HB 87, relative to the exceptions to compulsory school attendance.

PERSONAL PRIVILEGE

Rep. Larry Brown addressed the House.

UNANIMOUS CONSENT

Rep. Bettencourt addressed the House.

MOTION TO PRINT REMARKS

Rep. Rollo moved that the remarks made by Rep. Bettencourt be printed in the Permanent Journal.
Adopted.

REMARKS

Rep. Bettencourt: Thank you, Madam Speaker. Honorable Members of the General Court, it is earnestly regrettable that I must rise this afternoon to begin this new term on a sad note. This past October, the Salem community and the State of New Hampshire lost another of its finest citizens; we lost another one of our heroes.

On October 6, 2006, Nicholas Arvanitis, of the U.S. Army's 3rd Brigade, 82nd Airborne Division was killed by small arms gunfire while on a mission near Bayji, Iraq. He was 22 years old. Cpl. Arvanitis lived his entire life in Salem and graduated from Salem High School in 2003. During his time at SHS he was a member of the school's baseball and soccer teams and a prominent member of the school's championship wrestling team his senior year. He was also an accomplished guitarist, turning down a scholarship to the Berklee College of Music in Boston to enlist in the Army after the terrorist attacks of September 11. Madam Speaker, on two prior occasions I have risen before this House with the unwelcome duty to recognize and give tribute to a Salem native who has given "the last full measure of devotion." But on those prior occasions, I have had the benefit of having had no personal emotional bonds to the brave men lost. I enjoy no such benefit in this instance. For in addition to being of great courage, of great leadership, and of great altruism, Nick Arvanitis was a dear friend.

While preparing these remarks I did not need to confer with a family member or a mutual friend. I need only close my eyes and reflect. Memory at times can be a decidedly fickle mistress, but it is not so when I think of Nick. We first became friends when we attended elementary and middle school together and then had the privilege to play three years in town league baseball; in retrospect you could tell early on he was a special person. He had a personality that filled a room with warmth and energy. His convictions were strong, always firmly argued and were as straight as the columns of this hall. A story that embodies Nick's caliber of person was that he joined the Army prior to turning 18, insisting that his mother sign the consent forms. He told his grandmother, "I'm going for a good cause. I want to make you, Grampy and America safe." After serving in Afghanistan last year, he was ordered to return home this spring to become a recruiter. He refused, demanding a mission in Iraq; he lost his life two months later. He believed in freedom and sought to guard it wherever he felt it was threatened, that's simply who he was. He leaves behind his mother, Maureen, his sister Kimberly, and two sets of grandparents. May we forever be grateful for the sacrifice of Cpl. Arvanitis and all of New Hampshire's fallen heroes who have given their lives to

keep us safe and free. May we always be sure to differentiate between the political views of war and the brave men and women who take on the mission. May we hold them and their families in our hearts and our prayers. Salem and the State of New Hampshire have lost a great citizen, the Arvanitis family has lost a great son, grandson and brother and I have lost a dear friend. God Bless Cpl. Nicholas Arvanitis and the State and Country he loved. Thank you, Madam Speaker.

A moment of silence was observed in honor and memory of Cpl. Nicholas Arvanitis.

RECESS MOTION

Rep. Wallner moved that the House stand in recess for the purpose of introduction of bills.
Adopted.

The House recessed at 11.35 a.m.

RECESS

COMMITTEE ASSIGNMENT CHANGES

The Speaker made the following changes to committee assignments:

Rep. Stephanie Eaton off Resources, Recreation and Development; on State-Federal Relations and Veterans Affairs.

Rep. Lawrence M. Kappler off State-Federal Relations and Veterans Affairs; on Resources, Recreation and Development.

- HB 834-FN-A**, relative to sales of tobacco products in state liquor stores. (Burrige, Ches 3; Executive Departments and Administration)
- HB 835-FN**, relative to funding the modular building program. (Pilotte, Hills 16; Infantine, Hills 13; F. Sullivan, Hills 12; DeVries, Dist 18: Finance)
- HB 836**, prohibiting wastewater treatment plants from excluding towns for septage treatment and disposal services. (Beaulieu, Hills 17; S. Merrick, Coos 2; Marshall Quandt, Rock 13; Spang, Straf 7; Foster, Hills 4; Fuller Clark, Dist 24: Environment and Agriculture)
- HB 837**, relative to easements and the land and community heritage investment program. (O'Connell, Hills 6; B. Williams, Graf 8: Resources, Recreation and Development)
- HB 838-FN-L**, allowing municipalities to recover certain costs related to right-to-know requests. (Lasky, Hills 26; Clemons, Hills 24: Municipal and County Government)
- HB 839**, establishment of maximum retail fluid milk prices. (King, Coos 1; Ingersoll, Coos 4; Remick, Coos 2: Environment and Agriculture)
- HB 840**, relative to home improvement contracts. (Infantine, Hills 13: Commerce)
- HB 841**, relative to the appointment of parenting coordinators. (Gargas, Hills 5; Franklin, Sull 2; Peterson, Hills 3; Roberge, Dist 9: Children and Family Law)
- HB 842**, establishing safety requirements and procedures for firefighters. (DeJoie, Merr 11; Goley, Hills 8; Weare, Rock 14; O'Brien, Hills 26; P. Garrity, Hills 14; Gottesman, Dist 12; Clegg, Dist 14: Criminal Justice and Public Safety)
- HB 843-FN**, requiring excess revenue stabilization reserve account funds to be used to make payments to all homeowners of primary residences in this state. (Renzullo, Hills 27; L. Ober, Hills 27; Hopfgarten, Rock 5; Ulery, Hills 27: Ways and Means)
- HB 844-FN**, authorizing the commissioner of revenue administration to issue demands for records for purposes of interest and dividends tax audits and to seize and destroy unstamped and invalidly stamped tobacco products. (Major, Rock 8; Hamm, Merr 4: Ways and Means)
- HB 845-FN-A**, making an appropriation to the town of Dorchester to rebuild the Province road bridge. (Mulholland, Graf 10; Reynolds, Dist 2: Public Works and Highways)
- HB 846**, transferring certain land in the town of Stoddard from the Trust for Public Land to the fish and game department. (D. Eaton, Ches 2: Fish and Game)
- HB 847**, relative to general rules for vessels operating on water. (Pilliod, Belk 5; Lovett, Graf 8; Abbott, Rock 12; Patten, Carr 4; Millham, Belk 5; Hassan, Dist 23; Burling, Dist 5; Cilley, Dist 6; Kenney, Dist 3; Fuller Clark, Dist 24: Transportation)
- HB 848**, relative to a private right of action to recover workers' compensation coverage payments. (Long, Hills 10: Labor, Industrial and Rehabilitative Services)
- HB 849**, relative to rent payments by voucher issued by a state or municipal agency. (Donovan, Sull 4; Emerson, Ches 7: Judiciary)
- HB 851-FN-A-L**, relative to the determination of county payments for nursing home services. (Schmidt, Straf 4: Municipal and County Government)
- HB 852-FN-A-L**, changing the rate and distribution of the excavation tax. (Martin, Carr 5: Municipal and County Government)
- HB 853**, establishing a commission to study the effect of fiat currency on the wealth of New Hampshire citizens. (Itse, Rock 9; M. Clark, Hills 18: Commerce)
- HB 854-L**, relative to remedies under the right-to-know law. (J. Thomas, Belk 5; Espieffs, Ches 3: Judiciary)
- HB 855**, relative to renewable energy generation incentive payments. (Kaelin, Hills 4; C. Chase, Hills 2; Fuller Clark, Dist 24; Cilley, Dist 6: Science, Technology and Energy)
- HB 856**, relative to the definition of veteran. (Emiro, Rock 3: State-Federal Relations and Veterans Affairs)
- HB 857-FN-L**, relative to permitting responsibilities under the comprehensive shoreland protection act. (Spang, Straf 7; Powers, Rock 16; Fuller Clark, Dist 24: Resources, Recreation and Development)
- HB 858-FN**, relative to discount medical plan organization. (McLeod, Graf 2; DeStefano, Merr 13; D. Flanders, Belk 4; Headd, Rock 3; DeVries, Dist 18; Sgambati, Dist 4: Health, Human Services and Elderly Affairs)
- HB 859**, relative to the definitions of agriculture and farming in the motor vehicle laws. (O'Connell, Hills 6; B. Williams, Graf 8; Tobin, Belk 2: Environment and Agriculture)

- HB 860**, relative to maintenance of draft beer equipment. (Baroody, Hills 13; D. Eaton, Ches 2; Belanger, Rock 4; Kopka, Hills 26: Commerce)
- HB 861-FN**, allowing certain members of the United States armed forces and their dependents to attend public postsecondary institutions at the in-state resident tuition rate. (Kjellman, Merr 5; Shurtleff, Merr 10; Hatch, Coos 3; Dingman, Graf 5; Baldasaro, Rock 3; Kenney, Dist 3; Burling, Dist 5; Hassan, Dist 23: Education)
- HB 862-FN**, establishing an incapacitated adult fatality review committee. (Schulze, Hills 26; MacKay, Merr 11; Donovan, Sull 4; Emerson, Ches 7; French, Merr 5; Fuller Clark, Dist 24: Health, Human Services and Elderly Affairs)
- HB 863**, relative to the assessment of property subject to a housing subsidy restriction. (Infantine, Hills 13: Municipal and County Government)
- HB 864-FN**, requiring licensing of outpatient abortion facilities. (N. Elliott, Hills 19; Mooney, Hills 19; Manney, Hills 7; Ulery, Hills 27; Roberge, Dist 9: Health, Human Services and Elderly Affairs)
- HB 865-FN**, relative to an adequate education and state education grants. (Carson, Rock 3: Education)
- HB 866**, relative to the right-to-know law application to board of tax and land appeals and public utilities commission matters. (Wall, Straf 7; Dokmo, Hills 6; Espieffs, Ches 3; Stohl, Coos 1; Kaen, Straf 7; Burling, Dist 5: Judiciary)
- HB 867-FN-L**, relative to parent liability for court-ordered services in juvenile proceedings. (Moran, Hills 18; Movsesian, Hills 22: Children and Family Law)
- HB 868-FN**, relative to a surcharge on recording documents with the register of deeds to fund the land and community heritage investment program. (Spang, Straf 7; Kurk, Hills 7; Foose, Merr 1; Hager, Merr 12; Shurtleff, Merr 10; Fuller Clark, Dist 24; Janeway, Dist 7: Municipal and County Government)
- HB 869-FN**, relative to unauthorized video surveillance. (L'Heureux, Hills 19; Kurk, Hills 7; Gallus, Dist 1: Criminal Justice and Public Safety)
- HB 870-FN-A-L**, relative to the calculation and disbursement of adequate education grants. (Hess, Merr 9; Kurk, Hills 7: Education)
- HB 871-FN-A**, allowing the fish and game department to conduct an annual auction of moose hunting permits. (L'Heureux, Hills 19; Gallus, Dist 1; Roberge, Dist 9: Fish and Game)
- HB 872-FN**, relative to an exception to the wiretapping and eavesdropping statute for recording images or sounds occurring where there is no reasonable expectation of privacy. (Dumaine, Rock 3; Essex, Hills 1: Criminal Justice and Public Safety)
- HB 873-FN-L**, establishing minimum renewable standards for energy portfolios. (Harvey, Hills 21; Phinizy, Sull 5; Borden, Rock 18; J. Garrity, Rock 6; Fuller Clark, Dist 24; Bragdon, Dist 11: Science, Technology and Energy)
- HB 874-FN-A**, establishing a New Hampshire health access corporation, continually appropriating a special fund, and allowing the healthy kids corporation to cover certain adults. (Schmidt, Straf 4; Wall, Straf 7: Commerce)
- HB 876-FN-L**, relative to eliminating the special account, changing the definition of earnable compensation, and revising the calculation of employee and employer contribution rates and cost-of-living adjustments in the retirement system, and assigning all new employees to group I. (Kurk, Hills 7: Executive Departments and Administration)
- HB 877-FN**, relative to the state recycling program. (Morrison, Belk 2; C. Chase, Hills 2; Beaulieu, Hills 17; Tobin, Belk 2: Environment and Agriculture)
- HB 878-FN**, relative to drivers' licenses issued to persons 70 years of age and older and relative to the medical/vision advisory board. (Morrison, Belk 2; Tobin, Belk 2; Estes, Graf 7; Reynolds, Dist 2: Transportation)
- HB 879-FN**, relative to establishing a conservation agent program within the department of environmental services. (Fargo, Straf 4; L. Brown, Straf 3; Borden, Rock 18; Spang, Straf 7; Tupper, Merr 6; Estabrook, Dist 21: Environment and Agriculture)
- HB 880-FN**, requiring the department of resources and economic development to implement a feasibility study for the production of alternative forms of energy using natural resources of the state of New Hampshire and making an appropriation therefor. (Owen, Merr 4; C. Chase, Hills 2; B. Richardson, Ches 5; Phinizy, Sull 5: Science, Technology and Energy)
- HB 881-FN**, relative to the licensure and regulation of interior designers. (Wood, Belk 4; Brueggemann, Merr 12; Yeaton, Merr 8; Letourneau, Dist 19; Fuller Clark, Dist 24: Executive Departments and Administration)

- HB 882-FN**, relative to limitations on tort liability of government units. (Sorg, Graf 3: Judiciary)
- HB 883-FN-A**, relative to tolls. (O'Neil, Hills 19: Public Works and Highways)
- HB 884-FN-A**, increasing the rate of the tobacco tax. (Almy, Graf 11; Sgambati, Dist 4; Burling, Dist 5: Ways and Means)
- HB 885-FN**, relative to the deputy commissioner of the department of employment security. (Marshall Quandt, Rock 13; Matthew Quandt, Rock 13; Holden, Hills 7: Executive Departments and Administration)
- HB 886-FN-A-L**, relative to funding an adequate education. (Wells, Rock 8; Guthrie, Rock 8; Butynski, Ches 4; Holden, Hills 7: Ways and Means)
- HB 887-FN**, allowing certain members of the United States armed forces, including the reserve component, and veterans who qualify for the Montgomery GI Bill, to take courses tuition free at public postsecondary institutions. (Kjellman, Merr 5; Hatch, Coos 3; Roberts, Ches 3; Dingman, Graf 5; Baldasaro, Rock 3; Kenney, Dist 3; Hassan, Dist 23: Finance)
- HB 888-FN-A**, relative to instructional and operational costs of providing an adequate education. (Gile, Merr 10; Blanchard, Merr 10; Gargas, Hills 5; Flockhart, Rock 13: Education)
- HB 889-FN**, relative to securities regulation. (R. Johnson, Rock 1: Commerce)
- HB 890-FN**, relative to sentencing of persons convicted of Internet solicitation of a minor. (Baldasaro, Rock 3; Crane, Hills 21; Headd, Rock 3; Carson, Rock 3; Garcia, Rock 4; Kenney, Dist 3: Criminal Justice and Public Safety)
- HB 891-FN-A**, establishing a beverage fee to be paid by beverage manufacturers and distributors. (Mulholland, Graf 10: Ways and Means)
- HB 892-FN**, relative to bonding for subdivisions and condominium projects. (Infantine, Hills 13: Municipal and County Government)
- HB 893-FN**, relative to long-term care. (Donovan, Sull 4; Emerson, Ches 7; Fuller Clark, Dist 24: Health, Human Services and Elderly Affairs)
- HB 894-FN**, requiring insurance coverage for bariatric surgery for diabetics. (Marshall Quandt, Rock 13; Matthew Quandt, Rock 13: Commerce)
- HB 895-FN**, relative to licensure of court reporters. (Shurtleff, Merr 10: Executive Departments and Administration)
- HB 896-FN-L**, relative to authority to waive interest on late paid property tax bills. (Cloutier, Sull 4; Converse, Sull 4; Donovan, Sull 4; Gagnon, Sull 4; Nielsen, Sull 4; Odell, Dist 8; Burling, Dist 5: Municipal and County Government)
- HB 897-FN-A**, relative to the salary of the state veterinarian. (Phinizy, Sull 5; Wells, Rock 8: Environment and Agriculture)
- HB 898**, relative to the use of sled dogs and the training of sled dogs on state trails. (Phinizy, Sull 5; D. Russell, Belk 6; Snow, Rock 1; Gallus, Dist 1: Resources, Recreation and Development)
- HB 899-FN-A**, assessing a fee on water withdrawn for sale or resale from water supply sources in the state. (Martin, Carr 5; Dunn, Ches 3: Resources, Recreation and Development)
- HB 901**, relative to requirements for non-driver identification cards. (Mooney, Hills 19; Barry, Hills 19; L'Heureux, Hills 19; C. Christensen, Hills 19; Crane, Hills 21; Roberge, Dist 9; Gallus, Dist 1; Kenney, Dist 3: Transportation)
- HB 902**, establishing a committee to study the costs and benefits of the drug prohibition policy on the people of New Hampshire. (Ingbretson, Graf 5: Criminal Justice and Public Safety)
- HB 903-FN**, prohibiting delivery of oil to non-compliant underground storage facilities. (C. Christensen, Hills 19; Letourneau, Dist 19: Resources, Recreation and Development)
- HCR 7**, urging federal action on the earned income tax credit and other tax benefits related to child custody. (Rep. Matarazzo, Hills 20: State-Federal Relations and Veterans Affairs)
- HR 9**, supporting the U.S. Mayors Climate Protection Agreement. (S. Merrick, Coos 2; Harvey, Hills 21; Ryan, Merr 2; Fontas, Hills 24: State-Federal Relations and Veterans Affairs)
- CACR 15**, Relating to citizen review retention elections for judges. Providing that a judge shall be subject to a citizen review retention election at the biennial election next occurring after he or she has served for 2 years and subsequently at regular intervals which depend on the court in which the judge serves. (Crane, Hills 21; Ulery, Hills 27; L. Christiansen, Hills 27; Renzullo, Hills 27; Kenney, Dist 3: Judiciary)
- CACR 16**, Relating to an income and a sales tax. Providing that there shall be a state referendum prior to the legislature's adoption of an income tax or sales tax. (Long, Hills 10: Ways and Means)

CACR 17, Relating to funding for education. Providing that revenue from lotteries and games of chance may only be used for educational purposes. (DiFruscia, Rock 4; Gleason, Rock 5; Holden, Hills 7; Weyler, Rock 8; Kenney, Dist 3: Finance)

RECESS

(Speaker Norelli in the Chair)

RESOLUTION

Rep. Wallner offered the following: RESOLVED, that in accordance with the list in the possession of the Clerk, House Bills numbered 904 through 921 and House Concurrent Resolution number 8 shall be by this resolution read a first and second time by the therein listed titles, sent for printing and referred to the therein designated committees.

Adopted.

INTRODUCTION OF HOUSE BILLS AND HCR

First, second reading and referral

HB 904-FN-L, defining an adequate education and relative to calculating the cost of an adequate education and adequate education grants. (Casey, Rock 11; Wells, Rock 8; Hamm, Merr 4; Lockwood, Merr 6: Education)

HB 905, establishing civil unions as legally recognized relationships. (Vaillancourt, Hills 15: Judiciary)

HB 906, relative to an informed jury. (Ingretson, Graf 5; DiFruscia, Rock 4; Sorg, Graf 3: Judiciary)

HB 907-FN, relative to the sale, distribution, and disposal of certain mercury-added products. (Phinzy, Sull 5; Owen, Merr 4; Butcher, Ches 3; Janeway, Dist 7; Hassan, Dist 23: Environment and Agriculture)

HB 908-FN, relative to the licensure and regulation of massage therapists and registration of somatic and bodywork practitioners. (Baroody, Hills 13: Executive Departments and Administration)

HB 909, relative to oaths required of public officers. (Itse, Rock 9; L. Christiansen, Hills 27: Judiciary)

HB 910-FN, relative to state reimbursement to sheriffs' departments for the costs associated with court bailiffs. (DiFruscia, Rock 4: Finance)

HB 911-FN-L, establishing an automated external defibrillator trust fund and making an appropriation therefor. (Hamm, Merr 4; Gile, Merr 10; Welch, Rock 8; Weare, Rock 14; Levasseur, Hills 11; Burling, Dist 5: Ways and Means)

HB 912-FN-A-L, establishing the New Hampshire homestead plan. (Peterson, Hills 3; Leishman, Hills 6; C. Robertson, Rock 13; DeJoie, Merr 11: Ways and Means)

HB 913-FN-A, establishing a senior citizen property tax postponement program. (Rowe, Hills 6: Ways and Means)

HB 914-L, relative to the procedure for withdrawal from certain cooperative school districts and establishing a commission to study the procedures for withdrawal from a cooperative school district. (Drisko, Hills 5; Hall, Hills 5; Gargas, Hills 5; Levesque, Hills 5; Gottesman, Dist 12: Education)

HB 915, establishing a committee to study the trafficking and distribution of illegal drugs into and throughout New Hampshire. (Hinkle, Hills 19; Mooney, Hills 19; O'Neil, Hills 19; Hansen, Hills 6; Roberge, Dist 9: Criminal Justice and Public Safety)

HB 916, relative to nonpublic or private schools receiving public funds. (P. McMahon, Merr 3: Education)

HB 917, establishing a commission to study implementing a statewide emergency communications system. (Harding, Graf 11; L. Ober, Hills 27; J. Thomas, Belk 5; Burling, Dist 5: Science, Technology and Energy)

HB 918-FN, relative to motor vehicle registrations for manufacturers. (Campbell, Hills 24: Transportation)

HB 919, relative to the high school curriculum for New Hampshire history. (Holden, Hills 7; Rowe, Hills 6; Crane, Hills 21; R. Day, Hills 7; Kenney, Dist 3: Education)

HB 920, establishing a worker adjustment and retraining notification requirement. (Long, Hills 10: Labor, Industrial and Rehabilitative Services)

HB 921-FN, making technical changes in the insurance laws. (McLeod, Graf 2; D. Flanders, Belk 4; Headd, Rock 3; Sgambati, Dist 4: Commerce)

HCR 8, urging Congress to rename the Veterans Administration Hospital the Styles Bridges Veterans Administration Hospital. (Rep. Weyler, Rock 8: State-Federal Relations and Veterans Affairs)

RECESS

(Rep. Chandler in the Chair)

RESOLUTION

Rep. Price offered the following: **RESOLVED**, that in accordance with the list in the possession of the Clerk, House Bills numbered 922 through 924 shall be by this resolution read a first and second time by the therein listed titles, sent for printing and referred to the therein designated committees. Adopted.

INTRODUCTION OF HOUSE BILLS

First, second reading and referral

HB 922-FN, relative to licensing for games of chance. (F. Sullivan, Hills 12; Velez, Hills 12; Manney, Hills 7; P. Garrity, Hills 14; D'Allesandro, Dist 20: Executive Departments and Administration)

HB 923, prohibiting dog racing in New Hampshire and establishing a committee to make recommendations for mitigating the impacts of prohibiting dog racing. (Schmidt, Straf 4; Splaine, Rock 16; Cooney, Graf 7; Crane, Hills 21; Roberge, Dist 9: Executive Departments and Administration)

HB 924-FN, relative to the deconstruction of buildings. (Owen, Merr 4: Environment and Agriculture)

RECESS

(Speaker Norelli in the Chair)

RESOLUTION

Rep. Foster offered the following: **RESOLVED**, that in accordance with the list in the possession of the Clerk, House Bill 925 shall be by this resolution read a first and second time by the therein listed title, sent for printing and referred to the therein designated committee. Adopted.

INTRODUCTION OF HOUSE BILL

First, second reading and referral

HB 925-FN-A, relative to state and local taxes. (Hamm, Merr 4; Wells, Rock 8; Gould, Rock 5; K. Shaw, Hills 26; Mulholland, Graf 10: Ways and Means)

RECESS

(Speaker Norelli in the Chair)

Rep. Wallner moved that the House adjourn. Adopted.

HOUSE JOURNAL No. 5

Thursday, February 15, 2007

The House assembled at 10:00 a.m., the hour to which it stood adjourned, and was called to order by the Speaker.

Prayer was offered by House Chaplain, Reverend Jared A. Rardin, Pastor of the South Congregational Church in Concord.

O God of infinite newness, whether it comes on the spectacular heels of a wintry Nor'easter, or simply in a spontaneous moment of insight over a cup of coffee, we thank You for those occasions when You grant to us a vision of things as we've never quite seen them before. You have a way of transforming the ordinary into the extraordinary and dead-ends into possibilities. You turn deserts of emptiness into oases of life. Grant during this special session today that we might be particularly open to the insights, possibilities and resources You have set before us that we simply hadn't noticed before.

O God whose center is everywhere and whose periphery is nowhere, show us how, in this season of frigid snow days and sometimes frustrating budget deliberations, how we might draw into the center of communal opportunity those women, men and children in our state who find themselves at the periphery. We pray for them and for all whose benefit we are charged with. And we pray for those in our lives who find themselves in places of grief, injury, fear or loss. Bear them up in Your Holy care, we humbly pray. Amen.

Rep. Robert Foose, member from New London, led the Pledge of Allegiance.

The National Anthem was sung by Amanda Odell of Newport, a junior at Newport High School.

LEAVES OF ABSENCE

Reps. Mary Allen, George Brown, Claudia Chase, Cyr, Forsing, Howard, Stephen Johnson, Jane Kelley, Laliberte, McKinney, Mesa, Benjamin Moore, Nagle, Nowe, Shattuck, Barbara Shaw and Francis Sullivan, the day, illness.

Reps. Arsenault, Bulis, Butterworth, Devine, DesRoches, Dumaine, Ferland, Forest, Francoeur, Goley, Griffin, Hilliard, Introne, William Knowles, Kopka, Levasseur, Lovett, Martin, McGuirk, Mears, Miller, Nedeau, O'Keefe, Priestley, Marshall Quandt, Reed, Serlin, Simon, Sorg, Stevens, Tobin, Ulery, Warren and Yeaton, the day, important business.

Reps. Lars Christiansen, Coughlin, John Kelley, McCarthy, Kimberly Shaw and Tholl, the day, illness in the family.

INTRODUCTION OF GUESTS

Gerard Breault, guest of Rep. Hatch. Tracey and Lawrence Bailey, Hugh and Jacqueline Odell, family of the singer, guests of the House. Masaki Hitosugi and Bill Miller, guests of Rep. Watson. Robert Ehlers, husband of Rep. Ehlers.

RESOLUTION

Reps. Wallner and Whalley offered the following: **RESOLVED**, that the House inform the Honorable Senate it is ready to meet in Joint Convention for the purpose of hearing the Budget Address given by His Excellency, Governor John H. Lynch.

Adopted.

SENATE MESSAGE

The Senate is ready to meet in Joint Convention for the purpose of hearing Governor John H. Lynch deliver his budget message.

JOINT CONVENTION

(Speaker Norelli presiding)

The Sergeant-at-Arms introduced the Honorable Senate and Senate President, Sylvia B. Larsen from Concord.

His Excellency, Governor John H. Lynch, addressed the Joint Convention.

BUDGET ADDRESS

Good Morning and welcome to winter in New Hampshire. Madam Speaker, Madam Senate President, Honorable members of the House, Senate, and my fellow citizens of this great state of New Hampshire:

I am pleased to present to you today a balanced, honest and fiscally responsible budget – one that addresses our state's priorities without new taxes. This is a budget that uses taxpayer dollars wisely to meet state government's most fundamental responsibilities: caring for our most vulnerable citizens; educating our children; strengthening our economy; protecting our environment and natural resources; and ensuring the safety of our citizens.

In balancing this budget, we faced significant challenges. Non-discretionary costs – costs we are obligated to fund – increased by \$300 million. Benefit costs alone, including retirement costs for state employees increased by \$95 million. The state contribution toward retirement costs for local teachers, firefighters, and police officers increased by \$38 million over the biennium. Costs for our retirees' health insurance increased by \$19 million.

To balance this budget, we made tough choices. We cut agency budget requests by \$291 million. We asked agencies to justify every dollar, to be more efficient and to direct more of their resources to areas that directly serve our citizens. Traditionally agencies have kept vacant positions on their books as a way of returning money to the general fund at the end of the year. Funding long-term vacant positions makes no sense, which is why we eliminated 321 vacant positions – most vacant more than six months, some vacant for as long as six years.

We estimated revenues carefully, assuming modest economic growth. They are sound estimates, consistent with historic trends. We invested in increased advertising dollars for the Liquor Commission, Lottery and tourism promotion to increase expected revenues. And we funded auditor positions at the Department of Revenue Administration.

As a state, we receive monthly revenue reports and we continually debate revenue projections. But we need to do a better job of tracking expenses on a statewide basis. That's why I have asked Commissioner Hill to develop expense reports, similar to the revenue reports, which will be available for our review monthly.

I have enormous respect for the jobs that our state employees do, and I want them to have high-quality health care. But the current growth in benefit costs is just not sustainable. As we begin negotiations on a new two-year collective bargaining agreement, we must work in partnership with our employees to control the growth in these costs.

To cushion against further emergencies and to protect our state's bond rating, this budget sends the entire expected surplus from this biennium, about \$15 million, into the Rainy Day Fund. This will increase our Rainy Day Fund to \$80 million, up from just \$17 million in 2005.

A strong economy is essential to the vitality of our state and the lives of our citizens, and this budget helps foster continued economic growth here in New Hampshire.

It maintains our investment in the small business development centers, the Industrial Research Center, and increases travel and tourism advertising by \$500,000 over the biennium.

To encourage innovative companies to create jobs here in New Hampshire, the budget allows us to institute a research-and-development tax credit.

A strong infrastructure, including quality roads and bridges and alternative transportation such as buses and rail, is critical to our economic growth, to public safety, and to the quality of life of our residents. Financial management problems at the Department of Transportation have delayed completion of the state audit for fiscal year 2006. As I prepared my budget, I still had only an estimate of the deficit in the highway fund. I have nominated Chuck O'Leary, a former commissioner of DOT, to provide interim leadership to the Department, and my first charge to him is to finish the audit so that the legislature may have better information as you do your work. But one thing is clear. State agencies must stop using the highway fund like an ATM. We need to revisit which agencies receive highway funds, and for what purpose. We need to restore financial accountability and oversight of the highway fund and I look forward to working with you on that important effort.

We have fallen behind on some road projects and the longer that we delay fixing our roads and bridges the more expensive the repairs will be to our taxpayers.

This budget allows us to move forward on critical road projects, including the expansion of Interstate 93. It also proposes bonding \$60 million over the biennium. This will balance the highway fund's budget and let us make long-term changes to the financial management of the highway fund. It will also allow us to accelerate important projects. With this budget, we will be able to nearly

double – up to 57 – the number of critical and red-listed bridges to be repaired. Expanding highways is not the only solution to reducing congestion in New Hampshire. That is why this budget helps fund bus services across New Hampshire. And the capital budget includes \$1 million to support and spur the return of rail service to Southern New Hampshire.

The rising cost of energy is one of the major challenges facing our economy. Developing alternative energy sources is an economic opportunity for our state. I have set a goal of ensuring that 25 percent of our energy comes from renewable sources by 2025. This budget strengthens our Office of Energy and Planning to help us meet that goal. It will allow the office to better work with the legislature to improve our state's energy policies; to attract renewable energy companies to New Hampshire; and to help our businesses become more energy efficient.

Every family in New Hampshire deserves a safe and healthy home, but we know that many families are increasingly finding themselves priced out of the New Hampshire market. A 2005 study estimated that New Hampshire lost 2,800 potential jobs a year because of a shortage in workforce housing. State government can help by assisting local communities in developing zoning ordinances that preserve local character while at the same time promoting workforce housing. That is why this budget dedicates a state planner to helping local communities on workforce housing issues, and provides \$400,000 over the biennium for a pilot grant program to help communities expand workforce housing here in New Hampshire. An estimated 20,000 New Hampshire citizens are homeless during the course of a year. With this budget, we will begin work to remove one of the major barriers to homeless families finding permanent housing. This budget provides \$400,000 over the biennium to establish a Revolving Loan Fund to provide security deposits for homeless families. Let's help more New Hampshire families find homes to call their own.

Education is perhaps the most important investment we make in our state's economic future. A strong workforce is one of the best recruiting tools we have for attracting new businesses to New Hampshire. And the quality of education that we offer to our children will determine the quality of opportunities they have later on in life. We must meet our responsibility for public education here in New Hampshire, and that begins with defining an adequate education.

On Monday, I joined with a bipartisan coalition of lawmakers to propose a definition based on the curriculum frameworks and our existing school approval standards. I believe that this definition is a good starting point, and I look forward to working on it with the legislature and with the people of New Hampshire. Once we have completed a definition of an adequate education, we must ensure that every community has the resources it needs to provide that education for its children. To do that, we need the flexibility to target aid – lifting up the communities that are struggling to provide a quality education. That is why I will soon present to you a constitutional amendment that allows us to target aid, affirms the state's responsibility for education, and ensures that the state cannot walk away from that responsibility.

Now I do not believe that we should put in place a new school funding formula until we have defined an adequate education and passed a constitutional amendment. Nor do I believe we should simply go forward with the current law. Under the current law, some communities would see dramatic swings in the amount of aid that they receive, undercutting our goals and principles of sustainability and predictability, which should be an integral part of any school funding solution. We should not subject our communities to these major changes when we know that we will put in place a new school funding law at the end of this biennium. That is why this budget guarantees for the next two years every community will receive the same amount of education aid they received this year, plus an increase of five percent. This interim measure will allow our communities to plan and will give the legislature the time necessary to develop a better and more permanent education funding solution. Adequacy grants are only one part of what we spend on education as a state. This budget fully funds state building aid, fully funds catastrophic aid, and fully funds tuition and transportation aid. In addition to adequacy aid, we will spend more than \$191 million on education grants to our schools.

A high school diploma is the minimum price of admission for most jobs in New Hampshire. Without high school diplomas our young people will not have the opportunities that they deserve for better lives, and our state will not have the educated workforce it needs in order to compete in the global economy. Right now, nearly 20 percent of our students are dropping out before they graduate from high school. This budget invests the resources necessary to help turn these young lives around by providing real alternatives for students who don't do well in traditional classrooms.

This budget provides \$4 million to increase tutoring and one-on-one assistance to help at-risk

students stay in school; it expands access to our career and technical educational centers; it expands our investment in night school and in apprenticeship programs. And the capital budget provides more than \$13 million for renovations at the regional vocational schools in both Manchester and Exeter. In all, we will spend more than \$54 million in state and federal funds this biennium on alternative programs to help keep our kids in school. This budget provides the resources to help our young people stay in school. Now we must show that we have the will to help make it happen. We must increase New Hampshire's compulsory attendance age from 16 to 18 this year.

Now we know students who receive quality early learning opportunities are more likely to finish school and succeed later in life. The legislature recognized that last year by creating the Quality Early Learning Initiative. This budget continues and expands that effort with \$1 million of funding each year. And, this budget provides the first increase in state funding for Head Start since 2000.

We must continue to work to strengthen our public colleges and universities and to make sure that the door to higher education in New Hampshire is open to every student who works hard. Two years ago, we created a new financial aid program to help New Hampshire students who receive the maximum Pell grant to attend the University of New Hampshire, Plymouth or Keene State for no additional tuition cost in their first year. This budget maintains that commitment and expands it to sophomores and juniors. In addition, this budget provides \$196 million over the biennium, or a \$16 million increase, to keep the University System strong and to hold tuition increases to a minimum. Project Running Start, run by New Hampshire's Community Technical College System, opens the door to college for many students. It allows high school students to take college-level classes right at their own local schools. They can earn credits that are transferable to colleges across the nation. That's why this budget provides the funding necessary to double the number of students enrolled in Project Running Start.

Our community technical college system plays a critical role in the training of our workforce and in expanding opportunities for our citizens. This budget invests in strengthening our community technical colleges and in keeping them affordable with an additional \$10 million over the biennium. To keep our public colleges and universities vibrant, we must also make sure that they have up-to-date facilities. That is why the capital budget keeps the promise that we made to the University System and provides \$39.5 million to continue to upgrade its academic buildings. And it provides \$17 million in general funds, and \$32 million overall, to the community technical college system, including money to build a health education technology center in Nashua; to build a health education center in Concord; and to renovate the Pease campus.

As a state we have a responsibility to care for our most vulnerable citizens. This budget preserves and strengthens our commitment to those with the greatest need. I want to make sure all New Hampshire seniors have the chance to live their lives with the dignity and the respect that they deserve. That's why this budget funds Meals on Wheels, wheelchair van transportation and increases by \$5.4 million funding to help more of our seniors stay in their own homes and in their own communities. We need to increase our capacity to help care for people with developmental disabilities, to give them the opportunity to live their lives to the fullest. That is what this budget allows us to do, by providing the funding necessary to eliminate the expected developmental disabilities waitlist over the next four years. Last year, a tragic fire in Tilton killed three people with developmental disabilities and their caregiver. After that fire, I asked the Fire Marshal and the Department of Health and Human Services to develop recommendations for improving the safety of these group homes. This budget provides funding to begin implementing these recommendations, making group homes for the developmentally disabled safer.

With access to the right medication and assistance, people diagnosed with HIV and AIDS can live long and productive lives. The federal government recently cut funding that helped New Hampshire citizens living with AIDS receive transportation and food and most importantly medication assistance. This budget replaces those funds by providing \$1 million each year.

Every child in New Hampshire should have access to health insurance. Health insurance for children is relatively inexpensive, and it will save us money in the long term. We all pay when families are forced to seek more-expensive emergency room care; when preventable illnesses turn into chronic diseases; and when children aren't healthy enough to learn in school. This budget expands outreach so that more families know about Healthy Kids Children's Health Insurance Program and can get the help that they need to enroll. Children's Health Insurance is a smart investment for our state, and the right thing to do for our kids. And with this budget, over the next three years, we will be able to provide health insurance to an additional 10,000 children.

Lead paint poisoning remains one the most dangerous – yet preventable – public health hazards for our children. It is time that we take action to reduce the incidence of lead paint poisoning in children, and this budget provides the funding to do just that. This fall I established a Lead Poisoning Task Force to make recommendations as to how we can strengthen our laws. Now, I ask this legislature to adopt the recommendations of the Task Force. When one child is found with lead poisoning, the Department of Health and Human Services should be allowed to inspect all the units in that building. And inspections should be triggered when the damage to children's health begins, at 10 micrograms per deciliter – just as the Centers for Disease Control recommends.

We want more of our families to move from welfare into sustainable employment. We should help them, by removing some of the barriers they face. Families need transportation to get back and forth to work. They need safe child care for their children. That's why this budget increases transportation assistance and child care co-pays for people working to leave welfare. Let us come together to give our families the helping hand that they need to build better lives for themselves.

We owe our veterans a huge debt, and this budget meets our commitment to provide them with the care and respect that they deserve. It increases funding for the Veterans Home by \$10 million over the biennium to hire new direct care staff, to pay for medication, and to care for an additional 50 veterans. Our veterans sacrificed to protect us, let us show them our gratitude.

And to fund these critical health and human service programs and other services, this budget also includes a 28-cent increase in the tobacco tax. This proposal keeps the rate of our tobacco tax well below that of our neighboring states. And it also allows us to accomplish an important public health goal – deterring young people from smoking.

One of the most fundamental duties of state government is to protect the safety of our citizens. I recently created the New Hampshire Crime Commission to make comprehensive recommendations on how we can improve public safety here in New Hampshire. But there are steps that we must take now to protect our citizens. Despite our growing population, New Hampshire has too few state troopers patrolling our roads and assisting our local police departments. That is why this budget funds the seven new trooper positions we created last year and will add six additional state troopers over the biennium.

I believe we must crack down on the crimes of the 21st century. I am working with the Attorney General on legislation to toughen penalties on people who use the Internet to prey on our children. We must recognize these crimes present new challenges to prosecutors and law enforcement. To help our police departments and local prosecutors do everything possible to protect children, this budget funds a new Internet Crimes Prosecutor.

We must strengthen New Hampshire's Department of Corrections. New Hampshire recently lost a lawsuit because the state failed to meet commitments it made in 1993 to better care for mentally ill prisoners. This budget provides the funding necessary to better meet our legal obligations.

We must also develop a secure psychiatric center to house people who are civilly committed and present an ongoing danger to our community. A study committee recommended using the Tobey School on the grounds of the New Hampshire Hospital for this purpose. I have questions about whether this is the right location, whether it will meet our state's long-term needs, and whether the high cost of its conversion is the best value for our taxpayers.

We need a strategic plan for our Corrections System. The Women's Correctional Facility in Goffstown is inadequate. The Lakes Region Facility needs major capital repairs. The men's prisons in Concord and Berlin are overcrowded. That is why this budget funds a study of all of our corrections facilities to develop a master plan and to recommend the best option for a secure psychiatric facility. But we must begin work now. We built the Northern Correctional Facility to allow it to be easily expanded. And this budget includes \$10 million to begin work this biennium expanding the prison in Berlin.

In the aftermath of the October and Mother's Day floods, I was impressed by the work of our Dam Bureau at the Department of Environmental Services – their knowledge and dedication helped save lives. But we need to do more, however, to make sure our dams are safe. This budget will allow us to increase inspections and maintenance of dams. And the capital budget funds repairs to nine state-owned dams. This budget also moves responsibility for Fish and Game dams to the Department of Environmental Services, both to make management of state-owned dams more efficient and to help address the Fish and Game Department's budget.

Hunting and fishing are important recreational activities for our families and attract visitors to New Hampshire. It's important to me, and important to our economy, that we protect the long-term

interests of hunting and fishing and wildlife habitat conservation in our state. New Hampshire's Fish and Game Department faces financial challenges. We balanced its budget by eliminating long-term vacant staff positions – as we did at many other agencies; reducing the agency's expenses; and by instituting an auction for moose hunting permits, as our neighboring states of Maine and Vermont already do. The budget does not lay off any Fish and Game employees. It preserves Conservation Officer positions, even those which are currently vacant, and protects the core functions of Fish and Game. It keeps the Fish and Game fund in the black through this biennium, while we continue to work on how to best serve the interests of New Hampshire's hunters and fishermen for the long-term, and on the right model to achieve that goal.

As Governor, I have the opportunity to visit every part of New Hampshire. I continue to be awed by our state's natural beauty – its mountains, forests, lakes, rivers and Seacoast. Our environment is part of what makes New Hampshire so special, and is a vital economic asset to our state. This budget commits to protecting our environment and natural resources for the future. It funds more than \$32 million in environmental grants to communities to help them maintain their clean water and to protect their water supplies.

As our state's population continues to grow, some of our most beautiful places are in danger of being lost to us forever. That is why this budget recommit to the Land and Community Heritage Investment Program with a \$12 million investment over the biennium.

We also must care properly for those historic treasures already entrusted to the custody of the state. From the Robert Frost Home in Derry to the Wentworth Coolidge Mansion, some of our most historic places are falling into disrepair. This budget funds a new Bureau of Historic Resources to help maintain and preserve New Hampshire's history.

I believe that our state parks are treasures; treasures that provide countless hours of enjoyment for our citizens and for our visitors. We must continue to work to make sure that our state park system is vibrant, and meets the demands of our population – as we did last year when we created a new ATV park in Berlin. This budget provides the funding necessary to help purchase Temple Mountain and to add it to the state park system.

Last year, this legislature created a study commission to address how we meet our responsibility to protect our parks for future generations. And we must look at making a long-term commitment to upgrading our state parks here in New Hampshire. And this budget begins that investment and implementing the commission's recommendations, with \$6 million in capital funds to begin repairs and renovations at our state parks across the state – it's the first system-wide capital investment in our parks since 1963.

I would like to take a moment to thank my budget director, Linda Hodgdon for all the great work that she did in helping to prepare the budget – I don't think she has slept in three months.

Our work on this budget is one of the most important things that we will do together in the next two years. It is through the budget that we establish our priorities for the upcoming two years. I look forward to working closely with all of you to set the course for a stronger and for a better New Hampshire. I am confident that under the able leadership of the Speaker and Senate President and your finance chairs, you will give this budget a fair hearing and work with me and each other to make smart, fiscally responsible choices for New Hampshire's future.

Working together, Democrats and Republicans, we will enact an honest and balanced budget – a budget that invests in our future and puts the needs of our people first. Thank you all very much.

Rep. Wallner and Sen. Foster moved that the Joint Convention arise.

Adopted.

The Joint Convention adjourned.

HOUSE SESSION

(Speaker Norelli in the Chair)

The Speaker reconvened the House session.

MOTION TO VACATE

Rep. Pantelakos moved that the House vacate the reference of **HB 584**, raising the age of minority for juvenile delinquency proceedings from 17 to 18 years of age, to the Committee on Criminal Justice and Public Safety.

Adopted.

The Speaker referred **HB 584** to the Committee on Children and Family Law.

COMMITTEE REPORTS

CONSENT CALENDAR

Rep. Wallner moved that the Consent Calendar with the relevant amendments as printed in the day's House Record be adopted.

HB 105, repealing the parental rights and responsibilities and child support impact seminar requirement, removed by Rep. Rochette.

HB 58, requiring municipalities to establish volunteer civilian police review boards, removed by Rep. Timothy Robertson.

HB 230, relative to the use or occupation of public ways, removed by Rep. Jasper.
Consent Calendar adopted.

HB 80, relative to breast-feeding. **INEXPEDIENT TO LEGISLATE.**

Rep. Daniel C. Itse for Children and Family Law: The committee found that the proposed amendment to the law would be no more protective of nursing mothers and their children than the current law. The committee believes the public will be better served by education of new mothers and proprietors. Therefore, the Chair shall write a letter on behalf of the committee to organizations such as the NH Hospital Association, the NH Retailers Association and the LaLeche League that, while there is a necessity for discretion, to restrict or limit the right of a mother to breast-feed her child in public is discriminatory in the State of New Hampshire. Vote 18-0.

HB 86, establishing a committee to study educational and social services programs that serve families with children 6 years old and younger. **OUGHT TO PASS.**

Rep. Anne C. Grassie for Children and Family Law: The committee established by this bill will study program governance, mission, funding, eligibility criteria and participation, location and service area and methods of accountability. The intent is to ensure a more effective use of resources. Vote 18-0.

HB 44, relative to the authority of animal control officers. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Laura C. Pantelakos for Criminal Justice and Public Safety: The bill came in inserting animal control officer into the law to clarify who had authority other than law enforcement over animals running at large, or creating a nuisance. The committee removed the wording animal control officer and replaced it with "or any other person authorized by the town." This is the only change in the law. Vote 18-0.

Amendment (0029h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to the authority of authorized persons to take custody of nuisance dogs.

Amend the bill by replacing section 1 with the following:

1 Dogs a Menace; Custodial Authority of Authorized Persons. Amend RSA 466:31, III(b) to read as follows:

III.(a) Any person who fails, by appropriate action including but not limited to restraining an animal from running at large, or otherwise effectively abating a nuisance found such under the provisions of this section, or who fails to comply with any other provisions of this section after being so ordered, shall have the person's dog taken into custody by the police of the city [or], constable of the town, *or other person authorized by the town* and such disposition made of the dog as the court may order.

Amend the introductory paragraph of RSA 466:31-a, II as inserted by section 2 of the bill by replacing it with the following:

II. Any person who violates any of the provisions of RSA 466:31 shall be liable for a civil forfeiture, which shall be paid to the clerk of the town or city wherein such dog is owned or kept within 96 hours of the date and time notice is given by any law enforcement officer *or other person authorized by the town* to the owner or keeper of a dog in violation of RSA 466:31. If the forfeiture is paid, said payment shall be in full satisfaction of the assessed penalty. The forfeiture shall be in the amount as specified for the following violations:

AMENDED ANALYSIS

This bill allows persons authorized by the town to take custody of nuisance dogs.

HB 114, relative to the statement of purpose in the statewide education improvement and assessment program. **INEXPEDIENT TO LEGISLATE.**

Rep. J. Timothy Dunn for Education: The committee voted to ITL this bill by a bipartisan vote of 14-2. This bill would change RSA 193-C:1 by taking the word "democracy" out of the statute to be replaced by "our constitutional republic pursuant to Article IV, Section IV of the Constitution of the United States of America." It is the consensus of the committee that the word "democracy" should remain. Vote 14-2.

HB 167, relative to areas of assessment required under the statewide improvement and assessment program. **OUGHT TO PASS.**

Rep. J. Timothy Dunn for Education: This bill is a request of the Department of Education. As a result of No Child Left Behind (NCLB) and Frameworks, current statutes need to be updated. Specific changes occur in RSA 193-C:5 adding civics and economics to the list of tested areas as well as some grammatical changes. Also changed is RSA 193-C:6. This change reflects current testing in grades 3 through 8 and one year in high school. Vote 18-0.

HB 34, establishing a committee to study barbering and barbering training. **INEXPEDIENT TO LEGISLATE.**

Rep. Russell C. Day for Executive Departments and Administration: The purpose of this bill was to formulate a study commission to examine the availability of barbering instruction in the State of New Hampshire. Currently, there is another bill which addresses the concerns brought up in testimony regarding this bill as well as other aspects of barber training. The conclusion of the committee was that the other bill was more conclusive and therefore this bill is inexpedient to legislate. Vote 17-1.

HB 54, establishing a commission to study automobile recycling issues, including disposal fees. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Carl G. Robertson for Executive Departments and Administration: This bill is similar to HB 573 from 2006 which was passed by the Environment and Agriculture Committee with a vote of 18-0 and passed the House on the consent calendar. The bill eventually went to a committee of conference. However, no conference report was filed. The committee heard strong testimony on the complex hazards the modern automobile presents to individuals and the environment. Information from the Department of Environmental Services indicated that this problem will become worse as more and more modern cars are taken off the road. The committee felt that it is important for the state to be ahead of this problem and not react after the damage has been done. A study commission would allow us to bring all potential issues before the people. The results from this commission study will determine future legislation. The original bill was amended to add one member of the Northeast Resource Recovery Association to replace one member from New Hampshire the Beautiful on the commission. It was also felt that the commission's findings should be reported to the Executive Departments and Administration Committee and the Environment and Agriculture Committee as well as the Speaker of the House, President of the Senate and the Governor. Vote 19-0.

Amendment (0017h)

Amend the title of the bill by replacing it with the following:

AN ACT establishing a commission to study automobile recycling issues.

Amend the bill by replacing section 1 with the following:

1 Commission Established. There is established a commission to study automobile recycling issues.

Amend section 2 of the bill by replacing subparagraph I(k) with the following:

(k) One representative from Northeast Resource Recovery Association, appointed by said association.

Amend the bill by replacing section 3 with the following:

3 Duties. The commission shall study the adequacy of the state's regulatory system and the industry infrastructure currently used to recycle and dispose of end-of-life motor vehicles and to make recommendations for change and determine if current practices are adequate to protect the environment.

Amend the bill by replacing section 5 with the following:

5 Report. The commission shall report its findings and any recommendations for proposed legislation to the speaker of the house of representatives, the president of the senate, the chairperson of the house executive departments and administration committee, the chairperson of the environment and agriculture committee, the house clerk, the senate clerk, the governor, and the state library on or before November 1, 2007.

AMENDED ANALYSIS

This bill establishes a commission to study automobile recycling issues.

HB 43, relative to the procedure for establishing medicaid reimbursement rates. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Charles E. McMahon for Health, Human Services and Elderly Affairs: This bill provides for a reporting method for work done by the Department of Health and Human Services in the review and setting of Medicaid reimbursement rates. Further, the bill provides for clarity and transparency to ensure that rate increases for Medicaid services provided to New Hampshire citizens are reviewed in a timely manner. To that end, the bill requires a biennial report to the legislature as well as yearly reports to the Health and Human Services Oversight Committee to ensure this goal is achieved. In addition, the bill will allow Medicaid service providers and others an accessible forum within the department to address and propose rate adjustments that will promote a competitive and viable future for these important service resources. However, the one and two year provider reviews as detailed within the bill are not intended to replace or revise existing rate setting reviews as provided for in existing statute such as the current six month review of nursing home rates provided for in RSA 151-C. Vote 19-0.

Amendment (0005h)

Amend the introductory paragraph of RSA 126-A:18-b, I as inserted by section 1 of the bill by replacing it with the following:

I. Every 2 years, the department of health and human services shall review Medicaid reimbursement rates based on:

Referred to the Committee on Finance.

HB 137, relative to food safety in restaurants. **OUGHT TO PASS.**

Rep. James P. Pilliod for Health, Human Services and Elderly Affairs: The purpose of this bill is to establish a program of certified food protection managers in restaurants. The risk of food borne illness produced by new infectious agents and larger at risk populations requires increased protection through the efforts of the certified protections manager program which supplements the existing New Hampshire state food protection visits. This program shall not apply to the following non-profit entities which do not offer regularly scheduled weekday meal service: extracurricular school events, non-profit sporting events, religious activities and non-profit service organizations. The New Hampshire Lodging & Restaurant Association, local health personnel, the New Hampshire Food Safety Alliance, and United Grocers all support this bill. There is no fiscal note required. Vote 17-0.

Referred to the Committee on Executive Departments and Administration.

HB 148, establishing a commission to study pharmaceutical costs and the 340B Drug Pricing Program. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Frank G. Case for Health, Human Services and Elderly Affairs: This bill establishes a commission to study the feasibility of expanding the use of the 340B Federal Drug Pricing Program for low income, under-served populations, which may also be available to state and county inmates. This program offers discounts significantly greater than Medicaid for certain pharmaceuticals. There is also potential to serve some Medicaid patients. The amendment stresses the cost saving possibilities and also instructs the New Hampshire Board of Pharmacy to appoint a pharmacist with experience in 340B areas. Vote 18-0.

Amendment (0091h)

Amend the bill by replacing section 1 with the following:

1 Commission Established. There is established a commission to study obtaining greater efficiencies and cost savings in public pharmaceutical costs through increased participation in the federal 340B Drug Pricing Program with particular emphasis on Medicaid and inmate populations.

Amend subparagraph I(i) of section 2 of the bill by replacing it with the following:

(i) A representative of a 340B contract pharmacy, appointed by the New Hampshire pharmacy board.

AMENDED ANALYSIS

This bill establishes a commission to study obtaining greater efficiencies and cost savings in public pharmaceutical costs through increased participation in the federal 340B Drug Pricing Program.

HB 113-FN, relative to interference with constitutional and lawful rights. **INEXPEDIENT TO LEGISLATE.**

Rep. Anthony R. DiFruscia for Judiciary: The bill attempts to make it a felony for anyone to interfere with another's constitutional and lawful rights. Although the bill is well-intended, the committee believes the bill was too loosely drawn. The present laws of both the state and federal government already enhance punishment for offenders of constitutional and lawful rights of individuals. Vote 19-0.

HB 162, relative to liability for costs, fees, and certain expenses incurred by a defendant where the court finds the defendant's conduct is justifiable. **INEXPEDIENT TO LEGISLATE.**

Rep. Gary B. Richardson for Judiciary: The committee feels that the payment of attorneys' fees and other damages should remain in accordance with existing law. The bill fails to adequately define the conduct that would justify an award of attorneys' fees and costs and the bill does not apply equally to plaintiffs and defendants. Vote 17-0.

HB 42, requiring zoning ordinances to encourage preservation or restoration of stone walls. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Jessie L. Osborne for Municipal and County Government: This bill, as amended, would encourage the preservation and restoration of stone walls with an exception to prevent the impediment of agricultural uses. The committee believes that the state of New Hampshire is historically well known for its stone walls. Stone walls are considered a tourist attraction, and therefore legislation should encourage, not mandate, their preservation or restoration by putting this concept in statute. Vote 17-1.

Amendment (0020h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to resource protection sections of local master plans.

Amend the bill by replacing section 1 with the following:

1 Master Plan; Optional Sections; Resource Protection; Stone Walls. Amend RSA 674:2, III(h) to read as follows:

(h) A section which identifies cultural and historic resources and protects them for rehabilitation or preservation from the impact of other land use tools such as land use regulations, housing, or transportation. *Such section may encourage the preservation or restoration of stone walls, provided agricultural practices are not impeded.*

AMENDED ANALYSIS

This bill allows the optional resource protection section of a local master plan to include encouragement of the preservation or restoration of stone walls.

HB 63, allowing counties to regulate conflicts of interest in elected and appointed county officers and employees. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Betsey L. Patten for Municipal and County Government: The amendment states that the "conflict of interest" ethics code needs to cover county officials, employees or their agents as well as the executive branch of government. The bill, as amended, mirrors the language in RSA 21-G:22. The committee felt that this code of ethics regarding conflict of interest needs to be placed in RSA 30-A which covers "Restrictions and Prohibitions for County Officials." Vote 19-0.

Amendment (0023h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to conflicts of interest involving county officers and employees.

Amend RSA 30-A:3 as inserted by section 1 of the bill by replacing it with the following:

30-A:3 Conflict of Interest. All county officers, employees, or agents thereof shall avoid conflicts of interest. County officers, employees, or agents thereof shall not participate in any matter in which they, or their spouse or dependents, have a private interest which may directly or indirectly affect or influence the performance of their duties.

AMENDED ANALYSIS

This bill requires county officers, employees, and their agents to avoid conflicts of interest.

HB 72, relative to the payment of municipal sewage assessments. **OUGHT TO PASS.**

Rep. Larry Brown for Municipal and County Government: This housekeeping bill, prepared at the request of the Winnepesaukee River Basin Program (WRBP) with membership agreement, changes certain assessment and payment adjustment dates to bring current practice in compliance with statute and meet accounting standards with no additional cost or financial penalty to the municipalities served by the WRBP sewage deposit facilities. Vote 17-0.

HB 107-L, authorizing towns to charge property owners for solid waste removal. **OUGHT TO PASS.**

Rep. Bennett F. Moore for Municipal and County Government: This bill allows towns which charge for solid waste removal to place liens on properties and to use other collection techniques to collect such costs when invoices issued for such service are not paid by the property owner. Vote 17-0.

HB 111, relative to county employment for Sullivan county. **INEXPEDIENT TO LEGISLATE.**

Rep. Eric G. Stohl for Municipal and County Government: What this bill does is to require the Sullivan County Commissioners to get permission from the executive committee of the county delegation prior to establishing or hiring any management or superintendent position. In addition, the bill requires a majority vote of the executive committee and the county commissioners to employ a person for those positions. The only testimony in favor of the bill came from the sponsor. There was testimony from the county administrator that the sponsor failed to consult with any county administrator in reference to the bill. There was testimony from a Sullivan county commissioner and representative that opposed the bill stating that the current system in Sullivan County is working very well. The committee feels that passing this bill would be interfering with the duties of the county commissioners to manage their county affairs. Vote 14-0.

HB 115, relative to the procedure for counties to apply for, accept, and expend federal, state, or other grants. **OUGHT TO PASS.**

Rep. Larry Brown for Municipal and County Government: This bill clarifies and mandates the chain of command knowledge, acceptance, and approval by the county commissioners of grants from any source and further specifies that such funds be expended only under the terms of the grant and only with the oversight permission and agreement of the commissioners. This bill would prevent departments from accepting grants which might further encumber the county for additional expenses without the commissioner's knowledge. Vote 15-1.

HB 197, relative to a tax credit for service-connected disability. **INEXPEDIENT TO LEGISLATE.**

Rep. Betsey L. Patten for Municipal and County Government: This bill would provide for an optional pro-rated tax credit administered at the local level. The committee would like to be on the record that we all owe a debt of gratitude to all our veterans – disabled or not. Currently the veteran credits are listed in RSA 72:28 which covers veterans and surviving spouses of qualifying wars. Last year these exemptions were updated to include any war or armed conflict that has occurred since May 8, 1975. The federal Department of Veterans Affairs regulates the percentage and rating of any disability. The New Hampshire veteran tax credits are listed in RSA 72:35 which covers veterans with service-connected total disabilities. If a veteran is not eligible for this tax credit, then there are exemptions at the local level that can be applied for – elderly, disabled, blind, deaf – and deferral of property tax payments. Also, the local governing body under their statutory authority for “just cause” may grant another avenue for relief. This bill would require that the local officials track all the changes, which are many, made by the federal government for varying amounts of time which is changed often. The committee felt that work in the past four years has given the balance between the veteran's needs and the needs of the taxpayers that will pick up the shifted cost. Vote 15-1.

HB 198-FN, relative to collection of taxes on land with a discretionary easement and relative to the calculation of penalties applied to tax-deeded properties. **OUGHT TO PASS.**

Rep. Timothy Butterworth for Municipal and County Government: This bill clarifies the RSAs relating to the way a town computes the 15% tax lien penalty or a penalty on discretionary easements. The law as now written states that the assessed value of the land will be adjusted by the most recently available equalization ratio, which might be several years and thousands of dollars different from the equalization ratio of the year the property was deeded. This bill requires that towns use the ratio for the same year as the tax deed. Vote 16-0.

HB 96-FN-A, relative to the replacement of the Neil Underwood bridge over the Hampton River and making a capital appropriation. **INEXPEDIENT TO LEGISLATE.**

Rep. John A. Graham for Public Works and Highways: This bill would have appropriated \$40 million in bonded funds for the replacement of a bridge over the Hampton River. The bonds would have been repaid through a toll on the bridge. The committee felt that the issue of replacing this bridge should be taken up in the state's 10 Year Transportation Plan. This plan is currently under review and will be taken up by the General Court in 2008. Vote 15-0.

HB 108-FN-A, making a capital appropriation for Merrimack district court facility improvements. **INEXPEDIENT TO LEGISLATE.**

Rep. Gene G. Chandler for Public Works and Highways: This bill deals with making a capital appropriation for the Merrimack District Court. The testimony before the committee established the Merrimack facility was the third priority for the Judicial Branch. These types of issues should be dealt with within the content of the capital budget which will be before the legislature this session. The Merrimack Court facility will be discussed along with other court proposals during the capital budget bill process and the sponsors are welcome to provide testimony at that time. Vote 15-0.

HB 124, establishing a committee to study enhancing electricity infrastructure. **INEXPEDIENT TO LEGISLATE.**

Rep. Gene F. Andersen for Science, Technology and Energy: This bill seeks to establish a committee looking to the future electrical needs of the state. The committee noted that these issues are being currently reviewed comprehensively by the Energy Policy Commission created by the legislature in the 2006 session with report due December 2007, as well as by the permanent Energy Policy Advisory Board and the Public Utilities Commission. The committee therefore, feels that the intent of this legislation is currently being fully addressed. Vote 13-0.

HB 104-FN, relative to renewal of drivers' licenses by certain national guard members. **OUGHT TO PASS.**

Rep. Kris E. Roberts for State-Federal Relations and Veterans Affairs: It is an undue hardship to force deployed guardsmen and women to take time out to renew their drivers' licenses in the middle of a demanding or hazardous deployment. Many places such as car rental, check cashing or airports require a valid driver's license. The cost to the DMV and the State of New Hampshire is so minimal it is just the right thing to do. This would grant deployed National Guard personnel the same status as active duty New Hampshire service members serving outside the state when their license comes up for renewal. Vote 13-0.

HB 161, renaming the Veterans Administration Hospital the Styles Bridges Veterans Administration Hospital. **INEXPEDIENT TO LEGISLATE.**

Rep. Alfred P. Baldasaro for State-Federal Relations and Veterans Affairs: There was an error in drafting this proposal. The sponsor intended it to be a House Concurrent Resolution. The General Court does not have the authority to name federal buildings. A resolution to our US congressmen would be appropriate, especially as one of them is presently working on naming the Manchester VA Hospital after Styles Bridges. The proposal will be re-filed as an HCR. Therefore this bill is Inexpedient to Legislate. Vote 13-0.

HCR 2, urging the federal government to establish a post office and a zip code in the town of Lee. **OUGHT TO PASS.**

Rep. Lawrence M. Kappler for State-Federal Relations and Veterans Affairs: The major concern is emergency information is dispatched by zip code. Without its own zip code, Lee only receives emergency information destined for Durham. During the recent flood, Lee failed to receive criti-

cal emergency information due to having the Durham zip code. Lee's population has increased 20% since 2000. The Durham Post Office is very busy, has long lines, inadequate parking and is 12 to 15 miles from residents' homes. Vote 15-0.

REGULAR CALENDAR

HB 126, relative to the definition of "school." **OUGHT TO PASS.**

Rep. J. Timothy Dunn for Education: This bill is a request of the Department of Education. The state school board took action relating to school standards by building more flexibility into the length of the school year. The school year can now be computed in hours to allow a district more leeway in scheduling. The changes occur in RSA 189:1 and RSA 189:2, both having to do with the length of the school year. Vote 14-3.

Committee report adopted and ordered to third reading.

HB 173-FN-A, relative to the promotion, acquisition, and retention of a large animal veterinarian in the north country, and making an appropriation therefor. **MAJORITY: OUGHT TO PASS WITH AMENDMENT. MINORITY: INEXPEDIENT TO LEGISLATE.**

Rep. Virginia L. Heard for the Majority of Environment and Agriculture: The majority determined that our state has a shortage of veterinarians that provide care for large animals, particularly in the counties of Coos, Carroll, Grafton, and Belknap. This bill proposes an educational cost reimbursement program. This financial incentive will apply to veterinarians who agree to establish a large animal practice in the state of New Hampshire and maintain that practice for a period of three years. This program is similar in nature to business R & D startup cost reduction programs that the legislature has supported in the past. The bill originally proposed that the program be specific to the four northern and western counties. Because the same need exists in other areas of the state, the bill was amended to extend the program to the entire state, based on need and with consideration given to Coos, Carroll, Grafton and Belknap counties, where it was determined the greatest need exists. The program will be administered by the state veterinarian, and a non-lapsing fund will be created to hold both appropriated and donated monies for the program. Part of our discussion, which convinced the committee that this bill should go forward, involved a concern about the possible outbreak of transmittable animal disease, either through natural causes or as the result of bioterrorism. Veterinarians in private practice are our first line of defense in identifying and controlling these threats. Vote 16-2.

Rep. Steve Vaillancourt for the Minority of Environment and Agriculture: Although this bill, if passed, has to go to the Finance Committee where it will receive further review, the Minority of Environment and Agriculture could not let it go even this far without noting strong opposition. Having the state reimburse a "large animal" veterinarian a portion of his education costs establishes a very bad precedent. The free enterprise system should determine how many veterinarians exist and how much they need to charge for services to stay in business. If the state starts paying to bring in veterinarians, what is next? Paying to educate art or science teachers? Paying to educate dentists? How about paying to educate nurse practitioners? Regardless of the cost involved, never has a slope been as slippery as the one this bill sets us upon. The State Veterinarian, in fact, testified that "large animal" veterinarians have as much opportunity to recoup their education costs in private practice as do small animal veterinarians. The state should not be in the business of helping out one particular type of enterprise at the expense of all others. Proponents of this bill, not content with simply flying in the face of capitalism, felt the need to argue that this bill would help stop the spread of mad cow disease or equine encephalitis. If we are counting on this bill to protect us in that regard, we are only fooling ourselves. Socialized medicine is one thing; socialized veterinary medicine is quite another; socialized veterinary medicine for only large animals is yet a further step toward a truly socialist state which the minority shudders in asking our state to take.

Majority Amendment (0085h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to the promotion, acquisition, and retention of a large animal veterinarian in those areas of the state where there is a need, and making an appropriation therefor.

Amend the bill by replacing section 1 with the following:

1 New Subdivision; Large Animal Veterinarian Education Repayment Program. Amend RSA 425 by inserting after section 24 the following new subdivision:

Large Animal Veterinarian Education Repayment Program

425:25 Large Animal Veterinarian Education Repayment Program Established. The state veterinarian shall administer a program for the promotion, acquisition, and retention of a large animal veterinarian in the state in those areas where there is a need, with special consideration given to the counties of Coos, Carroll, Grafton, and Belknap. A qualifying veterinarian shall have at least 35 percent of his or her veterinary practice devoted to large animal veterinary medicine.

425:26 Application; Repayment. An individual who has completed his or her veterinary medical education, including internships and residencies, and agrees to practice as a licensed veterinarian in an area of this state where there is a need which may include Coos, Carroll, Grafton, and/or Belknap counties, may apply to the state veterinarian for repayment under the large animal veterinarian education repayment program and have reimbursed up to 20 percent of his or her qualifying veterinary education costs for each 3 full years of practice agreed to.

425:27 Fund Established. There is hereby established in the office of the state treasurer a fund to be known as the large animal veterinarian education repayment fund. The fund shall include any sums appropriated for such purpose. In addition, the state veterinarian is authorized to accept public sector and private sector grants, gifts, or donations of any kind for the purpose of funding the provisions of this subdivision. The moneys in this fund shall be nonlapsing and shall be continually appropriated to the department of agriculture, markets, and food. The fund may be expended by the state veterinarian to accomplish the purposes of this subdivision. The state treasurer may invest moneys in the fund as provided by law, with interest received on such investment credited to the fund.

425:28 Administration; Rulemaking. The state veterinarian shall adopt rules, pursuant to RSA 541-A, relative to procedures, eligibility, and qualifications for applicants, qualifying educational costs, criteria for terms of service by a large animal veterinarian, procedures for repayment of education costs, and the administration of the program by the department of agriculture, markets, and food.

AMENDED ANALYSIS

This bill establishes the large animal veterinarian education repayment program for the promotion, acquisition, and retention of a large animal veterinarian in those areas of the state where there is a need, including the north country. This bill makes an appropriation to the program.

Rep. Vaillancourt spoke against.

Rep. Itse spoke against and yielded to questions.

Reps. O'Connell and Snow spoke in favor.

Majority committee amendment adopted.

The question now being adoption of the majority committee report of Ought to Pass with Amendment.

Rep. Vaillancourt requested a roll call; sufficiently seconded.

and the majority committee report was adopted.
Referred to the Committee on Finance.

***HB 85*, establishing a study committee on awarding the deferred compensation contract to AETNA/ING. INEXPEDIENT TO LEGISLATE.**

Rep. Alida I. Millham for Executive Departments and Administration: The Deferred Compensation Plan under RSA 101-B offers public employees an opportunity to set aside tax deferred dollars apart from the "retirement system." This bill asked for a study committee composed of legislators to study the contracting process that led to the contract with AETNA/ING. The con-

tract will be re-bid in 2008. The Deferred Compensation Plan Commission is composed of: state treasurer; commissioner of administrative services; insurance commissioner or designee; attorney general or designee, secretary of state or designee, one unclassified state employee; one public member at large; one non-classified legislative employee and member of Deferred Contribution Plan. After an in-depth hearing on the subject that explored the history of the plan, the issues regarding the contract process with ING, the class action suit against ING, and the current status of the plan, the committee determined that a study committee was not necessary at this time. Vote 14-5. Committee report adopted.

HB 101, relative to annual training for members of the workers' compensation appeals board. **OUGHT TO PASS.**

Rep. James F. Headd for Executive Departments and Administration: The bill seeks to reduce the annual training in workers compensation law from 20 hours to 10 hours. Members of the board are continually given training in New Hampshire law as court decisions are rendered and as legislation changes the governing law. In addition, they will now take additional training in academic courses totaling 10 hours annually. There are not enough academic programs available to fill a 20 hour program as required under current law. In order for additional academic programs to be made available, outside assistance would be required by way of hiring speakers or taking the members of the board to a program that may even be held out of state. No money is budgeted for the purpose at this time. The committee felt that in view of the professional make up at the board and the training and background required for membership that 10 hours was adequate. Vote 14-5.

Rep. Espiefs spoke against and yielded to questions.

Rep. Headd spoke in favor and yielded to questions.

Rep. Irwin spoke in favor.

Committee report adopted and ordered to third reading.

HB 41, relative to human immunodeficiency virus education, prevention, and control. **OUGHT TO PASS WITH AMENDMENT.**

Rep. James R. MacKay for Health, Human Services and Elderly Affairs: This bill, introduced at the request of the Department of Health and Human Services, is supported by the New Hampshire Medical Society and the Dartmouth Hitchcock Medical Center. The bill updates the existing statute relative to human immunodeficiency virus education, prevention and control. It repeals three provisions that are archaic, were never implemented and are superseded by OSHA and CDC regulations. In addition, the amendment adds explicit patient consent to current CDC regulations pertaining to HIV/AIDS testing. Further, it decreases burdensome paperwork by physicians while making the consent process come into line with other medical tests. Vote 19-0.

Amendment (0022h)

Amend the bill by inserting after section 2 the following and renumbering the original section 3 to read as 5:

3 Consent for Testing. Amend the section heading and the introductory paragraph of RSA 141-F:5 to read as follows:

141-F:5 ~~[Informed]~~ Consent for Testing; Exceptions. ~~[Except as provided in this section, no]~~ A physician or advanced registered nurse practitioner licensed or registered to practice in this state, ~~[no]~~ *an* employee of a health care facility licensed under RSA 151, whether paid or unpaid, and ~~[no]~~ *an* employee of a blood bank, blood center, plasma center, or agency which receives blood donations, whether paid or unpaid, may test *when the patient has consented* for the presence of an antibody or antigen to a human immunodeficiency virus ~~[unless the person being tested consents after being informed about the medical interpretations of positive and negative test findings and the applicable provisions of RSA 141-F:7 and 141-F:8]~~ *in accordance with the most current testing and consent recommendations of the Centers for Disease Control and Prevention*. Testing without consent may occur in the following situations:

4 Informed Consent. Amend RSA 141-F:6 to read as follows:

141-F:6 Testing.

I. The department, or agencies operated by or under contract with the department, shall offer laboratory testing, in accordance with RSA 131, for the presence or absence of antibodies or antigens of the human immunodeficiency virus. ~~[Each sample for testing shall be submitted with a~~

~~statement signed by a physician, or by a person authorized by a physician to sign, attesting that the patient has consented to the test in accordance with RSA 141-F:5.]~~

II. All other laboratories, public or private, which test human blood or any other business or organization, public or private, which tests human blood, tissue, or other samples as part of its operations may offer to test samples for the presence or absence of antibodies or antigens of the human immunodeficiency virus. ~~[Such laboratories or other such businesses or organizations shall require that any sample for testing be submitted with a written statement signed by a physician, or a person authorized by a physician to sign, attesting that the patient has given informed consent as required under RSA 141-F:5.]~~

AMENDED ANALYSIS

This bill repeals certain provisions of the law relative to human immunodeficiency virus education, prevention, and control.

This bill also authorizes certain persons to test for the presence of an antibody or antigen to the human immunodeficiency virus in accordance with the Centers for Disease Control and Prevention's recommendations.

Amendment adopted.

Committee report adopted and ordered to third reading.

HB 103, establishing a commission to study the state highway trust fund. **OUGHT TO PASS.** Rep. David B. Campbell for Public Works and Highways: Given the eroding condition of New Hampshire's state and municipal roads and bridges, the committee overwhelmingly believes that a commission is necessary to study the Highway Trust's funding and revenue needs. This commission will be charged with scrutinizing the funding levels required for the 10 Year Highway Plan, maintenance ("betterment") of the state's highway infrastructure, municipal highway block grants and state bridge aid, and to then report its findings back to the Legislature by November 1, 2007. Vote 15-2. Committee report adopted and ordered to third reading.

HB 122, naming a bridge in the town of Henniker after Russell M. Durgin. **OUGHT TO PASS WITH AMENDMENT.**

Rep. John A. Graham for Public Works and Highways: Sergeant Russell M. Durgin gave his life in defense of his country on 13 June 2006. The committee unanimously supports the naming of this bridge in his town in honor of this American hero. The amendment simply added the word "Sergeant" to the name of the bill. Vote 16-0.

Amendment (0040h)

Amend the title of the bill by replacing it with the following:

AN ACT naming a bridge in the town of Henniker after Sergeant Russell M. Durgin.

Amend the bill by replacing section 1 with the following:

1 Town of Henniker; Sergeant Russell M. Durgin Bridge. Pursuant to RSA 4:43, the Route 114 bridge that spans Route 202 in the town of Henniker is hereby named the Sergeant Russell M. Durgin Bridge.

AMENDED ANALYSIS

This bill names the Route 114 bridge that spans Route 202 in the town of Henniker in honor of Sergeant Russell M. Durgin.

Amendment adopted.

Committee report adopted and ordered to third reading.

BILLS REMOVED FROM CONSENT CALENDAR

HB 105, repealing the parental rights and responsibilities and child support impact seminar requirement. **INEXPEDIENT TO LEGISLATE.**

Rep. Anthony P. Matarazzo for Children and Family Law: Child support impact seminars were designed for parents to promote awareness of the harm they may unknowingly inflict on their children during divorce proceedings. Children can become embroiled in the battle when parents try to gain their sympathy or support by discrediting their partner. This disrupts the children's feelings to the people they love the most and can cause considerable emotional damage to the child. The testimony was clear that child support impact seminars should not be repealed. Of the over

4,300 participants who were surveyed, 65% felt the seminars were very helpful and only 1% felt it was not. 83% believe the seminars should be required. Vote 18-0.

Rep. Rochette spoke against.

Rep. Gile spoke in favor.

Committee report adopted.

HB 58, requiring municipalities to establish volunteer civilian police review boards. **INEXPEDIENT TO LEGISLATE.**

Rep. Eric G. Stohl for Municipal and County Government: This bill would require the governing body of each municipality to establish a volunteer civilian police review board. This bill would also give this civilian board very broad powers to hold meetings at such times and places and according to such procedures as it deems necessary for the purpose of hearing complaints regarding law enforcement officers or law enforcement activities within the municipality. Civilian police commissions are now in many municipalities within the state. These police commissions allow three members of the municipality to do the same duty that this bill tries to do. The police commissions are bound by RSA 91-A, that governs personnel matters. These volunteer civilian police review boards would not be so bound under this bill. While the committee believes in holding accountable practices and actions of police officers, we do not believe that this bill is necessary. Vote 18-0.

Rep. Timothy Robertson spoke against.

Rep. Theberge spoke in favor.

Committee report adopted.

HB 230, relative to the use or occupation of public ways. **INEXPEDIENT TO LEGISLATE.**

Rep. Bennett F. Moore for Municipal and County Government: This bill would remove the ability of towns to assess property taxes on the use or occupation of the public way. Such ability was affirmed by a 2004 State Supreme Court decision and the bill would effectively reverse that decision. The committee believes that it is inappropriate to limit the town's ability in this matter. Vote 16-0.

Rep. Jasper spoke against.

Committee report adopted.

RESOLUTION

Rep. Wallner offered the following: **RESOLVED**, that the House now adjourn from the early session, that the business of the late session be in order at the present time, that the reading of bills be by title only and resolutions by caption only and that all bills ordered to third reading be read a third time by this resolution, and that all titles of bills be the same as adopted, and that they be passed at the present time, and when the House adjourns today it be to meet Wednesday, February 21, 2007 at 10:00 a.m.

Adopted.

LATE SESSION

Third reading and final passage

HB 86, establishing a committee to study educational and social services programs that serve families with children 6 years old and younger.

HB 44, relative to the authority of authorized persons to take custody of nuisance dogs.

HB 167, relative to areas of assessment required under the statewide improvement and assessment program.

HB 54, establishing a commission to study automobile recycling issues.

HB 148, establishing a commission to study pharmaceutical costs and the 340B Drug Pricing Program.

HB 42, relative to resource protection sections of local master plans.

HB 63, relative to conflicts of interest involving county officers and employees.

HB 72, relative to the payment of municipal sewage assessments.

HB 107-L, authorizing towns to charge property owners for solid waste removal.

HB 115, relative to the procedure for counties to apply for, accept, and expend federal, state, or other grants.

HB 198-FN, relative to collection of taxes on land with a discretionary easement and relative to the calculation of penalties applied to tax-deeded properties.

HB 104-FN, relative to renewal of drivers' licenses by certain national guard members.

HCR 2, urging the federal government to establish a post office and a zip code in the town of Lee.

HB 126, relative to the definition of "school."

HB 101, relative to annual training for members of the workers' compensation appeals board.

HB 41, relative to human immunodeficiency virus education, prevention, and control.

HB 103, establishing a commission to study the state highway trust fund.

HB 122, naming a bridge in the town of Henniker after Sergeant Russell M. Durgin.

UNANIMOUS CONSENT

Rep. Larry Brown addressed the House.

PERSONAL PRIVILEGE

Rep. Tahir addressed the House.

RECESS MOTION

Rep. Wallner moved that the House stand in recess for the purpose of receiving Senate messages.
Adopted.

The House recessed at 12:45 p.m.

RECESS

(Speaker Norelli in the Chair)

Rep. Wallner moved that the House adjourn.
Adopted.

HOUSE JOURNAL No. 6

Wednesday, February 21, 2007

The House assembled at 10:00 a.m., the hour to which it stood adjourned, and was called to order by the Speaker.

Prayer was offered by Guest Chaplain, Reverend David P. Jones.

It strikes me as too bad that the way that we celebrate the lives of two of our greatest Presidents is by combining their birthdays to create a three-day weekend on which you can purchase mattresses and tires at a reduced rate.

Do you ever wonder how people will remember and observe your service in this place during these days looking back?

Let me remind you this morning that as long as you offer your honest self to the work that is before you, it does not really matter one bit how you will be remembered. In the first place, your honest self is all you've got. Secondly, your honest self is always good enough. So offer that, but remember those in whose steps you follow.

Wise, wonderful, observant One, let each of us feel the gentle weight of Your eyes resting upon us this day. May we find the humility and the strength to offer only the best that is within us – our honest selves. Amen.

Rep. Julie Brown, member from Rochester, led the Pledge of Allegiance.

The National Anthem was sung by Glinda Allen of Hooksett.

LEAVES OF ABSENCE

Reps. George Brown, DesRoches, Forsing, Hopfgarten, Oliver, Splaine and Francis Sullivan, the day, illness.

Reps. Berube, Blanchard, Butterworth, Buxton, Claudia Chase, DeChane, Domingo, Dumaine, Farley, Forest, Francoeur, Introne, McGuirk, Nagle, Serlin and Yeaton, the day, important business.

Reps. Lund, Benjamin Moore and Kimberly Shaw, the day, illness in the family.

INTRODUCTION OF GUESTS

Brian Ramey and Deb Cross, friends of the singer, guests of the House. John Woodhull, Heidi, Devin and Shane Finnegan, husband, sister, niece and nephew of Rep. Skinder. Ellen, Stephane and Michael Hazera, sister, brother-in-law and nephew of Rep. Christine Hamm. Hon. Betsy Shultis, former member from Portsmouth, guest of the Portsmouth delegation. Alex DiFruscia, grandson of Rep. DiFruscia. Henry Trachy, guest of the Speaker.

RESOLUTION

Reps. Wallner and Whalley offered the following: **RESOLVED**, that the House of Representatives inform the Honorable Senate it is ready to meet in Joint Convention for the purpose of attending to an address by Chief Justice John T. Broderick, Jr. on the state of the Judiciary.
Adopted.

SENATE MESSAGE

The Senate is ready to meet with the Honorable House of Representatives in Joint Convention for the purpose of attending to an address by Chief Justice John T. Broderick, Jr. on the state of the Judiciary.

JOINT CONVENTION

(Speaker Norelli presiding)

The Sergeant-at-Arms introduced the Senate and Senate President, Sylvia B. Larsen of Concord.

INTRODUCTION OF SPECIAL GUESTS

The Sergeant-at-Arms introduced the following special guests: The Honorable Robert J. Lynn, Chief Justice of the Superior Court. The Honorable Edwin W. Kelly, Administrative Judge of the District Courts and Family Division. The Honorable John A. Korbey, Supervisory Judge of the Rockingham County Family Division. The Honorable David D. King, Administrative Judge of the

Probate Courts. Executive Councilors Beverly A. Hollingworth and Raymond J. Wieczorek. His Excellency, Governor John H. Lynch. The Honorable John T. Broderick, Jr., Chief Justice of the New Hampshire Supreme Court.

The Honorable John T. Broderick, Jr., Chief Justice of the New Hampshire Supreme Court addressed the Joint Convention.

STATE OF THE JUDICIARY ADDRESS

Madam Speaker, Madam President, Governor Lynch, distinguished members of the House and Senate, my judicial colleagues, leaders of the State Bar and honored guests: I stand here today as the Chief Justice of a judicial system buffeted by change and confronted with both new challenges and new opportunities. The state courts have been fortunate to have extraordinary judges, masters and staff who are doing all they reasonably can do with the resources they have to ensure that the courts remain relevant, adaptive and responsive in this new century. But I would be less than candid this morning if I did not tell you that the state courts are under great strain. Each year we deal with more than 225,000 cases. Our staff of 596, most of whom I have gotten to know, all of whom I respect, have stepped up every single time I have asked them to, but there are limits and I believe we have reached them.

Almost everything around us is changing, often faster than we would like, and the courts need to change, too. I believe the train for this new century is leaving and we need to catch it. We are, in my view, at a critical crossroads and all of you in this great Hall will largely decide the future of the state courts and whether they will remain meaningfully open to all of our citizens and whether they will deliver timely justice. The challenge facing the state courts today is more daunting than it has ever been in my almost 12 years on the Supreme Court, but with your assistance and your support, all of us in the Judicial Branch are committed to success.

I am anxious, personally anxious to work with all of you in this legislative session to ensure that justice in our state is truly open and available to all who seek it. In my judgment, at the start of this century, we need to be bold and farsighted in our vision and our actions for the state court system. Many people who you and I will not know and likely never meet are depending on us to make sure the courts are available to them when they need them. My model of a court system is like the local emergency room; you hope never to go there, but when you go there you want to make sure the doctors and the nurses can help you. Marching in place, in my view, will no longer allow the justice system to meet its responsibilities, maintain public trust and confidence and fulfill the fundamental promises of our constitution.

When I assumed my new position as Chief Justice in 2004, I committed myself publicly to do all that I could to make justice more accessible, affordable and understandable. We are making real progress on that front. I also committed the Judicial Branch to transparency, cooperation and dialogue with the other branches of government and I believe we are standing by that commitment while at the same time honoring the independence the people of our state enshrined in Part I, Article 37 of our state constitution.

Our branches of government, yours and mine, in the discharge of their respective duties, from time to time experience awkward disagreements and conflicting points of view. Those moments are never pleasant, but they are part of the fabric of our democracy and in my view should not keep us from our larger mission. The New Hampshire constitution requires all branches of government, mine included, to cooperate and that all of us have a shared responsibility and commitment to our fellow citizens and to effective government. I am honored to be here this morning, genuinely honored to be in this Hall and I am here in the spirit of cooperation and common dedication that all of us have to the people of our state.

Let me tell you, as briefly as I can, what has transpired over the last two years before I identify the four great challenges that I see to the administration of justice and to the people of our state who use the justice system.

Two years ago the family division was in two counties and eight locations. Today, through the tireless efforts of Judges Kelly, Carbon and Korbey, their administrators and their staff, the family division will be in eight counties and 22 locations before this year is out. It represents the largest single change in the court system in a generation. It was a change initiated by this Legislature and is intended to better serve the families who face challenge, change and hardship. I am proud of our progress, of our judges, our masters and staff who have made that progress possible.

Two years ago we had no mediation in any of our district courts. Today, because of your assistance, before this month is done we will have mediation in virtually every district court site in New Hampshire for small claims cases. There are 17,000 of those cases filed every year. Many of the cases are settling. Mediation is proving a successful alternative to appearing before a judge. It gives parties both a stake and a hand in crafting a mutually acceptable solution. Parties who design their own results are more likely to live by them and it saves us money. Going forward I would like to see mediation more broadly used on a lot of district court issues and I am convinced that the expansion of ADR will pay dividends for both the people and the courts. I welcome your ideas. I need your help to make that happen.

In family division sites today, mediation plays a central role in crafting parenting plans - your idea - and helps keep the focus on children when a marriage dissolves. In the probate court where new Administrative Judge David King is now presiding, mediation is more popular than ever - and more effective than ever.

At my request, Justice Dalianis of the Supreme Court chaired a committee, which had legislative representation, to study the thoughtful use of expanded ADR throughout the Judicial Branch. The committee had broad representation, including Judges Morrill and Conboy of the Superior Court, and focused much of its attention on infusing the Superior Court with re-invigorated statewide alternative dispute resolution beyond the voluntary program; the voluntary program that exists in only four of our ten counties. The plan that they devised is based on what is currently on the ground and operating successfully in the state of Maine, not the state of California, the state of Maine, where one of the justices on the Maine Supreme Court told me it was the single best initiative they undertook in the Maine state court system. We'd like to undertake it in New Hampshire. I am confident that after public input on the proposed changes, and with your financial help, we can adopt a comparable system in New Hampshire in this calendar year. We need to build off-ramps for people. We need to build off-ramps for people in the court system and ADR expansion is absolutely critical to that mission.

In our budget, we requested a \$137,500 in fiscal year 2008 to open a system-wide Judicial Branch Office of ADR. It would have one full time administrator and would have one staff person. My expectation is that in 2009 that office would be largely self-funded through registration fees and small transaction fees. It would be the best investment you could make in the future of the state courts and it may only require one year. It's essential that we have someone in the wheelhouse monitoring quality and consistency in ADR and it won't happen without that office and I am confident that the private marketplace would welcome it. It's long overdue. It is an opportunity we cannot afford to miss.

I just came back ten days ago from a Chief Justice meeting in New Orleans where this topic was discussed among the fifty Chief Justices in this country. I am persuaded beyond certainty that you cannot have a state court system in the 21st century without alternative dispute resolution being a critical component.

Because incarceration is not always the best answer in every delinquency or criminal case, the Judicial Branch, through private grant money, now has both juvenile and adult drug courts in several district court locations and one Superior Court location. The drug courts are helping some people to turn their lives around, stay with and support their families and ultimately become productive citizens. The counties should embrace drug courts and may ultimately be agreeable to paying for them because they lessen the overall cost of incarceration. Saving money and saving lives makes sense to all of us and we need to expand the number of problem-solving courts to be certain this happens. I encourage you to help us. I need your input. I need your support.

Thanks to action in this legislature in 2002, Cheshire County over in Keene has a mental health docket for non-violent offenders. It costs more to incarcerate someone in the Cheshire County House of Correction than to medicate that same person appropriately so he or she can stay in the community with their families, report regularly to the courthouse and hopefully retain employment. Sound justice in the 21st century and sound economics are not polar opposites. The Nashua District Court, on their own initiative, established a mental health court docket recently and I congratulate Judges Leary and Bamberger for seeing the future and acting on it. We need to expand these dockets around the state of New Hampshire. Their time is here. Their promise is great.

In the Superior Court, Chief Justice Lynn has adopted individual docketing. Cases go to specific judges and stay with those judges until the cases are concluded. His leadership in that area has improved efficiency and judicial accountability. For the first time ever, the Superior Court now has

a weighted caseload. Cases are given certain weight depending on how long they should take to complete. The study is done by the National Center for State Courts in Williamsburg, Virginia. We have weighted caseloads in the District Court and the Probate Court and for the first time we have it in the Superior Court and it will allow us and you, more importantly, to know what judge time is needed to handle the dockets we have. And the weighted caseload study, recently completed, shows the need for two new Superior Court judges even after all of the divorce cases and domestic violence cases are removed from the Superior Court. A vibrant Superior Court, in my judgment, is essential to the welfare of our citizens in this new century. I hope you will support our request for these judges. They are desperately needed.

More recently, Judge Lynn and I have been discussing the establishment of a "business court docket" in a central Superior Court location to give more specialized and timely attention to disputes between and involving businesses. They exist now in about fourteen states on the East coast. Some months ago I was in Salt Lake City. I had five minutes with a Justice of the North Carolina Supreme Court in the lobby. I said, "Tell me something you are doing in North Carolina that we should be doing in my state." He asked, "You have a business court docket don't you?" I said, "No, but I'd like one." He said, "The businesses of North Carolina like it, the Governor of North Carolina likes it because when he's going out to entice businesses to come to North Carolina they say how is your court system?" It matters. The business court docket would be an opt-in system. It would improve customer service and I am convinced will be well received by the businesses in our state. I'm also of the view there is no downside risk in trying. The cost is de minimis, the value is substantial.

In June 2006, the Citizens Commission, which we appointed in April 2005, provided thoughtful and far-reaching recommendations on the needs and challenges confronting the state courts. It's an extraordinary piece of work, if you haven't read it I recommend you read it. The 100 citizens were comprised of people who were non-lawyers and non-judges. Two-thirds of them were non-lawyers and non-judges. It was chaired by two very dedicated citizens, Will Abbott, who some of you may know and Kathy Eneguess. They proceeded with no agenda. They had no restrictions on the questions they asked. There was no member of the Supreme Court on the commission and we did not channel or direct their activities.

The report makes 30 recommendations, from technology enhancement to criminal justice reform, to customer service, to staffing needs, to case processing. These are our fellow citizens who looked at the courts. And their report was the basis - their report was the bases of much of our strategic plan and budget for the next six years. In fact, for the first time in the history of the state court system, when we had a two-day retreat to talk about the needs of the court and the budget requirement of the court going forward, we selected a non-lawyer, non-judge member of the Citizens Commission to chair and facilitate that retreat. I commend the work product of that Commission to you. It reflects the wisdom of our fellow citizens and does an outstanding job of mapping the needs of the court system going forward. Long after I am no longer Chief Justice, the court system will have needs. It's not about the judges; it's about the people of our state.

More than two years ago the Supreme Court appointed a committee to study public access to court documents. It was a diverse committee and included members of this Legislature. The committee suggested rule changes on public access and they will soon go out for public comment. And I expect by the end of this year we will have a new and comprehensive policy on public access to court documents which will protect personal and confidential information in which people have a legitimate and reasonable expectation of privacy. I want to open up the courts. I want the courts to be as transparent as you have a right to expect them to be.

Finally, this court system is developing a new case management system which was a direct result of your generous appropriation a few years ago. It's currently in 13 district courts. It will eventually be at all 45 trial courts around the state. At every courthouse when that's completed there will be at least one public access terminal so the public can access forms, court files and related information without ever going to the counter. It's called the Odyssey system. The Odyssey system will eventually allow for remote access so you won't need to come to the courthouse for some information and it will serve as a platform for future electronic filing which they currently have, by the way, in the United States District Court and the Federal Bankruptcy Court. And the world in which all of us live our daytime lives is expecting that more and more. The Odyssey system will also serve as a great source for data retrieval and will ensure uniformity of process in all of our courts and allow you, allow you, the peoples elected Representatives to make sure the courts are acting as productively and efficiently as you have a right to expect. I know I have taken a lot of your

time, but I would like to take a few more minutes to tell you what I think the four great challenges are confronting the state courts. And I think they are challenges to the safe, effective, competent and efficient administration of justice, not just today, but going forward. First, the number one challenge confronting the state courts in my view is the growing number of parties who come to the courthouses in our state representing themselves. The number is growing at an alarming rate. When I went to New Orleans ten days ago for the Chiefs meeting this topic took up one day of our two day program. It's a problem confronting every Chief Justice in every state court system in America. Let me give you some numbers. In marital cases in New Hampshire, 70% of the time one or both parties represent himself or herself. In the Supreme Court where we receive about 1,000 appeals a year, in 350 to 400 of those appeals, one or both parties represents himself. I was told recently in 1986 in the Supreme Court the number was 8%. In the Superior Court, the number is close to 50%. In the District Court it's 85%. The Probate Court is close to 40%. The consequences of this phenomenon are real and we need to talk about them and we need to address them.

The staff at the courthouses spends more time at the counter and on the phone talking to people who have little or no knowledge of the process or how to use it. It's not their fault – most of these people are there because they can't afford a lawyer. I am not blaming them, but it's our reality at the courthouses. And the result is as you might expect is delay, a decline in staff morale and a legal community and client base increasingly frustrated by the time it takes to process and forward court orders which are so important to their lives. In some sites, despite the efforts of our staff, which are significant, you could wait four weeks to get an order in a divorce case. That is not a formula for excellence and it won't change if we don't look at it and change it. As the Citizens Commission recommended, and as our budget requests, we need more staff, especially case managers in the family division. These are folks who are particularly capable at assisting the self represented population which is the overwhelming number of people who come to our divorce courts. And these folks are trying to navigate the court system without a lawyer.

To help address this challenge, the Supreme Court last winter adopted an ethical rule which allows for the delivery of unbundled legal services. We are a handful of states in the country to have taken this initiative. I'm proud we took it. What it means is that clients involved in litigation can pinprick the system, hire a lawyer to help them with the small part of it that they can afford; come to court and argue a motion; draft a legal memorandum; draft a plea date or draft a libel for divorce. They win – the courts win, and we all win when justice is dispensed. Lawyers in this state add value and more parties will be able to afford them with this new rule. ADR will help and recently we joined 20 states in America. We're late to the table, but we're here ahead of 30 others. We formed an Access to Justice Commission, which is chaired by Justice Duggan of the Supreme Court and Chief Judge McAuliffe of the United States District Court to find systemic answers to the problem of the unrepresented party. How can we make sure in this new century that people have meaningful access to justice? If you and I devised a health care system where when poor people came to emergency rooms and they didn't have insurance, we said "I'm sorry, I can't diagnose your problem, but we have some fabulous text books over there with beautiful illustrations and the instruments are clean and good luck with the surgery." Everyone in this Hall would say that's immoral, but when people go to courthouses as they do every day in our state and have their lives changed without a lawyer, we think that's okay. It's not okay. I'm proud to be Chief Justice of this court system, but I am not proud to be Chief Justice on an afternoon in the Supreme Court where someone is standing in the well of our courtroom arguing for their life circumstance and not understanding their issues. Not their fault. The justice system has to do more than that. It's the single biggest problem on my desk and we need your help. The Bar Association in New Hampshire has a very proud history, very proud history of helping the poor. That has always been true in my time here in New Hampshire, but I have asked the Bar recently to do even more. In the last three months I have visited 17 law firms selected at random to make a personal appeal for even more service. And because the Bar is what the Bar is they have warmly responded. And I think the needle is starting to move. We need to stay after it and we can't expect the Bar to do it alone. If we, the courts, you the Legislature and the State Bar Association and perhaps the private sector do not confront this problem of unrepresented parties, it will soon, within this decade, swamp the administration of justice in our state. We need to deal with it now and I need your help to do that. You should be rightly proud, all of you in this Hall, of the appropriations you made in the last cycle for New Hampshire Legal Assistance. They, and we in the Judicial Branch, need your continued financial involvement in legal services for the poor. Currently there are 39 fulltime lawyers

in the state, 1% of the total Bar, serving an eligible poverty population of over 200,000 people, many of whom are children. Legal service lawyers are essential to the fair and efficient administration of justice in our state and I am asking you as the Chief Justice of this state to look favorably upon their requested budget. I also respectfully ask that you carefully consider the budget request of the New Hampshire Public Defender. They have 103 lawyers, I think, and they provide services to those who have a constitutional right to counsel. The criminal dockets in this state are growing. Their docket is growing, their caseload is growing by 6% a year and I fear that they will soon be at the breaking point and will say to all of us, "We can't handle anymore cases." I can tell you from my experience now on this court for more than a decade that their competence and diligence is essential to the fair administration of criminal justice in our state.

There is one program that I have become very enamored of and it's one of the most important programs that you will see in this budget cycle and it's not my program. It's called CASA - Court Appointed Special Advocates. These are people like you and me, most of them by the way non-lawyers, who represent the interests of children who are caught up in abuse and neglect and they do it for free and there are over 400 of them. And they do extraordinary work and they are seeking more money to hire more staff to supervise even more volunteers. Their services are indispensable for children and the courts and their value, let me assure you, their value far outstrips their costs. I urge you to support their work. Nobody, no one is more important in the justice system than an innocent child. The CASA people make a difference, a real difference in the lives of children.

Second great challenge we're facing in the court system is technology. We are certainly making strides thanks to you, but I fear at times that we are moving too slowly. I saw that recently when I was talking to law firms about pro bono. I went to a firm in Manchester which I won't identify. They had about 25 lawyers and they took me on a tour of the firm. They were showing me their technology. Their technology far exceeds the technology of the state court system. Many small law firms in the state of New Hampshire have better technology than the state courts. In 2007, the majority of judges in the state court system do not have direct access to the internet. We cannot, we, all of us, we cannot long expect the "speed of light" world to come into the paper world of the state courts. Why is that a problem? Maybe that's good that they don't come. I'll tell you why I think it's not good that they're not coming; because all of us are well served in my view if the problems that arise in our communities are resolved in public courtrooms with public input. I fear that more and more cases are fleeing to the private justice system where they don't have a record that you and I get to see and we don't get to walk into the conference room when they shut the door. The marketplace is making its own rules and deciding its own future. That's not good for the rest of us and it's not good for the state court system. The open resolution of disputes in a constitutional democracy with public input is a core value of our constitution. It's not just a good idea, it's essential. Technological advancements are essential to a vital and vibrant state court system and so I ask for your help in that area as well.

The third challenge of our four challenges is in some ways the most important because it involves our staff. We have almost 600 non-judicial staff. These are the people who make the system run everyday. They're the people who make the difference. They're the people who run the counters. They're the people that make the machine move. I will be very candid with you when I say we cannot long expect in this new era to get high quality people to come in at entry-level salaries of \$20,500 a year. If health benefits are cut, I fear some good people will leave. I'm confident some of them will leave for higher paying jobs in the private sector and that many good people won't apply. The demands on our staff are not diminishing. The demands on our staff are increasing every single day and we need, we, all of us, we need to attract the best people to work behind those counters and to deal with the people who need their help. I've met with almost all of the staff in this state who works for the courts. I have been to every courthouse. They get too little recognition, but I know their value. I have asked them repeatedly to meet challenge after challenge after challenge and they have met it, but respectfully I can't keep asking if there is no help on the horizon.

Finally, court security is a growing concern. Each morning when I drive up from Manchester to the courthouse, somewhere along those 22 miles I ask myself, "Will today be the day?" Will today be the day that I get the phone call? Our court security officers are paid \$65.00 a day. These are the people that are going to take a bullet; \$65 a day, no benefits, no mileage. Provide your own weapon and your own blue blazer. We have 17 different hand guns in use in the state court system. The people who provide court security, make no mistake about it, are extraordinary people. I have met all of them. But some of them do not have the experience or the physical agility to be a major

factor if an altercation or crisis ensues. Therefore we fully support the sheriffs who propose to assume system-wide authority for court security. Their proposal will improve training and raise standards. We hope you will look favorably on their pending legislation which is supported, I might say, by the Chiefs of Police, all 10 sheriffs and the Attorney General of New Hampshire. In her testimony a few weeks ago before the Senate Judiciary Committee in support of the sheriffs' security bill, the Attorney General said, "Now is the time." We need to reform court security and I hope we do so. I hope we do so before tragedy strikes. And it won't be a judge. It will be either a woman, in my view, at a family division site on a domestic violence or custody of a child issue. It will be some woman who will be subject to violence. It will be a member of the court staff. I do not want to get a call from a family member saying, "Judge Broderick did you know that the court system didn't have adequate security?" because there is no answer that I can give them that will satisfy them. In closing, if we are to meet these challenges, which are very, very real, if we are to meet these challenges to the administration of justice in New Hampshire, and if the courts are to meet the expectations of the people they serve, I respectfully suggest that we will need big ideas - big ideas and constructive change in the court system. Small steps, small steps and timid progress in this speed of light world will not suffice. They will, I fear, be too little, too late. We need your help. We need your counsel and we need some new resources to run the state court system.

As I leave this chamber this morning I want to thank the Speaker of the House and the Senate President for their kind invitation to speak to all of you. I particularly want to thank Governor Lynch who two years ago took time out of a busy schedule to be here and did that again today. I appreciate that very much.

Please know that my colleagues and I are committed to working closely with all of you. It's your court system; I just have the privilege to work there. I want to work closely with all of you to address the imposing challenges confronting the state courts as we head into the end of the first decade of this century. The courts belong to the people of our state and I am committed, as long as I have the privileges and opportunities and obligations of this job, to advocate on their behalf as I know all of you do here every day and the people of our state have every right to expect it.

Thank you all for listening to me this morning. Thank you for listening to me. It has been an honor to be here in the people's House. Thank you very much.

Rep. Wallner and Sen. Foster moved that the Joint Convention arise.

Adopted.

The Joint Convention adjourned.

HOUSE SESSION

(Speaker Norelli in the Chair)

The Speaker reconvened the House session.

MOTION TO VACATE

Rep. Almy moved that the House vacate the reference of **HB 613**, relative to payment for tobacco products purchased by retailers, to the Committee on Ways and Means.

Adopted.

The Speaker referred **HB 613** to the Committee on Commerce.

MOTION TO VACATE

Rep. David Cote moved that the House vacate the reference of **HB 273**, relative to special needs trusts, to the Committee on Judiciary.

Adopted.

The Speaker referred **HB 273** to the Committee on Health, Human Services and Elderly Affairs.

COMMITTEE REPORTS

CONSENT CALENDAR

Rep. Wallner moved that the Consent Calendar with the relevant amendments as printed in the day's House Record be adopted.

HB 143, relative to the apportionment of damages in civil actions, removed by Rep. Hunt.

HB 84, relative to the hours of operation of vehicle inspection stations, removed by Rep. Timothy Robertson.

Consent Calendar adopted.

HB 117, creating an exception for the storage of black gunpowder by historical reenactors and certain nonprofit entities. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Lee M. Hammond for Criminal Justice and Public Safety: Currently there is no statute governing storage of black powder for sportsmen or organizations who use black powder. The Department of Safety has an administrative rule which allows storage of up to five pounds of black powder in the original containers by sportsman and hunters. There are organizations such as historical re-enactors and other non-profit entities such as Fort Number Four in Charlestown which engage in educational activities involving the firing of the cannons for visitors and student groups. This activity involves the use of quantities of black powder in excess of five pounds. This bill exempts such non-profit groups and associations from the requirements of RSA 158 which regulates commercial storage of explosives. Federal statutes do not regulate storage of 50 pounds or less of black powder. A rule from the Department of Safety will determine a type of storage magazine to be used and determine a minimum distance from an occupied dwelling where the magazine shall be located. The Department of Safety, Fire Marshall and the licensing bureau which licenses explosives storage facilities have agreed that this measure has a public benefit. Vote 18-0.

Amendment (0053h)

Amend the bill by replacing section 2 with the following:

2 Effective Date. This act shall take effect upon its passage.

HB 187, establishing a study committee to determine which law enforcement agencies are responsible for enforcing civil judgments. **OUGHT TO PASS WITH AMENDMENT.**

Rep. John E. Tholl for Criminal Justice and Public Safety: The committee amendment replaces the entire bill including the title that would have created a study. The committee believes that the proper enforcement agency to enforce civil judgments is the sheriff's department. Historically the sheriffs have enforced civil judgments; however, the law is silent on this issue. The bill as amended clarifies the law. The sponsors as well as the sheriffs support the committee amendment. The amendment also requires than an order of enforcement be issued at the time of judgment unless circumstances do not permit. This will limit the number of times a person is required to make an appearance in court. Vote 17-1.

Amendment (0125h)

Amend the title of the bill by replacing it with the following:

AN ACT establishing that sheriffs' departments have sole jurisdiction to enforce civil orders.

Amend the bill by replacing all after the enacting clause with the following:

1 Powers of Sheriffs. Amend RSA 104:6 to read as follows:

104:6 Powers.

I. Sheriffs and their deputies shall have throughout the state the same power and authority to serve criminal or civil processes, investigate crimes and to pursue and apprehend criminals that they have in their respective counties.

II. Notwithstanding any law to the contrary, sheriffs and their deputies shall have sole jurisdiction to enforce civil orders issued by any court. A court shall issue an order of enforcement at the same time it issues a civil judgment, unless circumstances do not permit the issuance of the order of enforcement.

2 Effective Date. This act shall take effect 60 days after its passage.

AMENDED ANALYSIS

This bill establishes that sheriffs' departments have sole jurisdiction to enforce civil orders.

HB 98, relative to the situation of landfills on land owned by municipalities. **OUGHT TO PASS WITH AMENDMENT.**

Rep. David E. Essex for Environment and Agriculture: This bill subjects waste disposal facilities on land owned and operated by one municipality within another municipality to the same land use regulations as a private entity. Its sponsors wished to close a loophole in RSA 674:54, which exempts certain government entities from local land-use regulations, but which one town could conceivably use to site a landfill in another town against its wishes. When representatives of cooperative solid-waste districts expressed concern that the original bill might adversely affect their operations, the sponsors offered compromise language that was acceded to by the cooperatives' representatives and adopted unanimously by the committee. Vote 18-0.

Amendment (0039h)

Amend RSA 674:54, II-b as inserted by section 1 of the bill by replacing it with the following:

II-b. The construction and operation of any solid waste disposal facility on land owned or occupied by any city or town within another city or town shall be subject to local land use regulations to the same extent as if the land were owned and occupied by a private entity. Nothing in this paragraph shall affect the construction and operation of a solid waste facility on land owned by a solid waste management district formed under RSA 53-A or RSA 53-B or any combination of municipalities authorized by an act of the general court, if the land is located within a city or town that is part of the district.

HB 396, establishing a commission to study autism spectrum disorders in New Hampshire. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Suzanne S. Butcher for Health, Human Services and Elderly Affairs: Autism is affecting increasing numbers of New Hampshire families (CDC now estimates 1 in 150 children), posing enormous challenges to our society, our schools, our economy, and our service systems. This bill establishes a commission to "examine and make recommendations regarding the care, treatment, and quality of life of children and adults with autism spectrum disorders and their families," with a report due July 1, 2008. The amendment adds to the commission a family member appointed by the Governor. Vote 18-0.

Amendment (0184h)

Amend paragraph I of section 2 of the bill by replacing it with the following:

I. The members of the commission shall be as follows:

(a) Three members of the house of representatives, appointed by the speaker of the house of representatives.

(b) Two members of the senate, appointed by the president of the senate.

(c) The commissioner of the department of health and human services, or designee.

(d) The commissioner of the department of education, or designee.

(e) The governor, or designee.

(f) A family member of an individual with an autism spectrum disorder, appointed by the governor.

(g) A representative of the New Hampshire Developmental Disabilities Council, appointed by the council.

(h) A representative of the Autism Society of New Hampshire, appointed by the society.

(i) A representative of the Institute on Disability, university of New Hampshire, appointed by the Institute.

(j) A representative of the New Hampshire Medical Society, appointed by the society.

HB 245-FN, establishing a common law court. **INEXPEDIENT TO LEGISLATE.**

Rep. Lucy M. Weber for Judiciary: Currently, the existing courts have jurisdiction over all common law not repealed or changed by statute. The courts are adequately administering the remaining common law. To create a new court in addition to the current system would be needlessly expensive and confusing. Vote 18-0.

HB 89, relative to strikes by public employees. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Mary J. Gorman for Labor, Industrial and Rehabilitative Services: This bill in its original form limited the prohibition of strikes by public employees. As a result of much discussion, the bill was replaced by the amendment to create a study committee to study methods of dispute resolution between political subdivisions and public employees in New Hampshire. Vote 16-1.

Amendment (0030h)

Amend the title of the bill by replacing it with the following:

AN ACT establishing a committee to study dispute resolution between local political subdivisions and public employees in New Hampshire.

Amend the bill by replacing all after the enacting clause with the following:

1 Committee Established. There is established a committee to study dispute resolution between local political subdivisions and public employees in New Hampshire.

2 Membership and Compensation.

I. The members of the committee shall be as follows:

(a) Three members of the house of representatives, all of whom shall be members of the labor, industrial and rehabilitative services committee, appointed by the speaker of the house of representatives.

(b) Three members of the senate, appointed by the president of the senate.

II. Members of the committee shall receive mileage at the legislative rate when attending to the duties of the committee.

3 Duties. The committee shall study dispute resolution between local political subdivisions and public employees in New Hampshire. The committee's study may include, but shall not be limited to, the examination of:

I. The current status of labor relations, driving forces behind collective bargaining disputes, and relevant statistics.

II. Alternative methods of dispute resolution, including binding arbitration.

III. Evergreen clauses.

IV. Other states' policies on dispute resolution.

4 Chairperson; Quorum. The members of the study committee shall elect a chairperson from among the members. The first meeting of the committee shall be called by the first-named house member. The first meeting of the committee shall be held within 45 days of the effective date of this section. Four members of the committee shall constitute a quorum.

5 Report. The committee shall report its findings and any recommendations for proposed legislation to the speaker of the house of representatives, the president of the senate, the house clerk, the senate clerk, the governor, and the state library on or before November 1, 2007.

6 Effective Date. This act shall take effect upon its passage.

AMENDED ANALYSIS

This bill establishes a committee to study dispute resolution between local political subdivisions and public employees in New Hampshire.

HB 99, relative to the youth employment law. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Randolph N. S. Holden for Labor, Industrial and Rehabilitative Services: The bill was amended to exempt 16 and 17 year old adolescents who earned a high school diploma or GED from youth employment laws. Vote 16-1.

Amendment (0134h)

Amend the bill by replacing all after the enacting clause with the following:

1 Prohibitions. Amend RSA 276-A:4, VIII to read as follows:

VIII. No youth 16 or 17 years of age, *except a youth 16 or 17 years of age who has graduated from high school or obtained a general equivalency diploma*, shall be employed by an employer unless the employer *obtains and* maintains on file a signed written document from the youth's parent or legal guardian permitting the youth's employment.

2 Certificate. Amend RSA 276-A:5, VI to read as follows:

VI. Any employer not in compliance with the requirements of **RSA 276-A:4** or this section shall be assessed a minimum civil penalty of \$100.

3 Civil Penalties. Amend RSA 276-A:7-a to read as follows:

276-A:7-a Civil Penalties. In addition to other penalties and remedies imposed under this chapter, the commissioner may assess a civil penalty on an employer not to exceed [~~\$1,000~~] **\$2,500** for each violation of any provision of this chapter or rule adopted pursuant to this chapter. In assessing this penalty, the commissioner shall consider the nature of the violation, the employer's history of violations and the employer's good faith.

4 Effective Date. This act shall take effect January 1, 2008.

AMENDED ANALYSIS

This bill:

I. Prohibits youths 16 or 17 years of age who do not have high school diplomas from working certain hours.

II. Assesses or increases certain penalties for violations of the youth employment law.

HB 106, relative to leave of absences to serve as a legislator. **INEXPEDIENT TO LEGISLATE.**
Rep. Sally H. Kelly for Labor, Industrial and Rehabilitative Services: The majority of the commit-

tee felt that whether a person may serve in the legislature or not should be based on an agreement between the employer and the employee rather than legislation. Vote 15-1.

HB 231, establishing a commission to study the municipal assessment of market value for property tax purposes and the regulation of municipal assessors. **INEXPEDIENT TO LEGISLATE.** Rep. Anthony F. Simon for Municipal and County Government: This bill would have established a committee to study issues regarding tax assessments at the local level. The committee appreciates the sponsor's effort to give a voice to a group of constituents who are particularly concerned about the complexity of municipal assessments and taxation. However, the committee strongly believes that there are adequate procedures in place to address any and all concerns. Vote 16-0.

HB 153, relative to standards for bridge and highway construction. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Kevin K. Waterhouse for Public Works and Highways: The committee agreed with the request from the Department of Transportation that the American Association of State Highway and Transportation officials set the technical engineering standards and produce the manuals applied by the Commissioner of Transportation to state bridge and state highway aid projects. We measure these standards to receive federal highway dollars. These standards are arrived at by the commissioners of all the state transportation commissions to assure continuity across the nation. Vote 16-0.

Amendment (0207h)

Amend the bill by replacing section 1 with the following:

1 New Section; Bridge and Highway Construction Requirements for State Bridge Aid and State Highway Aid Projects. Amend RSA 21-L by inserting after section 12-a the following new section:

21-L:12-b Bridges and Highway Construction Requirements for State Bridge Aid and State Highway Aid Projects.

I. Except as provided in paragraph II, the most current versions of the following design standards and manuals promulgated by the American Association of State Highway and Transportation Officials (AASHTO), inclusive of any amendments, revisions, interim revisions, or new editions promulgated by AASHTO are hereby adopted by reference, and the commissioner shall apply them to any project funded by state bridge aid or state highway aid as minimum standards in the state:

- (a) AASHTO load and resistance factor design for bridge design specifications;
- (b) AASHTO manual for condition evaluation of bridges;
- (c) AASHTO guide specifications for seismic isolation design;
- (d) AASHTO manual for condition evaluation and load resistance factor rating (LRFR) of highway bridges;
- (e) AASHTO standard specifications for structural supports for highway signs, luminaries, and traffic signals;
- (f) AASHTO policy on geometric design of highways and streets; and
- (g) AASHTO roadside design guide.

II. For modifications to an existing bridge, the commissioner may require load resistance factor (LRFD) specifications from the most current version of the applicable AASHTO manual listed in paragraph I or the specifications that were used for the original design of the bridge.

AMENDED ANALYSIS

This bill requires design standards and manuals relating to bridge construction promulgated by the American Association of State Highway and Transportation Officials to be adopted by reference and applied by the commissioner of transportation to state bridge aid and state highway aid projects.

This bill is a request of the department of transportation.

HB 166, relative to the definition of a bridge. **OUGHT TO PASS.**

Rep. John R. Cloutier for Public Works and Highways: This bill would change the definition of the term "bridge" by amending RSA 234. It was filed at the Department of Transportation's request and the department said it simply reflects what the department's current practice is in regard to bridges. Furthermore, it should help the state's bridges more easily qualify for federal disaster aid in the future. Finally, the bill is not specifically applicable to either RSA 234:4, or 234:13. Vote 16-0.

HB 199-FN-A, making an appropriation for the restoration of the Sawyer House at the Daniel Webster birthplace. **INEXPEDIENT TO LEGISLATE.**

Rep. Gene G. Chandler for Public Works and Highways: This bill makes an appropriation for the restoration of the Sawyer House at the Daniel Webster birthplace. The committee unanimously agreed that this item should be discussed in content of the capital budget and there seemed to be a bit of an issue as to the actual cost of the project. While not promising any positive action, the committee welcomes the sponsors and other interested parties to appear at the capital budget hearing. Vote 16-0.

HB 56, relative to the definition of agritourism. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Donald A. Brueggemann for Resources, Recreation and Development: This bill defines agritourism as those ancillary farm activities, such as wagon rides and or mazes, used to attract visitors to farms. The bill was a recommendation of the New Hampshire Farm Viability Task Force. The intent is to recognize that today's farms need to engage in a diversity of agriculturally related activities to survive. This definition has little impact on a municipality's zoning powers over land uses on farms. Vote 18-0.

Amendment (0033h)

Amend the bill by replacing section 1 with the following:

1 New Paragraph: Agritourism. Amend RSA 21:34-a by inserting after paragraph V the following new paragraph:

VI. The term "agritourism" means attracting visitors to farm operations for the purpose of eating a meal, making overnight stays, enjoyment, education, or active involvement that is ancillary to the activity of the farm or operation, and as such shall be considered an agricultural use.

HB 61, designating segments of the Ammonoosuc River into the rivers management protection program. **OUGHT TO PASS.**

Rep. Sid Lovett for Resources, Recreation and Development: The rivers management protection program provides for certain rivers to enjoy special protection. Rivers are nominated after research and documentation of outstanding natural and community resources and full support of the communities. This bill designates segments of the Ammonoosuc River into the rivers management protection program, and was supported by the constituencies of all seven towns, by the New Hampshire Department of Environmental Services (DES), and all attendees at the hearing. Vote 17-0.

HB 154, relative to the inclusion of certain tax information in state tourism publications. **INEXPEDIENT TO LEGISLATE.**

Rep. Betsy McKinney for Resources, Recreation and Development: This bill would require the state tourism department to include information in promotional materials relative to the state's tax advantages. The department now publishes the fact that we have no sales tax. The committee felt that this was a good idea but not something that should be in the RSAs. Vote 16-1.

HB 438, renaming a certain island in Blackey's Cove in Lake Winnepesaukee. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Judith T. Spang for Resources, Recreation and Development: Upon the request of the family which owns this half-acre island, the name would be changed from the nondescript "2 Island" to "Eljays Island." The amendment gives GPS coordinates to identify the island. Vote 16-0.

Amendment (0111h)

Amend the bill by replacing section 1 with the following:

1 Renaming of an Island in Blackey's Cove in Lake Winnepesaukee. The island in Blackey's Cove in Lake Winnepesaukee, located at latitude 43 degrees, 42.263 minutes North, and longitude 71 degrees, 26.467 minutes West, now known as "2 Island", shall be renamed as "Eljays Island." All signage erected on this site shall be approved by the department of transportation and shall not be a charge against the state.

HB 66, relative to display of antique motor vehicle plates. **INEXPEDIENT TO LEGISLATE.**

Rep. Peter F. Bergin for Transportation: The sponsor had good intentions to allow antique motor vehicles to use year of manufacture plates on the front and back of the vehicle. The hearing brought up a number of concerns, and the sponsor brought forth an amendment to address these. The com-

mittee appreciates the sponsor's efforts but heard a number of concerns from the Department of Safety such as the state's computer system not sufficiently complex to permit such record keeping. In addition, how would you accurately identify and report a plate if a crime, a traffic violation or accident occurred? As a result the committee voted ITL. Vote 16-1.

REGULAR CALENDAR

HB 140, reestablishing the New Hampshire task force on deafness and hearing loss. **MAJORITY: OUGHT TO PASS WITH AMENDMENT. MINORITY: INEXPEDIENT TO LEGISLATE.**

Rep. James P. Pilliod for the Majority of Health, Human Services and Elderly Affairs: This bill as amended continues an existing task force by changing the operative group from a task force to a longer functioning commission with appropriate improvements in the make up of the commission. The duties remain substantially the same, and the reporting requirements would be annual with a specified review to determine the effectiveness of the commission in six years. Vote 18-1.

Rep. Peter L. Batula for the Minority of Health, Human Services and Elderly Affairs: It is with regret that although fully supporting the intent of this bill to reestablish the New Hampshire task force on deafness and hearing loss, the minority position on the bill is because of an amendment that was added in committee to require this commission to meet for the next six years. A commission is a very serious undertaking, listed in the black book and in this case includes in excess of 20 members. Again, the minority has no problem with the good intent of the objective in the bill. Where it differs is the designated six year commission life span instead of the common one, two or three years of duration which can be extended if their work suggests it. This legislature has literally hundreds of committees and commissions meeting at any given time, throughout the year. This minority report is filed because of a concern that legislating any six year or longer committee or commission should be given very careful consideration, especially when a commission or committee duration can be extended, in time, via legislation. Otherwise, we could be setting an improper precedent.

Majority Amendment (0137h)

Amend the title of the bill by replacing it with the following:

AN ACT establishing the New Hampshire commission on deafness and hearing loss.

Amend the bill by replacing all after the enacting clause with the following:

I New Chapter; New Hampshire Commission on Deafness and Hearing Loss. Amend RSA by inserting after chapter 125-O the following new chapter:

CHAPTER 125-P

NEW HAMPSHIRE COMMISSION ON DEAFNESS AND HEARING LOSS

125-P:1 Commission Established; Chairperson; Compensation.

I. A commission, to be known as the New Hampshire commission on deafness and hearing loss is hereby created and established. The commission shall consist of the following members:

(a) One member of the house of representatives who shall be from the health, human services and elderly affairs committee, appointed by the speaker of the house of representatives.

(b) One member of the senate who shall be from the health and human services committee, appointed by the president of the senate.

(c) One member from the governor's commission on disabilities, appointed by the governor.

(d) Two representatives of the department of health and human services, appointed by the commissioner.

(e) One representative of the department of employment security, appointed by the commissioner.

(f) Two representatives of the department of education, appointed by the commissioner.

(g) One representative of the administrative office of the courts, appointed by the chief justice of the New Hampshire superior court.

(h) The president of the New Hampshire Association of the Deaf, or designee.

(i) One representative of the New Hampshire Association of the Deaf, appointed by the president of the association, or designee.

(j) The president of the New Hampshire chapter of the Hearing Loss Association of America, or designee.

(k) One representative from the New Hampshire chapter of the Hearing Loss Association of America, appointed by the president of such association, or designee.

(l) One representative of the New Hampshire Registry of Interpreters for the Deaf, appointed by the president of the New Hampshire Registry of Interpreters for the Deaf, or designee.

(m) The attorney general, or designee.

(n) The commissioner of the department of safety, or designee.

(o) The commissioner of the department of corrections, or designee.

(p) The executive director of Granite State Independent Living, or designee.

(q) The executive director of the governor's commission on disability.

(r) The executive director of Northeast Deaf and Hard of Hearing Services, Inc.

(s) The executive director of the Disabilities Rights Center.

(t) Any other appropriate person designated by the commission.

II. The members of the commission shall elect a chairperson from among the members. Members of the commission shall serve without compensation except that legislative members of the commission shall receive mileage at the legislative rate when attending to the duties of the commission.

III. Legislative members of the commission shall serve a term which is coterminous with their elected office.

125-P:2 Organization; Meetings.

I. The commission shall be convened by the named member of the house of representatives, and shall hold its first meeting no later than 30 days after the effective date of this chapter.

II. The department of education and the department of health and human services shall provide administrative support, in equal measure, for the commission, including interpreter services for commission meetings.

125-P:3 Duties. The commission shall:

I. Recommend, where applicable, statutes, rules, policies, and education programs necessary to successfully provide New Hampshire citizens who are deaf or hard of hearing with access to competent interpreters at all levels of local and state government.

II. Investigate establishing an information and referral service operated by and for persons who are deaf and hard of hearing to promote access of such persons to the community-based health care, educational, employment, and social services that are available to all citizens.

III. Develop peer counseling, job placement, and advocacy services which would enhance the ability of individuals who are deaf or hard of hearing to contribute to their communities.

IV. Recommend legislation and identify funding sources by working in collaboration with the following agencies and organizations:

(a) The governor's commission on disability.

(b) The Disabilities Rights Center.

(c) Northeast Deaf and Hard of Hearing Services, Inc.

(d) The department of health and human services.

(e) The department of safety.

(f) The department of corrections.

(g) The department of education.

(h) The department of justice.

(i) Granite State Independent Living.

125-P:4 Report. The commission shall make an annual report commencing on November 1, 2008, together with any recommendations, to the speaker of the house of representatives, the president of the senate, and the governor.

2 Review. The general court shall review the New Hampshire commission on deafness and hearing loss established in section 1 of this act in 6 years to determine the effectiveness of the commission.

3 Effective Date. This act shall take effect 60 days after its passage.

AMENDED ANALYSIS

This bill establishes the New Hampshire commission on deafness and hearing loss.

This bill requires the general court to review the commission in 6 years to determine its effectiveness.

Majority committee amendment adopted.

Majority committee report adopted and ordered to third reading.

HB 288, requiring the commissioner of the department of health and human services to apply for public and private grant funding for drug and alcohol rehabilitation programs. **MAJORITY: IN-EXPEDIENT TO LEGISLATE. MINORITY: OUGHT TO PASS.**

Rep. Thomas E. Donovan for the Majority of Health, Human Services and Elderly Affairs: Though the majority recognizes both the prime sponsor's deep commitment to the resolution of this critical issue and the increasing lack of supports for drug and alcohol treatment programs and of treatment facilities, we feel that this legislation is not the best remedy. While there are certain grants available in the areas of alcohol and drug prevention and treatment, and the department does apply for some, we heard testimony that the department would need more resources to be able to meet the bill's grant-writing requirement. The majority feels that the department has been as aggressive as it possibly can with the existing staff, and we are concerned about the impact on current programs if resources are to be diverted to apply for more grants. The majority also believes that we could not set a specific quota for the number of grants to be applied for within a certain unit or by a certain number of qualified staff, as all grants are so different in their requirements and complexities. We also believe that the needs and resources of the entire department have to be considered and prioritized before the decision to seek out specific grants is made. Vote 14-5.

Rep. Joy K. Tilton for the Minority of Health, Human Services and Elderly Affairs: This bill is not meant to reflect poorly on either the commissioner or the department. It simply seemed the most effective way to assure that the bill's purpose is achieved. The state does not have sufficient resources allocated in order to provide adequate treatment services to persons dependent on alcohol and/or other drugs. Addiction is an illness that ruins health, lives and families. Many of those struggling with this illness lose their jobs, family and friends, become bankrupt, and ultimately enter our correction facilities where treatment is limited or not available. Incarceration costs are approximately \$30,000.00 per year and the rate of recidivism is high within 9 to 12 months. The cost of treatment is approximately 1/3rd the cost of incarceration. For the health of "recovering consumers" at any stage of life, their families, our communities, business and industry, as well as our overcrowded prisons and the fiscal impact on our state, more funding for addiction treatment could be a "win-win" solution. It is essential that the Department of Health and Human Services apply for more grants and other public and private funding for this purpose. This bill simply requires that the Commissioner of the Department of Health and Human Services have the staff "apply for not less than 10 grants per fiscal year" that provide treatment services for persons dependent upon alcohol or other drugs, and for needed construction or renovation of treatment facilities as necessary. The solution should begin now.

Rep. Joy Tilton spoke against and yielded to questions.

Rep. Donovan spoke in favor and yielded to questions.

Rep. Butynski spoke against.

Reps. MacKay and Marjorie Smith spoke in favor.

Rep. Michael Rollo moved the previous question.

Adopted.

Rep. Wendelboe requested a roll call; sufficiently seconded.

and the majority committee report was adopted.

CACR 4, relating to funding for public transportation. Providing that revenues from the operation of motor vehicles or the sale or consumption of motor vehicle fuel may be used for public transportation. **INEXPEDIENT TO LEGISLATE.**

Rep. David B. Campbell for Public Works and Highways: The committee continues to believe the state does and should support mass transportation where it provides a viable transportation alternative. However, given the critical and worsening condition of New Hampshire's roads and bridges and the negative impact of spiraling construction costs on maintenance of the highway infrastructure, the committee unanimously believes that expanding the demand on the state highway fund is not appropriate at this time. Vote 16-0.
Committee report adopted.

HB 168, expanding the purposes of the wildflower establishment program. **OUGHT TO PASS.**

Rep. John A. Graham for Public Works and Highways: This bill will permit the Department of Transportation to use some of the money it receives annually from the conservation number plate trust fund for the planting and maintenance of wild flowers, shrubs and trees. Currently the law requires that money from this fund be used only for "planting lilacs and native wildflowers." However, fully one quarter of all plants growing in New Hampshire today are not native. This list includes such common plants as daisies, forsythia and daylilies. By expanding the use of the fund to include plants such as these, the DOT will be able to plant more areas with wildflowers and/or shrubs. The committee also heard testimony that it is difficult to grow "native" wildflowers along the state's highways. The committee feels that it is important to conserve the money available by planting species that will last more than one season. NH DOT will still be planting native wildflowers in areas where the native wildflowers will thrive. Additionally, the Department of Environmental Services expressed concern that by allowing this change there was the potential that invasive species would be introduced along our highways. The committee feels that existing laws concerning the purchase and planting of these prohibited species applies to the DOT and would not be allowed under this bill. Vote 16-0.

Committee report adopted and ordered to third reading.

HB 180-FN, relative to pay and allowances for officers and enlisted members of the national guard. **OUGHT TO PASS.**

Rep. Eleanor Glynn Kjellman for State-Federal Relations and Veterans Affairs: Members of the National Guard come under different personnel systems, depending on whether they are called up on state active duty or federal active duty. This bill would compensate those called to state active duty at the same rate as if they had been activated for federal service, in the area of allowances for housing and subsistence. Vote 11-3.

Committee report adopted and ordered to third reading.

HB 181-FN-A, establishing a tuition voucher program for New Hampshire national guard members and making an appropriation therefor. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Eleanor Glynn Kjellman for State-Federal Relations and Veterans Affairs: The establishment of a tuition voucher program is a win-win not only for our men and women of the National Guard; it also helps produce better educated citizens for the state at very low cost. The bill would require the University system and National Guard to use all other in-place education programs prior to using tuition vouchers. The tuition vouchers will ensure that our National Guard men and women will have equal access to necessary courses. Vote 14-0.

Amendment (0051h)

Amend RSA 110-B:63-c as inserted by section 1 of the bill by replacing it with the following:
 110-B:63-c Educational Assistance ~~[Authorized];~~ **Tuition Vouchers;** Minimum Requirements.

I. There is established a tuition voucher program to encourage recruitment and retention of national guard members. The program shall be administered by the adjutant general. National guard members may apply to the adjutant general for a tuition voucher to pay costs of tuition for a degree or certificate producing program at a state postsecondary institution. The amount of the voucher each year shall not exceed the tuition costs of a full-time student for a normal academic year. The tuition voucher applicant shall be enrolled or accepted for enrollment at the postsecondary institution at the time of application. The New Hampshire national guard shall issue the voucher to the student, the student shall submit the voucher to the postsecondary institution, and the postsecondary institution shall submit the voucher to the adjutant general for payment.

II. Members of the New Hampshire national guard may ***also*** take courses tuition-free on a space available basis in state-supported postsecondary institutions.

III. In order to be eligible to receive educational assistance under this subdivision, a member of the New Hampshire national guard shall:

~~[I-]~~ ***(a)*** Be an active member of the New Hampshire national guard residing either in-state or out-of-state ~~[who has completed advanced individual training or commissioning]~~.

~~[II-]~~ ***(b)*** Be enrolled ***or accepted for enrollment*** in a degree-enhancing curriculum in any vocational or technical school that is under the authority of the commissioner of regional community-technical colleges, or enrolled ***or accepted for enrollment*** in any degree-enhancing curriculum in any public college or university within the state.

~~[III-]~~ ***(c)*** Have first utilized any federal educational entitlements, not including Montgomery GI Bill benefits, and national guard scholarship grants.

Amendment adopted.

Committee report adopted.

Referred to the Committee on Finance.

HB 55, relative to required use of tail lamps. **MAJORITY: INEXPEDIENT TO LEGISLATE. MINORITY: OUGHT TO PASS.**

Rep. Brenda L. Ferland for the Majority of Transportation: This bill would have required motor vehicles to have tail lamps displayed during the period of ½ hour after sunset and ½ hour before sunrise. Current law requires this for headlights. The majority of the committee felt this piece of legislation is not necessary because if your headlights are on, as many automatic ones are now, they will reflect off the vehicle in front of you. Law enforcement occasionally stops a vehicle with headlights not working properly and issues a verbal warning and if necessary a written “fix-it” ticket. No fine is imposed. If you are driving a vehicle without lights on after dark, chances are you aren’t interested in any law that’s in the book. Vote 12-5.

Rep. Jennifer M. Brown for the Minority of Transportation: The minority of the committee feels that with the advent of daytime driving lights, it is now necessary to legislate the use of tail lights in inclement weather.

Rep. Webb spoke against.

Rep. Ferland spoke in favor.

Majority committee report adopted.

BILLS REMOVED FROM CONSENT CALENDAR

HB 143, relative to the apportionment of damages in civil actions. **OUGHT TO PASS.**

Rep. David J. Bettencourt for Judiciary: This legislation is a reaction to the New Hampshire Supreme Court’s interpretation of who can be named as a party for the purpose of apportionment of damages in civil action cases. Under the current system, as a result of the DeBenedetto ruling, individuals who are not listed as defendants can be found liable for damages. This bill would eliminate the “empty chair” defense which causes fewer cases to be settled because of the complexity of cases with floating defendants. This bill encourages settlements which will help to ease court dockets and keep courts costs down. The committee felt that while no system is perfect, it is better for the loss to be borne by the defendant’s insurance company rather than the innocent plaintiff. Vote 17-1.

Rep. Hunt moved Recommit, spoke in favor and yielded to questions.

Rep. Lasky spoke against.

Rep. Hunt requested a roll call; sufficiently seconded.

Ferland, Brenda Rodeschin, Beverly
and the committee report was adopted.
Ordered to third reading.

Rep. Movsesian did not vote and notified the Clerk that she wished to be recorded in favor.

HB 84, relative to the hours of operation of vehicle inspection stations. **INEXPEDIENT TO LEGISLATE.**

Rep. Brenda L. Ferland for Transportation: This bill would have prohibited the Commissioner of Safety from establishing minimum days and hours of operation for official inspection stations that operate part time or by appointment. The current law has been in effect for many years and the safety department has the responsibility to authorize normal business days and hours. It is costly for the Highway Patrol to oversee inspection stations that operate without normal hours. Minimum hours and days are necessary for the convenience of the public. Vote 15-2.

Rep. Timothy Robertson spoke against and yielded to questions.

Rep. Ferland spoke in favor and yielded to questions.

Committee report adopted.

RESOLUTION

Rep. Wallner offered the following: **RESOLVED**, that the House now adjourn from the early session, that the business of the late session be in order at the present time, that the reading of bills be by title only and resolutions by caption only and that all bills ordered to third reading be read a third time by this resolution, and that all titles of bills be the same as adopted, and that they be passed at the present time, and when the House adjourns today it be to meet Tuesday, March 6, 2007 at 1:00 p.m.

Adopted.

LATE SESSION**Third reading and final passage**

HB 117, creating an exception for the storage of black gunpowder by historical reenactors and certain nonprofit entities.

HB 187, establishing that sheriffs' departments have sole jurisdiction to enforce civil orders.

HB 98, relative to the situation of landfills on land owned by municipalities.

HB 396, establishing a commission to study autism spectrum disorders in New Hampshire.

HB 89, establishing a committee to study dispute resolution between local political subdivisions and public employees in New Hampshire.

HB 99, relative to the youth employment law.

HB 153, relative to standards for bridge and highway construction.

HB 166, relative to the definition of a bridge.

HB 56, relative to the definition of agritourism.

HB 61, designating segments of the Ammonoosuc River into the rivers management protection program.

HB 438, renaming a certain island in Blackey's Cove in Lake Winnepesaukee.

HB 140, establishing the New Hampshire commission on deafness and hearing loss.

HB 168, expanding the purposes of the wildflower establishment program.

HB 180-FN, relative to pay and allowances for officers and enlisted members of the national guard.

HB 143, relative to the apportionment of damages in civil actions.

PERSONAL PRIVILEGE

Rep. Baroody addressed the House.

UNANIMOUS CONSENT

Reps. Sorg and Kurk addressed the House.

RECESS MOTION

Rep. Wallner moved that the House stand in recess for the purpose of introduction of bills and receiving Senate messages.

Adopted.

The House recessed at 1:28 p.m.

RECESS

(Rep. Claudia Chase in the Chair)

RESOLUTION

Rep. Janet Allen offered the following: RESOLVED, that in accordance with the list in the possession of the Clerk, Senate Bill number 36 shall be by this resolution read a first and second time by the therein listed title and referred to the therein designated committee.
Adopted.

INTRODUCTION OF SENATE BILL

First, second reading and referral

SB 36, eliminating straight ticket voting. (Election Law)

RECESS

(Speaker Norelli in the Chair)

RESOLUTION

Rep. Wallner offered the following: RESOLVED, that late drafting and introduction having been approved by the Rules Committee, House Bills numbered 926 and 927 shall be by this resolution read a first and second time by the therein listed titles, sent for printing and referred to the therein designated committees.
Adopted.

INTRODUCTION OF HOUSE BILLS

First, second reading and referral

HB 926-FN, relative to the regulation of pharmacies and pharmacists. (Wendelboe, Belk 1; Case, Rock 1; Bettencourt, Rock 4: Health, Human Services and Elderly Affairs)

HB 927-FN, relative to the specific criteria and substantive educational program that define an adequate education. (Rous, Straf 7; Stiles, Rock 15; Odell, Dist 8; Foster, Dist 13: Education)

RECESS

(Speaker Norelli in the Chair)

Rep. Wallner moved that the House adjourn.
Adopted.

HOUSE JOURNAL No. 7

Tuesday, March 6, 2007

The House assembled at 1:00 p.m., the hour to which it stood adjourned, and was called to order by the Speaker.

Prayer was offered by the member from Holderness, Representative Sid Lovett.

O Thou who art the Lord over Nations and the life force within history – whose requirements for us are to do justice, to love mercy and to walk humbly with Thee – and one another. We are grateful for the opportunity to serve as stewards for New Hampshire. May the so called “New Hampshire advantage” be for the least of our citizens – the fragile, the neglected, the children with needs – and not for ourselves. May our equal branches of government flourish with their distinct duties and challenges. Help us to doubt the simplistic slogans and spins. Let there be nothing true that we would be afraid to know and nothing false that we would wish to believe. Guide those in authority with wisdom and courage – guard those who stand in harms way for us. Grant us the serenity which comes from our deepest trust in Thee. Amen.

Rep. Barbara Shaw, member from Manchester, led the Pledge of Allegiance.

LEAVES OF ABSENCE

Reps. Beauchesne, Belanger, George Brown, Peter Cote, Forsing, Hofemann, Stephen Johnson, Jane Kelley, Laliberte, Loll, Benjamin Moore, Oliver and Priestley, the day, illness.

Reps. Bleyler, Buxton, Charles Clark, Drisko, Donald Flanders, Fletcher, Greco, Hansen, Hawkins, Heald, Hubbard, Infantine, Sally Kelly, Lisle, McRae, Pelkey, Reeves, Rochette, Warren and Wickson, the day, important business.

Rep. Hutchinson, the day, illness in the family.

Rep. Pilotte, the day, death in the family.

INTRODUCTION OF GUESTS

Hon. Roy Maxfield, former member from Loudon and Hon. Sam Cataldo, former member from Farmington, guests of Rep. John Thomas. Barry Palmer, guest of Rep. David Smith. Gary Cloney, brother of Rep. Sandra Smith. Rachel Normandin, guest of the Belknap County delegation. Hon. Raymond Buckley, former member from Manchester, guest of the Majority Leader, Rep. Wallner.

MOTION TO VACATE

Rep. Almy moved that the House vacate the reference of **HB 829**, establishing authority for a state property tax bank administered by the housing finance authority and requiring the housing finance authority board to develop a proposal and report to the general court, to the Committee on Ways and Means.

Adopted.

The Speaker referred **HB 829** to the Committee on Municipal and County Government.

COMMITTEE REPORTS

CONSENT CALENDAR

Rep. Wallner moved that the Consent Calendar with the relevant amendments as printed in the day’s House Record be adopted.

HB 97, relative to the recording of audio and video images on private property for security purposes, removed by Rep. Dumaine.

HB 171, clarifying the wiretapping and eavesdropping statute, removed by Rep. Ulery.

HB 177-FN, including “unborn child” in the definition of “another” for the purpose of first and second degree murder, manslaughter, and negligent homicide, removed by Rep. Dumaine.

HB 419-FN-L, relative to the cost to counties of convicted inmates awaiting sentencing in a county correctional facility, removed by Rep. Rodeschin.

HB 488-FN-A-L, relative to the state chief medical examiner and medico-legal death investigations, removed by Rep. Rodeschin.

HB 610-FN-A, requiring the criminal justice and public safety committee to review motor vehicle fines and extending the effective date for certain motor vehicle fine reductions, removed by Rep. Rodeschin.

HB 752-FN, relative to per pupil funding for charter school pupils, removed by Rep. Rodeschin.

HB 660-FN, relative to an assistant state veterinarian, removed by Rep. Rodeschin.

HB 704-FN-A, relative to the commission on the status of men and making an appropriation therefor, removed by Rep. Rodeschin.

HB 433-FN-A, relative to funding of fish and game department search and rescue operations, removed by Rep. Rodeschin.

HB 846, transferring certain land in the town of Stoddard from the Trust for Public Land to the fish and game department, removed by Rep. Rodeschin.

HB 597-FN, relative to expenditure caps for institutional health facilities under the certificate of need law, removed by Rep. Itse.

HB 858-FN, relative to a discount medical plan organization, removed by Rep. Itse.

HB 862-FN, establishing an incapacitated adult fatality review committee, removed by Rep. Itse.

HB 391, establishing a committee to study the implementation of a circuit breaker on property tax liability, removed by Rep. Kennedy.

HB 851-FN-A-L, relative to the determination of county payments for nursing home services, removed by Rep. Schmidt.

HB 157, establishing a committee to determine a permanent location for the old state house, removed by Rep. Cali-Pitts.

HB 403, establishing the Interstate 93 widening commission, removed by Rep. Kurk.

HB 189, relative to swim lines in public waters, removed by Rep. Rodeschin.

HB 440-FN, relative to the authority to quarantine to prevent dissemination of forest pests, relative to police training for forest rangers, and relative to forest resources and timber harvesting, removed by Rep. Rodeschin.

HB 498-FN-A, dedicating certain OHRV and snowmobile unrefunded road tolls to the fish and game department, removed by Rep. Graham.

HB 664-FN, relative to annual dam registration and permit application fees, removed by Rep. Rodeschin.

HB 449-FN, relative to motor vehicle inspections, removed by Rep. Vaillancourt.
Consent Calendar adopted.

HB 93, relative to use of the child support guidelines worksheet. **OUGHT TO PASS.**

Rep. Jayne E. Spaulding for Children and Family Law: This bill requires that the child support guidelines worksheets used to determine the amount of child support be filed with the court and made available to the parties. The committee felt this bill provides an improved level of transparency in the determination of child support. Vote 17-0.

HB 94, relative to overpayments of child support. **OUGHT TO PASS.**

Rep. Daniel C. Itse for Children and Family Law: This bill modifies the child support statutes to provide for recovery of overpayment of child support by an obligor. It allows judges to provide for repayment in lump sum, or by adjustment of the order, and to prevent undue hardship to the obligee. Vote 17-1.

HB 195, relative to the calculation of child support on a per child basis. **INEXPEDIENT TO LEGISLATE.**

Rep. Daniel C. Itse for Children and Family Law: This bill proposes to make two changes to existing law: First, to change from a calculation that recognizes that additional children progressively require less expense than the first child to one that does not; second, to automatically remove the child support obligation when a child is no longer entitled to child support, without requiring a review of the current financial circumstances. The committee agrees with the concept of graduated child support and does not believe it is wise to attempt such a change without a comprehensive review of the child support statutes. The committee also finds that a hearing for child support modification can be requested whenever there is a substantial change in circumstance and that the hearing must be granted, and that this event is defined as a substantial change in circumstance. The committee believes that such modifications ought not to occur without a full review of financial circumstance. Finally, the committee believes that any obligor with the opportunity and desire to reduce their child support obligation will have the knowledge of their power to do so. The child support calculation guideline is available from the court online since September and is straightforward; therefore, the modification can be readily executed pro se. Vote 16-0.

HB 240, relative to the amount of child support arrearage triggering the denial of a passport. **OUGHT TO PASS.**

Rep. Barbara H. Richardson for Children and Family Law: This bill authorizes the New Hampshire Department of Health and Human Services to certify to the United States Secretary of Health and Human Services that an obligor who owes child support arrearages in the amount specified by the federal law may be denied a passport. Failure to meet this requirement would result in the possible loss of \$14 million for the State of New Hampshire. Vote 17-0.

HB 292, relative to consideration of the preference of a mature minor in the determination of parental rights and responsibilities. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Carolyn M. Gargas for Children and Family Law: This bill makes consistent the wording in the statute regarding the ability of the court to consider the wishes of a mature minor. Vote 15-0.

Amendment (0375h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to consideration of the preference of a mature minor in the modification of parental rights and responsibilities.

Amend the bill by replacing section 1 with the following:

1 Modification of Parental Rights and Responsibilities; Preference of Mature Minor. Amend RSA 461-A:11, I(e) to read as follows:

(e) If the court finds by clear and convincing evidence that a minor child is of sufficient maturity to make a sound judgment [~~about his or her proper custody~~], the court may give substantial weight to the preference of the mature minor child as to the [~~parent with whom he or she wants to live~~] **determination of parental rights and responsibilities**. Under these circumstances, the court shall also give due consideration to other factors which may have affected the minor child's preference, including whether the minor child's preference was based on undesirable or improper influences.

HB 322, establishing a committee to study enhancing training for retail liquor licensees. **INEXPEDIENT TO LEGISLATE.**

Rep. Jill Shaffer Hammond for Commerce: The issues sought to be addressed by this study committee were rolled into the duties of the study committee established by HB 323. Vote 17-0.

HB 323, establishing a committee to study the liquor commission and liquor revenues. **OUGHT TO PASS WITH AMENDMENT.**

Rep. James R. Martin for Commerce: The committee had three bills to study various issues relating to the Liquor Commission. The committee combined all of the issues raised by the three study committee bills into this bill which will study training of licensees, revenues, enforcement, advertising, age restrictions in drinking establishments, the appeal process and any other pertinent matters. We also included the subject matter included in a liquor study committee bill before Executive Departments and Administration Committee. Vote 18-0.

Amendment (0270h)

Amend the title of the bill by replacing it with the following:

AN ACT establishing a committee to study liquor commission revenues, enforcement, and training.

Amend the bill by replacing all after the enacting clause with the following:

1 Committee Established. There is established a committee to study liquor commission revenues, enforcement, and training.

2 Membership and Compensation.

I. The members of the committee shall be as follows:

(a) Three members of the house of representatives, appointed by the speaker of the house of representatives.

(b) Three members of the senate, appointed by the president of the senate.

II. Members of the committee shall receive mileage at the legislative rate when attending to the duties of the committee.

3 Duties.

I. The committee shall study enhancing training by the liquor commission for retail liquor licensees. The committee's study shall include an examination of liquor commission rules on train-

ing and the current status of licensee training in other states. The committee shall solicit testimony from retail license holders and from alcoholism problem prevention, treatment, and rehabilitation professionals.

II. The committee shall study operations and policies of the liquor commission. The committee shall examine the revenues of the liquor commission and assess whether the liquor commission is adequately maximizing revenue sources. The committee's study shall include whether there are liquor-related sources of revenue that are not currently fulfilled by the liquor commission.

III. The committee shall review current laws and rules enforced by the liquor commission and any other matters that the committee deems necessary. The laws and rules reviewed by the committee shall include those relating to:

- (a) Advertising.
- (b) Age restrictions for admittance to certain establishments.
- (c) Enforcement.
- (d) The appeal process for violations and fines levied by the commission.
- (e) Licensing.

4 Chairperson; Quorum. The members of the study committee shall elect a chairperson from among the members. The first meeting of the committee shall be called by the first-named house member. The first meeting of the committee shall be held within 45 days of the effective date of this section. Four members of the committee shall constitute a quorum.

5 Report. The committee shall report its findings and any recommendations for proposed legislation to the speaker of the house of representatives, the president of the senate, the house clerk, the senate clerk, the governor, and the state library on or before November 1, 2007.

6 Effective Date. This act shall take effect upon its passage.

AMENDED ANALYSIS

This bill establishes a committee to study liquor commission revenues, enforcement, and training.

HB 341, establishing a study committee to review current laws and rules enforced by the liquor commission. **INEXPEDIENT TO LEGISLATE.**

Rep. Jill Shaffer Hammond for Commerce: All of the issues sought to be addressed by this study committee were rolled into the duties of the study committee established by HB 323. Vote 17-0.

HB 357, relative to disclosure of the sale of revolving credit loans to third parties. **INEXPEDIENT TO LEGISLATE.**

Rep. Stephen T. DeStefano for Commerce: This bill requires that if a bank sells an account that is in default to a third party, the bank shall provide to the borrower the amount that the third party paid for the account in default upon the written request of the borrower. The committee felt that since many of these loans are bundled together, finding the exact discount amount would be difficult and unrealistic. Vote 16-0.

HB 409, relative to liquor licenses for sports recreation facilities. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Joel F. Winters for Commerce: Liquor licenses for recreation facilities currently make up six of the more than fifty types of licenses: This bill would have created a seventh, a sports recreation facility' liquor license. In order to begin lightening the load of liquor laws, the committee amended the bill to group the six other types of licenses under the new "sports recreation facility" definition and delete the superfluous ones. Vigorously maintaining the status quo, the sports recreation facility license does not change the fees or definitions of any of the deleted licenses, except for striking the word "indoor" from the current description of a qualifying tennis court under the "racquet sports facility" definition. Enabling language is also included to allow the liquor commission to issue rules defining other types of recreation facilities without additional legislation. Vote 17-0.

Amendment (0235h)

Amend the bill by replacing section 1 with the following:

1 New Paragraph; Definitions; Sports Recreation Facility; Defined. Amend RSA 175:1 by inserting after paragraph LXIV-b the following new paragraph:

LXIV-c "Sports recreation facility" means a facility that is primarily established for general sports, fitness, and recreation services. Recreation facilities include the following types: alpine slide

facility, bowling facility, golf facility, racquet sports facility, ski facility, billiards/pool hall, or any similar recreation facility approved by the commission in rules.

Amend the bill by inserting after section 2 the following and renumbering the original section 3 to read as 6:

3 Racquet sports facility; Definition. Amend RSA 175:1, LVII to read as follows:

LVII. "Racquet sport facility" means a facility which has at least one ~~[indoor]~~ regulation size tennis or regulation racquetball court, or 2 regulation size curling links, which are kept in proper condition.

4 On-Premises Liquor Licenses; Fees. Amend RSA 178:29, I to read as follows:

I. On-premises licensees shall pay the following applicable fees annually:

	Supplemental Only	Beverages and Wine	Beverages and Liquor	Cocktail Lounge
Airport				\$ 1,200
[Alpine Slide				\$ 1,200]
Ballroom	\$ 45			\$ 1,200
Bed and Breakfast		\$ 480	\$ 840	
Beer Festival				
One-day	\$ 250			
Two-day	\$ 300			
Three-day	\$ 350			
[Billiards/Pool Hall				\$ 1,200
Bowling Facility				\$ 1,200]
Catering (all)				\$ 1,200
Catering (off-site only)				\$ 840
Catering (on-site only)				
18 events-	\$ 5			
36 events-	\$ 5			
52 events-	\$ 5			
Club Military				\$ 100
Club Social				
9 event	\$ 250			
18 events	\$ 450			
36 events	\$ 750			
52 events	\$ 1,200			
Club Private				\$ 1,200
Club Veterans				
9 events	\$ 250			
18 events	\$ 450			
36 events	\$ 750			
52 events	\$ 1,200			
College Club				\$ 1,200
Convention Center				\$ 2,400
Dining Car		\$ 480		\$ 840
Fairs		\$ 112		
[Golf Facility				\$ 1,200]
Hotel		\$ 840		\$ 1,200
One day License				\$ 100
Performing Arts				\$ 360
Racetrack/Motor Vehicle				\$ 1,800
Racetrack/Pari-Mutuel				\$ 3,000
[Racquet Sports				\$ 1,200]
Rail Cars				\$ 1,200
Restaurant		\$ 480	\$ 840	\$ 1,200
[Ski Facility				\$ 1,200]
Special License			\$ 25	

Sports/Entertainment Complex			\$ 1,800
9 events	\$ 250		
18 events	\$ 450		
36 events	\$ 750		
52 events	\$ 1,200		
Sports Recreation Facility			\$ 1,200
Vessel	\$ 480	\$ 840	\$ 1,200

5 Repeal. The following are repealed:

- I. RSA 178:22, V(b), relative to alpine slides.
- II. RSA 178:22, V(d), relative to bowling facilities.
- III. RSA 178:22, V(j), relative to golf facilities.
- IV. RSA 178:22, V(o), relative to racquet sports facilities.
- V. RSA 178:22, V(r), relative to ski areas.
- VI. RSA 178:22, V(t), relative to billiards/pool halls.

AMENDED ANALYSIS

This bill establishes a cocktail lounge license for sports recreation facilities and eliminates the separate licenses for facilities that are eligible for the sports recreation facility license.

HB 579-FN-A, establishing a health care fund, continually appropriating a special fund, and requiring certain employers to report certain information to the department of health and human services. **INEXPEDIENT TO LEGISLATE.**

Rep. John B. Hunt for Commerce: The bill as introduced would have affected only businesses with more than 1500 employees. Federal ERISA rules regulate large employers so the courts have already ruled against this legislation in other states. The sponsor did bring in an amendment that had some reporting requirements of all employers with 50 or more employees. The committee understands the sponsor's underlying concern to insure that all New Hampshire citizens have health insurance. There will be another bill from the committee that will be tasked to help all New Hampshire's citizens find affordable health insurance. Vote 18-0.

HB 194, relative to laboratories conducting alcohol concentration tests. **OUGHT TO PASS WITH AMENDMENT.**

Rep. David A. Welch for Criminal Justice and Public Safety: This bill is a request of the Department of Safety. Currently, RSA 265-A:7 states that a defendant who has had a blood alcohol test has the right to have an independent analysis of the BAC sample at his or her own expense. RSA 265-A:5(e) authorizes the commissioner to adopt rules relative to procedures for certification of any laboratory that conducts tests pursuant to RSA 265-A:7. This amendment to the statute eliminates a conflict of interest that may exist by having the Department of Safety oversee the independent laboratories. The bill, if passed, allows a laboratory to be accredited by a nationally recognized accrediting body instead of the Department of Safety. Vote 14-0.

Amendment (0121h)

Amend the bill by replacing section 1 with the following:

1 Administration of Alcohol Concentration Tests; Rules; Laboratories. Amend RSA 265-A:5, V(e) to read as follows:

(e) ~~[Procedures for certification of]~~ **A requirement that** any laboratory that conducts tests pursuant to RSA 265-A:7 **be accredited by any nationally recognized accrediting body;** and

AMENDED ANALYSIS

This bill requires that laboratories conducting alcohol concentration tests be accredited by any nationally recognized accrediting body.

This bill is a request of the department of safety.

HB 227, relative to identity theft. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Jeffrey P. Fontas for Criminal Justice and Public Safety: This bill allows for victims of identity theft to pursue damages in civil court. Damages could be pursued if a person obtains or records personal information of the victim, uses that information to acquire goods or services, obtains personal information in another person's name, or possesses personal information and gives it to

a third party. Additionally, this bill also allows for victims to submit an order obtained under this chapter as proof to a government entity or private business that financial accounts were fraudulently altered. The amendment changes the word "bank" to "financial institution," adds electronic and digital transactions under the definition of financial device, adds "driver's license" under the definition of personal information and adds the phrase "Unless otherwise permitted by state law or rules or federal statute or regulation," under prohibited conduct. Vote 14-0.

Amendment (0127h)

Amend RSA 359-I as inserted by section 1 of the bill by replacing it with the following:

CHAPTER 359-I IDENTITY THEFT

359-I:1 Definitions. In this chapter:

I. "Financial device" means any instrument or device that can be used to obtain cash, credit, property, services, or any other thing of value or to make financial payments, including but not limited to any of the following:

(a) A credit card, banking card, debit card, electronic fund transfer card, or guaranteed check card.

(b) A check.

(c) A negotiable order of withdrawal.

(d) A share draft.

(e) A money order.

(f) An Automated Clearing House ("ACH") or other electronic transaction.

(g) Any device or process, whether based on a binary or digital code used to transfer value from one person or entity to another.

II. "Personal information" shall include any one or more of the following, whether the information is owned by or assigned to the person it relates to:

(a) A first and last name of a user, whether given at birth or adoption, assumed, or legally changed.

(b) A home or physical address.

(c) An electronic mail address.

(d) A telephone number.

(e) A social security number.

(f) Any personal identification number.

(g) A credit or debit card number.

(h) Any access code associated with a credit or debit card.

(i) A date of birth, birth certificate number, or place of birth.

(j) A password or access code.

(k) A financial institution account number.

(l) A driver's license or other governmental identification.

III. "Victim" means any person whose personal information or financial device has been obtained, accessed, possessed, or recorded in violation of this chapter or any person that provided money, credit, goods, services, or anything of value and has suffered financial loss as a direct result of the commission or attempted commission of a violation of this chapter.

IV. "Person" means an individual, corporation, trust, partnership, incorporated or unincorporated association, limited liability company, or other form of entity, or any agency, authority, board, court, department, division, commission, institution, bureau, or other state governmental entity, or any political subdivision of the state.

359-I:2 Prohibited Conduct.

I. Unless otherwise permitted by state law or rules or federal statute or regulation, no person shall, without the authorization, consent, or permission of the other person, do any of the following:

(a) Obtain, record, or access personal information or a financial device that would assist the person in accessing financial resources or obtaining personal information owned by the other person other than that which is necessary to process a transaction for the benefit of the other person.

(b) Obtain goods, services, or some other benefit through the use of personal information or a financial device of the other person.

(c) Obtain personal information or financial device documents in the other person's name.

(d) Possess the personal information or a financial device of the other person without permission or lawful authority, with the intent to use or to aid or permit some third person to use such information or device to obtain cash, credit, property, services, or any other thing of value or to make a financial payment.

(e) Use or possess personal information or a financial device of the other person without permission or lawful authority with the intent to obtain, or to aid or permit some third person to obtain, a government-issued document.

(f) Falsely make, complete, or alter a written instrument containing any personal information of the other person.

(g) Make or convey a materially false statement, without permission or lawful authority, with the intent to obtain, record, or access the personal information or financial device of the other person.

II. This section shall not apply when a person obtains the identity of another person to misrepresent his or her age for the sole purpose of obtaining alcoholic beverages, tobacco, or another privilege denied to minors.

359-I:3 Liability. In addition to any other remedies provided by law, a victim may bring an action in his or her county of residence or any county in which any part of the act took place, regardless of whether the person who committed the violation was ever actually present in that county, against the person who violated this chapter to recover the following:

I. \$5,000 for each incident, or 3 times the actual damages, whichever is greater.

II. Reasonable attorney's fees and court costs.

359-I:4 Correction of Public and Private Records.

I. Any order obtained under this chapter, or any conviction under RSA 638:26, may be submitted in any civil proceeding to set aside a judgment against the victim.

II. The victim may submit the order obtained under this chapter, or any conviction under RSA 638:26, to any governmental entity or private business as proof that any financial accounts therein created or altered in violation of this chapter, RSA 638:26, or RSA 638:5 and were not the actions of the victim.

HB 37, relative to notification requirements for criminal offenders. OUGHT TO PASS WITH AMENDMENT.

Rep. Barbara E. Shaw for Education This bill requires a school administrative unit, school district, or charter school to adopt a policy designating certain categories of volunteers as "designated volunteers" who may be required to undergo a background investigation and a criminal history records check and provides limited liability to the school administrative unit, school district, or charter school for permitting certain volunteers to have direct contact with students when this requirement is met. It also allows local law enforcement agencies to notify schools within their jurisdiction of the address of a registered criminal offender. The amendment changes the words "all schools" to "school administrative unit, school district, or charter school." Vote 12-0.

Amendment (0300h)

Amend RSA 651-B:3, I-II as inserted by section 3 of the bill by replacing it with the following:

651-B:3 Release of Certain Sexual Offenders Into the Community; Duties.

I. Upon release of any sexual offender or offender against children required to register, whether on probation, parole, conditional or unconditional release, completion of sentence, release from secure psychiatric care, release into the community after involuntary commitment, release from a juvenile detention facility, or for any other reason, the official in charge of such release shall notify the offender of the offender's duty to report under this chapter. The offender shall acknowledge in writing that he has received such notice. The official shall obtain the address at which the offender expects to reside upon release and shall report such address to the department. The department shall inform the local law enforcement agency *in the city or town* where the offender expects to reside. *The local law enforcement agency in the city or town where the offender expects to reside may notify the superintendent of the school administrative unit and the principal of any school within its jurisdiction of the address at which the offender expects to reside. If such notification occurs, the local law enforcement agency shall also notify the superintendent of the school administrative unit and the principal of any school within its jurisdiction of any changes to the offender's information made pursuant to RSA 651-B:5.* The division shall enter the information concerning the offender's release and notification in the LENS system.

II. Upon receipt from any out-of-state law enforcement agency of information that a sex offender or offender against children has moved to New Hampshire, the department shall obtain the address at which the offender expects to reside and shall inform the local law enforcement agency. *The local law enforcement agency in the city or town where the offender expects to reside may notify the superintendent of the school administrative unit and the principal of any school within its jurisdiction of the address at which the offender expects to reside.* The department shall locate and shall serve notice upon such offender of the offender's duty to report under this chapter. Service by the department is not required if the offender has already registered with the local law enforcement agency in which the offender resides or is located as required by this chapter. At the time of the initial registration, the offender shall acknowledge in writing that the offender has received notice of the duty to report. The division shall enter the information concerning the offender's location in New Hampshire and notification in the LENS system. This paragraph shall not apply to a sexual offender or offender against children who has moved to New Hampshire and has registered with a local law enforcement agency.

Amend RSA 651-B:5, II as inserted by section 4 of the bill by replacing it with the following:

II. The local law enforcement agency in the city or town where the offender resides may notify the superintendent of the school administrative unit and the principal of any school within its jurisdiction of a new place of residence, a change of name, or a change of an alias, of a person required to be registered under this chapter.

AMENDED ANALYSIS

This bill:

I. Requires a school administrative unit, school district, or charter school to adopt a policy designating certain categories of volunteers as "designated volunteers" who may be required to undergo a background investigation and a criminal history records check.

II. Allows local law enforcement agencies to notify the superintendent of the school administrative unit and the principal of any school within its jurisdiction of the address of a registered criminal offender.

III. Provides limited liability to a school administrative unit, school district, or charter school for permitting certain volunteers to have direct contact with students.

HB 651-L, extending the school building aid grant program to cover kindergarten construction costs. **INEXPEDIENT TO LEGISLATE.**

Rep. Judith E. Day for Education: The committee determined that this bill was unnecessary because extending kindergarten aid is addressed in HB 669. Vote 14-0.

HB 120, relative to extending polling hours. **OUGHT TO PASS.**

Rep. Betty B. Hall for Election Law: The bill enables the governing body of a town to extend the polling hours. It does not allow the towns to decrease from the current statutory requirement. The committee believes local communities and their governing bodies can make the decision to extend hours if they believe it is necessary. Vote 14-1.

HB 127, relative to voter registration forms. **INEXPEDIENT TO LEGISLATE.**

Rep. Charles F. Weed for Election Law: The majority found that the intent of the sponsor was to remove possibly intimidating language in the form of a "civics lesson" warning legally domiciled voters that they would be treated as legal residents in terms of drivers and motor vehicle licensing. Another bill under consideration by the committee includes removing the "civics lesson" and clarifying the domicile law. Vote 15-1.

HB 146, relative to nicknames on ballots. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Charles F. Weed for Election Law: The purpose of this bill was to clarify how one designates his or her name when filing as a candidate. The committee removed language requiring burden of proof and permits nicknames by which the candidate is commonly recognized. The candidates may not imply they are some other person and may not chose a slogan associated with a cause or that is offensive. The designated name may be the given name or its shortened form or a one word nickname. The designation may include a middle initial and shall include his or her surname. The Secretary of State believes this is a great improvement. Vote 15-0.

Amendment (0122h)

Amend the bill by replacing section 1 with the following:

1 Form of Candidate's Name on Ballot; Nicknames. Amend RSA 655:14-b, I-II to read as follows:

I. Every candidate for state or federal office who intends to have his or her name printed upon the ballot of any party for a primary shall designate in the declaration of candidacy, or on the primary petitions and assents to candidacy, the form in which the candidate's name shall be printed on the ballot. ~~[The candidate may designate his or her given, first, and middle name, the initials of his or her given, first, and middle name, a nickname, or any combination thereof as the form in which the candidate's name shall be printed on the ballot, but the candidate shall not designate a deceptive name. If the candidate designates a nickname in place of or in combination with the candidate's given name or the initials thereof, the nickname shall be set off with quotation marks and shall be placed immediately before his or her surname. If the candidate designates a nickname, the nickname shall be customarily related to the candidate's given name, or, if the nickname is not customarily related to the candidate's given name, the candidate shall submit clear and convincing evidence that the candidate has been known by the nickname for at least the 5 years immediately preceding the time of filing. If deemed sufficient by the appropriate official, 3 affidavits from voters in the district who are not related to the candidate stating that the candidate has been known by the nickname for at least 5 years may constitute clear and convincing evidence. Nicknames shall be limited to one word, except for 2-word nicknames customarily related to the candidate's given name.]~~ ***The designated name may include the candidate's given name or a shortened form of the candidate's given name or a one-word nickname by which the candidate is commonly recognized. The designated name may also include a middle initial.*** No candidate may designate a nickname that implies that the candidate is some other person, that constitutes a slogan or otherwise associates the candidate with a cause or issue, or that has an offensive or profane meaning. A candidate shall include his or her surname in the designation of the form in which the candidate's name shall be printed on the ballot.

II. Every candidate for state or federal office who intends to have his or her name placed on the ballot for the state general election by means other than nomination by party primary shall designate in the declaration of intent the form in which the candidate's name shall be printed on the ballot. ~~[The candidate may designate his or her given, first, and middle name, the initials of his or her given, first, and middle name, a nickname, or any combination thereof as the form in which the candidate's name shall be printed on the ballot, but the candidate shall not designate a deceptive name. If the candidate designates a nickname in place of or in combination with the candidate's given name or the initials thereof, the nickname shall be set off with quotation marks and shall be placed immediately before his or her surname. If the candidate designates a nickname, the nickname shall be customarily related to the candidate's given name, or, if the nickname is not customarily related to the candidate's given name, the candidate shall submit clear and convincing evidence that the candidate has been known by the nickname for at least the 5 years immediately preceding the time of filing. If deemed sufficient by the appropriate official, 3 affidavits from voters in the district who are not related to the candidate stating that the candidate has been known by the nickname for at least 5 years may constitute clear and convincing evidence. Nicknames shall be limited to one word, except for 2-word nicknames customarily related to the candidate's given name.]~~ ***The designated name may include the candidate's given name or a shortened form of the candidate's given name or a one-word nickname by which the candidate is commonly recognized. The designated name may also include a middle initial.*** No candidate may designate a nickname that implies that the candidate is some other person, that constitutes a slogan or otherwise associates the candidate with a cause or issue, or that has an offensive or profane meaning. A candidate shall include his or her surname in the designation of the form in which the candidate's name shall be printed on the ballot.

AMENDED ANALYSIS

This bill limits the names that a candidate may designate for printing on ballots and eliminates requirements for the use of nicknames not related to the candidate's given name.

HB 163, relative to the definition of "slaughterer." **INEXPEDIENT TO LEGISLATE.**

Rep. Timothy D. O'Connell for Environment and Agriculture: The New Hampshire Fish and Game Department testified in opposition to this bill indicating that the Department of Agri-

culture, Markets, and Food has already, under rulemaking, clearly included propagator to the list of persons defined as slaughterer under RSA 427:33. Vote 18-0.

HB 204, relative to the sale of unpasteurized milk. **INEXPEDIENT TO LEGISLATE.**

Rep. Timothy D. O'Connell for Environment and Agriculture: No one testified in favor of the bill including the prime sponsor who recommended that the bill be Inexpedient to Legislate. The sponsor also indicated that the Department of Health and Human Services had no concerns with the ITL recommendation. Vote 16-0.

HB 208, relative to the definition of swine as a nuisance. **OUGHT TO PASS.**

Rep. Burton W. Williams for Environment and Agriculture: Removing the definition of Swine as a nuisance from RSA 147:10 would improve the law and have no effect on the duties of local health officers who already have extensive powers in this regard. Vote 17-1.

Referred to the Committee on Municipal and County Government.

HB 236, relative to the use of "farmer's markets" in trade names. **OUGHT TO PASS.**

Rep. Jane E. Beaulieu for Environment and Agriculture: This bill clearly defines what constitutes a "farmers market" and this term has become widely understood to mean exactly what the statutory definition says: a gathering of two or more vendors of agricultural and other commodities that is not held on the property of any of the participating vendors. Some businesses which do not meet the statutory definition of the term use the name farmers markets. This bill does not impinge upon any business enterprise using the term "farmers' market" in its trade name if that name has already been registered at the time of passage of this bill. Vote 15-1.

HB 585-FN, assessing a fee on all dogs and cats sold at retail that are not sexually sterilized, to be deposited in the companion animal neutering fund. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Steve Vaillancourt for Environment and Agriculture: This bill, as amended, represents an attempt to provide additional funding for the state's neutering program for dogs and cats. Originally, the bill established a \$20 fee on all unneutered dogs and cats sold at retail. The committee believes a better solution came forward from the State Veterinarian who authored the amendment which makes the fee \$40 but then would rebate the entire amount should the new owner of the dog or cat have the animal neutered within a specified time after purchase. Thus, this is not a mandatory fee and this does not represent an attempt to force any animal to be neutered. It does, however, recognize that neutering is beneficial to both animals and our society and provides an incentive to that end. Since the state's spaying and neutering program has gone into effect, the euthanasia rate for dogs and cats has dropped from 45 to 18 percent, one of the lowest in the nation. However, the cost of neutering animals continues to increase, from less than \$100 for a male cat to upwards of \$500 for a female dog, and in recent years the neutering fund has been drained prior to year's end. Estimates are that 40 percent of adult dogs and 20 percent of adult household cats are unneutered. At that rate, the \$40 fee would not be rebated to 20 percent of 1100-1400 cat owners and 40 percent of 3000-3500 dog owners, generating approximately \$65,000 for the fund. If fewer monies are forthcoming, the news is still good since that would mean more animals are being neutered. It's a classic win-win situation with the additional benefit that, unlike in the past when dog owners bore the brunt of the neutering program (through registration fees), cat owners would now pay a share. Monies are also generated without having to resort to a new tax. Vote 17-1.

Amendment (0241h)

Amend the title of the bill by replacing it with the following:

AN ACT requiring all animal shelter facilities, pet shops and commercial kennels to collect a neutering deposit when placing a cat or dog that has not been neutered.

Amend the bill by replacing all after the enacting clause with the following:

1 New Section; Dog and Cat Neutering Deposit. Amend RSA 437 by inserting after section 10 the following new section:

437:10-a Dog and Cat Neutering Deposit.

I. No animal shelter facility, pet shop, or commercial kennel licensed by the department in accordance with RSA 437:1 shall sell, give away, adopt, or otherwise transfer ownership of any dog or cat that has not been permanently sexually sterilized without collecting a neutering deposit of no less than \$40 at or before the time of transfer. At the time of receipt of such deposit, the pet

shop, commercial kennel, or animal shelter facility shall provide a sterilization certificate to the person who has paid the deposit. The sterilization certificate shall be on a form provided by the commissioner and shall state the date by which the animal must be sterilized in order for the depositor to secure the return of the deposit. In the case of kittens or puppies that are less than 5 months old at the time of transfer, that date shall be on or before the date the kitten or puppy becomes 6 months of age. In the case of cats or dogs 5 months of age or older at the time of transfer, the date of sterilization shall be within 30 days of the date of transfer.

II. To reclaim the neutering deposit, the depositor must submit the sterilization certificate to the animal shelter facility, commercial kennel, or pet shop which took the deposit within 60 days of the date the sterilization was performed. The certificate must be signed by a licensed veterinarian and specify the date on which the sterilization was performed. If the depositor does not submit the signed sterilization certificate within the time period specified above, the deposit shall be considered to have been forfeited. All forfeited neutering deposits shall be remitted by the animal shelter facility, commercial kennel, or pet shop to the commissioner on a quarterly basis. The commissioner shall deposit all forfeited neutering deposits in the companion animal neutering fund established under RSA 437-A:4-a.

2 New Paragraph; Rulemaking. Amend RSA 437:5 by inserting after paragraph III the following new paragraph:

IV. The commissioner shall adopt rules under RSA 541-A to implement the collection of neutering deposits on the transfer of unneutered dogs and cats under RSA 437:10-a.

3 Companion Animal Fund. Amend RSA 6:12, I(b)(59) to read as follows:

(59) Moneys received under RSA 466:4, I(c), RSA 466:6, III, ***RSA 437:10-a***, and RSA 437-A which shall be credited to the companion animal neutering fund, established in RSA 437-A:4-a.

4 Effective Date. This act shall take effect January 1, 2008.

AMENDED ANALYSIS

This bill requires animal shelter facilities, pet shops, and commercial kennels to collect a neutering deposit when placing a cat or dog that has not been neutered.

This bill also requires that the deposit be remitted to the companion animal neutering fund if the depositor does not return a certificate of sterilization to the animal shelter facility, commercial kennel, or pet shop that placed the cat or dog with the depositor.

Referred to the Committee on Ways and Means.

HB 135, establishing the second Sunday in October as Firefighters Memorial Day. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Pamela V. Manney for Executive Departments and Administration: This bill would designate the second Sunday in October as Firefighters Memorial Day in recognition of the service given by the men and women who have been killed or disabled in the line of duty and those still serving. This date would coincide with New Hampshire Fire Prevention Week held the second week of October. Vote 16-0.

Amendment (0166h)

Amend RSA 4:13-m as inserted by section 1 of the bill by replacing it with the following:

4:13-m Firefighters Memorial Day. In recognition of the service given by the men and women who, night and day, serve the people of this state as firefighters, and inviting the governments, communities, and people of this state to observe such day with appropriate ceremonies and activities, the governor shall proclaim the second Sunday in October of each year as Firefighters Memorial Day in honor of the firefighters who have been killed or disabled in the line of duty and those still serving.

HB 160, relative to the appointment of the executive director of the public employee labor relations board. **INEXPEDIENT TO LEGISLATE.**

Rep. Ken Hawkins for Executive Departments and Administration: This bill would have changed the appointment of the director of the public employee labor relations board from the labor relations board to the governor and council. The testimony was mostly against this bill because of the fear it would politicize the position. The governor and council appoint the nine members of the board and it was felt they would best be able to find a director that would fit their needs. There was much testimony to the effect that if it isn't broken, don't fix it. Vote 14-1.

HB 170, relative to professional membership on certain occupational regulatory boards. **INEXPEDIENT TO LEGISLATE.**

Rep. Suzanne E. Beauchesne for Executive Departments and Administration: This bill would change the membership on occupational licensing and regulatory boards so that at least one-half of the membership are not persons regulated by the respective boards. The intention of the sponsor was to include more public members on regulatory boards, and the sponsor was the only person to speak in support of the bill. After fifty members, both professional and public members indicated their opposition to the legislation. Public members are already members of boards and finding willing people to serve can be problematic. Additionally these boards are regulatory in nature and involve credentialing, licensing and disciplinary procedures. The committee agreed that public participation is very important but should not outweigh the professional membership. Vote 14-0.

HB 249, extending the study committee on the rules process. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Ken Hawkins for Executive Departments and Administration: This bill extends the administrative rules process study committee until November 1, 2008. We must vote every two years to extend the study committee. We also eliminated some language that was redundant. The Joint legislative Committee on Administrative Rules may send a copy of their objection to a new rule to the appropriate policy committee. Vote 15-0.

Amendment (0155h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to preliminary objections to rules made by the joint legislative committee on administrative rules, and relative to extending the study committee on the rules process.

Amend the bill by replacing all after the enacting clause with the following:

1 Rulemaking; Preliminary Objections by the Joint Legislative Committee on Administrative Rules; Policy Committee Review. Amend RSA 541-A:13, V(b) to read as follows:

(b) If the committee objects to the final proposal as filed or as amended pursuant to paragraph II, the committee shall send the agency a preliminary written objection stating the basis for the objection. A preliminary objection or conditional approval shall require the assent of a majority of the votes cast, a quorum being present. If a preliminary objection is made [~~to a rule proposed to implement a new or newly amended state statute~~], the committee may send a copy of the preliminary objection to the appropriate standing policy committees and, if so, shall give notice to the agency. Within 30 days of the date the preliminary objection was entered, the standing policy committee may review the proposed rules and the preliminary objection and may advise the committee relative to the basis for the preliminary objection.

2 Study Committee of the Rules Process Extended. Amend 2006, 145:10, VI to read as follows:

VI. The committee shall report its findings, any recommendations for proposed legislation, and any specific recommendations for implementing procedures designed to improve rulemaking that do not require statutory changes. Such report shall be submitted to the appropriate policy committees of the house of representatives and the senate, the speaker of the house of representatives, the senate president, the house clerk, the senate clerk, the governor, and the state library on or before November 1, [~~2006~~] 2008.

3 Effective Date. This act shall take effect upon its passage.

AMENDED ANALYSIS

This bill clarifies the procedure for the joint legislative committee on administrative rules to make a preliminary objection and send the proposed rule to the standing policy committees for review. This bill also extends the study committee on the rules process established in 2006, 145:10.

HB 326, relative to disclosure of the basis for disciplinary proceedings among members of the board of medicine. **INEXPEDIENT TO LEGISLATE.**

Rep. Carl G. Robertson for Executive Departments and Administration: This bill would require disciplinary proceedings before the Medical Review Board to be disclosed to all the members of the review committee and the Board of Medicine. The committee, after listening to the testimony, felt that the proceedings asked for in the bill were already in practice. It was also disclosed that

any problems of communication would be cited in the ongoing performance audit that is being conducted by the Legislative Budget Office. The audit will review all processes of the Medical Review Board and make recommendations, including future legislation. Vote 17-0.

HB 362, relative to the director of the division of vital records. **OUGHT TO PASS WITH AMENDMENT.**

Rep. A. Laurie Harding for Executive Departments and Administration: This bill, as amended, fine tunes a section of the Vital Records statute, (RSA 126:24-g and h) that was passed two years ago that established an Advisory Committee on Quality of Vital Records Information. The purpose of the committee is to provide some quality assurance oversight for the two departments involved with the utilization of the vital record data: the Secretary of State's office and the Department of Public Health. The amendment adds the Secretary of State or designee to the membership and clarifies how the chair is selected. Vote 16-0.

Amendment (0160h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to the advisory committee on quality of vital records information.

Amend the bill by replacing all after the enacting clause with the following:

1 Report by Advisory Committee on Quality of Vital Records Information. Amend RSA 126:24-g to read as follows:

126:24-g Report. Annually, on or after April 30 for birth data, and on or after August 31 for death data, the committee **established in RSA 126:24-h** shall produce a report on the quality of the prior year's vital records data based on the final data year reports received from the National Center for Health Statistics for natality and mortality demographic files. The report shall include a statement on the quality and completeness of each element recorded on the statistical forms as they are maintained electronically. The report shall be submitted to the commissioner, or designee, the secretary of state, the registrar of vital records, the speaker of the house of representatives, and the president of the senate.

2 New Subparagraph; Membership of Advisory Committee on Quality of Vital Records Information; Secretary of State Added. Amend RSA 126:24-h, I by inserting after subparagraph (i) the following new subparagraph:

(j) The secretary of state, or designee.

3 Advisory Committee on Quality of Vital Records Information; Terms. Amend RSA 126:24-h, II to read as follows:

II. The members of the committee shall choose a chairperson by majority vote. Members of the advisory committee shall serve 2-year terms and no member shall serve more than 2 consecutive terms. The members under subparagraphs I(e) through (†) (j) shall serve terms coterminous with their terms of office.

4 Effective Date. This act shall take effect 60 days after its passage.

AMENDED ANALYSIS

The bill clarifies the reporting requirement for the advisory committee on quality of vital records information and adds the secretary of state, or the secretary of state's designee, to the committee.

HB 388-FN-A, establishing the position of fire protection engineer and requiring the commissioner of safety to establish fees for building, life safety, and fire protection system plan review by the state fire marshal. **INEXPEDIENT TO LEGISLATE.**

Rep. John Reagan for Executive Departments and Administration: Testimony supported the requirement to have building plans reviewed by a fire protection engineer. The review requirement is a good practice to ensure life safety and building integrity under the stress of a fire or other calamity. However, the expansion of the Department of Safety would be the most expensive method for the New Hampshire taxpayer and fails to guarantee timely plan review. Timeliness of plan review is a current and persistent complaint of builders, developers and inspectors across the state. By requiring the developer to have the plans reviewed by a licensed professional engineer certified as a fire protection engineer firm would guarantee the timeliness of review. By leaving the plans review to the private sector, New Hampshire avoids adding to the public payroll. The private plan review would leave the cost with the developer where all other plans reviews are paid for now. Vote 13-2.

HB 439, relative to certain rulemaking authority of the commissioner of environmental services. **OUGHT TO PASS.**

Rep. Ken Hawkins for Executive Departments and Administration: This bill came about from a performance audit conducted by the Legislative Budget Office. There were a number of areas where Administrative rules were not adopted as required in the statutes. Testimony was given that in some cases the rules were put in as statutes and in other cases the federal law mandated the rules. Therefore, we are removing the rulemaking authority from eight RSAs. Vote 17-0.

HB 482, adding the song "Live Free or Die" as an official state song. **OUGHT TO PASS.**

Rep. Catriona D. Beck for Executive Departments and Administration: Fourth grade students from Birch Hill Elementary School in Nashua appeared before the committee and sang a song, "Live Free or Die," which upon passage would be added as another official state song. This song speaks to the history and patriotism of New Hampshire, unlike all other state songs which address the beauty of our fine state. The testimony given by the students compelled the committee to pass this bill. Vote 14-1.

HB 489-FN, changing the salary grade of certain department of safety positions. **INEXPEDIENT TO LEGISLATE.**

Rep. Russell C. Day for Executive Departments and Administration: This bill would affect four positions in the Department of Safety. The committee opposed this bill as there already exist methods of achieving equity in salary for supervisory personnel to receive a higher salary than a subordinate. The bill would be in conflict with the system-wide New Hampshire personnel structure, the Hay Group Report and negate the efficacy that currently exists. Vote 16-0.

HB 580-FN, relative to certain accidental disability retirement allowances payable to surviving spouses of retired members. **INEXPEDIENT TO LEGISLATE.**

Rep. Ken Hawkins for Executive Departments and Administration: Testimony was given that a number of persons (20 to be exact) were harmed by the RSA that limits the surviving spouse to collect 50% of the retirement benefit after the death of the retired member. This bill would have changed that to 100% of the benefit. This goes against the entire retirement system option of receiving payments. When a member retires, they have the option of taking larger monthly benefits that end upon their death or to take smaller checks that will continue until both the spouse and member die. This bill could have an impact upon the retirement system by changing the 50% to 100% for anyone becoming disabled in the future. Vote 16-0.

HB 834-FN-A, relative to sales of tobacco products in state liquor stores. **INEXPEDIENT TO LEGISLATE.**

Rep. Pamela V. Manney for Executive Departments and Administration: This bill's intent was to take all retail sales of tobacco products out of the hands of retail merchants to be exclusively sold in liquor stores. This bill imposes an 80 cent tax on each pack of cigarettes and a 17% tax on wholesale tobacco products other than cigarettes. This bill would exempt one portion of the populace, New Hampshire Veterans' Home residents, from paying the tax, with a limit of two cartons each a week. The committee could not support this bill for several reasons. The Liquor Commission testified against it citing lack of space, time, desire and cost to implement. The negative impact on state revenue and the unintended consequence of this bill regarding the damage the passage of this bill would cause to the livelihood of retail business owners, especially small business owners and those border business owners was of concern to the committee. Vote 15-0.

HB 59, relative to crossbow hunting by a person with a disability. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Jesse J. Martineau for Fish and Game: The purpose of this bill is to allow persons with a disability who are issued crossbow permits to take any species permitted to be taken by bow and arrow, pursuant to RSA 208:5. Currently, persons who have permanent physical disabilities are restricted to taking only deer during bow and arrow season, bear during the specified season, wild turkey and carp from Mascoma Lake. This bill has the support of the Fish and Game Department. Vote 17-0.

Amendment (0055h)

Amend the bill by replacing section 1 with the following:

1 Crossbow Hunting by Persons With a Disability. Amend RSA 207:10-c, I to read as follows:

I. Notwithstanding the provisions of RSA 207:10, a crossbow permit may be issued to a person who has a permanent physical disability and as a result of that disability the person cannot operate a conventional longbow or compound bow safely. Such permit shall allow that person to take ~~deer during bow and arrow hunting season, bear during the specified season, wild turkey, and carp from Mascoma lake pursuant to RSA 211:2;~~ *any species permitted to be taken by bow and arrow pursuant to RSA 208:5*, provided that the *bow and arrow license under RSA 208:5 and the necessary licenses under RSA 208, RSA 209, and RSA 214* have been acquired each year. The permit applicant may be required to appear before the executive director, the director's designee or designated medical consultant or consultants to substantiate the presence of the disability and demonstrate the ability to safely use a crossbow. The applicant shall be responsible for submitting medical documentation as required by the executive director. The executive director may require a second medical opinion from a medical consultant or physician designated by the executive director to verify the disability. Any costs associated with obtaining the medical documentation, reevaluation of the information or a second medical opinion, upon recommendation of the medical consultant or consultants, are the responsibility of the applicant. The executive director shall determine the eligibility of the applicant, and the executive director's decision shall be final.

AMENDED ANALYSIS

This bill allows persons with disabilities who are issued crossbow permits to take any species permitted to be taken by bow and arrow.

HB 248, eliminating a separate dedicated account for the fish and game department trapping education program and transferring the sum into the fish and game fund. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Robert J. L'Heureux for Fish and Game: This bill eliminates certain dedicated accounts, derived from illegal taking or possessing, that were dedicated to the Fish and Game Department trapping education program, and transfers the sum into the Fish and Game Department general fund. This legislation, which has the support of the Fish and Game Department, is the result of an ad hoc committee recommendation, which reviewed all of the department dedicated funds. The amendment simply returns a provision of the law that was inadvertently omitted. Vote 17-0.

Amendment (0094h)

Amend the title of the bill by replacing it with the following:

AN ACT eliminating separate dedicated accounts in the fish and game department and transferring the sums into the fish and game fund.

Amend the bill by replacing all after section 2 with the following:

3 Restitution for Illegal Taking or Possessing; Funds. Amend RSA 207:55, III to read as follows:

III. Courts ordering such reimbursement damages shall remit such monies as prescribed in RSA 206:34. Monies collected from such reimbursement damages shall be ~~[used for game management activities within the fish and game department and such funds shall be nonlapsing]~~ *deposited in the fish and game fund.*

4 Transfer. All sums dedicated for the fish and game department trapping education program or for restitution for illegal taking or possessing held in account by the state treasurer on the effective date of this act shall be deposited into the fish and game fund for the use of the fish and game department.

5 Repeal. The following are repealed:

I. RSA 6:12, I(b)(214) relative to funds in the trapping education program.

II. RSA 6:12, I(b)(216) relative to funds from restitution for illegal taking.

6 Effective Date. This act shall take effect July 1, 2007.

AMENDED ANALYSIS

This bill removes requirements that certain revenues of the fish and game department be dedicated to the trapping education program. The bill also removes a dedicated fund for restitution for illegal taking or possessing.

This bill is a request of the fish and game department.

HB 411, establishing a committee to study the absorption of the fish and game department by other state agencies. **INEXPEDIENT TO LEGISLATE.**

Rep. James E. Kennedy for Fish and Game: The committee feels that establishing a committee to study the absorption of Fish and Game Department is not necessary and the conduct of the Fish and Game performance audit will answer a lot of questions. We recommend waiting and act at the end of the audit to correct problems and propose changes at that time. Vote 14-1.

HB 453, establishing a committee to study the feasibility of merging marine patrol and fish and game department law enforcement staffing and resources. **INEXPEDIENT TO LEGISLATE.**

Rep. Vincent E. Greco for Fish and Game: It was the feeling of the committee initiating a study committee for such a merger would not be of benefit at this time, especially with a performance audit in the making. Such an audit could answer these needs. Vote 16-0.

HB 570-FN-A, increasing the fee for a wild turkey hunting license. **OUGHT TO PASS.**

Rep. Richard E. Fletcher for Fish and Game: This bill increases the fee for turkey hunting licenses from \$5 in the spring and \$5 in the fall to \$15 to cover both turkey hunting seasons. This bill brings the permit fee in line with neighboring states but does not raise it above the two states. This bill also eliminates a fee to hunt with a shotgun in the fall for turkey in those parts of the states where it is legal. Fish and Game estimates a revenue increase of \$134,470 in 2008. This bill is to take effect on January 1, 2008. Vote 11-0.

Referred to the Committee on Ways and Means.

HB 576-FN-A, increasing certain fish and game nonresident license or permit fees. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Robert J. L'Heureux for Fish and Game: This legislation would increase the non-resident moose permit fee to a minimum of \$450.00 and the non-resident turkey fee to \$30.00 to bring these fees more in line with our neighboring states. There has not been a moose permit fee increase since the moose lottery was instituted in 1988. The amendment removes the proposed increase in non-resident bear tags and duplicate license fees for both resident and non-residents. The amendment also changes the effective date to January 1, 2008. This bill as amended has the support of the Fish and Game Department. Vote 11-0.

Amendment (0221h)

Amend the bill by replacing all after section 1 with the following:

2 Wild Turkey; Nonresident Fee. Amend RSA 214:9, XI to read as follows:

XI. If the applicant *is a resident and* wishes to hunt wild turkeys, \$5, *and if the applicant is a nonresident and wishes to hunt wild turkeys, \$30*, and the fish and game department shall thereupon issue a wild turkey license or permit which shall entitle the licensee to hunt, shoot, kill and take turkey, except by the use of traps.

3 Effective Date. This act shall take effect January 1, 2008.

AMENDED ANALYSIS

This bill sets a required minimum moose permit fee for nonresidents and increases the nonresident wild turkey license or permit fee issued by the fish and game department.

Referred to the Committee on Ways and Means.

HB 623-FN, establishing a game management account in the fish and game fund and transferring certain other fish and game accounts into the game management account. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Dennis F. Abbott for Fish and Game: This bill, as amended, removes separate dedicated funds for moose, bear, wild turkey and waterfowl licenses or permits, and transfers the balances in those accounts into a new game management account. The game management fund will allow the Fish and Game Department to expend funds in the best interests of the resource and to the best benefit of all our citizens. The consolidation of the dedicated funds will also reduce administration costs amounting to over \$50,000 per year. Vote 16-0.

Amendment (0194h)

Amend RSA 206:34-b, I as inserted by section 3 of the bill by replacing it with the following:

I. The state treasurer shall establish a separate nonlapsing account within the fish and game fund, to be known as the game management account. Each month the department shall determine

the number of stamps, licenses, applications or permits sold for moose, bear, turkey, and waterfowl and, for each, transfer \$10 to the game management account. The moneys in this account shall be used exclusively for the implementation of a comprehensive population and habitat management program, including research and management, protection, education, and outreach for game as defined in RSA 207:1, IX, fur-bearing animals as defined in RSA 207:1, VIII, and migratory game birds as defined in RSA 209:5 to include waterfowl, snipe, and woodcock. Funds in the game management account are hereby continually appropriated for said purposes. Said funds shall be expended for the purposes of this section as determined by the executive director with approval of the commission.

AMENDED ANALYSIS

This bill establishes a game management account in the fish and game fund, removes separate accounts for moose, bear, wild turkey, and waterfowl stamps, licenses, applications, or permits, and transfers balances in those accounts into the game management account.

This bill is a request of the fish and game department.

Referred to the Committee on Finance.

HB 517, establishing a commission to investigate cost drivers in providing health care. **OUGHT TO PASS.**

Rep. Evalyn S. Merrick for Health, Human Services and Elderly Affairs: This commission will establish a forum to review and study health care costs and the issues that drive those costs to rise unnecessarily. These issues include, but are not limited to, cost shifts associated with federal and state reimbursements and medical malpractice insurance, and regional issues that may affect costs of providing health care. The Business and Industry Association of America supports this bill. The committee believes that only evaluation and analyzing what drives the cost of medical care can effect change in a positive direction. Vote 18-0.

HB 644-FN, relative to differential pay of direct care employees at state institutions. **INEXPEDIENT TO LEGISLATE.**

Rep. Joan H. Schulze for Health, Human Services and Elderly Affairs: This bill was brought on behalf of persons who work at the New Hampshire Hospital, Laconia Developmental Services, Glenclyff Home for the Elderly, New Hampshire Veterans' Home and the Youth Development Center. They have requested a weekly salary differential increase from \$5 to \$25. The employees are caring for persons who are at times difficult to cope with because of obstreperous behaviors. They believe the pay differential is warranted because of possible hazardous situations for themselves. While the committee was sympathetic, this is a policy committee and does not deal with specific financial requests. Vote 18-1.

HB 723, extending the moratoriums on nursing home beds and rehabilitation. **OUGHT TO PASS.**

Rep. Jennifer Daler for Health, Human Services and Elderly Affairs: This bill extends the moratorium on nursing home beds and rehabilitation until June 30, 2009 unless sooner authorized by the General Court. The testimony presented during the hearing indicated that there is no present need for more nursing home beds. The committee as well as the Department of Health and Human Services would like to provide more home and community based care for people who need these or similar services. The moratorium would also assist in keeping the cost of nursing home care down. Vote 18-0.

HB 67, relative to liens filed with public servants. **INEXPEDIENT TO LEGISLATE.**

Rep. Gregory M. Sorg for Judiciary: This bill would prohibit Registers of Deeds from recording federal tax liens not showing evidence that they had been issued by a judge. Currently, such liens are filed by the Secretary of the Treasury or his or her designee, subject to the requirement of simultaneous notice to the taxpayer both of the filing and of his or her right to a prompt administrative appeal. The basis of this bill is a 2005 ruling of the United States Court of Appeals for the Second Circuit holding that certain IRS summonses have no legal standing until judicial enforcement proceedings have been initiated. The committee's research has satisfied it that the 2005 ruling was on a narrow legal issue, and does not apply to other IRS procedures, in particular to those pertaining to administrative distraint and levy. Moreover, a Second Circuit ruling is not authority in New Hampshire unless accepted by the First Circuit – of which New Hampshire is a part – or affirmed by the United States Supreme Court. Vote 17-0.

HB 526-FN-A, requiring district court judges to annually attend an educational program offered by the National Judicial College and establishing a surcharge on fines collected in the district court to pay for the costs of such attendance. **INEXPEDIENT TO LEGISLATE.**

Rep. Robert H. Rowe for Judiciary: District judges are highly trained and highly skilled, and continuing training is required by the Judicial Branch. The committee believes the judiciary is doing its job well on a continuing basis. Vote 11-0.

CACR 10, relating to sessions of the legislature. Providing that the legislature meet biennially and meet after June 30 in odd-numbered years only in special session called by the governor or by 2/3 vote of the general court. **INEXPEDIENT TO LEGISLATE.**

Rep. Betsy McKinney for Legislative Administration: This CACR would change the constitution back to the pre-1984 situation of meeting biennially. The sponsor hoped that this would reduce the number of bills that come up year after year, and encourage more people to run for office. The committee felt that this would not solve the problem, wouldn't cut down the work or encourage more people to be involved in the process and would be disadvantageous to freshmen. Vote 10-0.

HB 218, relative to chief firewards, engineers, or fire chiefs. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Laurie J. Boyce for Municipal and County Government: To ensure parity and due process when a fire chief has been suspended, the bill was amended to change the number of days to notify the clerk of the superior court from 10 days to 45 days. The bill was also amended to change the effective date from 60 days to upon passage. Vote 17-0.

Amendment (0154h)

Amend the bill by replacing all after the enacting clause with the following:

1 Chief Fireward, Engineer, or Fire Chief. Amend RSA 154:5, II to read as follows:

II. Subject to such written formal policies as may be adopted by the appointing authority, each chief fireward, engineer, or fire chief of any city or town who is appointed rather than elected, shall have authority to direct and control all employees of his or her department in their normal course of duty and shall be responsible for the efficient and economical use of all department equipment. Such chief fireward, engineer, or fire chief shall be subject to suspension without pay or dismissal only for cause, and after he or she has been presented with a written specification of the reasons. Upon such suspension or dismissal, the chief fireward, engineer, or fire chief shall be entitled to a hearing, on the merits and reasonableness of the action, in superior court in the county in which the municipality is located, provided that the chief fireward, engineer, or fire chief petitions the clerk of the superior court for such a hearing within ~~[+0]~~ **45** days of suspension or dismissal. The court shall have the power to affirm, modify or negate such suspension or dismissal, based upon its findings.

2 Effective Date. This act shall take effect upon its passage.

AMENDED ANALYSIS

This bill increases the time a chief fireward, engineer, or fire chief has to petition the court for a hearing following suspension or dismissal.

HB 226, relative to the investment of trust funds. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Bennett F. Moore for Municipal and County Government: The bill, as amended, expands allowable investments to include closed ended in addition to open ended mutual funds and reorganizes the language in RSA 31:25 which sets forth the procedure that a collateral trust may be required from a fiduciary. The bill also clarifies the requirements for investment policies for trust funds in RSAs 31:25, 31:5 and 31:9 and stipulates that a copy of such policies be filed annually with the Attorney General's office. Vote 16-0.

Amendment (0132h)

Amend the bill by replacing section 1 with the following:

1 Investment Policy. Amend RSA 31:25 to read as follows:

31:25 Custody; Investment. The trustees shall have the custody of all trust funds held by their town. *Any person who directly or indirectly receives any such trust funds for deposit or for investment in securities of any kind shall, prior to acceptance of such funds, make available at*

the time of such deposit or investment an option to have such funds secured by collateral having value at least equal to the amount of such funds. Such collateral shall be segregated for the exclusive benefit of the town depositing or investing such funds. Only securities defined by the bank commissioner, as provided by rules adopted pursuant to RSA 386:57, shall be eligible to be pledged as collateral. The funds shall be invested only in deposits in any federally or state-chartered bank or association authorized to engage in a banking business in this state, or in deposits in any credit union in this state, or in bonds, notes or other obligations of the United States government, or in state, county, town, city, school district, water and sewer district bonds and the notes of towns or cities in this state; and such stocks and bonds as are legal for investment by any bank or association chartered by this state to engage in a banking business; and in participation units in the public deposit investment pool established pursuant to RSA 383:22. Deposits in a federally or state-chartered bank or association or credit union shall be made in the name of the town which holds the same as a trust, and it shall appear upon the books thereof as a trust fund. ~~[Any person who directly or indirectly receives any such trust funds for deposit or for investment in securities of any kind shall, prior to acceptance of such funds, make available at the time of such deposit or investment an option to have such funds secured by collateral having value at least equal to the amount of such funds. Such collateral shall be segregated for the exclusive benefit of the town depositing or investing such funds. Only securities defined by the bank commissioner, as provided by rules adopted pursuant to RSA 386:57, shall be eligible to be pledged as collateral.]~~ Shares of ~~[open ended]~~ mutual funds are also permitted if they are registered with the Securities and Exchange Commission, qualified for sale in the state of New Hampshire in accordance with the New Hampshire uniform securities act of the New Hampshire secretary of state's office, and which have in their prospectus a stated investment policy which is consistent with the investment policy adopted by the trustees of trust funds in accordance with ~~[RSA 35:9]~~ *this chapter*, and when so invested, the trustees shall not be liable for the loss thereof. The trustees may retain investments as received from donors, until the maturity thereof. The trustees shall formally adopt an investment policy for all investments made by them or by their agents for any trust funds in their custody *in conformance with the provisions of applicable statutes*. Such investment policy shall be reviewed and confirmed at least annually. *A copy of the investment policy shall be filed with the attorney general.*

HB 274, relative to income and asset limits and amount of the elderly property tax exemption. **INEXPEDIENT TO LEGISLATE.**

Rep. Eric G. Stohl for Municipal and County Government: The intent of the bill is two-fold. First, it seeks to increase income and asset limits for the elderly property tax exemption. The income limit would be raised \$13,400 to \$35,000 for a single person and from \$20,400 to \$50,000 for married persons. The asset limit would be raised from \$35,000 to \$150,000 excluding the value of the residence. Secondly, it establishes a minimum amount of the exemption in each age category. The minimum exemption presently in law is \$5,000 for all age groups. This bill would create a minimum exemption of \$50,000 for a person 65 years of age up to 75 years of age, \$90,000 for a person 75 years of age to 80 years of age, and \$100,000 for a person 80 years of age and older. If this legislation were to pass, it would raise the minimum income and asset limits in most municipalities which already have the ability to change these exemption levels. Vote 17-0.

HB 398, establishing a committee to study implementing a bedroom tax on residential dwellings. **INEXPEDIENT TO LEGISLATE.**

Rep. Bennett F. Moore for Municipal and County Government: The committee did not believe that a study of a bedroom tax as a substitute for the statewide property tax would be worthwhile. Such a tax would create another administrative burden on an assessing department. More importantly, if enacted, a bedroom tax would shift a portion of property taxes from commercial and industrial property to residential property, thereby increasing housing costs across the entire state. Vote 17-0.

HB 422, authorizing the granting of abatements to persons whose children are enrolled in schools other than the local public schools. **INEXPEDIENT TO LEGISLATE.**

Rep. Jessie L. Osborne for Municipal and County Government: The committee believes that this bill is unconstitutional and violates Part I article 6 and Part II, article 83 of the New Hampshire Constitution. This bill would impose user fees for public education and possibly create a new type of tax abatement. The New Hampshire Constitution clearly forbids the funding of religious, private schools. Vote 17-0.

HB 496, relative to a property tax exemption for portable docks, piers, and wharves. **INEXPEDIENT TO LEGISLATE.**

Rep. Eric G. Stohl for Municipal and County Government: This bill requires that portable docks, piers, and wharves shall be exempt from taxation as real property. The committee heard testimony as to how this would add complexity and ambiguity to the assessment of real estate for tax purposes. The existence of a dock, pier, or wharf will affect the value of the real estate more or less depending on the portability of such structure, including its size, location, condition, and relative permanence. Since the portability of such structure may already be taken into consideration, the committee believes the proposed exemption will unnecessarily complicate the assessment of waterfront property. The committee expects there would be significant differences of opinion about whether something is "capable of being removed seasonally," depending on the ease with which it can be removed. In addition, if this bill were to pass it would immediately call into question the status of any such structure that is not permanently affixed to the ground. Vote 17-0.

HB 852-FN-A-L, changing the rate and distribution of the excavation tax. **INEXPEDIENT TO LEGISLATE.**

Rep. Betsey L. Patten for Municipal and County Government: The original intent of the excavation tax in 1997 was to provide a solution regarding property appraisal for real estate purposes for sand and gravel operations. The tax was enacted after many years of study and agreement between the sand and gravel industry and the municipalities. The excavation tax is a mechanism designed to supplement and complement the property tax associated with the commercial activity. This legislation would change the amount paid from \$.02/cubic yard of earth excavated and distributed to the municipalities general fund to \$.50/cubic yard with fifty percent of the amount received distributed to the state for the general fund. The intent of this large increase and change in distribution targets a specific industry to fill the coffers of the general fund. The unintended consequences of this increase are the higher costs for our home construction industry, along with the increased cost for our municipalities and department of transportation in the construction of our roadways. The committee strongly believes the excavation tax should not be used outside of its original intent. Vote 13-0.

HB 297, relative to signs for the Souhegan Valley. **INEXPEDIENT TO LEGISLATE.**

Rep. Kevin K. Waterhouse for Public Works and Highways: While the committee sympathizes with the sponsors' desire to help a local Chamber of Commerce in its efforts to welcome travelers, we feel that the Department of Transportation right-of-way should have very limited access to signage. The committee will work with the Commissioner of Transportation to set policy regarding directional and welcome signs within the state right-of-way. This bill was unanimously seen as requiring an excessive number of signs to be placed within the right-of-way and would be a bad precedent for the legislature to set. Vote 14-0.

HB 313, establishing a committee to study reimbursing towns for emergency services on interstate highways. **INEXPEDIENT TO LEGISLATE.**

Rep. James B. Rausch for Public Works and Highways: The committee recognized the concerns of the sponsors in seeking reimbursement for emergency services. However, the committee acknowledged that a study committee would not be able to find an equitable solution because all communities have benefits and liabilities that can not be proportionally delineated for equitable state funded reimbursement. The reimbursements should continue to reside in receiving compensation from the responsible parties and their insurance companies. Vote 13-1.

HB 317, requiring improvements to state highways by developers to meet the same standards as federally or state funded improvements. **INEXPEDIENT TO LEGISLATE.**

Rep. Franklin T. Tilton for Public Works and Highways: The committee determined that sufficient controls currently exist within the permitting process, both at local planning boards and at the Department of Transportation, to require developers to meet appropriate standards, and that these controls are being used regularly and successfully. Vote 16-0.

HB 418, relative to RV friendly highway signs. **OUGHT TO PASS WITH AMENDMENT.**

Rep. David B. Campbell for Public Works and Highways: This bill allows the NHDOT to affix "recreational vehicle friendly" markers or decals to the corner of business directional signs (such as fast food and other restaurants) to indicate that the business establishment can accommodate RV vehicles. The committee overwhelmingly believes this bill promotes tourism and makes New

Hampshire a more RV and motor home “friendly” state. The amendment clarifies that the cost of the “RV friendly” markers will be solely borne by the business establishment and better defines what constitutes a “hard surface” able to support Recreational vehicles. Vote 17-1.

Amendment (0247h)

Amend RSA 236:73-a as inserted by section 1 of the bill by replacing it with the following:
236:73-a “RV Friendly” Markers.

I. Subject to the prior approval of the Federal Highway Administration, the department of transportation shall incorporate the use of “RV friendly” markers on specific business directional signs for business establishments that cater to the needs of persons driving recreational vehicles. A business establishment that qualifies for a business directional sign and that also qualifies as “RV friendly” may request that an “RV friendly” marker be displayed immediately adjacent to such establishment’s business logo sign on the appropriate background sign panel. The business applicant shall pay all costs of the “RV friendly” marker. For purposes of this section, the “RV friendly” marker to be displayed shall be such marker as may be approved by the Federal Highway Administration in the Manual on Uniform Traffic Control Devices.

II. In accordance with the provisions of RSA 21-L:12, and subject to the approval of the Federal Highway Administration, the department shall adopt rules, pursuant to RSA 541-A, necessary to implement the provisions of this section, including rules setting forth the minimum requirements for business establishments to qualify as “RV friendly.” Such requirements shall include, but shall not be limited to:

(a) Roadways shall be hard surface, such as gravel, compacted stone dust, pavement, or other firm surface, and at least 12 feet wide with a minimum swing radius of 50 feet for entering and exiting the facility.

(b) Roadway access and parking facilities shall be free of any obstructions up to 14 feet above the surface.

(c) Facilities requiring short-term parking shall have 2 or more spaces that are 12 feet wide and 65 feet long with a swing radius of 50 feet to enter and exit the spaces.

(d) Fueling facilities with canopies shall have a 14-foot clearance and facilities selling diesel fuel shall have pumps with non-commercial nozzles.

(e) Fueling facilities shall allow for pull-through with a swing radius of 50 feet.

(f) Campgrounds shall have 2 or more spaces that are 18 feet wide and 45 feet long.

HB 466-L, relative to removal of vehicles from state park and ride lots. **OUGHT TO PASS WITH AMENDMENT.**

Rep. James B. Rausch for Public Works and Highways: The amendment clarifies the original wording of the bill and allows for the removal of abandoned vehicles as described in RSA 262:30 from state owned park and ride lots. Vote 17-0.

Amendment (0249h)

Amend RSA 262:40-a, I-II as inserted by section 1 of the bill by replacing them with the following:

I. The owner or person in lawful possession of any private property *or the manager of a state-owned park and ride lot* on which a vehicle is parked without ~~his or her~~ permission or is apparently abandoned may:

(a) Cause the removal of the vehicle in a reasonable manner provided he or she gives notice of such removal to a peace officer as soon as reasonably possible; or

(b) Notify a peace officer that he or she wishes to have such a vehicle removed from the property, whereupon the peace officer or another authorized official shall cause the removal of such vehicle pursuant to the removal, impoundment, and notice procedures required by this subdivision.

II. The department of transportation shall give authorized persons permission to remove vehicles which are abandoned, as described in RSA 262:32, at state-owned park and rides.

HB 796, relative to civil liability for damaging highway protective barriers. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Alfred C. Lerandau for Public Works and Highways: This bill adds protective barriers (guardrails) and clarifies the language of RSA 236:39. At the request of the Attorney General’s office the amendment replaced the word “negligence” for “without authority.” The amendment also includes Municipal Highway Agents (towns) which was part of RSA 236:39 but omitted in this bill. Vote 13-0.

Amendment (0304h)

Amend the bill by replacing section 1 with the following:

1 Civil Liability Expanded. RSA 236:39 is repealed and reenacted to read as follows:

236:39 Civil Liability. Any person who, without authority, places any obstruction on a highway, or causes any defect in a highway or highway protective barrier which renders the highway hazardous or unpassable in any safe manner, or damages the barrier to the extent that the department of transportation or the municipal highway agent determines that it requires replacement or repair, shall be liable to the state for all damages to the highway or protective barrier when maintained by the state, and to the town for all damages to other highways or protective barriers, and for all damages and costs which the town shall be compelled to pay to any person injured by such obstruction or defect. Damages to highways or protective barriers shall include the cost of labor. Referred to the Committee on Judiciary.

HB 845-FN-A, making an appropriation to the town of Dorchester to rebuild the Province road bridge. **INEXPEDIENT TO LEGISLATE.**

Rep. Edmond D. Gionet for Public Works and Highways: Even though the committee sympathizes with the bill sponsors and having considered the facts, the referenced bridge is only used seasonally serving a recreation area on a Class V road. This bill requires a general fund appropriation of \$1,000,000. The bridge was destroyed in a flood. To do what this bill requires would not be fair to the other towns in the state. Vote 18-0.

HB 144, relative to operation of boats on Spectacle Pond. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Pamela J. Hubbard for Resources, Recreation and Development: The bill was written at the request of the owner of properties around Spectacle Pond, in Groton and Hebron. It removes a sunset clause set in 1985 that would prevent newer landowners from getting a permit to operate 7.5 horse power petroleum powered motors on Spectacle Pond. This permit is issued only to property owners with no other access to the town landing. The permit issued will last for the duration of ownership of the property and the boat. The bill as amended removes the necessity for re-applying for this permit annually, and instates a limitation to trips only to and from the pond's landing. Vote 15-1.

Amendment (0060h)

Amend the bill by replacing all after the enacting clause with the following:

1 Spectacle Pond. Amend RSA 270:96, I to read as follows:

I. No person shall use or operate any powerboat equipped with any petroleum-powered motor upon the waters of Spectacle Pond in the towns of Groton and Hebron; provided, however, that ~~[on July 1, 1986]~~ the contiguous property owners of the pond who own and operate petroleum-powered motors not in excess of 7.5 horsepower on said pond may continue to do so *for the duration of their ownership of the property and the boat* upon application and demonstration of hardship to the department of safety as provided in paragraph II. *The use of these permitted petroleum-powered motor boats shall be limited to travel to and from the public landing and the owner's property.*

2 Effective Date. This act shall take effect upon its passage.

AMENDED ANALYSIS

This bill removes a date restriction on and clarifies the permissible use of petroleum-powered boats by contiguous property owners on Spectacle Pond.

HB 216, establishing a commission to study the causes, effects, and remediation of siltation in the Great Bay Estuary. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Elisabeth N. Sanders for Resources, Recreation and Development: This bill would establish a 21 member commission to determine the many causes of the increasing deposit of sediments in the bottom of the Great Bay and its five tributary rivers. This sediment has had a negative impact on oyster beds, eelgrass cover and water depths. The formation of a diverse member commission would provide a broad scientific assessment of the siltation process and recommend possible long term management solutions to a complex situation. The amendment made minor changes in the commission membership. Sediment has also reduced the navigability of the bay and rivers, restricting recreational use. Vote 18-0.

Amendment (0074h)

Amend paragraph I of section 2 of the bill by replacing it with the following:

I. The members of the commission shall be as follows:

- (a) Three members of the house of representatives, at least one of whom is a member of the resources, recreation and development committee, appointed by the speaker of the house of representatives.
- (b) Two members of the senate, appointed by the president of the senate.
- (c) The director of the division of ports and harbors, Pease development authority, or designee.
- (d) Two professionals in marine studies from the university of New Hampshire, at least one from the Jackson estuarine laboratory, appointed by the president of the university of New Hampshire.
- (e) One representative of the Nature Conservancy, appointed by that organization.
- (f) One representative from the department of environmental services, appointed by the commissioner.
- (g) One representative of the Strafford regional planning commission, appointed by that commission.
- (h) One representative of the Rockingham regional planning commission, appointed by that commission.
- (i) Two representatives from conservation commissions in estuarine towns, appointed by the governor.
- (j) The manager of the Great Bay Estuarine Research Reserve, or designee.
- (k) The commissioner of the department of fish and game, or designee.
- (l) One representative from the New Hampshire estuaries project, appointed by the director.
- (m) Two representatives of water-related recreational interests, appointed by the governor.
- (n) Two representatives of water-dependent commercial interests, appointed by the governor.

Amend paragraph I of section 3 of the bill by replacing it with the following:

I. Seek the assistance of the Environmental Protection Agency, National Oceanic and Atmospheric Administration, United States Fish and Wildlife Service, National Marine Fisheries Service, the United States Army Corps of Engineers, and the United States Geological Survey, as appropriate.

Amend the bill by replacing section 5 with the following:

5 Report. The commission shall report its findings and any recommendations for proposed legislation to the speaker of the house of representatives, the president of the senate, the house clerk, the senate clerk, the governor, and the state library in an interim report filed on or before November 30, 2008 and in a final report filed on or before November 30, 2009.

HB 458, relative to the exemption of replacement or redundant wells from the large groundwater withdrawal permitting process. **OUGHT TO PASS.**

Rep. Donald A. Brueggemann for Resources, Recreation and Development: This bill allows for the exemption of replacement or redundant wells from the large groundwater withdrawal permitting process. Applications submitted to DES for these wells must include hydrologic information to assure that the effects will be substantially the same as the well being replaced. The committee agreed that this would be adequate to allow for maintaining older wells without placing an undue burden on well owners. Vote 20-0.

HB 464, relative to Silver Lake in Belmont and Tilton. **INEXPEDIENT TO LEGISLATE.**

Rep. Lawrence M. Kappler for Resources, Recreation and Development: This bill would have declared a certain height of water in Silver Lake in Belmont and Tilton as its "full lake level" and required that when the water rose two feet above that level, a no-wake zone would be instituted for the whole water body. The attorney general attested that this cannot be legislated, but must be established scientifically, which the Department of Environmental Services (DES) is in the process of doing. Further, the committee felt that establishing a no-wake area for certain sporadic time periods may be unworkable, but needs to be addressed with marine safety. Further research revealed that the problems of flooding of the lake can be addressed by property owner petition to DES via the Winnepesaukee River Watershed Advisory Committee. Vote 18-0.

HB 468, relative to establishing the freedom's way heritage area and commission. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Judith T. Spang for Resources, Recreation and Development: The purpose of this bill is to recognize, protect, promote and interpret the significant historic, cultural and natural resources of nine towns proposed for a NH freedom's way heritage area. An advisory commission would be established that would solicit, accept and manage gifts, grants and federal funds, coordinate activities and prepare annual study reports. The heritage area would complement a similar area in nearby Massachusetts. The amendment added a member of the Resources, Recreation and Development Committee to the commission, added Merrimack to the area, and included historic dams and bridges to the resources eligible for funding. Vote 17-0.

Amendment (0290h)

Amend RSA 217-B:1 as inserted by section 1 of the bill by replacing it with the following:

217-B:1 Freedom's Way Heritage Area Established. There is hereby established the freedom's way heritage area, hereinafter referred to as the area, which shall include the cities and towns of Amherst, Brookline, Greenville, Hollis, Mason, Milford, Merrimack, Nashua, and New Ipswich. The purpose of such designation shall be to recognize the significant historic, cultural, and natural resources of the area and to preserve and interpret them for the education and inspiration of present and future generations. Nothing in this chapter shall be construed to limit the rights of private property owners or of the cities and towns in the area to develop the lands, buildings, and resources in the manner they determine appropriate. It is the purpose of this act to provide a management framework to assist the state and the area's municipalities in the development and implementation of integrated cultural, historical, land, and water resource management programs in cooperation with the federal government and the state in order to retain, enhance, and interpret the significant values of the natural and cultural resources in the area.

Amend RSA 217-B:2, III(d) and (e) as inserted by section 1 of the bill by replacing them with the following:

(d) The commissioner of the department of resources and economic development, or designee.

(e) The director of the division of historical resources, or designee.

(f) One member of the house of representatives standing committee responsible for issues pertaining to resources, recreation, and development.

Amend RSA 217-B:4, IV as inserted by section 1 of the bill by replacing it with the following:

IV. Make loans and grants from funds donated or otherwise made available to the commission for the purpose of conserving and protecting sites, buildings, bridges, dams, landscapes, resources, and objects which are included or eligible for inclusion on the state or National Register of Historic Places or for the purposes of providing educational and cultural programs which encourage appreciation of the resources in the area.

Amend RSA 217-B:4 as inserted by section 1 of the bill by inserting after paragraph V the following new paragraph:

VI. Receive and review petitions from towns requesting inclusion in the freedom's way heritage area with the objective of finalizing the boundaries of the freedom's way heritage area within 2 years of the effective date of this section.

AMENDED ANALYSIS

This bill designates Amherst, Brookline, Greenville, Hollis, Mason, Milford, Merrimack, Nashua, and New Ipswich as the freedom's way heritage area and establishes the freedom's way heritage area commission to assist in preserving and promoting the area's natural and cultural resources.

HB 531, establishing a tourism radio sign program. **INEXPEDIENT TO LEGISLATE.**

Rep. Sid Lovett for Resources, Recreation and Development: This bill would have established a tourist radio station program within the Department of Resources and Economic Development (DRED), such as that used in the Mt. Washington Valley. The bill focused on the roadside signs which would have been able to exceed the state's maximum sign size by a significant amount. The committee did not wish to use legislation to regulate the design of signs or the content of radio station broadcasts. Vote 17-1.

HB 837, relative to easements and the land and community heritage investment program. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Judith T. Spang for Resources, Recreation and Development: This bill clarifies language in the statute establishing term easements for farms by specifying that such an easement shall be available only to farms participating in an established farm viability program with the department of agriculture, markets and food. It further provides that when such a program ends, the easement shall also expire. The amendment replaces the original bill. Vote 15-0.

Amendment (0382h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to easements and the land and community heritage investment program and creating a farm viability program.

Amend the bill by replacing all after the enacting clause with the following:

1 Easement Interest; Farm Viability Programs. Amend RSA 227-M:2, IV to read as follows:

IV. "Easement interests" means conservation, historic preservation, or scenic easements, development rights, or any other similar protective interest in real property held in perpetuity, or a term easement held for a specific period of time and not in perpetuity *as part of a farm viability program overseen by the department of agriculture, markets, and food.*

2 Public Access; Agricultural Term Easements. Amend the introductory paragraph of RSA 227-M:15 and RSA 227-M:15, I to read as follows:

227-M:15 Public Access; Liability. Lands and interests in lands purchased with funds from this program by any eligible applicant shall be open in perpetuity for passive recreational purposes [~~except as provided in paragraph I~~] *or for the term of any farm viability term easements as provided for in RSA 227-M:2, IV.* Language to be used in easement interests secured through the program shall approximate the intent of the following:

I. There is hereby conveyed pedestrian access to, on, and across the property for hunting, fishing, and transitory passive recreational purposes, but not camping, by members of the public. A grantor may reserve the right to post against vehicles, motorized or otherwise and against access to active livestock fields, against access to agricultural cropland during planting and growing season, and against access to forest land during harvesting or establishment of plantations. [~~Such term easements as described in RSA 227-M:2, IV will be granted where participation in such program fosters farm viability entered into by the authority or the department of agriculture, markets, and food.~~]

3 New Section; Farm Viability Program. Amend RSA 227-M by inserting after section 17 the following new section:

227-M:18 Farm Viability Program.

I. There is established in the department of agriculture, markets and food, a 2 year pilot farm viability program. Such program shall expand the New Hampshire agricultural innovation program by strengthening farm viability and ensuring the contribution of New Hampshire agriculture to the state's economic livelihood, public health, and general quality of life through capital investments in the form of grants from the community heritage investment program to be used towards agricultural infrastructure and equipment.

II. For each grant accepted by a land owner, a term easement shall be granted by the grant recipient to the state of New Hampshire through the community heritage investment program.

4 Effective Date. This act shall take effect 60 days after its passage.

AMENDED ANALYSIS

This bill restricts term easements used in the land and community heritage investment program to those farm viability programs where a partnership exists with the department of agriculture, markets, and food.

This bill also creates a farm viability program in the department of agriculture, markets and food. Referred to the Committee on Environment and Agriculture.

HB 899-FN-A, assessing a fee on water withdrawn for sale or resale from water supply sources in the state. **INEXPEDIENT TO LEGISLATE.**

Rep. Frank A. Tupper for Resources, Recreation and Development: This bill established a fee of \$.10 per gallon of water withdrawn in excess of 50,000 gallons per day for sale or resale. The bill

would have created many inequities for municipalities and private companies that supply water to local residents. The fee would also be too costly for in-state manufacturers of beer and soda and unidentified other users. SB 155, Chapter 305:1, Laws of 2003, the ground water study commission, will be studying this very complex concept in depth. Vote 14-1.

HB 119, relative to the sunset provision of the system benefits charge. **OUGHT TO PASS.**

Rep. James M. Garrity for Science, Technology and Energy: The system benefits charge is that portion of electric utility bills which is used to fund both energy efficiency and low-income electrical assistance programs. This bill eliminates the sunset provision of the low-income electrical assistance program; the sunset date was scheduled for June 30, 2008. The committee feels that the low-income electrical assistance program is a very effective program which helps many of our neediest fellow citizens with their electrical energy costs. The program is well run and is reviewed at least annually by the Public Utilities Commission and several legislative oversight committees. This beneficial program should be continued at current levels. Vote 10-0.

HB 415-FN, establishing a geothermal assessment project. **OUGHT TO PASS WITH AMENDMENT.**

Rep. John H. Thomas for Science, Technology and Energy: The committee feels the issue of renewable energy is very important and any discovery or exploration of source is part of the overall issue. The state geologist brought forth a concern with the reporting date. The amendment takes care of that issue. Vote 14-0.

Amendment (0257h)

Amend paragraph II of section 1 of the bill by replacing it with the following:

II. The state geologist shall make a preliminary report of the results of the geothermal assessment project to the speaker of the house of representatives, the president of the senate, the house clerk, the senate clerk, the governor, and the state library on or before July 1, 2008. The state geologist shall make a final report of the results of the geothermal assessment project to the speaker of the house of representatives, the president of the senate, the house clerk, the senate clerk, the governor, and the state library on or before July 1, 2009.

Referred to the Committee on Finance.

HB 751-FN-A, relative to biodiesel road toll revenue. **INEXPEDIENT TO LEGISLATE.**

Rep. Thomas R. Fargo for Science, Technology and Energy: This bill requires the road toll administrator to estimate the road toll paid on biodiesel used for off-road purposes and pay that amount into a biodiesel development fund. The committee unanimously agreed that insufficient data are available to accurately estimate the amount of biodiesel used off-road, although estimates suggested that the fund would receive less than \$10,000 annually. In addition, the bill lacked clarity on how the biodiesel development fund would be used. While the intent of the bill was to promote a greater use of biodiesel for environmental benefits, the committee recognized that existing incentive programs could be enhanced to serve that purpose. Vote 14-0.

HB 832-FN, relative to financial relief for members of the military reserve or national guard called to active duty. **INEXPEDIENT TO LEGISLATE.**

Rep. Alfred P. Baldasaro for State-Federal Relations and Veterans Affairs: It was very clear that the purpose of this bill was to address serious financial problems that sometimes occur as the result of long term federal deployment. However, it was determined that the Service members Civil Relief Act of 2003 (SCRA) formerly known as the Soldiers' and Sailors' Civil Relief Act of 1940 (SSCRA) and RSA 110-C: 2 (National Guard Rights and Protective Act) provide a very high level of protection for our men and women who go in harm's way. Additionally it was determined that some parts of HB 832-FN could cause serious and unintentional legal problems and wouldn't be in the best interest of our citizen soldiers. Vote 11-0.

HB 110, relative to commercial driver licenses when the license holder fails a drug or alcohol test. **INEXPEDIENT TO LEGISLATE.**

Rep. Michael B. O'Brien for Transportation: The bill attempted to put into place additional requirements or penalties for commercial drivers who fail drug or alcohol tests. The goals of the sponsor and the interest of the sponsor in safety is compelling. Nevertheless, as ably demonstrated

by the NH Motor Transport Association, federal regulation in this area is comprehensive and the addition of further requirements at the state level would not measurably increase the public safety. Correspondingly, the bill is inexpedient to legislate. Vote 12-0.

HB 176, relative to the return of replaced parts by a motor vehicle repair facility. **INEXPEDIENT TO LEGISLATE.**

Rep. Jennifer M. Brown for Transportation: The bill attempts to alter the process of alerting customers to the return of parts after auto repair. Current law adequately covers the return of parts to consumers and the proposed legislation would not demonstrably add to the limited interest in the motoring public in having parts returned. Correspondingly, the bill is inexpedient to legislate at this time, but the committee will keep a vigilant eye on future legislation relating to old parts consistent with ongoing efforts around the State to carefully manage waste. Vote 12-0.

HB 182-FN, relative to indicating the branch of service on special number plates for veterans. **INEXPEDIENT TO LEGISLATE.**

Rep. Peter F. Bergin for Transportation: The committee appreciated the intent of the sponsor to recognize branch of service on special number plates for veterans. However, the Department of Safety presently does not have the computer system to handle tracking the different branch of service decal. In addition it would add additional cost to implement such a system. It was suggested that the American Legion implement this program, but the committee was never presented a plan. In addition the committee felt that if we made an exception to the veteran plate we would then be inundated with other groups for special plates. Vote 17-0.

HB 202, relative to a point system for automobile dealer and inspection station violations. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Sherman A. Packard for Transportation: This bill, as amended, sets a point system in place for licensed automobile dealers and licensed inspection stations. The New Hampshire Automobile Dealer's Association has requested this legislation so a fairer, unified system be put in place when an infraction occurs. Now, whether it is a small or large infraction a dealer license or inspection station license can be revoked because of the lack of any uniformity or predictability. The point system clearly outlines prohibited conduct and penalties and removes the chance of unfair results. This bill would also protect a dealer from being severely punished because of the unknown actions of a bad employee. Vote 17-0.

Amendment (0192h)

Amend the bill by replacing section 1 with the following:

1 New Section; Administration of Motor Vehicle Laws; Point System for Automobile Dealer and Inspection Station Violations. Amend RSA 260 by inserting after section 6-a the following new section:

260:6-b Point System for Automobile Dealer and Inspection Station Violations.

I. The director of motor vehicles may adopt rules pursuant to RSA 260:5 to establish 2 different uniform point systems for separately identifying automobile dealers and inspection stations which have violated the provisions of this title or rules adopted under this title. The rules shall include a designated level of point accumulation which so identifies automobile dealers and inspection stations.

II. The director may assess points for violations of this title or rules adopted pursuant to this title which have been found by a court of law or a hearing officer to have been violated. Notice of the assessment of points shall be given in accordance with the rules adopted by the director.

III. In the case of a conviction or finding against a dealer or inspection station of 2 or more violations committed on a single occasion, such dealer or inspection station shall be assessed points for one offense only, under each separate point system if the same entity holds both a dealer's registration, license, or privileges, and inspection station privileges. If the offenses have different point values, the dealer or inspection station shall be assessed for the offense having the greater point value.

IV. The director may suspend or revoke the dealer's registration, license or privileges, or in the case of an inspection station the inspection station privileges, in accordance with the rules adopted under this section. The rules shall provide a mechanism for reduction of points for a dealer or inspection station that has completed a training course approved by the director.

V. The director may distinguish between larger and smaller dealers and inspection stations in establishing the point system. For the purposes of the point system established under this section, an inspection station may not be liable for violations committed by an individual mechanic if the mechanic deliberately commits an action that is contrary to the law, the rules of the department, or the policies and procedures of the station.

VI. Both point systems authorized under this section shall only count points for violations committed within the 3 most recent calendar years and shall only count violations that are committed on or after the effective date of the rules adopted under this section.

HB 209, relative to eligibility for farm plates. **OUGHT TO PASS.**

Rep. Brenda L. Ferland for Transportation: This bill will require the use of a specific form. The form will establish the eligibility for farm plates when registering vehicles with the town clerks. There is a difference between agricultural plates that cost less, the miles to be traveled are restricted and vehicles have some inspection requirements compared to farm plates that cost more and have restrictions of 16,000 pounds and 74 cents a pound thereafter. The Department of Safety and Commissioner of Agriculture support this bill. This bill was a recommendation of the recent farm study. Vote 17-0.

HB 714-FN, relative to motorized watercraft rental agencies. **OUGHT TO PASS.**

Rep. Jim Ryan for Transportation: Interest in safety along the state waterways has intensified in recent years as the popularity of recreational boating along our lakes has increased. This bill increases the state's interest in safety on our lakes and waterways by requiring those who rent boats to provide the rental agent with clear certification that the renter understands safety regulations and is conversant with the state's interest in boating safety. NH boat owners and recreational users are obliged by a variety of regulations and laws to promote and insure boating safety. Current law only requires an all-too-brief declaration by a renter that he or she is familiar with our law. The committee believes that renters should come under the same regulatory oversight as local residents. Vote 12-0. Referred to the Committee on Ways and Means.

HB 347, establishing a committee to study establishing classes of property to be taxed at different rates under the statewide enhanced education tax. **INEXPEDIENT TO LEGISLATE.**

Rep. Peyton B. Hinkle for Ways and Means: If established, this committee was to consider classes of property including "primary residential," "second homes," "business and commercial," and "resident and non-resident." The committee was concerned that this could lead to business and commercial properties being taxed at a higher rate, which would be regressive to economic development. On the other hand, if residential property was taxed at a higher rate, an undue tax burden would be placed on the individual home owner. There was also a concern over establishing tax rates for mixed use properties which could lead to ambiguities in taxation. Vote 16-0.

HB 351, clarifying that the definition of "overseas business organization" includes all foreign incorporated business organizations and all 80/20 business organizations, and redefining "business activity" for purposes of the business profits tax. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Norman L. Major for Ways and Means: This bill was requested by the Department of Revenue Administration and Section 1 of this bill is a technical correction, which is very important to Business Profits Tax statutory clarity. Laws must evolve to fit today's economic systems. The Business Profits Tax was formulated in 1970; 2007 is not the same economic world. This change follows a national trend to clearly define who should file and what their tax is based on. A number of other states have adopted these economic nexus statutes. You do not have to have a physical presence here to have economic nexus. If business organizations are availing themselves of the benefits of the NH economic markets, including such factors as our well educated workforce, our court system, and our banking and consumer and protection laws, then they have economic nexus. This correction places language in the statute to tell out-of-state headquartered businesses they must file if they do business in NH. This does not change how we tax or what we tax. However, those that perceive there is a tax planning opportunity if you don't use the common language may attempt to avoid NH tax. Sections 2 and 3 are true housekeeping sections. They make it clear as to who can be a member of a "water's edge combined group." The "water's edge" we talk about is the Atlantic and Pacific oceans – the bounds of the US. The changes in the four definitions used for 1) "Water's edge Combined Group," 2) "Foreign dividends," 3) "Foreign property, payroll and

sales,” and 4) “Overseas business organizations,” will bring the language the state uses in agreement with the language used by the Internal Revenue Code. The amendment corrects statute references in section 1 and 2 of the bill to read “RSA 77-A:1.” Vote 17-0.

Amendment (0191h)

Amend the bill by replacing sections 1-2 with the following:

1 Definitions; Business Activity. Amend RSA 77-A:1, XII to read as follows:

XII. “Business activity” means *a substantial economic presence evidenced by a purposeful direction of business toward the state examined in light of the frequency, quantity, and systematic nature of a business organization’s economic contacts with the state. “Business activity” includes, but is not limited to*, a group of actions performed by a business organization for the purpose of earning income or profit from such actions and includes every operation which forms a part of, or a step in, the process of earning income or profit from such group of actions. The actions ordinarily include, but are not limited to, *the employment of business assets*, the receipt of money, property, or other items of value and the incurring or payment of expenses. Notwithstanding any other provision of this paragraph, a holder of an ownership interest in a qualified investment company as defined in RSA 77-A:1, XXI, shall not be deemed to be carrying on any business activity within this state due solely to its holding an ownership interest in such qualified investment company.

2 Definitions; Water’s Edge Combined Group. Amend RSA 77-A:1, XV to read as follows:

XV. “Water’s edge combined group” means a group of business organizations as defined in RSA 77-A:1, I operating a unitary business, except for overseas business organizations, as defined in paragraph XIX; provided, however, ~~[overseas]~~ 80/20 business organizations shall only be excluded from the definition of “water’s edge combined group” if the following criteria are met:

HB 354, establishing a committee to study the feasibility of establishing ecological consumption taxes as a source of revenue for the state. **INEXPEDIENT TO LEGISLATE.**

Rep. Michael G. Marsh for Ways and Means: This legislation would have established a joint study committee to determine whether or not to establish one or more taxes on the sources of pollution in the state, including carbon dioxide. Without passing judgment on the merits of the bill, the committee noted that there is a similar bill, HB 165, establishing a committee to study carbon reduction incentives, already before the Science, Technology, and Energy Committee. There is no need to establish two study committees, and the specifics of this bill will be considered as part of HB 165. Vote 16-0.

HB 372-FN-A, exempting motor vehicles equipped and used for transporting disabled persons from the tax on rental of motor vehicles. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Ron J. Mack for Ways and Means: The purpose of the bill is to relieve disabled persons and their families of the car rental tax burden. After hearing testimony from various parties including companies specializing in the rental of handicap equipped vehicles, the committee believes that the existing rental tax imposes an undue financial hardship on the majority of users and their families. The Department of Revenue Administration indicates this bill will decrease state education trust fund revenue by an insignificant amount in FY 2008 and each year thereafter. The department states it can absorb the cost of administering this bill within its existing budget. Vote 16-0.

Amendment (0252h)

Amend the bill by replacing section 1 with the following:

1 Tax on Rental of Motor Vehicles; Application for Exemption. Amend RSA 78-A:8-a to read as follows:

78-A:8-a Application for Exemption.

I. Application for an exemption from payment of the tax imposed by this chapter based upon the definition of “rent” under RSA 78-A:3, VIII shall be made in writing to the commissioner.

II. Application for an exemption from payment of the tax imposed by this chapter based upon the definition of “motor vehicle” under RSA 78-A:3, XIV shall be made in writing to the commissioner. The application shall be made for each motor vehicle for which an exemption is sought. A motor vehicle eligible for exemption shall be one that possesses modifications suitable for the transport of passengers with physical disabilities that require a wheelchair or other special adaptations. An application for exemption shall be approved upon submission of such evidence as required by and acceptable to the commissioner pursuant to rules adopted under RSA 541-A.

AMENDED ANALYSIS

This bill allows for exempting motor vehicles possessing modifications suitable for transporting persons with physical disabilities from the tax on rental of motor vehicles.

HB 452-FN, dedicating a percentage of liquor, wine, and beer revenues to the education trust fund. **INEXPEDIENT TO LEGISLATE.**

Rep. Michael D. Brunelle for Ways and Means: This bill would have taken 3% of liquor, beer, and wine revenues from the general fund and dedicated them to the education trust fund. Although the committee appreciates the sponsor's desire to address our state's education funding predicament, we believe the redistribution of revenue would not only fail to adequately address the issue, but also result in cuts in programs that rely on the dollars removed from the general fund. In addition, the committee felt that the passage of this legislation could lead to the habitual dedication of future general funds, and ultimately set a precedent that jeopardizes the long-term stability of other state services. Vote 16-0.

HB 843-FN, requiring excess revenue stabilization reserve account funds to be used to make payments to all homeowners of primary residences in this state. **INEXPEDIENT TO LEGISLATE.**

Rep. Norman L. Major for Ways and Means: This bill required excess revenue stabilization reserve account funds to be deposited in a new "Homeownership Incentive Account" to be used to make equal payments to all homeowners of primary residences in this state to provide an incentive for continued homeownership in the future. The sponsors did not know how much it would cost to implement or how to accomplish the payments to all homeowners. Part of the cost is to identify and update the list of eligible homeowners in the state and their address. The cost for sending payments out to homeowners could exceed the costs of the excess reserves since only a few dollars could trigger this mechanism. The committee felt if there were excess revenues it would be better to reduce tax rates, thereby benefiting all tax payers. Vote 16-0.

REGULAR CALENDAR

HB 77, prohibiting cancellation of property and liability insurance on the basis of certain political activities. **INEXPEDIENT TO LEGISLATE.**

Rep. James R. Martin for Commerce: This bill applies to excess coverage or umbrella coverage which is generally sold with limits of one million to five million dollars. The testimony from the insurance department and others was that excess coverage is widely available. Some excess carriers, based upon their own business judgments, exclude coverage for sports figures, radio and TV broadcasters, entertainers, politicians, editors and other high profile people. Some excess carriers exclude some of these risks, others cover them. Coverage is available at reasonable rates. This bill would harm small insurance companies in the state who do not have the resources to underwrite one to five million dollar risks. They have to reinsure those risks with reinsurers, all of whom are domiciled out of state. Those reinsurance companies make their own underwriting decisions. The bottom line is that the insurance is generally available. Vote 12-4.
Committee report adopted.

HB 102, relative to requirements for restaurants operating cocktail lounges. **OUGHT TO PASS WITH AMENDMENT.**

Rep. John B. Hunt for Commerce: The original bill was an attempt to address the problems the city of Manchester has had with several "restaurant" establishments. Under current law, every restaurant with sales less than \$75,000 must have food sales equal to liquor sales. The problem seems to be that non-alcohol drinks are considered food. The amendment defines food as a "solid nutritive material as distinguished from drink." The majority of the committee felt this was a necessary clarification of the current law. Vote 12-5.

Amendment (0336h)

Amend the title of the bill by replacing it with the following:

AN ACT defining "food" for purposes of the alcoholic beverages laws.

Amend the bill by replacing all after the enacting clause with the following:

1 New Paragraph; Alcoholic Beverages; Definitions; Food. Amend RSA 175:1 by inserting after paragraph XXXI-a the following new paragraph:

XXXI-aa. "Food" means solid nutritive material as distinguished from drink.

2 Effective Date. This act shall take effect 60 days after its passage.

AMENDED ANALYSIS

This bill defines “food” for purposes of the alcoholic beverages laws.
 Amendment adopted.
 Committee report adopted and ordered to third reading.

HB 599-FN, requiring restaurant operators to produce a meals and rentals licenses in order to obtain a liquor license and establishing an annual renewal fee for meals and rentals licenses and a penalty for failure to renew such license. **OUGHT TO PASS WITH AMENDMENT.**

Rep. James R. Martin for Commerce: This bill was introduced at the request of the Department of Revenue Administration (DRA) to enable DRA to keep track of restaurant and restaurant licensees, many of whom change hands without notifying DRA thus making the collection of the meals and rentals tax difficult. In years past, restaurants and rental licenses expired every two years but the statute was amended to make the licenses of indefinite term. As a result of that experiment, DRA has found it difficult to track the current owner of some facilities in order to collect the tax. This bill solves that problem at minimum cost and inconvenience to the owners. Vote 16-2.

Amendment (0281h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to fees for meals and rentals licenses.

Amend the bill by replacing all after the enacting clause with the following:

1 Meals and Rentals Licenses; Fees. Amend RSA 78-A:4 to read as follows:

78-A:4 *Meals and Rentals* Licenses Required; Penalty.

I. Each operator shall register with the department the name and address of each place of business within the state where it operates a hotel, sells taxable meals, or rents motor vehicles. The operator shall complete a registration, upon receipt of which the department shall issue a *meals and rentals* license for each place in such form as it determines, attesting that the registration has been made. ~~[The license remains valid until]~~ *Licenses shall expire on June 30 in each odd-numbered year, unless* the business ceases operation, a change in ownership occurs, or the license is revoked or suspended by the department *prior to expiration of the license*. The license shall be conspicuously posted in a public area upon the premises to which it relates.

II. The fee for an original license or timely license renewal shall be \$5. The fee shall be waived for an original license, if the license is issued less than 6 months prior to a required renewal date.

~~[H:]~~ *III.* No person shall engage in serving taxable meals, renting rooms, or renting motor vehicles without first obtaining the license required by this section. The license is nonassignable and cannot be transferred. Any person who fails to register or obtain a license as provided in this section shall be subject to the penalty provisions of RSA 21-J:39.

2 Effective Date. This act shall take effect July 1, 2007.

AMENDED ANALYSIS

This bill establishes an original license fee and a renewal fee for meals and rentals licenses.

This bill was requested by the department of revenue administration.

Amendment adopted.

Committee report adopted.

Referred to the Committee on Ways and Means.

HB 874-FN-A, establishing a New Hampshire health access corporation, continually appropriating a special fund, and allowing the healthy kids corporation to cover certain adults. **INEXPEDIENT TO LEGISLATE.**

Rep. John B. Hunt for Commerce: Although this bill calls for an appropriation, there was no dollar amount in the bill. The committee is working on another bill that will have a similar task to broaden affordable insurance options in New Hampshire. Vote 17-1.

Committee report adopted.

HB 661-FN-A, establishing an executive planning commission on special education. **MAJORITY: OUGHT TO PASS. MINORITY: INEXPEDIENT TO LEGISLATE.**

Rep. Nancy F. Stiles for the Majority of Education: This bill is the first of six and the only early bill coming forth this session from a committee charged to review New Hampshire’s special edu-

cation statutes. HB 661-FN-A repeals RSA 189-C:21 and 189-C:22 and replaces them with a planning commission to be established for one year to identify the personnel shortages that affect the capacity of schools to provide educational services to children with highly challenging needs or low-incidence (uncommon) disabilities. There is nothing in the current RSA 186-C:21 that isn't covered in federal law so there will be no negative effect on students or the local districts. The commission is to address opportunities and resources to support the local school districts in developing scientifically based student specific supports to assist the schools in eliminating out of district private or public placements, all of which have high human and financial costs. The commission will also address the pre-service and in-service educational opportunities for professionals, paraprofessionals and administrative personnel in our college and university system and identify how they might identify the emerging special education needs and provide support to the local districts in evaluating or plan design. The strategic plan is to be reported to the General Court and the Governor by October 1, 2008. The study committee that worked over the past ten months with five subcommittees and came to consensus on the final draft of this bill included representation from six legislators, three having a background in special education, the Department of Education, the Special Education Directors Association as well as active directors, consultants, parents, homeschools, charter schools, Disabilities Rights Center, school board members, legal representation of students and parents of students with disabilities, Parent Information Center, members of the State Advisory Committee (SAC) and presentations from the Dept. of Health and Human Services, the Dept. of Corrections and South Eastern Regional Education Service Center (SERESC). Vote 11-4.

Rep. Paul Ingbreton for the Minority of Education: Though presented as a bill to create a commission, this bill actually of itself changes five points of New Hampshire law related to developmentally disabled children. The removed statutes are actually part of federal requirements, yet reasons for their removal were not forthcoming.

Majority committee report adopted.

Referred to the Committee on Finance.

HB 669-FN-A-L, relative to kindergarten aid and kindergarten construction aid. **MAJORITY: OUGHT TO PASS WITH AMENDMENT. MINORITY: INEXPEDIENT TO LEGISLATE.**

Rep. Judith E. Day for the Majority of Education: This bill extends policy of 1997 to provide school districts \$1200 per pupil in aid for new kindergarten students until said students are counted in the average daily membership for kindergarten. It also extends aid for construction of kindergartens. This aid provides an incentive for districts to establish public kindergarten programs where none currently exist. The chance to participate in kindergarten provides an added opportunity for an equitable education for all New Hampshire students. This bill could cost the state \$14 million only if 66 classrooms were built in all of the districts currently without kindergarten and 15 children were in each of these classrooms. Vote 11-3.

Rep. Paul Ingbreton for the Minority of Education: Department of Education numbers indicate this bill would cost, even as amended, an additional \$14 million. It would increase pressures on districts that have repeatedly opposed such programs and construction. The money does not follow the child.

Majority Amendment (0383h)

Amend RSA 198:48-a, XII(b) as inserted by section 1 of the bill by replacing it with the following:

(b) After pupils enrolled in an approved kindergarten program have been counted in the average daily membership in residence, school districts shall only receive, for each such pupil, an education grant calculated in accordance with RSA 198:41 through RSA 198:42.

Majority committee amendment adopted.

Majority committee report adopted.

Referred to the Committee on Finance.

HB 693-FN-A-L, establishing a school choice certificate program. **MAJORITY: INEXPEDIENT TO LEGISLATE. MINORITY: OUGHT TO PASS.**

Rep. Kimberley S. Casey for the Majority of Education: This legislation, which establishes a school choice certificate (voucher) program, is identical to HB 1707 of 2006 which was voted down by a sizable margin. Nothing new has been added to this bill to address the concerns that led to its defeat last year. Those same concerns were not addressed to the satisfaction of the majority of the committee during its most recent hearing. The bill as it stands continues to violate the New Hampshire Constitution (Part 1, Article 6, and Part 2, Article 83), which specifically and unequivocally

forbids public monies to be used for sectarian schools. The U.S. Supreme Court finding regarding the Cleveland School District does not in this case apply, as it was a very narrow finding and does not trump New Hampshire Constitutional law. Additionally, as education policy, the majority of the committee felt that school choice programs should be implemented through school districts, and existing laws already provide for that. As written, the law would drain scarce revenues away from public education. When districts already face federal cuts, NCLB unfunded mandates, escalating special education costs and tighter state resources, draining another 17.9 million dollars in state aid to public education, as this bill provides, was considered ill advised. This bill will not help children by draining money from the public system, and draining this money could feasibly force local districts to make up this money leading to higher local school taxes. The bill as written disallows eligible families who already have their children in private school, at their own expense, to participate in the program. This bill, as written, allows private schools to accept only those students it chooses, and the sponsor was unable to address the areas of concern that private schools may, in fact, not accept children with special needs. Worse, if a special needs child is accepted, it is up to the local PUBLIC school to provide those services. Vote 8-4.

Rep. Pamela G. Price for the Minority of Education: The minority believes that we must offer choice in education for our students who don't succeed in the public schools. This bill proposes to provide a certificate to the parents for the child's tuition at an approved non-public school. The certificates are distributed by lottery to students whose family income does not exceed 200 percent of the federal poverty level. This may be raised to 300 percent if there are unused certificates. The value of the certificate is less than the state aid. The bill addresses the constitutional issues by making the voucher payable to the parents. This is essentially the same bill which passed the Education Committee last term. The minority believes that this is about helping our children achieve an education. There are some children, for whatever reason, who don't succeed in the public school system. We must provide alternatives for these students. This bill provides some options for low income students which they might not have otherwise. For these reasons, the minority supports ought to pass.

Rep. Lund spoke against.

Rep. Bedrick spoke against and yielded to questions.

Rep. Casey spoke in favor and yielded to questions.

Rep. Lund requested a roll call; sufficiently seconded.

-----------------	--------------------	----------------

and the majority committee report was adopted.

HB 861-FN, allowing certain members of the United States armed forces and their dependents to attend public postsecondary institutions at the in-state resident tuition rate. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Sharon M. Carson for Education: This bill recognizes the service of our active duty members of our armed forces and their dependents. It allows those active duty members and their dependents stationed in New Hampshire or living in New Hampshire with duty stations in contiguous states to attend New Hampshire post secondary institutions at the in-state tuition rate. Vote 7-4.

Amendment (0307h)

Amend the title of the bill by replacing it with the following:

AN ACT allowing certain active duty members of the United States armed forces and their dependents to attend public postsecondary institutions at the in-state resident tuition rate.

Amend RSA 110-B:81 as inserted by section 1 of the bill by replacing it with the following:

110-B:81 Active Duty Members of the Armed Forces; In-State Resident Tuition Rate. Active duty members and dependents of active duty members of the United States armed forces who are stationed in New Hampshire or living in New Hampshire with duty stations in contiguous states, who are otherwise eligible to attend public postsecondary institutions, may take courses at such institutions at the in-state resident tuition rate.

AMENDED ANALYSIS

This bill allows active duty members and dependents of active duty members of the United States armed forces who are stationed in New Hampshire or living in New Hampshire with duty stations in contiguous states to attend public postsecondary institutions at the in-state resident tuition rate. Amendment adopted.

Committee report adopted.

Rep. Coughlin declared a conflict of interest on **HB 861-FN** and did not participate.

Referred to the Committee on Finance.

HB 870-FN-A-L, relative to the calculation and disbursement of adequate education grants. **IN-EXPEDIENT TO LEGISLATE.**

Rep. Paul Ingbertson for Education: At the public hearing, both sponsors testified that the bill as it was before the committee was intended to be only the starting point for a major and comprehensive revision. It represented a current version of what had first been enacted in 1999 and remained in law with only minor changes for more than four years. As the two sponsors strongly believe that all four issues concerning an adequate education should be addressed simultaneously and comprehensively this year, they expressly asked the committee not to retain this bill. Vote 11-2. Committee report adopted.

HB 112, relative to the method of depositing a ballot. **INEXPEDIENT TO LEGISLATE.**

Rep. Janet F. Allen for Election Law: This bill deals only with towns that hand count their ballots and would require the voters to deposit their ballots into the ballot box without any assistance from the moderator. The secretary of state's office testified in opposition to this bill. They believe that it would be too easy to duplicate the ballot. If we are going to question the integrity of ballot counting machines and the possibility of election fraud, then we should look at all aspects of election fraud including voter fraud. The purpose of the moderator touching the ballot is to insure that there is only one ballot. The majority of our committee did not believe that there is a problem with the process that is now in effect. Vote 8-7.

Committee report adopted.

HB 136, relative to approval of voting machines. **INEXPEDIENT TO LEGISLATE.**

Rep. David M. Pierce for Election Law: The majority of the committee voted against this bill as a matter of process, not necessarily as a substantive objection to the bill's subject matter. Other legislation dealing with issue related to this bill are forthcoming and the committee will retain some of those bills for further study. It is contemplated that portions of this bill will be consolidated with those retained bills. In this way, the committee can study and report out a comprehensive bill dealing with all aspects of the subject of electronic vote counting machines used in New Hampshire elections. Vote 13-4.

Committee report adopted.

HB 138, relative to disclosure of voting machine information. **INEXPEDIENT TO LEGISLATE.**

Rep. Claudia A. Chase for Election Law: The majority of the committee voted against this bill as a matter of process, not necessarily as the substantive objections to the bill's subject matter. Other legislation dealing with issues related to this bill are forthcoming and the committee will retain some of those bills for further study. It is contemplated that portions of this bill will be consolidated with those retained bills. In this way, the committee can study and report out a comprehensive bill dealing with all aspects of the subject of electronic vote counting machines used in New Hampshire elections. Vote 15-2.

Committee report adopted.

HB 239-FN-A, appropriating funds to the barn preservation fund matching grants program.
MAJORITY: OUGHT TO PASS. MINORITY: INEXPEDIENT TO LEGISLATE.

Rep. Jane E. Beaulieu for the Majority of Environment and Agriculture: Locating financial resources to do repairs and updates has led to many barns demise in recent years. Some are dismantled and sold to other states. Funding this bill would assist maintaining a valuable New Hampshire resource – agricultural heritage. Vote 15-1.

Rep. Steve Vaillancourt for the Minority of Environment and Agriculture: Like the bill calling for state support for educating a “large animal” veterinarian, this bill provides special funding for a purpose far from vital to our society or our state. As such, even though the bill will have to go to the Finance Committee for final adjudication, the minority feels obligated to express opposition at this time. The Governor, in his budget, called for a \$12 million appropriation for LCHIP. This bill would commit another \$75,000 per year (\$150,000 for the biennium) to the barn preservation fund which has not been previously funded. At a time when we are uncertain about education funding; at a time when the developmental disability waiting list totals 150 or more individuals; at a time when so many vital state services will go unfunded, the minority cannot in good conscience recommend barn preservation as a priority. Even if this type of thing were to be a priority, monies should certainly come from the LCHIP monies even if an amendment to the LCHIP bill is needed to achieve that. Truly, government cannot be all things to all people, but we must put people ahead of barns whose owners already got a potential windfall with the bill passed earlier this session.

Rep. Vaillancourt spoke against.

Rep. Beaulieu spoke in favor.

Rep. Hopfgarten requested a roll call; sufficiently seconded.

Rodeschin, Beverly

and the majority committee report was adopted.

Rep. Timothy Robertson declared a conflict of interest on **HB 239-FN-A** and did not participate. Referred to the Committee on Finance.

HB 472-FN, increasing fees for hazardous waste management and contaminated site cleanup, establishing rulemaking authority to set future fees, and changing reporting requirements. **MAJORITY: OUGHT TO PASS WITH AMENDMENT. MINORITY: INEXPEDIENT TO LEGISLATE.**

Rep. Jane E. Beaulieu for the Majority of Environment and Agriculture: This bill would increase fees for hazardous waste management and contaminated site clean up and changes reporting requirements for various waste activities. This legislation does not overly burden one segment of the economy and funds current programs. This is New Hampshire's superfund. The amendment restricts fee increases to those on existing fees specified in the legislation by removing language in the original bill that would have established new fees and allowed for future increases of existing fees through rulemaking. Vote 17-1.

Rep. Steve Vaillancourt for the Minority of Environment and Agriculture: These fee increases are in the range of 50 to 100 percent. The majority argues that such a hefty boost is okay because the fees haven't been increased in years. The minority responds that such an argument would be laughed at if we suggested doubling the rooms and meals tax, the business profits tax, the telecommunications tax, the gasoline tax or any other tax simply because it hasn't been increased in years. With fee increases, the increase is even worse because fees are supposed to represent the cost of providing the service rendered. In a sense, we are already overcharging with fees if we consider a fee based on the cost of processing applications. This bill would increase the amount of one application from \$5000 to \$7500. Assuming that an employee is paid \$30 an hour (and even allowing for departmental overhead of 10%), simple math leads us to believe that 225 hours would be taken for such processing (\$7500 less 10% = \$6750 divided by \$30 = 225 hours). Clearly, these fees are being used to accomplish other goals which should be funded out of the general fund (if such programs are necessary at all). Until such a time, we should not be increasing fees, all the more so when DES acknowledged that the fund to accomplish these programs is currently at a \$3 million surplus. The minority believes that, if anything, we should be reducing these fees. The minority, however, believes the amended version is somewhat better than the original which would have allowed DES to set fees in the future without coming to the Legislature for a full-blown hearing and vote.

Majority Amendment (0341h)

Amend the title of the bill by replacing it with the following:

AN ACT increasing fees for hazardous waste management and contaminated site cleanup and changing reporting requirements.

Amend the bill by replacing all after the enacting clause with the following:

1 Operator Permit Fees. Amend RSA 147-A:4, II to read as follows:

II. A permit application fee not to exceed [~~\$5,000~~] **\$7,500** shall accompany each permit, permit modification, and permit renewal application. [~~The amount of the fee shall reflect the relative effort necessary for review of the application. Permit application fees shall be used by the department for review of applications. In addition to the application fee, the applicant shall be responsible for all reasonable hearing costs incurred by the department. State costs which exceed the permit application fee shall be charged monthly to the applicant at an hourly rate which includes, but is not limited to, staff salaries and benefit costs, current operating expenses, legal costs and travel. The hourly rate shall also be used to calculate any department costs associated with implementing and enforcing the terms and conditions of a permit issued by the department.~~] Permit fees received by the department under this section shall be placed in the hazardous waste cleanup fund as established under RSA 147-B:3, shall be accounted for separately and shall be used in processing applications and enforcing and implementing conditions of a permit.

2 Small Quantity Waste Generator Self-Certification Fees. RSA 147-A:5, IV is repealed and reenacted to read as follows:

IV.(a) Each hazardous waste generator that generates less than 220 pounds (100 kilograms) of hazardous waste per month shall submit to the department, every 3 years, a self-certification declaration stating that the facility is in compliance with the small quantity hazardous waste generator rules. The declaration shall be on a form provided by the department.

(b) Each small quantity hazardous waste generator shall pay non-refundable fees at a rate of \$60 per year for the period of January 1, 2004 to June 30, 2007, and at a rate of \$90 per year beginning July 1, 2007, to cover department expenses for conducting the self-certification program and hiring of program staff. Total fees due for each year shall be submitted with the self-certification declaration form required under subparagraph (a).

(c) If the self-certification fee is not paid within 60 days of the due date, interest shall be assessed at a rate established by the commissioner, and shall be deposited into the cleanup fund. The commissioner may waive all or any portion of interest for good cause.

(d) Political subdivisions of the state shall be exempt from the fee for submitting a self-certification declaration.

(e) Small quantity hazardous waste generators that are participants in a department-developed multi-media compliance assurance program referred to as an environmental results program, or ERP, shall be exempt from this paragraph.

3 Initial Waste Activity Notification Fees. Amend RSA 147-A:6-a, I to read as follows:

I. Each initial notification of hazardous waste activity filed by any new hazardous waste generator in New Hampshire shall be accompanied by a non-refundable fee of ~~[\$100]~~ **\$150**.

4 Large Quantity Waste Generator Fees. RSA 147-B:8, I is repealed and reenacted to read as follows:

I. Each hazardous waste generator that generates in a 3-month period 660 pounds or more of unrecycled hazardous waste shall pay a quarterly fee of \$0.06 per pound or a minimum of \$100, to the department.

5 Large Quantity Waste Generator Fees. RSA 147-B:8, V is repealed and reenacted to read as follows:

V. Failure to pay fees within 60 days of the date due shall result in the assessment of interest at a rate established by the commissioner. The commissioner may waive all or any portion of interest for good cause. The department shall deposit interest collected under this section into the cleanup fund.

6 Brownfields Program Fees. Amend RSA 147-F:9, II (e) to read as follows:

(e) A non-refundable application fee of ~~[\$500]~~ **\$750**.

7 Brownfields Program Fees. Amend RSA 147-F:14, I-II to read as follows:

I. Any person, except for the state and local governments, including school districts, who requests an eligibility determination under RSA 147-F:4 shall pay a nonrefundable application fee of ~~[\$500]~~ **\$750** for program eligibility which shall be deposited in the hazardous waste cleanup fund. Any resubmittal of an incomplete application shall require an additional \$500 for each resubmission.

II. Any eligible person, except for the state and local governments, including school districts, who has previously paid the initial application fee, or any person who becomes a program participant under RSA 147-F:5, V, shall pay a nonrefundable ~~[\$3,000]~~ **\$4,500** fee which shall be deposited in the hazardous waste cleanup fund and used for purposes of the review work performed by the department under this chapter.

8 Rulemaking; Records and Department Costs. Amend RSA 147-F:18, II(i) to read as follows:

(i) Program fees structure, including procedures for maintaining records of department costs for the purpose of offsetting the initial ~~[\$3,000]~~ fee and obtaining reimbursement in accordance with RSA 147-F:14.

9 Brownfields Program Fees. Amend RSA 485:3-b, I to read as follows:

I. Any person, except for state and local governments including counties and political subdivisions, ~~who~~ **that** requests an expedited review of environmental site assessment reports by the department shall pay to the department a review fee based on the equalized assessed valuation of the property **as determined in rules adopted by the commissioner under RSA 541-A, shall be** as follows:

Equalized Assessed Valuation	Fee
\$0 to \$250,000	[\$1,200] \$1,800
\$250,001 to \$500,000	[\$1,500] \$2,250
\$500,001 to \$1,000,000	[\$2,500] \$3,750
greater than \$1,000,000	[\$5,000] \$7,500

10 Brownfields Program Fees. Amend RSA 485:3-c to read as follows:

485:3-c Groundwater Management Permit Fee. Any person, ~~[except for state and local governments including counties and political subdivisions, issued]~~ **submitting** a permit **application** under RSA 485:3, X shall pay to the department a groundwater management permit **application** fee of ~~[\$1,000]~~ **\$2,000**. Any person who has paid the environmental site assessment review fee specified in RSA 485:3-b shall be exempt from the groundwater management permit fee. **State and local governments including counties and political subdivisions shall be exempt from groundwater management permit application fees, unless eligible for funding under RSA 146-D, RSA 146-E, RSA 146-F, or RSA 146-G.**

11 Repeal. The following are repealed:

I. RSA 147-B:4, IV, relative to facility siting program annual reports.

II. RSA 147-B:15, relative to used oil program agency reports.

12 New Section; Annual Report. Amend RSA 147-B by inserting after section 11 the following new section:

147-B:11-a Annual Report The department shall submit an annual report by October 1 of each year to the governor and council, speaker of the house of representative, and president of the senate, relative to the activities and finances of the hazardous waste cleanup fund.

13 Effective Date. This act shall take effect July 1, 2007.

AMENDED ANALYSIS

This bill increases fees for hazardous waste management and contaminated site cleanup and changes reporting requirements for various waste activities.

Majority committee amendment adopted.

On a division vote, 232 members having voted in the affirmative and 111 in the negative, the majority committee report was adopted.

Referred to the Committee on Ways and Means.

HB 897-FN-A, relative to the salary of the state veterinarian. **MAJORITY: OUGHT TO PASS. MINORITY: INEXPEDIENT TO LEGISLATE.**

Rep. Richard H. Snow for the Majority of Environment and Agriculture: While members of the committee, and indeed, the full House, may or may not support a change in salary for the current state veterinarian, this bill is not intended to address that question. The majority of the committee reached a consensus that there is a need to increase the salary range applicable to the state veterinarian position in order to ensure that our state will be able to attract and retain competent and qualified people to fill this vital position. The committee heard and carefully considered testimony about the duties and responsibilities of our state veterinarian. The committee heard and considered testimony relative to salaries for state veterinarians in neighboring states. The committee considered the fact that the search for our current state veterinarian went on for over a year. The committee determined, based on testimony and deliberation, that the current salary range for the state veterinarian position is inadequate and recommends reclassifying it to a higher range. Vote 12-3.

Rep. Steve Vaillancourt for the Minority of Environment and Agriculture: The minority does not believe that policy committees which come into contact with department heads and other state officials on a regular basis should be in the business of suggesting increased pay grades for any individual or individual positions. In the past, special blue ribbon commissions have properly considered pay grades. These commissions could look at the overall state picture and not make recommendations due to any personal consideration. In other words, personal favorites should not influence personnel. Clearly, that is what the majority did since much of the discussion regarding this pay classification centered on an individual and not on the position. The amount of money involved here is small, a difference of some \$20,000 at the maximum level of the two pay grades, but the principle of abandoning the long-standing way of evaluating state job classifications and leaving it up to a policy committee with its natural biases in favor of those it deals with is of tremendous concern to the minority.

On a division vote, 225 members having voted in the affirmative and 121 in the negative, the majority committee report was adopted.

Referred to the Committee on Finance.

CACR II, relating to the term of office for governor. Providing that beginning with the 2010 general election, there shall be a 4-year term of office for governor. **MAJORITY: OUGHT TO PASS. MINORITY: INEXPEDIENT TO LEGISLATE.**

Rep. A. Laurie Harding for the Majority of Executive Departments and Administration: The majority of the committee felt that it was, once again, important to put this issue before the voters in the form of a constitutional amendment. The four year term was last presented to the voters in 1984. 63.61% voted in favor of a four year term, narrowly missing the required 66.67% needed for adoption. Recent polls indicate that 58% of the individuals polled would support such a change. New Hampshire is one of the only two states that has a two year term for governor. The other is Vermont. New Hampshire is a very different state than it was in 1984. Our demographics have changed. Health care delivery, the economy, the environment are presenting us with more complex problems. Our relationship with the federal government is becoming more challenging. A four year gubernatorial term would give the individual in our primary leadership position an opportunity to govern instead of running for office. Governors need a chance to establish and carry out their agendas. The passage of CACR 11 is about strengthening the future of our state. Vote 9-8.

Rep. Hector M. Velez for the Minority of Executive Departments and Administration: The minority firmly believes in the people's right to be heard every two years in the election of governor. We elect our federal congressional representatives, state representatives, state senators, and executive councilors every two years. By changing the governor's term to four years, it removes the people's right to express their opinion on how the governor's policies are being received. We heard that one of the reasons this bill was brought forward was because New Hampshire and Vermont were the only two states without a four year term. We believe that we should remain independent in having a two year term. Historically, the governor has been elected to a second term in office. This has happened because we have no term limits, and the people of our state, by voting every two years, have made the decision of who will lead us. This bill takes away the New Hampshire advantage. We were also told the governor has to think too much about re-election, and we believe that this is a good idea.

MOTION TO LAY ON THE TABLE

Rep. Velez moved that *CACR 11*, relating to the term of office for governor. Providing that beginning with the 2010 general election, there shall be a 4-year term of office for governor, be laid on the table.

Rep. Velez requested a roll call; sufficiently seconded.

and the motion failed.

MOTION TO SPECIAL ORDER

Rep. Campbell moved that *CACR 11*, relating to the term of office for governor. Providing that beginning with the 2010 general election, there shall be a 4-year term of office for governor, be made a Special Order for March 21, 2007 in its regular calendar order.

On a division vote, 185 members having voted in the affirmative and 166 in the negative, the motion was adopted.

REGULAR CALENDAR (CONT'D)

HB 155, relative to membership of the state building code review board. **OUGHT TO PASS WITH AMENDMENT.**

Rep. A. Laurie Harding for Executive Departments and Administration: This bill would add a 17th member to the Building Code Review Board. This individual, nominated by the Fire Prevention Society, would bring an additional level of technical expertise to the board. The bill was amended, at the request of the fire chiefs, to replace one chief's position with an "active fire prevention officer" nominated by the New Hampshire fire chiefs leaving the number on the board at 16. Vote 14-3.

Amendment (0063h)

Amend the bill by replacing all after the enacting clause with the following:

1 State Building Code Review Board; Active Fire Prevention Officer. Amend RSA 155-A:10, I(h) to read as follows:

(h) One ~~[municipal volunteer fire chief]~~ *active fire prevention officer*, nominated by the New Hampshire Association of Fire Chiefs.

2 State Building Code Review Board; Appointments. Amend RSA 155-A:10, II to read as follows:

II. The term of each member shall be 3 years ~~[except that persons initially appointed under subparagraphs I(a), (d), (g), (j) and (m) shall serve one-year terms, and persons initially appointed under subparagraphs I(b), (c), (h), (k) and (n) shall serve 2-year terms]~~. The chair shall be appointed by the commissioner of safety. Board members shall be appointed for no more than 2 consecutive 3-year terms.

3 Effective Date. This act shall take effect 60 days after its passage.

AMENDED ANALYSIS

This bill requires the New Hampshire Association of Fire Chiefs to appoint an active fire prevention officer to the state building code review board. The bill also removes the provision that staggered the terms of the first appointees to the state building code review board.

Amendment adopted.

Committee report adopted and ordered to third reading.

HB 871-FN-A, allowing the fish and game department to conduct an annual auction of moose hunting permits. **INEXPEDIENT TO LEGISLATE.**

Rep. John W. Henson for Fish and Game: This bill would have permitted auctioning of three moose permits to the highest bidder, resident or non-resident, for a minimum of \$5000. The committee voted not to support this bill for the following reasons: the amount of money raised would not alleviate the funding crisis in the Fish and Game Department, and the wildlife belongs to the general public and should not be auctioned to the highest bidder for short term gain. Vote 6-5. Committee report adopted.

HB 628-FN-A, establishing the New Hampshire Rx advantage program and continually appropriating a special fund. **MAJORITY: OUGHT TO PASS WITH AMENDMENT. MINORITY: INEXPEDIENT TO LEGISLATE.**

Rep. James R. MacKay for the Majority of Health, Human Services and Elderly Affairs: This bill establishes the New Hampshire Rx Plus Program. The intent is to make drugs more affordable for those who are low income, uninsured individuals. It is an attempt to deal with one aspect of the delivery of health care services to those who are disadvantaged. The bill calls for a prescription discount card to be used in pharmacies, and, in addition, it directs DHHS to enter into rebate agreements with pharmaceutical companies. This bill has been many years in the making. It is supported by AARP and the New Hampshire Independent Pharmacy Association. It is patterned after a successful similar bill in the State of Maine that has led to discounts of 15-60 percent to low income, uninsured individuals for drugs from pharmaceutical companies who participate in the Medicaid program. This program has been upheld all the way to the United States Supreme Court as being constitutional and being consistent with the goals of Medicaid. The amendment to this bill is designed to help pharmacies from inadvertently being in conflict with the state's "most favored nation" law; while participating with this plan, they are exempted from the penalties of RSA 126, IV. The committee strongly supports this legislation. Vote 18-1.

Rep. Susan Emerson for the Minority of Health, Human Services and Elderly Affairs: The major point of the controversy in this bill is a provision that is referred to as "The Hammer." "The Hammer" clause says that if a particular drug company chooses not to provide discounts under this program then the state may make it harder for New Hampshire citizens to obtain that company's drugs under the Medicaid program by implementing prior authorization. The bill gives the state the option to leverage the Medicaid program to obtain discounts for others and it could backfire on the poorest of the poor. The State of Maine enacted a law with "The Hammer" clause; however, that state has told the United States District Court that Maine would request a waiver if it planned to implement "The Hammer." So far, there has been no indication in Maine that "The Hammer" will be used. Since Maine has made this commitment to the court and has not, to anyone's knowl-

edge, begun the process of seeking federal CMS (Center for Medicare and Medicaid Services) approval, it is reasonable to believe that drug companies are choosing to participate or not to participate in Maine based on other business considerations. Other states, such as Ohio, have not included "The Hammer" in their statutes. "The Hammer" is the minority's primary opposition to this bill and, unless it is removed, the minority thinks the bill should be ITL. There are also concerns about the fiscal note.

Majority Amendment (0294h)

Amend RSA 161-L:1 as inserted by section 2 of the bill by replacing it with the following:

161-L:1 Definitions. In this chapter:

I. "Commissioner" means the commissioner of the department of health and human services.
 II. "Covered drugs" means drugs that are on the New Hampshire preferred drug list.
 III. "Department" means the department of health and human services.
 IV. "Fund" means the New Hampshire Rx advantage program fund, established in RSA 161L:5.
 V. "Initial discounted price" for a drug means the price which has been discounted from a pharmacy's usual and customary charge that participating retail pharmacies may charge qualified residents participating in the program for that drug.

VI. "Labeler" means an entity or person that receives prescription drugs from a manufacturer or wholesaler and repackages those drugs for later retail sale and that has a labeler code from the federal Food and Drug Administration under 21 C.F.R. section 207.20.

VII. "Participating retail pharmacy" or "retail pharmacy" means a retail pharmacy located in this state, or another business licensed to dispense prescription drugs in this state, that participates in the program.

VIII. "Program" means the New Hampshire Rx advantage program established under this chapter.

IX. "Qualified resident" means a resident of this state who has a family income equal to or less than 350 percent of the federal poverty level and who self-qualifies as an enrollee in the program. "Qualified resident" also means a resident of this state whose family incurs unreimbursed expenses for prescription drugs that equal 5 percent or more of family income or whose total unreimbursed medical expenses equal 15 percent or more of family income. For purposes of this definition, the cost of drugs provided under this chapter shall be considered an expense incurred by the family for eligibility determination purposes.

X. "Secondary discounted price" means the initial discounted price minus any further discounts paid for out of the fund.

XI. "Usual and customary charge" means the charge a pharmacy charges a customer for a prescription drug.

Amend RSA 161-L:2, I as inserted by section 2 of the bill by replacing it with the following:

I. A drug manufacturer or labeler that sells prescription drugs in this state through any other publicly-supported pharmaceutical assistance program may enter into a rebate agreement with the department for this program. The rebate agreement shall require the manufacturer or labeler to make rebate payments to the state each calendar quarter or according to a schedule established by the department.

Amend RSA 161-L:4 as inserted by section 2 of the bill by replacing it with the following:

161-L:4 Nonparticipating Manufacturers and Labelers. The names of manufacturers and labelers who do and do not enter into rebate agreements pursuant to this chapter shall be public information. The department shall release such information to health care providers and the public on a regular basis and shall publicize participation by manufacturers and labelers that is of particular benefit to the public. The department shall impose prior authorization requirements in the program, as permitted by law, to the extent the department determines it is appropriate to do so in order to encourage manufacturer and labeler participation in the program and if the additional prior authorization requirements remain consistent with the goals of the program and the requirements of the federal Social Security Act, Title 19.

Amend RSA 161-L:6 as inserted by section 2 of the bill by replacing it with the following:

161-L:6 Rulemaking. The commissioner shall adopt rules pursuant to RSA 541-A, relative to:

I. Procedures for issuing program enrollment cards.

II. Outreach efforts to build public awareness of the program and to maximize enrollment of eligible residents.

III. Content and format of any forms required under this chapter.

IV. Procedures for entering into rebate agreements with drug manufacturers or labelers.

V. Manner of releasing information to the public under RSA 161-L:4.

Amend the bill by inserting after section 2 the following and renumbering the original sections 3-5 to read as 4-6, respectively:

3 Generic Drugs. Amend RSA 126-A:3, V to read as follows:

V. Pharmacists shall substitute generically equivalent drug products for all legend and non-legend prescriptions paid for by the department of health and human services, including the medicaid program, unless the prescribing practitioner specifies that the brand name drug product is medically necessary. Such notification shall be in the practitioner's own handwriting and shall be retained in the pharmacist's file. ~~[The commissioner may waive the application of RSA 126-A:3, III if the commissioner determines such action is necessary to ensure the availability of prescription and other pharmaceutical services to persons served by the department or to avert serious economic hardship in the provision of prescriptions and other pharmaceutical services. The commissioner shall adopt rules under RSA 541-A relative to a waiver of the application.]~~ *The provisions of paragraph IV shall not apply to the dispensing by a pharmacy for medical assistance reimbursement for legend and non-legend drugs.* The commissioner, in consultation with pharmacy providers, ~~[may develop a new methodology for]~~ *shall establish* medical assistance reimbursement for legend and non-legend drugs.

Majority committee amendment adopted.

Rep. Charles McMahon offered floor amendment (0421h).

Floor Amendment (0421h)

Amend the title of the bill by replacing it with the following:

AN ACT establishing the New Hampshire Rx advantage program and continually appropriating a special fund and relative to the waiting list for services to persons with developmental disabilities and acquired brain disorders and making an appropriation therefor.

Amend the bill by replacing section 6 with the following:

6 Purpose. It is the intention of the general court in sections 6 through 8 of this act to provide sufficient funding to the department of health and human services to ensure that persons who apply for and are eligible to receive services in the state's developmental services system receive such services without undue delay. Therefore, the general court hereby achieves its objective by reducing the time between completion of a preliminary written individual service agreement for persons who have been determined eligible for services and the allocation by the state of the funds needed to carry out the services required by the agreement to no more than 90 days.

7 New Section; Waiting List; Duration Limits. Amend RSA 171-A by inserting after section 1-c the following new section:

171-A:1-d Waiting List; Limits. The department shall provide services to eligible persons under this chapter in a timely manner. The department shall provide services in such a manner that the period between the time of completion of a preliminary written individual service agreement pursuant to RSA 171-A:12 and the allocation by the department of the funds needed to carry out the services required by the agreement shall not exceed 90 days. The department shall make quarterly reports to the oversight committee established by RSA 171-A:1-c, and the oversight committee on health and human services, established by RSA 126-A:13, on the status of the waiting list and compliance with this section.

8 Appropriation; Waiting List. The sum of \$4,100,000 in general funds together with federal matching funds for the fiscal year ending June 30, 2008 and the sum of \$11,900,000 in general funds together with federal matching funds for the fiscal year ending June 30, 2009 are hereby appropriated to the department of health and human services, for the purpose of providing services to persons with developmental disabilities and acquired brain disorders who have applied and have been determined eligible for services and who have been placed on a waiting list for such services. The governor is authorized to draw a warrant for said sums out of any money in the treasury not otherwise appropriated.

9 Effective Date.

I. Sections 6-8 of this act shall take effect July 1, 2007.

II. The remainder of this act shall take effect 60 days after its passage.

AMENDED ANALYSIS

This bill establishes the New Hampshire Rx advantage program for prescription drugs. Under this bill, participating pharmacies shall sell prescription drugs to qualified residents at a discounted price. The bill grants rulemaking authority to the New Hampshire pharmacy board and the commissioner of the department of health and human services for the purposes of the program.

This bill also requires the department of health and human services to provide services to persons with developmental disabilities and acquired brain disorders within 90 days of a preliminary written individual service agreement and makes an appropriation for the purposes of this requirement. The Speaker ruled floor amendment (0421h) non germane.

The question now being adoption of the majority committee report of Ought to Pass with Amendment.

Rep. Wendelboe spoke against and yielded to questions.

Reps. Rosenwald and DeJoie spoke in favor.

On a division vote, 257 members having voted in the affirmative and 95 in the negative, the majority committee report was adopted.

Referred to the Committee on Finance.

HB 721, relative to the appropriation to the department of health and human services for rates paid for nursing services. **OUGHT TO PASS.**

Rep. Thomas E. Donovan for Health, Human Services and Elderly Affairs: This bill pertains to the so called "budget neutrality factor" in both county and private nursing homes. The "budget neutrality factor" is a flat percentage cut in Medicaid reimbursement rates which the Department Of Health and Human Services makes semi-annually when it sets the nursing home rates. The "budget neutrality factor" was created because the complex system which the Department uses to determine rates routinely shows that county and private nursing homes should be paid more than what the Legislature has appropriated in the state budget. However, it turns out that since 2002, the Department has actually been lapsing millions of dollars at the end of the fiscal year out of the nursing home line item in the budget. Just out of fairness, the Department should not on the one hand be telling nursing homes that rates have to be cut because there is not enough money in the budget, and then on the other hand be lapsing millions of dollars because the Department says that there is a surplus in the nursing home appropriation. Vote 14-2.

Committee report adopted.

Referred to the Committee on Finance.

HB 222, relative to residency requirements for members appointed to historic district or heritage commissions. **MAJORITY: INEXPEDIENT TO LEGISLATE. MINORITY: OUGHT TO PASS WITH AMENDMENT.**

Rep. Larry Brown for the Majority of Municipal and County Government: The committee was appreciative of the goal and purpose of the bill and of the willingness of non-residents to serve on historic commissions in communities where they have a "demonstrated interest and ability." However, it was the opinion of the majority that the rights of the residents of a municipality should not be diluted by extending any voting privileges to non residents. The bill, as presented, does not provide for a permissive enabling vote of the local legislative body prior to its implementation. Vote 13-4.

Rep. Mary R. Cooney for the Minority of Municipal and County Government: This bill was brought forward with the simple intent of allowing one non-resident to be appointed to an historic district or heritage commission as long as that person had interest in serving and owned property in that municipality. The argument that this would be heading down a slippery slope seemed somewhat over blown, considering the limited power of one vote on one commission.

Majority committee report adopted.

HB 456, limiting liability for town health officers when acting in the course of their official duties. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Betsey L. Patten for Municipal and County Government: Health officers are appointed by the Commissioner of the Department of Health and Human Services as recommended by the town selectmen per RSA 128. However, if the selectmen do not recommend a health officer the commissioner may appoint without recommendation. The health officer serves as a liaison between state officials and the local community. Some of their duties are to inspect daycare/foster homes,

septic system failures, drinking water facilities, swimming places, along with inspection of schools, homes, slaughterhouses and tattoo parlors. The committee heard testimony that a health officer was sued in Dublin because of a septic system failure. Neither the town nor the state supported the health inspector in the court case. The health officer is currently waiting for a ruling from the Attorney General. In our litigious society, if there is any question about indemnification for our local officials or employees the statute should be explicit. The amendment includes the overseers of public welfare to those who are indemnified. Vote 14-3.

Amendment (0278h)

Amend the title of the bill by replacing it with the following:

AN ACT limiting liability for town health officers and overseers of public welfare when acting in the course of their official duties.

Amend the bill by replacing section 1 with the following:

1 Health Officers and Overseers of Public Welfare; Liability. Amend RSA 31:104 to read as follows:

31:104 Liability of Municipal Executives. Notwithstanding any provisions of law to the contrary, no member of the governing board of any municipal corporation or political subdivision[?], no member of any other board, commission, or bureau of any municipal corporation or political subdivision created or existing pursuant to a statute or charter, and no chief executive officer of such municipal corporation or political subdivision, including but not limited to city councilors and aldermen, selectmen, county convention members, members of boards of adjustment, members of planning boards, school board members, mayors, city managers, town managers, county commissioners, regional planning commissioners, *town health officers, overseers of public welfare*, and school superintendents shall be held liable for civil damages for any vote, resolution, or decision made by said person acting in his *or her* official capacity in good faith and within the scope of his *or her* authority.

AMENDED ANALYSIS

This bill limits liability for town health officers and overseers of public welfare when acting in the course of their official duties.

Amendment adopted.

Committee report adopted and ordered to third reading.

HB 412-FN-A, relative to a new bridge connecting Hampton and Seabrook and making an appropriation therefor. **INEXPEDIENT TO LEGISLATE.**

Rep. John A. Graham for Public Works and Highways: This bill would have authorized the design and building of a bridge outside of the normal ten-year planning process. Additionally, the bill would have bonded the \$8,000,000 state share of the cost of the bridge, with repayment of the bond to come from the state's general fund. The committee was unanimous in rejecting this proposal for two reasons. One, we believe that all highway projects should be part of the 10-Year Plan and not as special legislation. Two, bonding for highway projects should be repaid from either the highway fund or the turnpike fund. The Department of Transportation stated that they were already in discussions with the concerned parties on the need and design of this bridge. Vote 18-0. Committee report adopted.

HB 663-FN-A, making an appropriation to implement the comprehensive shoreland protection act. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Sid Lovett for Resources, Recreation and Development: The committee, in support of the recommendations of the commission studying the Comprehensive Shoreland Protection Act, chose to recommend a permit fee process to fund the needed additional staff to manage the shoreland protection program. This is similar to the DES fee program for wetland protection. Enforcement and outreach is difficult with the current staff of only 2 persons. A permit program would also provide the landowner with notice of what actions can be taken within the 250 foot shoreland zone. Vote 14-3.

Amendment (0380h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to the comprehensive shoreland protection act and making an appropriation therefor.

Amend the bill by replacing all after section 1 with the following:

2 New Section; Permit Required. Amend RSA 483-B by inserting after section 5 the following new section:

483-B:5-a Permit Required. No person shall commence construction activities within the protected shoreland without obtaining a permit from the department to ensure compliance with this chapter. The permit application fee shall be \$100 plus \$.10 per square foot of area affected by the proposed construction activities.

3 New Paragraph; Rulemaking. Amend RSA 483-B:17 by inserting after paragraph X the following new paragraph:

XI. Permitting procedures under RSA 483-B:5-a.

4 Effective Date.

I. Section 2 of this act shall take effect January 1, 2008.

II. The remainder of this act shall take effect July 1, 2007

AMENDED ANALYSIS

This bill:

I. Makes an appropriation to fund implementation of the comprehensive shoreland protection act.

II. Requires a permit prior to commencement of construction within the protected shoreland.

Amendment adopted.

Committee report adopted.

Referred to the Committee on Finance.

HB 310, allowing municipalities to regulate wind turbines used for home energy production. **OUGHT TO PASS WITH AMENDMENT.**

Rep. William V. Chase for Science, Technology and Energy: This bill creates a framework for zoning and planning boards of municipalities to address issues regarding the installation of renewable wind energy facilities in their communities. As amended, the bill states that municipalities shall not unreasonably restrict wind tower height or system height through the application of generic ordinances or regulations that do not specifically address small wind energy systems. The "Declaration of Purpose" section of the Planning and Zoning Statute, RSA 672:1 will be amended to read "the installation of solar, wind, or other renewable energy systems or the building of structures that facilitate the collection of renewable energy shall not be unreasonably limited by the use of municipal zoning powers or by the unreasonable interpretation of such powers, except where necessary to protect the public health, safety, and welfare." The bill directs the Office of Energy and Planning to develop a technical bulletin relative to model municipal ordinances for the construction of small wind energy systems. Vote 14-2.

Amendment (0268h)

Amend the title of this bill by replacing it with the following:

AN ACT allowing municipalities to regulate small wind energy systems.

Amend the bill by replacing all after the enacting clause with the following:

1 New Subdivision; Small Wind Energy Systems. Amend RSA 674 by inserting after section 57 the following new subdivision:

Small Wind Energy Systems

674:58 Definitions. In this subdivision:

I. "Small wind energy system" means a wind energy conversion system consisting of a wind turbine, a tower, and associated control or conversion electronics, which has a rated capacity consistent with the net metering specifications of RSA 362-A:9 and which will be used primarily for onsite consumption.

II. "System height" means the height above grade of the tower plus the wind generator.

III. "Tower height" means the height above grade of the fixed portion of the tower, excluding the wind generator.

IV. "Wind generator" means blades and associated mechanical and electrical conversion components mounted on top of the tower.

674:59 Municipal Regulations of Small Wind Energy Systems. Ordinances or regulations adopted by municipalities to regulate the installation and operation of small wind energy systems shall not unreasonably limit such installations or unreasonably hinder the performance of such installations. Unreasonable limits or hindrances to performance shall include the following:

I. Restricting tower height or system height through application of a generic ordinance or regulation on height that does not specifically address allowable tower height or system height of a small wind energy system.

II. Requiring a setback from property boundaries for a tower greater than 110 percent of the system height, or greater than 220 percent of the system height if any abutting landowner disapproves of the system's installation.

III. Setting a noise level limit lower than 60 decibels, as measured at the closest neighboring inhabited dwelling, or not allowing for limit overages during short-term events such as utility outages and severe wind storms.

IV. Setting electrical or structural design criteria that exceed applicable state, federal or international building or electrical codes or laws.

674:60 Aviation Requirements. Small wind energy systems shall be built to comply with all applicable Federal Aviation Administration requirements, including 14 C.F.R. part 77, subpart B regarding installations close to airports, and the airport zoning regulations adopted under RSA 424:5.

674:61 Abandonment. A small wind energy system that is out-of-service for a continuous 12-month period shall be deemed abandoned. The planning board administrator may issue a notice of abandonment to the owner of an abandoned small wind energy system. The owner shall have the right to respond to the notice of abandonment within 30 days from the receipt date. The planning board shall withdraw the notice of abandonment and notify the owner that the notice has been withdrawn if the owner provides the planning board with information demonstrating the small wind energy system has not been abandoned. If the small wind energy system is determined to be abandoned, the owner of the small wind energy system shall remove the wind generator from the tower at the owner's sole expense within 3 months of receipt of notice of abandonment. If the owner fails to remove the wind generator from the tower, the administrator may pursue a legal action to have the wind generator removed at the owner's expense.

2 Renewable Energy; Zoning. Amend RSA 672:1, III-a to read as follows:

III-a. Proper regulations encourage energy efficient patterns of development, the use of solar energy, including adequate access to direct sunlight for solar energy uses, and the use of other renewable forms of energy, and energy conservation. Therefore, ~~[zoning ordinances should not unreasonably limit]~~ the installation of solar, wind, or other renewable energy systems or the building of structures that facilitate the collection of renewable energy *shall not be unreasonably limited by use of municipal zoning powers or by the unreasonable interpretation of such powers* except where necessary to protect the public health, safety, and welfare;

3 Renewable Energy; Zoning. Amend RSA 672:1, III-d to read as follows:

III-d. For purposes of paragraphs *III-a*, III-b, III-c, and III-e, "unreasonable interpretation" includes the failure of local land use authorities to recognize that agriculture, forestry, *renewable energy systems*, and commercial and recreational fisheries, when practiced in accordance with applicable laws and regulations, are traditional, fundamental and accessory uses of land throughout New Hampshire, and that a prohibition upon these uses cannot necessarily be inferred from the failure of an ordinance or regulation to address them;

4 New Section; Model Ordinance. Amend RSA 4-C by inserting after section 5 the following new section:

4-C:5-a Model Ordinance. The director of the office of energy and planning shall develop a technical bulletin relative to model municipal ordinances for the construction of small wind energy systems. Prior to development, the director shall hold one or more public hearings and solicit comments from interested parties. The office shall provide a copy of the technical bulletin to any New Hampshire municipality that requests it.

5 Effective Date. This act shall take effect 60 days after its passage.

AMENDED ANALYSIS

This bill allows municipalities to regulate small wind energy systems.

Amendment adopted.

Committee report adopted.

Rep. Peter Allen declared a conflict of interest on **HB 310** and did not participate.

Referred to the Committee on Municipal and County Government.

HB 476, relative to membership on the public utilities commission. **INEXPEDIENT TO LEGISLATE.**

Rep. Gene F. Andersen for Science, Technology and Energy: Current law states that of the three commissioners to the public utility commission, one shall be an attorney and member of the New Hampshire bar and one shall have background or experience in one or more of the following: engineering, economics, accounting or finance. This bill would require that the commissioners be composed of: one attorney and member of the NH bar (no experiences noted for attorney), one engineer with experience with a public utility and one accountant (no experience noted for accountant). The bill's sponsors felt that these disciplines were necessary to do the job. The majority of the committee felt that it was experience and not just education that was the essential element for membership on the PUC and that staff will provide information required for educational disciplines. The majority feels strongly that we do not want to limit the field of candidates based on an educational requirement unrelated to a lifetime of experience and achievement. Vote 11-5. Committee report adopted.

HB 528-FN, expanding the enhanced 911 system surcharge to providers of devices and services capable of accessing enhanced 911 service in New Hampshire. **INEXPEDIENT TO LEGISLATE.** Rep. James M. Garrity for Science, Technology and Energy: This bill was requested by the NH Dept. of Safety's Division of Emergency Services, Communications and Management. This is the division which operates the enhanced 911, or E-911, system. The division realizes that telephone and communications technologies are changing rapidly. It fears that the traditional land-line telephone population will increasingly be replaced by telephone services using VoIP (Voice over Internet Protocol) technologies. It must be remembered that the E-911 system is primarily financed by a monthly surcharge on each telephone (currently 64 cents). As more NH customers switch to VoIP, the division feels that the VoIP telephony providers may not pay the surcharge, and, eventually, the E-911 revenue would decline year-on-year. The committee majority understood the issue, but felt that this bill was not the correct way to address it at this time. The reasons for the ITL were as follows: 1) The VoIP market and technologies are still developing and we want to wait for it to become more mature in order to assess the potential impact on the E-911 fund. 2) Currently, the leading VoIP telephony providers in NH are either negotiating with the division to pay the E-911 surcharge (in the case of Vonage), or already doing so (in the case of proprietary cable-broadband-VoIP companies). 3) Although the number of land-lines in NH continues to decrease, the number of cell phones continues to increase. According to the division, the E-911 surcharge is being collected from 800,000 land lines and 600,000 cellular-wireless lines. 4) The bill also tried to assess the E-911 surcharge on pre-paid calling cards and "each device or service capable of providing access to 911." The committee felt that was too broad and identification and collection from non-traditional providers would be difficult to enforce. 5) No specific financial forecast numbers could be provided. To quote the Fiscal Note, "The Department states it cannot estimate the increase in state restricted revenue to the enhanced 911 system fund because it does not know how many entities supply devices or services capable of contacting 911 but are not paying the surcharge, or how many entities might be created in the future that would have this capability." 6) Public policy dealing with funding sources should be based on solid financial estimates, not on hunches. 7) Finally, the committee majority feels that the perceived problem is not imminent, and there is time to observe the changing communications market and make policy adjustments in the future. Vote 14-2. Committee report adopted.

HB 221, removing the requirement that the department of transportation report certain information relative to highway activity to the department of administrative services. **OUGHT TO PASS.** Rep. Robert W. Williams for Transportation: This bill amends RSA 9:4-d simply by adding the words, "except the department of transportation." The Department of Administrative Services already has the required information. It would take the Department of Transportation another day to fill out the report form required by RSA 9:4-d. This bill has nothing to do with the audit. Vote 14-3. Committee report adopted. Referred to the Committee on Finance.

HB 90, establishing a committee to study the feasibility of imposing a luxury sales tax and an amusements tax. **INEXPEDIENT TO LEGISLATE.**

Rep. Michael D. Brunelle for Ways and Means: Although not opposed to examining the issue, the committee felt that the feasibility of imposing a luxury sales tax and an amusements tax should not be studied exclusively, but in conjunction with an education funding study committee established by HB 145. This bill, which was retained by the committee, will explore unexploited revenue sources for the purpose of funding education, including this one. Vote 16-2. Committee report adopted.

SPECIAL ORDERED

Without objection, the Speaker ordered the remainder of the bills on today's calendar to be made Special Orders for the next session day in their Regular Calendar order.

RESOLUTION

Rep. Wallner offered the following: **RESOLVED**, that the House now adjourn from the early session, that the business of the late session be in order at the present time, that the reading of bills be by title only and resolutions by caption only and that all bills ordered to third reading be read a third time by this resolution, and that all titles of bills be the same as adopted, and that they be passed at the present time, and when the House adjourns today it be to meet Wednesday, March 7, 2007 at 10:00 a.m.
Adopted.

LATE SESSION

Third reading and final passage

HB 93, relative to use of the child support guidelines worksheet.

HB 94, relative to overpayments of child support.

HB 240, relative to the amount of child support arrearage triggering the denial of a passport.

HB 292, relative to consideration of the preference of a mature minor in the modification of parental rights and responsibilities.

HB 323, establishing a committee to study liquor commission revenues, enforcement, and training.

HB 409, relative to liquor licenses for sports recreation facilities.

HB 194, relative to laboratories conducting alcohol concentration tests.

HB 227, relative to identity theft.

HB 37, relative to notification requirements for criminal offenders.

HB 120, relative to extending polling hours.

HB 146, relative to nicknames on ballots.

HB 236, relative to the use of "farmer's markets" in trade names.

HB 135, establishing the second Sunday in October as Firefighters Memorial Day.

HB 249, relative to preliminary objections to rules made by the joint legislative committee on administrative rules, and relative to extending the study committee on the rules process.

HB 362, relative to the advisory committee on quality of vital records information.

HB 439, relative to certain rulemaking authority of the commissioner of environmental services.

HB 482, adding the song "Live Free or Die" as an official state song.

HB 59, relative to crossbow hunting by a person with a disability.

HB 248, eliminating separate dedicated accounts in the fish and game department and transferring the sums into the fish and game fund.

HB 517, establishing a commission to investigate cost drivers in providing health care.

HB 723, extending the moratoriums on nursing home beds and rehabilitation.

HB 218, relative to chief firewards, engineers, or fire chiefs.

HB 226, relative to the investment of trust funds.

HB 418, relative to RV friendly highway signs.

HB 466-L, relative to removal of vehicles from state park and ride lots.

HB 144, relative to operation of boats on Spectacle Pond.

HB 216, establishing a commission to study the causes, effects, and remediation of siltation in the Great Bay Estuary.

HB 458, relative to the exemption of replacement or redundant wells from the large groundwater withdrawal permitting process.

HB 468, relative to establishing the freedom's way heritage area and commission.

HB 119, relative to the sunset provision of the system benefits charge.

HB 202, relative to a point system for automobile dealer and inspection station violations.

HB 209, relative to eligibility for farm plates.

HB 351, clarifying that the definition of “overseas business organization” includes all foreign incorporated business organizations and all 80/20 business organizations, and redefining “business activity” for purposes of the business profits tax.

HB 372-FN-A, exempting motor vehicles equipped and used for transporting disabled persons from the tax on rental of motor vehicles.

HB 102, defining “food” for purposes of the alcoholic beverages laws.

HB 155, relative to membership of the state building code review board.

HB 456, limiting liability for town health officers and overseers of public welfare when acting in the course of their official duties.

UNANIMOUS CONSENT

Rep. John Thomas addressed the House.

MOTION TO PRINT REMARKS

Rep. Phinizy moved that the remarks of Rep. John Thomas be printed in the Permanent Journal. Adopted.

REMARKS

Rep. John Thomas: I rise today to talk about tradition and symbolism. One symbol of this House was Rep. Alf Jacobson. Some of you may remember Alf, who was self described as “just a poor country boy.” For over 20 years, Alf carried on a tradition of salutation at this time of year.

Alf was part of this nation’s history. As a young Marine in February and March of 1945, Alf, with his Marine unit, stormed the beaches of Iwo Jima and every year as a tradition he would salute those comrades of his in this, the people’s house.

Although just a speck on the Pacific Ocean, the battle for the tiny island of Iwo Jima possessed enormous strategic and symbolic importance for both Japan and the U.S. Strategically, the U.S. needed to oust the Japanese and take possession of the island’s airstrips for use in bombing the Japanese mainland. Symbolically, the first U.S. Marines to splash ashore did something that had not happened in 5 millennia of Japanese history – they were foreign warriors treading Japanese soil. The island was Japanese home turf, lying some 650 miles from Tokyo; it was virtually sacred ground and the defenders were ordered to die holding it.

Those waterlogged Marines, brave and dying in pre-planned, pre-positioned fields of fire, cracked the façade of Japanese invulnerability over weeks of no-holds barred hand to hand fighting, famously described as a time when “uncommon valor was a common virtue.”

Four miles long, shaped like a pork chop, covering 8 square miles there were no front lines, no rear and every inch a battleground.

As the Marines could not dig foxholes in the volcanic rock, they were sitting ducks. Every Marine was a target. In the 36 days of fighting there were 25,851 U.S. casualties. Of these, 6825 Marines were killed. Virtually all of the 22,000 Japanese defenders perished. There were more Marines who earned the Congressional Medal of Honor on Iwo than in any other battle in U.S. history. Yes, uncommon valor was a common virtue.

Let’s talk about tradition - Marine tradition. The blood red stripe on the Marine’s dress blue uniform trousers comes from the Marine blood shed at the Halls of Montezuma. The malimuke sword worn and used in Marine ceremonies came from the Shores of Tripoli. The term leatherneck comes from the high leather collar of old used to repel saber slashes. The Germans of WWI tagged a term on the Marines because they “fought like Devil Dogs.”

There is another traditional symbol that indicates Marines and that is one of the most recognized symbols in our history, the raising of the U.S. flag on Mount Suribachi during that bloody fight on Iwo Jima. Five Marines and a Navy corpsman raised that flag after days of trying to take that hill. Those six warriors are immortalized in the book, *Flags of Our Fathers* by the son of the corpsman. Allow me to tell you of their fates.

Sgt. Mike Strank led the men to the top. Sgt. Strank was killed by mortar fire on March 1st on Iwo. He is buried in Arlington National Cemetery.

Cpl. Harlon Block was second in command of the squad. Harlon was killed just hours after Mike by mortar fire. He is buried next to the Iwo Jima memorial in Harlingen, Texas.

Franklyn Sousley of Hilltop, Kentucky was killed on Iwo on March 21st and is buried in Elizaville, Kentucky.

Pvt. Ira Hayes, a Pima Indian from Sacaton, Arkansas had never been off the reservation before going into the Corps. Ira died in 1954 at the age of 34.

Pfc. Rene Gagnon of Manchester, New Hampshire was the youngest of the six and carried the flag to the top. Rene is honored in a special room at the Wright Museum in Wolfeboro, New Hampshire. He is buried in Arlington National Cemetery.

"Doc" Bradley was a Navy corpsman who just jumped in to help. He won the Navy Cross for heroism and was wounded in both legs on Iwo. He died at home in 1994 at the age of 70 and was the father of the author of *Flags of Our Fathers*.

Much has been written of that famous island but most remember the memorial statue of that time of death as a symbol of American patriotism and valor.

Suribachi is silent today but still looks over the volcanic sands of those beaches. The small memorial at the top looks over the thousands who died and never left. We as a nation should never forget our symbols, our traditions of honoring those who served.

Thank you, Madam Speaker.

RECESS MOTION

Rep. Wallner moved that the House stand in recess for the purpose of introduction of bills and receiving Senate messages.

Adopted.

The House recessed at 3:20 p.m.

RECESS

(Rep. Chandler in the Chair)

RESOLUTION

Rep. Whalley offered the following: **RESOLVED**, that late drafting and introduction having been approved by the Rules Committee, House Bills numbered 1 and 25 shall be by this resolution read a first and second time by the therein listed titles, sent for printing and referred to the therein designated committees.

Adopted.

INTRODUCTION OF HOUSE BILLS

First, second reading and referral

HB 1-A, making appropriations for the expenses of certain departments of the state for fiscal years ending June 30, 2008 and June 30, 2009. (M. Smith, Straf 7: Finance)

HB 25-FN-A, making appropriations for capital improvements. (Bouchard, Merr 11: Public Works and Highways)

RECESS

(Speaker Norelli in the Chair)

Rep. Wallner moved that the House adjourn.

Adopted.

HOUSE JOURNAL No. 8

Wednesday, March 7, 2007

The House assembled at 10:00 a.m., the hour to which it stood adjourned, and was called to order by the Speaker.

Prayer was offered by the member from Concord, Representative Frances Potter.

A moment of quiet to name in our hearts those dear to us who are far away and those who look to us for help in trouble.

Holy and gracious God, Creator of all that is seen and unseen. You have made the universe with its wondrous order; worlds and galaxies and the marvels of living beings. You have given us grace to be fellow workers in Your creation. Grant us guidance, reverence and wisdom as we work for the well being of the people we are committed to serve. We give thanks for our companionship with one another. May we be strengthened by Your grace in all that we do this day. Amen.

Rep. Fred King, member from Colebrook, led the Pledge of Allegiance.

The National Anthem was sung by Kaleb Wells, a freshman at Pinkerton Academy in Derry and grandson of Representative Wells.

LEAVES OF ABSENCE

Reps. Beauchesne, Belanger, George Brown, Peter Cote, Gile, Heald, Hofemann, Stephen Johnson, Jane Kelley, Laliberte, Lasky, Loll and Oliver, the day, illness.

Reps. Buxton, Charles Clark, Drisko, Donald Flanders, Hawkins, Hubbard, Sally Kelly, McGuirk, McRae, Nagle and Rochette, the day, important business.

Rep. Hutchinson, the day, illness in the family.

Rep. Pilotte, the day, death in the family.

INTRODUCTION OF GUESTS

Donna Proulx and Lizabeth Auth, guests of Rep. Francis Sullivan. Dan and Erika Wells, Trevor and Jameson Wells and Taylor Misiak, family and friend of the singer, guests of the House. Hon. Sandra Keans, former Member from Rochester, guest of the Speaker. K.A. Brett School fourth graders from Tamworth, guests of the Tamworth Delegation.

INTRODUCTION OF SPECIAL GUESTS

The Londonderry Middle School Girls Field Hockey Team scored a total of 34 goals this season, while allowing only 6. They compiled an overall record of 12 wins, 0 losses and 1 tie on their way to winning the 2006 Class M Tri-County State Championship. They were accompanied by head coach, Heather Bouchard, daughter of Rep. Winchell, guests of the House.

The Londonderry Middle School Girls Basketball Team scored an average of 47 points per game with six games of 50 or more points. They finished the season with 14 wins and one loss while winning the 2006-2007 Class L Tri-County State Championship. They were accompanied by head coach, Andy Brown and assistant coach Russell Love, guests of the House.

MOTION TO VACATE

Rep. Almy moved that the House vacate the reference of **HB 911**, establishing an automated external defibrillator trust fund and making an appropriation therefor, to the Committee on Ways and Means. Adopted.

The Speaker referred **HB 911** to the Committee on Finance.

SPECIAL ORDERS - REGULAR CALENDAR

HB 184, repealing the parental notification law. **MAJORITY: OUGHT TO PASS. MINORITY: OUGHT TO PASS WITH AMENDMENT.**

Rep. Bette R. Lasky for the Majority of Judiciary: This bill seeks to repeal RSA 132:24-28 first enacted by HB 763, Chapter 173, Laws of 2003 and scheduled to become effective December 31, 2003. Before the effective date, Planned Parenthood of Northern New England and 3 other plaintiffs brought suit in the United States District Court for the District of New Hampshire to have the

new law declared unconstitutional and prevent it from being enforced. Since then, three courts, the United States Supreme Court, the First Circuit Court of Appeals and the Federal District Court for the District of New Hampshire have all found that RSA 132:24-28 is unconstitutional. The law has never been in effect because the State has been permanently enjoined from implementing it. The Judiciary Committee feels that this legislature should repeal this law and that no more legal or judicial resources should be expended. An unconstitutional law should not be the foundation for any further legislative action. The committee believes that the best course now is to repeal the existing law and allow this legislature, if it should so desire, to bring forth a new bill that is built on consensus, rather than demands from the courts, and that will protect a woman's right to safe and sound reproductive health. Vote 12-5.

Rep. David J. Bettencourt for the Minority of Judiciary: Proponents of the repeal cited two reasons to repeal the parental notification statute: 1. The constitutional question raised by the U.S. Supreme Court in the case of a "health emergency" when there is no time to notify a parent; and 2. If it is not repealed, it is wrong for a judge to write language to address the constitutional amendment. The Supreme Court ruled that the lower courts erred in ruling N.H.'s parental notification law wholly unconstitutional. The Court upheld the N.H. statute, but remanded the question on an emergency health exception back to the lower court. Emergency health exceptions in states required to keep data account for less than 1% of teen abortions. An amendment was presented that addressed both of these concerns. The language defining an "emergency health exception" in the amendment has already been tested by the U.S. Supreme Court in *Planned Parenthood v. Casey*, 505 U.S. 833, 112 S.Ct. 2791 (1992) – a challenge of the Pennsylvania law. The Court, in upholding *Casey*'s "emergency health exception" observed "the Pennsylvania legislature in crafting this language clearly demonstrates they know how to define an emergency health exception." There is a judicial bypass in the N.H. statute for mature teens or those in abusive situations. The proposed amendment also clarifies 24/7 access to a judge in the bypass process as well as assures confidentiality.

Rep. Wendelboe offered minority amendment (0400h).

Minority Amendment (0400h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to the parental notification law.

Amend the bill by replacing all after the enacting clause with the following:

1 New Paragraph; Definition Added. Amend RSA 132:24 by inserting after paragraph V the following new paragraph:

V-a. "Medical emergency" means that condition which, on the basis of the physician's good faith clinical judgment, so complicates the medical condition of a pregnant woman as to necessitate the immediate abortion of her pregnancy to avert her death or for which a delay will create serious risk of substantial and irreversible impairment of major bodily function.

2 Medical Emergency Provision Added. RSA 132:26, I(a) is repealed and reenacted to read as follows:

(a) The attending abortion provider certifies in the pregnant minor's medical record that there exists a medical emergency, as defined in RSA 132:24, V-a; or

3 Waiver of Notice; 24-Hour Access. Amend RSA 132:26, II to read as follows:

II. If such a pregnant minor elects not to allow the notification of her parent or guardian or conservator, any judge of a court of competent jurisdiction shall, upon petition, or motion, and after an appropriate hearing, authorize an abortion provider to perform the abortion if said judge determines that the pregnant minor is mature and capable of giving informed consent to the proposed abortion. If said judge determines that the pregnant minor is not mature, or if the pregnant minor does not claim to be mature, the judge shall determine whether the performance of an abortion upon her without notification of her parent, guardian, or conservator would be in her best interests and shall authorize an abortion provider to perform the abortion without such notification if said judge concludes that the pregnant minor's best interests would be served thereby. *Access to a judge for the purposes of this paragraph shall be afforded such a pregnant minor 24 hours a day, 7 days a week. All proceedings conducted pursuant to this section shall be confidential.*

4 Effective Date. This act shall take effect upon its passage.

AMENDED ANALYSIS

This bill adds a medical emergency exception to the parental notification prior to abortion law. This bill also affords the pregnant minor 24-hour access to a judge for waiver of notification purposes.

Rep. Gary Richardson spoke against.

Reps. Wendelboe, Garcia, David Smith, Mooney and Mark Clark spoke in favor.

Rep. Itse requested a roll call; sufficiently seconded.

and minority amendment (0400h) failed.

Rep. Kurk offered floor amendment (0466h).

Floor Amendment (0466h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to the parental notification law.

Amend the bill by replacing all after the enacting clause with the following:

1 New Paragraph; Definition Added. Amend RSA 132:24 by inserting after paragraph V the following new paragraph:

V-a. "Medical emergency" means that condition which, on the basis of the physician's good faith clinical judgment, so complicates the medical condition of a pregnant woman as to necessitate the immediate abortion of her pregnancy to avert her death or for which a delay will create serious risk of substantial and irreversible impairment of major bodily function.

2 Exceptions Added. RSA 132:26, I is repealed and reenacted to read as follows:

I. No notice shall be required under RSA 132:25 if:

(a) The attending abortion provider certifies in the pregnant minor's medical record that there exists a medical emergency;

(b) In the medical judgment of the attending physician and another licensed physician unaffiliated with the attending physician, based on the particular facts of the case before them, it is necessary to preserve the health of the mother; or

(c) The person or persons who are entitled to notice certify in writing that they have been notified.

3 Effective Date. This act shall take effect upon its passage.

AMENDED ANALYSIS

This bill adds a health exception and a medical emergency exception to the parental notification law.

Rep. Dokmo spoke against.

Rep. Kurk spoke in favor.

Rep. Itse requested a roll call; sufficiently seconded.

and the majority committee report was adopted.

Ordered to third reading.

Rep. Ingram voted Yea and intended to vote Nay.

Rep. Weare did not vote and notified the Clerk that he wished to be recorded against.

PROTEST

Pursuant to Part 2, Article 24 of the New Hampshire Constitution, the following protest was presented to be entered in the Permanent Journal.

Whereas, HB 184, deprives children the protection of their parents and,

Whereas HB 184, repudiates the well recognized rights of parents of our state without any due process of law and,

Whereas HB 184 denigrates parental responsibility, well established in the finest traditions of this state and,

Whereas HB 184 endangers the children of this state by allowing any child of any age to undergo a surgical procedure which may result in permanent physical and emotional harm and,

Whereas HB 184 imputes incompetence, irresponsibility and ill parenting skills to all parents of this state and,

Whereas HB 184 allows children who may not drive, vote or be administered an over-the-counter medicine, without their parents' consent, and/or to undergo surgical procedures without any parental notice,

I therefore find HB 184 to be repugnant to the New Hampshire Constitution, disruptive of the protective and loving parent-child relationship, insulting to all the parents of this state, and inconsistent with the welfare and health of our children. Because of this, I am compelled to respectfully protest the action of this august House under Part II, Article 24 of the New Hampshire Constitu-

tion and request the entry of my protest concerning the New Hampshire House of Representative's action today on HB 184 in the Permanent Journal of the House as provided therein. Respectfully, Reps. James Garrity, Ahlgren, Sanders, Gionet, Tobin, Hogan, Charles McMahon, Franklin Tilton, Introne, Nowe, Benjamin Moore, Boyce, Ingbretson, Sorg, Emiro, Bergeron, Winchell, Reed, Charron, Bulis, Hinkle, Humphries, Martin, Garcia, Lund, Francoeur, Ulery, Mark Clark, Mary Allen, Rodeschin, Lars Christiansen, Camm, Itse, Carolyn Brown, Carson, Phyllis Katsakiores, Lessard, Dingman, Welch, Bettencourt, Wendelboe, Infantine, Stevens, Soucy, Jasper, Hopfgarten, Batula, Chris Christensen, Villeneuve, Bedrick, Fesh, L'Heureux, Marshall Quandt, Renzullo, Weyler, Packard, Kappler, Emerson, Russell Day, Reagan, Crane, Daniels, Hunter, Lawrence, Nancy Elliott, Lynne Ober, Bishop, Tahir, Barry, Devine, Baldasaro, Denley, Stepanek, Haefner, Pearson, Waterhouse, Heald, Mooney, John Flanders, Coughlin, Rowe, John Thomas, Forsing, Hansen, Dumaine, Ingram, Manney, Reeves, Griffin, Priestley and Guthrie.

MOTION TO PRINT DEBATE

Rep. Rowe moved that the debate on **HB 184**, repealing the parental notification law, be printed in the Permanent Journal.

Rep. Vaillancourt spoke against.

Rep. Itse spoke in favor and yielded to questions.

Rep. Rowe requested a roll call; sufficiently seconded.

SPECIAL ORDERS - REGULAR CALENDAR (CONT'D)

HB 868-FN, relative to a surcharge on recording documents with the register of deeds to fund the land and community heritage investment program. **MAJORITY: INEXPEDIENT TO LEGISLATE. MINORITY: OUGHT TO PASS.**

Rep. Betsey L. Patten for the Majority of Municipal and County Government: The Land and Community Heritage Investment Program, LCHIP, is a well-established program supported by many New Hampshire citizens. HB 2, the budget trailer bill, has included budgeted funds for LCHIP for the last three years. The Governor, in his budget addresses included funding for LCHIP in the amount of \$12 million. Now, this bill is seeking funding for LCHIP through a new \$40 surcharge for each recording (or page) at the Registry of Deeds. For example, a person who goes through a real estate transaction with a three-page deed may expect to pay at least \$120 for the deed. New Hampshire has the highest real estate transfer tax in the country, and this would be an additional tax above and beyond the already high fees our citizens pay. This is a guaranteed and dedicated

cash flow for LCHIP. The majority of County Registrars of Deeds are opposed to this legislation, adding that it would be an unworkable system to administer, both cost and time-wise. While taking no direct position on the bill, the Department of Revenue Administration had several questions relating to how this tax could be implemented, including but not limited to the use of public money going to private funds with no oversight and loopholes such as transfers to spouses. While many of the majority support the goals of LCHIP, they do not agree with a dedicated funding source in our state where our constituents have many needs, including but not limited to such areas as housing and health care costs, which are also partially funded by the state but with no dedicated revenue stream. The budget process should consider all priorities and needs of our constituents and this bill is proposing to remove LCHIP from that process with a dedicated funding revenue stream. Vote 9-8.

Rep. Anthony F. Simon for the Minority of Municipal and County Government: LCHIP, as originally enacted, represents a partnership among the state, municipalities and other entities to protect priority natural, cultural and historic resources. For every dollar of state funding made available through LCHIP, on average, approximately six additional dollars have been leveraged for projects protected to date. The minority feels that LCHIP serves as a great catalyst for projects which help to preserve local identity through community master planning and the work of municipal planning boards, conservation commissions and others. LCHIP has the support of many New Hampshire residents. Despite having been in existence for merely eight years, LCHIP has had a significant impact on efforts to protect our treasured land and cultural resources. The minority believes that, although \$12 million dollars has been allocated in the governor's budget, this line item has the potential to be greatly reduced, owing to revenue predictions as well as the need to fund other critical state programs. HB 868 proposes a dedicated funding source that will provide LCHIP with a relatively consistent level of funding. HB 868 proposes generating revenues for LCHIP through a surcharge on recording documents with the register of deeds. The minority acknowledges that there are other ideas being put forward to fund the program. However, the surcharge proposed in HB 868 represents an appropriate source of funding considering the intent and purpose of LCHIP. The minority recognizes that this bill needs to be amended to address several outstanding technical issues – all of which fall within the purview of another committee. These include clarification of appropriate procedures for handling and tracking the funds that are raised, authorization of appropriate officials and offices to receive and disburse these funds and clarification that the charges to be made are based on entire documents and not on individual pages within a document. Further discussion among registers of deeds, Department of Revenue Administration officials and legislators are already underway to address the concerns raised. The minority strongly believes in the approach of this bill and is confident that it can be modified in a timely fashion to accomplish its objective. HB 868 is the long-term solution needed to identify a funding source, which has been sought in recent years, for this important program.

Reps. Kurk and Foose spoke against and yielded to questions.

Reps. Robert Elliott and Peterson spoke in favor.

Rep. Sorg requested a roll call; sufficiently seconded.

and the motion was adopted.

Rep. Grote voted Nay and intended to vote Yea.

Rep. Solomon voted Yea and intended to vote Nay.

Rep. Weare did not vote and notified the Clerk that he wished to be recorded against.

Referred to the Committee on Ways and Means.

The House recessed at 1:20 p.m.

(Speaker Norelli in the Chair)

The House reconvened at 2:30 p.m.

SPECIAL ORDERS - REGULAR CALENDAR (CONT'D)

HCR 4, endorsing the placement of a New Hampshire Air Force Memorial at the veterans cemetery in Boscawen. **UGHT TO PASS WITH AMENDMENT.**

Rep. Franklin T. Tilton for Public Works and Highways: The resolution as originally drafted is unnecessary and inappropriate as the Adjutant General already has the authority to approve the placement of a New Hampshire Air Force Memorial at the Veterans Cemetery in Boscawen, and he is very supportive of the ongoing efforts to do so. The amendment provides a formal recognition and expresses appreciation to New Hampshire Air Force veterans on the 60th anniversary of the United States Air Force. Vote 18-0.

Amendment (0218h)

Amend the title of the resolution by replacing it with the following:

A RESOLUTION recognizing the sacrifices and service of New Hampshire Air Force veterans on the 60th anniversary of the United States Air Force.

Amend the resolution by replacing all after the fifth “whereas” clause the following:

Whereas, the United States Air Force is celebrating its 60th anniversary on September 18, 2007; and

Whereas, it is fitting to honor the men and women from New Hampshire who have served our state and our country in the Air Force; now, therefore, be it

Resolved by the House of Representatives, the Senate concurring:

That gratitude and appreciation is hereby expressed to all New Hampshire veterans who served our state and our country in the United States Air Force.

AMENDED ANALYSIS

This house concurrent resolution recognizes the sacrifices and service of New Hampshire Air Force veterans on the 60th anniversary of the United States Air Force.

Rep. Franklin Tilton spoke in favor.

Amendment adopted.

Committee report adopted and ordered to third reading.

HB 52, relative to leasing the Cannon Mountain ski area. MAJORITY: INEXPEDIENT TO LEGISLATE. MINORITY: OUGHT TO PASS.

Rep. Donald A. Brueggemann for the Majority of Resources, Recreation and Development: This bill would establish a commission to draw up a request for proposals for the leasing of Cannon Mountain ski area. The majority believes that this is unnecessary. The Commissioner of the Dept. of Resources and Economic Development (DRED), which has jurisdiction over state parks, has made a commitment to the Resources, Recreation & Development committee to complete a business plan, with a time table for regular reports to the committee. In addition, SB 74—legislation resulting from the recent state parks study commission—calls for a master plan to be developed for all the state parks, including Franconia Notch State Park, of which Cannon is a part. A large number of New Hampshire residents expressed opposition to leasing the mountain and the committee was impressed with the dedication of employees and the mountain’s manager to making necessary improvements. For these reasons, the majority felt it was therefore premature to jump into leasing Cannon. Vote 11-8.

Rep. Chris Christensen for the Minority of Resources, Recreation and Development: The minority appreciates the commitment of the Department of Resources and Economic Development (DRED) to present a new business plan for Cannon Mountain and to bring the operation to profitability. However, we note that this approach has led to short term actions in the past, but not long term solutions. We further note that hundreds of petitioners from the Franconia area supported dramatic action for Cannon Mountain. Retaining the bill would have allowed study and amendment within a public process. It would have allowed the legislature to work in partnership with the executive branch to better resolve this problem to the benefit of the citizens of New Hampshire.

Rep. Merrow spoke against and yielded to questions.

Reps. David Russell, Stephanie Eaton and King spoke against.

Reps. Brueggemann, Aguiar and McLeod spoke in favor.

Rep. Merrow requested a roll call; sufficiently seconded.

and the majority committee report was adopted.

HB 183-FN-A-L, relative to the acquisition of a certain tract of land in the towns of Peterborough, Sharon, and Temple as a state reservation, and making an appropriation therefor. **MAJORITY: OUGHT TO PASS WITH AMENDMENT. MINORITY: INEXPEDIENT TO LEGISLATE.** Rep. Susan R. Kepner for the Majority of Resources, Recreation and Development: This bill provides for the acquisition by the Department of Resources and Economic Development of Temple Mountain as a state reservation. The state is being asked to bond \$535,000, or 31% of the \$1.6 million value, with the landowner donating 37% and the towns of Peterborough, Sharon and Temple and private individuals also contributing. The large number of individuals who came to support the bill underscored the commitment of the local communities to protect this gateway to the Monadnock region and a critical link in the Wapack Trail. The amendment, developed with the department, formalizes an agreement negotiated over the past three years between the department and the landowners, putting agreed-upon conditions in formal deed restrictions. There were two such conditions. First, because the mountain is a valuable hiking area and has terrain ill-suited for vehicular use, motorized vehicles would be prohibited. Second, there would be no additional cell towers. However, the landowner agreed to retain the existing one to meet communication needs for the region. The amendment also assures that this new acquisition will not impact the department's budget by stipulating that DRED cannot be required to expend money on Temple without the necessary funds being provided by any of a variety of possible sources. Vote 14-6. Rep. Chris Christensen for the Minority of Resources, Recreation and Development: The minority fully appreciates the value of open space and conservation land. There were concerns that citizens from the three towns involved negotiated the sale, but that the town meetings had not yet approved their participation or appropriation. The amendment puts restrictions on the use of the land that are unlike those practiced on adjacent Miller State Park. Particular sore points included prohibiting motorized recreational vehicles and cell towers. We note that the owner retained that income bearing portion of the property which currently has an operating cell tower. It is difficult to justify additional purchases in the face of significant losses extant in the NH parks system.

Majority Amendment (0299h)

Amend paragraph III of section 2 of the bill by replacing it with the following:

III. The department of resources and economic development shall not be required to develop, operate, or maintain any recreational facilities on the property unless funding for such development, operation, or maintenance is provided through state, federal, or municipal sources, private contributions, or other sources, nor shall the department be required to use any state park fund money for the purposes of development, operation, or maintenance of the Temple Mountain property.

IV. The department of resources and economic development shall not purchase the property unless it is subject to deed restrictions which prohibit the installation of telecommunications or similar towers and associated facilities on the property and which prohibit any off-road motorized vehicular recreational activities, including motorized recreational trail use.

Rep. Chris Christensen spoke against.

Rep. Gottling spoke in favor.

Majority committee amendment adopted.

The question now being adoption of the majority committee report of Ought to Pass with Amendment.

Rep. Parkhurst spoke against.

Rep. Irwin spoke in favor and yielded to questions.

Rep. Boyce requested a roll call; sufficiently seconded.

Ferland, Brenda Rodeschin, Beverly
and the majority committee report was adopted.
Referred to the Committee on Public Works and Highways.

HB 392, relative to the use of property held by the state of New Hampshire under an easement specifying low impact recreational use only. **MAJORITY: OUGHT TO PASS WITH AMENDMENT. MINORITY: INEXPEDIENT TO LEGISLATE.**

Rep. Suzanne H. Gottling for the Majority of Resources, Recreation and Development: This bill addresses the problem of confusion around the use of the term "low impact recreational use." Under this bill, on any property or easement held by the state of New Hampshire which uses this term, it shall specifically mean "non-motorized recreation only." The amendment was included to assure that motorized vehicles may be used by the landowner or easement holder for an emergency or for property management. In addition, any easement in place prior to enactment of this bill remains unaffected. Vote 10-6.

Rep. Harry C. Merrow for the Minority of Resources, Recreation and Development: This bill as amended prevents the use of OHRV's as defined in RSA 215-A:1 on newly acquired property held by the state of New Hampshire or any agency of the state under an easement specifying low impact recreational use only. Currently, any restriction requested is defined by the land owner. This would put the requirement of removing an obstacle on the owner and also prevent him or her from riding on logging roads and other trails on his own property unless he or she thought to include this in the easement. This could also cut down on the number of landowners willing to give the state an easement. Although not part of this bill, what is really needed is to determine the definition of low impact.

Majority Amendment (0379h)

Amend the bill by replacing section 1 with the following:

1 New Section; Recreation Easements. Amend RSA 216-A by inserting after section 13 the following new section:

216-A:13-a Motorized Vehicles Prohibited. No off highway recreational vehicles as defined in RSA 215-A:1, VI shall be allowed on any property held by the state of New Hampshire or any agency of the state under an easement specifying low impact recreational use only. Nothing in this section shall prohibit the use of such vehicles by the landowner or easement holder for emergency purposes or purposes of managing the property. This section shall not apply to any such easement in existence prior to the effective date of this section.

AMENDED ANALYSIS

This bill prohibits the use of certain motorized vehicles on property held by the state of New Hampshire under an easement specifying low impact use only, except by the landowner or easement holder for emergency or management purposes.
Majority committee amendment adopted.

The question now being adoption of the majority committee report of Ought to Pass with Amendment.

Rep. Merrow spoke against.

Rep. Spang spoke in favor.

Rep. Merrow requested a roll call; sufficiently seconded.

and the majority committee report was adopted.
Ordered to third reading.**HB 505-FN-A**, relative to enhanced water quality monitoring for lakes and beaches. **MAJORITY: OUGHT TO PASS WITH AMENDMENT. MINORITY: INEXPEDIENT TO LEGISLATE.**

Rep. Susan R. Kepner for the Majority of Resources, Recreation and Development: This bill defines "public bathing place and public beach," creates a management program and establishes a program coordinator and funding for that person. This will enable the Department of Environmental Services (DES) to monitor more beaches for e-coli and other water borne diseases. The majority supports this bill in the interests of public health and keeping our tourism economy vibrant. Vote 11-7.

Rep. Harry C. Merrow for the Minority of Resources, Recreation and Development: This bill establishes a full time position of public beach program coordinator and makes an annual appropriation of \$100,000 for the administration of it. We believe that water quality monitoring for the lakes and beaches is important. However, we believe it is currently being adequately handled by the towns and volunteer groups. If this were needed it would be better handled by part-time positions in the beach season only.

Majority Amendment (0251h)

Amend RSA 485-A:26-a, I as inserted by section 3 of the bill by replacing it with the following:

I. There shall be established and administered within the department of environmental services a New Hampshire public beach program. The purpose of the program is to promote public health and safety and to maintain and enhance the recreational values of New Hampshire's public beaches. Majority committee amendment adopted.

The question now being adoption of the majority committee report of Ought to Pass with Amendment.

Rep. Ahlgren spoke against.

Rep. Brueggemann spoke in favor and yielded to questions.

Rep. Kurk requested a roll call; sufficiently seconded.

and the majority committee report was adopted.
Referred to the Committee on Finance.

HB 815-FN-A, requiring the display of boater education decals. **MAJORITY: OUGHT TO PASS WITH AMENDMENT. MINORITY: INEXPEDIENT TO LEGISLATE.**

Rep. Frank A. Tupper for the Majority of Resources, Recreation and Development: This bill provides an opportunity to educate out-of-state boaters regarding NH boating laws and provides urgently needed funds to three programs. With a \$20 decal, boaters receive education materials. Funds generated are distributed to the lake restoration and preservation fund, Fish and Game public access, dam maintenance fund and the navigation safety fund. The decal is required for boats normally requiring registrations in NH, which excludes canoes and kayaks. Out-of-state boaters reported as "reasonable" a parallel law in Maine requiring a \$20 fee. The amendment evenly distributes the funds raised among the three programs. Vote 16-4.

Rep. James D. Aguiar for the Minority of Resources, Recreation and Development: This bill is another example of the "nickel and dime" approach to funding an important agency of the state. Members of the minority feel that the necessary fund should come from the general fund and not this stop-gap measure. It is also noted that there are no provisions for additional staff and/or equipment to enforce this new requirement. Marine Patrol officers would be called upon to cite those out-of-state boaters for a violation. Testimony before the committee noted that the department is having a difficult time recruiting an adequate number of officers and an even more difficult time retaining them. In the opinion of the minority it is highly unlikely that this bill will produce the anticipated income.

Majority Amendment (0353h)

Amend the title of the bill by replacing it with the following:

AN ACT requiring the display of boater education decals on vessels registered in other states.

Amend the bill by replacing section 2 with the following:

2 Statewide Public Boat Access Fund. Amend RSA 233-A:13 to read as follows:

233-A:13 Statewide Public Boat Access Fund Established. There is hereby established a nonlapsing statewide public boat access fund. The \$5 boat registration surcharge collected pursu-

and the majority committee report was adopted.
Referred to the Committee on Ways and Means.

HB 376-FN-A, distributing certain meals and rooms tax revenues to the fish and game fund.
MAJORITY: INEXPEDIENT TO LEGISLATE. MINORITY: OUGHT TO PASS.

Rep. Michael G. Marsh for the Majority of Ways and Means: This legislation would have permanently assigned 4% of the general fund's meals and rooms tax revenue to the Fish and Game fund. The committee heard extensive testimony from sporting groups, conservationists, and search-and-rescue organizations about the fine work that Fish and Games does and its importance to our state's quality of life, and we support additional revenue for the department. Nevertheless, the committee believed the funding approach in this bill is inappropriate. If Fish and Game needs money from the general fund, it should seek it from the Governor and the Finance Committee, as all other departments do. The Ways and Means Committee is not in a position to judge the merits of each department's funding request. We believe permanently segregating money from the general fund is not good fiscal policy, and have resisted this in the past. Finally, the amount requested in the bill was designed to meet this biennium's deficit, and there is no reasons to believe it would be the appropriate amount in future years. Vote 15-2.

Rep. Dennis P. Vachon for the Minority of Ways and Means: There is a serious problem with a lack of sufficient funding at the N.H. Fish and Game Department. It has arisen because the agency has been self-funded since its creation in 1935, receiving just \$50,000 a year in state funds in recent years for the nongame and endangered wildlife program. We have enjoyed the services of the Fish and Game Department without cost to the state all these years because it was paid for by fees paid by hunters and anglers and some federal funds. Now our fish and wildlife agency is in trouble, because fewer people are hunting and fishing, yet we need the department's services more than ever to meet a broad range of needs. This is no time to be dismantling our first line of defense against animal-borne diseases like avian flu. The minority believes that it is the duty of the New Hampshire Legislature to keep the agencies strong that protect and serve the citizens of the state.

It would be irresponsible of us to ignore this serious situation. This bill proposes a rational, sensible solution. It allocates 4% of the state's 60% of the rooms and meals tax to the Fish and Game Department, keeping an agency strong that serves all our citizens and supports activities that bring in large amounts of rooms and meals tax and other economic activity to the state. Hunters, anglers and wildlife watchers contribute 7.4% of the rooms and meals tax – over \$14 million last year – according to the U.S. Fish and Wildlife Service. The bill would provide \$4.7 million to the Fish and Game fund each year to address the looming shortfall at the department. The bill was overwhelmingly supported at the public hearing by a standing-room-only crowd from the hunting and angling and conservation communities. Testimony went on for hours. We have all received many letters and phone calls urging us to support funding for Fish and Game, a department people care deeply about and value the services of. Allocating a portion of the rooms and meals tax is the most logical way to provide the funding that Fish and Game needs.

Reps. Vachon and David Smith spoke against.

Reps. Marsh and Davis spoke in favor.

Majority committee report adopted.

HB 510-FN-A-L, establishing authority for construction and regulation of casinos. **INEXPEDIENT TO LEGISLATE.**

Rep. William A. Hatch for Ways and Means: While the committee recognizes the sponsors for their efforts and commitment put into this bill to resolve a serious issue, the committee is retaining two other casino bills with many aspects of this bill in them; one bill being retained calls for a state run casino while the other considers a privately run casino. Vote 14-4.

Rep. Gionet spoke against and yielded to questions.

Rep. Weyler spoke against.

Reps. Hatch, Brunelle and Almy spoke in favor.

On a division vote, 280 members having voted in the affirmative and 47 in the negative, the committee report was adopted.

(Rep. Foster in the Chair)

BILLS REMOVED FROM CONSENT CALENDAR

HB 419-FN-L, relative to the cost to counties of convicted inmates awaiting sentencing in a county correctional facility. **OUGHT TO PASS.**

Rep. Stanley E. Stevens for Criminal Justice and Public Safety: This bill adds a new paragraph III to the current statute 651:4 which addresses pre-sentence investigations. There are instances where individuals are held for several months and, in some cases, for over a year while awaiting a pre-sentence investigation. Currently, the cost for holding these persons is borne by the county. As the person has already been convicted, he or she is the responsibility of the state Department of Corrections. This bill requires that after 30 days of incarceration at a county correctional facility the state will pay those expenses. Vote 14-0.

Rep. Stevens spoke in favor.

Committee report adopted.

Referred to the Committee on Finance.

HB 488-FN-A-L, relative to the state chief medical examiner and medico-legal death investigations. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Lori A. Movsesian for Criminal Justice and Public Safety: This bill is a result of a study committee that looked at this issue extensively last fall. Members of the study committee included representatives of the Attorney General's office, Medical Examiner's office, Vital Records, administration, funeral directors, county attorneys, State Representatives and Senators. The bill repeals RSA 611, relative to medical examiners and RSA 611-A, relative to the office of chief medical examiner. The bill recodifies the responsibilities of the office of the chief medical examiner and the procedure for medico-legal death investigations in one new chapter, RSA 611-B. The party responsible for payment is also clarified. Vote 14-0.

Amendment (0215h)

Amend RSA 611-B:18 as inserted by section 1 of the bill by replacing it with the following:

611-B:18 Retention and Disposal of Organs, Unidentified Remains, Body Fragments, and Body Fluids.

I. Except as provided in RSA 227-C:8-a through RSA 227-C:8-g, whenever unidentified human skeletal remains are recovered, the chief medical examiner may store the remains, release them to an educational institution, direct that they be interred in an appropriate resting place, or have them cremated in accordance with RSA 325-A. Ashes of remains cremated shall be disposed of in an appropriate manner. Human skeletal remains recovered in a cared-for cemetery shall not be subject to the provisions of this paragraph.

II. The chief medical examiner or a designated pathologist may retain body tissues or body fluids for evidence, further study, documentation, or research. Subject to RSA 651-D:3, body tissue or body fluids retained for such purposes, or those which have been recovered after the body has been released from the custody of the medical examiner, may, unless claimed in writing by the person responsible for burial, be disposed of:

- (a) According to the practices of the laboratory responsible for analysis;
- (b) By the office of the chief medical examiner; or
- (c) By the medical examiner or pathologist retaining those tissues or fluids.

III. Subject to RSA 651-D:3, the chief medical examiner may dispose of substantial body tissues that have been retained for evidence, further study, or documentation or that have been recovered after the rest of the body has been finally released, in accordance with paragraph I, unless claimed by the person responsible for burial.

Amendment adopted.

Committee report adopted.

Referred to the Committee on Finance.

HB 610-FN-A, requiring the criminal justice and public safety committee to review motor vehicle fines and extending the effective date for certain motor vehicle fine reductions. **OUGHT TO PASS.** Rep. John E. Tholl for Criminal Justice and Public Safety: In 2005, motor vehicle fines were increased without a public hearing. In 2006, legislation was passed that would sunset the increases. This bill extends the sunset provision two years and requires that the Criminal Justice and Public Safety Committee review the fines and report its findings to the Speaker of the House and the Ways and Means Committee. Previously, the fines had been set without public or legislative hearings. Passage of this bill will allow legislative and public input and provide the openness in government that the public and the legislature requires. Vote 16-0.

Committee report adopted.

Referred to the Committee on Ways and Means.

HB 752-FN, relative to per pupil funding for charter school pupils. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Claire D. Clarke for Education: Charter schools have had a considerable amount of problems since their inception. This bill increases the funding for charter schools as they have been receiving only one third of what the average district spends per pupil. This bill raises the charter school per pupil aid for FY2008 (next year) from \$3,708 to \$4,000. The total cost to the state in the first year is \$120,000 additional funding for charter schools. As in current practice, future increases will be determined by the CPI. This bill gives a specific amount that will ensure equalized funds for charter schools. Vote 12-1.

Amendment (0339h)

Amend the bill by replacing all after the enacting clause with the following:

1 Charter Schools; Funding. Amend RSA 194-B:11, I(a) to read as follows:

(a) For the fiscal year beginning July 1, ~~[2006, \$3,598]~~ **2007, \$4,000** annual tuition.

2 Effective Date. This act shall take effect upon its passage.

AMENDED ANALYSIS

This bill increases the tuition amount for charter school pupils.

Amendment adopted.

Committee report adopted.

Referred to the Committee on Finance.

HB 660-FN, relative to an assistant state veterinarian. **OUGHT TO PASS.**

Rep. Richard H. Snow for Environment and Agriculture: The committee believes that the addition of a position of assistant state veterinarian will significantly enhance and expand the ability of the

Department of Agriculture, Markets and Foods to respond to current concerns about animal health issues and emergency response capabilities. The committee heard and carefully considered testimony about the increasingly complex and time consuming duties and responsibilities of our state veterinarian. The committee carefully considered the scope of these duties and responsibilities and the efforts necessary for one individual to effectively accomplish all of them. The committee heard and considered testimony about the threats to human health posed by animal diseases that are easily transmittable to humans. The committee determined, based on testimony and deliberation, that the establishment of the position of assistant state veterinarian is appropriate at this time. Vote 15-1. Committee report adopted.

Referred to the Committee on Finance.

HB 704-FN-A, relative to the commission on the status of men and making an appropriation therefor. **OUGHT TO PASS.**

Rep. Carl G. Robertson for Executive Departments and Administration: This bill will eliminate the repeal of the Commission on the Status of Men and make an appropriation. It will allow the commission to continue its work bringing forward issues that currently negatively affect the male gender. The committee felt that the Commission on the Status of Men should be on a level playing field with the Commission on the Status of Women. Recent information has shed light on certain issues that put men at a distinct disadvantage culturally. A higher suicide rate, higher mortality rate, lower literacy, reading and test scores, as well as legal and family issues are areas where men are struggling. In order to be effective in bringing these issues forward and to search for solutions, the commission needs to be given support. Vote 15-1.

Committee report adopted.

Referred to the Committee on Finance.

HB 433-FN-A, relative to funding of fish and game department search and rescue operations. **OUGHT TO PASS.**

Rep. Carla M. Skinder for Fish and Game: The committee unanimously agreed to fund \$200,000 from the general fund. New Hampshire is the only state that performs search and rescue without money from the general fund. As everyone knows, Fish and Game has financial difficulties and currently has a deficit of \$32,538 in search and rescue. Fish and Game is able to utilize the National Guard helicopter for search and rescue at \$500/search to pay the helicrew. There are over 400 well trained and equipped volunteers that assist Fish and Game in Rescues. Between the National Guard and volunteers, Fish and Game saves a lot more than \$200,000, the amount requested. The Attorney General allows for Fish and Game to seek reimbursement for search and rescue. However, to date, only \$14,989 out of a potential \$20,893 has been collected. Vote 17-0.

Rep. Abbott spoke in favor.

Committee report adopted.

Referred to the Committee on Finance.

HB 597-FN, relative to expenditure caps for institutional health facilities under the certificate of need law. **OUGHT TO PASS.**

Rep. Robert G. Bridgham for Health, Human Services and Elderly Affairs: This bill resets the expenditure caps above which the certificate of need process is activated for improvements in acute care facilities, nursing homes, and other health care facilities. The new cap will be \$2.1 million, adjusted annually by an appropriate inflation index. The bill increases the cap, especially for nursing homes and other health care facilities, enabling them to undertake ordinary refurbishment or minor improvements without the expense of seeking CON approval. Vote 18-0.

Committee report adopted.

Referred to the Committee on Finance.

HB 858-FN, relative to a discount medical plan organization. **OUGHT TO PASS.**

Rep. Trinka Russell for Health, Human Services and Elderly Affairs: This bill would enable the Department of Insurance to oversee discount medical plans to ensure that the plans are not advertised in a way that would mislead consumers to think of the plans as insurance. It also contains other consumer protections, requiring, for example, that the plans list their provider network clearly on their web site. Vote 15-1.

Committee report adopted.

Referred to the Committee on Commerce.

HB 862-FN, establishing an incapacitated adult fatality review committee. **OUGHT TO PASS.** Rep. Joan H. Schulze for Health, Human Services and Elderly Affairs: This bill follows an ad hoc committee regarding abuse, neglect and fatalities of incapacitated adults. New Hampshire's most vulnerable citizens, the incapacitated and elderly, may not be receiving the services necessary to provide for their safety. The purpose of this bill is to promote prevention of deaths and serious injuries of incapacitated adults. The intent is to improve services and protect, not to prosecute or find fault. The Attorney General's office supports and will house this initiative. It will be a volunteer committee and, thus, at no cost like the Child Fatality Review Committee and the Domestic Violence Fatality Committee. The disabled and elderly are valuable members of the community and have a right to be respected. We can learn a lot from studies of death that can be applied to other situations and prevention. Vote 18-0.

Rep. Whalley offered floor amendment (0465h).

Floor Amendment (0465h)

Amend the title of the bill by replacing it with the following:

AN ACT establishing an incapacitated adult fatality review committee and relative to the waiting list for services to persons with developmental disabilities and acquired brain disorders and making an appropriation therefor.

Amend the bill by replacing all after section 2 with the following:

3 Purpose. It is the intention of the general court in sections 3 through 5 of this act to provide sufficient funding to the department of health and human services to ensure that persons who apply for and are eligible to receive services in the state's developmental services system receive such services without undue delay. Therefore, the general court hereby achieves its objective by reducing the time between completion of a preliminary written individual service agreement for persons who have been determined eligible for services and the allocation by the state of the funds needed to carry out the services required by the agreement to no more than 90 days.

4 New Section; Waiting List; Duration Limits. Amend RSA 171-A by inserting after section 1-c the following new section:

171-A:1-d Waiting List; Limits. The department shall provide services to eligible persons under this chapter and persons eligible for the acquired brain disorders Medicaid waiver in a timely manner. The department shall provide services in such a manner that the period between the time of completion of a preliminary written individual service agreement pursuant to RSA 171-A:12 and the allocation by the department of the funds needed to carry out the services required by the agreement shall not exceed 90 days. The department shall make quarterly reports to the oversight committee established by RSA 171-A:1-c, and the oversight committee on health and human services, established by RSA 126-A:13, on the status of the waiting list and compliance with this section.

5 Appropriation; Waiting List. The sum of \$4,100,000 in general funds together with federal matching funds for the fiscal year ending June 30, 2008 and the sum of \$11,900,000 in general funds together with federal matching funds for the fiscal year ending June 30, 2009 are hereby appropriated to the department of health and human services, for the purpose of providing services to persons with developmental disabilities and acquired brain disorders who have applied and have been determined eligible for services and who have been placed on a waiting list for such services. The governor is authorized to draw a warrant for said sums out of any money in the treasury not otherwise appropriated.

6 Effective Date.

I. Section 1 of this act shall take effect January 1, 2008.

II. Section 2 of this act shall take effect upon its passage.

III. The remainder of this act shall take effect July 1, 2007.

AMENDED ANALYSIS

This bill establishes the incapacitated adult fatality review committee to study the incidence and causes of death of incapacitated adults. Under this bill, the committee shall be administratively attached to the department of justice.

This bill also requires the department of health and human services to provide services to persons with developmental disabilities and acquired brain disorders within 90 days of a preliminary written individual service agreement and makes an appropriation for the purposes of this requirement.

Reps. Charles McMahon and Whalley spoke in favor and yielded to questions.

Reps. Donovan and Rosenwald spoke against and yielded to questions.

Rep. Trinka Russell spoke against.

Rep. MacKay spoke in favor.

Rep. Whalley requested a roll call; sufficiently seconded.

BILLS REMOVED FROM CONSENT CALENDAR (CONT'D)

HB 664-FN, relative to annual dam registration and permit application fees. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Donald A. Brueggemann for Resources, Recreation and Development: This bill was initiated at the request of the Department of Environmental Services (DES) dam bureau to pay the cost of permitting and inspecting dams. It increases the application fee for new dam permits and the annual registration fee for all dams. The filing fee was increased significantly, but the committee was presented with documentation showing it was justified for the bureau's expenses for permitting and classifying new dams. The increase in annual fees is needed to increase the bureau's ability to inspect more of the state's dams to identify those in danger of failure. The importance of these inspections was highlighted by last year's floods. The amendment removed a funding mechanism for the maintenance of state owned dams based on a per-foot fee on shore land properties. There is a very urgent need to fund dam maintenance, but the committee felt this was not the most workable method. Vote 18-0.

Amendment (0185h)

Amend the bill by deleting sections 4-5 and renumbering the original sections 6-7 to read as 4-5, respectively.

AMENDED ANALYSIS

This bill increases annual dam registration and filing fees to cover the cost of inspecting existing dams and permitting the construction or reconstruction of dams.

Amendment adopted.

Committee report adopted.

Referred to the Committee on Ways and Means.

MOTION TO SPECIAL ORDER

Rep. Wallner moved that the remainder of the bills on today's calendar be made Special Orders for the next session day in their regular calendar order.

Adopted.

RESOLUTION

Rep. Wallner offered the following: **RESOLVED**, that the House now adjourn from the early session, that the business of the late session be in order at the present time, that the reading of bills be by title only and resolutions by caption only and that all bills ordered to third reading be read a third time by this resolution, and that all titles of bills be the same as adopted, and that they be passed at the present time, and when the House adjourns today it be to meet Wednesday, March 21, 2007 at 10:00 a.m.

Adopted.

LATE SESSION**Third reading and final passage**

HB 184, repealing the parental notification law.

HCR 4, recognizing the sacrifices and service of New Hampshire Air Force veterans on the 60th anniversary of the United States Air Force.

HB 392, relative to the use of property held by the state of New Hampshire under an easement specifying low impact recreational use only.

UNANIMOUS CONSENT

Rep. Rodeschin addressed the House.

MOMENT OF SILENCE

A moment of silence was observed in honor and memory of fallen soldier, Army Spc. Justin Rollins from Newport.

RECESS MOTION

Rep. Wallner moved that the House stand in recess for the purpose of introduction of bills and receiving Senate messages.

Adopted.

The House recessed at 6:45 p.m.

RECESS**(Speaker Norelli in the Chair)****RESOLUTION**

Rep. Wallner offered the following: RESOLVED, that late drafting and introduction having been approved by the Rules Committee, House Bill number 2 and House Resolution number 10 shall be by this resolution read a first and second time by the therein listed titles, sent for printing and referred to the therein designated committees.

Adopted.

INTRODUCTION OF HOUSE BILL AND HR**First, second reading and referral**

HB 2-FN-A, relative to state fees, funds, revenues, and expenditures. (M. Smith, Straf 7: Finance)

HR 10, opposing President George W. Bush's Iraq policy and urging the President and Congress to take actions relative to veterans' benefits and the war in Iraq. (Splaine, Rock 16; McEachern, Rock 16: State-Federal Relations and Veterans Affairs)

RECESS**(Rep. Roberts in the Chair)****RESOLUTION**

Rep. Patrick Garrity offered the following: RESOLVED, that late drafting and introduction having been approved by the Rules Committee, House Bill number 928 shall be by this resolution read a first and second time by the therein listed title, sent for printing and referred to the therein designated committee.

Adopted.

INTRODUCTION OF HOUSE BILL**First, second reading and referral**

HB 928, relative to the Christa McAuliffe planetarium commission. (MacKay, Merr 11; Osborne, Merr 12; Janeway, Dist 7; Downing, Dist 22: Executive Departments and Administration)

RECESS**(Speaker Norelli in the Chair)**

Rep. Wallner moved that the House adjourn.

Adopted.

HOUSE JOURNAL No. 9

Wednesday, March 21, 2007

The House assembled at 10:00 a.m., the hour to which it stood adjourned, and was called to order by the Speaker.

MOMENT OF SILENCE

A moment of silence was observed in memory of New Hampshire State Representative James Oliver.

Prayer was offered by House Chaplain, Reverend Jared A. Rardin, Pastor of the South Congregational Church in Concord.

We come to You today with many prayers, O God, spoken and unspoken. Prayers for the future. Prayers for family members and friends. Prayers for strangers. Prayers for ourselves. Prayers for this body and the work before us today. Prayers for this state and for this country. And of these, O God, we add our special prayer for the family of Representative James Oliver, who was serving this House of Representatives for his third term when he died earlier this week. Comfort his family in their time of loss, and let his memory live on in this place. And we pray, too, for all whose lives are directly affected by war. We unite ourselves in prayer for the men and women of the armed services and their families, and for the innocent victims all wars and insurgencies claim. Bless them all, and guide us, we ask, in the quest for peace and stability. All this we ask in Your Holy name. Amen.

Rep. Bette Lasky, member from Nashua, led the Pledge of Allegiance.

The National Anthem was sung by Emilea Raymond of Amherst, a home schooled student of the Welcome Inn School of New Hampshire.

LEAVES OF ABSENCE

Reps. Peter Cote, Jeudy, Laliberte, Lister, Pilliod, Serlin and Francis Sullivan, the day, illness.

Reps. C. Pennington Brown, Dokmo, Robert Elliott, Hess, Introne, Kidder, Scott Merrick, O'Connell, O'Keefe, Owen, Stohl and Wood, the day, important business.

Rep. James Garriety, the day, death in the family.

INTRODUCTION OF GUESTS

Jeff and Karen Raymond, Grantham, Joel and Quincy Raymond, Carmen Sterling and Judy Sterling, family of the singer, guests of the House. Students from the Portsmouth Alternative Secondary School and Mary Moore, guests of the Portsmouth delegation. James Knowles, son of Rep. William Knowles. Rick Zeller, son-in-law of Rep. Lockwood. Steve Courchene and Buck Mercier, guests of Rep. Forest. Tristan, Jaiden, Bryeton and Lisa Evarts, Sarah and Luan Heimlich and Paige Balcom guests of Rep. Waterhouse.

INTRODUCTION OF SPECIAL GUESTS

Recent winners of the 2006-2007 Class L Championship, the Winnacunnet High School Girls Basketball Team, accompanied by their coaching staff.

MOTION TO SUSPEND RULES

Rep. Wallner moved that the Rules be so far suspended to allow referral to a second committee, after the deadline, of the following House Bills, if they are passed by the House today:

HB 283, allocating a portion of unrefunded road tolls to the dam maintenance fund.

HB 440, relative to the authority to quarantine to prevent dissemination of forest pests, relative to police training for forest rangers, and relative to forest resources and timber harvesting.

HB 471, relative to workers' compensation compliance in the construction sector and continually appropriating a special fund.

Reps. Whalley and Vaillancourt spoke against.

Rep. Kurk spoke against and yielded to questions.

Rep. Wallner spoke in favor.

Rep. Itse requested a roll call; sufficiently seconded.

MOTION TO SUSPEND RULES

Rep. Whalley moved that the Rules be so far suspended to allow referral to a second committee, after the deadline, of the following House Bills, if they are passed by the House today:

HB 283, allocating a portion of unrefunded road tolls to the dam maintenance fund.

HB 440, relative to the authority to quarantine to prevent dissemination of forest pests, relative to police training for forest rangers, and relative to forest resources and timber harvesting.

HB 471, relative to workers' compensation compliance in the construction sector and continually appropriating a special fund.

HB 346, establishing a defined contribution retirement option in the New Hampshire retirement system.

HB 562, excluding extra or special duty pay from earnable compensation in the retirement system.

HB 594, granting group II retirement system status to certain positions in the department of corrections.

HB 876, relative to eliminating the special account, changing the definition of earnable compensation, and revising the calculation of employee and employer contribution rates and cost-of-living adjustments in the retirement system, and assigning all new employees to group I.

HB 567, relative to lowering the legal drinking age.

HB 577, establishing the number of associate justices of the superior court.

HB 762, prohibiting smoking in restaurants, cocktail lounges, and certain enclosed places.

HB 666, establishing a license fee for the sale of animal vaccines.

HB 828, relative to a state ethics officer.

HB 514, relative to the applicable minimum wage for hourly employees.

HB 366, relative to work on Thanksgiving and Christmas Day.

HB 223, requiring the general court to hold sessions in the evening or on Saturday.

HB 665, relative to the comprehensive shoreland protection act.

HB 857, relative to permitting responsibilities under the comprehensive shoreland protection act.

HB 873, establishing minimum renewable standards for energy portfolios.

HB 880, requiring the department of resources and economic development to implement a feasibility study for the production of alternative forms of energy using natural resources of the state of New Hampshire and making an appropriation therefor.

HB 602, relative to child support enforcement.

HB 578, providing a definition of an adequate education and establishing an adequacy board.

HB 865, relative to an adequate education and state education grants.

HB 753, relative to the electronic toll collection transponder inventory fund.

Rep. Whalley spoke in favor.
Rep. Marjorie Smith spoke against.
Rep. Whalley withdrew the motion.

MOTION TO SUSPEND RULES

Rep. Wallner moved that the Rules be so far suspended to allow referral to a second committee, after the deadline, of the following House Bills, if they are passed by the House today and any bill including the following list still in committee which will need referral to a second committee:

HB 283, allocating a portion of unrefunded road tolls to the dam maintenance fund.
HB 440, relative to the authority to quarantine to prevent dissemination of forest pests, relative to police training for forest rangers, and relative to forest resources and timber harvesting.
HB 471, relative to workers' compensation compliance in the construction sector and continually appropriating a special fund.
HB 346, establishing a defined contribution retirement option in the New Hampshire retirement system.
HB 562, excluding extra or special duty pay from earnable compensation in the retirement system.
HB 594, granting group II retirement system status to certain positions in the department of corrections.
HB 876, relative to eliminating the special account, changing the definition of earnable compensation, and revising the calculation of employee and employer contribution rates and cost-of-living adjustments in the retirement system, and assigning all new employees to group I.
HB 567, relative to lowering the legal drinking age.
HB 577, establishing the number of associate justices of the superior court.
HB 762, prohibiting smoking in restaurants, cocktail lounges, and certain enclosed places.
HB 666, establishing a license fee for the sale of animal vaccines.
HB 828, relative to a state ethics officer.
HB 514, relative to the applicable minimum wage for hourly employees.
HB 366, relative to work on Thanksgiving and Christmas Day.
HB 223, requiring the general court to hold sessions in the evening or on Saturday.
HB 665, relative to the comprehensive shoreland protection act.
HB 857, relative to permitting responsibilities under the comprehensive shoreland protection act.
HB 873, establishing minimum renewable standards for energy portfolios.
HB 880, requiring the department of resources and economic development to implement a feasibility study for the production of alternative forms of energy using natural resources of the state of New Hampshire and making an appropriation therefor.
HB 602, relative to child support enforcement.
HB 578, providing a definition of an adequate education and establishing an adequacy board.
HB 865, relative to an adequate education and state education grants.
HB 753, relative to the electronic toll collection transponder inventory fund.
HB 498, dedicating certain OHRV and snowmobile unrefunded road tolls to the fish and game department.
Motion adopted by the necessary two-thirds.

MOTION TO RECONSIDER

Having voted with the prevailing side, Rep. Gionet moved that the House reconsider its action whereby the House on March 7, 2007, on a roll call vote of 226-130, adopted the Majority Committee Report of Ought to Pass on **HB 184**, repealing the parental notification law.

Rep. Gionet spoke in favor.

MOTION TO LIMIT DEBATE

Rep. McKinney moved that debate on the motion to reconsider action taken on **HB 184**, repealing the parental notification law, be limited to 10 minutes on each side, including questions.

Rep. Wendelboe requested a roll call; sufficiently seconded.

and the motion failed.

Rep. Drisko did not vote and notified the Clerk that he wished to be recorded in favor.

COMMITTEE REPORTS

CONSENT CALENDAR

Rep. Wallner moved that the Consent Calendar with the relevant amendments as printed in the day's House Record be adopted.

HB 62, relative to limiting the number of balloons released into the atmosphere, removed by Rep. Patten.

HB 74-FN-A-L, relative to matching funds for federal disaster assistance for the October 2005 floods and making an appropriation therefor, removed by Rep. Ferland.

HB 435-FN-A, making an appropriation to provide a death benefit for the family of a seasonal department of transportation employee, removed by Rep. Hawkins.

HB 506, relative to references to "United States citizen" in the New Hampshire statutes, removed by Rep. Lars Christiansen.

HB 507, relative to the rights of citizens, removed by Rep. Lars Christiansen.

HB 557-L, relative to free parking in designated handicapped zones, removed by Rep. Vaillancourt.

HB 684, establishing a rest area and state liquor store retail opportunities commission, removed by Rep. Crane.

Consent Calendar adopted.

Rep. Reardon declared a conflict of interest on **HB 281** and did not participate in the vote on the Consent Calendar.

HB 130, requiring bottled water labels to indicate the source of the water. **INEXPEDIENT TO LEGISLATE.**

Rep. Joel F. Winters for Commerce: Filtered water or spring water; do you know what's in your bottled water? Regulations on the federal level already require the type of water to be specified and the location of the spring to be on the label as well: Laws on the state level would be duplicative. Existing law adequately protects and informs consumers, so the committee did not feel this was needed legislation. Vote 14-1.

HB 151, relative to provider contracts under the managed care law. **INEXPEDIENT TO LEGISLATE.**

Rep. Donald H. Flanders for Commerce: This bill requires participating hospitals to establish and maintain procedures which provide notice to a covered person as to whether a hospital-based provider who is not a participating provider in the covered person's health plan will be treating such covered person. After reviewing the problem with affected parties it was agreed that this was a situation that could be resolved amongst them and did not rise to the point of requiring legislation. Vote 13-0.

HB 158, requiring insurance companies to allow covered persons to purchase an up-to-90-day supply of life-sustaining drugs. **OUGHT TO PASS WITH AMENDMENT.**

Rep. John B. Hunt for Commerce: This bill requires insurance companies to allow covered persons to purchase up to a 90-day supply of prescription drugs. The amendment requires that the drugs had to have been prescribed in the past year and does not change any co-payments or terms and conditions that an insurance company may have for a non-mail order prescription. Vote 13-2.

Amendment (0461h)

Amend the title of the bill by replacing it with the following:

AN ACT requiring insurance companies to allow covered persons to purchase an up-to-90day supply of covered prescription drugs on the covered person's health plan formulary under certain circumstances.

Amend the bill by replacing sections 1 and 2 with the following:

1 New Section; 90-Day Supply of Covered Prescription Drugs. Amend RSA 415 by inserting after section 6-a the following new section:

415:6-aa 90-Day Supply of Covered Prescription Drugs. An insurer issuing or renewing accident and health insurance policies shall allow its insureds to purchase an up-to-90-day supply of covered prescription drugs on the covered person's health plan formulary at one time, provided that the insured can demonstrate that such drug has been taken by the insured for a continuous period of one year and provided that such drug is not subject to the health plan's utilization management, prior authorization, or pre-certification requirements. Controlled substances as identified by the United States Drug Enforcement Administration are exempt from this section. Nothing in this section shall be construed to limit the health plan's ability to establish co-payments, coinsurance deductibles, or other member cost shares. A pharmacy dispensing a 90-day supply of covered prescription drugs under this section shall comply with any specified terms, conditions, and price which the plan may require for pharmacies that fill 90-day prescriptions.

2 New Paragraph; 90-Day Supply of Covered Prescription Drugs. Amend RSA 420-J:7-b by inserting after paragraph VII the following new paragraph:

VIII. Every health benefit plan that provides prescription drug benefits shall allow its covered persons to purchase an up-to-90-day supply of covered prescription drugs on the covered person's health benefit plan formulary at one time, provided that the insured can demonstrate that

such drug has been taken by the insured for a continuous period of one year and provided that such drug is not subject to the health benefit plan's utilization management, prior authorization, or pre-certification requirements. Controlled substances as identified by the United States Drug Enforcement Administration are exempt from this paragraph. Nothing in this paragraph shall be construed to limit the health benefit plan's ability to establish co-payments, coinsurance deductibles, or other member cost shares. A pharmacy dispensing a 90-day supply of covered prescription drugs under this paragraph shall comply with any specified terms, conditions, and price which the health benefit plan may require for pharmacies that fill 90-day prescriptions.

AMENDED ANALYSIS

This bill requires insurance companies to allow covered persons to purchase an up-to-90-day supply of covered prescription drugs on the covered person's health plan formulary under certain circumstances.

HB 215, relative to fees for hearing care providers. **OUGHT TO PASS.**

Rep. John B. Hunt for Commerce: This bill repeals the dollar amount of initial license and registration fees for hearing care providers in the statutes. RSA 137-F: 6 already provides for the fees to be set by rulemaking. This bill will allow these fees to be changed by Joint Legislative Committee on Rules (JLCAR) instead of going to the legislature every time the fees need to be changed. Vote 14-1.

HB 228, relative to the definition of "medical necessity" under the managed care law. **OUGHT TO PASS WITH AMENDMENT.**

Rep. John B. Hunt for Commerce: Under the current law an HMO must define and make public its definition of medically necessary. This bill will standardize the language so that all HMO's will use the same definitions. The amendment added one word, "stabilize." Vote 17-0.

Amendment (0119h)

Amend RSA 420-J:3, XXV-b as inserted by section 1 of the bill by replacing it with the following:

XXV-b. "Medical necessity" means health care services or products provided to an enrollee for the purpose of preventing, stabilizing, diagnosing, or treating an illness, injury, or disease or the symptoms of an illness, injury, or disease in a manner that is:

- (a) Consistent with generally accepted standards of medical practice;
- (b) Clinically appropriate in terms of type, frequency, extent, site, and duration;
- (c) Demonstrated through scientific evidence to be effective in improving health outcomes;
- (d) Representative of "best practices" in the medical profession; and
- (e) Not primarily for the convenience of the enrollee or physician or other health care provider.

HB 281, relative to the cancellation of buying club memberships. **OUGHT TO PASS.**

Rep. Stephen T. DeStefano for Commerce: This bill eliminates a general provision permitting the pro rata cancellation of buying club memberships. The bill limits pro rata refunds to situations where the club moves at least 20 miles farther away from the member's residence. The committee did however, leave the three day right of rescissions under RSA 358-J: 2. Vote 13-0.

HB 324, prohibiting the use of artificial trans fats in the preparation of food. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Matthew S. Houde for Commerce: As initially proposed, this bill would have completely prohibited the use of artificial trans fats in any food prepared for sale or service on premises or elsewhere (such use constituting an immediate endangerment of public health and safety, which would have been the basis for revocation of a food service establishment license). While the committee appreciates the intent of the bill, and believes the attention it brought will aid in raising awareness about this important health issue, it nonetheless determined that it is not appropriate as proposed since a mandatory ban on trans fats could carry the risk of unintended consequences (such as the substitution of trans fats with unhealthy oils high in saturated fats, particularly in the absence of a sufficient supply of healthy alternatives) and that consumers, as they have in grocery stores, will be the driving force behind the inevitable change in food service establishments' use of artificial trans fats. Children, however, cannot make similar choices. As such, the committee has

recommended the bill as amended in order to evaluate the use of artificial trans fats (as well as saturated fats), in food prepared and served to pupils as part of the school food program - said evaluation to result in the adoption and implementation of a policy governing their use. Vote 14-0.

Amendment (0604h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to the use of artificial trans fats and saturated fats in food prepared and served in public schools.

Amend the bill by replacing all after the enacting clause with the following:

1 New Paragraph; Food and Nutrition Programs; Artificial Trans Fats and Saturated Fats. Amend RSA 189:11-a by inserting after paragraph VII the following new paragraph:

VIII. All school administrative unit superintendents shall, no later than September 1, 2007, evaluate the use of artificial trans fats and saturated fats in foods prepared and served to pupils as part of the school food program within each school in the school administrative unit and report such findings to the state board of education. The state board of education shall, no later than January 1 2008, adopt and implement a policy governing the use of artificial trans fats and saturated fats in foods prepared and served to pupils in the public schools.

2 Effective Date. This act shall take effect upon its passage.

AMENDED ANALYSIS

This bill requires superintendents to evaluate the use of artificial trans fats and saturated fats in foods prepared and served to pupils as part of the school food program within each school in the school administrative unit, and report such findings to the state board of education which shall adopt a policy governing the use of artificial trans fats and saturated fats in foods prepared and served to pupils in the public schools.

HB 365, establishing a commission to study foreclosures of home mortgages and the foreclosure rescue scam industry. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Stephen T. DeStefano for Commerce: The bill establishes a commission to study foreclosures of home mortgages and the foreclosure rescue industry. As the real estate market changes, some unscrupulous people are taking advantage of homeowners in very difficult positions. The committee felt that this would be a start to regulate these individuals. The amendment only adds 3 members from the industry to the study committee. Vote 14-0.

Amendment (0480h)

Amend paragraph I of section 2 of the bill by replacing it with the following:

I. The members of the commission shall be as follows:

(a) Two members of the house of representatives, appointed by the speaker of the house of representatives.

(b) Two members of the senate, appointed by the president of the senate.

(c) The governor, or designee.

(d) The bank commissioner, or designee.

(e) The attorney general, or designee.

(f) A representative of the New Hampshire housing finance authority, appointed by that organization.

(g) A representative from New Hampshire Legal Assistance, appointed by that organization.

(h) A representative from the New Hampshire Community Loan Fund, appointed by that organization.

(i) A representative from the New Hampshire Bankers Association, appointed by that organization.

(j) A representative of the Mortgage Bankers and Brokers Association of New Hampshire, appointed by that organization.

(k) A representative of the New England Financial Services Association, appointed by that organization.

HB 371, establishing accessibility requirements for new residential home construction. **INEXPEDIENT TO LEGISLATE.**

Rep. Robert F. Matheson for Commerce: This bill requires all new single family, duplex and triplex homes to be constructed to meet 5 standards in making them more handicap accessible. The committee agreed with the Governor's Commission on Disability that this bill is very restrictive in its design requirements and borders on violating individual rights. The committee heard from the Association of Home Builders, the Association of Realtors, architects, general contractors and electricians. All testified against the bill because of its added cost and design limitations. Vote 14-0.

HB 469, relative to on-premises cocktail lounge licenses for caterers. **OUGHT TO PASS WITH AMENDMENT.**

Rep. John B. Hunt for Commerce: The original bill was written to allow brew pubs to cater off-site. The committee agreed with the sponsor, and realized in the discussion to further clarify and amend the statute. The committee discussed the inability of beverage manufacturer (brewers) who have tasting rooms to sample (limited to 2 ounces) not only beverages brewed on site, but also other beverages distributed by that manufacturer in the United States. The amendment encourages brewers to test within our market and possibly expand the beverages produced here in New Hampshire. Vote 16-0.

Amendment (0248h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to on-premises cocktail lounge licenses for caterers and relative to beverage manufacturer hospitality rooms.

Amend the bill by inserting after section 2 the following and renumbering the original section 3 to read as 4:

3 Beverage Manufacturer License; Hospitality Room. Amend RSA 178:12, III to read as follows:

III. The holder of a beverage manufacturer license may operate a hospitality room on the premises in which the licensee may make available to *employees and* visitors of legal drinking age for on-premises consumption free of charge samples of beverages manufactured [~~on the premises~~] *or distributed in the United States by the beverage manufacturer*. The hospitality room shall require commission approval in respect to its location, service facilities, and seating arrangements.

AMENDED ANALYSIS

This bill allows brew pub licensees to obtain off-site catering licenses. This bill also permits a beverage manufacturer licensee to serve employees in its hospitality room and allows consumption in the hospitality room of any beverages manufactured or distributed by the manufacturer.

HB 499, relative to the innovative research center. **OUGHT TO PASS.**

Rep. Stephen P. Spratt for Commerce: This bill changes the name of the University of New Hampshire Industrial Research Center to the University of New Hampshire Innovative Research Center. This name change is in keeping with the challenge to increase both the pace of innovative technology developments and the scope of partnerships. In addition to its grant program, the center may provide services including training, strategic thinking and strategy development and proposal writing. Vote 13-1.

HB 529, relative to disclaimers of municipal services in real estate contracts. **INEXPEDIENT TO LEGISLATE.**

Rep. Robert F. Matheson for Commerce: Presently new construction of subdivisions over 15 lots require a filing with the Attorney General's office and subsequent notices ensuring consumer protection. All new buyers are presented with a Public Offering Statement when signing a purchase agreement and have a right to review and rescind their agreement for five days. Part of this Public Offering Statement is the declaration which fully describes the property as well as common areas, roadways and amenities. Currently, New Hampshire realtors also require, for all land sales, a property disclosure form which accompanies a purchase agreement and specifically asks about association fees, easement restriction and covenants. The committee felt there was ample disclosure to the consumer and this bill was unnecessary. Vote 13-0.

HB 530, relative to mortgages held by parties to a divorce. **INEXPEDIENT TO LEGISLATE.**
Rep. Tara G. Reardon for Commerce: This bill would require a first mortgage lender, upon written request of a mortgager, to refinance a note and mortgage when a couple divorces eliminating the usual

underwriting and loan processing required. The majority of mortgages are sold on the secondary market and must conform to very strict loan to value and income to debt ratios. There is no guarantee that an individual will qualify for a loan. Additionally, often times the loan has been assigned to a servicing agent who has no ability to rewrite a loan. No one spoke in favor of the bill. Vote 14-0.

HB 532, relative to insurance fraud. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Stephen T. DeStefano for Commerce: This bill clarifies certain provisions of the insurance fraud law and authorizes the commissioner of insurance to adopt rules for the implementation of the insurance fraud law. The amendment only changes one word, under RSA 417:28 the phrase "reason to suspect" has been changed to "reason to believe." Vote 14-0.

Amendment (0511h)

Amend RSA 417:28 as inserted by section 2 of the bill by replacing it with the following:

417:28 Reporting of Fraudulent Claims by Insurers. Any ~~[company which believes]~~ **person or entity regulated under title XXXVII which has reason to believe** that an insurance fraud ~~or insurance-related criminal activity~~ has been committed shall ~~[;] make a report to the unit~~ within 60 days ~~[of forming such belief, send to the unit;]~~ **or within a shorter period under such circumstances as the commissioner may prescribe by rule. No waiver of any such regulated person's or entity's applicable privilege or claim of confidentiality in the documents, materials or information shall occur as a result of such disclosure to the unit. Such report shall be made** on a form prescribed by the unit ~~[;]~~ **and shall contain** the information requested and such additional information ~~[relative to the claim and other parties claiming loss or damage because of the claim]~~ as the unit may require. The unit shall review such report and select such claims as, in its judgment, warrant further investigation. In the absence of fraud or malice, no public official or insurance company or person who furnishes information on behalf of the insurance company shall be liable for damages in a civil action or subject to criminal prosecution for any oral or written statement made or any other action taken that is necessary to supply information required pursuant to this section.

HB 131, revising the role of the commissioner of the department of education in the approval of home education programs. **INEXPEDIENT TO LEGISLATE.**

Rep. Kimberley S. Casey for Education: To address conflicts of interest, the Department of Education asked the committee to remove the commissioner of education, who is part of the home school appeal process, from the home school approval and supervision process. While the committee supports strengthening good relationships between parents and local districts, it also believes that home school parents need another option in cases where that relationship does not exist. Vote 18-0.

HB 147, relative to counting kindergarten pupils in charter school attendance. **OUGHT TO PASS.**

Rep. Kimberley S. Casey for Education: This bill provides that for the purpose of calculating charter school funding, kindergarten pupils shall count as no more than ½ day attendance per calendar year. Vote 17-0.

HB 164, relative to medicating pupils to enhance learning abilities. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Paul Ingbertson for Education: This bill requires school boards to create a policy prohibiting non-medical school staff from recommending psychotropic drugs for schoolchildren. The committee continues to hear reports that school staff are recommending that parents consider the use of psychotropic drugs for their children. Since such recommendations are not technically "practicing medicine" and yet may tend to put pressure on parents, the committee felt recommendations of drug use by unqualified school staff needed to be proscribed in education policy. Vote 19-1.

Amendment (0628h)

Amend the title of the bill by replacing it with the following:

AN ACT prohibiting school personnel from recommending the use of psychotropic medications for any child.

Amend the bill by replacing all after the enacting clause with the following:

1 New Section; School Boards; Medications Recommended by School Personnel. Amend RSA 189 by inserting after section 11-b the following new section:

189:11-c Medications Recommended by School Personnel.

I. Each school board, or cooperative school board in the case of a cooperative school district shall, within one year of the effective date of this section, adopt and implement a policy prohibiting school personnel from recommending the use of psychotropic medications for any child. Such policy shall not prohibit school medical staff from recommending that a child be evaluated by a licensed medical practitioner or prohibit school personnel from consulting with such practitioner with the consent of the child's parents or legal guardian.

II. In this section, "psychotropic medications" means those medications the prescribed intention of which is to alter mental activity or mental state, including but not limited to, antipsychotic, antidepressant, and anxiolytic medications, and behavior-altering medications.

2 Effective Date. This act shall take effect 60 days after its passage.

AMENDED ANALYSIS

This bill requires each school board or cooperative school board to adopt and implement a policy prohibiting school personnel from recommending the use of psychotropic medications for any child.

HB 213, relative to the availability of school nutrition program funds for charter school and nonpublic schools. **OUGHT TO PASS.**

Rep. Nancy F. Stiles for Education: This housekeeping bill provides the necessary language to allow the department to disburse money to all the eligible programs included in HB 1249, Chapter 127 known as the breakfast and wellness bill passed last session. Vote 16-0.

HB 238, establishing a committee to study limited liability for school teachers. **INEXPEDIENT TO LEGISLATE.**

Rep. Barbara E. Shaw for Education: Although the sponsor's attempt to protect teachers from unreasonable suits is appreciated, the committee believes it is better to stay with current law that prohibits frivolous law suits against teachers and allows teachers to use necessary restraints to protect themselves and children. Vote 17-0.

HB 302, requiring notice of construction or expansion of a public school. **INEXPEDIENT TO LEGISLATE.**

Rep. Barbara E. Shaw for Education: This bill was originally drafted at the request of the Department of Transportation, which now respectfully requests ITL. The Department of Education and DOT have worked out a notification system, without legislation, that informs the DOT by a list of building projects. Vote 19-0.

HB 431, establishing a commission to study academic and financial requirements for recipients of Pell grants. **INEXPEDIENT TO LEGISLATE.**

Rep. Pamela G. Price for Education: This bill proposed a 12 member commission to study the Pell Grant Program. Specific tasks of the commission were to study the maximization of leverage and the placement of academic benchmarks for Pell Grant Students, and to study the financial criteria for enrollment in an associate's degree program at no cost to the student. The membership of the proposed commission included representatives from the University System, and the Regional Community Technical College System. It has been identified that the topic could be included within the scope of the Public Higher Education Commission. The prime sponsor agrees with this plan; thus this bill is deemed to be unnecessary. Vote 19-0.

HB 242, relative to the declaration of candidacy form. **OUGHT TO PASS.**

Rep. Shawn N. Jasper for Election Law: This bill eliminates the requirement to list a candidate's party affiliation twice on the declaration form. In place of the second disclosure the form will simply state "...the party in which I am now registered." Vote 15-0.

HB 353-L, relative to public access to ballots prior to their destruction. **INEXPEDIENT TO LEGISLATE.**

Rep. James R. Splaine for Election Law: This legislation would allow state election ballots that have already been used on election day to be available for analysis and research after the election prior to their destruction. The intent was good, but the committee felt this was not a good thing to do, especially since some handwriting on the ballots could identify votes or the research could be misused. We should always guarantee the privacy of the voter's ballot and the integrity of the election process. Vote 15-0.

HB 364, requiring that the order of names on ballots be determined by lottery. **INEXPEDIENT TO LEGISLATE.**

Rep. Shawn N. Jasper for Election Law: The committee is retaining HB 358 which deals with the same subject matter as there are many reasonable proposals on how the listing of candidates names should be determined. The committee would like to work with the Secretary of State to find a procedure which is both reasonable and easy to administer. Vote 12-1.

HB 367, relative to incompatible offices. **OUGHT TO PASS.**

Rep. Charles F. Weed for Election Law: This is a "housekeeping" bill recommended by the Secretary of State to clear up an ambiguity in the 2006 election wherein a filed candidate for the House of Representatives became a candidate for the Senate. This bill makes it possible for the candidate to choose which of the two incompatible offices he or she will run for in the general election if he or she received the nomination for one office by write-in votes. Vote 15-0.

HB 142, relative to the sale of out-of-state animals. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Linda J. McCarthy for Environment and Agriculture: The original bill exempted incorporated or chartered humane societies from certain requirements of a statute requiring licenses and animal health certificates with the exception that dogs imported into New Hampshire for sale or transfer must be accompanied by an official health certificate. The amendment requires that any persons or other entity engaged in the sale or transfer of live animals or birds as household pets allow the premises in which the animals are housed to be subject to inspection and licensure by the department of agriculture, markets, and food of the state of New Hampshire when aforementioned animals are transferred to the final owner within the state of New Hampshire. This shall be regardless of whether or not a fee for the animal is required. In the case of licensees without a physical facility in New Hampshire, an exemption from inspection shall be made, however, every imported dog, cat, or ferret shall be required to be accompanied by an official health certificate which the licensee shall submit to the department for review within one month of the date of the certificate. The amendment would further require that all cats and dogs transferred from an animal shelter facility shall be accompanied by an official health certificate, if the cat or dog was imported into the state for transfer with or without a fee. Finally the definition of "broker" as any individual or entity acting as agent or intermediary in negotiating, buying, selling, or transferring dogs, cats, or ferrets when transfer to the final owner occurs in New Hampshire is added as a new paragraph. Vote 19-0.

Amendment (0265h)

Amend the bill by replacing all after the enacting clause with the following:

1 Sale of Animals and Birds; License Required. Amend RSA 437:1 to read as follows:

437:1 License Required. No person, firm, corporation or other entity shall engage in the business of selling or the business of placing or giving away, with or without a fee or donation required, to the public, live animals or birds customarily used as household pets unless the premises on which they are housed, harbored or displayed for such purposes are duly licensed and inspected by the department of agriculture, markets, and food of the state of New Hampshire. This section shall also apply to commercial kennels *and to any person, firm, corporation, or other entity engaged in the business of, including activity as a broker, selling, placing, giving away, or importing live animals or birds customarily used as household pets for sale, resale, or transfer to the public, with or without a fee required, and whether or not a physical facility is owned by the licensee in New Hampshire when transfer to the final owner occurs within New Hampshire. These provisions shall not effect the provisions of RSA 437:7.*

2 Bird and Animal Inspections. Amend RSA 437:8 to read as follows:

437:8 Inspections. Inspections of all premises as described in RSA 437:1 shall be made at reasonable times, but in no case less frequently than every 6 months. Any duly appointed agent of any humane society or S.P.C.A. incorporated in the state of New Hampshire acting under the authority and direction of the department or an official representative of the department may make said inspections at any reasonable time. *Licensees without a physical facility in New Hampshire shall be exempt from facility inspection, though interstate health certificates or official health certificates for every imported dog, cat or ferret handled by the licensee shall be submitted to the department for review within one month of the date of writing of the certificate.*

3 Health Certificate for Cats. Amend RSA 437:13-a, IV to read as follows:

IV. All incorporated or chartered humane societies with operating shelters in the state of New Hampshire are exempt from the requirements of this section relative to selling or transferring cats except that all cats transferred out of an animal shelter facility shall have a form of positive identification, including but not limited to a tattoo, collar, microchip, ear tag, or any other permanent form of identification approved by the commissioner of agriculture, markets, and food and shall be vaccinated against rabies in accordance with RSA 436, *and shall be accompanied by an official health certificate if the cat was imported into the state for transfer or without a fee.*

4 Breeder's Health Certificate. Amend RSA 466:6-a, IV to read as follows:

IV. All incorporated or chartered humane societies with operating shelters in the state of New Hampshire are exempt from the requirements of this section relative to selling or transferring dogs *except that dogs which have been imported into the state for transfer with or without a fee shall be accompanied by an official health certificate.*

5 Dogs, Cats and Ferrets. Amend RSA 437:10, III(c) to read as follows:

(c) All animal shelters shall comply with the provisions of RSA 437:13-a, IV *and RSA 466:6-a, IV.*

6 New Paragraph; Broker; Definition. Amend RSA 437:2 by inserting after paragraph IV the following new paragraph:

V. "Broker" means any individual or entity acting as agent or intermediary in negotiating, buying, selling, or transferring dogs, cats, or ferrets when transfer to the final owner occurs in New Hampshire.

7 Effective Date. This act shall take effect 60 days after its passage.

AMENDED ANALYSIS

This bill expands license requirements for sellers of domestic animals and requires that all out of state dogs, cats, and ferrets sold in New Hampshire be accompanied by an official health certificate.

HB 207, establishing a commission to study and make recommendations on the expansion of the New Hampshire Agricultural Innovation Program. **OUGHT TO PASS.**

Rep. Timothy D. O'Connell for Environment and Agriculture: The study commission authorized by this bill is based on the recommendation of a chartered study committee, HB 229, Chapter 78:1 from the 2005 session. The specific duties of this commission would primarily focus on the administration, and oversight of any expansion of the current New Hampshire Agricultural Innovation Program. Additional duties include exploring opportunities for partnering with existing programs in neighboring states and the feasibility of forming public/private partnerships for administrative and technical support. The New Hampshire Department of Agriculture, Markets, and Food together with the UNH Cooperative Extension Service most likely will continue to have direct involvement with any program. The current program consists only of providing selected applicants business planning assistance through a USDA Rural Development grant. Vote 18-1.

HB 193, relative to liquor and wine representative licenses. **INEXPEDIENT TO LEGISLATE.**

Rep. Maurice L. Pilotte for Executive Departments and Administration: This bill would allow liquor and wine licensees to hold additional licenses. The concerns of the committee are the potential loss of income to the state in addition to the objection of the Liquor Commission which we have directed to oversee this industry and which has succeeded in generating and contributing millions of dollars every year to the general fund (FY 2006 - \$130 M). The commission is committed to proactively looking at changes in the landscape of this industry and propose adaptations as they have, for example, on the treatment of in-state micro-breweries and the distilling of vodka in an in-state winery. Vote 16-0.

HB 307, relative to examinations of electricians by the electricians' board. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Alida I. Millham for Executive Departments and Administration: This bill allows for computerized testing for licensure of electricians by the electricians' board. The amendment adds the word proctored to computerized testing. Vote 13-0.

Amendment (0519h)

Amend the bill by replacing sections 2 and 3 with the following:

2 Fees. Amend RSA 319-C:6-b to read as follows:

319-C:6-b Fees. The board, with the approval of the commissioner of safety, shall establish *application* fees for examination of applicants, *fees* for licensure, for renewal, and for late renewal of licenses to practice under this chapter, and for transcribing and transferring records and other services. *The fee for examination shall not include fees charged by and paid to an examination entity approved by the board.* The fees established by the board shall be sufficient to produce estimated revenues equal to 125 percent of the direct operating expenses of the board for the previous fiscal year. Fees collected shall be deposited in the fire standards and training and emergency medical services fund, established in RSA 21-P:12-d, and used for the purposes of operating expenses of the electricians' board. Fees collected in excess of actual operating expenses shall be deposited in the general fund as unrestricted revenue.

3 Examinations. Amend RSA 319-C:8 to read as follows:

319-C:8 Examinations for License. Each applicant for licensure shall present to the board, on forms furnished by the board, a written application for examination and license, containing such information as the board may require, accompanied by the required *application* fee established by the board. *Proctored* examinations shall be written [or], written and oral, *oral, or computerized as approved by the board*, and shall be of a thorough and practical character. They shall include such provisions of the National Electrical Code as the board may deem appropriate. Any person failing to pass his or her first examination may be reexamined at any subsequent examination meeting of the board *or by an examination entity approved by the board*, and thereafter may be examined as often as he or she may desire upon *submitting the written application for examination and license and* payment of the required *application* fee as set forth in this chapter.

HB 308, relative to continuing education for licensed electricians. **INEXPEDIENT TO LEGISLATE.** Rep. Alida I. Millham for Executive Departments and Administration: This bill would require master electricians or journeymen to provide proof of completing an electrical code update certification course within one year subsequent to the adoption of an update to the National Electrical Code by the board of electricians. The sponsor requested ITL on this bill as it is not ready for passage at this time. Vote 14-0.

HB 546, establishing a commission to study liquor commission procedures and policies. **INEXPEDIENT TO LEGISLATE.**

Rep. Pamela V. Manney for Executive Departments and Administration: At the request of the sponsor, this bill was ITL. This was done so that this bill could be rolled into several other bills being considered regarding the procedures and policies of the liquor commission. Vote 14-0.

HB 573-FN, relative to the collection of judgments. **INEXPEDIENT TO LEGISLATE.**

Rep. Hector M. Velez for Executive Departments and Administration: This bill would make state agencies collection agencies for private debt. The Attorney General testified against the bill. For those individuals who depend on their licenses to make a livable wage, they would not be able to support themselves or their families making it more difficult to repay any debt. The New Hampshire judicial system has other options for collection of debt. Vote 12-1.

CACR 3, relating to the appropriation of certain revenues. Providing that the scope of appropriations from certain revenues shall be broadened. **INEXPEDIENT TO LEGISLATE.**

Rep. Kenneth L. Weyler for Finance: This CACR and CACR 4 are very similar. This bill was sent to Finance and the other to Public Works. CACR 4 has a wider scope than CACR 3. CACR 3 deals only with railways being funded from the highway fund; CACR 4 allows public transportation to use the highway fund. The sponsor of CACR 3 decided that she liked the wider scope better. She asked to have CACR 3 withdrawn. The committee complies with her request and votes CACR 3 ITL. Vote 22-1.

HB 220, removing the requirement that the department of transportation file a report with the state treasurer regarding special accounts within the highway fund. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Kenneth L. Weyler for Finance: The highway fund is constitutionally restricted as to where the dollars can be spent. Although it is intended to be used to maintain our road system, language also allows its use to maintain traffic control on those roads. This language allows funds to transfer to the Department of Safety, and the judicial branch. A total of nine agencies receive highway funds. The Finance Committee believes that in order to provide proper oversight, it must see reports from these nine agencies, first as to how they propose to spend the money, followed by annual

reports as to how the dollars were spent. Similar requirements have been given in the past, yet compliance was lax. An important part of this amendment states that no funds shall be disbursed to a department of the executive branch or the judicial branch if it has not filed the report. This bill is important for the legislature's role of financial oversight. Vote 21-0.

Amendment (0242h)

Amend the title of the bill by replacing it with the following:

AN ACT establishing a reporting requirement for departments that receive highway funds.

Amend the bill by replacing all after the enacting clause with the following:

1 Reporting Requirement For Departments that Receive Highway Funds. RSA 9:9-c is repealed and reenacted to read as follows:

9:9-c Reporting Requirement for Departments that Receive Highway Funds. All departments of the executive branch and the judicial branch that receive highway fund transfers for any purpose shall file a report with the commissioner of administrative services on or before January 1 of each year for the preceding fiscal year. The format of the report shall be determined by the commissioner and shall be in a format similar to reports filed pursuant to RSA 9:4-d.

I. The report shall include:

(a) A description of each of the programs supported by highway funds.

(b) Actual expenditures incurred by programs supported whole or in part by the highway fund transfers compared to amounts budgeted for those purposes.

II. No highway fund transfers shall be disbursed to a department of the executive branch or the judicial branch if the department or judicial branch has not filed the report required under this section for the preceding fiscal year.

2 Effective Date. This act shall take effect 60 days after its passage.

AMENDED ANALYSIS

This bill requires each department of the executive branch and the judicial branch to annually report its use of highway fund transfers to the department of administrative services.

HB 258-FN-A, making an appropriation to the department of safety, bureau of emergency management, to fund a grant to the town of Goffstown for installation of sewer and water systems in areas damaged by flooding in May 2006. **INEXPEDIENT TO LEGISLATE.**

Rep. Robert A. Foose for Finance: The bill makes an appropriation to the Department of Safety, Bureau of Emergency Management, to fund a grant of \$2,000,000 to the Town of Goffstown for installation of sewer and water systems in areas damaged by flooding in May 2006. A majority of the committee concluded that the damage was not the direct result of the flooding in May 2006. The presentation to the committee also did not reflect a clear business plan or evidence that the community had dealt with the problem of persistent flooding over time. Finally, the committee expressed its belief that responsibility for sewer and water system improvement should rest with local communities. Vote 19-1.

HB 259-FN-A, making an appropriation to the department of safety, bureau of emergency management, to fund a grant to the town of Goffstown for drainage installation in areas damaged by flooding in May 2006. **INEXPEDIENT TO LEGISLATE.**

Rep. Robert A. Foose for Finance: The bill makes an appropriation to the Department of Safety, Bureau of Emergency Management, to fund a grant of \$500,000 to the Town of Goffstown for drainage installation in areas damaged by flooding in May 2006. A majority of the committee concluded that the damage was not the direct result of the flooding in 2006. As was the case with HB 258-FN-A, the presentation to the committee also presented the same problems noted in the blurb for HB 258-FN-A. Vote 19-1.

HB 378-FN-A, making an appropriation to the department of health and human services for start-up and equipment costs of the Tri-County Community Action Program dental facility. **INEXPEDIENT TO LEGISLATE.**

Rep. Fran Wendelboe for Finance: This bill would appropriate \$350,000 to Tri-County Community Action Program for the purpose of funding start-up and equipment costs for a public health dental facility in Tamworth, NH, which was built with federal funds. The committee heard testimony that dental access is sorely needed in most counties to serve children on the Medicaid program. However, testimony from the Public Works Committee indicated that federal funds could

have been used for this purpose and were all used for the building construction. Public Works requested Finance ITL this bill. This is the third time this matter has come before the legislature. The committee felt that it would prefer to work on access to dental care as a state wide issue as part of the budget process. Vote 24-0.

HB 402-FN-A, making an appropriation to the Good Neighbor Health Clinic. **INEXPEDIENT TO LEGISLATE.**

Rep. Larry A. Emerton for Finance: This bill would appropriate \$50,000 a year for two years to the Good Neighbor Health Clinic in White River Junction, Vermont. The clinic is supported, in part, by volunteer time given by physicians and dentists and a \$65,000 appropriation from the State of Vermont. Approximately 60% or about 550 of their clients are residents of New Hampshire. Most of their patients are "low income adults" who have little or no insurance, and live in the Upper Valley region of New Hampshire and Vermont. The clinic provides an excellent much needed service to those clients on a limited budget. As there are several other clinics of this type located on the New Hampshire/Vermont border, it was suggested by the committee that they get together with the New Hampshire Department of Health and Human Services to coordinate their operation and come back to us for help in the future. Vote 21-3.

HB 417-FN-A, making a supplemental appropriation to the department of safety for overtime pay to state troopers. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Stephen B. Stepanek for Finance: The Department of Safety came before the committee with a request to appropriate \$375,000.00 for state police overtime pay. When questioned as to why this overtime account was overspent we were told that their request for this line item was cut and that is why they now needed to request an additional appropriation. The committee determined that instead of appropriating new money the more correct accounting method would be to authorize the Department of Safety to transfer the funds from other line items within their budget, which had surpluses, into this line item so long as those transfers did not exceed \$375,000.00. Vote 19-1.

Amendment (0171h)

Amend the title of the bill by replacing it with the following:

AN ACT allowing the department of safety to transfer funds within the budget of the division of state police.

Amend the bill by replacing all after the enacting clause with the following:

1 Transfers Authorized. Notwithstanding the provisions of RSA 9:16, RSA 9:16-a, RSA 9:17, RSA 9:17-a, and RSA 9:17-c, the commissioner of administrative services, upon the request of the commissioner of safety, is authorized to transfer within and among any and all components and class codes of the budget of the division of state police for fiscal year 2007, regardless of funding source or mix, sufficient funds to cover overtime obligations for state police overtime, witness fees, and the accompanying benefits. The total amount transferred shall not exceed \$375,000. When making the transfers, every effort shall be made to maintain the original funding sources for the amounts transferred.

2 Effective Date. This act shall take effect upon its passage.

AMENDED ANALYSIS

This bill allows the department of safety to transfer funds appropriated for fiscal year 2007 within the budget of the division of state police.

HB 590-FN, changing the state migratory waterfowl stamp into a license issued by the fish and game department. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Mark S. Clark for Fish and Game: This bill changes the migratory waterfowl stamp program into a license. The bill as amended will save the Fish and Game Department approximately \$11,000.00 a year. The savings are in the reduction of the administrative costs associated with the stamp program. The department's goal is to be efficient as possible. This bill helps accomplish that goal. Vote 14-0.

Amendment (0342h)

Amend the bill by replacing section 3 with the following:

3 Application; Fees; Waterfowl Licenses. Amend RSA 214:9, XII to read as follows:

XII.(a) If the applicant wishes to hunt migratory waterfowl, \$4.00, and the agent shall thereupon issue a state migratory waterfowl ~~[stamp]~~ **license** which shall entitle the licensee to hunt, shoot, kill, and take migratory waterfowl during such time and in such manner and numbers as may be allowed under RSA 209:6. ~~[The agent shall be entitled to retain a fee of \$.50 for each migratory waterfowl stamp sold and all migratory waterfowl stamps sold at the department headquarters or any subagency thereof shall charge the same fee which shall be credited to the general fish and game fund.]~~

~~(b) Notwithstanding any of the general provisions for the expiration of fish and game licenses, any state migratory waterfowl stamp issued under subparagraph (a) shall expire on June 30 of each year.]~~

HB 657, authorizing the executive director of fish and game to issue moose hunting adventure permits. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Lyle E. Bulis for Fish and Game: This bill creates an opportunity for terminally ill youths to have an opportunity to fulfill a lifetime wish. There will be two (2) permits available for all legal game each species. These would include moose, bear, deer, turkey, game birds, and waterfowl. These permits will be granted to the national organization "Hunt of a Lifetime." Any local sponsoring organizations must work with this national organization to assure fairness in administration of this program. Vote 13-0.

Amendment (0613h)

Amend the bill by replacing all after the enacting clause with the following:

1 New Section; Fish and Game; Moose Hunting Adventure Permits. Amend RSA 208 by inserting after section 1-a the following new section:

208:1-aa Hunting Adventure Permits. Notwithstanding the application, licensure, and permit requirements of Title 18, the executive director of fish and game may annually issue, at no cost, up to 2 licenses or permits to Hunt Of A Lifetime, Inc., to provide hunting adventures to New Hampshire residents under 21 years of age with life-threatening, critical, or terminal illnesses. These licenses or permits shall be in addition to any limited hunting permit opportunities issued under Title 18, shall be at no cost to the organization, shall be valid anywhere in the state open to the taking of the species selected, and shall be valid to take game as specified in RSA 207:1, IX of either sex during the established hunting season for that species, with the exception of moose permits which shall be valid from October 1st through the end of the regular moose season. If the person using the permit is not properly licensed, he or she shall be exempt from licensing requirements under RSA 214:1 and hunter education requirements under RSA 214:23-a. The hunter shall be accompanied by a properly licensed person who is 21 years of age or older. The provisions of Title 18 and rules adopted thereunder which relate to method and manner of taking and reporting shall apply to hunting adventure permits.

2 Effective Date. This act shall take effect 60 days after its passage.

AMENDED ANALYSIS

This bill authorizes the executive director of fish and game to issue up to 2 moose hunting adventure permits to a nonprofit organization providing hunting adventures to persons under 21 years of age with life-threatening, critical, or terminal illnesses.

HB 658, prohibiting the taking of game by use of a tranquilizer. **OUGHT TO PASS.**

Rep. Margaret E. Porter for Fish and Game: This bill prohibits the use of a tranquilizer propelled from a bow, crossbow, or firearm for taking game animals or game birds. This does not apply to the Executive Director of Fish and Game or the Executive Director's authorized agents. This bill is supported by the Fish and Game Department and the Fish and Game Commissioner. Vote 13-0.

HB 286-FN, relative to a Medicaid waiver for family planning services. **OUGHT TO PASS.**

Rep. Barbara C. French for Health, Human Services and Elderly Affairs: This bill requires the Department of Health and Human Services to develop a Medicaid waiver to extend Medicaid-allowable family planning services to Medicaid-eligible clients. New Hampshire currently provides only 60 days of postpartum family planning services for eligible women. Family planning waivers extend the period of time for Medicaid-enrolled women to receive approved family planning services. It also leads to better health outcomes for both the mother and child. This will be cost neutral to the state Medicaid program. Vote 18-0.

HB 299, relative to the sale of hypodermic syringes. **INEXPEDIENT TO LEGISLATE.**

Rep. Joan H. Schulze for Health, Human Services and Elderly Affairs: If enacted, this bill would eliminate a program that has been legislatively in place since 2000, saving lives of New Hampshire citizens. HIV/AIDS and Hepatitis C are transmitted through blood. This program permits the sale of 10 syringes to persons over age 18 years without a prescription from a pharmacy. Single use syringes are advised for injection drug users. Pharmacy participation is voluntary; no registration is required prior to participation. Pharmacies are required to distribute a brochure containing information about drug treatment, HIV screening and syringe disposal to all individuals purchasing syringes without a prescription. The sponsors of this bill did not cite any negative effects of the program in place. They did state persons from the border state of Massachusetts were purchasing needles/syringes in New Hampshire. Massachusetts and all other New England states have availability of needles at pharmacies. Lives have been saved with this program. We don't want to expose anyone to dirty needles. This is a prevention tool. The committee strongly supports the ITL vote and believes passage of this bill would be a step backwards. Vote 17-0.

HB 327, relative to pharmacy-based immunization delivery. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Peter L. Batula for Health, Human Services and Elderly Affairs: This bill as amended has a clear intent to assist the general public in getting a vaccination if the governor declares a state of emergency during a situation like a pandemic. Under current law, the governor, in a declaration of a state of emergency, can call upon trained pharmacists to assist in vaccinating the public. This bill as amended allows that vaccination to occur in a pharmacy if a state of emergency is declared. Because of a current high vaccination rate in this state, the committee saw no reason to expand further the authorization consent. Vote 17-0.

Amendment (0343h)

Amend the title of the bill by replacing it with the following:

AN ACT allowing collaborative pharmacy practice agreements to include pharmacy locations during declared emergencies.

Amend the bill by replacing all after the enacting clause with the following:

1 New Subparagraph; Pharmacies; Collaborative Pharmacy Practice Agreements. Amend RSA 318:16-a, III by inserting after subparagraph (d) the following new subparagraph:

(e) Pharmacy locations during a state of emergency declared by the governor.

2 Effective Date. This act shall take effect 60 days after its passage.

AMENDED ANALYSIS

This bill allows collaborative pharmacy practice agreements to include pharmacy locations during a declared state of emergency.

HB 345, relative to certification of death certificates. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Joan H. Schulze for Health, Human Services and Elderly Affairs: The prime objective of this bill is to improve the accuracy and timeliness of the completed death certificate. This is best accomplished by making two changes to the "Burial and Internment" and "Vital Records Administration" statutes: 1) granting Advanced Registered Nurse Practitioners (ARNP) the authority to certify as to the cause of death; and, 2) requiring that all certifying providers do so by electronic means. Certification as to a cause of death is most likely to be accurate when done by the provider who diagnosed and treated the patient in the last illness. (If a death is unexpected, it falls to the State Medical Examiner to determine cause.) Although this was always a physician when Chapter 290 was first enacted (1935), that is no longer the case. Patients who die at home or in a nursing home are often under the care of an ARNP in their final days. The ARNP has the most current and accurate knowledge relative to cause of death and should be the provider of choice to certify the death record. The NH Board of Nursing has affirmed that the knowledge and skills needed to identify the cause of death for patients in their care is within the existing scope of practice of the nurse practitioner. Scope of practice for the nurse practitioner is codified in law, in the newly revised and updated Nurse Practice Act (NH RSA 326-B). HB 345 would make the outdated burial and vital records statutes consistent with the Nurse Practice Act and current medical practice. Ten other states, including ME, MA and CT, authorize this practice. The second issue is the electronic filing. By requiring all certifying providers to complete the death certificate electronically, accuracy and time-

liness are further enhanced. For example, the computer software to be used by the state will not accept misspelled entries or incomplete dates. Electronic filing also expedites the process, which allows family members to move forward with funeral arrangements, especially important in cases where the remains are to be cremated or transported across state lines. The principal cost associated with this change is in training the certifying providers, but funds exist within the department to cover this cost. The amendment eliminates the committee which was to determine statutory changes necessary to accomplish changes made in section one of the original bill. It also clarifies statutes germane to this bill. This bill represents a collaborative effort of the stakeholders, and offers a win-win solution. There was no opposition. Vote 15-1.

Amendment (0087h)

Amend the bill by replacing all after the enacting clause with the following:

1 Vital Records; Definition Added. Amend RSA 5-C:1, I to read as follows:

I. ***“Advanced registered nurse practitioner” or “ARNP” means a registered nurse currently licensed by the New Hampshire board of nursing under RSA 326-B:18.***

I-a. “Ancestry” means the nationality, lineage, or country in which the person or his or her ancestors were born before their arrival in what is now the United States, and includes American Indians and native Alaskans, and reflects what the person considers himself or herself to be and is not based on percentages of ancestry.

2 Vital Records; Definitions. Amend RSA 5-C:1, III-V to read as follows:

III. “Attending physician” ***or “ARNP”*** means that physician ***or ARNP***, if any, who treated the patient during his or her last sickness.

IV. “Certifier” means the person attesting to the facts of a vital record event.

V. “Certifying physician” ***or “ARNP”*** means the physician ***or ARNP*** who determines and indicates the cause of death.

3 Death Registration Forms. Amend RSA 5-C:62, I to read as follows:

I. For every death that occurs in the state of New Hampshire, a death record shall be filed electronically by a funeral director, certifying physician ***or ARNP***, next of kin, designated agent, or clerk of the town or city with the division within 36 hours of death and prior to final disposition or entombment.

4 Death Registration Forms. Amend RSA 5-C:62, II(e) to read as follows:

(e) If the place of death is a hospital, the record shall indicate: whether the person was an in-patient or whether the person was an outpatient or emergency room patient, in which case the person shall have arrived alive at the hospital’s emergency room and died while in the emergency room as an outpatient. The record shall also indicate whether the person was transported while alive to the hospital but determined by a physician ***or ARNP*** to be dead at the time the hospital received the body. The city or town where the hospital is located shall be shown as the city or town of death occurrence.

5 Death Registration Forms. Amend RSA 5-C:62, III(c)-(e) to read as follows:

(c) The official capacity of the registered nurse or physician, which shall be: attending/associate physician ***or ARNP***; non-attending physician ***or ARNP***; pronouncing registered nurse; medical examiner/deputy medical examiner; temporary/assistant medical examiner; or assistant deputy medical examiner, non-physician.

(d) The date pronounced.

(e) Certification that the above information provided is true, which shall include but not be limited to the pronouncing person’s signature; the name and title of the individual who pronounced death; the New Hampshire license number of the physician ***or ARNP***, if applicable; whether the death was referred to the medical examiner; and the name and address of the physician ***or ARNP*** responsible for determining the cause of death. The individuals listed above shall provide or verify for the death record whether or not the death was referred to the medical examiner.

6 Death Registration Forms. Amend RSA 5-C:62, IV-VI to read as follows:

IV. The individuals listed in paragraph III, except the pronouncing registered nurse, shall provide the following information:

(a) The immediate cause of death and the interval between onset and death; other factors or conditions of which death was a consequence, when applicable, and the interval between onset and death; other significant conditions contributing to death but not related to the immediate cause of death.

(b) Whether or not an autopsy was performed and whether or not autopsy findings were available prior to the determination of the cause of death.

(c) The manner of death, indicated as natural, accidental, suicidal, homicidal, pending investigation, or undetermined.

(d) If the death involved an injury, the month, day, year, and time of injury shall be provided. If the exact date of injury is unknown, it shall be approximated by the person completing the medical certification, noted as approximated or estimated on the death record, and, if it is not possible for the physician *or ARNP* to make an estimation, the date of injury shall be indicated as "unknown". If the exact time of injury is unknown, it shall be approximated by the person completing the medical certification and noted as approximated or estimated on the death record. If it is not possible for the physician *or ARNP* to make an estimation, the time shall be indicated as "unknown." "Unknown a.m." or "unknown p.m." shall not be an acceptable entry. The record shall also indicate whether the injury occurred while at work, a description of how the injury occurred, and the physical location or place of injury.

(e) The name, address, title, and license number of the certifier and the date certified.

V. The certifying physician *or ARNP* shall indicate whether he or she is or is not the same individual who pronounced the death. The certifying physician *or ARNP* shall indicate whether he or she is the medical examiner. He or she shall sign the form, attesting to the veracity of the information as follows:

(a) A certifying physician *or ARNP* shall attest to the veracity of the stated time, date, and place that the death occurred.

(b) A medical examiner shall attest to the veracity of the stated time, date, place, cause, and manner of the death.

VI. The attending or certifying physician *or ARNP* shall provide the following information for a supplemental death certificate: the deceased's name; the date of death; the time of death; the place of death; the name of the pronouncer; the New Hampshire [physician] license number of the pronouncer; the official capacity of the pronouncer; the date pronounced dead; the signature of the pronouncer; the date signed; whether this death was referred to the medical examiner; the cause of death; the performance of autopsy, indicated as yes or no; the availability of autopsy findings prior to determination of cause of death, indicated as yes or no; the manner of death; the time, date, and place of injury; whether or not the injury occurred at work; the description of how the injury occurred; the location specified as street and number or rural route number, city or town, and state; the name of the certifier; the signature and title of the certifier; the New Hampshire [physician] license number of the certifier; the date signed; and the name and address of the person who determined the cause of death.

7 Initiation of the Death Record. Amend RSA 5-C:63, I-VIII to read as follows:

I. When a death occurs in a hospital or health care facility and the death is not under the jurisdiction of a medical examiner pursuant to RSA 611:4, the person in charge of such facility, or his or her designated representative, shall provide the funeral director, next of kin, or designated agent with: a partially completed death record and the name and address of the physician *or ARNP* who will be responsible for supplying the cause of death information before the body is removed.

II. The funeral director, next of kin, or designated agent shall, pursuant to RSA 290:12, leave with the hospital or health care facility, or with the person from whom the body is received, a receipt showing the name of the decedent, the name and license number of the funeral director, if applicable, the name and address of the person to whom the body is released, and the date and hour of removal from the facility.

III. No hospital or other health care facility shall give a partially completed death record which includes medical certification or which is awaiting medical certification to anyone other than a funeral director, next of kin, or designated agent.

IV. When a death occurs some place other than an institution, the funeral director, next of kin, or designated agent, who first assumes custody of the dead body, shall initiate the death record if the attending physician *or ARNP* has not done so.

V. The funeral director, next of kin, or designated agent shall obtain the information on the deceased for completion of the death record from the next of kin or the best qualified person or source available and shall obtain the medical certification from the attending physician *or ARNP* or medical examiner if not already provided.

VI. If additional information becomes known regarding the death, an additional death record marked "supplemental" shall be sent to the division and shall include information listed in RSA 5-C:62, VI.

VII. Upon receipt and inspection of a paper death certificate the state registrar shall return an incomplete certificate to the appropriate persons for completion or verify that the certificate is complete by signing and dating the certificate.

VIII. The reverse side of the death certificate shall contain a notice to the physician *or ARNP* regarding the release of a body in accordance with RSA 290:2-a, the necessity of a pronouncement in accordance with RSA 290:1-b and indication of who can provide alternate signatures in the absence of the attending physician *or ARNP*, in accordance with RSA 290:1-b. The reverse side of the certificate shall also contain a reference to those categories of death that fall under the jurisdiction of the medical examiner as specified in RSA 611:4.

8 Medical Certification of the Death Record. Amend RSA 5-C:64 to read as follows:

5-C:64 Medical Certification of the Death Record.

I. Medical certification shall consist of the pronouncement of death and the medical certification of the cause of death.

II. The medical certification on the death record shall be completed by the attending physician *or ARNP* or certifying physician *or ARNP* and made available to the funeral director, next of kin, or designated agent as soon as possible but no later than 36 hours after the time of death.

III. Medical certification of the death record shall be the direct responsibility of the attending physician *or ARNP* unless the death is referred to the medical examiner pursuant to RSA 611:4.

IV. For cases where a death is not within the jurisdiction of the medical examiner, the attending physician's *or ARNP's* responsibility to complete the death certificate shall be as follows:

(a) For deaths occurring in a hospital, the attending physician *or ARNP* shall be that physician *or ARNP* who had been responsible for the treatment of the patient while the deceased had been hospitalized.

(b) For deaths occurring in a nursing home or in a similar non-acute care hospital or institution, the attending physician *or ARNP* shall be the physician *or ARNP* who regularly attends to the medical needs of the nursing home residents or the resident's personal physician *or ARNP* if the resident was under the care of such physician *or ARNP*.

(c) For deaths occurring at home, the attending physician *or ARNP* shall be the deceased's own physician *or ARNP*.

V. In all instances, medical certification shall include the cause of death information and contain the pronouncement of death.

VI. In the absence of the deceased's attending physician *or ARNP*, or with the attending physician's *or ARNP's* approval, the medical certification of a death due to natural causes shall be completed by one of the following individuals: the attending physician's *or ARNP's* associate physician *or ARNP* in medical practice, the chairperson of the applicable clinical department, the chief medical officer of the hospital, the physician *or ARNP* or designee who performed an autopsy upon the decedent, or the physician *or ARNP* on duty if the death occurred in the hospital emergency room. The person determining the cause of death shall attest to its accuracy. The person determining the cause of death shall have viewed the deceased within 24 hours after death.

VII. In the absence of the attending physician *or ARNP*, a physician or a registered nurse in accordance with RSA 290:1-b, shall pronounce that death has occurred without any reference to the cause of the death by indicating his or her official status as the pronouncing physician or as pronouncing registered nurse; attesting to the accuracy of the time, date, and place of death either by signature or by an electronic process as outlined in RSA 290:1; and providing the name and address of the physician *or ARNP* who will complete the medical certification.

VIII. When the death has not occurred in a hospital and circumstances require the death certificate to be certified by a medical examiner as provided by RSA 611, the following procedure shall be followed:

(a) When the cause of death cannot be determined within 36 hours, the medical examiner shall indicate the word "pending" in the cause of death section.

(b) When the manner of death cannot be determined within 36 hours, the medical examiner shall be authorized to show "pending investigation" in the manner of death section of the medical certification.

(c) If the procedure in subparagraphs (a) or (b) is followed, then the medical examiner shall provide to the division updated information on the cause of death and manner of death, as applicable, within 90 days of the date of death, or as soon as practicable in cases of missing persons, accidental deaths, or homicides.

IX. In cases where an autopsy is to be performed, the cause of death shall not be deferred pending a full report of microscopic and toxicological studies. Supplemental death certificate information shall be submitted by the medical examiner to the division as additional information becomes available and when autopsy results or other investigation indicates a need to correct the original cause of death information.

X. Pursuant to RSA 290:1, the funeral director, next of kin, or designated agent shall ensure the medical certification has been completed prior to filing the death record with the state registrar.

XI. In cases where the result of an autopsy, police investigation, laboratory report, or a similar source is needed before a final determination of the cause of death can be made, the attending physician *or ARNP* or the medical examiner shall utilize the term "pending" for the applicable items on the death record. The physician *or ARNP* shall file a statement of findings with the division within 90 days of the date of death, or as soon as practicable. The findings shall be in writing and submitted to the division on a supplemental death certificate information form supplied by the division or on the physician's *or ARNP's* letterhead and include information necessary for the completion of a supplemental death certificate.

XII. The division shall follow up with the certifying physician *or ARNP* or the medical examiner on any death record where cause of death was shown as "pending". The division shall attempt to obtain the missing information by initiating a written query to the certifying physician *or ARNP* or the medical examiner 90 days from the date of death to determine current status of the investigation and shall initiate monthly contact thereafter until the final determination of death has been made.

XIII. When an autopsy finding differs from the original cause of death reported on the death record, the attending physician *or ARNP* who was responsible for the original death record shall send the division a supplemental death certificate information form to reflect the revised cause of death. The supplemental report shall be made part of the existing death record, and the division shall amend the death record with the cause of death as reported on the autopsy.

XIV. If there is any question on the part of the physician *or ARNP* as to whether he or she qualifies as the attending physician *or ARNP* under RSA 290:1, a determination shall be made by the medical examiner.

XV. If it is not possible to determine who is the attending physician *or ARNP* for purposes of preparing the death certificate, the matter shall be brought to the attention of the state registrar who shall make a request to the state medical examiner, or designee, to determine who the attending physician *or ARNP* is upon review of the facts submitted.

9 Responsibility of Funeral Director, Next of Kin, or Designated Agent. Amend RSA 5-C:66, I and II to read as follows:

I. When a funeral director, next of kin, or designated agent is requested to take custody of a body, he or she shall first ascertain whether a pronouncing physician, pronouncing registered nurse, *ARNP*, or a medical examiner has established the cause of death and released the body for final disposition.

II. If a physician *or ARNP* was present at or immediately after the death, the funeral director, next of kin, or designated agent shall obtain medical certification for the death record in accordance with RSA 5-C:64.

10 Reporting Fetal Deaths. Amend RSA 5-C:74, I to read as follows:

I. A copy of the fetal death report prepared pursuant to RSA 290:1-a and RSA 5-C:75, shall be forwarded to the division by either the person in charge of the hospital or institution where the fetal death occurred, or the physician *or ARNP* in attendance at or after delivery when a fetal death occurs outside a hospital or institution.

11 Delayed Registration of Death. Amend RSA 5-C:80, II- IV to read as follows:

II. A certificate of death registered 6 months or more after the date of death or the presumed date of death shall be marked "delayed" by the registrar and include the date of the delayed filing.

III. For those certificates filed 6 months or more after the date of death, the physician, *ARNP*, or medical examiner and the funeral director shall submit an affidavit stating the reason why the death certificate was not filed in a timely manner.

IV. In the absence of the attending physician *or ARNP* or medical examiner and the funeral director, the certificate shall be filed by the next of kin or designated agent of the decedent. The certificate shall be accompanied by a notarized affidavit of the person initiating the filing, swearing to the accuracy of the information and explaining the reasons why the certificate has not been filed previously. Two additional notarized or certified documents that identify the decedent, the decedent's date and place of death, and the circumstances surrounding the decedent's death shall also be attached to the certificate. A summary statement of the evidence submitted in support of the delayed registration shall be prepared by the clerk of the town or city of death occurrence on the certificate, and the certificate shall be marked "delayed." When all of the evidence has been gathered, the clerk of the town or city of death occurrence shall forward the application for a delayed death certificate and all supporting documentation to the state registrar.

12 Queries. Amend RSA 5-C:81, II to read as follows:

II. Queries to obtain missing information or to clarify submitted information shall be made by the division to the attending or certifying physician *or ARNP* concerning the cause of death and related information, and to the funeral director, next of kin, or designated agent concerning all other information.

13 Amendments and Corrections to a Death Record. Amend RSA 5-C:94, II-V to read as follows:

II. The certifying physician *or ARNP* shall initiate corrections concerning the cause of death, in writing, to the division, by signing and completing the supplemental death certificate as described in RSA 5-C:62.

III. The correction authorization from the physician *or ARNP* shall be retained by the division in accordance with the retention schedule for a death record as established by this chapter. The death record shall be amended and noted as being amended.

IV. In the case where the division queries the physician *or ARNP* concerning the cause of death, the physician *or ARNP* shall send notice of the change in the cause of death directly to the division.

V. The physician's *or ARNP's* information concerning a change in the cause of death shall be retained by the division in accordance with the retention schedule for a death record established by this chapter. The death record shall be amended and noted as being amended.

14 Retention Schedule. Amend RSA 5-C:96, I(b) to read as follows:

(b) All death records, including changes affecting medical certification, submitted by the physician *or ARNP* to either the clerk of the town or city or the division.

15 Death Records. Amend RSA 290:1 to read as follows:

290:1 Death Records. Whenever a person shall die, the physician *or advanced registered nurse practitioner* attending at the last sickness shall complete and deliver to the funeral director, next-of-kin as defined in RSA 290:16, IV, or designated agent under RSA 290:17 or shall complete electronically and forward immediately to the division of vital records administration, a death record, duly signed, setting forth, as far as may be, the facts required by the department of state, division of vital records administration pursuant to RSA 5-C:63. The cause or causes of death shall be printed or typed on all records required to be furnished under this section. The funeral director, next-of-kin, or designated agent shall transmit electronically the record of death to the division of vital records administration *and the certifying physician or advanced registered nurse practitioner shall then electronically complete the cause of death information into the transmitted record.*

16 Fetal Death Records. Amend RSA 290:1-a to read as follows:

290:1-a Fetal Death Records. Whenever a fetal death shall occur, the attending physician *or advanced registered nurse practitioner* shall fill out a fetal death record. This will be solely a statistical report.

17 Effective Date. This act shall take effect upon its passage.

AMENDED ANALYSIS

This bill allows advanced registered nurse practitioners to certify death records.

HB 389, establishing a commission to study long-term care oversight and enforcement. **INEXPEDIENT TO LEGISLATE.**

Rep. Thomas E. Donovan for Health, Human Services and Elderly Affairs: This bill created a commission to study the survey process in nursing homes, which is reported to have become increasingly arbitrary and inconsistent. It also would evaluate whether the frail elderly are being

adequately protected by the Department of Health and Human Services against abuse and neglect. The committee believed that these critical issues will be better and more expeditiously resolved by the Health and Human Services Oversight Committee. Vote 18-0.

HB 483-FN, relative to mosquito control districts. **OUGHT TO PASS.**

Rep. James R. MacKay for Health, Human Services and Elderly Affairs: This bill recommends putting into statute two recommendations of the Arbovirus Task Force established in 2006 by HB 1464 (Chapter 284). The first recommendation was to clarify a possible ambiguity between two statutes (RSA 141-C:25 and RSA 430). This bill would provide the same definition of a mosquito control district. The second change repeals an exemption that had been inadvertently placed in statute. There will be no exemption from the application registration certificate and permit requirements (RSA 430:33). These are essentially housekeeping changes, but they are of significance in the operation of the mosquito control districts. This bill was requested by the Department of Health and Human Services and is supported by the Department of Agriculture. Vote 17-0.

HB 490-FN, requiring hospitals to make the price of certain common procedures available to the public. **INEXPEDIENT TO LEGISLATE.**

Rep. Suzanne S. Butcher for Health, Human Services and Elderly Affairs: The sponsor requested that this bill be Inexpedient to Legislate, as it was requested by a constituent who has since asked that it be withdrawn. The New Hampshire Insurance Department and the Commissioner's Advisory Committee on Health Insurance recently released the Health Care Cost of Procedure web site (HealthCost.org), so the bill is unnecessary. Vote 18-0.

HB 542, establishing a study committee to study the approval process of nursing education programs. **OUGHT TO PASS.**

Rep. Joan H. Schulze for Health, Human Services and Elderly Affairs: This bill will establish a committee to study the approval process of nursing education programs. There is a need to develop a system of providing nursing education programs that are fully accredited by a national body. Currently there is no New Hampshire law against anyone starting a nursing program without academic oversight and no requirement for accreditation. The current process requires legislation for someone to begin the approval procedure. The Department of Education next looks at the program, and lastly the New Hampshire Board of Nursing reviews the curriculum and faculty. Perhaps this system is backwards. There is a nursing shortage in New Hampshire. Fewer than 500 nurses graduate each year and fewer than 400 remain in New Hampshire. Another current issue is the private proprietary LPN programs that have been opening at our borders. Massachusetts requires their programs to have an affiliation with a higher education body and full national accreditation. Vermont also has accreditation requirements. Thus, the schools are opening in New Hampshire where there are no such accreditation or affiliation requirements. Legislation or administrative rules are desirable. New Hampshire Post Secondary Education rules allow individuals to apply to open a school as long as they have bonding and financial support for their program. Upon licensure, the program submits their curriculum to the Board of Nursing for review. The Board doesn't know if the owners are truthful about the bonding or their financial status. They often do not find out until the school has left the area, leaving with the students' money and not providing the education. Vote 18-0.

HB 152, relative to public access to meeting minutes. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Maureen C. Mooney for Judiciary: This bill will specifically clarify the amount of time in which the minutes of public meetings are due for public inspection. The bill modifies the deadline to "not more than 5 business days" after a meeting, and explicitly defines a business day. The decision for 5 business days was the result of much discussion. However, the committee concluded that finalized minutes after 5 business days will ensure they are ready for the next meeting of the public body. Vote 16-0.

Amendment (0214h)

Amend the bill by replacing sections 1 and 2 with the following:

1 Joint Committee on Legislative Facilities; Minutes of Meetings. Amend RSA 17-E:6 to read as follows:

17-E:6 Committee Records. A record of the minutes of committee and subcommittee meetings shall be available to the public and shall be maintained in accordance with the provisions

of RSA 91-A:2, II. The minutes shall include the names of members in attendance and of persons appearing before the committee, and a brief description of the subjects discussed, votes taken, and final dispositions of all actions. The minutes shall be available and open to public inspection [~~within 144 hours of~~] **not more than 5 business days after** the meeting. The record of the minutes of the joint committee on legislative facilities and the house and senate subcommittees shall be available at the office of legislative accounting. ***For the purposes of this section, a business day means the hours of 8 a.m. to 5 p.m. on Monday through Friday, excluding national and state holidays.***

2 Right-to-Know Law; Minutes of Meetings. Amend RSA 91-A:2, II to read as follows:

II. All public proceedings shall be open to the public, and all persons shall be permitted to attend any meetings of those bodies or agencies. Except for town meetings, school district meetings and elections, no vote while in open session may be taken by secret ballot. Any person shall be permitted to use recording devices, including, but not limited to, tape recorders, cameras and videotape equipment, at such meetings. Minutes of all such meetings, including names of members, persons appearing before the bodies or agencies, and a brief description of the subject matter discussed and final decisions, shall be promptly recorded and open to public inspection [~~within 144 hours of~~] **not more than 5 business days after** the public meeting, except as provided in RSA 91-A:6, and shall be treated as permanent records of any body or agency, or any subordinate body thereof, without exception. Except in an emergency or when there is a meeting of a legislative committee, a notice of the time and place of each such meeting, including a nonpublic session, shall be posted in 2 appropriate places or shall be printed in a newspaper of general circulation in the city or town at least 24 hours, excluding Sundays and legal holidays, prior to such meetings. An emergency shall mean a situation where immediate undelayed action is deemed to be imperative by the chairman or presiding officer of the body or agency who shall employ whatever means are available to inform the public that a meeting is to be held. The minutes of the meeting shall clearly spell out the need for the emergency meeting. When a meeting of a legislative committee is held, publication made pursuant to the rules of the house of representatives or the senate, whichever rules are appropriate, shall be sufficient notice. If the charter of any city or guidelines or rules of order of any body or agency described in RSA 91-A:1-a require a broader public access to official meetings and records than herein described, such charter provisions or guidelines or rules of order shall take precedence over the requirements of this chapter. ***For the purposes of this paragraph, a business day means the hours of 8 a.m. to 5 p.m. on Monday through Friday, excluding national and state holidays.***

AMENDED ANALYSIS

This bill requires minutes of meetings under the right-to-know law to be available for public inspection 5 business days after the public meeting. Current law requires such minutes to be available within 144 hours of the public meeting.

HB 509, relative to constitutionality of law. **INEXPEDIENT TO LEGISLATE.**

Rep. Lucy M. Weber for Judiciary: The bill reserves to the General Court the sole power to determine the constitutionality of any law unless there is a specific constitutional delegation to the contrary. The committee does not believe that the desire of the sponsor will be furthered by this bill. The testimony regarding the desired result of the bill did not follow logically from the text. Vote 13-0.

HB 426, relative to workers' compensation rates and resolution of disputes relative to classification of employees or independent contractors. **OUGHT TO PASS WITH AMENDMENT.**

Rep. John K. Knowles for Labor, Industrial and Rehabilitative Services: This bill gives the labor commissioner legal authority to resolve disputes over employee classifications, and provides an appeal process. The cost of one new position will be \$55,000, which is funded from non-general funds. Vote 17-1.

Amendment (0476h)

Amend the bill by replacing all after section 3 with the following:

4 New Paragraph; Hearings and Awards; Premiums. Amend RSA 281-A:43 by inserting after paragraph II the following new paragraph:

III.(a) The commissioner may conduct investigations and hold hearings to resolve disputes between an employer and the employer's workers' compensation carrier regarding whether per-

sons engaged by the employer are employees or independent contractors for the purposes of determining whether an additional premium charge is to be paid by the employer for workers' compensation insurance.

(b) Any party in interest aggrieved by any order or decision of the commissioner under this paragraph may appeal to the superior court.

5 Position Established. There is hereby established within the department of labor the position of administrative assistant I, labor grade 16, to carry out the responsibilities required under RSA 281-A:43, III as inserted by section 4 of this act. The position shall be funded from monies from the workers' compensation division of the department of labor.

6 Effective Date. This act shall take effect January 1, 2008.

AMENDED ANALYSIS

This bill authorizes the insurance commissioner to conduct investigations and hold hearings to resolve disputes regarding whether persons engaged by the employer are employees or independent contractors for the purposes of workers' compensation. This bill also allows the insurance commissioner to conduct investigations and hold hearings regarding whether additional premium charges should be paid by an employer for workers' compensation insurance.

HB 471-FN-A, relative to workers' compensation compliance in the construction sector and continually appropriating a special fund. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Saghir A. Tahir for Labor, Industrial and Rehabilitative Services: This bill is the result of the work of a committee created by HB 157, Chapter 132, 2005, to study procurement methods for public works projects by state and local government agencies. Among other things, the study revealed problems in determining if contractors on state projects are in compliance with workers' compensation laws. The bill closes a loophole in the existing law that has allowed construction workers to avoid carrying workers' compensation insurance. The law will continue to provide for up to three executive officers in a corporation to be excluded from compulsory coverage requirements provided they are not actively engaged in on-site work on any construction site in the state of New Hampshire. Any contractor or subcontractor performing work on state transportation or other major construction projects must provide to the commissioners of transportation, administrative services, and labor verification that they are in compliance with all workers' compensation laws. A civil penalty of up to \$2,500 shall be assessed by the Commissioner of Labor to any contractor, subcontractor, or independent contractor who falsifies information or fails to comply with this law. The employer shall be assessed a civil penalty of \$100 per employee per day of non-compliance. Fines will be placed in a workers' compensation fraud fund dedicated to investigation and compliance activities pertaining to labor and insurance law. Vote 14-3.

Amendment (0449h)

Amend the bill by replacing all after the enacting clause with the following:

1 Workers' Compensation; Exclusion Limited. Amend RSA 281-A:18-a, I to read as follows:

I. Any corporation or limited liability company may elect to exclude up to 3 executive officers or members from the compulsive coverage requirements under this chapter; *provided, that such exclusion shall not apply to any individual, regardless of status or title within a corporation or limited liability company, who is actively engaged in on-site work on any construction site within the state of New Hampshire.*

2 New Section; State Transportation Projects; Certification of Current Workers' Compensation Coverage Required. Amend RSA 228 by inserting after section 4-a the following new section:

228:4-b Certification of Current Workers' Compensation Coverage Required.

I. Prior to any work being done by an individual contractor on any state transportation project carried out under this subdivision, such contractor, including all subcontractors and independent contractors, working on a highway, bridge, or other construction, reconstruction, alteration, or maintenance project funded by the department shall provide to the commissioner of transportation:

(a) A certificate of insurance of his or her current workers' compensation coverage in New Hampshire for the classification of work to be completed on the project;

(b) A sworn statement that this coverage shall remain in effect for the duration of his or her anticipated work on the project;

(c) A completed work certificate, provided pursuant to RSA 281-A:4-b, that shall include the total number of employees anticipated to be employed by such contractor, subcontractor, or independent contractor on the project during the contract period, delineated by the National Council on Compensation Insurance (NCCI) classification code applicable to the scope of work to be performed;

(d) A copy of the contractor's compliance with a current written safety program, if applicable, as filed with the commissioner of labor under RSA 281-A:64, II and proof of an existing joint loss management committee as required under RSA 281-A:64, III, if applicable; and

(e) Any other information the commissioner of transportation deems necessary.

II. If any highway, bridge, or other construction contractor, subcontractor, or independent contractor who might otherwise claim an exclusion under RSA 281-A:18-a is directly performing the work on a project covered under this section, such contractor, subcontractor, or independent contractor shall comply with the provisions of this section.

III. The commissioner of labor shall assess any contractor, subcontractor, or independent contractor who falsifies information or fails to comply with this section a civil penalty of up to \$2,500 and in addition, such an employer shall be assessed a civil penalty of \$100 per employee per day of noncompliance. The chief executive officer, chief financial officer, and members of limited liability companies shall be held personally liable for the payment of fines and such contractor, subcontractor, or independent contractor shall not be allowed to bid or work on state projects for up to 5 years. The state shall be entitled to recover from the violator all costs and fees directly associated with uncovering falsified information supplied under this section.

IV. There is hereby established a nonlapsing workers' compensation fraud fund in the office of the state treasurer. All funds collected under this section shall be deposited in such fund and continually appropriated to the commissioner of labor to be used for investigations and compliance activities required under this section and related sections pertaining to labor and insurance law.

V. The commissioner of labor shall appoint as many individuals as necessary to carry out the department's responsibilities under this section.

VI. On a quarterly basis, the commissioners of transportation and labor shall post electronically for public access and shall also circulate to all other public works construction or renovation awarding authorities of state government, including the college and university systems and the department of education office of building aid, a list of any highway, bridge, or other construction contractors, subcontractors, or independent contractors found to be in violation of this section, including the amount fined and the period of time such persons or entities shall not be allowed to bid or work on state projects.

3 New Paragraph; Major Projects. Amend RSA 21-I:80 by inserting after paragraph V the following new paragraph:

VI.(a) Prior to any work being done by an individual contractor on any major project under this section, such contractor, including all subcontractors and independent contractors, shall provide to the commissioner of administrative services:

(1) A certificate of insurance of his or her current workers' compensation coverage in New Hampshire for the classification of work to be completed on the project;

(2) A sworn statement that this coverage shall remain in effect for the duration of his or her anticipated work on the project;

(3) A completed work certificate, provided pursuant to RSA 281-A:4-b, that shall include the total number of employees anticipated to be employed by such contractor, subcontractor, or independent contractor on the project during the contract period, delineated by the National Council on Compensation Insurance (NCCI) classification code applicable to the scope of work to be performed;

(4) A copy of the contractor's compliance with a current written safety program, if applicable, as filed with the commissioner of labor under RSA 281-A:64, II and proof of an existing joint loss management committee as required under RSA 281-A:64, III, if applicable; and

(5) Any other information the commissioner of administrative services deems necessary.

(b) If any construction contractor, subcontractor, or independent contractor who might otherwise claim an exclusion under RSA 281-A:18-a is directly performing the work on a project covered under this section, such contractor, subcontractor, or independent contractor shall comply with the provisions of this section.

(c) The commissioner of labor shall assess any contractor, subcontractor, or independent contractor who falsifies information or fails to comply with this section a civil penalty of up to

\$2,500 and in addition, such an employer shall be assessed a civil penalty of \$100 per employee per day of noncompliance. The chief executive officer, chief financial officer, and members of limited liability companies shall be held personally liable for the payment of fines and such contractor, subcontractor, or independent contractor shall not be allowed to bid or work on state projects for up to 5 years. The state shall be entitled to recover from the violator all costs and fees directly associated with uncovering falsified information supplied under this section.

(d) All funds collected under this section shall be deposited into the nonlapsing workers' compensation fraud fund established in RSA 228:4-b, IV dedicated to investigation and compliance activities required by this section and related sections pertaining to labor and insurance law.

(e) The commissioner of labor shall appoint as many individuals as necessary to carry out the department's responsibilities under this paragraph.

(f) On a quarterly basis, the commissioners of administrative services and labor shall post electronically for public access and shall also circulate to all other public works construction or renovation awarding authorities of state government, including the college and university systems and the department of education office of building aid, a list of any construction contractors, subcontractors, or independent contractors found to be in violation of this section, including the amount fined and the period of time such persons or entities shall not be allowed to bid or work on state projects.

4 New Section; Work Certificate for Contractors Before Beginning Their Work on Public Projects. Amend RSA 281-A by inserting after section 4-a the following new section:

281-A:4-b Work Certificate for Contractors Before Beginning Their Work on Public Projects. The commissioner of labor shall provide a work certificate form to meet the requirements of the departments of transportation and administrative services, in accordance with RSA 228:4-b or RSA 211:80, VI, for contractors, subcontractors, and independent contractors to certify their compliance with RSA 281-A.

5 New Subparagraph; Workers' Compensation Fraud Fund. Amend RSA 6:12, I by inserting after subparagraph (252) the following new subparagraph:

(253) Moneys deposited in the workers' compensation fraud fund established in RSA 228:4-b, IV.

6 Effective Date. This act shall take effect 60 days after its passage.
Referred to the Committee on Ways and Means.

CACR 12, relating to county personnel. Providing that county treasurers, registers of probate, county attorneys, sheriffs, and registers of deeds shall be appointed by the county commissioners. **INEXPEDIENT TO LEGISLATE.**

Rep. Andy Peterson for Municipal and County Government: This constitutional amendment which proposes sweeping changes to county government encountered significant opposition when heard before the committee. Without separate elected officers, many were concerned that county government could suffer a loss of independent review procedures and transparency in decision making, now subject to the will of the voters. In addition, testimony revealed that registers of probate are not county officers per se, but rather state employees, whom the amendment includes in officials required to be appointed by the county commissioners. Vote 16-0.

HB 237, establishing a committee to study the relationship between land use regulation and the cost of housing. **INEXPEDIENT TO LEGISLATE.**

Rep. Robert J. Elliott for Municipal and County Government: This issue is very complicated and has been studied and re-studied many times and in many other bills. Such issues are best discussed at local town meetings and school district meetings. The state does not determine local taxes, the local budget does. This bill is superfluous. Vote 14-0.

HB 256, relative to the duties and powers of town treasurers. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Bennett F. Moore for Municipal and County Government: This bill allows a town treasurer to delegate, while retaining responsibility of the treasurer's duties under written procedures acceptable to the selectman or town manager. The bill also updates the language describing financial institutions that are used for deposits and investments of town funds and adds a requirement for an investment policy used by the selectmen. The amendment clarifies language on remittance from the tax collector, town clerk or other town officials to any designee of the treasurer. The amendment also updates, for cities, the language describing financial institutions to be used for deposits and investments and similarly adds the requirement for an investment policy for cities. Vote 16-0.

Amendment (0170h)

Amend the bill by replacing sections 5-6 with the following:

5 Duties of Tax Collector. Amend RSA 41:35, I to read as follows:

I. Every collector of taxes shall keep in suitable books a fair and correct account in detail of the taxes due, collected, and abated, and of all property sold for nonpayment of taxes, which books shall be public records. A tax collector shall ~~[pay]~~ **remit** all money collected to the town treasurer, **or to the town treasurer's designee as provided by RSA 41:29, VI**, at least on a weekly basis, ~~[or on a daily basis at the discretion of the commissioner of revenue administration. Such daily or weekly payments may be deferred until the]~~ **or daily whenever** tax receipts total \$500 **or more**. ~~[He]~~ **The collector** shall make final payment to the town treasurer of all moneys collected ~~[by him]~~ within 10 days after the close of the town's fiscal year. Failure to ~~[deposit]~~ **remit** collections on a timely basis **as required by this paragraph** shall be cause for immediate removal from office under RSA 41:40. He **or she** shall submit ~~[his]~~ **the** tax books and lists to the treasurer and selectmen for inspection and computation when requested so to do and if they discover any errors therein they shall immediately notify the town auditors thereof; and the auditors shall promptly examine the collector's records and make a written report to the selectmen and the department of revenue administration of their findings, conclusions and recommendations. The collector shall be at ~~[his]~~ **a** usual place of business, or any other place, at least one day each month for at least 2 hours continuously for the transaction of tax business, which time and place shall be printed upon the tax bills sent out by the collector. ~~[He]~~ **The collector** shall make a written report to the town at the end of each fiscal year which shall contain the amount of the taxes committed to him **or her** to collect; the amount of taxes collected, together with interest thereon; the amount of discounts allowed; the amount of taxes abated; the total amount of uncollected taxes; and an account of all sales of real estate ~~[by him]~~ to collect taxes. Upon written request therefor the collector shall provide the selectmen with an itemized list of the uncollected taxes at the end of the fiscal year.

6 Accounting for Receipts of Permit Fees. Amend RSA 261:165 to read as follows:

261:165 Accounting for Receipts of Permit Fees. Each designated city official and town clerk shall keep an account of the money received by him **or her** for vehicle permit fees collected. The clerk or official shall ~~[pay]~~ **remit** all fees collected to the town or city treasurer, **or to the treasurer's designee as provided by RSA 41:29, VI**, at least on a weekly basis, or ~~[more frequently at the discretion of the commissioner of revenue administration. Such payments may be deferred until the]~~ **daily whenever** permit fee receipts total \$500 **or more**. Such permit fees shall be used for the general purposes of the city or town. Failure of the city official or town clerk to ~~[deposit]~~ **remit permit fees on a timely basis as required by this section** ~~[such funds on a weekly basis, or, if required by the commissioner of revenue administration, on a more frequent basis;]~~ shall be cause for the immediate removal **from office under RSA 41:40** of the city official or **under RSA 41:16-c of the** town clerk ~~[from office. The commissioner of revenue administration shall remove the town clerk pursuant to RSA 41:16-c or city official pursuant to RSA 41:40].~~ Town clerks shall be paid on orders drawn on the town treasurer by the selectmen at the rate of \$.50 for each permit issued.

Amend the bill by inserting after section 6 the following and renumbering the original sections 7 to read as 9:

7 Duties of City Treasurer. Amend RSA 48:16 to read as follows:

48:16 City Treasurer; Duties.

I. The city treasurer shall have custody of all moneys belonging to the city. The treasurer shall deposit the same in participation units in the public deposit investment pool established pursuant to RSA 383:22, or in ~~[solvent banks in the state]~~ **federally insured banks chartered under the laws of New Hampshire or the federal government with a branch within the state**, except that funds may be deposited in **federally insured** banks outside the state if such banks pledge and deliver to a third party custodial bank or the regional federal reserve bank collateral security for such deposits~~[-]~~ **of the following types**:

(a) United States government obligations~~[-]~~;

(b) United States government agency obligations~~[-]~~; or

(c) Obligations of the state of New Hampshire in value at least equal to the amount of the deposit in each case. ~~[The amount of collected funds on deposit in any one bank shall not at any time exceed the sum of its paid-up capital and surplus, except that a city with a population in excess of 50,000 is authorized to deposit funds in a solvent bank in excess of the paid-up capital surplus of said bank.]~~

II. The city treasurer shall keep in suitable books provided for the purpose a fair and correct account of all sums received into and paid from the city treasury, and of all notes given by the city, with the particulars thereof. At the close of each fiscal year, ~~[he]~~ **the treasurer** shall make a report to the city giving a particular account of all his ~~or her~~ financial transactions during the year **and account balances at year end.** ~~[He]~~ **The treasurer** shall furnish to the mayor and council statements from ~~[his]~~ **the treasurer's** books, and submit ~~[his]~~ **the** books and vouchers to them and to the city auditors for examination, whenever so requested.

III. Whenever the city treasurer has in custody an excess of funds which are not immediately needed for the purpose of expenditure, the city treasurer shall, ~~[with the approval of the mayor and a majority of the city council]~~ invest the same in **accordance with the investment policy adopted by the mayor and board of aldermen or city council under RSA 47:6, II.** ~~The treasurer may invest in obligations of the United States government, in participation units in the public deposit investment pool established pursuant to RSA 383:22, in [savings bank] deposits [of banks incorporated under the laws of the state of New Hampshire or in certificates of deposits and repurchase agreements of banks incorporated under the laws of the state of New Hampshire or in banks recognized by the state treasurer. At least yearly, the city council or board of aldermen shall review and adopt an investment policy for the investment of public funds in conformance with the provisions of applicable statutes], including money market accounts or certificates of deposit, of federally insured banks chartered under the laws of New Hampshire or the federal government with a branch within the state.~~

IV. The city treasurer shall pay out fees held pursuant to RSA 673:16, II upon the order of the local land use board or its designated agent or in the case of moneys held pursuant to RSA 674:44-a upon order of the heritage commission.

V. ~~[Any person who directly or indirectly receives any such funds or moneys for deposit or for investment in securities of any kind shall.]~~ **The treasurer shall insure that** prior to acceptance of ~~[such funds,]~~ **any moneys for deposit or investment, including repurchase agreements, the federally insured bank shall** make available at the time of such deposit or investment an option to have such funds secured by collateral having a value at least equal to the amount of such funds. Such collateral shall be segregated for the exclusive benefit of the city. Only securities defined by the bank commissioner as provided by rules adopted pursuant to RSA 386:57 shall be eligible to be pledged as collateral.

8 Financial Supervision. Amend RSA 47:6 to read as follows:

47:6 Financial Supervision.

I. The city councils shall take proper care that no money be paid from the city treasury unless previously granted and appropriated, and shall secure a just and prompt accountability from all persons entrusted with the receipt, custody or disbursement of the money or funds of the city, or the care of its property.

II. *At least yearly, the city council or board of aldermen shall review and adopt an investment policy for the investment of public funds in conformance with the provisions of applicable statutes and shall advise the treasurer of such policies.*

HB 261, prohibiting the Carroll county attorney from engaging in the private practice of law. **OUGHT TO PASS.**

Rep. Betsey L. Patten for Municipal and County Government: RSA 7:34 states that the county attorneys shall be under the direction of the Attorney General and outlines their duties. Seven of the ten counties also have their own provisions for each county attorney, whether or not they can engage in private practice and accept fees. Carroll County does not allow its county attorney to engage in the private practice of criminal law but he or she may engage in the private practice of civil law. Traditionally the delegation felt that this meant that the position of county attorney was not a full time position. HB 261 removes the option of engaging in private practice and therefor gives the delegation the ability to decide whether they will have a full or part time county attorney. Vote 15-0.

HB 262, allowing municipalities to exclude certain retirement assets from consideration in qualifying for the elderly property tax exemption. **INEXPEDIENT TO LEGISLATE.**

Rep. Eric G. Stohl for Municipal and County Government: This bill seeks to exclude the total value of assets in 401(k) plans, IRA's (simple and Roth) and SEP plans, and other similar tax deferred retirement plans from being included with other types of assets when determining if a person

qualifies for an elderly exemption. The committee heard testimony that compared the overall value of a Defined Benefit Plan, which is a traditional pension plan that pays out a monthly disbursement, to the overall value of these other retirement plans, which are referred to as Defined Contribution Plans. The committee unanimously feels that because the disbursements from the two types of plans are controlled in two different ways, the implementation of a process to monitor the disbursements would be very complex. The disbursements of these certain retirement assets that are in this bill are controllable by their owners just as other assets such as additional property would be. There is also another method that the municipalities could use if they so desire and that would be to raise the asset limit. There are municipalities in the state that have asset limits as high as \$300,000 with one as high as \$500,000. These asset limits are over and above the value of the owner's actual residence and land not to exceed 2 acres which are excluded in determining a person's asset limit for the elderly exception. Vote 15-0.

HB 316, relative to the 5-year assessment review by the department of revenue administration. **OUGHT TO PASS.**

Rep. Larry Brown for Municipal and County Government: It was the agreement of the committee that New Hampshire reliance on the property tax as the primary source of state and local government funding requires the highest degree of clarity and confidence in both municipal assessment and state review. The (sequential) substitution of April 1, 2007 for April 1, 2002 ensures that the DRA Assessment review schedule(s) are continued as good policy and good practice through to April 1, 2012. Vote 14-1.

HB 320, relative to the tax exemption for solar energy systems. **INEXPEDIENT TO LEGISLATE.** Rep. Anthony F. Simon for Municipal and County Government: This proposal would add language to the existing statutory property tax exemption for solar energy systems. The sponsor introduced this bill as a result of a disagreement that he is having with his town regarding his continuing to enjoy the benefit of this exemption at his own home. There was no testimony that other taxpayers are having the same problem either in this town or any other municipality. The committee did not hear any evidence that this situation illustrates a statewide problem or a need for a legislative change. Rather, this is an individual problem involving one taxpayer and one town. There are ample procedures which already exist by which the sponsor may appeal his assessment or otherwise pursue his grievance. Vote 17-0.

HB 356, relative to requiring a comprehensive impact report before a municipality approves or disapproves a proposed development project. **INEXPEDIENT TO LEGISLATE.** Rep. Jessie L. Osborne for Municipal and County Government: Currently all land use issues in the municipalities are under the jurisdiction of the planning, zoning and conservation committees. HB 356 would authorize the governing body of a municipality to require comprehensive impact reports. By adding another set of regulations, the cost of development in New Hampshire will increase and affordable housing for New Hampshire citizens would be more out of reach than it is right now. The land use boards already have the tools they need to request any impact studies and they do request them. If the governing body is authorized to make land use decisions then the fundamental purpose for land use boards to deal with development is undermined. The committee felt that this was not an appropriate change to the planning and zoning processes. Vote 16-0.

HB 420, relative to the procedures for approving, reviewing, and transferring appropriations in county budgets. **INEXPEDIENT TO LEGISLATE.**

Rep. Jessie L. Osborne for Municipal and County Government: Each county delegation has the authority to determine procedures regarding any county appropriations and expenditures during the budget deliberations. Not every county has the same procedures. This bill establishes the same procedure for each county. The committee felt that the ideas in the bill would be better addressed by the Task Force to Study County Government, SB 319, Chapter 22:1, Laws of 2006 which has a report date of November, 2007. A copy of the file will be given to that committee for its recommendations. Vote 13-1.

HB 487, granting a property tax credit to persons aged 65 and older who have been residents for at least 10 years and not been convicted of a felony. **INEXPEDIENT TO LEGISLATE.** Rep. Bennett F. Moore for Municipal and County Government: This bill would have mandated a \$1,000 property tax credit on homes owned by residents aged 65 years or older. The credit would

increase by \$100 each year. The credit is not means tested but would be limited to persons who have not been convicted of a felony for at least 10 years. The committee's recommendation is based on the mandate provision, the lack of a means test and the difficulty of verifying a felony free person in and out of this state. Vote 15-0.

HB 524, relative to the submission of minutes of the county convention adopting the budget to the department of revenue administration. **INEXPEDIENT TO LEGISLATE.**

Rep. Betsey L. Patten for Municipal and County Government: In order for the Department of Revenue Administration to have the budget information from the counties to set local tax rates a set of the approved County Convention minutes when the vote was taken and the MS 42 form "Budget and Statement of Appropriation and Estimate of Revenue – County" have to be submitted. Sometimes it is difficult to get a quorum of the Delegation together to approve minutes. HB 524 would have extended the current 30 day requirement to a 60 day requirement. The committee felt that this issue would be better addressed by the Task Force to Study County Government, SB 319 Chapter 22;1, Laws of 2006 which has a report date of November, 2007. A copy of the file will be given to that committee for its recommendations. Vote 14-0.

HB 624-FN-L, imposing a temporary moratorium on property reassessments and statistical adjustments for all municipalities which have been reassessed at least once since 2003 and establishing a committee to study the rapidly increasing property taxes in New Hampshire. **INEXPEDIENT TO LEGISLATE.**

Rep. Laurie J. Boyce for Municipal and County Government: The basis for assessing land in New Hampshire is fair market value. Putting a moratorium on property assessments and statistical adjustments for a year ignores that basis of fair market value and creates inequity among local taxpayers. The valuation rate proposed in HB 624 was targeted for the 2006 valuation. Those tax rates have been set and bills have been sent out and most likely paid. Also the properties that had a change of ownership or had any modifications would not be under the temporary moratorium which creates a greater inequity among taxpayers. HB 624 also proposed a study committee to study and review what is already the charge of the Assessing Standards Board as outlined in RSA 21-J:14 (b). In order to continue making progress to the goal of having documented and transparent assessing practices in New Hampshire the committee voted that any moratorium is not a solution. Vote 15-0.

HB 645-FN-L, requiring notice to the public of a change in land use subject to the assessment of the land use change tax. **INEXPEDIENT TO LEGISLATE.**

Rep. Larry Brown for Municipal and County Government: It was the unanimous conclusion of the committee that the bill as presented was not necessary in order for any town to protect its interests when a change in land use tax was due. The committee fully supports such municipal forms and procedures which will ensure proper payment of taxes due, yet it feels these controls are already within the power of the municipality to set in place. Vote 16-0.

HB 477-FN, relative to redeeming tokens. **INEXPEDIENT TO LEGISLATE.**

Rep. Gene G. Chandler for Public Works and Highways: The New Hampshire Department of Transportation is opposed to this bill and the committee unanimously agreed. HB 477, if enacted, would allow the redemption of highway tokens for cash from July 1, 2007 to December 1, 2007. It was widely advertised for at least six months that the tokens would no longer be used when the E-Z Pass System was implemented, so everyone had plenty of notice and should not have stocked up on the tokens. Past testimony has shown that while it is uncertain how many tokens are in existence in public hands, in most cases it is just a few tokens per person. The cost of establishing an accounting procedure to handle cash refunds at the Department of Transportation could be quite costly and would seem to outweigh the benefits of returning small amounts of money to a few people. While sympathetic to those that hold the tokens, it is doubtful that few, if any, of those folks were not aware of the deadline and had ample time to use up any surpluses. Vote 15-0.

HB 486-FN, requiring that the effect of turnpike tolls on towns be proportional and reasonable. **INEXPEDIENT TO LEGISLATE.**

Rep. Franklin T. Tilton for Public Works and Highways: The committee unanimously voted to retain HB 592-FN as the vehicle to study the seven bills that it received regarding toll issues on the N. H. turnpike system. Among the topics that will be studied include: the removal of certain toll booths in Merrimack; the placement and removal of other main line, ramp and bridge toll

booths, whether the Legislature, rather than the Governor and Council, should determine toll amounts and discounts; and the relationship between toll revenues, the turnpike fund and the planned expansion and maintenance of the turnpike. Therefore, the committee is voting out this and the other five toll related bills, as inexpedient to legislate. Vote 15-0.

HB 512-FN, relative to commercial advertising on toll booths. **INEXPEDIENT TO LEGISLATE.**
Rep. Kevin K. Waterhouse for Public Works and Highways: The committee understands and appreciates this bill's attempt to raise needed revenue for the state, but we feel this bill is not the way to proceed. Toll booths can be dangerous enough without the added distractions of commercial advertising. The committee also disagreed with the bill's intent for the revenue raised on the turnpike system to be deposited into the general fund. Vote 15-0.

HB 588-FN-L, relative to Cates Hill Road and Jericho Lake Road in the city of Berlin. **OUGHT TO PASS.**

Rep. John R. Cloutier for Public Works and Highways: This bill was filed at the Department of Transportation's request and would reclassify two roads in Berlin. The first one, Cates Hill Road is now a state highway, but would become a Class V road and the responsibility of Berlin. In exchange, Jericho Lake Road, which is now Berlin's responsibility, would be reclassified to Class III and become a state highway. This proposed reclassification was suggested to help the state promote the new ATV park on Jericho Lake. According to the bill's fiscal note, the swap of road responsibilities involved in the reclassification will cost the Highway Fund no more than \$34,591 in FY 2008, and decreasing amounts thereafter through FY 2011. Vote 13-2.

HB 626-FN, relative to the establishment and removal of certain toll booths. **INEXPEDIENT TO LEGISLATE.**

Rep. Kevin K. Waterhouse for Public Works and Highways: The committee unanimously voted to retain HB 592-FN as the vehicle to study the seven bills that it received regarding toll issues on the N. H. turnpike system. Among the topics that will be studied include: the removal of certain toll booths in Merrimack; the placement and removal of other main line, ramp and bridge toll booths, whether the Legislature, rather than the Governor and Council, should determine toll amounts and discounts; and the relationship between toll revenues, the turnpike fund and the planned expansion and maintenance of the turnpike. Therefore, the committee is voting out this and the other five toll related bills, as inexpedient to legislate. Vote 15-0.

HB 627-FN, relative to uniform main line toll rates for the New Hampshire turnpike system. **INEXPEDIENT TO LEGISLATE.**

Rep. Dale R. Sprague for Public Works and Highways: The committee unanimously voted to retain HB 592-FN as the vehicle to study the seven bills that it received regarding toll issues on the N. H. turnpike system. Among the topics that will be studied include: the removal of certain toll booths in Merrimack; the placement and removal of other main line, ramp and bridge toll booths, whether the Legislature, rather than the Governor and Council, should determine toll amounts and discounts; and the relationship between toll revenues, the turnpike fund and the planned expansion and maintenance of the turnpike. Therefore, the committee is voting out this and the other five toll related bills, as inexpedient to legislate. Vote 14-1.

HB 631-FN-A, relative to the elimination of certain tolls. **INEXPEDIENT TO LEGISLATE.**

Rep. John A. Graham for Public Works and Highways: The committee unanimously voted to retain HB 592-FN as the vehicle to study the seven bills that it received regarding toll issues on the N.H. turnpike system. Among the topics that will be studied include: the removal of certain toll booths in Merrimack, the placement and removal of other main line, ramp and bridge toll booths, whether the Legislature, rather than the Governor and Council, should determine toll amounts and discounts; and the relationship between toll revenues, the turnpike fund and the planned expansion and maintenance of the turnpike. Therefore, the committee is voting out this, and the other six toll related bills, as inexpedient to legislate. Vote 14-0.

HB 638-FN, relative to lease agreements entered into by the department of transportation. **OUGHT TO PASS.**

Rep. John A. Graham for Public Works and Highways: This bill continues a policy authorized by the legislature in 2005 in the "Trailer Bill" (HB2). It allows the Commissioner of the Department

of Transportation to enter into lease agreements for vehicles and equipment at the discretion of the commissioner. This provides the department with the opportunity to lease specialized equipment either for short term use, or to "test drive" the equipment before purchasing it. Vote 16-0.

HB 705, relative to the disposal of highway or turnpike funded real estate. **OUGHT TO PASS.** Rep. John R. Cloutier for Public Works and Highways: This bill would exempt the exchange of certain state-owned lands for other lands of equal value from the process for disposal of highway or turnpike funded real estate. The bill was filed at the request of the Department of Transportation and simply allows the department to continue a common practice of exchanging real estate parcels with owners while buying property for highway projects, a practice that was inadvertently prohibited by the Legislature when it revised RSA 4:40 in 2005. Vote 17-0.

HB 805-FN-L, relative to a crosswalk in the town of Seabrook. **INEXPEDIENT TO LEGISLATE.**

Rep. Alfred C. Lerandean for Public Works and Highways: The sponsor had testified that the town is working with a developer to carry out this sidewalk/crossing as part of his development and will fund the crossing. As it has been taken care of we did not see the need for further action. Vote 16-0.

HB 806-FN-L, relative to a traffic light in the town of Seabrook. **INEXPEDIENT TO LEGISLATE.**

Rep. Franklin T. Tilton for Public Works and Highways: This bill proposed funding for a highway project that has not been included in any existing funding sources such as the 10-year plan, betterment funding, or state-aid highway funding. While the committee may look favorably on the desirability of the project, it does not believe that the project should be given priority funding above the many worthy projects still awaiting a funding source. The project proponents should continue to work with DOT to refine the project scope and to identify a source of funding. Vote 16-0.

HB 883-FN-A, relative to tolls. **INEXPEDIENT TO LEGISLATE.**

Rep. Patrick T. Long for Public Works and Highways: The committee unanimously voted to Retain HB 592-FN as the vehicle to study the bills that Public Works and Highways received regarding toll issues on the N. H. Turnpike System. Among the topics that will be studied include: The removal of certain toll booths in Merrimack; the placement and removal of other main line, ramp and bridge toll booths; whether the Legislature, rather than the Governor and Council, should determine toll amounts and discounts, and the relationship between toll revenues, the Turnpike Fund and the planned expansion and maintenance of the turnpike. Vote 17-0.

HB 252-FN, relative to exemptions from the permitting process for excavating and dredging. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Betsy McKinney for Resources, Recreation and Development: This bill as amended would exempt certain temporary seasonal docks from the department of Environmental Services' (DES) dredge and fill permit requirement unless the location is within 100 feet of a mapped, designated "prime" wetland area. In such cases, the Department must find clear and convincing evidence, after a public hearing, that the proposed activity will not harm the wetlands. Vote 14-0.

Amendment (0555h)

Amend the bill by inserting after section 1 the following and renumbering the original section 2 to read as 3:

2 Prime Wetland Setback. Amend RSA 482-A:11, IV to read as follows:

IV. The department shall not grant a permit with respect to any activity proposed to be undertaken in or ~~adjacent to~~ **within 100 feet of** an area mapped, designated and filed as a prime wetland pursuant to RSA 482-A:15 unless the department first notifies the local governing body, the planning board, if any, and the conservation commission, if any, in the municipality within which the wetlands lie, either in whole or in part, of its decision. Any such permit shall not be issued unless the department is able, specifically, to find clear and convincing evidence on the basis of all information considered by the department, and after public hearing, that the proposed activity, either alone or in conjunction with other human activity, will not result in the significant net loss of any of the values set forth in RSA 482-A:1. This paragraph shall not be construed so as to relieve the department of its statutory obligations under this chapter to protect wetlands not so mapped and designated.

AMENDED ANALYSIS

This bill exempts the installation of temporary seasonal docks on lakes or ponds that are not close to areas designated as prime wetlands.

This bill also prohibits the issuance of a permit for activity within 100 feet of a wetland area.

HB 284, relative to the repair of septic systems prior to the sale of waterfront property. **INEXPEDIENT TO LEGISLATE.**

Rep. Suzanne H. Gottling for Resources, Recreation and Development: This bill would have required the owner of waterfront property with a septic system to engage a certified septic system evaluator to determine the condition of the system prior to sale. The septic site assessment becomes part of the sales agreement and any needed repairs must be completed before sale. The Department of Environmental Services (DES) felt the bill is unnecessary as septic site assessments are already required before sale. These are done by septic system designers licensed by DES. This bill puts more demands on DES to implement a new program which would require two department positions. The New Hampshire Board of Realtors also stated its professional guidelines require disclosure of septic problems. It appeared to the committee that this bill duplicated existing regulations and practices. Vote 17-0.

HB 460, relative to conservation restrictions to protect public water supplies. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Marcia G. Moody for Resources, Recreation and Development: Any public water utility which acquires lands for the purpose of protecting a water supply and charges the acquisition to ratepayers, shall hold all such lands subject to a conservation restriction for the benefit of the ratepayers. This restriction is to assure that the property is retained forever in its undeveloped condition to prevent any use of the property that impairs or interferes with the perpetual protection of the quality and sustainable yield of surface water and groundwater resources on and under that property. Activities necessary for the provision of the public drinking water supply shall be permitted. Vote 14-0.

Amendment (0407h)

Amend RSA 362:4, VII as inserted by section 1 of the bill by replacing it with the following:

VII.(a) Any public water utility, as defined in RSA 362:4, which acquires lands for the purpose of protecting a public water supply shall hold all such lands subject to a conservation restriction for the benefit of the ratepayers in accordance with RSA 477:45-47 to assure that the property is retained forever in its undeveloped condition and to prevent any use of the property that impairs or interferes with the perpetual protection of the quality and sustainable yield of surface water and groundwater resources on and under that property.

(b) Such conservation restriction shall include, but not be limited to, prohibition of residential, industrial, and commercial development, roads except those allowed for maintenance of the public water supply, landfills, and the storage or disposal of hazardous or solid wastes.

(c) For the purposes of the conservation restriction, activities necessary for the provision of the public drinking water supply shall be permitted.

HB 49, relative to eligibility for admittance to the New Hampshire veterans' home. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Patrick F. Garrity for State-Federal Relations and Veterans Affairs: At the request of the commandant of the New Hampshire State Veterans Home, this bill waves the one year residency requirement in certain situations. 1. A veteran whose separation documents state New Hampshire address as his or her home of record at the time of discharge from active duty. 2. An active duty veteran with a New Hampshire home of record who is being discharged directly from a medical facility. All other admission requirements remain in place. Vote 10-0.

Amendment (0042h)

Amend RSA 119:1, II(a) as inserted by section 1 of the bill by replacing it with the following:

(a) A veteran whose DD214 certificate or any document used by the veterans' home for admission states a New Hampshire address as his or her home of record upon discharge from active duty.

HCR 3, urging that New Hampshire members and veterans of the armed forces and national guard and their dependents receive health screening for depleted uranium exposure. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Frank R. Emiro for State-Federal Relations and Veterans Affairs: There are enough questions that concern both the near and long term effects of depleted uranium on the health of exposed service members and families that the committee believes that the concerns should be addressed now rather than later. Unfortunately, the Department of Defense and Veterans Administration have a very poor history concerning the long term effects of such issues as Agent Orange, radiation exposure, and Post Traumatic Stress Disorder (PTSD). Vote 12-0.

Amendment (0502h)

Amend the resolution by replacing all after the resolving clause with the following:

That the New Hampshire legislature urges the department of veterans affairs to assist any member of the armed forces or veteran of the armed services who has been exposed to depleted uranium munitions or equipment, and the dependants of any such member or veteran, to obtain a best practices health screening test for exposure to depleted uranium that uses methods capable of detecting low levels of depleted uranium; and

That the New Hampshire legislature urges the adjutant general to:

(1) Assist any member of the New Hampshire national guard who has handled, used, or stored depleted uranium munitions or equipment and any member who returns or has returned to this state after service in an area designated by the President of the United States, and any such member's dependents, to obtain a best practices health screening test for exposure to depleted uranium that uses methods capable of detecting low levels of depleted uranium; and

(2) Ensure that quality health treatment is available for all members or veterans of the New Hampshire national guard and their dependents who may have been exposed to depleted uranium; and

That copies of this resolution be transmitted to the United States Secretary of Defense, the adjutant general, the commissioner of the department of health and human services, and the members of the New Hampshire congressional delegation.

HB 217, establishing a committee to study the New Hampshire park and ride program. **OUGHT TO PASS.**

Rep. Brenda L. Ferland for Transportation: This bill was at the request of the Department of Transportation as the park and rides are being used for many things. The study committee will also be looking at expansion of more park and rides and any other legislation pertaining to them. The objection from voting members was to any study committees. Vote 15-2.

HB 478-FN-A, decreasing the rate of the business profits tax. **INEXPEDIENT TO LEGISLATE.**

Rep. Frank W. Davis for Ways and Means: This bill would reduce the business profits tax from 8.5 percent to 8 percent. The prime sponsor noted that his intent was to raise income by stimulating the economy. DRA testified that this technique, known as "dynamic revenue administration" had been tried in the past and failed. State taxes are such a small percentage of the factors that influence business that a modest rate reduction would have little effect. Our current rate of growth is about all that the state can accommodate. In addition, this bill would likely reduce state general fund revenue by more than \$15 million and decrease state education trust fund revenue by more than \$3 million per year. The committee felt that the sponsor's intent could not be realized. Vote 16-0.

HB 564-FN-A, decreasing the rate of the business enterprise tax. **INEXPEDIENT TO LEGISLATE.**

Rep. Norman L. Major for Ways and Means: The sponsor testified this bill would decrease the Business Enterprise Tax (BET) rate from 0.75 percent to 0.5 percent and that this reduction in rate would generate increased business to offset any loss in tax revenue. The fiscal note indicates a reduction in net tax revenue of \$65 million dollars in FY 2008 resulting in a 25 percent reduction in BET revenue for a 33 percent reduction in rate. New Hampshire has the best business growth rate in New England and has a low unemployment rate. Since the BET is primarily a tax on wages it would demand a combined employment and wage rate increase of at least 25 percent to make up for the shortfall. Therefore, the committee felt this growth rate is not attainable. Vote 16-0.

HB 598-FN-A, repealing certain foreign dividend deductions under the business profits tax and repealing an exemption to the real estate transfer tax. **OUGHT TO PASS.**

Rep. Christine C. Hamm for Ways and Means: This bill was submitted at the request of the Department of Revenue Administration. It contains two technical corrections: 1) the repeal of a deduction for amounts of gross business profits derived from dividends paid to the parent of an affiliated group by a subsidiary whose gross business profits are already subject to the business profits tax, and 2) the repeal of an exemption under the real estate transfer tax for merger, consolidation or reorganization of multiple entities, each of which is exempt from federal taxation under sections 501c(3) or 501c(2). After considering testimony from the commissioner of the department of revenue administration, the committee concluded that these clarifications were necessary to avoid confusion and prevent the opportunity for potential abuse. Vote 15-0.

REGULAR CALENDAR

HB 51, permitting adoption by 2 unmarried adults in a familial relationship. **MAJORITY: OUGHT TO PASS WITH AMENDMENT. MINORITY: INEXPEDIENT TO LEGISLATE.**

Rep. Eileen C. Flockhart for the Majority of Children and Family Law: This bill was introduced to eliminate inconsistencies in our county probate courts relative to adoption. This bill is also designed to make clear which persons are not required to surrender parental rights in the event of adoption. At present 6 of our 10 county probate courts have been granting adoptions to two committed unmarried adults. Four of our counties do not. Our objective is to clarify the law so that all adopted children will have the security and stability of knowing that both parents have legal responsibility for their educational, financial and medical well being. Our committee is deeply committed to the best interests of children. Though you will see a divided vote, the majority feels very strongly that the time has come to be fair and consistent. Vote 12-7.

Rep. Daniel C. Itse for the Minority of Children and Family Law: The minority of the committee believes that this bill will be unnecessary if HB 437, HB 905 or HB 791 is adopted. Furthermore, the bill has serious unintended consequences. First, the child may be the only legal tie in a relationship. If that relationship dissolves, the child would be the only legal strand in a possible tug of war. Second, the bill as presented makes a statement of equal value in married and unmarried relationships.

Majority Amendment (0529h)

Amend the bill by replacing all after the enacting clause with the following:

1 New Paragraph; Adoption; Who May Adopt; Unmarried Adults in a Familial Relationship. Amend RSA 170-B:4 by inserting after paragraph IV the following new paragraph:

V. Two unmarried adults in a familial relationship. In this paragraph, a familial relationship shall be determined by considering all relevant circumstances of the petitioners, including, but not limited to:

- (a) The sharing of a common residence.
- (b) Economic interdependence, such as jointly owning or renting a home.
- (c) A shared commitment to parenting duties and responsibilities.

2 New Paragraph; Persons Not Required to Surrender. Amend RSA 170-B:7 by inserting after paragraph VI the following new paragraph:

VII. A parent of the adoptee who intends to maintain his or her parental rights along with the parent's spouse or an unmarried adult in a familial relationship, as defined in RSA 170-B:4, V.

3 Effective Date. This act shall take effect 90 days after its passage.

Majority committee amendment adopted.

The question now being adoption of the majority committee report of Ought to Pass with Amendment.

Rep. Flockhart spoke in favor and yielded to questions.

Reps. Itse, Garcia, Rowe and Moran spoke against.

Rep. Spaulding spoke in favor.

Rep. Itse requested a roll call; sufficiently seconded.

and the majority committee report was adopted.

Ordered to third reading.

HB 88, establishing a committee to study single payer health care. **OUGHT TO PASS.**

Rep. Paul McEachern for Commerce: The bill establishes a committee to study a single payer national health care law. The crisis in the high cost of health care hits everyone; 47 million Americans are without any health insurance. This number is increasing. Currently those 65 and over and low income citizens who qualify enjoy single payer health care (Medicare & Medicaid). The study committee would look at the feasibility of adopting a single payer system for 100% coverage. Vote 10-6. Rep. Wendelboe requested a roll call; sufficiently seconded.

SULLIVAN

Rodeschin, Beverly
and the committee report was adopted.
Ordered to third reading.

HB 169, relative to penalties for insurance adjusters, appraisers, or companies purposefully underestimating the value of an insurance claim. **OUGHT TO PASS WITH AMENDMENT.**
Rep. Robert F. Matheson for Commerce: This bill as amended simply adds to the list of "unfair claims settlement, practices by insurers." It inserts in that list that insurers can't knowingly misrepresent and underestimate a claim. This bill was put forward in response to the Exeter hail incident last summer where there were an unusually heavy amount of insurance claims. Vote 12-3.

Amendment (0102h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to penalties for insurers or adjusters knowingly underestimating the value of an insurance claim.

Amend the bill by replacing section 1 with the following:

1 New Subparagraph; Unfair Claim Settlement Practices by Insurers. Amend RSA 417:4, XV(a) by inserting after subparagraph (13) the following new subparagraph:

(14) Knowingly underestimating the value of any claim by an insurer or by an adjuster representing the insurer.

AMENDED ANALYSIS

This bill makes it an unfair insurance trade practice subject to penalties for an insurer or adjuster representing the insurer to knowingly underestimate the value of an insurance claim.

Amendment adopted.

Committee report adopted and ordered to third reading.

HB 264, relative to a time period for declaring a person to be cancer free. **INEXPEDIENT TO LEGISLATE.**

Rep. Donald H. Flanders for Commerce: This bill declares a person to be cancer free for insurance purposes after five years of negative testing. Testimony from the American Cancer Society stated that they never say someone is cured due to the various types of cancer that can reoccur without warning. They refer to those who had the disease as cancer survivors from the time of the diagnostic report. A cancer free designation would only relate to individual health insurance policies as group insurance policies are guaranteed issue. Individual policies are not guaranteed issue so an insurer could merely refuse to write the policy and nothing would be gained by this legislation. Vote 12-2. Committee report adopted.

HB 334, relative to the hours for sale of alcoholic beverages in stores. **OUGHT TO PASS WITH AMENDMENT.**

Rep. John B. Hunt for Commerce: Currently the Liquor Commission has the authority, by rule, to allow bars to stay open until 2 am and traditionally does allow that on December 31st each year. The committee feels that 1 am is a very old blue law and that 2 am is current practice in most states. This bill is only enabling and the local community or bar owner still may choose to have earlier closing times. The amendment also limits the later serving time to only those licensees who have no violations in the previous year. The committee understands that there were some concerns about the lateness of the hour, but felt that given the testimony of the sponsor, many people who work 2nd shift, this legislation would help reduce that sense of urgency that some may feel by the earlier closing time. Vote 14-3.

Amendment (0293h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to the hours for on-premises sale of alcoholic beverages.

Amend RSA 179:17, II(b) as inserted by section 1 of the bill by replacing it with the following:

(b) On-premises licensees may sell from 6:00 a.m. to ~~1:00~~ 2:00 a.m., 7 days a week. *If an on-premises licensee violates any provision of this title, the licensee shall stop the sale of beverages or liquor no later than 1:00 a.m. for a period of 12 months from the date of the violation.*

AMENDED ANALYSIS

This bill extends the hours of sale for alcoholic beverages by on-premises licensees.

This bill also requires on-premises licensees who have violated any alcoholic beverages law to stop the sale of beverages or liquor no later than 1:00 a.m. for 12 months after the date of the violation.

Amendment adopted.

The question now being adoption of the committee report of Ought to Pass with Amendment.

Rep. Jill Hammond spoke against and yielded to questions.

Reps. Reardon and Hunt spoke in favor.

Rep. Gene Andersen requested a roll call; sufficiently seconded.

HB 386-FN, relative to advertisement of prescription drugs. **MAJORITY: INEXPEDIENT TO LEGISLATE. MINORITY: OUGHT TO PASS.**

Rep. Joel F. Winters for the Majority of Commerce: Everyone has noticed the increase in prescription drug advertising in recent years. Over four billion dollars were spent last year on direct to consumer advertising of prescription drugs. Regardless of the social and economic costs of this advertising, the majority of the committee felt that we could not support HB 386, which would make this form of advertising a crime. Drug advertising is free speech that is clearly protected by both the New Hampshire and US constitutions. In addition, if we were to pass such legislation, the state would very likely be sued by the drug companies. Expensive litigation at the expense of the taxpayer would be the result. Vote 11-3.

Rep. Susi Nord for the Minority of Commerce: The minority of the committee believes that this Legislature should pursue HB 386. While the majority asserts that there is "clear" violation of the First Amendment, the minority believes that the issue is not clearly determined. The majority also suggested that this is a Federal problem, but as we know, most meaningful legislation begins in a single state. The minority does believe that it is time to address rampant direct to consumer drug advertising. Much as cigarette advertising in the 1960's led to increased use and abuse of tobacco, today's drug ads are inundating citizens with claims of prescription drug benefits, without full consideration of alternative treatments, costs and appropriate indications for use. At the same time, our young people are abusing prescription drugs at an alarming rate, making prescription drugs the fastest growing drug of abuse in the US. As New York State began national regulation for tobacco labeling and ads in the 1960's, the minority believes NH should today begin the regulation for prescription drug advertising.

Rep. DeJoie spoke against.

Rep. Winters spoke in favor.

On a division vote, 224 members having voted in the affirmative and 108 in the negative, the majority committee report was adopted.

SPECIAL ORDER

HB 97, relative to the recording of audio and video images on private property for security purposes. **INEXPEDIENT TO LEGISLATE.**

Rep. Stanley E. Stevens for Criminal Justice and Public Safety: This bill would have allowed any person, without notice, to conduct audio or video recording, or both, on his or her private property

and curtilage for security purposes. Current law allows video recording already. Current law on interception of telecommunications requires consent by both parties and is a well-established principle in New Hampshire law. The proposed legislation radically changes the two party consent and was felt by the committee to be unacceptable as presented. Vote 14-0.
Committee report adopted.

SPECIAL ORDER

HB 171, clarifying the wiretapping and eavesdropping statute. **INEXPEDIENT TO LEGISLATE.**
Rep. William V. Knowles for Criminal Justice and Public Safety: This legislation attempted to cover any conversation obtained by audio video recording by a third party, or a home video and be admissible as evidence. After two public hearings it was determined that protecting the two party approval required by current law unless permission is obtained from the Attorney General's office or a county attorney is the safest method to protect all New Hampshire citizens right to privacy. Vote 16-0.
Reps. Ulery and Itse spoke against.
Rep. Nielsen spoke in favor.
Committee report adopted.

SPECIAL ORDER

HB 177-FN, including "unborn child" in the definition of "another" for the purpose of first and second degree murder, manslaughter, and negligent homicide. **INEXPEDIENT TO LEGISLATE.**
Rep. Lori A. Movsesian for Criminal Justice and Public Safety: This bill would create the unintended consequence of creating personhood for a fetus. New Hampshire law already imposes an additional penalty for assailants who commit a violent act toward a pregnant woman resulting in miscarriage or stillbirth. In 1991, New Hampshire passed laws that punish an assailant who "purposely, or knowingly causes injury to another resulting in miscarriage, or stillbirth" (RSA 631:1c), or who "recklessly or negligently causes injury to another resulting in miscarriage or stillbirth" (RSA 631:2e). Such heinous crimes are already well defined within our penal code. The committee has had this legislation numerous times. It has been to interim study during 2004 and no legislation was recommended. The committee recognizes the tremendous loss a pregnant woman suffers when she loses her fetus through violent action. However, neither those in support of the bill's intent nor those opposed could craft an amendment that would recognize the loss without bestowing other legal rights to the fetus. Vote 14-3.

LAID ON THE TABLE

Rep. Campbell moved that **HB 177-FN**, including "unborn child" in the definition of "another" for the purpose of first and second degree murder, manslaughter, and negligent homicide be laid on the table.

Rep. Dumaine requested a roll call; sufficiently seconded.

Watson, Robert

SULLIVAN

Donovan, Thomas
and the motion was adopted.

Rodeschin, Beverly

Rep. Hopfgarten voted Yea and intended to vote Nay.

The House recessed at 12:40 p.m.

(Speaker Norelli in the Chair)

The House reconvened at 1:40 p.m.

REGULAR CALENDAR (CONT'D)

HB 95-L, including charter school pupils in the average daily membership in residence in the pupil's district of residence. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Kimberley S. Casey for Education: This bill, requested by the Department of Education, keeps charter school pupils in each district's ADMR (average daily membership in residence) for data analysis purposes. The amendment clarifies that charter pupils are not counted in ADMR for funding in districts where the state pays the charter schools directly. Vote 16-6.

Amendment (0598h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to the treatment of charter school pupils in the definition of average daily membership in residence.

Amend the bill by inserting after section 1 the following and renumbering the original section 2 to read as 3:

2 School Money; Definitions. Amend RSA 198:38, VI to read as follows:

VI. "Average daily membership in residence" means the average daily membership in residence of pupils in kindergarten through grade 12, as defined in RSA 189:1-d, IV of the second school year preceding the year in which the calculation is made, provided that no kindergarten pupil shall count as more than 1/2 day attendance per calendar day, *and provided that no charter school pupil for whom the state pays tuition directly to the charter school shall be counted.*

AMENDED ANALYSIS

This bill requires that pupils electing to attend an approved charter school shall be included in the average daily membership in residence of the district in which they legally reside. The bill also excludes charter school pupils for whom the state pays tuition directly to the charter school from the definition of average daily membership in residence.

This bill is a request of the department of education.

Amendment adopted.

Committee report adopted and ordered to third reading.

HB 473-FN, relative to reimbursement for members of the council for teacher education. **OUGHT TO PASS.**

Rep. Nancy F. Stiles for Education: The Council for Teacher Education is a volunteer advisory committee. This bill is a housekeeping bill that allows the State Board of Education to reimburse expenses and mileage incurred by members of the council in accordance with rules for mileage and expense reimbursement and treats this advisory committee the same as the Professional Standards Board. The council reviews teacher prep courses offered in our colleges and universities and was very helpful to New Hampshire in meeting the requirements of NCLB as we dealt with the component of highly qualified teachers last year. This bill does not use new or additional money, but comes from the department's current appropriations. Vote 18-1.

Committee report adopted and ordered to third reading.

HB 132, relative to domicile for voting purposes. **OUGHT TO PASS.**

Rep. David M. Pierce for Election Law: New Hampshire law draws a clear distinction between "domicile" and "residency." Nonetheless, often voters are told that the terms mean the same thing, and that any person claiming a New Hampshire "domicile" is therefore a New Hampshire "resident." In turn, when voters filled out a voter registration form in the last 4 years, they were advised (warned) that they must apply for a New Hampshire drivers license and car registration if they intended to drive in New Hampshire. This is a requirement of "residency" not "domicile." Tying the right to vote to other requirements not related to voting operates only to depress voter registration and participation. HB 132 merely clarifies that domicile and residency are two separate and distinct concepts, and will encourage voter registration and participation for all those entitled to vote in New Hampshire. Vote 11-4.

Rep. Dumaine requested a roll call; sufficiently seconded.

SULLIVAN

Rodeschin, Beverly

and the committee report was adopted.

Ordered to third reading.

HB 133, relative to voter registration forms. **OUGHT TO PASS WITH AMENDMENT.**

Rep. William P. Denley for Election Law: This bill clarifies the requirements to claim domicile for the purpose of voting and causes the voter registration form to reflect those requirements. The committee felt that the current voter registration form inaccurately stated that a person could not be domiciled in New Hampshire for voting purposes without being subject to auto registration and other laws that apply to residents. The voter registration form was redrafted to reflect the current state of the law as it relates to domicile. Vote 11-4.

Amendment (0378h)

Amend the bill by replacing section 1 with the following:

1 Voter Registration Form. Amend RSA 654:7 to read as follows:

654:7 Voter Registration Form. A standard registration application form shall be used throughout the state. The registration form shall be no larger than 8½ inches by 11 inches. The secretary of state shall prescribe the form of the voter registration form, which shall be in substantially the following form:

Date _____

VOTER REGISTRATION FORM

(Please print or type)

1. Name _____

Last	(suffix)	First	Full Middle Name
------	----------	-------	------------------

2. Address _____

Street	Ward Number
--------	-------------

Town or City	Zip Code
--------------	----------

3. Mailing Address if _____

different than in 2	Street	Ward Number
---------------------	--------	-------------

Town or City	Zip Code
--------------	----------

4. Place and Date of Birth _____

Town or City	State
--------------	-------

Date _____

5. If a naturalized citizen, give name of court where and date when naturalized _____

6. Place last registered to vote _____

Town or City

Street	Ward Number
--------	-------------

7. Name under which previously registered, if different from above _____

8. Party Affiliation (if any) _____

9. Driver's License Number _____ State _____

If you do not have a valid driver's license, provide the last four digits of your social security number ____ _

My name is _____. I am today registering to vote in the city/town of _____, New Hampshire.

I understand that to vote in this city/town, I must be *at least* 18 years of age, I must be a United States citizen, and I must be domiciled in this city/town.

~~[I understand that a person can claim only one state and one city/town as his or her domicile at a time. A domicile is that place, to which upon temporary absence, a person has the intention of returning. By registering or voting today, I am acknowledging that I am not domiciled in any other state or any other city/town. I understand that if I am domiciled in another state or city/town, I may be entitled to vote in elections held within that state or city/town by absentee ballot.~~

In declaring New Hampshire as my domicile, I am subject to the laws of the State of New Hampshire which apply to all residents, including laws requiring me to register my motor vehicles and apply for a New Hampshire driver's license within 60 days of becoming a resident.

In declaring New Hampshire as my domicile, I realize that I may be forfeiting benefits or rights, including the right to vote in another state.

~~If I have any questions as to whether I am entitled to vote in this city/town, I am aware that a supervisor of the checklist is available to address my questions or concerns.]~~

I understand that I can claim only one city/town as my domicile at a time. A domicile is that place, more than any other, where I sleep most nights of the year, or to which I intend to return after a temporary absence. By registering or voting today, I acknowledge that I am not registering to vote or voting in any other city/town.

I acknowledge that I have read and understand the above qualifications for voting and do hereby swear, under the penalties for voting fraud set forth below, that I am qualified to vote in the above-stated city/town, and, if registering on election day, that I have not voted and will not vote at any other polling place this election.^[2]

Date

Signature

In accordance with RSA 659:34, the penalty for knowingly or purposefully providing false information when registering to vote or voting is a class A misdemeanor with a maximum sentence of imprisonment not to exceed one year and a fine not to exceed \$2,000. Fraudulently registering to vote or voting is subject to a civil penalty not to exceed \$5,000.

Amendment adopted.

The question now being adoption of the committee report of Ought to Pass with Amendment.
Rep. Nancy Elliott requested a roll call; sufficiently seconded.

SULLIVAN

Rodeschin, Beverly
and the committee report was adopted.
Ordered to third reading.

HB 609-FN, relative to disclosure of campaign contributions in local elections. OUGHT TO PASS WITH AMENDMENT.

Rep. Claudia A. Chase for Election Law: Currently, we have no mechanism to tie candidates to those who support them in local elections. HB 609 provides transparency to financial contributions made in local elections. Vote 13-2.

Amendment (0624h)

Amend the bill by replacing all after the enacting clause with the following:

1 New Subparagraph; Bylaws; Reporting of Contributions. Amend RSA 31:39, I by inserting after subparagraph (n) the following new subparagraph:

(o) Requiring the reporting of contributions to, and expenditures by, any candidate or political committee made for the purpose of influencing the election of any candidate for local elective office, or any person or committee for the purpose of influencing the vote on any ballot or referendum question.

2 New Paragraph; Bylaws; Reporting of Contributions. Amend RSA 47:17 by inserting after paragraph XIV-A the following new paragraph:

XIV-b. LOCAL ELECTION REPORTING REQUIREMENTS. Requiring the reporting of contributions to, and expenditures by, any candidate or political committee made for the purpose of influencing the election of any candidate for local elective office, or any person or committee for the purpose of influencing the vote on any ballot or referendum question.

3 Effective Date. This act shall take effect 60 days after its passage.

AMENDED ANALYSIS

This bill authorizes towns and cities to make bylaws requiring reports of political contributions and expenditures.

Amendment adopted.

Committee report adopted and ordered to third reading.

HB 756-FN, relative to centralized voter registration database information. **INEXPEDIENT TO LEGISLATE.**

Rep. William P. Denley for Election Law: A majority of the committee felt that the privacy of individuals in having their voter registration information kept confidential was outweighed by the benefit to the public of having said information available to candidates for public office and others, and the cost of segregating the names of those who wanted their information kept private was prohibitive. Vote 13-2.

Rep. Kurk spoke against.

Rep. Denley spoke in favor.

On a division vote, 273 members having voted in the affirmative and 65 in the negative, the committee report was adopted.

SPECIAL ORDER

CACR 11, relating to the term of office for governor. Providing that beginning with the 2010 general election, there shall be a 4-year term of office for governor. **MAJORITY: OUGHT TO PASS. MINORITY: INEXPEDIENT TO LEGISLATE.**

Rep. A. Laurie Harding for the Majority of Executive Departments and Administration: The majority of the committee felt that it was, once again, important to put this issue before the voters in the form of a constitutional amendment. The four year term was last presented to the voters in 1984. 63.61% voted in favor of a four year term, narrowly missing the required 66.67% needed for adoption. Recent polls indicate that 58% of the individuals polled would support such a change. New Hampshire is one of the only two states that has a two year term for governor. The other is Vermont. New Hampshire is a very different state than it was in 1984. Our demographics have changed. Health care delivery, the economy, the environment are presenting us with more complex problems. Our relationship with the federal government is becoming more challenging. A four year gubernatorial term would give the individual in our primary leadership position an opportunity to govern instead of running for office. Governors need a chance to establish and carry out their agendas. The passage of CACR 11 is about strengthening the future of our state. Vote 9-8.

Rep. Hector M. Velez for the Minority of Executive Departments and Administration: The minority firmly believes in the people's right to be heard every two years in the election of governor. We elect our federal congressional representatives, state representatives, state senators, and executive councilors every two years. By changing the governor's term to four years, it removes the people's right to express their opinion on how the governor's policies are being received. We heard that one of the reasons this bill was brought forward was because New Hampshire and Vermont were the only two states without a four year term. We believe that we should remain independent in having a two year term. Historically, the governor has been elected to a second term in office. This has happened because we have no term limits, and the people of our state, by voting every two years, have made the decision of who will lead us. This bill takes away the New Hampshire advantage. We were also told the governor has to think too much about re-election, and we believe that this is a good idea.

Reps. McEachern and Campbell spoke in favor and yielded to questions.
 Reps. Schmidt, Velez, David Smith and Hutchinson spoke against.
 Reps. DiFruscia and Harding spoke in favor.
 Rep. Campbell requested a roll call; sufficiently seconded.

-----------------	-----------------	----------------	--------------------

and the majority committee report failed lacking the constitutionally required three-fifths vote.

Rep. Velez moved Inexpedient to Legislate.

On a division vote, 187 members having voted in the affirmative and 166 in the negative, the motion was adopted.

MOTION TO RECONSIDER

Having voted with the prevailing side, Rep. Vaillancourt moved that the House reconsider its action whereby the House, on a division vote of 187-166, adopted the motion of Inexpedient to Legislate on *CACR 11*, relating to the term of office for governor. Providing that beginning with the 2010 general election, there shall be a 4-year term of office for governor. Motion failed.

REGULAR CALENDAR (CONT'D)

HB 46-FN-A-L, making an appropriation to support kindergarten programs in the towns of Merrimack, Hampstead, and Goffstown. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Stephen B. Stepanek for Finance: The state now takes three years to include students in its count for the purpose of state aid. Currently the state is providing \$1,600.00 per kindergarten student in aid to the towns. The state many years ago agreed to fund \$1,200.00 per student during the three year period they were waiting for their kindergarten students to be counted by the state. This agreement has been extended many times over the years. It was the belief of the committee that we should continue this policy to assist towns who commit to add kindergarten and not penalize them because the state takes three years to identify these new students. Vote 19-2.

Amendment (0303h)

Amend the bill by replacing section 1 with the following:

1 Appropriation. There is hereby appropriated the sum of \$1,251,600, for the biennium ending June 30, 2009, to the department of education for the support of kindergarten programs in the towns of Merrimack, Hampstead, and Goffstown. The governor is authorized to draw a warrant for said sum out of any money in the treasury not otherwise appropriated.

Amendment adopted.

Rep. Marjorie Smith moved Recommit.

Motion adopted.

Recommitted to the Committee on Finance.

HB 118, extending the commission to determine the appropriate use of real property destroyed in the October 2005 floods, established in 2006, 256. **OUGHT TO PASS WITH AMENDMENT.** Rep. David L. Smith for Finance: The bill extends the commission from December 31, 2006 to December 31, 2007. This will enable the commission to conclude its business concerning the acquired properties and finalize any pending agreements which will not have financial impact. It was stated that no additional state funds are needed. Therefore an amendment was introduced that called for the original \$2,800,000 appropriation to the Department of Transportation reduced to \$2,120,000, and to extend the commission to December 31, 2007. Any unexpended funds shall lapse on June 30, 2007. Vote 24-0.

Amendment (0050h)

Amend the title of the bill by replacing it with the following:

AN ACT reducing a prior appropriation to the department of transportation to purchase flood damaged property and extending the commission to determine the appropriate public use of the property.

Amend the bill by replacing all after the enacting clause with the following:

1 Appropriation to Department of Transportation to Purchase Flood Damaged Property. Amend 2006, 256:2 to read as follows:

256:2 Appropriation. The sum of [~~\$2,800,000~~] **\$2,120,000** for the biennium ending June 30, 2007, is hereby appropriated to the department of transportation for the purpose of purchasing property pursuant to section 1 of this act. [~~Such moneys shall be nonlapsing and continually appropriated to the department of transportation for the purposes of section 1 of this act.~~] The governor is authorized to draw a warrant for said sum out of any money in the treasury not otherwise appropriated.

2 Commission to Determine Public Use for Flood-Damaged Property. Amend 2006, 256:4, V to read as follows:

V. The commission shall report its findings and any recommendations for proposed legislation to the speaker of the house of representatives, the president of the senate, the house clerk, the senate clerk, the governor, and the state library on or before December 31, [~~2006~~] **2007**.

3 Effective Date. This act shall take effect upon its passage.

AMENDED ANALYSIS

This bill reduces the appropriation to the department of transportation to purchase flood damaged property and extends the reporting date of the commission established in 2006, 256 to determine an appropriate public use for the property.

Amendment adopted.

Committee report adopted and ordered to third reading

HB 604-FN, prohibiting the taking of deer from baited areas. **OUGHT TO PASS WITH AMENDMENT.**

Rep. David H. Kidder for Fish and Game: It was the feeling of the committee that it is our job as a policy committee to set policy for the Fish and Game Department. This was a highly debated bill as shown by the 9-6 vote. The majority felt that the definition of hunting was "fair chase" and pursuit. Baiting seems to have had a negative effect on the deer herd in limited parts of the state, although the overall herd is in very good condition throughout the state. The committee also believed that banning baiting would not affect opportunities for the handicapped. Naturally occurring agricultural fields and orchards are not restricted by this bill. The bill was amended to also prohibit the feeding of deer during the deer hunting season. There was testimony that license sales would be negatively impacted but that was not the feeling of the majority. Vote 9-6.

Amendment (0620h)

Amend the bill by replacing section 2 with the following:

2 New Paragraphs; Manner of Taking Deer. Amend RSA 208:7 by inserting after paragraph III the following new paragraphs:

IV. No person shall place bait for the taking of deer, or shall knowingly take deer from a baited area; provided that the executive director may grant a special permit for scientific purposes, animal damage control, or for any other purpose, allowing such baiting, at the discretion of the executive director. For purposes of this paragraph, "baiting" means placing salt, fruit, nuts, grain, or

other foods known to be attractive to deer. Nothing in this definition shall prohibit the taking of deer from an observation stand or blind overlooking standing crops, foods that have been left as a result of normal agricultural operations, or as a result of a natural occurrence.

V. No person shall feed deer by placing salt, fruit, nuts, grain or other foods known to be attractive to deer during any open season for the taking of deer. This paragraph shall not prohibit normal agricultural and forest practices.

Amend the bill by inserting after section 2 the following and renumbering the original section 3 to read as 4:

3 Penalties. Amend RSA 208:21, II to read as follows:

II. RSA 208:3, 3-a, 3-b, 3-c, 4, 5, 5-a, 6-a, 7, III *through* V, 10, and 12-16 inclusive, shall be guilty of a violation if a natural person, or guilty of a misdemeanor if any other person.

AMENDED ANALYSIS

This bill prohibits the practice of baiting for the taking of deer, and also prohibits feeding deer during deer season with foods known to be attractive to deer. The bill allows the executive director to issue special permits using baiting.

Amendment adopted.

The question now being adoption of the committee report of Ought to Pass with Amendment.

Rep. Skinder spoke in favor and yielded to questions.

Reps. Dingman and Patten spoke against.

Reps. Kappler and Abbott spoke in favor.

Rep. Dumaine requested a roll call; sufficiently seconded.

Ordered to third reading.

SPECIAL ORDER

HB 846, transferring certain land in the town of Stoddard from the Trust for Public Land to the fish and game department. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Margaret E. Porter for Fish and Game: This bill authorizes the Fish and Game Department to acquire, maintain, and make available for public recreational use an area in and around the dam of Robb Reservoir, a 110 acre shallow water body in Stoddard. The Reservoir abuts a large tract of protected wetland and forest land. The amendment defines the area to be transferred to Fish and Game as a 2.5 acre (car-top boat launch) access site. Vote 11-0.

Amendment (0323h)

Amend RSA 482:49, III(d) as inserted by section 1 of the bill by replacing it with the following:

(d) The outlet dam, water rights, and 2.5 acre car-top boat launch access area at Robb Reservoir in the town of Stoddard, Cheshire County.

Amend paragraph IV as inserted by section 2 of the bill by replacing it with the following:

IV. Acceptance by the state of New Hampshire, acting through the fish and game department, of fee simple interest in approximately 2.5 acres, in and around the Robb Reservoir dam for reasonable public access, swimming, fishing, hunting, and non-motorized, carry-in, boat access including canoes, kayaks, inflatable rafts, and similar vessels.

Amendment adopted.

Committee report adopted and ordered to third reading.

HB 139, requiring the reporting of burn injuries. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Thomas E. Donovan for Health, Human Services and Elderly Affairs: This bill as amended enables, but does not mandate, the reporting of burns by a health care professional, regardless of how they were caused. Most burns that are severe enough to require medical attention come through the emergency department by ambulance. Emergency physicians felt strongly that mandating them to report burns put them in the role of law enforcement, especially when the majority of these burns are already being reported to Emergency Medical Services (EMS) in the Department of Safety. This is being done through a relatively new automated reporting system (Temsis) in ambulances. As amended, this bill allows incidents that are identified by EMS as rising to the level of a crime to be shared with the Office of the State Fire Marshall, also in the Department of Safety, for his office's intervention when and if appropriate. Under 45 CFR 164.512 of the federal Hippa regulations, the Office of EMS and the Fire Marshall's Office are able to share personally identified information at that point as part of any ongoing investigation. The Fire Marshall's hope is then to coordinate with the local community some reassurance that minors will receive assessment and intervention that might help minimize any future dangerous fire setting behaviors, and to also ensure the protection of our frail elderly in their own homes, where severe accidents may happen. The Fire Marshall's Office supports this bill as amended as it will allow intervention that may save lives in the future. Vote 13-2.

Amendment (0445h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to the reporting of burn injuries.

Amend the bill by replacing section 1 with the following:

1 New Section; Reporting of Burn Injuries. Amend RSA 153 by inserting after section 11 the following new section:

153:11-a Reporting of Burn Injuries.

I. In any case where a health care professional is called upon to examine or treat a person for a burn injury not consistent with the explanation given by the burn victim, or from the handling of illegal explosives, or if a burn injury requires inpatient admission to a hospital, the health care professional may report such burn injury to the state fire marshal by telephone or electronic means.

II. A health care practitioner who, acting in good faith in reporting under this section or participating in a related investigation or proceeding, makes a report pursuant to paragraph I, shall be immune from civil or criminal liability for the act of reporting or participating in a related investigation or proceeding.

III. The bureau of emergency medical services shall provide notification to the state fire marshal of burn injury reports which it receives from emergency medical services providers.

AMENDED ANALYSIS

This bill allows health care professionals to report burn injuries to the state fire marshal in certain circumstances.

Amendment adopted.

Committee report adopted and ordered to third reading.

HB 246, relative to identifying legislative enactments as public policy. **INEXPEDIENT TO LEGISLATE.**

Rep. Gail C. Morrison for Judiciary: This bill would create a process akin to a referendum or initiative, whereby all laws enacted by the legislature would be "subject to disapprobation by the people pursuant to the reserved right of petition in part I, article 32 to resolve any dispute concerning "public policy" by placing the same upon the ballot for ratification or nullification by the people." The second part of the bill calls for labeling all new legislation as "public policy." The text of the bill is confusing. The committee did not see a need for this legislation. Vote 12-1.

Committee report adopted.

HB 508, relative to the unlawful adoption of part 2, article 72-a of the New Hampshire constitution. **INEXPEDIENT TO LEGISLATE.**

Rep. Philip Preston for Judiciary: This bill asserts that part 2, article 72-a of the New Hampshire constitution was unlawfully adopted and is therefore unenforceable. The majority of the committee did not concur that a conflict exists and therefore concluded that this legislation should be found inexpedient to legislate. Vote 12-1.

Committee report adopted.

HB 306, establishing a task force on work and family. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Jeffrey P. Goley for Labor, Industrial and Rehabilitative Services: The purpose of the task force in this bill is to identify the multiple barriers that keep New Hampshire workers from achieving economic security and maximizing their contributions to the state's economy as well as attending to family responsibilities. The task force shall submit an interim report of its findings and recommendations on or before November 1, 2007. Vote 13-4.

Amendment (0530h)

Amend subparagraph I(c) of section 3 of the bill by replacing it with the following:

(c) One member appointed by the governor.

Amend paragraph I of section 3 of the bill by inserting after subparagraph (y) the following new subparagraphs:

(z) The commissioner of the department of education, or designee.

(aa) A member of the Workforce Opportunity Council, appointed by the council's chairperson.

(bb) A member of the New Hampshire AFL-CIO, appointed by the chapter president.

Amendment adopted.

Committee report adopted and ordered to third reading.

HB 257, allowing towns to appoint or elect a town treasurer. **MAJORITY: OUGHT TO PASS. MINORITY: INEXPEDIENT TO LEGISLATE.**

Rep. Betsey L. Patten for the Majority of Municipal and County Government: Currently a town treasurer can only be elected. This legislation gives a municipality the option to have the town treasurer appointed by the governing body or a town manager with approval from the governing body. The committee agreed that having this option placed on the warrant to be voted on during the annual town meeting is appropriate. Vote 14-2.

Rep. Robert J. Watson for the Minority of Municipal and County Government: The minority believes that electing public officials such as a treasurer is an important check and balance that has served New Hampshire's towns well for over 200 years. Elected officials are more accountable to the people. Appointing a treasurer would take power away from the people and further concentrate it in the hands of a few.

Rep. Bettencourt requested a roll call; sufficiently seconded.

and the majority committee report was adopted.
Ordered to third reading.

Jillette, Arthur Jr

Phinizz, James

SPECIAL ORDER

HB 391, establishing a committee to study the implementation of a circuit breaker on property tax liability. **INEXPEDIENT TO LEGISLATE.**

Rep. Jessie L. Osborne for Municipal and County Government: The committee agrees that there are problems regarding the ability of some property owners to pay taxes. However the committee fully realizes that the subject has been studied in depth and that currently there exist solutions such

as reverse mortgages and special tax liens which can be arranged, after demonstration to local officials that hardships exist. Unfortunately this circuit breaker concept would shift the burden to an increasingly smaller and smaller number of taxpayers and create a domino effect regarding the ability to absorb more increases in taxes. Vote 13-0.

Rep. Kennedy spoke against.

Rep. Theberge spoke in favor.

Committee report adopted.

SPECIAL ORDER

HB 851-FN-A-L, relative to the determination of county payments for nursing home services. **INEXPEDIENT TO LEGISLATE.**

Rep. Bennett F. Moore for Municipal and County Government: Currently the cost of nursing home services is paid by the usage of these nursing home services within each county. This legislation would have changed the county's share of service costs to a percentage based on the equalized assessed valuation in a county compared to the statewide equalized assessed valuation. If enacted, this bill would have created "donor" and "receiver" counties for the cost of the nursing home services. The purpose of this bill was to have a vehicle to address the sunset provision currently in place in RSA 167:18-b and RSA 167:18-f, which determines the counties liability for these nursing home services that is due to expire. This bill could also lessen the financial incentive for any county to effectively manage the costs of nursing home services. The bill was viewed by the committee as being an unfunded mandate by shifting the costs statewide without any vote of the legislative bodies. In order to find a comprehensive resolution to funding health care costs at the county level, all stakeholders need to sit at the table to give their input. A task force to study the effectiveness of county government is already in place and will continue that study through November, 2008. The latter is the venue for finding an agreed upon resolution. Vote 14-0.

Committee report adopted.

SPECIAL ORDER

HB 157, establishing a committee to determine a permanent location for the old state house. **INEXPEDIENT TO LEGISLATE.**

Rep. John A. Graham for Public Works and Highways: The committee heard testimony from the Division of Historical Resources that it is already conducting a grant-funded study on the condition and future of the old state house. This study will not be completed until late 2008. With knowledge of this on-going project the committee felt that another study was not needed at this time. Vote 14-0.

Rep. Cali-Pitts spoke against.

Committee report adopted.

HB 283, allocating a portion of unrefunded road tolls to the dam maintenance fund. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Franklin T. Tilton for Public Works and Highways: The result of electric utility restructuring on the state's hydro-lease program has been to severely reduce the revenue into the dam maintenance fund needed for the operation and maintenance of the 273 state-owned dams. This bill, as amended, reallocates one-half of the un-refunded road toll revenues from fuel taxes that are not claimed for refund by owners of boats into the dam maintenance fund. The other one-half of these revenues continues to be allocated to the Fish and Game Department. Vote 14-1.

Amendment (0535h)

Amend the bill by replacing section 1 with the following:

1 Road Tolls; Exception. Amend RSA 260:60 to read as follows:

260:60 Exception. Notwithstanding all other laws and rules to the contrary, annually, on or before June 1, the road toll administrator shall compare the number of gallons on which refunds have been made for the preceding calendar year for motor fuel used in the propulsion of boats on inland public waters of the state, with the number of gallons of such motor fuel sold and delivered directly into the fuel tanks, or supplementary fuel tanks, of boats or outboard motors upon the inland public waters for use in such boats or outboards, based on the number of boats registered in the state at 100 gallons usage per boat, and if there is any balance of unrefunded tolls so collected, the administrator shall report the same to the state treasurer who shall, on July 1, next following, credit 1/2 of said

balance to the ~~[general]~~ *department of environmental services dam maintenance fund established under RSA 482:55* and credit 1/2 of said balance to the fish and game department. The funds credited to the *department of environmental services dam maintenance fund and the* fish and game department shall be used by ~~[said]~~ *each* department to carry out its program and be accounted for as the fish and game fund is accounted for. Any funds credited to the *department of environmental services dam maintenance fund and the* fish and game department as above provided shall not lapse at the end of the fiscal year. The department shall pay monthly to the state treasurer all revenue from the aircraft landing area toll.

Amendment adopted.

Committee report adopted.

Referred to the Committee on Ways and Means.

SPECIAL ORDER

HB 403, establishing the Interstate 93 widening commission. **INEXPEDIENT TO LEGISLATE.** Rep. John A. Graham for Public Works and Highways: This bill would have established a commission to "inform the legislature on the progress and problems in widening Interstate 93." The General Court (in 2005, HB 304, Chapter 58, Laws of 2005) required the Department of Transportation to submit progress reports on I-93 to the Capital Budget Overview Committee at least every 6 months. In 2006 HB 2006, Chapter 240, Laws of 2006, (The Ten-Year Transportation Plan) requires the DOT to report every 3 months to this oversight committee. The Public Works and Highways Committee feels that at present there is sufficient oversight of this critical project. The chair of the Capital Budget Oversight Committee has pledged to ensure that all meetings of this committee with the DOT will be announced well in advance to all members of the legislature and the public. This will enable all citizens the opportunity to hear from the DOT, without establishing yet another reporting requirement on the DOT. Vote 18-0.

Rep. Kurk spoke against.

Rep. Graham spoke in favor.

Committee report adopted.

SPECIAL ORDER

HB 189, relative to swim lines in public waters. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Christopher J. Ahlgren for Resources, Recreation and Development: This bill prohibits the placing of a swim line on a public body of water without a permit. The permitting authority is placed with the Department of Safety. The bill also prohibits the operation of a boat within the designated swim area without permission of the permittee. The commissioner is given authority to place a reasonable fee for the application and renewal of the permits with legislative guidance. Vote 16-0.

Amendment (0292h)

Amend the bill by replacing all after the enacting clause with the following:

1 New Paragraph; Navigation; Definitions; Swim Line. Amend RSA 270:2 by inserting after paragraph IX the following new paragraph:

X. "Swim line" means a combination of ropes, cables, and floats which encompass an area abutting the shore line, for the use of swimmers.

2 New Paragraph; Interference with Navigation; Placing Obstructions; Swim Lines. Amend RSA 270:26 by inserting after paragraph III the following new paragraph:

IV.(a) Any person who knowingly places a swim line in any public body of water without first obtaining a permit issued by the director of safety services shall be guilty of a violation.

(b) Any person who operates a boat within any permitted swim line on any public body of water without the permission of the permittee shall be guilty of a violation.

(c) The commissioner is authorized to establish fees and expiration periods for permits issued under subparagraph (a). The fee for a permit shall not be greater than \$50 and all permits shall expire no later than 5 years after the date of issuance. All fees collected under this paragraph shall be deposited in the navigation safety fund established under RSA 270-E:6-a.

3 Effective Date. This act shall take effect January 1, 2008.

AMENDED ANALYSIS

This bill prohibits placing a swim line in a public body of water without a permit and prohibits operating a boat within a permitted swim line.

Amendment adopted.

Committee report adopted and ordered to third reading.

SPECIAL ORDER

HB 440-FN, relative to the authority to quarantine to prevent dissemination of forest pests, relative to police training for forest rangers, and relative to forest resources and timber harvesting. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Marcia G. Moody for Resources, Recreation and Development: This legislation addresses three forestry problems. The first section requires all forest rangers hired after January 1, 2005 to complete the preparatory training for full-time police officers, and to then be certified as full-time police officers. Forest rangers are often called upon to do law enforcement functions and often in remote locations. Many forest rangers have already attended police training, but by mandating it, we will help secure more slots in training programs. Secondly, the bill authorizes the Director of the Division of Forests and Lands to regulate the movement within the state of any wood product which may introduce or spread dangerous insects or diseases. Third, the bill requires a written contract for the purchase or sale of forestry products, with a penalty for failure to provide such a contract. This will prevent deceptive forestry business practices. The amendment made technical corrections. Vote 17-1.

Amendment (0156h)

Amend the bill by replacing all after the enacting clause with the following:

1 Forestry; Definitions. Amend RSA 227-G:2, XIV-XVII to read as follows:

XIV. "Primary wood processing mill" means any permanent or portable mill, *or any off-site log yard operated by a primary wood processing mill*, wherever located, sawing or otherwise processing logs, bolts, pulpwood, or other primary forest products into secondary forest products.

XV. "*Quarantine*" means a legal restriction duly imposed or enacted as a means for preventing or delaying the spread of a forest pest.

[XV] XVI. "Reservation" means public land under the jurisdiction of the department including, but not limited to: state forest, state park, natural area, historic site, geological site, recreation trail, memorial area, fire tower, wayside area, heritage park, resource center, agricultural area, state forest nursery, fish pier, administrative facility, information center, demonstration forest, certain islands, and lands under lease to the department.

[XVI] XVII. "Special purpose" means the management of reservations and state-owned forestlands which have been excluded from forest management due to environmental, public safety, or other reasons unique to the reservation or state-owned forestland as determined by the agency responsible for the reservation or state-owned forestland.

XVIII. "*Wood concentration yard*" means any site established and used for the purchase and resale of primary forest products from off-site locations and which is not a primary wood processing mill. Any site used primarily to process or store bark mulch shall not be a wood concentration yard.

[XVII] XIX. "Woodland" includes cut-over land, slash, and such other land as bears a sufficient amount of wood growth, wood, weeds, grass, or other growth as to be likely to be burned

2 New Paragraphs; Administration; Rulemaking. Amend RSA 227-G:4 by inserting after paragraph VIII the following new paragraphs:

VIII-a. Quarantine measures that may be taken when forest pests are found in any geographic area pursuant to RSA 227-K.

VIII-b. The issuing of orders and permits pursuant to RSA 227-K:15.

3 New Paragraph; Forestry; Fines; Penalties. Amend RSA 227-G:5-a, by inserting after paragraph II the following new paragraph:

III. Unless otherwise provided by law, any person who violates any rule adopted under RSA 227-G:4 shall be guilty of a violation.

4 Forestry; Validity of Prosecutions. Amend RSA 227-G:8 to read as follows:

227-G:8 Validity of Prosecutions. Forest rangers and officials of the division appointed to enforce this title and other laws provided for in RSA 227-G:7 are authorized, upon successful completion of the preparatory training programs for *full-time or* part-time police officers established by the police standards and training council under RSA 188-F and their subsequent certification as *full-time or* part-time police officers, to prosecute these laws within the jurisdiction of municipal and district courts, unless the prosecutorial jurisdiction over a particular case or class of cases is preempted by the county attorney or the attorney general. Prosecutions for violations of any provisions of this title are declared to be valid and proper, notwithstanding the existence of any law of this state dealing with matters that may be the same as or similar to those covered by this title.

5 Forestry; Training of Forest Rangers. Amend RSA 227-G:9 to read as follows:
227-G:9 Training of Forest Rangers.

I. Any forest ranger of the division appointed to enforce the provisions of this title and other laws provided for in RSA 227-G:7, shall successfully complete the preparatory training for part-time police officers established by the police standards and training council pursuant to RSA 188-F no later than one year from the date of hire. Upon successful completion of the training program, such forest ranger shall be certified as a part-time police officer.

II. *Any forest ranger of the division hired after January 1, 2005 appointed to enforce the provisions of this title and other laws provided for in RSA 227-G:7, shall successfully complete the preparatory training for full-time police officers established by the police standards and training council pursuant to RSA 188-F no later than one year from the date of hire. Upon successful completion of the training program, such forest ranger shall be certified as a full-time police officer.*

III. *Any forest ranger of the division hired before January 1, 2005 shall be certified as a full-time police officer upon successful completion of the preparatory training for full-time police officers established by the police standards and training council pursuant to RSA 188-F.*

6 New Paragraphs; Forest Health; Duties of the Director. Amend RSA 227-K:2 by inserting after paragraph II the following new paragraphs:

III. The director, in consultation with the commissioner and under the direction of the commissioner of agriculture, markets, and food, or designee, may establish quarantines as specified in the law or under the rules to prevent dissemination of forest pests within the state or into the state that have the potential to cause serious damage to forests.

IV. The director, with the approval of the commissioner and after notice and hearing pursuant to RSA 541-A, may impose an administrative fine not to exceed \$2,000 for each offense upon any person who violates any provision of this chapter. Rehearings and appeals from a decision of the director under this paragraph shall be in accordance with RSA 541. Any administrative fine imposed under this section shall not preclude the imposition of further penalties under this chapter. The commissioner shall adopt rules, under RSA 541-A, relative to:

(a) A schedule of administrative fines which may be imposed under this paragraph for violation of this chapter.

(b) Procedures for notice and hearing prior to the imposition of the administrative fine.

V. The proceeds of administrative fines levied pursuant to paragraph IV shall be deposited by the director into the forest management and protection fund established under RSA 227-G:5, I.

7 Nursery Inspection; Regulation of Entry. RSA 227-K:14 is repealed and reenacted to read as follows:

227-K:14 Regulation of Entry. The director's authorized agents, under the direction of the director, may prohibit or regulate the entry into the state, or the movement within the state, of any tree, timber, log, wood, pole, underwood, or bark, or the products thereof, which in the agent's judgment may cause the introduction or spread of a dangerous insect or disease. This authority shall not extend to agricultural crops, nurseries, or nursery stock as regulated under RSA 433.

8 Nursery Inspection; Orders. Amend RSA 227-K:15 to read as follows:

227-K:15 Orders. ~~[The state nursery inspector and the commissioner of agriculture, markets, and food]~~ **The director and the commissioner of resources and economic development** may issue such orders, notifications, and permits as may be necessary to carry out the provisions of RSA 227K:14.

9 Forest Health; Penalties. RSA 227-K:17 is repealed and reenacted to read as follows:

227-K:1 Prohibitions; Penalty.

I. The following actions are prohibited:

(a) Violating any provisions of a quarantine issued under RSA 227-K:2, III.

(b) Violating any order or failing to obtain a permit issued under RSA 227-K:15.

(c) Selling, offering for sale, giving away, moving or shipping any tree, timber, log, wood, pole, underwood, or bark, or the products thereof into this state, or within this state, knowing or having reason to believe that they may be harboring a forest pest declared as a dangerous insect or disease, or have been exposed to any such pest. This authority shall not extend to agricultural crops, nurseries, or nursery stock as regulated under RSA 433.

II. Any person, or employee or agent of that person, who violates any provision of this section or rule adopted under this chapter shall be guilty of a violation. For any subsequent offense, a person shall be guilty of a misdemeanor if a natural person, or guilty of a felony if any other person.

10 Forest Resource Information; Primary Wood Processing Mills. Amend RSA 227-I:9 to read as follows:

227-I:9 Primary Wood Processing Mills; **Wood Concentration Yards**; Registration; Penalty.

I. In order to [~~provide for the safety of woodlands from fire in relation to primary wood processing mills, and to protect and develop the state's forest resources, information as to location, owner, type of mill, operating capacity, species and volumes of wood and timber being processed, and output of wood and timber products shall be required~~] **protect and develop the state's forest resources, provide for the safety of woodlands from fire in relation to primary wood processing mills, and to respond to forest health threats, such mills and wood concentration yards shall be registered by the director. Primary wood processing mills shall provide the director with information on the locations, owner, type of mill, operating capacity, species, volumes, and state of origin of wood harvested and timber processed, purchased, and sold, and the output of wood and timber products.**

II.(a) No person shall operate or cause to be operated any mill processing primary forest products **or wood concentration yard** unless said mill **or wood concentration yard** shall be registered by the director.

(b) There shall be an annual mill registration fee of \$20 for all mills processing primary forest products **or wood concentration yards**, regardless of size, type of mill **or wood concentration yard**, or primary product being processed.

(c) Application for registration shall be made on forms provided by the director, giving the name of owner or owners, **and locations** [~~type and capacity~~] **of a primary wood processing mill or a wood concentration yard. Primary wood processing mills shall provide the director with information on the** [-] products produced, **type, capacity**, and such other pertinent information as the director may require. One application shall cover a mill complex in a given location involving more than one unit of equipment.

(d) The director shall issue to the applicant a permanent registration number assigned to the mill **or wood concentration yard** described in the application together with a sign or plate denoting such registration number, to be displayed in a conspicuous place at the mill **or wood concentration yard**.

III. The director, or duly authorized agent, may, at any time, inspect any primary wood processing mill **or wood concentration yard** to assure compliance with the provisions of this chapter.

IV. Any person who violates any of the provisions of this section or rules adopted under RSA 541-A shall, for the first 30-day period, be guilty of a violation if a natural person, or guilty of a misdemeanor if any other person. Each subsequent 30-day period or part thereof shall constitute a separate offense.

11 Timber Harvesting; Deceptive Forestry Business Practices. Amend RSA 227-J:15, II to read as follows:

II. In this section, "adulterated" means varying from a standard of composition or quality prescribed by any statute providing criminal penalties for such variance, or set by established commercial usage. In this section, "mislabelled" means varying from a standard of truth or disclosure in labeling prescribed by any law providing criminal penalties for such variance, or set by established commercial usage. In this section, "scale slip" means a written or printed form or combination of forms which provide an accurate, readily understandable record [~~of the measurement of the wood to which it relates and is prepared by the person who measured the wood~~] **containing the species of wood product, board footage of each individual log when the standard unit of measurement is per thousand board feet, or tonnage or cordage when not sold per thousand board feet, gross scale, defect, net scale, date wood was measured, and the name of the party scaling the wood.**

III. A person is guilty of a misdemeanor if, in the course of buying or selling a forest product as defined in RSA 227-G:4, VII, he or she recklessly fails to provide a written contract to the owner, prior to the cutting from the owner's property any forest products which are subject to a notice of intent to cut as defined in RSA 79:10. The contract shall be signed by both parties, specify the remuneration for the forest products to be cut, and the time in which remuneration shall be made.

12 Repeal. RSA 227-K:13, relative to nursery inspection for the purpose of determining the presence of threatening insect or disease infestation, is repealed.

13 Effective Date. This act shall take effect 60 days after its passage.

AMENDED ANALYSIS

This bill:

I. Requires all forest rangers hired after January 1, 2005 to complete the preparatory training for full-time police officers established by the police standards and training council and provides that any forest ranger hired before January 1, 2005 shall be certified as a full-time police officer upon successful completion of a preparatory training course.

II. Authorizes the director of the division of forests and lands to regulate entry into, or movement within, the state of any wood product which may cause the introduction or spread of a dangerous insect or disease.

III. Penalizes the failure to provide a written contract for the purchase or sale of forestry products as a deceptive forestry business practice.

IV. Repeals the authority of the state nursery inspector to enter land for the purpose of determining the presence of threatening insect or disease infestation.

Amendment adopted.

Committee report adopted.

Referred to the Committee on Executive Departments and Administration.

SPECIAL ORDER

HB 498-FN-A, dedicating certain OHRV and snowmobile unrefunded road tolls to the fish and game department. **ought to pass with amendment.**

Rep. Donald A Brueggemann for Resources, Recreation and Development: This bill dedicates certain OHRV and small snowmobile unrefunded road rolls to the Fish and Game Department. In addition to providing badly needed funds to Fish and Game, the Department of Resources and Economic Development (DRED) trails bureau asserts that it needs to keep its share for repair of damage to trails crossing state roads. These funds are the tax that has been applied to gas purchased for OHRV's, but which are entitled to a refund since they are not for on-road use. Most OHRV users do not apply for this refund. Currently that amount is dedicated to the Bureau of Trails based on an annual average estimated purchase of 50 gallons per registered OHRV and snowmobile. The bill would have increased the estimated average to 150 gallons to be equally split between Fish and Game and the Bureau of Trails. The committee questioned the estimate and therefore amended it to a more reasonable 100 gallons per registered OHRV and snowmobile. The net effect is that the amount of funds dedicated to the Bureau of Trails is unchanged and Fish and Game would receive an equal amount. The amendment also reaffirms that the funds shall be non-lapsing. Vote 14-3.

Amendment (0305h)

Amend RSA 260:61, I as inserted by section 1 of the bill by replacing it with the following:

I. Annually on or before June 30 the state treasurer shall transfer, from road tolls collected, an amount equal to the number of licensed OHRVs and snowmobiles for the previous year times the average number of gallons consumed per year per OHRV and snowmobile times the gasoline road toll imposed under RSA 260:32, less any amount refunded for OHRV and snowmobile use for the previous year, to the *fish and game department and the bureau of trails as follows. The road toll administrator shall report to the state treasurer if there is a balance of unrefunded road tolls collected. The administrator shall certify the amount to the state treasurer who shall credit ½ of such balance to the bureau of trails for use as provided in paragraph I-a, and ½ of such balance to the fish and game department for use as provided in paragraph I-b.* For the purposes of this section, "the average number of gallons consumed per year per OHRV or snowmobile" is [50] 100.

Amend RSA 260:61, I-b as inserted by section 1 of the bill by replacing it with the following:

I-b. The fish and game department shall use the amount credited for the purposes listed in RSA 215-A:23, VIII and RSA 215-C:39, IX. Any unexpended balance in the amount credited shall not lapse, but shall be carried forward to the next fiscal year.

Amendment adopted.

Rep. Graham spoke against and yielded to questions.

Rep. Brueggemann spoke in favor.

On a division vote, 203 members having voted in the affirmative and 130 in the negative, the committee report was adopted.

Referred to the Committee on Finance.

HB 361, relative to technical changes in certain laws governing public utilities. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Naida L. Kaen for Science, Technology and Energy: This bill includes several minor/technical changes to statutes relating to public utilities, including: simplifying the definition of energy facilities subject to the jurisdiction of the Site Evaluation Committee; removing criminal penalties for violations of certain statutes and Public Utilities Commission (PUC) orders and rules; updating the state's "Dig Safe" law governing excavations near utility facilities; and allowing the PUC to establish certain standards required by the Federal Energy Policy Act of 2005. More significantly, the bill authorizes a one-time special assessment of up to \$150,000 against Verizon, and FairPoint for the Office of Consumer Advocate (OCA) to hire expert consultants on behalf of residential ratepayers in the proposed acquisition of Verizon's New Hampshire landline assets by FairPoint. Current law allows the PUC to make a special assessment for such a case, but the OCA does not have such authority. The committee believes that this is an important case for the state and for ratepayers, and strongly supports this one-time assessment against the companies in this special case. Vote 15-0.

Amendment (0538h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to certain laws governing public utilities and the proposed acquisition of certain assets and franchises of Verizon by FairPoint.

Amend the bill by replacing all after the enacting clause with the following:

1 Definitions. Amend RSA 162-H:2, VII to read as follows:

VII. "Energy facility" means any industrial structure, other than bulk power supply facilities, as defined in paragraph II, that may be used substantially to extract, produce, manufacture, transport or refine sources of energy, including ancillary facilities as may be used or useful in transporting, storing or otherwise providing for the raw materials or products of any such industrial structure. This shall include but not be limited to industrial structures such as oil refineries, gas plants, equipment and associated facilities designed to use any, or a combination of, natural gas, propane gas and liquefied natural gas, which store on site a quantity to provide 7 days of continuous operation at a rate equivalent to the energy requirements of a 30 megawatt electric generating station and its associated facilities, plants for coal conversion and onshore and offshore loading and unloading facilities for energy sources. Energy facility shall also include energy transmission pipelines, storage tanks, or any other facility which the applicant or 2 or more petition categories as defined in RSA 162-H:2, XI request and the committee agrees, or which the committee determines requires a certificate, consistent with the findings and purposes set forth in RSA 162-H:1. ~~[Energy facility shall include electric generating station equipment and associated facilities only if they are designed for, or capable of, operation at a capacity of greater than 30 megawatts.]~~

2 New Paragraph; Water Companies, When Public Utilities. Amend RSA 362:4 by inserting after paragraph VI the following new paragraph:

VII. (a) A homeowners association, including but not limited to a condominium unit owners association, shall not be considered a public utility under this title by virtue of providing water service if:

(1) The service is furnished only to members of the association or the occupants of their residential units; and

(2) The association is organized on a not-for-profit basis and is democratically controlled by the owners of the residential units and not the developer or subdivider thereof.

(b) Such a homeowners association is one consumer for purposes of paragraph I, and its individual members or their lessees shall not be treated as individual consumers.

3 Penalty Against Agent. Amend RSA 365:41-42 to read as follows:

365:41 Penalty Against Utility. Any public utility which shall violate any provisions of this title, or fails, omits or neglects to obey, observe or comply with any order, direction or requirement of the commission, ~~[shall be guilty of a felony and]~~ shall be subject to a civil penalty, as determined by the commission, not to exceed \$25,000. No portion of any fine, nor any costs associated with an administrative or court proceeding which results in a fine pursuant to this section, shall be considered by the commission in fixing any temporary, permanent, or emergency rates or charges of such utility.

365:42 Penalty Against Agent. Every officer and agent of any such public utility who shall willfully violate, or who procures, aids, or abets any violation of this title, or who willfully fails to obey, observe, and comply with any order of the commission, or procures, aids or abets any

such public utility in its failure to obey, observe, and comply with any such order or provision, ~~[shall be guilty of a misdemeanor and,]~~ shall be subject to a civil penalty, as determined by the commission, not to exceed \$10,000 for each violation, or for each day of a continuing violation.

4 Definitions. Amend RSA 374:48, IV-a to read as follows:

IV-a. "Operator" means any public utility as defined by RSA 362:2 or RSA 362:4 ~~[and]~~, any cable television system as defined by RSA 53-C:1, **and any liquefied petroleum gas company operating any jurisdictional facility or facilities as defined by the Natural Gas Pipeline Safety Act (49 U.S.C. chapter 601)** that owns or operates underground facilities.

5 New Paragraph; Definitions. Amend RSA 374:48 by inserting after paragraph VII the following new paragraph:

VIII. "Blasting" means excavation by means of explosives.

6 Rulemaking. Amend RSA 374:50, III to read as follows:

III. Emergency situations for which *prior* notice of excavation **pursuant to RSA 374:51, II** is not required.

7 Notification by Excavator. Amend RSA 374:51, I to read as follows:

I. No person shall perform an excavation within 100 feet of an underground facility, except in an emergency, without first giving notification as required by this section. ***In an emergency, notification shall be given at the earliest practicable moment.***

8 New Paragraph; Notification by Excavator. Amend RSA 374:51 by inserting after paragraph VI the following new paragraph:

VII. If an excavator is aware that blasting will be required during an excavation, the excavator shall inform the damage prevention system when providing notice of the excavation. If an excavator determines during the effective term of the excavator's notification that blasting is required within the area premarked in accordance with paragraph IV, the excavator shall notify the damage prevention system of the need to blast. Notification shall be made at least 24 hours prior to any blasting, not including Saturdays, Sundays, and legal holidays. In the case of unanticipated obstructions that prevent further excavation without blasting, the excavator shall provide separate notice of such blasting not less than 4 contiguous hours in advance of such blasting, not including the hours of 4:00 p.m. to 6:00 a.m. weekdays, or all of Saturdays, Sundays, and legal holidays.

9 Energy Policy Act Standards. RSA 378:7-a is repealed and reenacted to read as follows:

378:7-a Energy Policy Act Standards. The commission may establish requirements for net metering, fuel diversity, fossil fuel generation efficiency, advanced metering, time-based rates, and interconnection with on-site generation facilities of customers in a manner not inconsistent with section 111 of the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 46) as amended by the Energy Policy Act of 2005.

10 New Section; Expense of Investigations. Notwithstanding any provision of law or rule or any order to the contrary:

I. As soon as practicable, the public utilities commission shall charge a special assessment against Verizon and FairPoint to support the work of the office of the consumer advocate in the FairPoint/Verizon acquisition docket at the commission. Funds from the special assessment shall be available to the office of the consumer advocate until June 30, 2008, or until such time as all final appeals in the case have been exhausted, whichever is later, at which time any remaining funds shall be credited back to the utilities. Specifically, the commission shall charge, in one or more assessments, an amount not to exceed \$150,000 to support the engagement of expert consultants by the office of the consumer advocate, with such engagement subject to approval by the governor and council. Such expert consultants shall assess, from the perspective of residential ratepayers, whether FairPoint has the financial, technical, managerial, and other capabilities to acquire Verizon's assets and franchises as proposed, in a manner that meets the public good requirement of RSA 374:30. To the extent practicable, the office of the consumer advocate shall cooperate with consumer and public advocates in Maine and Vermont in order to efficiently advance the common interests of residential consumers across the region.

II. Funds made available under paragraph I shall not be used to pay any part of the salaries, benefits, or other expenses related to the employees of the office of the consumer advocate or the commission.

11 Reference Deleted. Amend RSA 362:2, II to read as follows:

II. For the purposes of this title only, rural electric cooperatives for which a certificate of deregulation is on file with the public utilities commission pursuant to RSA 301:57 shall not be

considered public utilities; provided, however, that the provisions of RSA 362-A, 363-B, 371, 374:2-a, 374:26, ~~[374:26-a]~~ 374-A, 374-C, 374-F, and 378:37-39 shall, unless otherwise provided herein, be applicable to rural electric cooperatives, without regard to whether a certificate of regulation or deregulation is on file with the public utilities commission. The provisions of RSA 374-A and the provisions of RSA 374-F:3, V(b) and (f) and RSA 374-F:7 shall be applicable to rural electric cooperatives for which a certificate of deregulation is on file with the public utilities commission to the same extent as municipal utilities.

12 Repeal. The following are repealed:

I. RSA 374:26-a, relative to retail competition pilot program.

II. RSA 378:7-b, relative to optional time of use and time of day rates defined.

13 Effective Date. This act shall take effect upon its passage.

AMENDED ANALYSIS

This bill:

I. Makes certain technical changes and expands certain definitions in laws governing public utilities.

II. Requires the commission to charge an assessment against Verizon and FairPoint to fund the engagement of consultants to assess whether FairPoint has the capabilities to acquire Verizon's assets and franchises.

Amendment adopted.

Committee report adopted and ordered to third reading.

HB 427, relative to construction and demolition debris. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Naida L. Kaen for Science, Technology and Energy: The bill as amended prohibits the designation of the wood component of construction and demolition debris (C&D) as a certified waste-derived product, thereby also prohibiting its combustion. The committee benefited from the input of two members of the Environment and Agriculture committee who attended all public hearings and work sessions. While serious concerns were raised by members during the deliberations about New Hampshire's limited landfill capacity and the need to find a secure and continuing solution for the disposition of New Hampshire's C&D, the Commissioner of the Department of Environmental Services, who supports this bill as amended, pledged to address this issue forthwith by applying the department's efforts toward developing a comprehensive program, including, but not limited to, on-site deconstruction, reduction, and reuse. Vote 14-0.

Amendment (0253h)

Amend the title of the bill by replacing it with the following:

AN ACT defining construction and demolition debris and certified waste-derived product, and relative to the department of environmental services certifying waste-derived products of the wood component of construction and demolition debris.

Amend the bill by replacing all after the enacting clause with the following:

1 Construction and Demolition Debris; Definition of Refuse. Amend RSA 149-M:4, XXI to read as follows:

XXI. "Refuse" means and includes any waste product, solid or having the character of a solid rather than a liquid in that it will not flow readily without additional liquid, and which is composed wholly or partly of such materials as garbage, swill, sweepings, cleanings, trash, rubbish, litter, industrial or domestic solid wastes; organic wastes or residue of animals sold as meat; fruit, vegetable or animal matter from kitchens, dining rooms, markets, food establishments or any places dealing in or handling meat, fowl, fruits, grain or vegetables; offal, animal excreta, or the carcasses of animals; ~~[brick, plaster or other waste matter resulting from the demolition, alteration, or construction of buildings or structures]~~ **construction and demolition debris**; or accumulated waste material, cans, containers, tires, junk, or other such substances which may become a nuisance.

2 New Paragraph; Construction and Demolition Debris; Definition. Amend RSA 149-M:4 by inserting after paragraph IV the following new paragraph:

IV-a. "Construction and demolition debris" means non-putrescible waste building materials and rubble which is solid waste resulting from the construction, remodeling, repair or demolition of structures or roads. The term includes bricks, concrete and other masonry materials, wood, wall

coverings, plaster, dry wall, plumbing, fixtures, non-asbestos insulation or roofing shingles, asphaltic pavement, glass, plastics that are not sealed in a manner that conceals other wastes and electrical wiring and components, incidental to any of the above and containing no hazardous liquid or metals. The term does not include asbestos waste, garbage, corrugated container board, electrical fixtures containing hazardous liquids such as fluorescent light ballasts or transformers, furniture, appliances, tires, drums and containers, and fuel tanks.

3 New Paragraph; Certified Waste Derived Product; Definition. Amend RSA 149-M:4 by inserting after paragraph II the following new paragraph:

II-a "Certified waste-derived product" means a constituent of solid waste which is no longer regulated as a solid waste when certified by the department to be recyclable for its original use or alternate uses and which poses no greater risk to the environment, public health and safety than exists by producing, distributing, using, or disposing comparable products which are not waste-derived.

4 New Paragraph; Construction and Demolition Debris; Waste Derived Product; Prohibition. Amend RSA 149-M:9 by inserting after paragraph XIII the following new paragraph:

XIV. Notwithstanding any provision of law or rule to the contrary, the department shall not certify as a waste-derived product the wood component of construction and demolition debris, or any mixture of or derivation therefrom, to be combusted in any manner, except that methane gas collected from the decomposition of waste at a facility authorized pursuant to this chapter as a landfill for the disposal of solid waste may be certified as a waste-derived product for distribution and use as a fuel, provided that it meets market fuel standards.

5 Effective Date. This act shall take effect upon its passage.

AMENDED ANALYSIS

This bill:

I. Defines construction and demolition debris.

II. Defines certified waste-derived product.

III. Prohibits the department of environmental services from issuing a certification as a waste-derived product for the wood component of construction and demolition debris.

Amendment adopted.

The question now being adoption of the committee report of Ought to Pass with Amendment.

Rep. Kaen spoke in favor and yielded to questions.

Committee report adopted and ordered to third reading.

HB 428, relative to prohibiting the combustion of construction and demolition waste. OUGHT TO PASS WITH AMENDMENT.

Rep. Naida L. Kaen for Science, Technology and Energy: A moratorium on the burning of construction and demolition waste (C&D) in the state went into effect in 2006; it is due to expire on December 31, 2007. HB 428, as amended, bans the incineration of C&D waste in this state without a sunset provision. The committee received oral testimony from more than twenty individuals, a petition with nineteen signatures, and additional written testimony, all in favor of extending the moratorium indefinitely. The primary concern of the committee, as well as those supporting the bill, is the release of air toxins if the burning of C&D waste were to be allowed. In 2005 New Hampshire managed approximately 600,000 tons of C&D. Approximately one-third of this came from out of state. Burnable wood makes up 40% of the C&D debris. In 2005 approximately 60% of the C&D debris was processed to recover 105,000 tons of wood chip fuel which was sent out of state. The committee felt that extending the C&D combustion ban would not negatively affect waste processing or biofuel businesses in New Hampshire. Allowing the existing prohibition to expire would alter the current C&D debris management structure, which would hurt the state's developing virgin timber fuel sector and would likely result in a dramatic rise in the amount of unprocessed C&D debris entering the state. Since most of this material is not reusable wood, the bulk of this influx would be directed to landfills, competing for NH's diminishing capacity. The committee felt that burning the wood component of C&D debris to generate electricity poses unacceptable risks for exposure to pollutants, through both air emission and the disposal of ash residues. Vote 13-1.

Amendment (0254h)

Amend the title of the bill by replacing it with the following:

AN ACT prohibiting the combustion of the wood component of construction and demolition debris and defining construction and demolition debris.

Amend the bill by replacing all after the enacting clause with the following:

1 New Section; Combustion Ban. Amend RSA 125-C:10 by inserting after section 10-b the following new section:

125-C:10-c Combustion Ban. Notwithstanding any provision of law to the contrary, no person shall combust the wood component of construction and demolition debris, as defined in RSA 149-M:4, IV-a, or any mixture or derivation from said component. This section shall not apply to the incidental combustion of such materials by any municipal waste combustor, as defined in RSA 125-M:2, XI, which was subject to regulation by this chapter or RSA 149-M and which was in operation on January 1, 2006, or by any municipal incinerator that is permitted by the department and was in operation on January 1, 2006.

2 New Paragraph; Construction and Demolition Debris; Definition. Amend RSA 149-M:4 by inserting after paragraph IV the following new paragraph:

IV-a. "Construction and demolition debris" means non-putrescible waste building materials and rubble which is solid waste resulting from the construction, remodeling, repair or demolition of structures or roads. The term includes, but is not limited to, bricks, concrete and other masonry materials, wood, wall coverings, plaster, dry wall, plumbing, fixtures, non-asbestos insulation or roofing shingles, asphaltic pavement, glass, plastics that are not sealed in a manner that conceals other wastes and electrical wiring and components, incidental to any of the above and containing no hazardous liquid or metals. The term does not include asbestos waste, garbage, corrugated container board, electrical fixtures containing hazardous liquids such as fluorescent light ballasts or transformers, furniture, appliances, tires, drums and containers, and fuel tanks.

3 Effective Date. This act shall take effect January 1, 2008.

AMENDED ANALYSIS

This bill prohibits the combustion of the wood component of construction and demolition debris.

This bill also defines construction and demolition debris.

Amendment adopted.

Committee report adopted and ordered to third reading.

HCR 5, endorsing the National Health Insurance Act. MAJORITY: OUGHT TO PASS. MINORITY: INEXPEDIENT TO LEGISLATE.

Rep. Raymond G. Gagnon for the Majority of State-Federal Relations and Veterans Affairs: Due to the growing crisis in health care manifested in rising health care costs, increased premiums, out of pocket spending and decreased international business competitiveness, this House Concurrent Resolution endorses the National Health Insurance Act presently before the United States Congress. Whether we want to admit it or not we have universal health care. Currently any uninsured person can receive health care service free of cost at any hospital emergency room. The cost of treatment will eventually be paid for by public taxes and or by increased private premiums. The National Health Insurance Act's goal is to admit that the present manner of health care delivery is not inefficient but unnecessarily expensive. Vote 9-6.

Rep. Alfred P. Baldasaro for the Minority of State-Federal Relations and Veterans Affairs: This is a concurrent resolution that says the New Hampshire General Court wants Congress to pass the National Health Insurance Act. This act would insure people in this country, but that would be necessary since it's going to force so many insurance companies to close their doors and insure all the laid off employees it will create. This act may likely further hurt businesses by its proposed implementation of a 3.3% payroll tax on all employers nation-wide. This act would socialize health insurance in this country, breaking up our free-market system, upon which our nation was founded. No co-pays, sounds great; but this plan would even provide for chiropractic and other forms of care that may be perceived by some to be above and beyond the necessary care to maintain good health. Where would this end? The minority of the committee believes that the NHIA is not a program that will promote the democratic principles our country stands for and as such recommends that HCR 5 be found inexpedient to legislate.

Rep. Renzullo requested a roll call; sufficiently seconded.

and the majority committee report was adopted.
Ordered to third reading.

HC 6, urging Congress to prevent the implementation of the North American FreeTrade Agreement superhighway system. **OUGHT TO PASS.**

Rep. Alfred P. Baldasaro for State-Federal Relations and Veterans Affairs: This concurrent resolution is about the safety of New Hampshire's highways, which is the prime responsibility of the New Hampshire General Court and that duty should not and cannot be delegated to any other entity. This goes right to the heart of our state's sovereignty. This proposed highway as planned would go from southern Mexico, through the US, finish up in Canada. This would be detrimental to Homeland Security. The most important factor that is often lost in the discussion is the threat to the economic security of the United States. Such a highway or train system could not be made economically feasible unless it has exits necessary to off load products and goods manufactured in Mexico at reduced labor costs. This would also allow countries such as China to offload goods in a free trade zone and bypass American ports and their high paying jobs. Vote 11-2. Committee report adopted and ordered to third reading.

SPECIAL ORDER

HB 449-FN, relative to motor vehicle inspections. **INEXPEDIENT TO LEGISLATE.**

Rep. Jim Ryan for Transportation: The bill seeks to alter the current requirement of annual inspections of motor vehicles to a biennial requirement. The annual requirement is rooted in the state's interest in safety and to assure that at least once a year as part of the registration process that a qualified and competent person examines the motor vehicle to assure compliance with our motor vehicle laws and to assure that fundamental systems such as brakes, tires and the like are examined to assure that the public safety on our highways is valued. The bill was opposed by the Department of Environmental Services as inconsistent with current emission control laws that require an annual inspection. The bill was opposed by the division of motor vehicles which flatly noted the change would harm safety. The bill was opposed by NH Automobile Association that referred the committee to findings by the National Highway Traffic Safety Administration (NHTSA) in a recent report that found that states with annual inspection requirements had accident rates that were 20% lower than in states that did not. The clear and convincing message from the testimony was to retain the annual inspection requirement. Vote 12-0.

Rep. Ryan moved Recommit.

Motion adopted.

Recommitted to the Committee on Transportation.

BILLS REMOVED FROM CONSENT CALENDAR

HB 62, relative to limiting the number of balloons released into the atmosphere. **OUGHT TO PASS WITH AMENDMENT.**

Rep. James F. Powers for Environment and Agriculture: This bill adds a category of litter to existing litter law. Evidence presented to the committee led us to understand that purposeful release of lighter than air balloons, as has been done in various celebratory occasions, results in significant dangers to marine wildlife, including endangered and threatened species. Beach clean-up projects have found thousand of deflated balloons on beaches. Photographs were presented of sea birds, sea turtles (which summer off the shores of New Hampshire) and a whale which had died as the result of ingesting deflated balloons, which look like their usual food. The bill does not apply to accidental release of balloons, nor to passenger carrying balloons, or meteorological balloons released by any governmental agency. Vote 17-2.

Amendment (0403h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to balloons being released into the air.

Amend the bill by replacing all after the enacting clause with the following:

1 Declaration of Intent. Amend RSA 163-B:1 to read as follows:

163-B:1 Declaration of Intent.

I. It is the intention of the legislature by this chapter to provide for uniform prohibition throughout the state of any and all littering on public or private property and to curb thereby the desecration of the beauty of the state and harm to the health, welfare and safety of its citizens caused by individuals who litter.

II. The general court declares that the release into the atmosphere of balloons inflated with lighter-than-air gases constitutes littering, because the balloons eventually return to the earth's surface. Deflated balloons pose a serious threat to the life and well-being of wildlife and marine animals via ingestion or entanglement with attached ribbons.

2 Unlawful Activities. Amend RSA 163-B:3 to read as follows:

163-B:3 Unlawful Activities.

I. It shall be unlawful for any person or persons to dump, deposit, throw or leave, or to cause or permit the dumping, depositing, placing, throwing or leaving of litter on any public or private property in this state, or in or on ice or in any waters in this state, unless:

[F] **(a)** Such property is designated by the state or by any of its agencies or political subdivisions for the disposal of such litter, and such person is authorized by the proper public authority to use such property;

[H-] **(b)** Such litter is placed into a litter receptacle or container installed on such property;

[HH-] **(c)** Such person is the owner or tenant in lawful possession of such property, or has first obtained consent of the owner or tenant in lawful possession, or unless the act is done under the personal direction of said owner or tenant, all in a manner consistent with the public welfare.

II. It shall be unlawful for any person to intentionally release or intentionally cause to be released into the atmosphere one or more balloons inflated with lighter-than-air gases, except for:

(a) Balloons released by or on behalf of any agency of the United States, the state of New Hampshire, or any other state, territory, or government for scientific or meteorological purposes; or

(b) Hot air balloons recovered after launch.

3 Penalties. Amend RSA 163-B:4 to read as follows:

163-B:4 Penalties.

I. Except as provided in paragraph III, any person violating the provisions of RSA 163-B:3, shall be guilty of a misdemeanor, or, in lieu thereof, in the sound discretion of any court in which conviction is obtained, any such person may be directed by the judge of such court to pick up and remove from any public street or highway or public or private right-of-way, or public beach or public park, or with prior permission of the legal owner or tenant in lawful possession of such property, any private property upon which it has been established by competent evidence that he has deposited litter, any and all litter deposited thereon by anyone prior to the date of execution of sentence.

II. The court is hereby directed to publish the names of persons convicted of violating the provisions of RSA 163-B:3.

III. Any person who violates the provisions of RSA 163-B:3, II, relative to balloon release, shall be guilty of a violation and fined \$250 for the first offense and \$500 for each subsequent offense.

4 Effective Date. This act shall take effect 60 days after its passage.

AMENDED ANALYSIS

This bill prohibits the release of lighter-than-air balloons into the air and establishes penalties for violations of this prohibition.

On a division vote, 201 members having voted in the affirmative and 105 in the negative, the committee amendment was adopted.

The question now being adoption of the committee report of Ought to Pass with Amendment. Reps. Patten and Kurk spoke against.

Reps. Waterhouse, Phinizy and Skinder spoke in favor and yielded to questions.

Rep. Vaillancourt spoke in favor.

Rep. Renzullo requested a roll call; sufficiently seconded.

Donovan, Thomas
and the committee report was adopted.
Ordered to third reading.

HB 74-FN-A-L, relative to matching funds for federal disaster assistance for the October 2005 floods and making an appropriation therefor. **INEXPEDIENT TO LEGISLATE.**

Rep. David L. Smith for Finance: This legislation was to provide additional funds for repair projects resulting from October 2005 flood damage. The funds would enable disaster assistance from the United States Department of Agriculture, National Resource Conservation Service. This is the first time the state had received funds from this source. The original bill addressing this issue was to meet the needs of an emergency situation, and special low-cost conditions, to the towns, were enacted to help the communities meet that need. This bill expands the scope of the first bill to now address non-emergency repairs. Enough time has passed to make it hard to declare these new projects as being emergency. The newly added projects should have been identified earlier if they were emergency in nature. The delayed funding, combined with the special town match, sets a bad precedent for other communities that may sustain damage in the future. This request called for state funds to be provided before the towns have provided their financial commitment. Vote 23-0.

Rep. Ferland spoke against.

Rep. David Smith spoke in favor and yielded to questions.

Committee report adopted.

HB 435-FN-A, making an appropriation to provide a death benefit for the family of a seasonal department of transportation employee. **INEXPEDIENT TO LEGISLATE.**

Rep. Robert A. Foose for Finance: The committee unanimously recognized the tragic loss of Brent Jackson, Jr., a full-time seasonal employee of the Department of Transportation. Mr. Jackson was a young man who had joined the department to earn funds to further his college education. In discussion the committee concluded that the payment of a death benefit would establish a precedent, the scope of which could not be ascertained. The committee also believed that the decision to provide a death benefit is more appropriate to a contract negotiation. Vote 20-0.

Rep. Hawkins spoke against.

Rep. Foose spoke in favor.

Committee report adopted.

MOTION TO RECONSIDER

Having voted with the prevailing side, Rep. Winters moved that the House reconsider its action whereby it found **HB 74-FN-A-L**, relative to matching funds for federal disaster assistance for the October 2005 floods and making an appropriation therefor, Inexpedient to Legislate.

Rep. Winters spoke in favor.

On a division vote, 189 members having voted in the affirmative and 113 in the negative, the motion was adopted.

The question now being adoption of the committee report of Inexpedient to Legislate.

Rep. Ferland spoke against.

Rep. David Smith spoke in favor.

On a division vote, 252 members having voted in the affirmative and 55 in the negative, the committee report was adopted.

BILLS REMOVED FROM CONSENT CALENDAR (CONT'D)

HB 506, relative to references to "United States citizen" in the New Hampshire statutes. **INEXPEDIENT TO LEGISLATE.**

Rep. Lucy M. Weber for Judiciary: This bill would change the references to "United States Citizen" in several statutes to "American citizen of the United States." The proponent of the change argues this change is necessary because he believes "United States" refers only to a bankrupt municipal corporation whose holdings include only the District of Columbia, Puerto Rico, and the various U.S. possessions. The change was offered as a "housekeeping measure" needed to regularize the citizenship of those of us born in the fifty states, and to protect us from inadvertent perjury on our passport applications. The committee was unable to reconcile the testimony given about the desired effect of the bill with the actual language of the bill itself. The committee was unpersuaded that a problem exists that would be addressed by this bill. Vote 13-0.

Rep. Lars Christiansen spoke against.

Rep. Weber spoke in favor.

Committee report adopted.

HB 507, relative to the rights of citizens. **INEXPEDIENT TO LEGISLATE.**

Rep. Lucy M. Weber for Judiciary: This bill is a follow on from HB 506, and grows out of the sponsor's expressed notion of the United States as a bankrupt municipal corporation. The bill speaks to the freedom of persons to confirm their political status pursuant to certain portions of the U.S. Code. The committee was unable to reconcile the testimony given about the desired effect of the bill with the actual language of the bill. Moreover, the committee was unpersuaded that a problem exists that would be addressed by this bill. Vote 13-0.

Rep. Lars Christiansen spoke against.

The Speaker ruled that reading of the entire committee report by Rep. Lars Christiansen was out of order.

APPEAL OF THE RULING OF THE CHAIR

Rep. Vaillancourt appealed the ruling of the chair.

The question now being should the ruling of the Chair be upheld?

Rep. Vaillancourt spoke against.

Rep. Daniel Eaton spoke in favor.

Rep. Campbell requested a roll call; sufficiently seconded.

and the ruling of the Chair was upheld.
Rep. Priestly voted Nay and intended to vote Yea.

PROTEST

Pursuant to Part 2, Article 24 of the New Hampshire Constitution, the following protest was entered in the Permanent Journal.

The New Hampshire tradition of free speech and open debate having been abrogated in the Chair's decision to prevent a member from reading from a blurb, I enter my protest under Part 2, Article 24 of the Constitution.

Rep. Steve Vaillancourt

Rep. Rollo moved the previous question.

Adopted.

The question now being adoption of the committee report of Inexpedient to Legislate on **HB 507**, relative to the rights of citizens.

Committee report adopted.

BILLS REMOVED FROM CONSENT CALENDAR (CONT'D)

HB 557-L, relative to free parking in designated handicapped zones. **INEXPEDIENT TO LEGISLATE.**

Rep. Eric G. Stohl for Municipal and County Government: The bill seeks to provide free handicapped parking only in parking areas designated as handicapped zones. The committee heard testimony indicating the many difficulties that some of our citizens, as well as visitors to our state, encounter in their daily lives. In addition to having a walking disability, many have other challenges including but not limited to wheelchair bound and dexterity issues in the upper extremities. With the additional hardships that New Hampshire winters can add to the issue, the committee unanimously feels that restricting parking privileges for persons with walking disabilities to only designated zones would be an undue hardship placed upon individuals that already have enough daily issues to contend with. Vote 14-0.

Rep. Theberge spoke in favor.

Committee report adopted.

HB 684, establishing a rest area and state liquor store retail opportunities commission. **INEXPEDIENT TO LEGISLATE.**

Rep. Kevin K. Waterhouse for Public Works and Highways: The committee unanimously agreed that a new commission is not needed to start a process that is already ongoing. The Department of Transportation is in discussion with both the Liquor Commission and Made in New Hampshire, New Hampshire Stories regarding rest areas. The committee was concerned that expanding the parties of a commission to include commercial retail and restaurants would put the state in competition with local small businesses. The committee recognizes that the many exits on our state highways offer the motoring public ample opportunities to find locally owned travelers services. We also needed to consider the federal regulations regarding the vending machines operated by the sight impaired. Vote 14-0.

Rep. Crane spoke against and yielded to questions.

Rep. David Smith spoke against.

Rep. Bouchard spoke in favor.

Rep. Crane requested a roll call; sufficiently seconded.

MOTION TO SUSPEND RULES

Reps. Wallner and Whalley move that the Rules be so far suspended as to allow reporting from committees after Noon on March 22nd.
Adopted by the necessary two-thirds.

RESOLUTION

Rep. Wallner offered the following: **RESOLVED**, that the House now adjourn from the early session, that the business of the late session be in order at the present time, that the reading of bills be by title only and resolutions by caption only and that all bills ordered to third reading be read a third time by this resolution, and that all titles of bills be the same as adopted, and that they be passed at the present time, and when the House adjourns today it be to meet Tuesday, March 27, 2007 at 10:00 a.m.
Adopted.

LATE SESSION

Third reading and final passage

HB 158, requiring insurance companies to allow covered persons to purchase an up-to-90 day supply of covered prescription drugs on the covered person's health plan formulary under certain circumstances.

HB 215, relative to fees for hearing care providers.

HB 228, relative to the definition of "medical necessity" under the managed care law.

HB 281, relative to the cancellation of buying club memberships.

HB 324, relative to the use of artificial trans fats and saturated fats in food prepared and served in public schools.

HB 365, establishing a commission to study foreclosures of home mortgages and the foreclosure rescue scam industry.

HB 469, relative to on-premises cocktail lounge licenses for caterers and relative to beverage manufacturer hospitality rooms.

HB 499, relative to the innovative research center.

HB 532, relative to insurance fraud.

HB 147, relative to counting kindergarten pupils in charter school attendance.

HB 164, prohibiting school personnel from recommending the use of psychotropic medications for any child.

HB 213, relative to the availability of school nutrition program funds for charter school and nonpublic schools.

HB 242, relative to the declaration of candidacy form.

HB 367, relative to incompatible offices.

HB 142, relative to the sale of out-of-state animals.

HB 207, establishing a commission to study and make recommendations on the expansion of the New Hampshire Agricultural Innovation Program.

HB 307, relative to examinations of electricians by the electricians' board.

HB 220, establishing a reporting requirement for departments that receive highway funds.

HB 417-FN-A, allowing the department of safety to transfer funds within the budget of the division of state police.

HB 590-FN, changing the state migratory waterfowl stamp into a license issued by the fish and game department.

HB 657, authorizing the executive director of fish and game to issue moose hunting adventure permits.

HB 658, prohibiting the taking of game by use of a tranquilizer.

HB 286-FN, relative to a Medicaid waiver for family planning services.

HB 327, allowing collaborative pharmacy practice agreements to include pharmacy locations during declared emergencies.

HB 345, relative to certification of death certificates.

HB 483-FN, relative to mosquito control districts.

HB 542, establishing a study committee to study the approval process of nursing education programs.

HB 152, relative to public access to meeting minutes.

HB 426, relative to workers' compensation rates and resolution of disputes relative to classification of employees or independent contractors.

HB 256, relative to the duties and powers of town treasurers.

HB 261, prohibiting the Carroll county attorney from engaging in the private practice of law.

HB 316, relative to the 5-year assessment review by the department of revenue administration.

HB 588-FN-L, relative to Cates Hill Road and Jericho Lake Road in the city of Berlin.

HB 638-FN, relative to lease agreements entered into by the department of transportation.

HB 705, relative to the disposal of highway or turnpike funded real estate.

HB 252-FN, relative to exemptions from the permitting process for excavating and dredging.

HB 460, relative to conservation restrictions to protect public water supplies.

HB 49, relative to eligibility for admittance to the New Hampshire veterans' home.

HCR 3, urging that New Hampshire members and veterans of the armed forces and national guard and their dependents receive health screening for depleted uranium exposure.

HB 217, establishing a committee to study the New Hampshire park and ride program.

HB 598-FN-A, repealing certain foreign dividend deductions under the business profits tax and repealing an exemption to the real estate transfer tax.

HB 51, permitting adoption by 2 unmarried adults in a familial relationship.

HB 88, establishing a committee to study single payer health care.

HB 169, relative to penalties for insurers or adjusters knowingly underestimating the value of an insurance claim.

HB 334, relative to the hours for on-premises sale of alcoholic beverages.

HB 95-L, relative to the treatment of charter school pupils in the definition of average daily membership in residence.

HB 473-FN, relative to reimbursement for members of the council for teacher education.

HB 132, relative to domicile for voting purposes.

HB 133, relative to voter registration forms.

HB 609-FN, relative to disclosure of campaign contributions in local elections.

HB 118, reducing a prior appropriation to the department of transportation to purchase flood damaged property and extending the commission to determine the appropriate public use of the property.

HB 604-FN, prohibiting the taking of deer from baited areas.

HB 846, transferring certain land in the town of Stoddard from the Trust for Public Land to the fish and game department.

HB 139, relative to the reporting of burn injuries.

HB 306, establishing a task force on work and family.

HB 257, allowing towns to appoint or elect a town treasurer.

HB 189, relative to swim lines in public waters.

HB 361, relative to certain laws governing public utilities and the proposed acquisition of certain assets and franchises of Verizon by FairPoint.

HB 427, defining construction and demolition debris and certified waste-derived product, and relative to the department of environmental services certifying waste-derived products of the wood component of construction and demolition debris.

HB 428, prohibiting the combustion of the wood component of construction and demolition debris and defining construction and demolition debris.

HCR 5, endorsing the National Health Insurance Act.

HCR 6, urging Congress to prevent the implementation of the North American FreeTrade Agreement superhighway system.

HB 62, relative to balloons being released into the air.

UNANIMOUS CONSENT

Reps. Peterson and Price addressed the House.

PRINT REMARKS

Without objection, the Speaker ordered the remarks of Rep. Price be printed in the Permanent Journal.

REMARKS

Rep. Price: Thank you, Madam Speaker. Members of the House, I rise today to recognize former State Representative Nancy Ford who passed away on March 15th at age 79. Representative Ford served 20 years in this House from 1981 to 1991 and again from 1993 to 2003. She was known for her commitment to the Nashua community where she served on many boards, volunteered in the community and in the schools. She was known for her dedication to the legislative process and even when she became ill, she made it a point to attend legislative meetings. She was very passionate about her causes. She was known for her service to others and for those who are less fortunate and she was known to be passionate against gambling here in the legislature. To quote a colleague of mine from Nashua who sits on the other side of the aisle and served with her on the Judiciary committee, "She was known as a gracious lady who was listened to with the greatest amount of respect." Madam Speaker, I request a moment of silence in honor of her memory.

MOMENT OF SILENCE

A moment of silence was observed in memory of former New Hampshire State Representative Nancy Ford.

RECESS MOTION

Rep. Wallner moved that the House stand in recess for the purpose of introduction of bills and receiving Senate messages.

Adopted.

The House recessed at 6:00 p.m.

RECESS

(Speaker Norelli in the Chair)

Rep. Wallner moved that the House adjourn.

Adopted.

HOUSE JOURNAL No. 10

Tuesday, March 27, 2007

The House assembled at 10:00 a.m., the hour to which it stood adjourned, and was called to order by the Speaker.

Prayer was offered by House Chaplain, Reverend Jared A. Rardin, Pastor of the South Congregational Church in Concord.

Prayer of Saint Francis of Assisi

Lord, make us instruments of Your peace. Where there is hatred, let us sow love; where there is injury, pardon; where there is doubt, faith; where there is despair, hope; where there is darkness, light; and where there is sadness, joy.

O Divine Master, grant that we may not so much seek to be consoled as to console; to be understood as to understand; to be loved as to love. For it is in giving that we receive; it is in pardoning that we are pardoned; and it is in dying that we are born to eternal life. Amen.

Rep. Wendelboe, member from New Hampton, led the Pledge of Allegiance.

LEAVES OF ABSENCE

Reps. Brennan, Peter Cote, Stephanie Eaton, Greco, Heald, Jeudy, Stephen Johnson, Laliberte, Lessard, Loll, Benjamin Moore, Nagle and Sandra Smith, the day, illness.

Reps. Barody, Beaulieu, Bishop, Mark Clark, Lisle, McGuirk, O'Connell, Plifka, Marshall Quandt, Rochette, Sysyn and Burton Williams, the day, important business.

Rep. Spaulding, the day, death in the family.

INTRODUCTION OF GUESTS

Bobby Nord, husband of Rep. Nord. Juanita and Katie Dangel, guests of Rep. Mooney.

COMMITTEE REPORTS

CONSENT CALENDAR

Rep. Wallner moved that the Consent Calendar with the relevant amendments as printed in the Day's House Record be adopted.

HB 606-FN, relative to the minimum age for purchasing, possessing, or using tobacco products, removed by Rep. Timothy Robertson.

HB 697, relative to responsible drug advertising, removed by Rep. DeJoie.

HB 745, relative to the use of secret databases, removed by Rep. Kurk.

HB 762-FN, prohibiting smoking in restaurants, cocktail lounges, and certain enclosed places, removed by Rep. Vaillancourt.

HB 92, decriminalizing marijuana, removed by Rep. Vaillancourt.

HB 340, restricting sex offenders from residing within a certain distance from schools and child-oriented organizations, removed by Rep. Infantine.

HB 591-FN, relative to an affirmative defense to certain felonious sexual assault offenses, removed by Rep. Vaillancourt.

HB 655-FN, relative to unborn victims of violence, removed by Rep. Rowe.

HB 902, establishing a committee to study the costs and benefits of the drug prohibition policy on the people of New Hampshire, removed by Rep. Ingbreton.

HB 314, authorizing the Pelham school board to transfer funds for the purpose of renting portable classrooms, removed by Rep. Renzullo.

HB 424-FN-A, relative to industrial hemp and establishing an industrial hemp special program fund, removed by Rep. Peterson.

HB 363, relative to certain notification for emergency contraception, removed by Rep. Dumaine.

CACR 17, relating to funding for education. Providing that revenue from lotteries and games of chance may only be used for educational purposes, removed by Rep. Vaillancourt.

HB 567-FN, relative to lowering the legal drinking age, removed by Rep. Vaillancourt.

HB 670, relative to repealing the incorporation of the New Hampshire Bar Association, removed by Rep. Sorg.

HB 906, relative to an informed jury, removed by Rep. Vaillancourt.

HB 310, allowing municipalities to regulate small wind energy systems, removed by Rep. Dokmo.
HB 474, excluding septic and sewage treatment facilities from the tax exemption for water and air pollution control facilities, removed by Rep. Pelkey.

HB 674, extending the veterans' property tax credit to all honorably discharged veterans, removed by Rep. Lawrence.

HB 318, relative to large groundwater withdrawals, removed by Rep. Camm.

HB 710, establishing a commission to study issues relative to the practice of leasing state-owned real estate on the shores of public waters, removed by Rep. Rausch.

HB 777-FN-A, imposing a fee and a fine for certain changes to terrain alteration permits, removed by Rep. Rausch.

HB 559, relative to seat belts on school buses, removed by Rep. Emerson.

HB 795, relative to restricting usage of cellular phones while driving, removed by Rep. Pantelakos.

CACR 16, relating to an income and a sales tax. Providing that there shall be a state referendum prior to the legislature's adoption of an income tax or sales tax, removed by Rep. Vaillancourt.

HB 622-FN-A-L, establishing an income tax and repealing all state and local taxes, with the exception of the tobacco tax, beginning in 2012, removed by Rep. Vaillancourt.

HB 757-FN-A, relative to the beer tax, removed by Rep. Vaillancourt.

HB 793-FN-A, establishing an exemption from the interest and dividends tax for individuals who are 62 years of age or older, removed by Rep. Vaillancourt.

HB 820-FN-A, establishing tax on candy, removed by Rep. Vaillancourt.

HB 891-FN-A, establishing a beverage fee to be paid by beverage manufacturers and distributors, removed by Rep. Vaillancourt.

HB 913-FN-A, establishing a senior citizen property tax postponement program, removed by Rep. Almy.

Consent Calendar adopted.

Rep. Almy declared a conflict of interest on **HB 635** and did not participate in the vote on the Consent Calendar.

Rep. Morrison declared a conflict of interest on **HB 205** and did not participate in the vote on the Consent Calendar.

Rep. John Thomas declared a conflict of interest on **HB 562**, **HB 568** and **HB 758** and did not participate in the vote on the Consent Calendar.

HB 278, relative to notification of a parent or guardian by the medical facility treating a minor injured in an accident. **INEXPEDIENT TO LEGISLATE.**

Rep. Barbara H. Richardson for Children and Family Law: The committee deemed this bill unnecessary after learning that current practice already includes provisions for notifying parents or guardians when a minor is injured or requires medical assistance. Vote 17-0.

HB 304, relative to the criteria under which guardianship over a minor is granted. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Mary E. Walz for Children and Family Law: This bill was requested by school districts whose taxpayers are being required to pay to educate students from around the country. These students move to their town and live with a host family so that the student can play hockey at a nearby arena. To avoid paying tuition to the town, the minor's family petitions to have guardianship granted to the host family. Usually any student living with a guardian is entitled to attend the local public school for free. This bill states that if guardianship is granted solely to facilitate the minor's participation in athletic activities, the receiving public school may assess tuition, even if the guardianship is granted. Vote 17-0.

Amendment (0879h)

Amend the bill by replacing all after the enacting clause with the following:

1 Residency and School Attendance; Guardianship. Amend RSA 193:12, II(a)(3) to read as follows:

(3) If the minor is in the custody of a legal guardian appointed by a New Hampshire court of competent jurisdiction or a court of competent jurisdiction in another state, territory, or country, legal residence is where the guardian resides. If the department of health and human services has been appointed legal guardian, the residence of the minor is where the child is placed by the

department or the court. Legal guardianship shall not be appointed solely for the purpose of allowing a pupil to attend school in a district other than the district of residence of the minor's parent or parents, *or primarily for the purpose of facilitating a minor's participation in athletic activities as provided in RSA 463:8, III(d)*. Whenever a petition for guardianship or legal custody is filed in a court of competent jurisdiction on behalf of a relative of a child, other than a parent, the child shall be permitted to attend school in the district in which the relative of the child resides pending a court determination relative to custody or guardianship.

2 New Subparagraph; Guardianship of Minors and Estates of Minors; Notice. Amend RSA 463:6, I by inserting after subparagraph (f) the following new paragraph:

(g) The superintendent of the school administrative unit in the city or town in which the person nominated in the petition to be guardian resides.

3 New Subparagraph; Guardianship of Minors and Estates of Minors; Conduct of Hearing. Amend RSA 463:8, III by inserting after subparagraph (c) the following new subparagraph:

(d) A public school district which would receive a minor pursuant to a guardianship granted under this subparagraph may object to the guardianship request on the grounds that the sole or primary motive for the guardianship request is to facilitate the minor's participation in athletic activities. The public school district responsible for educating a minor who is granted guardianship under this subparagraph may assess tuition to the petitioner.

4 Effective Date. This act shall take effect 60 days after its passage.

AMENDED ANALYSIS

This bill provides that a public school district may object to a guardianship request on the grounds that the sole or primary motive for the guardianship request is to facilitate the minor's participation in athletic activities. The public school district responsible for educating a minor who is granted guardianship in such cases may assess tuition to the petitioner.

HB 348, relative to the payment of college or postsecondary education expenses as part of a child support agreement. **INEXPEDIENT TO LEGISLATE.**

Rep. Edward P. Moran for Children and Family Law: The committee feels that current law maintains an equitable balance between intact and divorced families as regards not having courts be able to require college contributions by parents. Divorced families generally have the additional financial burden of another household to maintain. Vote 17-1.

HB 406, relative to access to state child support enforcement records. **OUGHT TO PASS.**

Rep. Daniel C. Itse for Children and Family Law: Federal rules will require that child support records be shared with other divisions of Health and Human Services in order to ensure that government support is not being paid for persons who are receiving private support from their non-custodial parents. If the child support records are not allowed to be shared between divisions and their contracted agents, New Hampshire will not be eligible for the federally cost shared portions of Temporary Aid to Needy Families, child and family services, foster care, state Children's Health Insurance Program and Medicaid. The inter-divisional sharing of the information shall remain confidential and be used only for the administration of the various departments. Additional statutory safeguards regarding confidentiality are in place for each of these departments, some of which carry criminal penalties. Vote 17-0.

HB 410, establishing a commission on child support issues. **OUGHT TO PASS.**

Rep. Anthony P. Matarazzo for Children and Family Law: The committee receives many bills, as well as a great amount of testimony on parental responsibilities and divorce. The climate is constantly changing. Additionally, the federal government requires states to review their child support guidelines every four years or face serious financial consequences. The committee wants the state to comply and be at the forefront on these laws and changes. The impact on children is direct and significant. The committee looks forward to gaining insight from the commission which includes obligors, obligees, a guardian ad litem, the administrative judge of the judicial branch family division, the chair of the family law section of the New Hampshire Bar Association, and others. The commission brings all the players to the table to have the broadest most expert input possible from those who are most affected by child support issues. Vote 19-0.

HB 444, relative to parental rights in abuse and neglect cases. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Edward P. Moran for Children and Family Law: This bill requires the court to provide written findings of its decision following a custody hearing requested by the non-accused parent in an abuse and neglect proceeding. The bill also requires the department of health and human services to notify the parent of his or her right to request a custody hearing at the earliest opportunity. Vote 17-0.

Amendment (0889h)

Amend the bill by replacing section 1 with the following:

1 Custody Hearing for Parent Not Charged With Abuse or Neglect. Amend RSA 169-C:19-e to read as follows:

169-C:19-e Custody Hearing for Parent not Charged With Abuse or Neglect.

*I. A parent who has not been charged with abuse or neglect shall be afforded, upon request, a full hearing in the district or family court regarding his or her ability to obtain custody. At the hearing, the parent shall be provided the opportunity to present evidence pertaining to his or her ability to provide care for the child and shall be awarded custody unless the state demonstrates, by a preponderance of the evidence, that he or she has abused or neglected the child or is otherwise unfit to perform his or her parental duties. **The court shall make written findings of fact supporting its decision.***

*II. **The department shall notify a parent who has not been charged with abuse or neglect of his or her right to request a hearing under this section at the earliest available opportunity.***

AMENDED ANALYSIS

This bill requires the court to provide written findings of its decision following a custody hearing requested by the non-accused parent in an abuse and neglect proceeding. The bill also requires the department of health and human services to notify the parent of his or her right to request a custody hearing.

HB 463, relative to the awarding parental rights and responsibilities to a stepparent or grandparent. **OUGHT TO PASS.**

Rep. Daniel C. Itse for Children and Family Law: This bill was the result of an interim study committee of a bill of the same subject from the previous session. Currently, the statute regarding the distribution of parental rights and responsibilities during divorce states that these statutes have no bearing on the power of the court to award parental rights and responsibilities to stepparents or grandparents. This specific power exists nowhere else in our statutes. The committee believes that stepparents and grandparents have adequate capacity to obtain legal guardianship, if the parents can be proved incompetent, without muddying the waters during a divorce. The bill simply strikes the reference to stepparents and grandparents from our statute regarding the distribution of parenting rights and responsibilities during divorce. Vote 16-0.

HB 470, relative to the determination of parental rights and responsibilities. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Carolyn M. Gargas for Children and Family Law: The amendment replaces the entire bill by establishing an oversight committee to monitor the 461-A statute on parental rights and responsibilities. It will also monitor divorce and related issues. The committee has a concern that the courts may be providing insufficient information about the reasoning used in arriving at their decisions, thus compromising the possibility of a successful appeal. The oversight committee will monitor this area as part of its duties. Vote 19-0.

Amendment (0838h)

Amend the bill by replacing all after the enacting clause with the following:

1 New Section; Legislative Oversight Committee. Amend RSA 461-A by inserting after section 20 the following new section:

461-A:21 Legislative Oversight Committee.

I. There is established an oversight committee to ensure the monitoring of written explanations for court decisions pursuant to RSA 461-A:6, VII and to track information and all related requirements of RSA 461-A. The committee shall monitor parental rights and responsibilities, divorce, and related issues.

II. The committee shall consist of 6 members of the house children and family law committee, appointed by the speaker of the house of representatives, and one member of the senate appointed by the president of the senate.

III. The committee shall, annually on or before November 1, report its findings and any recommendations for proposed legislation or other action. Reports shall be distributed to the governor, president of the senate, speaker of the house of representatives, administrative judge of the family division of the courts, and the state library.

2 Prospective Repeal. RSA 461-A:21, relative to the legislative oversight committee, is repealed.

3 Effective Date.

I. Section 2 of this act shall take effect January 1, 2011.

II. The remainder of this act shall take effect upon its passage.

AMENDED ANALYSIS

This bill establishes a legislative oversight committee to monitor implementation of RSA 461-A through January 1, 2011.

HB 495-FN, relative to criminal record and central registry checks of prospective foster and adoptive parents. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Mary E. Walz for Children and Family Law: This bill amends the Child Protection Act so that New Hampshire statutes comply with federal prerequisites to receive Foster Care Support money. Specifically, the change requires criminal record checks for private non-agency proceedings, for adoption proceedings initiated by the Department of Health and Human Services, or for adoption proceedings initiated by another agency. This bill also amends the laws governing delinquent children to allow a child to be released to the custody of the Department of Health and Human Services for appropriate placement. This assures that the language in NH statutes is in compliance with federal requirements. Vote 15-0.

Amendment (0173h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to criminal record and central registry checks of prospective foster and adoptive parents and relative to the custody of a child placed by the court in a delinquency proceeding or a proceeding for a child in need of services (CHINS).

Amend the bill by replacing all after section 6 with the following:

7 New Paragraph; Delinquent Children; Definition of Custody Added. Amend RSA 169-B:2 by inserting after paragraph III the following new paragraph:

III-a. "Custody" means a legal status created by court order wherein the department of health and human services has placement and care responsibility for the minor.

8 Delinquent Children; Release Prior to Arraignment. Amend RSA 169-B:11, II to read as follows:

II. If such a person is not available, the court may release the minor under the supervision of a relative or friend; or ~~[place the minor]~~ **may release the minor to the custody of the department of health and human services for placement** in a foster home, as defined in RSA 169-C:3, XIII, a crisis home, a shelter care facility, **or** a group home with expenses charged according to RSA 169-B:40, or an alcohol crisis center certified to accept juveniles; or

9 Delinquent Children; Release or Detention Pending Adjudicatory Hearing. Amend RSA 169-B:14, I(c) to read as follows:

(c) Released ~~[in the supervision and care of]~~ **to the custody of the department of health and human services for placement in** a foster home, as defined in RSA 169-C:3, XIII, **a group home, a crisis home, or a shelter care facility** with expenses charged according to RSA 169-B:40; or

10 Delinquent Children; Dispositional Hearing. Amend RSA 169-B:19, I(f) to read as follows:

(f) Release the minor ~~[in the care and supervision of]~~ **to the custody of the department of health and human services for placement in a foster home, as defined in RSA 169-C:3, XIII, a group home, a crisis home, or a shelter care facility,** with expenses charged according to RSA 169-B:40.

11 Child in Need of Services; Definition of Custody Added; Section Alphabetized and Renumbered. RSA 169-D:2 is repealed and reenacted to read as follows:

169-D:2 Definitions. In this chapter:

I. "Child" means a person who is under the age of 18 on the date the petition is filed pursuant to RSA 169-D:5.

II. "Child in need of services" means a child who is under the age of 18 and who is expressly found to be:

(a) Subject to compulsory school attendance, and who is habitually, willfully, and without good and sufficient cause, truant from school; or

(b) A child who habitually runs away from home, or who repeatedly disregards the reasonable and lawful commands of his or her parents, guardian, or custodian and places himself or herself or others in unsafe circumstances; or

(c) A child who has exhibited willful repeated or habitual conduct constituting offenses which would be violations under the criminal code of this state if committed by an adult or, if committed by a person 16 years of age or older, would be violations under the motor vehicle code of this state; and

(d) Is expressly found to be in need of care, guidance, counseling, discipline, supervision, treatment, or rehabilitation.

III. "Conditional release" means a legal status created by a court order following an adjudication that a child is a child in need of services and shall be permitted to remain in the community, including his or her home, subject to:

(a) The conditions and limitations of his or her conduct prescribed by the court.

(b) Such counseling and treatment as are deemed necessary, pursuant to methods and counseling prescribed by the court, for the minor and his or her family.

(c) The supervision of juvenile probation and parole officers as authorized by RSA 170G:16.

(d) Return to the court for violation of the conditions of the release and change of the disposition at any time during the term of the conditional release.

IV. "Court" means the district court, unless otherwise indicated.

V. "Custody" means a legal status created by court order wherein the department of health and human services has placement and care responsibility for the child.

VI. "Diversion" means a decision made by a person with authority which results in providing an individually designed program for delivery of services for the child by a specific provider, or a plan to assist the child in finding a remedy for his or her inappropriate behavior. The goal of diversion is to prevent further involvement of the child in the formal legal system. Diversion of a child may take place either at pre-filing as an alternative to the filing of a petition or at any time after the filing of the petition.

VII. "Home detention" means court-ordered confinement of a minor with his or her parents or other specified home for 24 hours a day unless otherwise prescribed by written court order, under which the minor is permitted out of the residence only at such hours and in the company of persons specified in the court order establishing the home detention.

VIII. "Restitution" means moneys, compensation, work, or service which is reimbursed by the offender to the victim who suffered personal injury or economic loss.

IX. "Services" means care, guidance, counseling, discipline, supervision, treatment and rehabilitation or any combination thereof.

12 CHINS; Release Prior to Initial Appearance. Amend RSA 169-D:10, II(c) to read as follows:

(c) ***The custody of department of health and human services for placement in a foster home, as defined in RSA 169-C:3, XIII, a group home, a crisis home, or a shelter care facility with expenses chargeable as provided in RSA 169-D:29; or***

13 CHINS; Release Pending Adjudicatory Hearing. Amend RSA 169-D:13, I(c) to read as follows:

(c) ~~[Placed]~~ ***Released to the custody of the department of health and human services for placement in a foster home, as defined in RSA 169-C:3, XIII, a group home, a crisis home, or a shelter care facility with expenses chargeable as provided in RSA 169-D:29; or***

14 CHINS; Dispositional Hearing. Amend RSA 169-D:17, I(b) to read as follows:

(b)(I) Releasing the child in the supervision and care of:

(1) A relative or suitable adult; or

(2) ***Releasing the child to the custody of the department of health and human services for placement in a foster home, as defined in RSA 169-C:3, XIII, a group home, a crisis home, or a shelter care facility with expenses charged in accordance with RSA 169-D:29[-or***

~~(3) A foster home, as defined in RSA 169-C:3, XIII, with expenses charged according to RSA 169-D:29].~~

15 Repeal. The following are repealed:

I. RSA 169-B:14, I(d), relative to certain placements pending an adjudicatory hearing.

II. RSA 169-B:19, I(g), relative to certain placements at the dispositional hearing.

III. RSA 169-D:10, II(d), relative to certain placements pending an adjudicatory hearing.

IV. RSA 169-D:13, I(d), relative certain placements at the dispositional hearing.

16 Effective Date.

I. Sections 2-6 of this act shall take effect upon certification by the commissioner of the department of health and human services to the secretary of state and the office of legislative services that the United States Attorney General had adopted rules of dissemination regarding access to national crime information databases for governmental social service agencies and that departmental personnel with access to that information meet all requirements set by the Attorney General including training, certification, and background screening.

II. The remainder of this act shall take effect upon its passage.

AMENDED ANALYSIS

This bill establishes criteria and procedures for criminal record and central registry checks of prospective foster and adoptive parents. The bill also defines custody in the context of court-ordered placements under RSA 169-B (delinquency) and RSA 169-D (CHINS).

This bill is a request of the department of health and human services.

HB 602-FN, relative to child support enforcement. **OUGHT TO PASS.**

Rep. Beth R. Arsenault for Children and Family Law: The legislation is in response to the Federal Deficit Reduction Act of 2005, requiring a \$25 annual fee for child support services in cases where public assistance had never been provided by the state. Failure to implement this legislation would subject the state to federal sanctions at a total loss of \$14.2 million in federal funding. Vote 17-0.

HB 827-FN, relative to the reasonable cost of medical support for dependent children. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Anthony P. Matarazzo for Children and Family Law: To enforce child support administration, this bill adds medical support to the department's duty to enforce child support and either or both parents owe a duty to provide a child with medical support. If insurance is not affordable, it will be provided by the state. This legislation is required pursuant to Federal Deficit Reduction Act mandates, and failure to comply will result in a significant loss of federal funding. Vote 17-0.

Amendment (0906h)

Amend the bill by replacing all after the enacting clause with the following:

1 Duty of Department to Enforce Child Support; Medical Support Added. Amend RSA 161-B:3, II to read as follows:

II. The commissioner may accept applications for support enforcement services on behalf of persons who are not recipients of public assistance and may take such action as the commissioner deems appropriate to establish or enforce support obligations against ~~[persons]~~ **either or both parents** owing a duty to ~~[pay]~~ **provide child or medical** support. Action may be taken under this chapter, the abandonment or nonsupport statutes, or other appropriate statutes of this state, including but not limited to remedies established in RSA 161-C, to establish and enforce support obligations, provided, however, that if such child support obligation has been terminated by court order or by operation of law the commissioner may close the case in accordance with the criteria set out in federal statutes and regulations.

2 Income Assignment; Amount Withheld. Amend RSA 458-B:4, VI to read as follows:

VI. When less than the full amount of a legal order of support is withheld from the obligor's income, the difference shall accrue as arrears as long as the legal order of support remains in effect. ***Amounts withheld from income to satisfy support obligations shall be given the following priority by the employer, unless a court or administrative order directs otherwise:***

(a) Current child and spousal support;

(b) Health insurance premiums or current cash medical support obligations;

(c) Arrearages; and

(d) Other child support obligations.

3 Child Support Guidelines; Definition of Adjusted Gross Income; Medical Support Obligation Deducted. Amend RSA 458-C:2, I(e) to read as follows:

(e) Amounts actually paid by the obligor for allowable child care expenses or ***the*** medical ~~[insurance coverage]~~ ***support obligation*** for the minor children to whom the child support order applies.

4 New Paragraph; Child Support Guidelines; Definition of Medical Support Obligation Added. Amend RSA 458-C:2 by inserting after paragraph IV the following new paragraph:

IV-a. "Medical support obligation" means the obligation of either or both parents to provide health insurance coverage for a dependent child and/or to pay a monetary sum toward the cost of health insurance provided by a public entity, parent, or other person, or for medical costs not covered by insurance, including payment for the cost of premiums, co-payments, and deductibles.

5 New Paragraph; Child Support Guidelines; Definition of Reasonable Cost Added. Amend RSA 458-C:2 by inserting after paragraph VI the following new paragraph:

VI-a. "Reasonable cost" means that the medical support obligation does not exceed 5 percent of the parent's individual net income as calculated under the formula set forth in RSA 458-C:2, VI.

6 New Paragraph; Child Support Guidelines; Medical Support Obligation. Amend RSA 458-C:3 by inserting after paragraph IV the following new paragraph:

V. If the minor child is not currently enrolled in private health insurance, the court shall calculate a reasonable medical support obligation for each parent. A medical support obligation shall be reasonable if it does not exceed 5 percent of the parent's individual net income under RSA 458-C:2, VI-a. If the court determines that health insurance is available at a reasonable cost to either parent, or is available by combining the reasonable medical support obligation of both parents, the court shall order either or both parents to provide such support.

7 Parental Rights and Responsibilities; Medical Support Obligation. Amend RSA 461-A:14, IX to read as follows:

IX. (a) Each child support order shall include the court's determination and findings relative to health insurance and the payment of uninsured medical expenses for the children.

(b) *If the court determines that private health insurance is accessible and available at a reasonable cost, the court shall order the parent, or parents, to provide such insurance for the children. Accessible health insurance means the primary care services are located within 50 miles or one hour from the child's primary residence. Health insurance shall be available at a reasonable cost if the cost of such insurance does not exceed 5 percent of the responsible parent's individual net income under RSA 458-C:2, VI-a.*

(c) *If the court determines that private health insurance is not accessible or available at a reasonable cost, the court shall establish a cash medical support obligation, calculated in accordance with RSA 458-C:3, V, and order that either or both parents shall obtain such private health insurance if it subsequently becomes accessible and available at a reasonable cost. When ordered in lieu of private health insurance, an obligation for cash medical support shall be suspended and shall not accrue during such time as the obligated parent is providing private health insurance in accordance with this paragraph.*

(d) *In all cases where support is payable through the department, or where the department is providing medical assistance for the child under RSA 167, the court shall include the medical support obligation in any order issued on or after the effective date of this paragraph.*

(e) *A court may order either or both parents to pay a medical support obligation, either to provide health insurance coverage or as cash medical support, in excess of reasonable cost, in such other circumstances, as the court deems appropriate.*

8 Effective Date. This act shall take effect upon its passage.

HB 867-FN-L, relative to parent liability for court-ordered services in juvenile proceedings. **ought to pass with amendment.**

Rep. Edward P. Moran for Children and Family Law: This bill clarifies notification requirements as well as reimbursement time frames for adults who are responsible for children receiving court ordered services in juvenile proceedings. The time frame for repayment is four years after services begin, but provides for agreements between the county and the responsible party to modify obligations into a mutually acceptable framework. As the county human service offices have responsibility for recovering monies and their reimbursement hasn't changed since 1987, they included a provision increasing their administrative share as the proceeds are split with the state. This bill was requested by all of the counties. Vote 13-2.

Amendment (0815h)

Amend RSA 169-B:40, I(d) as inserted by section 2 of the bill by replacing it with the following:

~~[(c)]~~ (d) The state shall have a right of action ~~[over]~~ for such expenses against the parents or the people chargeable by law for the minor's support and necessities and *shall have* the right to

require parents or other people chargeable by law for the minor's support and necessities to assign to the state any insurance benefits that may be available to pay for all or a portion of the services provided. The department shall request reimbursement for such expenses from parents or other people chargeable by law for the minor's support ~~[and shall request assignment to the state of any insurance benefits that may be available to pay for all or a portion of the services provided]~~. The court shall require the individual chargeable by law for the minor's support and necessities to submit a financial statement ~~[annually to the court]~~ ***periodically to the legally liable county which shall make recommendations to the court*** upon which the court shall make an order as to reimbursement to the state as may be reasonable and just, based on the person's ability to pay. Such financial statement shall include, but not be limited to, ***income of all household members and*** any benefits received from the Social Security Administration or insurance benefits available to ~~[the individual]~~ ***household members***. The court shall include disposition of these benefits in its order as to reimbursement. Such reimbursement shall be established on a per month or per week basis and shall ~~[continue from the time the services begin until 4 years beyond the time such services end]~~ ***begin as soon as possible after services commence and shall continue for a period of time equal to the length of time services were provided plus an additional 4 years***, unless such reimbursement is fully paid prior to the end of the 4-year period. ***This time period may be extended by agreement of the parties. Any month in which reimbursement payments are not paid shall extend the total period of reimbursement by one month.*** The court's jurisdiction to order reimbursement shall continue until the court-ordered obligation to reimburse has been fulfilled. If the court does not issue a reimbursement order, the court shall issue written findings explaining why such reimbursement is not ordered.

Amend RSA 169-C:27, I(d) as inserted by section 4 of the bill by replacing it with the following:

~~[(c)]~~ ***(d)*** The state shall have a right of action ~~[over]~~ for such expenses against the parents or the people chargeable by law for the child's support and necessities and ***shall have*** the right to require parents or other people chargeable by law for the minor's support and necessities to assign to the state any insurance benefits that may be available to pay for all or a portion of the services provided. The department shall request reimbursement for such expenses from parents or people chargeable by law for the minor's support and necessities ~~[and shall request assignment to the state of any insurance benefits that may be available to pay for all or a portion of the services provided]~~. The court shall require the individual chargeable by law for the child's support and necessities to submit a financial statement ~~[annually to the court]~~ ***periodically to the legally liable county which shall make recommendations to the court*** upon which the court shall make an order as to reimbursement to the state as may be reasonable and just, based on the person's ability to pay. Such financial statement shall include, but not be limited to, ***income of all household members and*** any benefits received from the Social Security Administration or insurance benefits available to ~~[the individual]~~ ***household members***. The court shall include disposition of these benefits in its order as to reimbursement. Such reimbursement shall be established on a per month or per week basis and shall ~~[continue from the time the services begin until 4 years beyond the time such services end]~~ ***begin as soon as possible after services commence and shall continue for a period of time equal to the length of time services were provided plus an additional 4 years***, unless such reimbursement is fully paid prior to the end of the 4-year period. ***This time period may be extended by agreement of the parties. Any month in which reimbursement payments are not paid shall extend the total period of reimbursement by one month.*** The court's jurisdiction to order reimbursement shall continue until the court-ordered obligation to reimburse has been fulfilled. If the court does not issue a reimbursement order, the court shall issue written findings explaining why such reimbursement is not ordered.

Amend RSA 169-D:29, I(d) as inserted by section 6 of the bill by replacing it with the following:

~~[(c)]~~ ***(d)*** The state shall have a right of action ~~[over]~~ for such expenses against the parents or the people chargeable by law for the child's support and necessities and the right to require parents or other people chargeable by law for the minor's support and necessities to assign to the state any insurance benefits that may be available to pay for all or a portion of the services provided. The department shall request reimbursement for such expenses from parents or people chargeable by law for the minor's support ~~[and shall request assignment to the state of any insurance benefits that may be available to pay for all or a portion of the services provided]~~. The court shall require the individual chargeable by law for the child's support and necessities to submit a financial statement ~~[annually to the court]~~ ***periodically to the legally liable county which shall***

make recommendations to the court, upon which the court shall make an order as to reimbursement to the state as may be reasonable and just, based on the person's ability to pay. Such financial statement shall include, but not be limited to, **income of all household members** any benefits received from the Social Security Administration or insurance benefits available to ~~the individual~~ **household members**. The court shall include disposition of these benefits in its order as to reimbursement. Such reimbursement shall be established on a per month or per week basis and shall ~~continue from the time the services begin until 4 years beyond the time such services end~~ **begin as soon as possible after services commence and continue for a period of time equal to the length of time that services were provided plus an additional 4 years**, unless such reimbursement is fully paid prior to the end of the 4-year period. **This time period may be extended by agreement of the parties. Any month in which reimbursement payments are not made shall extend the total period of reimbursement by one month.** The court's jurisdiction to order reimbursement shall continue until the court-ordered obligation to reimburse has been fulfilled. If the court does not issue a reimbursement order, the court shall issue written findings explaining why such reimbursement is not ordered. Amend the bill by replacing section 7 with the following:

7 Effective Date. This act shall take effect July 1, 2007.

HB 36, relative to the reporting of municipal liens in consumer reports. **INEXPEDIENT TO LEGISLATE.**

Rep. Paul McEachern for Commerce: The purpose of the legislation is to relieve tax collectors of the burden of dealing with the irate taxpayer who mistakenly believes that a tax lien has not been released in the registry of deeds when in fact it was released. This situation arises when a credit reporting agency misses the recorded lien release. The bill would impose a duty of "reasonable diligence" upon the consumer credit reporting service and a requirement that the reporting service show the lien release on its report within one year of the release. Current law requires reporting agencies to correct errors within 30 days. The committee felt this bill does not address the perceived problem. Vote 13-2.

HB 73, relative to contractor bids. **INEXPEDIENT TO LEGISLATE.**

Rep. James R. Martin for Commerce: This bill would allow any unsuccessful bidder on any contract to receive a minimum of \$500 for each ineligible person employed at any time by the successful bidder, regardless of whether the unsuccessful bidder was even qualified to perform the contract. An ineligible employee is a person not eligible for employment under the law of New Hampshire of the United States. As such, the bill provides a windfall to any alert person (and his friends) who submits even unrealistically high bids solely for the purpose of losing the bid but in the expectation of receiving \$500 for each ineligible person employed by the winning bidder at any time. Vote 16-0.

HB 78, relative to health insurance coverage for certain unmarried children. **INEXPEDIENT TO LEGISLATE.**

Rep. Jill Shaffer Hammond for Commerce: The purpose of this bill, to extend insurance coverage to unmarried children 24 years of age and younger, has been rolled into HB 790. Vote 17-0.

HB 179, prohibiting surrender penalties on life insurance policies. **INEXPEDIENT TO LEGISLATE.**

Rep. Stephen T. DeStefano for Commerce: This bill prohibits surrender or cancellation fees on life insurance policies which may be assessed if the insured wishes to terminate the policy. While some surrender values are high, completely eliminating all would pose a real problem for the industry. If these surrender charges were removed the sale of annuities may not be offered. Vote 14-1.

HB 266, establishing a commission to study affordable and accessible health care for New Hampshire citizens. **INEXPEDIENT TO LEGISLATE.**

Rep. Jill Shaffer Hammond for Commerce: The structure and duties requested in this bill have been wholly combined and expanded into HB 305 establishing a task force to study and develop legislation for 2008 for access to affordable health insurance. Vote 17-0.

HB 298, relative to the healthy kids corporation. **OUGHT TO PASS.**

Rep. Stephen T. DeStefano for Commerce: This bill provides that the Healthy Kids Corporation shall be the program administrator for the expanded children's health insurance program under the

Social Security Act. This bill adds the line, "the corporation shall be the program administrator for the state children's health insurance program under Title XXI of the Social Security Act." This is found under RSA 126-H: 2 and just clarifies that this organization stays in place and only the insurance coverage is sent out to bid. Vote 14-0.

HB 339, establishing a commission to study the processing and denial of health insurance claims. **INEXPEDIENT TO LEGISLATE.**

Rep. Jill Shaffer Hammond for Commerce: This bill sought to establish a commission to examine the efficacy of the "external review" process of health insurance claims. The small number of claims contested (approximately 60 annually out of millions processed by health insurance companies), with no preponderance of judgments either to the claimant or the insurer, indicated the process is working and that this is not a large problem. With the passage of HB 228 defining "medical necessity" future reviews will have clear criteria to work from. Vote 14-0.

HB 349, relative to exemptions from the consumer protection act. **INEXPEDIENT TO LEGISLATE.**

Rep. James R. Martin for Commerce: This bill would prohibit any business which is regulated by the bank commissioner, the director of securities regulation, the insurance commissioner, or the public utilities commission from engaging in any transaction unless that transaction is expressly permitted by that regulator. As such, the bill would stifle competition and innovation. It would require the various regulators to foresee every specific transaction that might occur in the future in vibrant markets like the financial and securities markets. Companies will be prohibited from introducing new financial products and services unless they are on some list of transactions that are expressly permitted. The companies are subject to day-to-day regulation by professional regulators who know their business and can prohibit any practices they deem improper. Vote 16-1.

HB 360, relative to commercial construction contracts. **INEXPEDIENT TO LEGISLATE.**

Rep. Matthew S. Houde for Commerce: This bill would provide penalties for late payment in commercial construction contracts (1.5% accruing 10 days after notice, 10% penalty on total amount due, and lawyers fees). The committee does not feel it is appropriate to legislate terms in private contracts between sophisticated parties - nor to provide default terms that could otherwise be contracted around (a proposed amendment to the bill provided that these penalties could be avoided by providing alternative contract terms). Finally, there is no reason to believe that existing remedies for breach of payment are inadequate. Vote 18-0.

HB 385-FN, relative to licensing and insurance fees. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Edward A. Butler for Commerce: This bill consolidates certain fees & establishes other fees for late filings by insurance companies and eliminates the workers compensation administrative assessment credit against insurance premium tax payments. The Department of Insurance has determined this bill may increase state general fund revenue by \$1,100,000 in fiscal year 2008 and \$600,000 in fiscal year 2009 and each fiscal year thereafter. There will be no fiscal impact on state, county and local expenditures or county and local revenues. Vote 18-0.

Amendment (0794h)

Amend the bill by replacing section 1 with the following:

1 Repeal. The following are repealed:

- I. RSA 281-A:59, VI, relative to payments made to the administrative fund.
- II. RSA 400-A:29, IX, relative to fees for producers.
- III. RSA 402-J:1, III, relative to scope of the producer licensing.
- IV. RSA 402-J:6, I(c), relative to application for license.

Amend RSA 400-A:29, XIII as inserted by section 5 of the bill by replacing it with the following:

- XIII. Other licensing documents; producer, consultant, adjuster, public adjuster
 - (a) Qualification and clearance letters \$10
 - (b) Paper licenses \$10
 - (c) Copies (all documents) \$1 per page

Amend RSA 400-A:29, XVIII as inserted by section 7 of the bill by replacing it with the following:

- XVIII. Public adjusters; resident and non-resident
 - (a) Non-refundable application and license fee \$100

- (b) Biennial renewal \$100
- (c) Additional fee for late renewal \$100
- (d) Fee for late completion of continuing education \$25
- (e) Address change fee \$10
- (f) Mail return fee \$25

Amend RSA 400-A:29, XIX(a) as inserted by section 7 of the bill by replacing it with the following:

- (a) Non-refundable application and license fee \$210

Amend the bill by deleting section 8 and renumbering the original sections 9-19 to read as 8-18, respectively.

Amend the bill by replacing section 12 with the following:

- 12 Insurance; High Risk Pool. Amend RSA 404-G:5-f, II to read as follows:

II. ~~[The following]~~ *All the* provisions of title 37 shall apply to the pool to the extent applicable and not inconsistent with the express provisions of this chapter, *except for the following*: ~~[RSA 415:5, 415:6, 415:6-a, 415:6-b, 415:6-c, 415:6-f, 415:6-g, 415:6-h, 415:7, 415:9-415:13, 415:22, 415:22-a, 415:22-b, 415:23, RSA 415-A, RSA 417, RSA 420-B:8, 420-B:8-b, 420-B:8-d, 420-B:8-c, 420-B:8-cc, 420-B:8-f, 420-B:8-ff, 420-B:8-g, 420-B:8-gg, 420-B:8-h, 420-B:8-i, 420-B:8-j, 420-B:8-k, 420-B:8-m, 420-B:11-12, RSA 420-C, RSA 420-E:4, RSA 420-G:7, 420-G:8, 420-G:11, RSA 420H, RSA 420-I, and RSA 420-J:3] RSA 400-A:29, RSA 400-A:31 through 35, RSA 404-B, RSA 404-D, RSA 404-H, 408-B, and RSA 420-K.~~ For the purposes of this chapter, the pool shall be deemed an insurer, pool coverage shall be deemed individual health insurance, and pool coverage contracts shall be deemed policies.

Amend the bill by replacing all after section 16 with the following:

- 17 Effective Date. This act shall take effect 60 days after its passage.

Referred to the Committee on Ways and Means.

HB 481, relative to suspensions of liquor licenses. **INEXPEDIENT TO LEGISLATE.**

Rep. Joel F. Winters for Commerce: Do you believe in the principle of innocent until proven guilty? The committee understood that, although well intentioned, this bill could threaten that doctrine. After receiving a petition from a town or city that declared a liquor licensee to be a threat to the public welfare, the liquor commission would be required to suspend the liquor license without doing an investigation of their own. The liquor commission already has the authority under RSA 541-A to immediately suspend a license if they find a threat to the public welfare, and there was concern that this power could potentially be abused by towns. Vote 14-0.

HB 484, relative to liens held by condominium associations on condominiums. **INEXPEDIENT TO LEGISLATE.**

Rep. Paul McEachern for Commerce: The committee felt that existing law works quite well. Under current law liens for unpaid condominium assessments are reduced to judgments in court avoiding the necessity of foreclosure. Suit is less cumbersome than foreclosure. Vote 14-0.

HB 513, establishing a housing commission. **OUGHT TO PASS.**

Rep. Stephen T. DeStefano for Commerce: This bill establishes a housing commission to identify ways the state can promote and encourage the development of affordable housing. With outflow of our young adults because of the cost of housing the state needs to find a way to generate affordable or workforce housing. This bill specifically recommends that state agencies provide improved technical assistance to local governments on housing related matters. The committee felt that this commission was very necessary. Vote 12-1.

HB 536, relative to the regulation of martial arts schools. **OUGHT TO PASS.**

Rep. Stephen P. Spratt for Commerce: This bill takes martial arts out of the health club statute and creates its own statute. In so doing the bill retains much of the health club language while expanding the options for martial arts students. Vote 15-2.

HB 549, relative to accepting a purchase and sale agreement on developed waterfront property. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Stephen T. DeStefano for Commerce: This bill allows a buyer and a seller to enter into a purchase and sales agreement prior to a completed site assessment. The site assessment still needs to be completed prior to the transfer of title between the seller and buyer. Vote 15-0.

Amendment (0888h)

Amend the bill by replacing section 1 with the following:

1 Waterfront Property Sale; Site Assessment Study. Amend RSA 485-A:39, I to read as follows:

I. Prior to the execution of a purchase and sale agreement for any developed waterfront property using a septic disposal system, the owner of the property shall, at his *or her* expense, engage a permitted subsurface sewer or waste disposal system designer to perform a site assessment study to determine if the site meets the current standards for septic disposal systems established by the department. The site assessment study shall include an on-site inspection. *If the site assessment is not complete prior to the time that the buyer and seller enter into a purchase and sale contract, the contract shall be subject to the buyer's acceptance of the completed site assessment.*

HB 613-FN, relative to payment for tobacco products purchased by retailers. **INEXPEDIENT TO LEGISLATE.**

Rep. Joel F. Winters for Commerce: This bill would require cigarette retailers to pay wholesalers for the cost of tobacco products purchased within 10 days of the purchase. State law does not currently set a time table; we allow the parties to set whatever terms that they can agree on, whether it is COD, or 10, 15, even 30 days or more after the purchase. Ninety-nine percent of retailers pay their bills on time, so the committee felt that this was not a problem that needed a legislative solution. Vote 17-0.

HB 636-FN, relative to physician credentialing under the managed care law. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Donald H. Flanders for Commerce: This bill allows the health care provider who, at the time of application, has been licensed by the respective state licensing board and credentialed by the hospital, if appropriate, to deliver health care services to covered persons and seek reimbursement for such services, when covering on-call for another health care provider who is credentialed by the carrier. It also establishes a time frame for the carriers to act upon and finalizes the credentialing process for primary care physicians and specialists. Vote 16-1.

Amendment (0798h)

Amend the bill by replacing section 1 with the following:

1 Managed Care Law; Credentialing Verification. Amend RSA 420-J:4, I to read as follows:

I. A health carrier shall:

(a) Establish written policies and procedures for credentialing verification of all health care professionals with whom the health carrier contracts and apply these standards consistently.

(b) Verify the credentials of a health care professional [~~before the health care professional with whom the health carrier is contracting provides health services to covered persons~~]. *Prior to completion of credentialing verification the health carrier shall:*

(1) Allow a health care provider who, at the time of application, has been licensed by the respective state licensing board and credentialed by the hospital, if appropriate, to deliver health care services to covered persons and seek reimbursement for such professional services, when covering on-call for another health care provider who is credentialed by the carrier.

(2) Allow a health care provider to deliver health care services to covered persons and seek reimbursement for such services, when that health care provider has been licensed by his or her respective state licensing board and credentialed by the hospital, if appropriate, and who at the time of application is credentialed by the health carrier in another state or is in the health carrier's New Hampshire network based on employment with a particular health care entity. When a health care provider relocates or opens an additional office and the carrier requires a site visit, documentation of the new site evaluation shall be required as part of the credentialing process. The medical director of the health carrier or other designated health care professional shall have responsibility for, and shall participate in, health care professional credentialing verification.

(c) Establish a credentialing verification committee consisting of licensed physicians and other health care professionals to review credentialing verification information and supporting documents and make decisions regarding credentialing verification.

(d) Make available for review by the applying health care professional upon written request all application and credentialing verification policies and procedures.

(e) Retain records and documents relating to a health care professional's credentialing verification process for 7 years.

(f) Keep confidential all information obtained in the credentialing verification process, except as otherwise provided by law.

(g) *Notify a health care provider that a submitted credentialing application is incomplete, not later than 15 business days after receiving the credentialing application.*

(h) *Act upon and finalize the credentialing process within 30 calendar days for primary care physicians and 45 days for specialists of receipt of a clean and complete application. In this section, "clean and complete" means an application signed and appropriately dated by the health care provider, that includes all of the applicable information required in paragraph II and any affirmative responses on questions related to quality and clinical competence shall contain explanations satisfactory to the carrier.*

AMENDED ANALYSIS

This bill allows the health care professional undergoing the formal credentialing process to provide services to patients during the process and to be reimbursed for such services upon verification of a clean credentialing record. This bill also establishes a time period within which the credentialing process is to be completed.

HB 641-FN, relative to automatic credentialing for health care providers. **INEXPEDIENT TO LEGISLATE.**

Rep. Donald H. Flanders for Commerce: This bill's subject matter was taken care of under HB 636-FN and the bill is no longer necessary. Vote 17-0.

HB 696, reclassifying certain positions in the insurance department. **OUGHT TO PASS WITH AMENDMENT.**

Rep. John B. Hunt for Commerce: This bill, as requested by the New Hampshire Insurance Department, reclassifies certain positions in the department. The amendment adds one more examiner position at the same labor grade. Vote 16-0.

Amendment (0786h)

Amend the bill by replacing sections 1 and 2 with the following:

1 Insurance Department; Positions Deleted. The following positions shall be transferred from classified to unclassified positions:

Position # 40861	Property and casualty actuarial analyst	Labor Grade 32
Position # 41765	Compliance and enforcement counsel	Labor Grade 32
Position # 10966	Insurance company examiner	Labor Grade 32

2 Insurance Department; Positions Reclassified. Amend RSA 94:1-a, I(b) as follows:

Notwithstanding RSA 17-A:7, insert:

DD	Insurance department	Senior insurance fraud investigator
EE	Insurance department	Property and casualty actuarial analyst
EE	Insurance department	Compliance and enforcement council

Referred to the Committee on Executive Departments and Administration.

HB 764, relative to access to toilet facilities in public places. **INEXPEDIENT TO LEGISLATE.**

Rep. Stephen T. Pelkey for Commerce: This bill would require any private business to offer lavatory facilities to any person in cases of emergency. Current law requires only public buildings as well as bars and restaurants (or businesses that serve food) to provide lavatory facilities. The committee was unanimous with the difficulty of first establishing the definition of emergency and second mandating businesses to allow the public use of their facilities which for many would require extensive remodeling to meet access needs of the public as well as ADA compliant. The committee further felt that local control of building codes is the appropriate authority having jurisdiction beyond existing law. Vote 15-0.

HB 782-FN, relative to reinsurance intermediaries and conduct of examinations. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Stephen P. Spratt for Commerce: The bill, brought forward by the NH Insurance Department (NHIA), makes changes in the language regarding payment for experts hired in the examinations of an insured. In the last LBA audit of the insurance department, although recognizing that those costs were the responsibility of the insured, the language was unclear whether those expenses needed to be included in the department's budget. The bill also updates current law regarding reinsurance intermediaries to conform to the NAIC model. Vote 15-1.

Amendment (0736h)

Amend RSA 400-A:37, III(d) as inserted by section 6 of the bill by replacing it with the following:

(d) When making an examination under this title, the commissioner may retain, *without appropriation under RSA 9 and without qualifying as a department expenditure under RSA 4:15*, attorneys, appraisers, independent actuaries, independent certified public accountants or other professionals and specialists as examiners, the cost of which shall be borne by the company which is the subject of the examination. *The company shall pay the retained professional or specialist directly for these costs.*

Amend RSA 401-B:6, III as inserted by section 8 of the bill by replacing it with the following:

III. USE OF CONSULTANTS. The commissioner may retain [~~at the insurer's expense~~], *without appropriation under RSA 9, without qualifying as a department expenditure under RSA 4:15, and at the insurer's expense*, such attorneys, actuaries, accountants and other experts not otherwise a part of the commissioner's staff as shall be reasonably necessary to assist in the conduct of the examination under RSA 401-B:6, I. *The company shall pay the retained experts directly for these costs.* Any persons so retained shall be under the direction and control of the commissioner and shall act in a purely advisory capacity.

HB 831, relative to notification by pharmacies to consumers when prescriptions need to be renewed. **INEXPEDIENT TO LEGISLATE.**

Rep. Stephen T. Pelkey for Commerce: This bill would require the pharmacist or designee to notify a consumer that a particular prescription needed to be renewed. By allowing this bill as written, the pharmacist would bear the burden of liability which is clearly unintended. The consequences could very well mean eventual higher costs to the consumers due to increased liability, handling and administrative costs of the pharmacies. The committee unanimously viewed this bill as the consumer's responsibility to manage his or her own prescriptions. Vote 15-0.

HB 840, relative to home improvement contracts. **INEXPEDIENT TO LEGISLATE.**

Rep. Tara G. Reardon for Commerce: The committee heard a couple of bills dealing with home improvement contracts. The sponsor requested that we find this bill inexpedient to legislate and focus instead on another bill from the Senate. Vote 16-0.

HB 889-FN, relative to securities regulation. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Matthew S. Houde for Commerce: This bill, requested by the department of state, modifies certain provisions of existing securities law to, among other things, make them consistent with federal securities law; require broker-dealers and investment advisors to establish supervisory procedures over branch offices in the state (not only to achieve compliance with all securities laws but also to enable the appointees of the secretary of state to focus regulatory and/or enforcement efforts where necessary); and exempt solicitors (those not providing investment advice but rather referring business to investment advisors) from examination requirements. The amendment changes the effective date from January 1, 2008 to July 1, 2007. At present, no fiscal note had been prepared. Vote 17-0.

Amendment (0783h)

Amend the bill by replacing section 9 with the following:

9 Effective Date. This act shall take effect July 1, 2007.

HB 921-FN, making technical changes in the insurance laws. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Stephen T. DeStefano for Commerce: This bill addresses current law regarding group health insurance coverage. The bill clarifies the issue of who is responsible when an employer fails to

make their premium payment. Additionally it sets definitive criteria for notification by insurers to certificate holders and policy holders that their coverage has been terminated so that those employees may make an informed choice regarding their health coverage. Vote 14-1.

Amendment (0963h)

Amend the bill by replacing all after the enacting clause with the following:

1 New Subparagraph; Accident and Sickness Policy Provisions. Amend RSA 415:6, I by inserting after subparagraph (14) the following new subparagraph:

(15) A provision as follows: Pre-certification: If a person is covered by more than one plan or policy and both policies require pre-certification, the pre-certification by the primary plan shall be considered sufficient and the secondary plan must honor the primary pre-certification.

2 Accident and Health Insurance; Group or Blanket Provisions. Amend the section heading of RSA 415:18 to read as follows:

415:18 **General** Group or Blanket Policy Provisions.

3 New Subparagraph; Accident and Health Insurance; Group. Amend RSA 415:18, I by inserting after subparagraph (t) the following new subparagraph:

(u) A provision that if a person is covered by more than one plan or policy and both policies require pre-certification, the pre-certification by the primary plan shall be considered sufficient and the secondary plan must honor the primary pre-certification.

4 Accident and Health Insurance; Group. Amend RSA 415:18, V(a) to read as follows:

V.(a) The coverage of any dependent of any employee or member of the group insured by such policy, pursuant to paragraph IV, who is mentally or physically incapable of earning his or her own living on the date as of which such dependent's status as a covered family member would otherwise expire because of age, shall continue under such policy while such policy remains in force or is replaced by another group or blanket policy as long as such incapacity continues and as long as said dependent remains chiefly financially dependent on the employee or member of the group or the employee or his or her estate is chargeable for the care of said dependent, provided that due proof of such incapacity is received by the insurer within 31 days of such expiration date. If such coverage is continued in accordance with this paragraph, such dependent shall be entitled upon the termination of such incapacity to ~~[a converted policy in accordance with and subject to the terms and conditions of the conversion privilege clause if such privilege is afforded by the policy, provided that such dependent has not attained the limiting age if any for coverage of adults specified in the policy]~~ **coverage offered by the New Hampshire high risk pool under RSA 404-G.**

5 Accident and Health Insurance; Group. Amend RSA 415:18, VII to read as follows:

VII.(a) If a group or blanket policy affecting a resident of New Hampshire is delivered or issued for delivery in this state or any other state, and such policy provides hospital or surgical expense insurance or major medical expense insurance for other than specific diseases, accidents only, or short-term student insurance where the policyholder is the school, the policy and any certificate issued under such policy to a New Hampshire resident shall contain a provision to the effect that in case of termination for any reason whatever of coverage, **including termination of eligibility for continuation coverage**, provided any employee while insured under a group policy issued to his *or her* employer, ~~[or to trustees, or of a termination for any reason whatever of insurance provided any member while insured under a group policy issued to a labor union;]~~ if the employee or member is not then covered by another policy of hospital or surgical expense insurance or hospital service or medical expense indemnity corporation subscriber contract providing similar benefits or if the employee or member is not covered by or eligible to be covered by a group contract or policy providing similar benefits or is not provided with similar benefits required by any statute or provided by any welfare plan or program ~~[which together with converted policy would result in over-insurance or duplication of benefits according to standards on file with the commissioner relating to individual policies]~~, the employee or member, if he *or she* has been insured under the group policy for at least 60 days, shall be entitled to have issued to him or her by the ~~[insurer]~~ **New Hampshire high risk pool** without evidence of insurability upon application ~~[therefor made to the insurer]~~ **to the New Hampshire high risk pool** within 31 days after such termination and upon payment of the ~~[quarterly]~~ **applicable** premium, ~~[applicable to the class of risk to which the covered person belongs, to the age of such person, and to the form and amount of insurance, an individual policy of insurance, hereinafter referred to as the converted policy. Subject to the pro-~~

visions of this paragraph, the benefits provided under the converted policy shall be those required by paragraphs IX, X and XI, whichever is applicable. The commissioner may from time to time make rules to establish minimum standards for such converted plans, according to RSA 541-A.

(b) The plans chosen by the employee or member, shall, at the option of the employee or member, provide identical coverage including maternity at the option of the employee or member for the dependents of such employee or member who were covered under the group policy; provided, however, that in no event shall any of the benefits provided under such plan exceed those provided for such persons under the group policy from which the conversion was made] *an individual policy of insurance under RSA 404-G or shall be entitled to elect the 39-week extension period pursuant to RSA 415:18, XVII.*

[~~(c)~~] (b) The effective date of the individual policy shall be the date of the termination of the individual's insurance under the group policy. The individual policy shall not exclude any other preexisting condition [but the hospital, surgical or medical benefits paid under the policy may be reduced by the amount of any such benefits payable under the group policy after the termination of the individual's insurance thereunder, and during the first policy year of such converted policy the benefits payable under the policy may be reduced so that they are not in excess of those that would have been payable had the individual's insurance under the group policy remained in force and effect; nor shall the individual's policy contain an age limit, except that the insurer shall not be required to convert a policy or to continue in force a converted policy which provides coverage to an individual eligible for benefits under the federal Social Security Act. The individual converted policy may include a provision whereby the insured may request information at any premium due date of the policy of any person covered thereunder as to whether he is then covered by another policy of hospital or surgical expense insurance or hospital service or medical expense indemnity corporation subscriber contract providing similar benefits or is then covered by a group contract or policy providing similar benefits or is then provided with similar benefits, required by any statute or provided by any welfare plan or program. If any such person is so covered or so provided and fails to furnish the details of such coverage when requested, the benefits payable under the converted policy may be based on the hospital, surgical or medical expenses actually incurred after excluding expenses to the extent they are payable under such other coverage or provided under such statute, plan or program].

[~~(d)~~] In the event the benefits payable are reduced in accordance with the provisions of this paragraph, the insurer shall return the portion of the premium paid which exceeds the pro-rata portion of the benefits thus determined:

[~~(e)~~] (c) The [conversion provision] *option to obtain coverage from the New Hampshire high risk pool under RSA 404-G* shall also be available, upon the death of the employee or member, to the surviving spouse with respect to those family members who are then covered by the group policy, [~~and shall be available~~] to a child solely with respect to himself *or herself* upon his *or her* attaining the limiting age of coverage under the group policy while covered as a dependent thereunder[~~The conversion provision shall also be available~~], *and* to a former dependent spouse upon remarriage of the group plan member. [~~A former dependent spouse shall exercise the conversion~~] *The option to obtain coverage from the New Hampshire high risk pool shall be exercised within 31 days of the [remarriage of the group plan member] qualifying event.*

[~~(f)~~] (d) Each certificate holder in the insured group shall be given written notice of [~~this conversion privilege~~] *the option* and its duration within [~~15~~] *30* days after the date of termination of the group contract or policy. [~~If this notice is given more than 15 days after the date of termination, the time allowed for the exercise of the privilege of conversion shall be extended for a period of 15 days following receipt of written notice by the certificate holder.~~] Such notice shall be mailed by the insurer to the certificate holder at the last address furnished to the insurer by the contract holder at the same time as the notice required by RSA 415:18, [~~VH(g)(4)~~] *XVII* is mailed. Each certificate holder shall have the option of electing an individual [~~conversion~~] *policy from the New Hampshire high risk pool under RSA 404-G*, or the 39 week extension period provided pursuant to RSA 415:18, [~~VH(g)(4)~~] *XVII*. The election of the 39 week extension period upon termination by any person or member shall not preclude such person or member from electing [~~a converted policy~~] *to exercise the option of obtaining coverage from the New Hampshire high risk pool under RSA 404-G* at the expiration of the 39 week extension period.

[~~(g)~~] (1) Whenever any individual who is a member of any group hospital, surgical, medical insurance plan, dental insurance plan, or health maintenance organization, except short-term stu-

dent insurance where the policyholder is the school, becomes ineligible for continued participation in such plan for any reason including death, except dismissal for gross misconduct, the benefits of such plan shall be available at the same group rate to the individual, the surviving spouse and the dependents covered by the group plan, for an extension period of:

(A) 18 months; or

(B) 29 months in the case of an individual who is determined, under Title II or XVI of the Social Security Act to have been disabled within the first 60 days of the date such individual becomes ineligible for continued participation in the plan; or

(C) Except when the widow, widower, divorced spouse, or legally separated spouse of a covered employee is 55 years of age or older, 36 months in the case of:

(i) the death of the covered employee;

(ii) the divorce or the legal separation of the covered employee from the employee's spouse;

(iii) the covered employee's becoming entitled to benefits under Title XVIII of the Social Security Act or the covered employee's becoming entitled to benefits under Title XVIII of the Social Security Act within the 18-month continuation in subparagraph (g)(1)(A); or

(iv) a dependent child ceasing to be a dependent child.

(D) When the surviving spouse, divorced spouse, or legally separated spouse of a covered employee is 55 years of age or older, in the case of the death of the covered employee; or, the divorce or the legal separation of the covered employee from the employee's spouse, then the extension period shall continue until the surviving spouse, divorced spouse, or legally separated spouse becomes eligible for participation in another employer-based group plan or becomes eligible for Medicare.

(E) 36 months, for retirees and dependents who have a substantial loss of coverage within one year of the employer filing for protection under the bankruptcy provisions of Title 11 of the United States Code.

(F) Extension coverage need not be provided beyond:

(i) the first day of the month following the date the individual becomes eligible for benefits under another group plan;

(ii) the date of the first Medicare open enrollment period following the date the individual became ineligible for continued participation under the group plan;

(iii) the date on which the group plan terminates subject to RSA 415:18, VI(g)(4); or

(iv) the date on which coverage ceases because of a failure to make timely payment of premium as required; however, the payment of any premium shall be considered to be timely if made within 30 days after the date due or within such longer period as applies to the plan.

(G) The individual, surviving spouse, divorced spouse, legally separated spouse, or dependent shall elect to continue the participation in the group plan according to rules adopted by the commissioner under RSA 541-A. The individual, surviving spouse, or dependent shall be responsible for payment of premiums which may include an administrative fee not to exceed 2 percent of the monthly premium to the employer or policyholder throughout the extension period. Any divorced spouse or legally separated spouse who is responsible for making a portion of or full payment to the employer shall notify the employer and the insurance company, in writing within 30 days of the decree of divorce or separation, that coverage under this subparagraph is requested. Any employee who is responsible for making a portion of or full payment to the employer shall likewise notify the employer and the insurance company, in writing within 30 days of the decree of divorce or separation, that coverage under this subparagraph is requested. The employer shall have the right to terminate coverage for a former dependent spouse who is receiving coverage under this subparagraph if any payment for the coverage is not received from the former dependent spouse within 30 days of the date the premium payments are due. If any payment for the coverage for which the employee is responsible is not received from the employee within 30 days of the date the premium payments are due, the employer shall have the right to terminate coverage for a former dependent spouse; however, no such termination shall occur without 30 days' prior notice to the former dependent spouse, during which time the former dependent spouse shall be given an opportunity to make the payments due or to secure payment from the employee. Upon termination of the extension period, the member, surviving spouse, divorced spouse, legally separated spouse, or dependent shall be entitled to exercise any option which is provided in the group plan to elect a converted policy. After timely receipt of the premium payment from the individual, surviving

spouse, divorced spouse, legally separated spouse, or dependent, if the employer fails to make payments to the insurer or health service corporation or health maintenance organization, with the result that coverage is terminated, the employer shall be liable for benefits to the same extent as the insurer or health service corporation or health maintenance organization would have been liable if coverage had not been terminated.

(2) The provisions of this section shall apply to group hospital and medical expense policies subject to RSA 415 and group health service plan contracts issued pursuant to RSA 420-A, and to health maintenance organization policies and plans issued pursuant to RSA 420-B. The provisions of this section shall not apply to individuals covered under group policies issued to small employers of size one, as defined pursuant to RSA 420-G:2, XVI.

(3) [Repealed.]

(4) Whenever any group hospital, surgical, medical insurance plan, or health maintenance organization coverage terminates for any reason, unless such member, surviving spouse or dependent is, at the termination date, enrolled in the group plan pursuant to RSA 415:18, VH(g)(1), the benefits of such plan shall be available at the same group rate to the individual, the surviving spouse, and the dependents covered by the group plan, for an extension period of 39 weeks, or until such member, surviving spouse, or dependent becomes eligible for benefits under another group plan, whichever occurs first. Any such member, surviving spouse or dependent who is enrolled in the group plan pursuant to RSA 415:18, VH(g)(1) upon the termination date shall have the benefits of such plan available to him at the same group rate for an extension period of 39 weeks, or an extension period to the date the extension provided under RSA 415:18, VH(g)(1) would have expired had the plan not been terminated, or until such member, surviving spouse or dependent becomes eligible for benefits under another group plan, whichever occurs first. Written notice of the right to continue such group coverage shall be given by the insurance company in each master policy, certificate, and group policy. The insurance company shall furnish each employer or group an adequate supply of attachments for each master policy, certificate, or group policy in effect. An individual, surviving spouse, or dependent electing continuation of coverage under this subparagraph shall provide the insurance company written notice of election together with the first monthly premium contribution within 31 days from the date notice of the option to elect continuation of coverage was sent by the insurance company. The group rate shall be paid by the individual, surviving spouse, or dependent directly to the insurance company. The premium rate shall be that required for the coverage being continued and shall not exceed the applicable group rate, but a reasonable administrative fee not to exceed 2 percent of the monthly premium may be charged to offset billing and payment costs. Upon termination of the extension period, the member, surviving spouse, or dependent shall be entitled to exercise any option which is or was provided in the group plan to elect a converted policy. If a person or member becomes entitled to the 39-week extension period under this subparagraph the insurance company shall notify such person or member of the option to elect continuation of coverage and the conditions applicable to such coverage. If such person or member has not been given notice of the termination of the group plan within 15 days after the date of termination of the group coverage, then the person or member shall have an additional period within which to elect the 39-week extension period. This additional period shall expire 15 days after the person or member shall have been given said notice, but in no event shall the additional period extend beyond 6 months after the expiration of the original 31-day period. Written notice presented to the person or member or mailed by the insurance company to the last known address of the person or member as furnished by the policyholder shall constitute the giving of notice for the purpose of this subparagraph. If an additional period is allowed the person or member for election of the 39-week extension period as provided in this subparagraph, and if written notice of election accompanied by the first monthly premium and any monthly premiums which may be overdue, if any, is made after the expiration of the original 31-day period, but within the additional period allowed an employee or member in accordance with this subparagraph, the effective date of the extension period shall be the date of termination from the group. In no event shall a person or member entitled to such extension period be responsible for premiums accrued and unpaid prior to the termination or cancellation of the coverage.

(5) If the insurer fails to comply with the applicable employee notification requirements of RSA 415:18, VH(g)(4), then the insurer shall be liable for lost benefits payable under and according to the terms of the group policy or contract to the employee resulting from the termination of the employee's benefit plan. Such liability extends only for the period of non-compliance

~~beginning on the date notification of the employee was required under RSA 415:18, VH(g)(4) and ending on the date written notice is deposited in the United States mail. Such liability for insurers is secondary to the employer's liability during this period and becomes primary only after the department of labor advises the insurance commissioner of its determination that the employer is financially unable to pay all or any part of the employee's lost benefits and failed obligations. Such liability for insurers in no way diminishes the employer's liability during this or any period.]~~

6 Group Insurance. Amend the introductory paragraph of RSA 415:18, XII(c) to read as follows:

(c) Once a group or blanket policy has been issued, the insurer shall provide the group with an annual open enrollment period for late enrollees. During the open enrollment period, any late enrollee shall be permitted to enroll without submitting any evidence of insurability based on medical conditions. For late enrollees **in a large employer group** only, the pre-existing condition provisions shall apply for 18 months from the date of enrollment. However, an eligible employee or dependent shall not be considered a late enrollee if the individual:

7 New Paragraphs; Continuation of Coverage; Termination of Coverage. Amend RSA 415:18 by inserting after paragraph XIV the following new paragraphs:

XV. In paragraphs XVI and XVII:

(a) "Carrier" means an entity that offers or provides a policy, contract, or certificate of insurance coverage in this state. "Carrier" shall include an insurer, a health maintenance organization, or any other entity providing a policy, contract, or certificate of insurance coverage subject to state insurance regulation.

(b) "Cancellation" means the circumstance when the employer/employee relationship ceases to exist.

(c) "Individual" means any person covered under a group health plan, including but not limited to, the covered employee, the spouse of the covered employee, whether surviving, dependent, former dependent, or legally separated; or the dependent child of the employee, and any other person including a child born or placed for adoption with the covered employee, who is covered under a group health plan through the employment relationship.

(d) "Health insurance" means all group hospital and medical expense policies subject to RSA 415, group health service plan contracts pursuant to RSA 420-A, and health maintenance organization policies and plans issued pursuant to RSA 420-B, and all other plans that are additionally subject to RSA 420-G, except for small employers of size one defined pursuant to RSA 420-G:2, XVI.

(e) "Entire group termination" means that circumstance when all health insurance coverage to the group ends.

XVI. Continuation of Coverage.

(a) Carriers shall provide continuation of coverage when an individual covered by a plan of group health insurance or a health maintenance organization that provides medical, hospital, dental, and/or surgical expense benefits, except short-term student insurance where the policyholder is the school, loses coverage under the plan. Any group or blanket policy of health insurance that affects a resident of New Hampshire that is delivered or issued for delivery in this state or any other state shall contain a provision that allows each subscriber or member on the policy who is a resident of New Hampshire to obtain continuation coverage under this section. Coverage shall be provided in accordance with the procedures described in this section.

(b) Continuation coverage shall be identical to the coverage provided to other similarly situated members of the group that are still covered by the plan. The policy shall not be changed from the underlying group coverage, except that normal premium rate increases or decreases upon renewal affecting the group plan may also affect the continuation premium rate. The effective date of continuation coverage shall be the date the individual's coverage under the group plan ceased.

(c) Periods of coverage shall be as follows:

(1) Eighteen month period – When any individual loses coverage under a group health insurance plan for any reason except dismissal from employment for gross misconduct or carrier termination, coverage shall continue subject to this section for a period of 18 months, unless the individual is eligible for coverage under subparagraph (2), (3), (4), or (5).

(2) Thirty-nine week period (entire group insurance termination) – Whenever the entire group is terminated, coverage shall continue subject to this section for a period of 39 weeks. Where an individual has continuation coverage, coverage shall continue until it would have expired had the plan not been terminated or for 39 weeks, whichever occurs first.

(3) Twenty-nine month period (disability) – An individual who is determined to be disabled within the first 60 days of the date such individual loses coverage shall be entitled to 29 months of continuation coverage. Determination of disability shall be under Title II or XVI of the federal Social Security Act or any future act that has the same purpose.

(4) Thirty-six month period – Subject to subparagraph (e), coverage shall continue subject to this section for a period of 36 months if any individual loses coverage under a group health insurance plan for one of the following reasons:

(A) Death of a covered employee;

(B) The divorce or the legal separation of the covered employee;

(C) A substantial loss of coverage by retirees and dependents within one year of the employer filing for protection under the bankruptcy provisions of Title 11 of the United States Code; or

(D) A dependent child ceasing to be a dependent child.

(5) Eligible for Medicare – When the surviving spouse, divorced spouse, or legally separated spouse is 55 years of age or older and loses coverage because of the death, divorce, or legal separation of the covered employee, coverage shall continue subject to this section until such time as the spouse becomes eligible for participation in another employer-based group plan or becomes eligible for Medicare.

(d) Premium Payments. When an individual's coverage has ended, the amount of the premium charged to the individual electing continuation coverage shall not exceed 102 percent of the group premium amount as allocated for that individual's coverage.

(e) Responsibilities.

(1) When an individual loses coverage, it shall be the responsibility of the carrier to notify the individual of the right to elect continuation coverage.

(2) It shall be the responsibility of the individual electing continuation coverage to make timely premium payments to the carrier. A 30-day grace period for payment of the premium shall be provided. Failure to make a timely remittance of the premium shall be grounds for cancellation. Whenever a carrier fails to notify an individual that his or her coverage will not continue unless the individual so elects, the carrier shall be liable, in accordance with the terms of the policy, for claims accrued until such notice is made, except that any carrier that in good faith mailed a notice to the last known address of the individual shall not be held liable. Such carrier's liability shall in no way diminish the liability of the employer if the employer fails to notify the carrier of a member's loss of coverage.

(f) Notice Requirements and Procedures. A carrier shall notify the members and subscribers of their continuation rights as follows:

(1) The carrier shall provide, at the time of commencement of coverage under the health benefit plan, a summary plan description to each eligible member or subscriber of the rights provided under this section.

(2) Notice of the right to continue coverage also shall be set forth in each master policy and individual certificate of coverage.

(3) When coverage for an individual will cease under the group policy, the carrier shall notify the individual of the individual's right to continue, the amount of the premium required to continue coverage, and the procedure for electing continuation coverage. The notice of continuation shall specify the election period that shall not be less than 45 days after the date of the notice and shall be mailed to the last known address of the individual provided by the employer or plan administrator.

(4) The carrier shall specify in each notice of continuation that premium payments are to be remitted directly to the carrier.

(5) The carrier shall notify the individual of the right to continue coverage within 30 days of receiving notice from the plan administrator or employer of the loss of coverage.

(g) Election Requirements and Procedures.

(1) An individual electing continuation coverage shall notify the carrier in writing with a copy of the notice provided to the employer or plan administrator when the election is made. Such election shall be made within 45 days of the date of notice.

(2) Where the employee's spouse is also covered by the group plan, and there is a divorce or legal separation, the employee shall notify the employer of the divorce or separation within 30 days, and shall provide the employer and carrier with the employee's spouse's mail-

ing address. In case of a divorce or legal separation, the carrier shall provide a separate notice of the right to continue to the divorced or separated spouse. The divorced or separated spouse may elect to continue coverage by notifying the carrier within 45 days of the date of the notice and remitting the premium payment.

(3) Election by the individual shall be made within the period of time stated in the notice of the right to continue, by written notice to the carrier and the employer. The required premium payment, as specified in the notice of the right to continue, shall be remitted as required in the notice with the written notice of election.

(4) Where an individual declines the right to continue coverage, waiver shall be made by an affirmative means of declination, including but not limited to written declination of continuation coverage or electronic contact to the employer or plan administrator. An individual shall have the right to revoke the notice of declaration anytime within the specified election period.

(5) Where proper notice has been given, and no response is made within the election period, coverage may be deemed waived if the carrier has in good faith made reasonable efforts to contact the eligible individual. However, no carrier may deem any coverage waived if a notice does not fully comply with this section.

(6) Where an individual has attempted to notify the carrier, employer, or plan administrator of election, and where the written election has not included a premium payment, the carrier shall allow the individual to comply by paying the full amount of the unpaid premiums within 30 days of the date of election.

(7) Where more than one person covered by the group health insurance plan will lose coverage as a result of the covered employee's termination from the group, each individual shall be provided with a notice and shall have the opportunity to elect or waive coverage. Where there is a choice among plans, each individual shall have the opportunity to choose a plan.

(8) An election of continuation of coverage by a subscriber shall be deemed to include an election of continuation coverage on behalf of any other of the subscriber's dependents or beneficiaries who would lose coverage under the health benefit plan.

(h) End of Continuation Coverage. Nothing in this paragraph shall require a carrier to continue coverage beyond:

(1) The first day of the month following the individual's eligibility for a group plan through a different employer;

(2) In the case of an individual that is eligible for Medicare, the date of the first Medicare open enrollment period following the date the individual became ineligible for continued participation under the group plan;

(3) In the case of a period of extended coverage for a person who has been determined to be disabled during the first 60 days of continuation coverage, the month that begins more than 30 days after the date of a final determination that the person is no longer disabled;

(4) The date on which continuation coverage ceases because the individual has failed to pay the premium. The individual shall be given a 30-day grace period before coverage is cancelled, and shall be provided with a notice within 15 days of the date of termination that the coverage will be cancelled if the premium is not paid; or

(5) The date on which the group plan terminates subject to the continuation rights set forth in RSA 415:26.

(i) The provisions of this paragraph shall apply to group hospital and medical expense policies subject to RSA 415, group health service plan contracts issued pursuant to RSA 420-A, and to health maintenance organization policies and plans issued pursuant to RSA 420-B, and to group policies that cover New Hampshire residents who work in other states. The provisions of this section shall not apply to individuals covered under group policies issued to small employers of size one, as defined pursuant to RSA 420-G:2, XVI.

(j) Relationship to Federal Law. In any circumstance where more extensive notice requirements or other procedural requirements apply, the health benefit plan shall satisfy the specific requirements of federal law with respect to those procedural requirements.

XVII. Termination of Coverage.

(a) Whenever any group hospital, surgical, dental insurance plan, medical insurance plan, or health maintenance organization coverage terminates for any reason, the benefits of such plan shall be available at the same group rate to the covered members of the group plan, for an extension period of 39 weeks, or until such member of the group plan becomes eligible for benefits under another group plan, whichever occurs first.

(b) Written notice of the right to continue such group coverage upon termination shall be given by the carrier in each master policy, certificate, and group policy.

(c) Upon termination of the group policy for nonpayment of premiums the carrier shall give notice within 30 days of the effective date of termination of the policy to the policyholder and each certificate holder under the policy. Termination of the group policy for nonpayment of premiums shall occur no earlier than the date of expiration of the grace period, pursuant to RSA 415:18, I(p), for which premium was due but not paid. The notice shall provide that the certificate holder or policyholder may elect coverage from the date of termination to the date of notice; or elect coverage from the date of termination to the date of notice and continue such coverage in force pursuant to subparagraphs (d), (e), and (f).

(d) The member electing coverage under this subparagraph shall provide the carrier written notice of election together with the required premium contribution within 31 days of the date of the notice. The group rate shall be paid by the member directly to the carrier. The premium rate shall be that required for the coverage being continued and shall not exceed the applicable group rate, but a reasonable administrative fee not to exceed 2 percent of the monthly premium may be charged to offset billing and payment costs.

(e) If group members become entitled to the 39-week extension period due to termination of the policy, the carrier shall:

(1) Notify such person or member of the option to elect continuation of coverage for the extension period of 39 weeks and the conditions applicable to such coverage within 30 days of the date the plan terminates.

(2) If the carrier fails to notify the members of the termination of the group plan within 30 days of the date of termination of the group coverage, the members shall not be liable for any premiums that have not been paid prior to the date the notice was sent. In no event shall a person or member entitled to coverage for the extension period of 39 weeks be responsible for premiums accrued and unpaid prior to the date of the termination or cancellation of the coverage.

(3) Where coverage has ended as a result of an employer's nonpayment of premiums, the member electing continuation coverage shall not be liable for any accrued and unpaid premium that was the employer's responsibility under the policy, or any amount previously paid by the person for coverage under the policy that due to the employer's actions was not paid to the carrier.

(f) If the carrier fails to comply with the applicable employee notification requirements, the carrier shall be liable for lost benefits payable under and according to the terms of the group policy or contract to the employee resulting from the termination of the employee's benefit plan. Such liability shall extend only for the period of non-compliance beginning on the date notification of the employee was required and ending 31 days after the date notice was mailed.

8 New Paragraph; Definition Added. Amend RSA 415-A:1, I-d to read as follows:

I-d. "Date of enrollment" means the first day of coverage under the plan, or, if there is a waiting period, the first day of the waiting period, which is typically the first day of work.

I-e. "Employee benefit plan" means employee benefit plans described in section 4(a) of the Employee Retirement Income Security Act of 1974, 29 U.S.C. 1133 and 1135 and not exempted under section 4(b) of this Act other than those plans, or portions of them, that provide disability benefits.

9 Standards for Accident and Health Insurance. Amend RSA 415-A:4-b, V(b) to read as follows:

(b) A carrier or other licensed entity that offers group health plans or employee benefit plans shall file with the commissioner **by April 1 of each year, a copy of its current grievance procedures, with all changes from the previous year annotated in the document, and** a certificate of compliance ~~[by April 1 of each year]~~, stating that the carrier or other licensed entity has established and maintained, for each of its health benefit plans, grievance procedures that fully comply with the provisions of this chapter. Material modifications to the procedure shall be filed with the commissioner prior to becoming effective.

10 Preexisting Conditions. Amend RSA 415-A:5, I to read as follows:

I. If an insurer or a nonprofit hospital or medical service association elects to use a simplified application form for a policy other than a Medicare supplement policy, with or without a question as to the applicant's health at the time of application, but without any questions concerning the insured's health history or medical treatment history, the policy, 9 months after ~~the~~ **the** date of ~~[issuance]~~ **enrollment**, must cover any loss occurring from any preexisting condition not specifically excluded from coverage by terms of the policy and, except as so provided, the policy shall not include wording that would permit a defense based upon preexisting conditions.

11 New Paragraph; Multiple-Employer Welfare Arrangements. Amend RSA 415-E:3 by inserting after paragraph II-a the following new paragraph:

II-b. No arrangement shall extend preexisting condition exclusions beyond a period of 9 consecutive months after the date of enrollment of the person's health coverage.

12 New Paragraph; Health Service Corporations; Definition Added. Amend RSA 420-A:1 by inserting after paragraph II the following new paragraph:

II-a. "Date of enrollment" means the first day of coverage under the plan, or, if there is a waiting period, the first day of the waiting period, which is typically the first day of work.

13 New Section; Coverage for Dependents. Amend RSA 420-A by inserting after section 15-a the following new section:

420-A:15-b Coverage for Dependents. If the coverage for dependent children includes coverage for dependent children who are full-time students, as defined by the appropriate educational institution, beyond the age of 18, such dependent coverage shall include coverage for a dependent's medically necessary leave of absence from school for a period not to exceed 12 months or the date on which coverage would otherwise end pursuant to the terms and conditions of the policy, whichever comes first. Any breaks in the school semester shall not disqualify the dependent child from coverage under this section. Documentation and certification of the medical necessity of a leave of absence shall be submitted to the insurer by the student's attending physician and shall be considered prima facie evidence of entitlement to coverage under this section. The date of the documentation and certification of the medical necessity of a leave of absence shall be the date the insurance coverage under this section commences.

14 New Paragraph; Health Maintenance Organizations; Definition Added. Amend RSA 420-B:1 by inserting after paragraph II the following new paragraph:

II-a. "Date of enrollment" means the first day of coverage under the plan, or, if there is a waiting period, the first day of the waiting period, which is typically the first day of work.

15 New Section; Coverage for Dependents. Amend RSA 420-B by inserting after section 8-p the following new section:

420-B:8-q Coverage for Dependents. If the coverage for dependent children includes coverage for dependent children who are full-time students, as defined by the appropriate educational institution, beyond the age of 18, such dependent coverage shall include coverage for a dependent's medically necessary leave of absence from school for a period not to exceed 12 months or the date on which coverage would otherwise end pursuant to the terms and conditions of the policy, whichever comes first. Any breaks in the school semester shall not disqualify the dependent child from coverage under this section. Documentation and certification of the medical necessity of a leave of absence shall be submitted to the insurer by the student's attending physician and shall be considered prima facie evidence of entitlement to coverage under this section. The date of the documentation and certification of the medical necessity of a leave of absence shall be the date the insurance coverage under this section commences.

16 New Subparagraph; Prohibited Practices; Health Maintenance Organizations. Amend RSA 420-B:12, I by inserting after subparagraph (c) the following new subparagraph:

(d) If a person is covered by more than one plan or policy and both policies require pre-certification, the pre-certification by the primary plan shall be considered sufficient and the secondary plan must honor the primary plan pre-certification.

17 New Paragraph; Preferred Provider Agreements; Definition Added. Amend RSA 420-C:2 by inserting after paragraph II the following new paragraph:

II-a. "Date of enrollment" means the first day of coverage under the plan, or, if there is a waiting period, the first day of the waiting period, which is typically the first day of work.

18 New Sections; Coverage for Dependents. Amend RSA 420-C by inserting after section 4 the following new sections:

420-C:4-a Coverage for Dependents. If the coverage for dependent children includes coverage for dependent children who are full-time students, as defined by the appropriate educational institution, beyond the age of 18, such dependent coverage shall include coverage for a dependent's medically necessary leave of absence from school for a period not to exceed 12 months or the date on which coverage would otherwise end pursuant to the terms and conditions of the policy, whichever comes first. Any breaks in the school semester shall not disqualify the dependent child from coverage under this section. Documentation and certification of the medical necessity of a leave

of absence shall be submitted to the insurer by the student's attending physician and shall be considered prima facie evidence of entitlement to coverage under this section. The date of the documentation and certification of the medical necessity of a leave of absence shall be the date the insurance coverage under this section commences.

420-C:4-b Pre-certification Requirement. If a person is covered by more than one plan or policy and both policies require pre-certification, the pre-certification by the primary plan shall be considered sufficient and the secondary plan must honor the primary plan pre-certification.

19 New Paragraph; Prohibiting Limitations on Liability. Amend RSA 420-C:5-a by inserting after paragraph III the following new paragraph:

IV. No contract between a health care insurer and a health care provider shall limit coverage for preexisting conditions beyond 9 consecutive months from the date of enrollment.

20 New Paragraph; Delta Dental. Amend RSA 420-F:5 by inserting after paragraph VI the following new paragraph:

VII. If the coverage for dependent children includes coverage for dependent children who are full-time students, as defined by the appropriate educational institution, beyond the age of 18, such dependent coverage shall include coverage for a dependent's medically necessary leave of absence from school for a period not to exceed 12 months or the date on which coverage would otherwise end pursuant to the terms and conditions of the policy, whichever comes first. Any breaks in the school semester shall not disqualify the dependent child from coverage under this paragraph. Documentation and certification of the medical necessity of a leave of absence shall be submitted to the insurer by the student's attending physician and shall be considered prima facie evidence of entitlement to coverage under this paragraph. The date of the documentation and certification of the medical necessity of a leave of absence shall be the date the insurance coverage under this paragraph commences.

21 New Paragraph; Individual Health Insurance; Definition Added. Amend RSA 420-G:2 by inserting after paragraph III the following new paragraph:

III-a. "Date of enrollment" means the first day of coverage under the plan, or, if there is a waiting period, the first day of the waiting period, which is typically the first day of work.

22 Definition Amended. Amend RSA 420-G:2, XIV to read as follows:

XIV. "Preexisting condition" means a condition, whether physical or mental, for which medical advice, diagnosis, care or treatment was recommended or received during the 3 months immediately preceding the **[effective]** *enrollment* date of health coverage.

23 Preexisting Conditions. Amend RSA 420-G:7, I and II to read as follows:

I. A health carrier providing health coverage to large employers may impose a preexisting condition exclusion period, but only if it is at least as favorable to covered persons as the following:

(a) No preexisting condition exclusion shall extend beyond a period of 9 consecutive months after the **[effective]** date of *enrollment* of the person's health coverage; and

(b) Such preexisting condition exclusion period may only apply to a condition, whether physical or mental, regardless of the cause of the condition, for which medical advice, diagnosis, care or treatment was recommended or received during the 3 months immediately preceding the effective date of health coverage.

II. A health carrier providing health coverage to individuals or small employers may impose a preexisting condition exclusion period, but only if it is at least as favorable to covered persons as the following:

(a) No preexisting condition exclusion period shall extend beyond a period of 9 consecutive months after the **[effective]** date of *enrollment* of the person's health coverage.

(b) Such preexisting condition exclusion period may only apply to a condition, whether physical or mental, regardless of the cause of the condition, for which medical advice, diagnosis, care, or treatment was received or recommended during the 3 months immediately preceding the **[effective]** date of *enrollment* of the person's health coverage.

24 Requested Information; Date Changes. Amend RSA 420-G:14-a, II-IV to read as follows:

II. The commissioner shall request and health carriers shall supply information and data no later than **[April] June** 1 of each year sufficient to report on the small employer health insurance market. Such information shall be reported for the market as a whole and by market segment. At the commissioner's discretion, such information may include, but not be limited to, information relating to premium rates and rating practices, the number of groups and individuals insured, avail-

ability of coverage and benefit plans, trend, loss ratios, administration costs, and profitability. The commissioner shall file a report of the information by December 1 of each year with the president of the senate, the speaker of the house of representatives, the chairperson of the house commerce committee, and the chairperson of the senate banks and insurance committee.

III. The commissioner shall request and health carriers shall supply information no later than ~~[April]~~ **June** 1 of each year sufficient to report on the types of health coverage being purchased by individuals and employers by geographic area. The report shall include specific details regarding the type of coverage, including, but not limited to, co-pays, out-of-pocket maximums, network restrictions, and deductibles.

IV. The commissioner shall file the required reports by ~~[July]~~ **September** 1 of each year with the senate president, the speaker of the house, the chairperson of the house commerce committee, and the chairperson of the senate insurance committee.

25 Explanation of Benefits. Amend RSA 420-H:5, IV to read as follows:

IV. Filings subject to this section shall be accompanied by a certificate ~~[signed by an officer of the insurer]~~ stating that ~~[it]~~ **the filing** meets the minimum reading ease score on the test used or stating that the score is lower than the minimum required but should be approved in accordance with RSA 420-H:6. To confirm the accuracy of any certification, the commissioner may require the submission of further information to verify the certification in question.

26 New Section; Managed Care Law. Amend RSA 420-J by inserting after section 3-a the following new section:

420-J:3-b Pre-certification Requirement. If a person is covered by more than one plan or policy and both policies require pre-certification, the pre-certification by the primary plan shall be considered sufficient and the secondary plan must honor the primary plan pre-certification.

27 Managed Care Law; Grievance Procedures. Amend the paragraph heading and the introductory paragraph of subparagraph (a) of RSA 420-J:5, V to read as follows:

V. Manner and Content of Notification of Determination on Appeal. ***The carrier or other licensed entity shall provide a claimant with a written determination of the appeal.***

(a) ~~[The carrier or other licensed entity shall provide a claimant with a written determination of the appeal that]~~ ***Where a decision is made to uphold, in whole or in part, the denial of benefits, the written determination of appeal shall include:***

28 Managed Care Law; Grievance Procedures. Amend RSA 420-J:5, V(a)(7) to read as follows:

(7) ~~[The following statement: "You and your plan may have other voluntary alternative dispute resolution options, such as mediation. One way to find out what may be available is to contact your local U.S. Department of Labor Office and your state insurance regulatory agency;"]~~ ***A copy of the notice of the right to external review that includes the specific requirements for filing an external review; and***

29 New Section; Coverage for Dependents. Amend RSA 420-J by inserting after section 6-c the following new section:

420-J:6-d Coverage for Dependents. If the coverage for dependent children includes coverage for dependent children who are full-time students, as defined by the appropriate educational institution, beyond the age of 18, such dependent coverage shall include coverage for a dependent's medically necessary leave of absence from school for a period not to exceed 12 months or the date on which coverage would otherwise end pursuant to the terms and conditions of the policy, whichever comes first. Any breaks in the school semester shall not disqualify the dependent child from coverage under this section. Documentation and certification of the medical necessity of a leave of absence shall be submitted to the insurer by the student's attending physician and shall be considered prima facie evidence of entitlement to coverage under this section. The date of the documentation and certification of the medical necessity of a leave of absence shall be the date the insurance coverage under this section commences.

30 Small Employer Reinsurance. Amend RSA 420-K:3, II(g) to read as follows:

(g) Assess members in accordance with the provisions of this chapter, and to make advance interim assessments as may be reasonable and necessary for organizational and interim operating expenses ***and to pay claims reinsured by the pool.*** Any such interim assessments shall be credited as offsets against any regular assessments due following the close of the fiscal year.

31 Small Employer Reinsurance. Amend RSA 420-K:6, I(b) to read as follows:

(b) In addition to the regular assessment rate, the board may establish a special assessment rate for organizational expenses *and to pay claims reinsured by the pool*. Notwithstanding RSA 420-G:4, a writer of health insurance may increase the premiums charged by the amount of the special assessment. Any assessment may appear as a separate line item on a policyholder's bill.

(1) The board shall only establish an interim assessment if the board determines that its funds are or will become insufficient to pay the reinsurance pool's expense *or claims reinsured by the pool*, in a timely manner.

(2) The regular assessment rate, and any special assessment rate, shall be subject to the approval of the commissioner. The commissioner shall approve the rate if he or she finds that the amount is required to fulfill the purpose of the reinsurance pool. For the purpose of making this determination, the commissioner may, at the expense of the pool, seek independent actuarial certification of the need for the proposed rate.

32 Small Employer Reinsurance. Amend RSA 420-K:2, II to read as follows:

II. On or before July 1, 2005, the commissioner shall give notice to all members of the pool of the time and place for the initial organizational meeting, which shall take place by July 15, 2005. The members shall select the initial board[;] *at the organizational meeting and such initial board shall be* subject to approval by the commissioner. *The members shall elect each subsequent board at the annual meeting of members and each such subsequent board shall be subject to approval by the commissioner.* The *initial board and each subsequent board* shall consist of at least 5 and not more than 9 representatives of members. There shall be no more than one board member *on the initial board and each subsequent board* representing any one member company. In determining voting rights at the organizational meeting *and all subsequent meetings of members*, each member shall be entitled to vote in person or by proxy. ~~[The vote]~~ *All such votes* shall be proportional to the member's covered lives. To the extent possible, at least 2/3 of ~~[the]~~ members of ~~[the]~~ *each* board shall be small employer health carriers. At least one member *of each board* shall be a small employer health carrier with less than \$100,000,000 in net small employer health insurance premium in this state. The commissioner, or designee, shall be an ex-officio *voting* member of the board. In approving selection of ~~[the]~~ *each* board, the commissioner shall assure that all members are fairly represented. ~~[The membership of all boards subsequent to the initial board shall be approved by the commissioner and shall, to the extent possible, reflect the same distribution of representation as is described in this paragraph.]~~

33 Small Employer Reinsurance. Amend RSA 420-K:7, II to read as follows:

II. Any person or member made a party to any action, suit, or proceeding because the person or member served on the board or on a committee or was an officer or employee of the pool shall be held harmless and be indemnified by the pool against all liability and costs, including the amounts of judgments, settlements, fines or penalties, and expenses and reasonable attorney's fees incurred in connection with the action, suit, or proceeding. The indemnification shall not be provided on any matter in which the person or member is finally adjudged in the action, suit, or proceeding to have committed a breach of duty involving gross negligence, dishonesty, willful misfeasance, or reckless disregard of the responsibilities of office. Costs and expenses of the indemnification shall be prorated and paid for by all members. *The right of indemnification shall not be exclusive of other rights or defenses to which such person or the legal representative or successors of such person, may be entitled to as a matter of law.* The commissioner may retain actuarial consultants necessary to carry out his or her responsibilities pursuant to this chapter and such expenses shall be paid by the pool established in this chapter.

34 Withholding of Wages; Insurance; Reference Change. Amend RSA 275:48, III to read as follows:

III. An insurer or plan administrator of a self-funded plan shall notify an employee in writing of termination of an employee benefit plan pursuant to the notification requirements of RSA ~~[415:18, VII(g)(4)]~~ *415:18, XVI* or the Employee Retirement Income Security Act, as applicable.

35 Insurance; Applicable Statutes; Reference Change. Amend RSA 420-A:2 to read as follows:

420-A:2 Applicable Statutes. Every health service corporation shall be governed by this chapter and the relevant provisions of RSA 161-H, and shall be exempt from this title except for the provisions of RSA 400-A:39, RSA 401-B, RSA 402-C, RSA 404-F, RSA 415-A, RSA 415-F, RSA 415:6, II(4), RSA 415:6-g, RSA 415:6-k, RSA 415:6-m, RSA 415:18, V~~[-RSA 415:18, VII(g)]~~, RSA 415:18, VII-a, *RSA 415:18, XVI, and XVII*, RSA 415:18-a, RSA 415:18-j, RSA 415:18-o,

RSA 415:18-r, RSA 415:22, RSA 417, RSA 417-E, RSA 420-J, and all applicable provisions of title XXXVII wherein such corporations are specifically included. Every health service corporation and its agents shall be subject to the fees prescribed for health service corporations under RSA 400-A:29, VII.

36 Health Maintenance Organizations; Reference Change. Amend RSA 420-B:20, III to read as follows:

III. The requirements of RSA 400-A:39, RSA 401-B, RSA 402-C, RSA 404-F, RSA 415:6-g, RSA 415:6-m[~~-RSA 415:18, VII(g)~~], RSA 415:18, VII-a, ***RSA 415:18, XVI, and XVII***, RSA 415:18-j, RSA 415:18-r, RSA 415-A, RSA 415-F, RSA 420-G, and RSA 420-J shall apply to health maintenance organizations.

37 Delta Dental Plan of New Hampshire; Scope of Chapter; Reference Change. Amend RSA 420-F:1, III to read as follows:

III. Delta shall be governed by this chapter and shall be exempt from this title, except for the provisions of RSA 400-A:39, RSA 402-C, RSA 404-F, RSA [~~415:18, VII(g)(1)~~] ***415:18, XVI***, relative to continuation of dental insurance, and 1961, 345; provided, however, if any of the provisions of 1961, 345 are inconsistent with this chapter the provisions of this chapter shall prevail. Delta and its agents shall be subject to the fees prescribed for health service corporations under RSA 400-A:29, VII.

38 Individual Health Insurance Market; Eligibility. Amend RSA 404-G:5-e, V(c) to read as follows:

(c) The individual's premiums are paid for or reimbursed by the health care provider ***or the individual's premiums are paid by any government sponsored program or government agency***, except if the person is [an "eligible individual" as defined in section 2741(b) of the Public Health Service Act] ***eligible under subparagraphs I(d) or (e). Nothing in this subparagraph shall be construed to prevent the association from receiving or using non-assessment funds, including but not limited to federal, state, foundation, or other grants or donations from any source to further the purposes of this chapter.***

39 New Paragraph; Health Coverage; Enrollment. Amend RSA 420-G:8 by inserting after paragraph II the following new paragraph:

II-a. Notwithstanding the provisions of paragraph I-a and II, small employers who are self-employed individuals shall have 90 days from the date their business is first established to enroll in a plan. Health carriers shall make their plans available to such individuals for effective dates beginning on the first day of the month following enrollment.

40 Repeal. RSA 415:18, X and XI, relative to conversion privilege, are repealed.

41 Effective Date.

I. Sections 30 through 33 of this act shall take effect 60 days after its passage.

II. The remainder of this act shall take effect January 1, 2008.

HB 64-FN, establishing a criminal penalty for driving a commercial motor vehicle while violating an out-of-service order. **OUGHT TO PASS WITH AMENDMENT.**

Rep. David A. Welch for Criminal Justice and Public Safety: This bill as originally presented called for establishing a criminal penalty for violating an "out-of-service order." Department of Safety records indicate from October 2005 to March of 2007, 12,642 roadside inspections of commercial vehicles took place resulting in 17,247 violations. There were 3,400 "out-of-service" violations resulting in 2,224 vehicles being placed out-of-service. There were 10,901 driver violations resulting in 855 drivers being placed out-of-service, mostly for exceeding allowable hours for driving. The vehicle violations were mostly for brakes out of adjustment, leaks in air lines and loads not properly secured, or in some cases unsecured loads. The amendment replaces the bill and repeals the current administrative fines in RSA 263:93-B. A driver who is convicted of violating, or failing to comply with an out-of-service order shall be guilty of a Class B misdemeanor for a first offense and a Class A misdemeanor for any subsequent offense within a 10 year period. The employer who violates or knowingly requires a driver to violate an out-of-service order shares similar penalties. Representatives of the Motor Transport Association and Department of Safety have agreed with this language. Vote 16-0.

Amendment (0627h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to driving a commercial motor vehicle while violating an out-of-service order.

Amend the bill by replacing all after the enacting clause with the following:

1 Disqualification and Out-of-Service Orders. RSA 263:93-a is repealed and reenacted to read as follows:

263:93-a Disqualification and Out-of-Service Orders.

I. Notwithstanding any law to the contrary, any person who drives a commercial motor vehicle and who is convicted of violating or failing to comply with an out-of-service order shall be guilty of a class B misdemeanor for a first offense, or a class A misdemeanor for any subsequent offense within a 10-year period, and the person's commercial driver license or privilege to drive may be suspended for 90 days for a first offense, for one year for a second offense within a 10-year period, or for 3 years for a third or subsequent offense within a 10-year period.

II. Any person convicted of violating an out-of-service order while transporting hazardous materials or while operating a commercial motor vehicle designed or used to transport 15 or more passengers, including the driver, shall be guilty of a misdemeanor and the person's commercial driver license or privilege to drive may be suspended for 180 days for a first offense, or for 3 years for a second or subsequent offense within a 10-year period.

III. Any employer who violates an out-of-service order or who knowingly requires a driver to violate or fail to comply with an out-of-service order shall be:

(a) If a natural person, guilty of a class B misdemeanor for a first offense, or a class A misdemeanor for a second or subsequent offense within a 10-year period.

(b) If any other person, guilty of a class A misdemeanor.

IV. If a driver or employer is defaulted for failing to appear in court after being charged under paragraphs I-III, the court shall enter a guilty finding.

2 Repeal. RSA 263:93-b, relative to administrative fines, is repealed.

3 Effective Date. This act shall take effect January 1, 2008.

AMENDED ANALYSIS

This bill establishes criminal penalties, modifies license suspensions, and eliminates administrative fines for driving a commercial motor vehicle while violating an out-of-service order.

HB 277-FN, relative to obstructing or preventing a probation-parole officer in the course of his or her official duties. **INEXPEDIENT TO LEGISLATE.**

Rep. Delmar D. Burrige for Criminal Justice and Public Safety: This bill does not accomplish the objectives of the sponsor as written to thwart the obstructing, or preventing a probation-parole officer in the course of his or her official duties in remanding back to court violations that would result in incarceration. Vote 16-0.

HB 309, relative to the uniform fine schedule for the fish and game department. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Armand D. Forest for Criminal Justice and Public Safety: This bill authorizes changes to the violations listed on the Fish and Game Department uniform fine schedule for OHRV and snowmobile offenses. The amendment lists snowmobile speeding violations inadvertently left off the bill and places them on the proper fine schedule. Vote 16-0.

Amendment (0871h)

Amend section 2 of the bill by replacing the subsection entitled snowmobile violations with the following:

SNOWMOBILE VIOLATIONS

15. 215-C:4	Speed Limit, Back Lake	\$ 72.00
16. 215-C:7	Skimming	\$240.00
17. 215-C:8, I	Operate without lights	\$120.00
18. 215-C:8, III	Snowmobile, unreasonable speed	
	1-20 mph over prima facie speed limit	\$ 72.00
	21-30 mph over prima facie speed limit	\$120.00
	31 mph and greater over prima facie speed limit	\$240.00
19. 215-C:8, IV	Endanger person/damage property	\$120.00
20. 215-C:8, XI	Operate snowmobile on traveled portion	\$120.00
21. 215-C:10, I	Snowmobile on state way, sidewalk, or snowbank	\$ 72.00
22. 215-C:28, II	Sound level	\$120.00

23. 215-C:30, I	Required equipment	\$ 72.00
24. 215-C:30, II	Sled/trailer requirements	\$ 72.00
25. 215-C:36, I	Identification to landowner	\$120.00
26. 215-C:36, II	Operate unregistered snowmobile	\$120.00
27. 215-C:36, V	Operate without registration decals in place	\$ 60.00
28. 215-C:36, XI	Non-resident register at resident rate	\$120.00
29. 215-C:49, I	Operate without driver's license or safety training	\$ 72.00
30. 215-C:49, XIII	Operate on land of another without landowner permission	\$ 72.00
31. 215-C:49, XXI	Operate with suspended/revoked license	\$180.00

HB 368-FN, prohibiting trafficking in persons. **INEXPEDIENT TO LEGISLATE.**

Rep. Lori A. Movsesian for Criminal Justice and Public Safety: Prohibiting trafficking in persons is a serious issue that has been brought to this committee both in HB 368 and HB 35 that would establish a commission to study human trafficking issues in New Hampshire. The Senate also has a bill, SB 194 that would set up a commission. The committee believed that HB 368, while important, was not necessary as we will study this issue in depth by retaining HB 35. More study is needed before determining what actions would be made criminal. A serious study by a commission is the first step in addressing this important issue. Vote 16-0.

HB 395-FN, relative to penalties for computer crime. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Gene P. Charron for Criminal Justice and Public Safety: This bill specifies the penalties for certain computer crimes. Computer crimes are becoming all too common. This bill adds previous convictions not only in New Hampshire, but includes other states, territories, or possessions of the United States. This bill, using RSA 638:17, addresses computer related offenses. Attorney General's office supports this bill. Vote 17-0.

Amendment (0301h)

Amend the bill by replacing sections 1-2 with the following:

1 Computer Crime Penalties. Amend RSA 638:18, I to read as follows:

I. Computer crime constitutes a class A felony if the damage to or the value of the property or computer services exceeds \$1,000, *or if the person has previously been convicted of violating RSA 638:17, II, IV, or VI, or any other statute prohibiting the same conduct in another state, territory, or possession of the United States.*

2 Computer Crime Penalties. Amend RSA 638:18, II to read as follows:

II. Computer crime constitutes a class B felony if:

- (a) The damage to or the value of the property or computer services exceeds \$500; ~~or~~
- (b) The person recklessly engages in conduct which creates a risk of serious physical injury to another person; *or*
- (c) *The person is guilty of violating RSA 638:17, II, IV, or VI.*

HB 446, requiring the expulsion of a pupil for threatening a school employee. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Laura C. Pantelakos for Criminal Justice and Public Safety: This bill would add the crime of criminal threatening to RSA 193:13, III, which is the statute requiring expulsion of a student who possesses a firearm in a Safe School Zone. The result would be that criminal threatening would require an expulsion while in another section of current law expulsion is optional for acts such as homicide, first and second degree assault and other serious crimes. The amendment replaces the bill and adds the act of criminal threatening to RSA 193-D: 1, the definition of "Act of theft, destruction, or violence." This is the chapter that describes a Safe School Zone. The sponsor agreed that this was a logical move and accomplishes the original goal. Vote 17-0.

Amendment (0116h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to criminal threatening in a safe school zone.

Amend the bill by replacing section 1 with the following:

1 New Subparagraph; Safe School Zones; Definitions. Amend RSA 193-D:1 by inserting after subparagraph (j) the following new subparagraph:

- (k) Criminal threatening under RSA 631:4.

AMENDED ANALYSIS

This bill adds criminal threatening to the definition of an act of theft, destruction, or violence within the safe school zones statute.

HB 497-FN, requiring jail time for certain offenses involving bad checks. **INEXPEDIENT TO LEGISLATE.**

Rep. John E. Tholl for Criminal Justice and Public Safety: This bill as written had several serious problems. It calls for a mandatory three day jail sentence for a second offense violation of issuing bad checks and ten days in jail for a third offense. RSA 638:4, IV (a) (4) is punishable as a Class B misdemeanor. A Class B misdemeanor is punishable by a \$2,000 fine and no jail time and the right to court appointed counsel does not attach whenever there is the possibility of a jail term the right of court appointed counsel does attach. The committee believes that HB 497 actually reduces the possible penalty while imposing a mandatory jail term. This removes the judge's discretion. The committee felt that HB 497 is unworkable. Vote 16-0.

HB 504-FN, relative to registration requirements for certain criminal offenders under age 21. **OUGHT TO PASS WITH AMENDMENT.**

Rep. John E. Tholl for Criminal Justice and Public Safety: This bill as amended provides for the ability of a person who was convicted of a violation of RSA 632-A: 3 II (Felonious Sexual Assault) often referred to as statutory rape, who was under the age of 21 at the time of the offense, to file a petition with the Superior Court to have his/her name removed from the Sex Offender Register. This petition can only be considered by the court if the offense was non-forcible, with the absence of coercion and 10 years have elapsed since the conviction without any further convictions of a misdemeanor, or a felony. This petition will not remove the conviction, but only allow those persons to have their names removed from the Registry. The bill as amended has the support of nearly everyone who has seen the amendment. The committee felt strongly that this approach is the right thing to do. Vote 18-0.

Amendment (0737h)

Amend the bill by replacing all after the enacting clause with the following:

1 New Paragraph; Registration of Criminal Offenders; Duration of Registration. Amend RSA 651-B:6 by inserting after paragraph IV the following new paragraph:

V. Any person who has been convicted of a violation of RSA 632-A:3, II, or an equivalent offense in another jurisdiction, who was under 21 years of age at the time of the offense and where the victim was 13 years of age or older and under 16 years of age at the time of offense, and who is required to register under this chapter, may petition the superior court in which the person was convicted or in which the person resides, for removal of the person's name from the registry. The court shall consider the petition if it was determined that the offender did not use force or coercion in the commission of the act and a period of 10 years or more has elapsed since the conviction without any other misdemeanor or felony convictions. The age difference of the parties alone shall not constitute evidence of use of force or coercion.

2 Effective Date. This act shall take effect January 1, 2008.

AMENDED ANALYSIS

This bill allows a person convicted of a violation of RSA 632-A:3, II who was under 21 years of age at the time of the offense and where the victim was 13 years of age or older and under 16 years of age at the time of offense, to petition the superior court for removal of the person's name from the registry.

HB 539-FN, relative to manslaughter. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Delmar D. Burrige for Criminal Justice and Public Safety: This bill amends the circumstances under which a defendant who commits a homicide would be charged with manslaughter if he or she proves by a preponderance of the evidence that he or she was acting under the influence of extreme mental or emotional disturbance caused by extreme provocation. The defendant shall provide pre-trial notice to the prosecution of his or her intent to rely on this affirmative defense. Vote 14-1.

Amendment (0473h)

Amend the bill by replacing section 1 with the following:

1 Manslaughter. Amend RSA 630:2, I to read as follows:

I. A person is guilty of manslaughter when he or she causes the death of another[:

~~(a) Under the influence of extreme mental or emotional disturbance caused by extreme provocation but which would otherwise constitute murder; or~~

~~(b)] recklessly.~~

I-a. A defendant charged with murder under RSA 630:1-a, I(a) or RSA 630:1-b is guilty of manslaughter if he or she proves by a preponderance of the evidence that he or she was acting under the influence of extreme mental or emotional disturbance caused by extreme provocation. The defendant shall provide pre-trial notice to the prosecution of his or her intent to rely on this affirmative defense.

HB 572-FN, prohibiting the use of false documentation for employment, government services, or permits. **INEXPEDIENT TO LEGISLATE.**

Rep. Lee M. Hammond for Criminal Justice and Public Safety: Existing law includes misdemeanor penalties for falsification. Enactment of this bill would only duplicate what is already on the books and increase some penalties. The only subjects currently not covered are education and employment, both of which may be denied by the responsible authority directly involved. Vote 18-0.

HB 586-FN, imposing an enhanced penalty for sexual assaults by persons in a position of authority. **INEXPEDIENT TO LEGISLATE.**

Rep. Ellen Nielsen for Criminal Justice and Public Safety: The sponsor's intent was to enhance penalties for certain offenses, but according to the Attorney General's office, the bill as written reduces the penalties. The present statute appears to meet the intent of the sponsors. No Fiscal note was available. Vote 18-0.

HB 587-FN, relative to the duties of probation and parole officers. **OUGHT TO PASS.**

Rep. Laura C. Pantelakos for Criminal Justice and Public Safety: This bill would require probation and parole officers to undergo case management training to enable to better assist offenders with mental and physical disabilities, and drug treatment, relapse and addiction problems. The committee feels this would help a number of probation and parolees from re-offending. There was no fiscal note from the Department of Correction at the time this bill was passed. Vote 18-0.

HB 654-FN, prohibiting offenders against children from attending certain activities or events. **INEXPEDIENT TO LEGISLATE.**

Rep. Armand D. Forest for Criminal Justice and Public Safety: This legislation sought to prohibit registered offenders against children from attending any school sponsored activity event, or any children's sporting event, in which children under 13 years of age are involved. A violation of this legislation would be a misdemeanor. Offenders who have served their time and are released on parole are supervised by the Department of Corrections who can restrict activities of the registered offender. Many localities have placed restrictions on registered offenders through an ordinance. The committee felt that to make it a misdemeanor for a registered offender to attend a sporting event of one of his or her children, or grandchildren was going too far. Registration for this crime is for lifetime. If a registered offender has been released after serving his parole, he is no longer being supervised unless it was a part of his sentence. At that point, can we restrict his right of freedom, or will it be found unconstitutional? Vote 17-0.

HB 703, relative to day reporting programs in the county department of corrections. **OUGHT TO PASS.**

Rep. Jeffrey P. Fontas for Criminal Justice and Public Safety: The bill grants authority to the superintendent of a county correctional facility to establish a day reporting program in lieu of incarceration for certain offenders as deemed appropriate by the superintendent. It also allows for the sentencing court to order any person not committed to a state prison to participate in a day reporting program provided that such a program has been established in that county. Vote 15-0.

HB 707, relative to the time frames for hearings in domestic violence cases. **OUGHT TO PASS.**
Rep. George D. Winchell for Criminal Justice and Public Safety: This bill was brought forward at the request of the Attorney General's office. It fixes a problem in the current system, whereby if a petition is not acted upon within a certain time frame, the petition expires. The committee heard testimony of how difficult it has been for victims to go through the petition process again. This bill extends the time frame upon a motion by either party for good cause shown and if granted, states that the court shall reschedule the hearing as soon as is practicable and shall give the matter high priority in scheduling. The committee heard no testimony in opposition to this bill. Vote 15-0.

HB 708, establishing a committee to study the cost effectiveness of the county jail system. **INEXPEDIENT TO LEGISLATE.**

Rep. Lori A. Movsesian for Criminal Justice and Public Safety: A study of all aspects of county government is currently underway as part of SB 319, Chapter 221, Laws of 2006. Representatives from all ten counties are part of the study committee. One of the duties the committee is charged with is to study the cost effectiveness of the county jail system. HB 708 would be a duplication of effort and is therefore unnecessary. Vote 16-0.

HB 719, relative to the statute of limitations for fire code violations. **OUGHT TO PASS.**

Rep. Everett A. Weare for Criminal Justice and Public Safety: This bill adds a section (f) to the existing statute of limitation as set forth in RSA 625:8. It provides for a 3 months limit after discovery if committed by a natural person or within one year of its discovery if committed by any other person for any violation of RSA 153:24 which addresses regulation of the handling, storage and transportation of flammable liquids, or other disposition of highly flammable material or rubbish. Vote 16-0.

HB 737, relative to the enforcement of domestic violence orders. **INEXPEDIENT TO LEGISLATE.**

Rep. Stanley E. Stevens for Criminal Justice and Public Safety: This bill is a well intentioned bill that would require a service provider in a batterer's intervention program to notify the court if the defendant does not participate in, or complete a counseling, or intervention program. The problem that arises is that courts do not order a defendant to attend a particular program. Service providers only become aware of the court's requirements when the defendant seeks their services. If the defendant ignores the court's order, the service provider would not be aware of the court's order. When a defendant does report to a service provider they do, as a matter of course, report to the court the defendant's compliance with the order and whether or not they participate and complete the program. Vote 15-0.

HB 743, relative to the rights of crime victims while making a victim impact statement. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Timothy N. Robertson for Criminal Justice and Public Safety: This bill allows victims to speak to the Court about the effects of crime without being subject to questioning by the defense counsel. Vote 15-0.

Amendment (0849h)

Amend the bill by replacing sections 1-2 with the following:

1 Rights of Crime Victims. Amend RSA 21-M:8-k, II(p) to read as follows:

(p) The right to appear and make a written or oral victim impact statement at the sentencing of the defendant or, in the case of a plea bargain, prior to any plea bargain agreement. *No victim shall be subject to questioning by counsel when giving an impact statement.*

2 Rights of Crime Victims. Amend RSA 21-M:8-k, II(r) to read as follows:

(r) The right to be notified, ~~and~~ to attend, *and to make a written or oral victim impact statement at the* sentence review hearings and sentence reduction hearings. *No victim shall be subject to questioning by counsel when giving an impact statement.*

AMENDED ANALYSIS

This bill permits a victim to make an impact statement at the sentencing, sentence review, or sentence reduction hearings and prohibits a victim from being questioned by counsel when giving an impact statement.

HB 760-FN, relative to temporary relief in a domestic violence proceeding. **INEXPEDIENT TO LEGISLATE.**

Rep. Delmar D. Burrige for Criminal Justice and Public Safety: The committee feels the current law as written, enforced by the police and reviewed by the judiciary, is fair, reasoned and balanced in granting temporary relief for domestic violence. The proposed legislation would place an undue burden on the plaintiff and on the courts. Vote 15-0.

HB 780-FN-L, requiring police departments to be certified by the Commission on Accreditation for Law Enforcement Agencies (CALEA). **INEXPEDIENT TO LEGISLATE.**

Rep. Delmar D. Burrige for Criminal Justice and Public Safety: This need is currently being addressed by Police Standards and Training. Vote 15-0.

HB 783-FN, requiring DNA testing of persons convicted of certain felony offenses. **INEXPEDIENT TO LEGISLATE.**

Rep. Stanley E. Stevens for Criminal Justice and Public Safety: This bill would require that a DNA sample be taken upon intake, or release of any person convicted for the commission of any offense defined in RSA 173-B:1, I. RSA 173-B:1 is a definition section in the Domestic Violence Law. Many of the crimes described are misdemeanors and the committee was unanimous in its position that mandatory collection of DNA should not be expanded to misdemeanors. Vote 16-0.

HB 811, establishing a committee to study alternatives to incarceration and funding for rehabilitation programs for non-violent offenders. **INEXPEDIENT TO LEGISLATE.**

Rep. Gene P. Charron for Criminal Justice and Public Safety: Though well intended HB 811 is not necessary at this time simply because there are many committees and commissions already in progress studying alternatives. Many of our counties are also being progressive in this area with alternative programs. The Commissioner of Corrections is also looking into follow up programs upon release. Vote 16-0.

HB 869-FN, relative to unauthorized video surveillance. **INEXPEDIENT TO LEGISLATE.**

Rep. Ellen Nielsen for Criminal Justice and Public Safety: This bill amends the violation of privacy statute to prohibit video surveillance outside a private place without permission from the individuals being videotaped. The committee thought that the bill was too broad as written and noted that the meaning of "outside a private place" is not clear. The committee encouraged citizens who feel they are being harassed by such videotaping to seek a remedy in the civil courts. The fiscal note stated that this bill would create a new Class A misdemeanor which may increase state and county expenditures. Vote 16-0.

HB 872-FN, relative to an exception to the wiretapping and eavesdropping statute for recording images or sounds occurring where there is no reasonable expectation of privacy. **INEXPEDIENT TO LEGISLATE.**

Rep. Ellen Nielsen for Criminal Justice and Public Safety: This bill allowed any person to make audio recordings of communications between individuals, without their consent, in any place where there is no reasonable expectation of privacy. The law would overturn the well established legal concept that such interception requires the consent of both parties and would seriously undermine individuals' rights to privacy. No fiscal note is available for this bill at this time. Vote 16-0.

HB 890-FN, relative to sentencing of persons convicted of Internet solicitation of a minor. **INEXPEDIENT TO LEGISLATE.**

Rep. Stanley E. Stevens for Criminal Justice and Public Safety: The proposed bill raised a number of issues that were of concern to the committee. One of the major issues was the prohibition on plea bargaining. Plea bargaining has been a long established practice that has advantages for both the state and the defendant. To restrict the practice is not in the best interest of trial practice. The second problem is that prison wardens do not determine rehabilitation treatment programs and the bill provide no sanction for non-participation. The portion of the bill requiring law enforcement agencies to maintain a "log book" was vague and confusing. Law enforcement agencies currently must handle offender registration and enforce the law where there is non-participation from the offender. If the intent of the bill's author was to keep a contact log of all contact made by law enforcement officers, the committee felt this would create an unfunded mandate. Vote 16-0.

HB 915, establishing a committee to study the trafficking and distribution of illegal drugs into and throughout New Hampshire. **INEXPEDIENT TO LEGISLATE.**

Rep. Stanley E. Stevens for Criminal Justice and Public Safety: This bill would have created a committee to study the trafficking and distribution of illegal drugs into and throughout New Hampshire. The intent of this bill is laudable, however, the recently organized Governor's Commission on Crime already is addressing this as part of their charge and as four members of the Criminal Justice Committee are members of the Commission, this legislation is unnecessary. Vote 16-0.

HB 60, relative to the definition of an adequate education. **INEXPEDIENT TO LEGISLATE.**

Rep. Barbara E. Shaw for Education: The committee deemed that this bill had good criteria to include, but was not specific enough to meet the court's specifications for a definition of an adequate education. Vote 12-0.

HB 68, relative to the terminology used to describe public education. **INEXPEDIENT TO LEGISLATE.**

Rep. Judith E. Day for Education: This bill replaced the references to “equitable education” with “adequate education” in the relevant statutes. The same word replacements have been incorporated into other adequacy bills. Therefore, the committee felt that this bill did not need to be retained. Vote 13-0.

HB 178-FN-L, relative to the procedure for withdrawing from a cooperative school district. **INEXPEDIENT TO LEGISLATE.**

Rep. Karen K. McRae for Education: The committee voted Inexpedient because the situation being addressed was included in the amendment to HB 914. Vote 14-0.

HB 205, relative to procedures for certain court ordered out-of-district placements. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Judith E. Day for Education: This bill relates to the laws for educationally disabled children in certain court-ordered placements. It requires that prior to ordering any out-of-district placement a school district representative shall appear before the court to present written findings and recommendations or submit such findings and recommendations to the court concerning the child’s placement. It also requires that the court shall review such findings and recommendations and that, if an out-of-district placement is ordered, the court shall issue written findings detailing the educational reasons in support of the order. Vote 17-0.

Amendment (0944h)

Amend RSA 186-C:19-b, I(c) as inserted by section 1 of the bill by replacing it with the following:

(c) Prior to ordering any out-of-district placement under this section, a school district representative shall appear before the court to present written findings and recommendations or submit such findings and recommendations to the court concerning the child’s placement. The court shall review such findings and recommendations and, if an out-of-district placement is ordered, the court shall issue written findings detailing the educational reasons in support of the order.

AMENDED ANALYSIS

This bill provides that a school district representative shall appear before the court to present written findings and recommendations or submit such findings and recommendations to the court concerning the child’s placement and requires the court to issue written findings if an out-of-district placement is ordered.

HB 521, relative to the definition of adequate education. **INEXPEDIENT TO LEGISLATE.**

Rep. Charles B. Yeaton for Education: With the many bills relative to establishing an adequate education, the committee feels that we have vehicles which cover the matters contained in this bill. Vote 13-0.

HB 601-FN-A-L, transferring the portion of special education costs directly related to health issues to the department of health and human services. **INEXPEDIENT TO LEGISLATE.**

Rep. Judith E. Day for Education: Currently, Federal Special Education laws mandate responsibility for these costs to schools. Therefore, the committee considered this bill to be Inexpedient to Legislate. Despite lack of legislative action on this bill, the committee acknowledged the importance of thoughtful discussion of this topic. Vote 14-0.

HB 639, relative to limitations on withdrawal from a cooperative school district. **INEXPEDIENT TO LEGISLATE.**

Rep. Karen K. McRae for Education: The committee heard the frustrations of the citizens and felt that the problems presented regarding cooperative school districts need time for a thorough review and, in that light, regretfully voted Inexpedient to Legislate. The subject matter will be addressed by the joint House-Senate committee created in the amendment to HB 914 to review the cooperative school district statutes. Vote 13-1.

HB 698, relative to the policy and purpose of an adequate education. **INEXPEDIENT TO LEGISLATE.**

Rep. Claire D. Clarke for Education: The sponsor requested that the committee ITL this bill because he felt the information was out of date or addressed in other bills. Vote 14-0.

HB 701, relative to the definition of a school district in the case of unincorporated towns or unorganized places. **OUGHT TO PASS.**

Rep. Barbara E. Shaw for Education: This bill is necessary to correct the situation of Coos County being responsible as the school district for unincorporated towns or unorganized places in Carroll County. It removes the word "Coos" and replaces it with "a" county and "the" county. Vote 16-0.

HB 822, relative to enrollment of students in regional vocational schools. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Charles B. Yeaton for Education: The committee has been concerned with dropouts and with providing alternatives which might keep students in school. This bill has the potential to prevent some dropouts as it allows students to enroll in regional vocational schools, on a space-available basis, if they have attended high school for two years even though they may not have achieved the necessary credits during these two years. Vote 14-0.

Amendment (0905h)

Amend RSA 188-E:6, I as inserted by section 2 of the bill by replacing it with the following:

I. Students shall enroll at their regular high school for nonvocational courses and attend a regional vocational center for purposes of taking vocational courses except ~~[students], when it is determined pursuant to department of education rules that it would be in the best interest of the student, both academically and vocationally, a student may~~ ~~[where distance, transportation, or other physical restrictions prohibit]~~ attend the vocational education center for ~~[their]~~ *his or her* entire educational program. Tuition charged for students enrolled part time at the vocational education center shall be prorated on a time basis for both the local district and the state share of the payment.

Amend RSA 188-E:5 as inserted by section 4 of the bill by replacing it with the following:

188-E:5 Program. The program in the regional vocational centers shall be broad enough to serve the reasonable needs of the area, and provide for a substantial vocational offering in the region. Each center shall make maximum utilization of cooperative arrangements with special education and vocational rehabilitation in providing vocational education for disadvantaged and disabled persons. Opportunities for out-of-school youths, including "drop outs" and others, and adult education will be provided whenever possible. The regional vocational centers, as an integral part of each vocational offering, may provide opportunities in leadership development through participation by students in appropriate corresponding and nationally recognized vocational student organizations. *Regional vocational centers shall, on a space available basis, enroll any student requesting enrollment who has attended 2 years of high school regardless of the number of academic credits earned.*

AMENDED ANALYSIS

This bill requires regional vocational schools to accept students who have attended 2 years of high school regardless of the number of credits earned. This bill also allows students to enroll in regional vocational schools when the department of education determines it would be in their best interest.

HB 914-L, relative to the procedure for withdrawal from certain cooperative school districts and establishing a commission to study the procedures for withdrawal from a cooperative school district. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Karen K. McRae for Education: There were three bills dealing with cooperative school districts. There is a problem in several districts and the committee felt that creating a committee to review the statutes relating to cooperative school districts was in order. The original statute was passed in 1947 and has had several changes since then. The amendment creates a joint Senate-House committee to look at the statute. Vote 14-0.

Amendment (0915h)

Amend the title of the bill by replacing it with the following:

AN ACT establishing a committee to study issues related to cooperative school districts.

Amend the bill by replacing all after the enacting clause with the following:

1 Committee Established. There is established a committee to study issues related to cooperative school districts.

2 Membership and Compensation.

I. The members of the committee shall be as follows:

(a) Three members of the house of representatives, one of whom shall serve on the house education committee, and one of whom shall represent a town in a cooperative school district, appointed by the speaker of the house of representatives.

(b) Three members of the senate, appointed by the president of the senate.

II. Members of the committee shall receive mileage at the legislative rate when attending to the duties of the committee.

3 Duties.

I. The committee shall:

(a) Study the procedure for withdrawal from a cooperative school district including any needed changes to the procedure for withdrawal from a cooperative school district.

(b) Study the procedure for amending a cooperative school district's articles of agreement, specifically to reflect demographic changes in the towns comprising the cooperative school district.

(c) Evaluate existing procedures for the division of assets, disposition of property and other equity interests of the withdrawing school district, and any other financial interest which a school district seeking withdrawal may have in the remaining cooperative school district, and recommend revisions to such procedures as necessary.

(d) Study the feasibility of permitting the formation of cooperative school districts which would expire within a specified period of time.

II. The commission may consult with department of education personnel or any other individual or organization with information or expertise relevant to the committee's objectives.

4 Chairperson; Quorum. The members of the study committee shall elect a chairperson from among the members. The first meeting of the committee shall be called by the first-named house member. The first meeting of the committee shall be held within 45 days of the effective date of this section. Four members of the committee shall constitute a quorum.

5 Report. The committee shall report its findings and any recommendations for proposed legislation to the speaker of the house of representatives, the president of the senate, the house clerk, the senate clerk, the governor, and the state library on or before November 1, 2007.

6 Effective Date. This act shall take effect upon its passage.

AMENDED ANALYSIS

This bill establishes a committee to study issues related to cooperative school districts.

HB 272, relative to scheduling the presidential primary election. OUGHT TO PASS WITH AMENDMENT.

Rep. James R. Splaine for Election Law: This bill, as amended, provides for two logistical updates in our statutes to enable flexibility for the secretary of state to adjust dates for allowing absentee voting in the New Hampshire First in the Nation Presidential Primary, and to provide adequate time for the reporting to that office of the national convention delegates and alternative delegates by presidential candidates. By approving this legislation, we continue to authorize the secretary of state full flexibility in setting the date of our primary, based on an overview of the schedule of election events in other states, and thereby we continue to state our determination to protect the lead-off status of our primary. Vote 16-0.

Amendment (0629h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to presidential primary elections.

Amend the bill by replacing all after the enacting clause with the following:

1 Presidential Nominations; Selection of Delegates. Amend RSA 655:50 to read as follows:

655:50 Selection of Delegates. Each presidential candidate who has filed pursuant to RSA 655:47 shall file with the secretary of state ~~[between the first Monday in December and the first Monday after the first Wednesday in January before]~~ **no later than the third Friday following the last day of the filing period for the presidential primary the names and addresses in alphabetical order of the delegates and their alternates, one alternate per delegate, who shall represent [him] the candidate as his or her delegation to the national convention.**

2 Absentee Voting; Application; Forms. Amend RSA 657:4, I to read as follows:

I. Absence (Excluding Absence Due to Residence Outside the Continental United States), Religious Observance, and Disability:

New Hampshire law requires that you vote in person at the polling place for your town or ward unless you:

- a. Plan to be absent on the day of the election from the city, town, or unincorporated place in which you are registered to vote.
- b. Cannot appear in public on election day because of observance of a religious commitment.
- c. Are unable to vote in person due to a disability.
- d. Cannot appear at any time during polling hours at your polling place because an employment obligation requires you to remain physically at work or to be in transit to or from work from the time the polls open until after the time the polls close.

RSA 657:1. Any person who votes or attempts to vote using an absentee ballot who is not entitled to vote by absentee ballot shall be guilty of a misdemeanor. RSA 657:24.

I am requesting an absentee ballot for the following election:

____ State Primary. I am member of the:

____ Republican Party

____ Democratic Party

or I am now declaring my affiliation with that party and am requesting a ballot for that party's primary.

____ General Election

Applicant's Name _____

(Last)

(First)

(Middle)

(DOB)

Applicant's Voting Domicile (home address):

(Street)

(City/Town)

(zip)

Mail the ballot to me at this address: _____

I hereby declare that:

____ I am a duly qualified voter who is currently registered to vote in this town/ward.

____ I am absent from the town/city where I am domiciled and will be until after the next election, or I am unable to register in person due to a disability, and request that the forms necessary for absentee voter registration be sent to me with the absentee ballot.

I will be entitled to vote by absentee ballot at the election designated above because:

____ I plan to be absent on the day of the election from the city, town, or unincorporated place where I am domiciled.

____ I am requesting a ballot for the presidential primary election and I may be absent on the day of the election from the city, town, or unincorporated place where I am domiciled, but the date of the election has not been announced. I understand that I may only make such a request after the filing period for candidates has closed, and that if I will not be absent on the date of the election I am not eligible to vote by absentee ballot.

____ I cannot appear in public on election day because of observance of a religious commitment.

____ I am unable to vote in person due to a disability.

____ I cannot appear at any time during polling hours at my polling place because an employment obligation requires me to remain physically at work or to be in transit to or from work from the time the polls open until after the time the polls close.

This application form must be signed by the applicant. The absentee ballot forms you receive will require you to sign an affidavit confirming that you are entitled to vote by absentee ballot due to one of the reasons stated above. The moderator is required to compare the signature on the affidavit to your signature on this form. The absentee ballot will not be counted if the affidavit and this form do not appear to have been signed by the same person. RSA 659:50.

Signature of the Applicant

3 Special Overseas and Armed Services Election Write-In Ballot; Presidential Primary Election.
Amend RSA 657:10-a to read as follows:

657:10-a Special Overseas and Armed Services Election Write-In Ballot. Notwithstanding any other provision of the election laws, a qualified absentee voter may apply to a city or town clerk for a special write-in absentee ballot. These ballots shall be mailed by the town or city clerk no

later than July 15 for voting in a state primary election, *no later than November 1 for voting in a presidential primary election*, and no later than the date of the state primary for voting in a state general election, to overseas citizens and armed services personnel who state they are unable to vote by regular absentee ballot or in person due to requirements of military service or due to living in isolated areas outside the United States and Canada. The ballot shall be prepared by the secretary of state and shall be, as nearly as practicable, the same as the official overseas citizens federal election ballot except that there shall be no candidate's names printed on it.

4 Effective Date. This act shall take effect 60 days after its passage.

AMENDED ANALYSIS

This bill modifies dates for the filing names of addresses of presidential delegates and for mailing special overseas and armed services election write-in ballots. This bill also permits a person to request an absentee ballot for a presidential primary election before the date of the election has been announced.

HB 280, relative to the identification of persons and organizations petitioning for a citizen initiative or referendum. **INEXPEDIENT TO LEGISLATE.**

Rep. Paul Hopfgarten for Election Law: The committee appreciates the intent of this bill, but the bill is flawed in that communities that operate under town charters would not be subject to the same law as either cities or towns without a charter and, therefore, this bill could not be supported. Vote 16-0.

HB 344, relative to conduct of recounts. **OUGHT TO PASS.**

Rep. Janet F. Allen for Election Law This bill simply states that a candidate who has requested a recount but is unable to attend the recount will designate someone to make decisions on the candidate's behalf. The secretary of state's office fully supports the passage of this bill to solve problems that they have experienced. It is basically a housekeeping bill. Vote 16-0.

HB 387, relative to penalties for election law violations. **INEXPEDIENT TO LEGISLATE.**

Rep. Janet F. Allen for Election Law: Since the sponsor stated that there were no problems regarding election law violations, the committee unanimously voted to ITL this increase in penalties for local election officials. The committee believes the town and city clerks are the most well intentioned and well meaning election officials in the state. We are furthermore pleased with the number of citizens who volunteer to help with our elections. We feel that this bill would discourage the clerks and volunteers. We recognize and applaud the clerks for the difficult job they do. Vote 16-0.

HB 534, relative to political committees of political parties. **OUGHT TO PASS.**

Rep. William P. Denley for Election Law: This bill allows political subcommittees of the state political parties that include more than one city or town to be treated the same as single city or town. These regional committees will be required to submit the same reports required by single city or town committees to the secretary of state's office. Regional committees will be treated under the rules that apply to political parties rather than political action committees (PACs). Vote 13-1.

HB 541, relative to polling places for wards. **INEXPEDIENT TO LEGISLATE.**

Rep. James R. Splaine for Election Law: This bill eliminates the requirement that a polling place for a ward be located in the ward. The sponsors found a better and easier way to accomplish this objective on a local basis. Vote 16-0.

HB 548, relative to political expenditures and contributions. **INEXPEDIENT TO LEGISLATE.**

Rep. Daniel W. McKenna for Election Law: This bill attempts to simplify tracking campaign contributions and expenditures. However, the committee found this bill to be deeply flawed. New requirements are created by this bill for the way in which candidates would have to receive contributions and make expenditures. The committee did not believe that these requirements would necessarily increase campaign finance transparency. There was further concern that this bill mandates that all campaign contributions be made by check. Vote 14-1.

HB 608-FN, relative to the number of ballots furnished by the secretary of state for a state general election. **OUGHT TO PASS.**

Rep. Charles F. Weed for Election Law: The committee believes this is a cost saving measure that enables the secretary of state to provide the estimated number of ballots required for state general

elections. Current law requires that the number of ballots be at least equal to the number of registered voters in the election district. Using information from a myriad of sources, the secretary of state has been "spot on" in estimating voter turnout for several decades. There are procedures in place for timely recovery should the estimated number be too low. Vote 15-0.

HB 735, relative to the form of the presidential primary election ballot. **OUGHT TO PASS.**

Rep. Daniel W. McKenna for Election Law: This bill is a housekeeping bill requested by the secretary of state's office. The bill clarifies the instructions on the presidential primary ballot by adding the words "vote for not more than one." Further, if no candidate files for the office of vice president, the office will not be listed on the primary election ballot. Vote 14-0.

HB 206, relative to the disclosure of certain livestock health information. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Timothy D. O'Connell for Environment and Agriculture: This bill stipulates that participation in a state or national animal health or disease control system that requires the registration of livestock or agricultural premises, such as the National Animal Identification System, shall be voluntary. In addition information submitted by an individual or business in such a control system can be exempt from disclosure. However, it is important to emphasize that disclosure of information to local, state, and federal officials is not public disclosure. In addition, the exemption does not affect the disclosure of information used in reportable animal health investigations under RSA 436:6-a. Vote 13-1.

Amendment (0099h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to the disclosure of certain livestock health information and relative to voluntary registration of livestock and agricultural premises.

Amend RSA 436:6-a as inserted by section 1 of the bill by replacing it with the following:
436:6-a Records Disclosure.

I. Information submitted by an individual or business for the purpose of participating in a state or national animal health or disease control system is exempt from disclosure. Disclosure to local, state, and federal officials is not public disclosure. This exemption does not affect the disclosure of information used in reportable animal health investigations under this chapter.

II. Participation in a state or national animal health or disease control system requiring the registration of livestock or agricultural premises, such as the National Animal Identification System, shall be voluntary.

AMENDED ANALYSIS

This bill exempts certain livestock health information from disclosure.

This bill requires participation in livestock and agricultural premises registration programs to be voluntary.

HB 243, relative to a rabies immunization exemption. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Richard H. Snow for Environment and Agriculture: Cats, dogs & ferrets are required to be vaccinated against rabies in NH. This is done to protect the human population from infection by the rabies virus. In some rare but scientifically valid medical cases, an animal should be exempted, by their veterinarian, from vaccination for health risks to the animal. Current law does not allow for exemption. This bill adds, to the law, an allowance for exemption under carefully controlled conditions. An animal that has been exempted must be leashed, muzzled and under its owner's control when it is outside. The amendment addresses the concerns raised at the hearing about the muzzling methodology and equipment by making a local agency responsible for controlling the use of muzzles. There are no known fiscal impacts associated with this bill. Vote 13-0.

Amendment (0209h)

Amend RSA 436:100, II as inserted by section 1 of the bill by replacing it with the following:

II. A rabies immunization exemption may be issued, where illness or a veterinary medical condition warrants, by the local rabies control authority upon the written recommendation of a veterinarian licensed under RSA 332-B. The recommendation shall also be signed by an American College of Veterinary Internal Medicine diplomate and the state veterinarian. The exempted animal shall be maintained in strict rabies isolation, under conditions that are at the discretion

of the local rabies control authority, until such time as the medical condition has been resolved and the animal can be immunized against rabies. Exempted animals shall not be allowed outdoors without being on a leash and shall be under the direct physical control of an adult owner at all times. In addition, when the animal is outdoors, it shall be muzzled in a manner approved by the local rabies control authority.

HB 251, relative to the authority of the agricultural advisory board. **OUGHT TO PASS.**

Rep. Timothy D. O'Connell for Environment and Agriculture: The Agriculture Advisory Board consists of 15 members. Ten members are designated, one each, from each of our ten counties that are actively engaged in production agriculture. In addition, five members are appointed who reflect a diversity of the agricultural support and the consumer industry to monitor and sustain our agricultural economy. HB 251 expands the scope of the statutory duties of the Agriculture Advisory Board to be aware of and biennially report to the Commissioner of Agriculture administrative, legal, and other regulatory factors that are or could affect the viability of our agricultural economy. This bill is one of the recommendations of the recent report of the appointed Farm Viability Task Force. Vote 13-0.

HB 384, relative to repealing the authority of the department of environmental services regarding sludge and biosolids and establishing a committee to study new sludge legislation. **INEXPEDIENT TO LEGISLATE.**

Rep. Virginia L. Heard for Environment and Agriculture: This bill was found to be inexpedient to legislate because it would defeat the authority of the Department of Environmental Services to make rules regarding sludge and biosolids and cause far greater problems - the potential for unregulated spreading and management of biosolids and sludge. The other part of the bill would have established a commission to study and develop policies regarding management of sludge. This commission was found to be unnecessary as a similar commission is to be established in HB 699. Vote 14-0.

HB 414, relative to the sale of class A sludge in bulk agricultural fertilizer bags. **INEXPEDIENT TO LEGISLATE.**

Rep. William B. Tobin for Environment and Agriculture: The existing RSA's address the dispersal and spreading of the product. The new bill has no additional value to those laws in existence. Vote 14-0.

HB 672, establishing a commission to study requirements for safe and secure landfills. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Burton W. Williams for Environment and Agriculture: Secured landfills are one of our primary methods of disposing of our solid waste, including construction and demolition waste. Rules and regulations we have enacted over the years have made it increasingly difficult to site new ones or expand on existing. A commission to study secured landfills is in order at this time. Vote 16-1.

Amendment (0727h)

Amend section 2 of the bill by replacing paragraph I with the following:

2 Membership and Compensation.

I. The members of the commission shall be as follows:

(a) Four members of the house of representatives, of whom one shall be from the environment and agriculture committee, one from the science, technology, and energy committee, one from the public works committee, and one from the resources, recreation and development committee, appointed by the speaker of the house of representatives.

(b) Two members of the senate, one of whom shall be from the energy committee, and one from the public works committee, appointed by the senate president.

(c) One member from the New Hampshire Local Government Center, appointed by the association.

(d) One representative from the New Hampshire Sierra Club, appointed by that organization.

(e) One member from the Toxics Action Center, appointed by that organization.

(f) The commissioner of the department of environmental services, or designee.

(g) The attorney general, or designee.

(h) The commissioner of the department of health and human services, or designee.

(i) One member from the university of New Hampshire, appointed by the chancellor of the university system.

(j) Two members from the business or industrial community, appointed by the governor.

(k) One member of the public, appointed by the governor.

Amend section 3 of the bill by inserting after paragraph V the following new paragraph:

VI. Banning the landfilling of construction and demolition waste unless such waste was recycled.

HB 859, relative to the definitions of agriculture and farming in the motor vehicle laws. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Peter H. Allen for Environment and Agriculture: This bill improves the definition of "agriculture" and "farming" as all operations of a farm as defined in RSA 21:34-2. Vote 16-0.

Amendment (0854h)

Amend the bill by replacing section 1 with the following:

1 Agriculture and Farming; Defined. RSA 259:3 is repealed and reenacted to read as follows:

259:3 Agriculture and Farming. The words "agriculture" and "farming" mean all operations of a farm, as defined in RSA 21:34-a.

HB 879-FN, relative to establishing a conservation agent program within the department of environmental services. **INEXPEDIENT TO LEGISLATE.**

Rep. Timothy D. O'Connell for Environment and Agriculture: The committee is in concurrence that HB 879 is unwarranted. It is the opinion of the committee that our local building inspectors working with the Department of Environmental Services through the permitting process provides the necessary monitoring and compliance with permits issued on development sites. Testimony also was brought forth that most problems arise on sites where no permit was obtained. In addition, the fiscal note indicates that the bill would have significant impact on other state agencies, counties, and municipalities. Furthermore, DES indicates annual operating expenditures of over \$400,000. Vote 16-0.

HB 312-FN, relative to alternative providers for certain health services. **OUGHT TO PASS.**

Rep. Alida I. Millham for Executive Departments and Administration: This legislation will end the registration of alternative providers who engage in mental health practice as of July 1, 2007. An "alternative provider" is a person who, for remuneration, engages in mental health practice as defined in the mental health section of the occupations and professions section of the law, but does not hold a license to practice. Registration of "alternative providers" is merely a list of people who have registered by listing their name. There are no requirements for registration such as education, experience, and continuing education. This registration situation is confusing to the public and offers no protection. There are nineteen "Alternative providers" who will remain on the list. Vote 16-0.

HB 328, relative to the regulation of electrical installation of alarms. **INEXPEDIENT TO LEGISLATE.**

Rep. Hector M. Velez for Executive Departments and Administration: This bill would add alarms to the electrical installations regulated by the electricians' board. The state fire marshal opposed this bill based on the lack of clarity for alarms, training, and the fact that this bill did not mention single family homes. Both electricians and alarm installers are working on rules that will be addressing low voltage installation. These draft rules are almost complete and ready for submittal to Joint Legislative Committee on Administrative Rules. Vote 17-0.

HB 338, requiring the plumbers' board to report on the feasibility of reestablishing reciprocity with neighboring states in licensing of plumbers. **OUGHT TO PASS.**

Rep. Hector M. Velez for Executive Departments and Administration: This bill requires the plumbers board to study the feasibility of re-establishing reciprocity with Maine and Vermont in licensing of plumbers. The committee believes that re-establishing reciprocity with neighboring states is in the best interest of New Hampshire because we would work collaboratively with neighboring states. In 1999, rules, as they pertained to reciprocity, expired. Studying the situation might result in new legislation. Vote 17-0.

HB 346-FN-L, establishing a defined contribution retirement option in the New Hampshire retirement system. **INEXPEDIENT TO LEGISLATE.**

Rep. Ken Hawkins for Executive Departments and Administration: This bill would have allowed new employees eligible for the New Hampshire Retirement System to elect to participate in a defined contribution system (much like a 401K account) instead of the defined benefit plan cur-

rently required, and it would allow any person vested to switch to a defined contribution system. It spelled out the rates of contribution for both employees and employer. The problem with this bill is that it would take people and monies from the retirement system in that contributions would no longer go into the retirement system. This would create a funding problem in that the system would no longer receive any monies from people who went into the defined contribution plan. The result of passing this bill could possibly mean a drastic increase in payments by the communities and state payments that the taxpayers would have to pay. Vote 17-0.

HB 545, relative to the definition of recreational therapy. **INEXPEDIENT TO LEGISLATE.**

Rep. Catriona D. Beck for Executive Departments and Administration: This bill would amend and change the language in the introductory paragraph of RSA 326-J:1 III from "Life" to "recreational or leisure activities in the statute pertaining to recreational therapists. Due to the fact that this new law goes into effect in June of 2007, testimony presented to the committee in favor of keeping the original language, because the law has not even taken effect, outweighed making any changes at this present time. Vote 16-1.

HB 562-FN, excluding extra or special duty pay from earnable compensation in the retirement system. **INEXPEDIENT TO LEGISLATE.**

Rep. Pamela V. Manney for Executive Departments and Administration: This bill sought to remove extra or special duty pay from the definition of earnable compensation used in the calculation of retirement system benefits that would have negatively affected the retirement benefits of approximately 4,573 police members and some in the teaching profession. Police officers don't make much and don't pay into the social security system. The hours are long, the job is dangerous and the work schedule often takes them away from their family so they may protect ours. These retirement benefits are all they have to support themselves in their later years. They earned it, they worked for it and they deserve to receive the benefits they were promised when they took the job. The committee understood the rationale for bringing this bill forward but could not support doing so at the expense of our law enforcement officers. Vote 16-1.

HB 568-FN, repealing the option to purchase nonqualified service credit in the New Hampshire retirement system. **OUGHT TO PASS.**

Rep. Ken Hawkins for Executive Departments and Administration: This bill was filed to correct a problem that was created with the passage of HB 1633 in 2006. This bill allowed members of the New Hampshire Retirement System to purchase up to five years of service credit. This then allowed a member to shorten the number of years by the number of additional years purchased. For instance, a group II member could purchase five years and retire at the end of fifteen years and receive a pension based upon 20 years credited service. It was the feeling of the committee that there exists in the RSAs today the ability for an employee to contribute to deferred compensation system, and that is where any additional contributions should be made. Vote 13-2.

HB 569-FN, relative to the retirement age for retirement system group II members. **INEXPEDIENT TO LEGISLATE.**

Rep. Patricia M. McMahon for Executive Departments and Administration: Group I members of the New Hampshire Retirement System consist of firefighters, police, corrections and other officers who have specialized training. Their professions are often extremely strenuous and stressful. Currently, they may retire after 20 years of employment at the age of 45 because of the greater risk on the job evidenced by increased disabilities, morbidity and mortality. The committee is opposed to a change to 55 years of age for group II members. We believe that not only would the increased age of retirement add to the burden of the individual employee but it will increase costs to the employer for a disability aggravated by the strenuous nature of the job later in the lifetime of a group II member. Vote 16-1.

HB 629-FN, relative to authorizing continued membership in the Manchester employees' contributory retirement system. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Ken Hawkins for Executive Departments and Administration: This bill would allow employees in the Manchester Employees Retirement System to continue in the system and opt out of the New Hampshire Retirement System when an employee is reclassified, or participate in the New Hampshire Retirement System. This came about because nurses in the city employ were going to be reclassified (transferred) to the school system. This would have forced them to become mem-

bers of the New Hampshire Retirement System. A number of these employees had 20 plus years of service. Upon transfer, they would be starting all over in the New Hampshire Retirement System and it then requires 10 years service to vest. An amendment to validate the Nashua Board of Public Works Retirement System that has been in effect since 1947 covers all city employees (outside of teachers, police & fire) much like the Manchester system does was added. This amendment will resolve any ambiguities. Vote 16-0.

Amendment (0630h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to authorizing continued membership in the Manchester employees' contributory retirement system, and relative to the Nashua public works retirement system.

Amend the bill by inserting after section 1 the following and renumbering the original section 2 to read as 4:

2 Findings.

I. The general court finds that the city of Nashua has continually operated a retirement system for employees of its board of public works since 1947. Although Nashua has had the option of merging its city-run public works retirement system with the New Hampshire retirement system, it has consistently chosen not to do so. Other than its board of public works employees, all of Nashua's other employees are in either group I or group II of the New Hampshire retirement system.

II. The New Hampshire supreme court's decision in *McKenzie v. City of Berlin*, as well as other retirement-related litigation, has caused concern among Nashua's public works employees and their families as to the validity of their 60-year-old plan. Accordingly, it is the intent of the legislature to reaffirm the continuing validity of the Nashua board of public works retirement system as an independent retirement system, exempt from the provisions of RSA 100-A.

3 Nashua Public Works Retirement System; Administration. 1943, 292:1 through 292:4 are repealed and reenacted as follows:

1. Administration. The administration of the Nashua public works retirement system is vested in a board of trustees.

2. Board of Trustees. The board of trustees shall establish rules, regulations, and policies as it deems necessary for the proper administration of the retirement plan. The board of trustees shall be selected or appointed in accordance with procedures approved by Nashua's governing body.

3. Management of Funds. The members of the board of trustees shall be the trustees of the funds created hereby and shall have full power to invest and reinvest such funds. The board of trustees shall have the powers, privileges, and immunities of a corporation. Said trustees shall have full power to hold, purchase, sell, assign, transfer, and dispose of any or all of the securities and investments in which the board has invested, as well as the proceeds of such investments. Employee contributions to the Nashua public works retirement system by employee members will be at a rate determined by its board of trustees. The Nashua public works retirement system board of trustees shall exercise the judgment and care under the circumstances then prevailing, which persons of prudence, discretion, and intelligence, acting in a like capacity and familiar with such matters, would use in the conduct of a pension plan of like character with like aims as the trust to minimize risk of loss to the trust fund.

4. Amount of Benefit. The member retirement eligibility, the amount of the retirement benefit, the type of retirement benefit, and the termination of any such benefit shall be at the discretion of the board of trustees.

AMENDED ANALYSIS

This bill allows certain members of the Manchester employees' contributory retirement system whose positions are reclassified to continue membership with the Manchester employees' contributory retirement system.

The bill also authorizes the continued operation of the Nashua public works retirement system administered by its board of trustees.

HB 652-FN, relative to the collection of debts owed to the state. **OUGHT TO PASS.**

Rep. Ken Hawkins for Executive Departments and Administration: This bill would allow state agencies to use a collection agency to collect monies owed to them because of unpaid fines and/or fees.

Currently, the attorney general's office will not allow agencies to go to court on their own to collect debts and will not go to court unless the monies owed are greater than \$5,000. We do not know how many dollars are involved, but heard testimony that it is considerable. Vote 15-0.

HB 673, allowing advanced registered nurse practitioners to certify walking disabilities. **OUGHT TO PASS.**

Rep. A. Laurie Harding for Executive Departments and Administration: This bill updates language in the statute governing walking disability plates and placards making it consistent with practice authority granted in the newly revised Nurse Practice Act. Under existing law, an advanced registered nurse practitioner may perform the walking disability assessment, but is then required to obtain the signature of a physician colleague for the form required by the Department of Motor Vehicles, prior to issuing a handicapped plate or placard. This bill authorizes the nurse practitioner to determine the disability and authorize the plate or placard, thereby eliminating unnecessary delay to the patient and interruption of the physician colleague. The New Hampshire Board of Nursing has affirmed that the walking disability assessment is within the existing scope of practice of the nurse practitioner. Thirty-two other states grant this authority to nurse practitioners. The committee received testimony and letters of support from hospitals, medical practices, professional nursing organizations and individual nurse practitioners and physician clinicians, serving thousand of New Hampshire residents who suffer from heart and lung disease, cancer, multiple sclerosis, arthritis, and other acute and chronic disorders that render mobility difficult. Enabling efficiencies within the health care delivery system is cost effective. Vote 15-1.

HB 718-FN, regulating privatization contracts for public service. **OUGHT TO PASS WITH AMENDMENT.**

Rep. A. Laurie Harding for Executive Departments and Administration: This bill regulates the manner in which private contractors are utilized by the state. Contractors make a significant contribution to state government, but are expensive. They may participate in policy making discussions and yet do not have any accountability to the state. Concerns were raised that the process recommended by HB 718 would be costly and would "further complicate an already complicated process." The amendment replaces the entire bill with a study committee to ensure that the "state renders service to the public in a manner that best serves the overall interests of the citizens of the state as well as the needs of service recipients." Vote 16-0.

Amendment (0549h)

Amend the title of the bill by replacing it with the following:

AN ACT establishing a committee to study the cost, quality, accountability and oversight standards used by the state when contacting with private entities for delivery of public services.

Amend the bill by replacing all after the enacting clause with the following:

1 Findings and Intent. In order to guarantee that the state and its citizens are securing the best quality and value for the expenditure of public funds, the general court finds and declares that it is in the best interest of taxpayers and the public to ensure that there is a process of full disclosure and accountability when state agencies enter into contracts with private entities for the delivery of public services that would otherwise be rendered by public employees.

2 Committee Established. There is established a committee to study the process and scope of the privatization or outsourcing of public services that would otherwise be delivered by state employees.

I. The members of the committee shall be as follows:

(a) Three members of the house of representatives, appointed by the speaker of the house of representatives, 2 of whom shall be from the executive departments and administration committee and one of whom shall be from the finance committee.

(b) Two members of the senate, appointed by the president of the senate, one of whom shall be from the executive departments and administration committee and one of whom shall be from the finance committee.

II. Members of the committee shall receive mileage at the legislative rate when attending to the duties of the committee.

3 Duties. The committee shall examine the extent of outsourcing or privatization of public services that are ongoing or long-term in nature. The goal of such study shall be to recommend changes

in contracting policies or procedures, as may be needed, to ensure that the state renders services to the public in a manner that best serves the overall interests of the citizens of New Hampshire as well as the needs of service recipients. In undertaking its analysis and making its recommendations, the committee shall look at whether there is a complete accounting during the contracting process of the comparative costs of direct public service delivery versus the outsourcing or privatization of those same services; whether contract administration and oversight are factored into the cost analysis; whether methods are in place to ensure contractor accountability and quality service delivery via trained workers; whether or how the contracting process measures whether contract employee services are overpriced or underpriced based on a comparison with the cost of public employee delivery of the same services; whether collateral costs, such as in-state job loss if the jobs are outsourced to another state or country or costshifting to communities or other public programs if the outsourced positions do not provide a living wage or health insurance benefits, are factored into contracting decisions; and any other considerations the committee deems appropriate.

4 Chairperson. Members of the committee shall elect a chairperson from among the members. The first meeting of the committee shall be called by the first-named house member. The first meeting of the committee shall be held within 45 days of the effective date of this section.

5 Report. The committee shall report its findings and any recommendations for proposed legislation to the speaker of the house of representatives, the president of the senate, the house clerk, the senate clerk, and the state library on or before November 1, 2007.

6 Effective Date. This act shall take effect upon its passage.

AMENDED ANALYSIS

This bill establishes a committee to study the cost, quality, accountability, and oversight standards used by the state when contacting with private entities for delivery of public services.

HB 733-FN, relative to certain authority and procedures of the department of revenue administration. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Pamela V. Manney for Executive Departments and Administration: This bill was submitted at the request of the department of revenue administration. It seeks to specify under what federal tax code and for what purpose the department of revenue administration is authorized to require submission of a social security number. It specifies at what dollar amount, "more than \$10," the department of revenue must credit an overpayment of taxes. It adds that "unless the taxpayer has requested the refund" the department can disregard the overpayment, "\$10 or less" if the cost to the state to refund would exceed the amount involved. The department states this bill may allow for savings in the processing costs of refunds that may decrease state general fund expenditures by an interminable amount. It also includes some housekeeping details requested by the department of revenue administration. Vote 15-0.

Amendment (0554h)

Amend the bill by replacing all after the enacting clause with the following:

1 Department of Revenue Administration; Authority to Require Social Security Numbers. Amend RSA 21-J:27-a to read as follows:

21-J:27-a Federal Tax Identification. ***For the purpose of administering any state tax as allowed under 42 U.S.C. section 405***, the commissioner of the department of revenue administration is authorized to require the submission of a social security number, a federal employer identification number, or any other identifying number used in filing or preparing federal tax returns by individuals, businesses, or return preparers.

2 Processing Refunds of \$10 or Less. Amend RSA 21-J:28-a, IV and V to read as follows:

IV. In the case of any refund or credit of ***more than \$10*** for overpayment of taxes administered by the department, the department shall apply the refund or credit as an offset to any liability with respect to any tax administered by the department. The department shall notify the taxpayer in the event of any such offset in tax.

V. In all cases where it appears that a taxpayer has overpaid his ***or her*** tax and the overpayment is ***\$10 or less*** [~~than \$1~~], the department may, in its discretion, disregard the overpayment if the cost to the state to refund the overpayment would exceed the amount involved, ***unless the taxpayer has requested the refund***.

3 New Paragraph; Bankruptcy; Affect on Lien Term. Amend RSA 21-J:28-c by inserting after paragraph IV the following new paragraph:

V. A bankruptcy filing by a taxpayer shall not affect the validity of any lien properly filed or renewed in accordance with this section.

4 New Paragraph; Statute of Limitations on Collections. Amend RSA 21-J:29 by inserting after paragraph III the following new paragraph:

IV. Where the assessment of any tax administered by the department has been made within the applicable period of limitation, such tax may be collected by lien or by a proceeding in court, but only if the lien is made or the proceeding commenced within 12 years of the assessment of the tax.

5 Effective Date. This act shall take effect 60 days after its passage.

AMENDED ANALYSIS

This bill:

I. Authorizes the department of revenue administration to disregard overpayments of taxes of \$10 or less, unless the taxpayer requests a refund.

II. Clarifies the department's authority to require social security numbers.

III. Establishes that a bankruptcy filing by a taxpayer does not affect the validity of a lien properly filed or renewed by the department.

IV. Establishes a 12-year statute of limitations on collection of assessments.

V. Is a request of the department of revenue administration.

HB 749, changing the position of forensic toxicologist within the department of safety from an unclassified to a classified position. **OUGHT TO PASS.**

Rep. Pamela V. Manney for Executive Departments and Administration: This bill was requested by the department of safety and seeks to change the position of forensic toxicologist with the department of safety from an unclassified to a classified position. The need to change from the appointed unclassified position to the classified was because the commissioner of safety was having difficulty filling the politically appointed position because candidates for the position had reservations about accepting a job that would be up for renewal every four years, especially if they had to move their family from another state. Vote 13-1.

HB 758-FN, establishing a new state defined contribution retirement plan for new state employees and establishing a committee to study the transition of current employees into the new plan and administration of the new plan. **INEXPEDIENT TO LEGISLATE.**

Rep. Daniel J. Sullivan for Executive Departments and Administration: This bill would have completely revamped the New Hampshire Retirement System from a defined benefit system to a defined contribution system. It also would have established a committee to study the transition. The effect of this bill would eliminate any further contributions to the current retirement system by the employees, but would then leave the funding needed to satisfy promised benefits only to the employers (state, towns, cities) which could possibly be in the millions that would have to be raised by property taxes. Vote 15-1.

HB 761-FN, establishing the licensure and regulation of municipal real estate appraisers. **INEXPEDIENT TO LEGISLATE.**

Rep. Russell C. Day for Executive Departments and Administration: This bill would establish a board of municipal real estate appraisers for regulation and licensure of persons engaged in the practice of appraising real property for property tax purposes. While there has been much discussion of certain property appraisals, especially included the much discussed "view tax", the majority of the committee felt that this bill was not complete enough to fully describe the licensing process, required education, fees assessed and examinations used. Values of property are considered in the purchase price of such property and there exists means of requesting abatements and appeals in contested appraisals of the property. There are credential requirements of the division of revenue administration for those persons who perform municipal real estate appraisals which communities are obligated to abide by. Vote 14-0.

HB 787-FN, relative to procedures for and requirements applicable to municipal appraisers for property tax purposes. **INEXPEDIENT TO LEGISLATE.**

Rep. Ken Hawkins for Executive Departments and Administration: This bill would hamper the assessing standards board in its work. The assessing standards board sets the rules, regulations and standards for how appraisers shall function. This bill would put into RSA's requirements that would

require manuals, and contract language that if put into the RSA's cannot be enforced. This bill was introduced because of the so called "view tax." It is the understanding of the committee that appraisers value a property by the value that the property could be sold for. Appraisers are currently required to be certified by the Department of Revenue Administration and the property owner has the ability to contest his re-evaluation to both the appraisers and the town. There is also an appeal process to the tax appeals board that can order a revaluation on an entire town or just one property in that town. Vote 15-0.

HB 788-FN, relative to games of chance. **INEXPEDIENT TO LEGISLATE.**

Rep. Ken Hawkins for Executive Departments and Administration: This committee had three bills regarding games of chance (HB 229, HB 788, and HB 922). We combined all three bills into one bill so this bill should be inexpedient to legislate. Vote 15-0.

HB 821, establishing a committee to study establishing a permanent Latino affairs commission. **INEXPEDIENT TO LEGISLATE.**

Rep. Hector M. Velez for Executive Departments and Administration: The committee had a very positive outlook and dialogue within the committee regarding the study. The prime sponsor asked the committee to find the bill inexpedient to legislate because it was premature and wished to include other individuals across the state to contribute in the development of a bill that is more representative of diverse populations. Vote 16-0.

HB 876-FN-L, relative to eliminating the special account, changing the definition of earnable compensation, and revising the calculation of employee and employer contribution rates and cost-of-living adjustments in the retirement system, and assigning all new employees to group I. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Patricia M. McMahon for Executive Departments and Administration: The committee achieved the first step to stabilize the New Hampshire Retirement System with HB 653, as amended, and recommends a second phase as a study commission that will address the remaining issues for the NHRS. Vote 14-0.

Amendment (0950h)

Amend the title of the bill by replacing it with the following:

AN ACT establishing a commission to make recommendations to ensure the long-term viability and sustainability of the New Hampshire retirement system.

Amend the bill by replacing all after the enacting clause with the following:

1 Commission Established. There is established a commission to make recommendations to ensure the long-term viability and sustainability of the New Hampshire retirement system.

2 Membership and Compensation.

I. The members of the commission shall be as follows:

(a) Three members of the house of representatives, one of whom shall be from the executive departments and administration committee and one of whom shall be from the finance committee, appointed by the speaker of the house of representatives.

(b) Three members of the senate, appointed by the president of the senate.

(c) The chairman of the New Hampshire retirement system board of trustees, or designee.

(d) Three representatives of group I of the retirement system, one of whom shall represent the state employee's association, one of whom shall represent the American Federation of Teachers, and one of whom shall represent the New Hampshire Education Association, appointed by the governor.

(e) Three representatives of group II of the retirement system, one of whom shall represent the New Hampshire State Permanent Firemen's Association, one of whom shall represent the Professional Firefighters of New Hampshire, and one of whom shall represent the New Hampshire Patrolman's Association, appointed by the governor.

(f) Three representatives of municipal and school employers in the retirement system, appointed by the governor.

II. Legislative members of the commission shall receive mileage at the legislative rate when attending to the duties of the commission.

3 Duties. The commission shall:

I. Study the history of funding and benefits in the New Hampshire retirement system.

II. Analyze the current financial status of the retirement system, and the challenges facing the system in the future.

III. Assess the changes to federal accounting standards and their potential effect on the retirement system.

IV. Make recommendations for ensuring the long-term viability of the retirement system.

V. Study other matters deemed necessary by the commission.

VI. Seek technical assistance as necessary from the New Hampshire retirement system and from other independent financial, actuarial, and retirement experts.

4 Chairperson; Meetings. The governor, in consultation with the president of the senate and the speaker of the house of representatives, shall designate a chairperson from among the members. The first meeting of the commission shall be called by the chairperson. The first meeting of the commission shall be held within 45 days of the effective date of this section.

5 Report. The commission shall report its findings and any recommendations for proposed legislation to the speaker of the house of representatives, the president of the senate, the house clerk, the senate clerk, the governor, and the state library on or before November 1, 2007.

6 Effective Date. This act shall take effect upon its passage.

AMENDED ANALYSIS

This bill establishes a commission to make recommendations to ensure the long-term viability and sustainability of the New Hampshire retirement system.

HB 885-FN, relative to the deputy commissioner of the department of employment security. **IN-EXPEDIENT TO LEGISLATE.**

Rep. Pamela V. Manney for Executive Departments and Administration: This bill seeks to convert the deputy commissioner position and the three bureau directors (unemployment compensation bureau, employment service bureau and economic and labor market information bureau) from classified to unclassified positions. The department has historically maintained these four senior management positions as classified in order to ensure consistency and continuity in senior management and maintain that these positions would be free from political influence. Historical knowledge of a job and long time experience needed to run an efficient department would be lost should these positions become classified. All testimony heard, save the sponsor, was opposed to the bill. Vote 17-0.

HB 895-FN, relative to licensure of court reporters. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Alida I. Millham for Executive Departments and Administration: This bill will move court reporters from the jurisdiction of the court system to an independent board under the joint board of licensure and certification. Court reporters are individuals who are skilled at capturing, storing, retrieving and transcribing trial, pre-trial proceedings, speeches, legal proceedings, meetings and other events when written accounts of spoken words are necessary for correspondence, records or legal proof. The courts are now using electronic recorders instead of "court reporters" so no longer want to certify or oversee the practice of court reporters. This legislation authorizes a board under the joint board of licensure and certification for the purpose of licensing court reporters. The name court reporter remains because that is the long established title of the profession. Vote 11-0.

Amendment (0958h)

Amend the bill by replacing all after the enacting clause with the following:

1 New Subdivision; Court Reporters. Amend RSA 310-A by inserting after section 160 the following new subdivision:

310-A:161 Purpose. The purpose of this subdivision is to set appropriate standards for the proper licensure of court reporters, and to establish and maintain a standard of competency for individuals engaged in the practice of court reporting, to maintain the integrity of the transcription of the spoken word, and to contribute to the protection of the general public thereby.

310-A:162 Definitions. In this subdivision:

I. "Board" means the board of court reporters as created by this subdivision.

II. "Court reporter" means a person who has met the requirements set forth in this subdivision and is licensed to engage in shorthand reporting or voice writing.

III. "Machine writing" means the making of a verbatim record of the spoken word by means of the use of phonetic entries into a stenotype machine.

IV. "Secretary" shall mean the secretary of the board.

V. "Shorthand reporting" means the making by means of written symbols or abbreviations in shorthand or machine writing a verbatim record of the spoken word.

VI. "Voice reporting" means the making of a verbatim record of the spoken word by means of voice writing.

VII. "Voice writing" means the making of a verbatim record of the spoken word by means of an individual repeating the words of the speaker into a device either capable of digital translation into English text, or a device capable of creating a tape or digital recording.

310-A:163 Board.

I. There is hereby established a board of court reporters. The board shall consist of 5 members who shall be citizens of the United States and residents of this state appointed by the governor and council, 3 of whom shall be court reporters, one of whom shall be a public member and one of whom shall be admitted to practice law in the state of New Hampshire. The public member of the board shall be a person who is not, and never was, a member of the court reporting profession or the spouse of any such person, and who does not have and never has had, a material financial interest in either the provision of court reporting services or an activity directly related to court reporting, including the representation of the board or profession for a fee at any time during the 5 years preceding appointment. Each court reporter member shall have actively practiced court reporting for the chief means of livelihood for at least 10 years prior to appointment and shall have held a responsible position in charge of such work for at least 5 years prior to appointment, which may include the teaching of court reporting. Members shall be appointed for 5-year terms, except that no more than one appointed member's term may expire in any one calendar year. Appointments for terms of less than 5 years may be made in order to comply with this limitation. No appointed member shall be eligible to serve more than 2 full consecutive terms, provided that, for this purpose only, a period actually served which exceeds 1/2 of the 5-year term shall be deemed a full term. Upon expiration of a member's term, the member shall serve until a successor is qualified and appointed. The successor's term shall be 5 years from the date of expiration of the predecessor's appointment, regardless of the date of the successor's appointment. Vacancies occurring prior to the expiration of a specific term shall be filled by appointment for the unexpired term. The governor and council may remove a board member for cause. Members of the board shall receive \$25 for each day actually engaged in the duties of their office and shall be reimbursed for all actual travel, incidental, and clerical expenses necessarily incurred in carrying out the provisions of this subdivision.

II. The board shall hold at least 3 regular meetings each year and special meetings at such times as it may deem necessary. Notice of all meetings shall be given in such a manner as rules adopted by the board may provide. The board shall biennially elect or appoint a chairperson, vice-chairperson, and secretary. Three members shall constitute a quorum.

III. The board shall keep a record of its proceedings and a register of all applications for licensure, which shall show:

- (a) The name, age, and residence of each applicant.
- (b) The date of application.
- (c) The place of business of such applicant.
- (d) The applicant's educational and other qualifications.
- (e) Whether or not an examination was required.
- (f) Whether the applicant was rejected and the reasons for such rejection.
- (g) Whether a license was granted.
- (h) The date of the action of the board.
- (i) Such other information as may be deemed necessary by the board.

IV. The records of the board shall be prima facie evidence of the proceedings of the board, and a transcript of such records certified by the secretary of the board under seal shall be admissible in evidence with the same force and effect as if the original were produced.

V. Biennially, on or before December 31, the board shall submit to the governor a report of the transactions of the preceding biennium, and a complete statement of the receipts and expenditures of the board. The secretary of the board shall publish a roster listing the names and places of business of all court reporters licensed under the board during February of each even-numbered year. Copies of this roster shall be mailed to each person so licensed, placed on file with the secretary of state, and furnished to the public upon request at a fee to be established by the board. The board may include in such roster any other information it deems appropriate.

310-A:164 Rulemaking. The board shall adopt rules, pursuant to RSA 541-A, relative to:

I. The application procedure for a license to practice under this subdivision.

II. The qualifications of applicants in addition to those requirements set by statute, including the qualifications for satisfactory evidence of good professional character.

III. How an applicant shall be examined, including the time and place of the examination.

IV. How a license to practice under this subdivision shall be renewed or reinstated, including late fees and any requirements for continuing education.

V. Ethical and professional standards required to be met by each holder of a license under this subdivision and how disciplinary actions by the board shall be implemented for violations of these standards.

VI. Matters related to the proper administration of this subdivision.

VII. Procedures for the conduct of hearings consistent with the requirements of due process.

VIII. The design of an official seal.

310-A:165 Designation as Certified Court Reporter. Any person holding a valid license as a court reporter as herein provided shall be styled and known as a licensed court reporter. No other person shall assume or use the title "licensed court reporter."

310-A:166 Prohibition of Use of Title. No person may assume or use the title or designation court reporter, licensed court reporter, court recorder, shorthand reporter, licensed shorthand reporter, shorthand court reporter, licensed shorthand court reporter, shorthand court recorder, verbatim reporter, verbatim court reporter, licensed verbatim court reporter, shorthand court recorder, verbatim court recorder, licensed court recorder, court stenographer, verbatim court stenographer, or any abbreviation, title, designation, words, letters, sign, card, or device tending to indicate that the person is such unless the person holds a valid license as prescribed in this subdivision. A court reporter may use the word "shorthand" in his or her title only if that person is licensed in the shorthand reporting method and a court reporter may use the word "verbatim" in his or her title only if that person is licensed in the voice writing method.

310-A:167 Standards of Practice. Court reporters, who play a role in judicial proceedings and at meetings where the spoken word must be preserved in written transcript, shall demonstrate competence in:

I. The use of verbatim methods and equipment to capture, store, retrieve, and transcribe pre-trial and trial proceedings or other information.

II. Create verbatim transcripts of speeches, conversations, legal proceedings, meetings, and other events when written accounts of spoken words are necessary for correspondence, records, or legal proof.

III. Ensuring a complete, accurate, and secure legal record.

IV. Working in varieties of settings, such as taking depositions in attorney's offices, documenting proceedings of meetings, conventions, and other private activities, and documenting proceedings taking place in government agencies at all levels from the United States Congress to the state and local government bodies.

310-A:168 License Required. Any person engaging in, offering to engage in, or appearing to engage in court reporting shall hold a valid license issued under this subdivision, designating the method by which the reporter is licensed to practice.

310-A:169 Inactive License Status. Any licensee may surrender his or her license to the board for placement on inactive status. The board shall place the licensee on inactive status only upon application by the licensee. Any licensee on inactive license status may have the license reinstated to active status by demonstrating compliance in the previous biennium with the continuing education requirements adopted by the board and applying to change status from inactive to active and providing evidence of a surety bond as required by RSA 310-A:177.

310-A:170 Requirements for Licensure. The board shall issue a license to any qualified applicant who meets the standards established under this subdivision and who holds one of the following titles:

I. Registered Professional Reporter (RPR), from the National Court Reporters Association; or

II. Certified Voice Reporter (CVR), from the National Verbatim Reporters Association.

310-A:171 Qualifications for Applicant for Licensing. The board shall consider any applicant for licensing who has:

I. Applied for licensing;

II. Paid the fee required by this subdivision; and

III. Submitted proof satisfactory to the secretary that he or she:

- (a) Is not less than 18 years of age;
- (b) Is a citizen of the United States or legally able to work;
- (c) Is of good moral character; and
- (d) Has a high school education, or the equivalent thereof, as defined by the department of education.

310-A:172 Application Fee. There shall be paid to the secretary by each applicant for a license, a fee of \$250 which shall accompany the application.

310-A:173 Individual Seals Required. Every licensed court reporter under this subdivision shall have a seal containing the name of the licensed court reporter, his or her place of business, and the words "Licensed Court Reporter, State of New Hampshire" with which he or she shall stamp all transcripts prepared by him or her or under his or her supervision for use in this state. No licensed court reporter shall affix or permit to be affixed his or her seal to any transcript not prepared by him or her or under his or her supervision, nor shall any such reporter use his or her seal or do any other act as a licensed court reporter unless holding at the time a valid license under this subdivision. Licensed court reporter's seals shall indicate the reporting method utilized as defined in RSA 310-A:162.

310-A:174 Term of License; Renewal. The term of licensure under this chapter shall be every 2 years. All licenses issued by the board shall expire on the last day of the month of the licensee's birth in the year 2 years following the year of issuance. The secretary of the board shall notify every licensee of the date of the expiration of the license and the amount of the fee that shall be required for its renewal for 2 years, such amount to be not less than \$200. Such notice shall be mailed at least one month in advance of the date of expiration. Renewal may be effected at any time during the month of expiration by the payment of the fee established by the board and submission of evidence satisfactory to the board showing fulfillment of continuing education requirements. If a licensee fails to renew such license within the 12 months after the date of expiration, it shall become null and void and the licensee shall be required to reapply for licensure. Renewal fees shall be computed on a pro-rata basis as necessary as determined by the board.

310-A:175 Disciplinary Action.

I. The board may undertake disciplinary proceedings:

- (a) Upon his or her own initiative; or
- (b) Upon written complaint of any person which charges that a person licensed by the board has committed misconduct under paragraph II and which specifies the grounds therefor.

II. Misconduct sufficient to support disciplinary proceedings under this section shall include:

- (a) The practice of fraud or deceit in procuring or attempting to procure a license to practice under this subdivision.
- (b) The practice of court reporting using a reporting method for which the person is not licensed.
- (c) Conviction of a felony.
- (d) Any unprofessional conduct, or dishonorable conduct unworthy of, and affecting the practice of, the profession.
- (e) Unfitness or incompetency by reason of negligent habits or other causes.
- (f) Addiction to the use of alcohol or other habit-forming drugs to a degree which renders him or her unfit to practice under this subdivision.
- (g) Mental or physical incompetency to practice under this subdivision.
- (h) Willful or repeated violation of the provisions of this subdivision.
- (i) Suspension or revocation of a license, similar to one issued under this subdivision, in another jurisdiction and not reinstated.

III. The board may take disciplinary action in any one or more of the following ways:

- (a) By reprimand.
- (b) By suspension, limitation, or restriction of license for a period of up to 5 years.
- (c) By revocation of license.
- (d) By requiring the person to participate in a program of continuing education in the area or areas in which he or she has been found deficient.
- (e) By assessing administrative fines in amounts established by the board which shall not exceed \$2,000 per offense, or, in the case of continuing offenses, \$200 for each day up to a total not exceeding \$2,000.

310-A:176 Hearings. The board shall take no disciplinary action without a hearing. At least 14 days prior to the hearing, the board shall serve all parties in a disciplinary proceeding, either personally or by registered mail, with a written copy of the complaint filed and notice of the time and place for hearing. All complaints shall be objectively received and fairly heard by the board, but no complaint shall be acted upon unless in writing. A hearing shall be held on all written complaints received by the board within 3 months of the date notice of a complaint was received by the accused, unless otherwise agreed to by the parties. Written notice of all disciplinary decisions made by the board shall be given to all parties to the proceeding upon their issuance.

310-A:177 Penalties.

I. Any person who shall practice or offer to practice as a licensed court reporter in this state for others without being licensed in accordance with this subdivision shall be guilty of a class A misdemeanor if a natural person, or guilty of a felony if a business organization.

II. Any person who violates any other provision of this subdivision shall be guilty of a class A misdemeanor.

310-A:178 Surety Bond Required. There shall be filed with each original application for licensure a bond in the form of a surety, by a reputable company engaged in the bonding business, authorized to do business in the state, for the penal sum of \$1,000 with one or more sureties, to be approved by the attorney general and conditioned that the applicant conform to and not violate any of the duties, terms, conditions, provisions, or requirements of this subdivision. If any person shall be aggrieved by the misconduct of any such licensee, such person may maintain an action in his or her own name upon the bond of said licensee in any court having jurisdiction of the amount claimed. All such claims shall be assignable, and the assignee shall be entitled to the same upon the bond of such licensee or otherwise, as the person aggrieved would have been entitled to if such claim had not been assigned. Any claim or claims so assigned may be enforced in the name of such assignee. Any remedies given by this chapter shall not be exclusive of any other remedy which would otherwise exist.

310-A:179 Continuing Education Required. Any person holding a license shall be required to be in compliance with the continuing education requirements of the National Court Reporters Association or the National Verbatim Reporters Association depending on their method of court reporting as specified in RSA 310-A:162. Each person shall be responsible for maintaining evidence of his or her continuing education units and shall submit such evidence of continuing education units to the board annually upon renewal of their license.

310-A:180 License Number Required. The board shall issue license numbers and all licensees shall display their license number on any transcripts produced by the licensee and on all business cards and other such information made available to the public or as dictated by the board.

310-A:181 Code of Ethics. The board shall adopt the National Court Reporters Association Code of Ethics as the New Hampshire board of court reporters code of ethics, including all provisions relating to giving, directly or indirectly, any gift, incentive, reward or anything of value to attorneys, clients, witnesses, insurance companies, or any other persons or entities associated with the litigation or to the representatives or agents of any of the foregoing except for:

I. Items that do not exceed \$100 in the aggregate per recipient each year; or

II. Pro bono services as defined by the New Hampshire Bar Association.

310-A:182 Limited Notarial Function. Any licensee under this subdivision may be permitted, in the performance of his or her court reporting duties, to place any person under oath without the separate requirement of being designated a notary public, justice of the peace, or commissioner of deeds, as specified in RSA 455.

2 Reference Changes. RSA 326-I:7, IV(f) is repealed and reenacted to read as follows:

(f) Court reporters licensed under RSA 310-A:161 – RSA 310-A:182 while employed as court reporters as defined in RSA 310-A:162, II.

3 Reference to Joint Board. Amend RSA 5:13 to read as follows:

5:13 Commissions and Boards Functioning Within Department. The ballot law commission, the boxing and wrestling commission, the board of accountancy and the joint board of ~~[engineers, architects, land surveyors, and natural scientists]~~ **licensure and certification** shall each function within the department of state as a separate organizational entity and with all the powers and duties as heretofore provided, except as otherwise provided by law.

4 Chapter Heading; Joint Board. The chapter heading preceding RSA 310-A is repealed and reenacted to read as follows:

JOINT BOARD OF LICENSURE AND CERTIFICATION

5 Joint Board Established. Amend RSA 310-A:1 to read as follows:

310-A:1 Joint Board Established. There shall be a joint board of *licensure and certification* for professional engineers, architects, land surveyors, foresters, professional geologists, natural scientists, [and] landscape architects, *and court reporters* consisting of each of the members of the board of professional engineers, board of architects, state board of licensure for land surveyors, foresters' board, board of professional geologists, the board of natural scientists, [and] the board of landscape architects, *and the board of court reporters*. The joint board shall meet at least quarterly to carry out its duties established under this chapter.

6 Initial License; Fees. For one year following the effective date of this act, the board of court reporters may grant an initial license to any court reporter holding a valid certified court reporter certificate, provided the board determines that the person meets the criteria for applicants for licensure under RSA 310-A:161 - RSA 310-A:182. Applicants shall be responsible for fees as determined by the board.

7 Repeal. The following are repealed:

I. RSA 310-A:97, relative to the joint board chapter title reference.

II. RSA 331-B, relative to court reporting.

8 Effective Date. This act shall take effect July 1, 2007.

AMENDED ANALYSIS

This bill requires court reporters to be licensed by a board of court reporters and establishes the board of court reporters as part of the joint board of licensure and certification. Currently, court reporters are certified by the chief justice of the superior court.

HB 922-FN, relative to licensing for games of chance. **INEXPEDIENT TO LEGISLATE.**

Rep. Ken Hawkins for Executive Departments and Administration: The committee had three bills regarding games of chance, HB 229, HB 788 and HB 922. We combined all three bills into HB 229 via amendments allowing us to vote inexpedient to legislate on this bill. We did use most of the items in this bill in the final bill. Vote 13-0.

HB 451-FN, increasing the state's portion of special education funding. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Kenneth L. Weyler for Finance: Of our 200,000 students, approximately 30,000 of them have Individual Education Programs (IEP's). This designates them as Special Education (SPED) students. Of the 30,000 SPED students, about 1,500 have very costly programs. The state helps to fund these programs through Catastrophic Aid. The triggers for Catastrophic Aid are 3 and one half times the statewide average pupil cost. That cost for the present school year is \$9,774.53 per student. The 3.5 trigger is then \$34,210.85. Above that trigger, the Catastrophic Aid pays 80% and the district, 20%. The next trigger is at ten times the average pupil cost or \$97,745.30. Above the ten times trigger, Catastrophic Aid pays 100%. The original bill called for changing the two triggers to 3 times and 8 times. The committee held discussions with the Department of Education which disclosed that some districts used only their funds exclusive of state and federal contributions when calculating the triggers. But, others included all funds, even private insurance, in computations. The committee termed this "double-dipping." We amended the original bill to require that every application for Catastrophic Aid must list all payments for that individual student identified as to source, i.e. state, federal, etc. Although this was not the intent of the sponsors, the committee felt that it could not make progress on adjusting Catastrophic Aid until the accounting was more transparent and accurate. This is a necessary step. Vote 23-0.

Amendment (0830h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to the application of non-state sources of funding to catastrophic special education costs.

Amend the bill by replacing all after the enacting clause with the following:

1 Special Education; State Aid. Amend RSA 186-C:18, III to read as follows:

III.(a) The state board of education, through the commissioner[-] *of the* department of education, shall distribute aid available under this paragraph as entitlement to such school districts as have a special education pupil for whose costs they are responsible, for whom the costs of special

education, *less any pupil-specific aid received by the school district* in the fiscal year, exceed $3\frac{1}{2}$ times the estimated state average expenditure per pupil for the school year preceding the year of distribution. If in any year, the amount appropriated for distribution as catastrophic special education [186-C-18] aid in accordance with this section is insufficient therefor, the appropriation shall be prorated proportionally based on entitlement among the districts entitled to a grant. If there are unexpended funds appropriated under this paragraph at the end of any fiscal year, such funds shall be distributed for court-ordered placements under RSA 186-C:19-b. The state may designate up to \$250,000 of the funds which are appropriated as required by this paragraph, for each fiscal year, to assist those school districts which, under guidelines established by rules of the state board of education, may qualify for emergency assistance for special education costs. Upon application to the commissioner of education, and approval by the commissioner, such funds may be accepted and expended by school districts in accordance with this chapter; provided, however, that if a school district has received emergency assistance funds for certain educationally disabled children, it shall not receive catastrophic special education aid for those same educationally disabled children. If any of the funds designated for emergency assistance under this paragraph are not used for such emergency assistance purposes, the funds shall be used to assist school districts in meeting catastrophic cost increases in their special education programs as provided by this paragraph.

(b) The school district shall be liable for $3\frac{1}{2}$ times the estimated state average expenditure per pupil for the school year preceding the year of distribution, plus 20 percent of the additional cost, up to 10 times the estimated state average expenditure per pupil for the school year preceding the year of distribution.

(c) The department of education shall be liable for 80 percent of the cost above the $3\frac{1}{2}$ times the estimated state average expenditure per pupil for the school year preceding the year of distribution, up to 10 times the estimated state average expenditure per pupil for the school year preceding the year of distribution. The department of education shall be liable for all costs in excess of 10 times the estimated state average expenditure per pupil for the school year preceding the year of distribution.

2 Effective Date. This act shall take effect 60 days after its passage.

AMENDED ANALYSIS

This bill provides that pupil-specific aid received by a school district from non-state sources shall be deducted from the total cost of a special education pupil in calculating catastrophic aid payments.

HB 667-FN-A, making an appropriation for the purposes of the catastrophic illness program. **INEXPEDIENT TO LEGISLATE.**

Rep. Fran Wendelboe for Finance: This bill made an appropriation of \$400,000 per year for the purpose of the catastrophic illness program. Upon review, the committee saw that this program has been funded in excess of that amount in the past and is in the budget for '08 and '09 already in excess of \$400,000. Therefore, this bill was not necessary. Vote 24-0.

HB 801, establishing a committee to study the feasibility of the state assuming responsibility for fully funding special education costs for children receiving special education services in the state. **INEXPEDIENT TO LEGISLATE.**

Rep. Linda T. Foster for Finance: The committee believes that such a study committee has merit. The committee also knows, however, that we do not have accurate and/or complete information to bring to such a study. The committee has offered an amendment to HB 451-FN which, if passed by the House, will require more accurate reporting of the actual district costs for special education students. Moreover, the committee has passed HB 661-FN, one of the bills that is the result of the work done by the Special Education Task Force, which established an Executive Planning Commission on special education and makes a small appropriation therefore. Vote 23-0.

HB 824-FN, establishing a death benefit to be paid to the family of a police officer, firefighter, or highway worker killed in the line of duty. **INEXPEDIENT TO LEGISLATE.**

Rep. Bernard L. Benn for Finance: The bill establishes a \$100,000 death benefit to be paid to the family of a police officer, firefighters, or highway worker killed in the line of duty to be paid through the retirement system. Currently all full time employees are covered by a \$20,000 life policy. The committee heard testimony both in favor and opposed to the bill; some thought the benefit should be limited to only police and firefighters as proposed in SB 169, but others felt the benefit should

be expanded to include not only highway workers but also volunteer firefighters, EMT responders, prison guards, and school teachers. The committee felt that the \$100,000 benefit amount was significant and a more realistic help to a fallen's family than the current \$20,000 benefit. Who should be covered, how much coverage would cost the state, and the best method to fund the benefit are still to be determined. Therefore the committee recommends ITL at this time. Vote 22-0.

HB 835-FN, relative to funding the modular building program. **INEXPEDIENT TO LEGISLATE.**

Rep. Daniel A. Eaton for Finance: The committee agrees with the bill but would prefer to address the need in HB 1 and HB 2 so that we may accurately budget within the Department of Safety. Vote 22-1.

HB 434, relative to fishing in the Connecticut River. **INEXPEDIENT TO LEGISLATE.**

Rep. Robert J. L'Heureux for Fish and Game: This bill would have clarified the locations in the Connecticut River where persons with Vermont or New Hampshire fishing licenses could legally fish. A subcommittee was formed to research the issues in question. It was the determination of the subcommittee and the full committee concurred that passing this legislation would create more problems than it would solve. The committee was unanimous in its recommendation that this bill be inexpedient to legislate. Vote 14-0.

HB 134, relative to electronic prescribing for prescription drugs. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Frank G. Case for Health, Human Services and Elderly Affairs: This bill will update and modernize the Pharmacy Act. HB 134 is relative to electronic technology and its applications for the delivery of prescription medication for the residents of New Hampshire. This legislation gives the Board of Pharmacy the authority to regulate e-prescribing in New Hampshire. At the prescriber level, e-prescribing will provide a computerized system check for possible interactions and contraindications, so that at the pharmacy, drug interaction and allergic complications will be flagged. This new technology could have a significant reduction in drug and dispensing errors, resulting in fewer hospitalizations and misadventures in the process of drug prescribing and dispensing. As amended, the bill provides heightened privacy protections for patients. Vote 19-0.

Amendment (0823h)

Amend RSA 318:47-c as inserted by section 2 of the bill by replacing it with the following:
318:47-c Prescriptions.

I.(a) A prescription may be written, oral, or electronically transmitted. All oral prescriptions shall be immediately reduced to writing by the pharmacist or authorized technician receiving the oral prescription and shall indicate at least the name of the patient; the name, strength, and quantity of the drug prescribed; any directions specified by the prescriber; the name of the practitioner prescribing the medication; the date the prescription was ordered; a statement that the prescription was presented orally; and the name of the pharmacist who took the verbal order. The pharmacist who dispensed an original prescription shall indicate on the face of the prescription at least the assigned prescription identification number; the date of dispensing; the quantity actually dispensed; and his or her name or initials. The prescription shall be filed numerically by the assigned identification number for a period not less than 4 years. Such prescription files shall be open to inspection by the pharmacy board and its agents.

(b) A patient shall be entitled to receive a paper prescription instead of an oral or electronically transmitted prescription.

II.(a) A prescription that is electronically generated by a licensed prescriber, transmitted and received at the pharmacy by computer systems shall contain at least the name of the patient, the name, strength, and quantity of the drug prescribed, any directions specified by the prescriber, the name of the practitioner prescribing the medication, and shall be dated and signed by the prescribing practitioner on the day issued, and such signature shall be in an electronic format as defined in RSA 294-E:2, VIII.

(b) Electronic prescribing shall not interfere with a patient's freedom to choose a pharmacy.

(c) Electronic prescribing software shall not use any means or permit any other person to use any means, including, but not limited to, advertising, instant messaging, and pop-up ads, to influence or attempt to influence, through economic incentives or otherwise, the prescribing

decision of a prescribing practitioner at the point of care. Such means shall not be triggered or in specific response to the input, selection, or act of a prescribing practitioner or his or her agent in prescribing a certain pharmaceutical or directing a patient to a certain pharmacy.

(d) Electronic prescribing software may show information regarding a payor's formulary, co-payment, or benefit plan as long as nothing is designed to preclude or make more difficult the act of a prescribing practitioner or patient selecting any particular pharmacy or pharmaceutical.

(e) No person transmitting or facilitating the transmission of prescriptions electronically between the licensed practitioner generating the prescription and the pharmacy receiving the prescription, or any intermediary, shall retain the prescription or any information it contains for longer than is mandated by federal law or state statute, or 15 days if no mandate requires a longer period of time, after which time the prescription and the information it contains shall be destroyed. No person shall sell, use, or otherwise make available the prescription and the information it contains for any purpose other than transmission and verification.

HB 491, establishing the public health improvement services council. OUGHT TO PASS WITH AMENDMENT.

Rep. Ruth Z. Bleyler for Health, Human Services and Elderly Affairs: As amended, this bill institutionalizes the public health planning improvement process to assure quality public health services in New Hampshire. The council will monitor the implementation of existing plans and develop a public health improvement plan. A final report will be made by November 1, 2009 with findings and recommendations. Vote 18-0.

Amendment (0887h)

Amend the title of the bill by replacing it with the following:

AN ACT establishing a public health improvement services council.

Amend the bill by replacing all after the enacting clause with the following:

1 Statement of Purpose.

I. The general court finds that the public health functions of community assessment, policy development, and assurance of service delivery are essential elements in achieving the objectives of public health in New Hampshire. The general court further finds that the population-based services provided by state and local health departments and other public health partners are effective strategies to promote the health of New Hampshire residents and to protect them from illness and injury.

II. The general court recognizes that the division of public health services, department of health and human services, coordinates a public health improvement process in conjunction with public health partners throughout the state culminating in a performance improvement plan for the public health system. The general court finds that in order to sustain a public health planning improvement process to assure quality public health services in New Hampshire, it is necessary to institutionalize that process through the development of the public health improvement services council and a required performance improvement planning process. Therefore, the general court hereby establishes a public health improvement services council to improve the New Hampshire public health system's capacity to provide essential services, with the fundamental purpose to improve the public's health.

2 Council Established. There is established a public health improvement services council to monitor the implementation of existing public health improvement plans and to develop a public health improvement plan.

3 Membership and Compensation.

I. The council shall consist of the following members and, to the extent possible, ensure geographic distribution:

(a) One member of the house of representatives, appointed by the speaker of the house of representatives.

(b) One member of the senate, appointed by the president of the senate.

(c) The commissioner of health and human services, or designee.

(d) The commissioner of the department of education, or designee.

(e) The commissioner of the department of environmental services, or designee.

(f) Two clinicians with public health experience, one each from the Nashua and Manchester health departments, appointed by the commissioner of health and human services.

(g) Two representatives from the New Hampshire Public Health Network, appointed by the commissioner of health and human services.

(h) A representative from the New Hampshire Public Health Association, appointed by the association.

(i) A New Hampshire health insurer, appointed by the governor.

(j) A physician licensed under RSA 329, appointed by the governor.

(k) A representative from a community health center, appointed by the commissioner of health and human services.

(l) A representative from a philanthropic organization, appointed by the governor.

(m) A nurse licensed under RSA 326-B who is a public health nurse, appointed by the commissioner of health and human services.

(n) A representative of the Community Health Institute, appointed by the institute.

(o) A representative of the New Hampshire Local Government Center, appointed by the center.

(p) A representative of the New Hampshire Hospital Association, appointed by the association.

II. Legislative members of the council shall receive mileage at the legislative rate when attending to the duties of the council.

4 Duties.

I. The council shall:

(a) Develop a public health improvement plan which shall be based on the 10 essential public health services and shall recommend priorities and strategies to improve the public health system and health status of New Hampshire residents, taking into consideration national health objectives and systems standards such as the National Public Health Performance Standards, as frameworks for assessment.

(1) The 10 essential public health services are to:

(A) Monitor health status to identify and solve community health problems.

(B) Diagnose and investigate health problems and health hazards in the community.

(C) Inform, educate, and empower people about health issues.

(D) Mobilize community partnerships and action to identify and solve health problems.

(E) Develop policies and plans that support individual and community health efforts.

(F) Enforce laws and regulations that protect health and ensure safety.

(G) Link people to necessary personal health services and provide health care when otherwise unavailable.

(H) Assure a competent public and personal health care workforce.

(I) Evaluate effectiveness, accessibility, and quality of personal and population-based health services.

(J) Research for new insights and innovative solutions to health problems.

(2) The plan shall also take into consideration priorities and strategies developed through previous public health planning processes, related health planning initiatives, and local public health planning. The plan shall focus on prevention as a key strategy for long-term health improvement in New Hampshire. The plan shall contain recommendations on the contributions and strategies of the public and private sectors for improving health status and the public health system in the state. In addition, the plan shall include recommendations regarding priorities and strategies for reducing and eliminating health disparities in New Hampshire; including racial, ethnic, gender, age, socio-economic, and geographic disparities.

(b) Monitor the implementation of existing public health improvement plans.

II. The council may establish subcommittees as it deems necessary.

5 Chairperson; Quorum. The members of the council shall elect a chairperson from among the members. The first meeting of the council shall be called by the house member. The first meeting of the council shall be held within 45 days of the effective date of this section. Seven members of the council shall constitute a quorum.

6 Report. The council shall make an interim report on or before January 1, 2008 and a final report on or before November 1, 2009 with its findings and any recommendations for proposed legislation to the speaker of the house of representatives, the president of the senate, the house clerk, the senate clerk, the governor, and the state library.

7 Effective Date. This act shall take effect upon its passage.

AMENDED ANALYSIS

This bill establishes a public health improvement services council to establish and monitor the implementation of a public health improvement plan.

HB 688, establishing the council on the relationship between public health and the environment. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Barbara C. French for Health, Human Services and Elderly Affairs: This council has been in effect as a study committee since 2000. This legislation establishes a statutory council, to be reviewed by the Health and Human Services Oversight Committee every two years. The council has worked on public health concerns such as: restaurant services, school environment and public indoor smoking. The council is made up of a group of very dedicated professionals from Health and Human Services, Department of Environmental Services, Department of Education, Department of Agriculture, N.H. Lung Association and other appropriate government and private agencies. Vote 18-0.

Amendment (0693h)

Amend RSA 125-P:1, I as inserted by section 2 of the bill by replacing it with the following:

I. A council, to be known as the council on the relationship between public health and the environment, is hereby created and established. The council shall consist of the following members and, to the extent possible, ensure geographic distribution:

(a) Three members of the house of representatives, appointed by the speaker of the house of representatives.

(b) Two members of the senate, appointed by the president of the senate.

(c) A licensed physician knowledgeable in occupational and environmental medicine, appointed by the governor.

(d) A representative of the New Hampshire Public Health Association, appointed by such association.

(e) A representative of the New Hampshire Health Officers Association, appointed by such association.

(f) The commissioner of the department of health and human services, or designee.

(g) The commissioner of the department of environmental services, or designee.

(h) The commissioner of the department of insurance, or designee.

(i) The commissioner of the department of agriculture, markets, and food, or designee.

(j) The commissioner of the department of transportation, or designee.

(k) The commissioner of the department of education, or designee.

(l) A representative of the Foundation for Healthy Communities, appointed by the foundation.

(m) A representative of the Jordan Institute, appointed by the Institute.

(n) A representative of the Business and Industry Association of New Hampshire, appointed by the association.

(o) At least one director from a city health department, or designee, appointed by the governor.

(p) Two public health nurses, appointed by the New Hampshire Nurses' Association.

(q) Additional public members not to exceed 7, representing advocacy, academia, philanthropy, and other professional organizations, all appointed by the governor.

Amend RSA 125-P as inserted by section 2 of the bill by inserting after RSA 125-P:3 the following:

125-P:4 Review. The council shall be reviewed by the oversight committee on health and human services, established in RSA 126-A:13, every 2 years after the effective date of this chapter to determine the effectiveness of the council, including the makeup of the council and the scope of its duties.

Amend the bill by replacing section 4 with the following:

4 Oversight Committee on Health and Human Services; Duty Added. Amend RSA 126-A:15, I to read as follows:

I. The committee shall provide legislative oversight of and informational meetings on the programs, policies, and rules of the department of health and human services as brought to its attention by committee members, legislators, department personnel, or others. The committee's work may include, but is not limited to, analyzing the efficacy of selected programs, studying the characteristics of target populations, researching trends affecting program costs and participation, and reviewing alternate approaches to programmatic and administrative concerns. The committee shall monitor the on-going medicaid modernization plan. The committee shall monitor the recom-

mendations of the committee to study the HIV/AIDS service delivery (2005, 47) and determine whether such recommendations have been implemented. ***The committee shall review the council on the relationship between public health and the environment, established in RSA 125-P:1, every 2 years as provided in RSA 125-P:4.*** The committee shall provide informational meetings on such topics to the general court. The committee shall maintain communications with the department of health and human services, and any other departments, as necessary to accomplish its work.

AMENDED ANALYSIS

This bill establishes the council on the relationship between public health and the environment.

This bill requires the oversight committee on health and human services to review the council every 2 years to determine its effectiveness.

HB 727-FN, relative to certain disclosures during the certificate of need process. OUGHT TO PASS WITH AMENDMENT.

Rep. Charles E. McMahon for Health, Human Services and Elderly Affairs: This bill, as amended, proposes a 13 member commission to study current practices in the construction industry relative to employer provided health insurance. Among topics to be studied are why there has been a decrease in company-sponsored health insurance in the construction sector in New Hampshire and what impediments there might be in current policies that contribute to this situation. The goal is to work with stakeholders to identify the causal reasons and to propose reasonable courses of action to be considered in the future should they be found. Vote 19-0.

Amendment (0758h)

Amend the title of the bill by replacing it with the following:

AN ACT establishing a commission to study health insurance coverage in the construction industry.

Amend the bill by replacing all after the enacting clause with the following:

1 Commission Established. There is established a commission to study current practices in the construction industry relative to employer-provided health insurance.

2 Membership and Compensation.

I. The members of the commission shall be as follows:

(a) Two members of the house of representatives, appointed by the speaker of the house of representatives.

(b) One member of the senate, appointed by the president of the senate.

(c) The insurance commissioner, or designee.

(d) The director of the division of charitable trusts, department of justice, or designee.

(e) One member of the health facilities planning and review board, appointed by the board.

(f) A representative of the New Hampshire Local Government Center, appointed by the center.

(g) A representative of the New Hampshire Hospital Association, appointed by the association.

(h) A representative of the New Hampshire Citizens Health Initiative, appointed by such organization.

(i) Two members representing construction contractors, one representing union contractors and one representing non-union contractors, appointed by the speaker of the house of representatives and the president of the senate.

(j) Two members representing construction workers, one representing union workers and one representing non-union workers, appointed by the speaker of the house of representatives and the president of the senate.

II. Legislative members of the commission shall receive mileage at the legislative rate when attending to the duties of the commission.

3 Duties; Methods; Confidentiality.

I.(a) The commission shall study:

(1) Any decreased availability of employer-provided health insurance within the commercial construction sector, as reported by the Centers for Medicare and Medicaid Services, to determine any link between this decrease and the construction procurement policies or practices of public or publicly-funded or regulated entities.

(2) Review applicable ordinances, policies, rules and laws to determine if structural impediments exist.

(3) Whether an unlevel competitive bidding playing field exists within the public or publicly-regulated construction sector in relation to health insurance costs incurred by contractors.

(4) Policy models from other jurisdictions that encourage construction contractors in their efforts to provide worker's health insurance benefits without sacrificing competitiveness.

(5) Health care cost-shifting and uncompensated care issues related to this sector.

(b) In carrying out its duties, the commission shall consider:

(1) Existing procurement policies and procedures.

(2) Health care facility certificate of need policy.

(3) The community benefit requirements of RSA 7:32.

(4) The records or findings of the study committee established by 2005, 132.

(5) The work of the Citizens Health Initiative.

(6) Any other study related to health care access or health care cost-shifting within the state.

II. The commission shall accept testimony at properly-noticed meetings. The commission shall also seek input from the commissioners of the department of transportation, administrative services and other agencies as appropriate and any other person or entity the commission deems relevant to its study.

III. The commission shall strike any identifying data from the contracts and other records it reviews for the purposes of its study.

4 Chairperson; Quorum. The members of the commission shall elect a chairperson from among the members. The first meeting of the commission shall be called by the first-named house member. The first meeting of the commission shall be held within 45 days of the effective date of this section. Seven members of the commission shall constitute a quorum.

5 Report. The commission shall make an interim report with its findings, including an overview of the data, and any proposals for legislation on or before November 1, 2007, and a final report, including a final overview of the data, together with any proposals for legislation on November 3, 2008 to the speaker of the house of representatives, the president of the senate, the house clerk, the senate clerk, the governor, and the state library.

6 Effective Date. This act shall take effect upon its passage.

AMENDED ANALYSIS

This bill establishes a commission to study health insurance coverage in the construction industry.

HB 926-FN, relative to the regulation of pharmacies and pharmacists. **OUGHT TO PASS.**

Rep. Frank G. Case for Health, Human Services and Elderly Affairs: This bill makes several changes in the Pharmacy Practice Act. As such, it clarifies and updates the statute. The first reclassifies the retailers of medical gases and prescription devices as "Limited Retail Drug Distributors." Change #2 adds the word "certified" to the existing definition of a pharmacy technician. Change #3 is a new definition of "prescription device or legend device." Change #4 increases the pay to board members from \$50 to \$100 per day without increase to the state budget as the Board of Pharmacy is a 125% board. Change #5 adds the word "certified" to the section as applied to pharmacy technicians. This recognizes that "certified pharmacy technicians" have voluntarily achieved advanced training and certification. Change #6 amends the board's rulemaking authority by recognizing the "automated pharmacy systems" dispensing system to dispense unit dose medication as needed by patients in clinics, emergency rooms and nursing homes. Vote 17-0.

HB 69, relative to the solemnization of marriages. **INEXPEDIENT TO LEGISLATE.**

Rep. Bette R. Lasky for Judiciary: This bill raises an interesting concept with regard to civil and religious marriage. The committee felt this subject matter and its ramifications needs and deserves more careful study which we are sure will happen in the upcoming session. Vote 16-0.

HB 82, relative to communications outside meetings under the right-to-know law. **INEXPEDIENT TO LEGISLATE.**

Rep. Maureen C. Mooney for Judiciary: This bill relates to inserting a separate section within the Right to Know Law relative to communications outside of meetings. This is a very important issue with regard to a quorum of members of a public body communicating on matters of public concern. The committee modified the language of HB 82 and incorporated it into the adopted amendment to HB 377. Vote 16-0.

HB 149, allowing a purchaser at a mortgage foreclosure sale to terminate a tenancy of the property by a notice to quit. **INEXPEDIENT TO LEGISLATE.**

Rep. Maureen C. Mooney for Judiciary: The bill adds the term "purchaser at a mortgage foreclosure sale" as defined as "successful bidder." As such, it authorizes the purchaser to start eviction proceedings before the property closes and title transfers. HB 149 needs considerable work and study before a final form can be appropriately adopted. Vote 17-0.

HB 212, relative to possessory actions against tenants. **INEXPEDIENT TO LEGISLATE.**

Rep. Paul L. Hackel for Judiciary: This bill provides the procedure for a lessor, owner or purchaser at a mortgage foreclosure sale to terminate the tenancy or otherwise recover possession of a property. The committee voted Inexpedient to Legislate because tenants not involved in foreclosure sales can be evicted without adequate notice or procedures. Vote 17-0.

HB 244, relative to withholding or withdrawing of medically administered nutrition and hydration and hydration and developmentally disabled persons. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Stephen J. Shurtleff for Judiciary: This bill, and a companion bill, HB 370 would have made changes to RSA 137-J:10 IV (b). This law regulates the life-sustaining treatment for those with developmental disabilities. The input from the bill's sponsors, and advocates for those with developmental disabilities, showed this law to be archaic and outdated. The bill was amended to strike this section of RSA 137-J:10 from New Hampshire state law. Vote 17-0.

Amendment (0600h)

Amend the title of the bill by replacing it with the following:

AN ACT repealing a certain provision of law regarding advance directives and mentally incompetent or developmentally disabled persons.

Amend the bill by replacing section 1 with the following:

1 Repeal. RSA 137-J:10, IV(b), relative to withholding or withdrawing of medically administered nutrition and hydration from mentally incompetent or developmentally disabled persons, is repealed.

AMENDED ANALYSIS

This bill repeals a provision of the law regarding advance directives relating to withholding or withdrawing of medically administered nutrition and hydration or life-sustaining treatments from mentally incompetent or developmentally disabled persons.

HB 268, relative to cellular telephone number directories. **INEXPEDIENT TO LEGISLATE.**

Rep. Stephen J. Shurtleff for Judiciary: The committee heard testimony from the telecommunications industry as well as the Attorney General's office. The cellular telephone companies have never published a directory of cell phone numbers, nor do they plan to. Furthermore, the subject of this bill and the remedies sought, have been addressed in another bill currently before the House, HB 227. Vote 20-0.

HB 303, repealing the restrictions on Sunday dancing and repealing the prohibition on transporting moving picture films aboard passenger train cars. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Stephen J. Shurtleff for Judiciary: This bill corrects an antiquated "blue law" that prohibited dancing on Sundays and the transportation of picture films on trains. Vote 17-1.

Amendment (0839h)

Amend the title of the bill by replacing it with the following:

AN ACT allowing Sunday dancing and repealing the prohibition on transporting moving picture films aboard passenger train cars.

Amend the bill by replacing all after the enacting clause with the following:

1 Sunday Dancing Permitted. Amend RSA 332-D:6 to read as follows:

332-D:6 Sunday Dancing Permitted. Notwithstanding the provisions of RSA 332-D:4, public dancing shall be permitted [after 2 p.m.] on Sundays [in hotels and restaurants licensed under RSA, 178:21, H(a) and (b), and in ballrooms licensed under RSA 178:22, V(c), provided that such dancing shall have the approval of the state liquor commission].

2 Repeal. RSA 158:15, relative to transportation of picture films in the passenger cabin of trains, is repealed.

3 Effective Date. This act shall take effect 60 days after its passage.

AMENDED ANALYSIS

This bill allows dancing on Sunday and repeals the prohibition on transporting moving picture films aboard passenger train cars.

HB 370, relative to withholding or withdrawal of life-sustaining treatment. **INEXPEDIENT TO LEGISLATE.**

Rep. Stephen J. Shurtleff for Judiciary: This bill sought to make a change to RSA 137-J:10, IV (b), which deals with life-sustaining treatment. The issues raised by this bill were addressed by the committee with the passage of HB 244 as amended. With the concurrence of the sponsor of HB 370, the committee voted unanimously to vote this bill Inexpedient to Legislate. Vote 17-0.

HB 394-FN, relative to notice to defendants in small claims actions. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Paul L. Hackel for Judiciary: This bill requires first class mail notice to defendants in small claims action. The committee supports the bill since it reduces the cost of certified mail, reduces the labor of verifying return receipt of certified mail and eliminates the inconvenience of receiving certified mail. At the same time, procedures are in place to insure notice is received since if no response in writing is received in 30 days, the court shall direct the plaintiff to complete service on the defendant at the expense of the plaintiff. Vote 19-0.

Amendment (0610h)

Amend the bill by inserting after section 1 the following and renumbering the original section 2 to read as 3:

2 Report Required. On or before July 1, 2009, the administrative judge of the district court shall submit a report on the district courts' experience with the notice requirement under RSA 503:6 as inserted by section 1 of this act to the governor, the speaker of the house of representatives, the senate president, the chairpersons of the house and senate judiciary committees, and the chief justice of the supreme court.

AMENDED ANALYSIS

This bill requires first class mail notice to defendants in small claims actions. The bill also requires the administrative judge of the district court to make a report on the district courts' experience with this notice requirement.

HB 621-FN, relative to speedy trial time frames. **INEXPEDIENT TO LEGISLATE.**

Rep. Stephen J. Shurtleff for Judiciary: This bill as presented would have required all persons charged with a crime, except capital murder, be brought to trial within 120 days. It was pointed out to the bill's sponsor that some individuals are not arrested until quite some time after the alleged offense. The sponsor said that his intent was that the 120-day period would not begin until after the defendant's arraignment. The testimony before the committee was that there are currently no unnecessary delays in criminal prosecutions; also, that this bill would have caused a hardship on both prosecutors and defense attorneys. Vote 17-0.

HB 854-L, relative to remedies under the right-to-know law. **INEXPEDIENT TO LEGISLATE.**

Rep. Maureen C. Mooney for Judiciary: This bill relates to the remedies under the Right to Know law. RSA 91-A:8 already addresses remedies available for violations of the Right to Know law. Further amendments to this section of the current law require careful study and consideration prior to adoption. HB 854 is too premature without tedious and appropriate consideration at this time. Vote 18-0.

HB 909, relative to oaths required of public officers. **INEXPEDIENT TO LEGISLATE.**

Rep. Donald R. Buxton for Judiciary: This bill provided for removal from office for violation of an oath of office by governor and council or the General Court. The governor and council cannot remove a member of the General Court or their employees, but the General Court may remove governor and council from office. This bill is in violation of the New Hampshire Constitution. Vote 16-0.

HB 123, relative to the time required between mandatory shifts or other work periods. **INEXPEDIENT TO LEGISLATE.**

Rep. William J. Infantine for Labor, Industrial and Rehabilitative Services: The committee believes that certain occupations that deal with the public safety should have a required time off between shifts. However, this bill requires a ten hour rest period between shifts for all employees regardless of industry or occupation. There was considerable opposition to this bill by many groups in the service and hospitality industry who would be severely burdened by this legislation. There was no indication that there were any serious problems that exist in the workplace that necessitates this legislation. Vote 14-0.

HB 129, relative to outsourcing of jobs. **INEXPEDIENT TO LEGISLATE.**

Rep. Jason M. Bedrick for Labor, Industrial and Rehabilitative Services: This bill seeks to exclude companies that have outsourced jobs from New Hampshire to foreign countries from state contracts and economic aid. While well intentioned, the bill contained a number of serious flaws. No provision was made for exceptions when only one company can provide the state with a given service. The requirements on the Labor Department were too burdensome. The fines for non-compliance were unreasonable. One provision might exclude a company with a great number of New Hampshire employees from state contracts while allowing companies with fewer New Hampshire employees that outsourced up to 49 New Hampshire jobs. Vote 14-1.

HB 336, requiring notice of the classifications of employee and independent contractor. **OUGHT TO PASS.**

Rep. Mary J. Gorman for Labor, Industrial and Rehabilitative Services: This bill requires that information regarding classification of workers as employees or independent contractors be posted as part of the "Know Your Rights" notice in every place of employment. Easy public display of the distinct criteria for defining employee and independent contractor eliminates confusion in the work place. Vote 16-0.

HB 337, relative to penalties for failure to have workers' compensation coverage. **OUGHT TO PASS WITH AMENDMENT.**

Rep. John K. Knowles for Labor, Industrial and Rehabilitative Services: This bill changes the starting date for penalties on employers for not carrying workers' compensation insurance from the date the Labor Commissioner notes the violation to the date the violation actually began (capped at one year). Fines are deposited in a workers' compensation fraud fund, which is established by this bill. A similar change is made to penalties on insurers that do not file timely notice of changes or lapses in workers' compensation coverage. Vote 15-1.

Amendment (0632h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to penalties for failure to have workers' compensation coverage and continually appropriating a special fund.

Amend the bill by replacing all after the enacting clause with the following:

1 Liability of Employer Failing to Comply; Penalty Assessment Period Changed; Fund Established. RSA 281-A:7, I is repealed and reenacted to read as follows:

I.(a)(1) An employer subject to this chapter who fails without sufficient cause as determined by the commissioner to comply with the provisions of RSA 281-A:5 by not securing payment of compensation shall be assessed a civil penalty of up to \$2,500; in addition, such an employer shall be assessed a civil penalty of \$100 per employee for each day of noncompliance. The penalties shall be assessed from the first day of the infraction not to exceed one year. Notwithstanding any provision of law to the contrary, the chief executive officer, chief financial officer, and the manager of limited liability companies shall be held personally liable for the payment of penalties.

(2) There is hereby established a nonlapsing workers' compensation fraud fund in the office of the state treasurer. All funds collected under this subparagraph shall be deposited in such fund and continually appropriated to the commissioner of labor to be used for investigations and compliance activities required under this subparagraph and related sections pertaining to labor and insurance law.

(b) An insurance carrier which insures an employer and fails to file with the commissioner a notice of coverage within a reasonable period of time as prescribed by rule shall be assessed a civil penalty of \$50 for each day of noncompliance. The commissioner shall deposit all moneys collected under this subparagraph with the state treasurer for deposit into the general fund.

2 Administration Fund; Reference Change. Amend RSA 281-A:59, IV to read as follows:

IV. The civil penalties collected under RSA 281-A:7, *I(b)*, 23, 24, 42, 43, and 53 shall be forwarded to the state treasurer and deposited in the general fund.

3 New Subparagraph; Workers' Compensation Fraud Fund. Amend RSA 6:12, I by inserting after subparagraph (252) the following new subparagraph:

(253) Moneys deposited in the workers' compensation fraud fund established in RSA 281-A:7, I(a)(2).

4 Effective Date. This act shall take effect 30 days after its passage.

AMENDED ANALYSIS

This bill:

I. Changes the penalty assessment period for an employer who is in noncompliance with the workers' compensation law.

II. Changes the amount of the civil penalty assessed on an insurance carrier for failure to file notice of coverage.

III. Establishes a special fund into which some of the civil penalties are to be deposited. Referred to the Committee on Ways and Means.

HB 342-FN, relative to workers' compensation coverage for certain independent contractors. **INEXPEDIENT TO LEGISLATE.**

Rep. Randolph N. S. Holden for Labor, Industrial and Rehabilitative Services: The intent of this bill was to require some independent contractors to have workers' compensation coverage that covers them specifically. There are other bills in the House and Senate that would address this issue and the sponsor requested the bill be voted Inexpedient to Legislate. Vote 14-0.

HB 366-FN, relative to work on Thanksgiving and Christmas Day. **INEXPEDIENT TO LEGISLATE.**

Rep. Sally H. Kelly for Labor, Industrial and Rehabilitative Services: It was agreed that matters such as these are best served by an agreement between employer and employee rather than unnecessary legislation. Vote 15-0.

HB 533, relative to Occupational Safety and Health Administration certification requirements for state contracts. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Jeffrey P. Goley for Labor, Industrial and Rehabilitative Services: This bill as amended requires that any person signing a contract to work on any building or public work project by a state agency, municipality or instrumentality thereof, and costing \$100,000 or more, shall have an OSHA 10 hour construction safety program for their on site employees, and all employees are required to complete the program prior to the beginning of work. Vote 14-1.

Amendment (0688h)

Amend the bill by replacing all after the enacting clause with the following:

1 New Section; Occupational Safety and Health Administration Certification. Amend RSA 277 by inserting after section 5 the following new section:

277:5-a Occupational Safety and Health Administration Certification.

I. Any person signing a contract to work on a construction, reconstruction, alteration, remodeling, installation, demolition, maintenance, or repair of any public work or building by a state agency, municipality, or instrumentality thereof, and with a total project cost of \$100,000 or more, shall have an Occupational Safety and Health Administration (OSHA) 10-hour construction safety program for their on-site employees. All employees are required to complete the program prior to beginning work. The training program shall utilize an OSHA approved curriculum. Graduates shall receive a card from OSHA certifying the successful completion of the training program. This section shall apply to the construction, reconstruction, alteration, remodeling, installation, demolition, maintenance, or repair of any public work or building paid for in whole or in part with state funds.

II. Any employee required to complete the OSHA 10-hour construction safety program under this section who has not completed the program shall be subject to removal from the worksite if

the employee does not provide documentation of having completed such program by the fifteenth day after the date the employee is found to be in noncompliance. Proof of such documentation provided by the employer shall constitute compliance with this section. The labor commissioner or commissioner's designee shall enforce this section.

III. The labor commissioner shall adopt rules under RSA 541-A relative to implementation and enforcement of this section. The commissioner may also assess a civil penalty of up to \$2,500; in addition, such an employer shall be assessed a civil penalty of \$100 per employee for each day of noncompliance. All funds collected under this section shall be deposited into the workers' compensation safety inspection fund established in RSA 281-A:64, IX. The labor commissioner shall appoint as many individuals as necessary to carry out the department's responsibilities under this section.

IV. The following individuals are exempt from the requirements of the OSHA 10-hour construction safety program:

- (a) Law enforcement officers involved with traffic control or jobsite security.
- (b) Flagging personnel who have completed the training required by the department of transportation.
- (c) All relevant federal, state, and municipal government employees and inspectors.
- (d) All individuals who are not considered to be on the site of work under the federal Davis-Bacon Act, including, but not limited to, construction and non-construction delivery personnel and non-trade personnel.

2 Safety Enhancement Program. Amend RSA 281-A:67, I to read:

I. There is hereby established a safety enhancement program to be administered by the commissioner. Such program shall include regional training and safety seminars open to all interested *employees and* employers.

3 Applicability. This act shall apply to all contracts entered into on or after July 1, 2008.

4 Effective Date. This act shall take effect 60 days after its passage.

AMENDED ANALYSIS

This bill requires bidders on state and local building and public works contracts over \$100,000 to certify that the employees have completed an Occupational Safety and Health Administration construction safety program.

HB 605, relative to employment eligibility verification by employers. **INEXPEDIENT TO LEGISLATE.**

Rep. Larry Converse for Labor, Industrial and Rehabilitative Services: This bill requires employers to participate in the Basic Verification Pilot Program regarding employment operated by the U.S. Department of Homeland Security. The National Immigration Law Center identified some of the problems with this Pilot Program. While touted as the vehicle to curb unauthorized employment, information on individuals is often wrong. In addition to the weaknesses of the core program, employers could face litigation for discriminatory use of the Basic Pilot Program. Vote 16-0.

HB 611, relative to payment of wages by automated pay card. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Randolph N. S. Holden for Labor, Industrial and Rehabilitative Services: The committee felt employees should not have to pay a fee to cash their paychecks. The bill as amended is a compromise among the Attorney General's office, the bank institutions, the Labor Department and the sponsor. Vote 14-0.

Amendment (0809h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to payment of wages by automated pay card or cash voucher.

Amend the bill by replacing all after the enacting clause with the following:

1 New Paragraphs; Definitions. Amend RSA 275:42 by inserting after paragraph VII the following new paragraphs:

VIII. "Payroll card" means an access device to access funds from the employee's payroll card account.

IX. "Payroll card account" means an account directly or indirectly established by an employer on behalf of an employee to which electronic fund transfers of the employee's wages, salary, or other employee compensation are made on a recurring basis. A payroll account does not include

a savings account or a demand deposit account at a financial institution and shall conform to the definition in Regulation E (12 CFR 205 et seq, as amended). Disclosures, periodic statements or alternatives to periodic statements; notices; error resolution procedures; and limitations on liability, with respect to payroll cards, shall be in accordance with the federal Electronic Fund Transfer Act (15 U.S.C. section 1693 et seq.) and its implementing regulation, Regulation E (12 CFR 205 et seq, as amended).

2 Weekly. Amend RSA 275:43 to read as follows:

275:43 Weekly.

I. Every employer shall pay all wages due to employees within 8 days including Sunday after expiration of the week in which the work is performed, except when permitted to pay wages less frequently as authorized by the commissioner pursuant to paragraph II, on regular paydays designated in advance by the employer **and at no cost to the employee**:

(a) In lawful money of the United States[;];

(b) By electronic fund transfer at no cost to the employee[;];

(c) By direct deposit with written authorization of the employee to banks of the employee's choice[~~;~~~~or~~];

(d) By a payroll card provided that the employer shall provide to the employee at least one free means to withdraw up to and including the full amount of the employee balance in the employee's payroll card or payroll card account during each pay period at a financial institution convenient to the place of employment. None of the employer's costs associated with a payroll card or payroll card account shall be passed on to the employee;

(e) By a cash voucher redeemable only at a cash dispensing machine which does not reduce the face value of the voucher; or

[~~(d)~~] (f) With checks on [~~banks~~] **a financial institution** convenient to the place of employment where suitable arrangements are made for the cashing of such checks by employees for the full amount of the wages due; provided, however, that if an employer elects to pay employees as specified in subparagraphs (b) [~~or~~], (c), *(d), or (e)*, the employer shall offer employees the option of being paid as specified in *this* subparagraph [~~(d)~~], and further provided that all wages in the nature of health and welfare fund or pension fund contributions required pursuant to a health and welfare fund trust agreement, pension fund trust agreement, collective bargaining agreement, or other agreement[;] adopted for the benefit of employees and agreed to by the employer shall be paid by every such employer within 30 days of the date of demand for such payment, the payment to be made to the administrator or other designated official of the applicable health and welfare or pension trust fund.

II. If an employer offers its employees the option of receiving wages by a payroll card, the employer shall:

(a) Provide to the employee written disclosure in plain language of all the employee's wage payment options. The written disclosure shall state the terms and conditions of the payroll card account option, including, but not limited to, the requirements set forth in this section and a complete itemized list of all known fees that may be deducted from the employee's payroll card account by the employer or card issuer. The disclosure shall also state whether third parties may assess transaction fees in addition to the fees assessed by the employee's payroll card issuer or issuers. In no event shall the employer provide payment of wages to a payroll card that has an expiration date, unless the employer agrees to provide a replacement payroll card before the expiration date at no cost to the employee.

(b) Initiate payment of wages to an employee by electronic fund transfer to a payroll card account only after the employee has voluntarily consented in writing to that method of payment. Consent to payment of wages by electronic fund transfer to a payroll card account shall not be a condition of hire or of continued employment. The written consent signed by the employee shall include the terms and conditions of the payroll card account option.

(c) Provide written notice of any change to any of the terms and conditions of the payroll card or payroll card account, including but not limited to an itemized list of all fees that may have changed, and obtain written assent from the employee that the employee voluntarily consents to receive wages to a payroll card or payroll card account subject to the changes. The employer shall be responsible for any increase in fees charged to the employee before the employer provides written notice of such changes to the employee.

(d) Provide the employee the option to discontinue receipt of wages by a payroll card or payroll card account at any time, without penalty to the employee.

~~[I-a:]~~ **III.** If a subcontractor who is responsible for making health and welfare fund or pension fund contributions fails to make such contributions within the 30-day requirement of paragraph I, the person designated to receive such contributions shall, within 15 days of the date the contributions became due, notify in writing the labor commissioner that the contributions are overdue. The labor commissioner shall notify the prime or general contractor within 15 days from the date of receipt of such notice that such contributions are overdue. The department of labor may pursue the general or prime contractor for such contributions only after all reasonable efforts have been made to secure the contributions from the subcontractor.

~~[H:]~~ **IV.** The commissioner may, upon written petition showing good and sufficient reason, permit payment of wages less frequently than weekly, except that it shall be at least once each calendar month. In all instances, payment shall be made regularly on a predesignated date. The commissioner may prescribe the terms and conditions of such permission, and limit the duration thereof.

~~[HH:]~~ **V.** Vacation pay, severance pay, personal days, holiday pay, sick pay and payment of employee expenses, when such benefits are a matter of employment practice or policy, or both, shall be considered wages pursuant to RSA 275:42, III, when due.

~~[HV:]~~ **VI.** Nothing in this section shall prevent an employer from compensating an employee on a draw against commission basis as defined in RSA 275:42, VII.

~~[V:]~~ **VII.** This section shall not be construed to preclude the use of compensatory time off as compensation.

(a) This paragraph applies to:

(1) Governmental entities.

(2) Public sector employees who are under a collective bargaining employment agreement or, if not negotiated through a union or other designated employee representatives, that the agreement or understanding must be reached between employer and employee before the performance of any work.

(b)(1) When the employee requests the use of accrued compensatory time, the request shall be honored within a reasonable period of time unless to do so would unduly disrupt the operation of the employing agency. Mere inconvenience to the employer is an insufficient basis for denial of a request for compensatory time off.

(2) The employer shall not have a policy of requiring the use of compensatory time within a certain period or else the employee will lose it.

(3) Upon termination of employment for any reason, an employee shall be paid for unused compensatory time at the final regular rate received by such employee.

(c)(1) Limitations concerning the ceiling of accrual of compensatory time are as follows:

(A) Public safety, emergency response, or seasonal activity employees may accrue no more than 480 hours of compensatory time for 320 actual overtime hours worked. This limitation shall not apply to office personnel or civilian employees who may perform public safety activities on an emergency basis, even if such employees spend substantially all of their time in a particular work week engaged in such activities.

(B) Other public sector employees may accrue no more than 240 hours of compensatory time for 160 hours of actual time worked.

(2) If an employee has accrued more than the applicable ceiling for compensatory time, such employee shall be paid overtime pay at time and one half of the employee's regular rate of pay on the designated pay day.

(d) For the purposes of this paragraph:

(1) "Governmental entity" means any branch, department, commission, bureau, agency, or agent of the government of this state or a political subdivision of this state.

(2) "Public safety activities" includes law enforcement, firefighting, or related duties.

(3) "Emergency response activities" includes dispatching of emergency vehicles and personnel, rescue work and ambulance services.

(4) "Seasonal activity" includes duties performed by employees assigned to work during periods of significantly increased demands on a regular and recurring basis and during this period protected overtime may result in the accumulation of more than 240 compensatory time hours. These periods of short but intense activity shall not qualify as seasonal.

(e) Nothing in this paragraph modifies or affects any federal law regarding compensatory time off including the Fair Labor Standards Act of 1938, 29 USC section 207. The purpose

of this paragraph is to make compensatory time off available as set forth above under New Hampshire law and not to limit already existing rights and protection. An employer shall provide compensatory time off under whichever statutory provision provides greater rights to employees.

3 Effective Date. This act shall take effect 60 days after its passage.

AMENDED ANALYSIS

This bill permits an employer to use automated payroll cards or cash vouchers provided the employee can withdraw his or her net pay from a bank or automated teller machine location convenient to the place of employment without any cost.

This bill is a request of the department of labor.

HB 720, establishing a council on families and employment. **INEXPEDIENT TO LEGISLATE.** Rep. Jason M. Bedrick for Labor, Industrial and Rehabilitative Services: The issues this bill seeks to address are covered in HB 306 which established a task force on work and family and was passed by the House. Also, there is no sunset provision in this bill and some committee members were concerned that this council would include the commission on the status of women, but not the commission on the status of men. Vote 13-2.

HB 808, relative to employees' rights to bring court action against employers. **INEXPEDIENT TO LEGISLATE.**

Rep. Mary J. Gorman for Labor, Industrial and Rehabilitative Services: The purpose of this bill is to allow employees to bring civil actions against their employers. This is already being done. Employees can seek a redress of grievances from the Labor Department or through the court system. Therefore, the committee felt HB 808 is unnecessary. Vote 15-0.

HB 817, relative to the workers' compensation compliance statement. **INEXPEDIENT TO LEGISLATE.**

Rep. John K. Knowles for Labor, Industrial and Rehabilitative Services: The principal sponsor of this bill requested that it be withdrawn and that the committee vote it Inexpedient to Legislate since its intent is similar to Senate Bill 154. Vote 14-1.

HB 833, relative to workers employed within the United States in connection with state contracts. **OUGHT TO PASS WITH AMENDMENT.**

Rep. William J. Infantine for Labor, Industrial and Rehabilitative Services: This bill dealt with outsourcing of jobs and the issue of expending funds authorized by the General Court within the United States. The state currently employs Canadian contractors and international financial institutions and the committee felt that the bill should be amended to a study committee so not to adversely affect how the state operates. The study committee will focus on outsourcing state contracts in an effort to keep funds within the country whenever possible without harming the state and its ability to operate. Vote 15-0.

Amendment (0877h)

Amend the title of the bill by replacing it with the following:

AN ACT establishing a committee to study the outsourcing of jobs involving state contracts.

Amend the bill by replacing all after the enacting clause with the following:

1 Committee Established. There is established a committee to study the outsourcing of jobs involving state contracts.

2 Membership and Compensation.

I. The members of the committee shall be as follows:

(a) Three members of the house of representatives, appointed by the speaker of the house of representatives.

(b) Three members of the senate, appointed by the president of the senate.

II. Members of the committee shall receive mileage at the legislative rate when attending to the duties of the committee.

3 Duties. The committee shall:

I. Study the outsourcing of jobs involving state contracts.

II. Solicit input from the departments of transportation, administrative services, fish and game, labor, and environmental services and any other person or entity the committee deems relevant to its study.

4 Chairperson; Quorum. The members of the study committee shall elect a chairperson from among the members. The first meeting of the committee shall be called by the first-named house member. The first meeting of the committee shall be held within 45 days of the effective date of this section. Four members of the committee shall constitute a quorum.

5 Report. The committee shall report its findings and any recommendations for proposed legislation to the speaker of the house of representatives, the president of the senate, the house clerk, the senate clerk, the governor, and the state library on or before November 1, 2007.

6 Effective Date. This act shall take effect upon its passage.

AMENDED ANALYSIS

This bill establishes a committee to study the outsourcing of jobs involving state contracts.

HB 920, establishing a worker adjustment and retraining notification requirement. **INEXPEDIENT TO LEGISLATE.**

Rep. Mary Ann Knowles for Labor, Industrial and Rehabilitative Services: The principal sponsor of this bill requested that this bill be pulled and that the committee vote it Inexpedient to Legislate, due to insufficient information. Vote 15-0.

HB 223-FN, requiring the general court to hold sessions in the evening or on Saturday. **INEXPEDIENT TO LEGISLATE.**

Rep. Karen K. Hutchinson for Legislative Administration: Based on the number of legislative session days in 2005, we would have to schedule session every Saturday from January through July. Likewise, if we took our current committee meeting schedule (9am-12pm and 1 pm to 4 pm Tuesday through Thursday), and rescheduled for evening committee meetings, then we would have to schedule committee meetings Monday through Friday from 6pm to 11 pm every week through July. Thus this would not make it any easier for the public to run for legislative office. Vote 10-0.

HB 523, relative to lobbyist registration and statements. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Elizabeth S. Hager for Legislative Administration: This bill as amended clarifies the new ethics/lobbying registration and reporting bill which was enacted last year. It clarifies the language, changes the reporting from monthly to quarterly and removes the need to have each report notarized. The committee worked hard with the Attorney General's Office to make sure the language is clear and enforceable. Vote 10-0.

Amendment (0806h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to lobbyist registration and statements, and regulation of volunteer public service.

Amend the bill by replacing all after the enacting clause with the following:

1 Lobbyist Registration; Registration Required. RSA 15:1, I is repealed and reenacted to read as follows:

I.(a) The following persons shall register as lobbyists with the secretary of state:

(1) Any person who works as an independent contractor or who provides services for a fee for another to represent the other for the purposes specified in paragraph II including, but not limited to, an attorney, or a legislative or government relations representative;

(2) Any person who is an employee of any other person or employer, and who works in a representative capacity exclusively for the purposes specified in paragraph II; and

(3) Any person who is an employee of any other person or employer, who is employed for purposes in addition to or other than the purposes specified in paragraph II, and who spends more than 200 hours in a calendar year working in a representative capacity for the purposes specified in paragraph II.

(b) Each person described in subparagraphs (a)(1) and (2) shall register prior to engaging in the activities specified in paragraph II. Each person described in subparagraph (a)(3) shall register no later than one week following completion of 200 hours of such work. Each registration shall report the existence of a relationship between a single client and either a single lobbyist or a partnership, firm, or corporation with one or more partners, members, or employees of a firm acting as a lobbyist.

2 Lobbying; Registration Required. Amend RSA 15:1, II(b) to read as follows:

(b) To promote or oppose, directly or indirectly, any action by the governor[;] ~~or governor and council[; or any state agency, as defined in RSA 15-A:2],~~ where such action concerns legislation or contracts pending or proposed before the general court, any pending or proposed administrative rule, or the procurement of goods or services that are being or may be purchased by the state, subject to the exclusions in paragraphs III and IV.

3 Expiration Date. Amend RSA 15:1, IV to read as follows:

IV. All registrations required under this section shall expire on December [±] **31**.

4 New Paragraph; Exclusions From Requirements. Amend RSA 15:1 by inserting after paragraph IV the following new paragraph:

V. The following communications are excluded from the regulation imposed by this chapter and shall not be considered in a determination of whether a person is required to register and report as a lobbyist:

(a) Public testimony before a legislative committee or sub-committee;

(b) Public testimony before any entity subject to RSA 91-A, the right-to-know law;

(c) A written document filed in the course of a public proceeding or any other communication that is made on the record in a public proceeding;

(d) Communication made by a public official acting in the public official's official capacity;

(e) Communication made by a representative of a media organization if the purpose of the communication is gathering or disseminating news and information to the public;

(f) Communication made in a speech, article, publication, or other material that is distributed and made available to the public, or through radio, television, cable television, the internet, or other medium of mass communication; and

(g) Communication made in writing which becomes a public record subject to the provisions of RSA 91-A, the right-to-know law, provided in response to a written request by a legislative or executive branch official.

5 Lobbyist Statements. Amend RSA 15:6 to read as follows:

15:6 Statements.

I. Each lobbyist shall file with the secretary of state itemized statements under oath of:

(a) All fees received from any lobbying client that are related, directly or indirectly, to lobbying, such as public advocacy, government relations, or public relations services including research, monitoring legislation, and related legal work.

(b) All expenditures made from lobbying fees, including by whom paid or to whom charged.

(c) Any ~~[honorarium or]~~ expense reimbursement, as defined in RSA 15-B, or political contribution, as defined in RSA 664, made by the lobbyist in his or her professional ~~[or personal]~~ capacity, on behalf of the lobbyist, the partnership, firm, or corporation or by the lobbyist on behalf of the client or employer ~~[or by a family member of the lobbyist]~~. The statements shall be open to public inspection. ~~[For the purposes of this chapter, "family member" shall mean any person related to and living in the same domicile as the lobbyist, who shares a common economic interest in the expenses of daily living, including, but not limited to, a spouse, child, or parents.]~~

II. Lobbyists shall file statements no later than the second Friday of each ~~[month]~~ **January, April, July, and October** covering all fees received and expenditures~~[, contributions, honorariums,]~~ or expense reimbursements made ~~[during the previous month,]~~ **since the last required filing,** from fees received at any time from a lobbying client or employer or from funds otherwise provided by the lobbyist, partnership, firm, or corporation, or from the client or employer.

III. In this chapter "value" means the amount at which property or services would change hands between a willing buyer and a willing seller when neither is under any compulsion to buy or sell and both have reasonable knowledge of the relevant facts.

~~[IV. A lobbyist, in his or her professional or personal capacity, or a family member of a lobbyist making a contribution, honorarium, or expense reimbursement, in a form other than cash, check or negotiable instrument, to a person with a duty to report that contribution, honorarium, or expense reimbursement pursuant to RSA 15-B or RSA 664 shall provide the recipient with a written statement of the value of the contribution, honorarium, or expense reimbursement if the value is different than any price or value printed on the contribution, honorarium, or expense reimbursement or if the contribution, honorarium, or expense reimbursement does not have a price affixed to it.]~~

~~[V.]~~ IV. The lobbyist statement shall be in the form prescribed by the secretary of state, may be in paper or electronic form, and shall include at a minimum:

(a) The full name of each lobbyist covered by the report.

(b) The name of the lobbyist partnership, firm, or corporation, if any.

(c) The business address and telephone number for the lobbyist, partnership, firm, or corporation.

(d) For each lobbying client, the full name and business address of the client, the scope of the representation or lobbyist services being paid for, the gross amount of all fees received from that client, not reduced by any expenses, that are related, directly or indirectly, to lobbying, such as public advocacy, government relations, or public relations services including research, monitoring legislation, and related legal work, a statement of the aggregate total of fees received that are related, directly or indirectly, to lobbying services during the calendar year, and a statement of any fee payment due, but not yet paid.

(e) For each ~~[honorary]~~ expense reimbursement made, that is reportable pursuant to RSA 15-B:

(1) The name of the client on whose behalf the expense reimbursement ~~[or honorary]~~ was made, if any.

(2) The name of the person receiving the ~~[honorary]~~ expense reimbursement.

(3) A brief description of the event to which the ~~[honorary]~~ expense reimbursement relates.

(4) The value of the ~~[honorary]~~ expense reimbursement.

(f) ~~[For each political contribution made that is reportable pursuant to RSA 664:~~

~~(1) The name of the candidate;~~

~~(2) The office the candidate is seeking;~~

~~(3) The value of the contribution;~~

~~(4) If the contribution is an in-kind contribution, a brief description of the contribution;~~

~~(g)~~ For all expenditures for salaries, benefits, support staff, and office expenses, related directly or indirectly to lobbying, a statement of the total aggregate expenses for salaries, support staff, and office expenses related directly or indirectly to lobbying shall satisfy the requirement that an itemized statement of these expenses be filed.

~~[(h)]~~ (g) The following statement followed by a line for each person filing the form to sign and date the form: "I have read RSA 15~~[-RSA 15-B, and RSA 664]~~ and hereby swear or affirm that the foregoing information is true and complete to the best of my knowledge and belief." ~~[This statement shall be made under oath before a notary public or justice of the peace.]~~

~~[V.]~~ V. The secretary of state shall maintain the statements required by this section for 6 years from the date of filing, after which time the statements may be destroyed. The public information on the forms shall be available to the public in the form of a photocopy or an electronic record. The secretary of state shall, as soon as is practical, implement an electronic record keeping system that makes lobbyist registration forms and fee and expense reports available to the public through the internet.

6 Gifts; Exclusion From Definition. Amend RSA 15-B:2, V(c)(5) and (6) to read as follows:

(5) Objects *or services* which primarily serve an informational purpose provided in the ordinary course of business, such as reports, books, maps, or charts.

(6) Money in any form, an object, or an intangible thing *or service* of economic value, where the donor's act of giving is purely private and personal in nature and the money, object, or intangible thing *or service* of economic value would have been given and received even if the person were not an elected official, public official, public employee, constitutional official, or legislative employee.

7 New Subparagraph; Definition of Gift; Exclusion Added. Amend RSA 15-B:2, V(c) by inserting after subparagraph (12) the following new subparagraph:

(13) Information or advice concerning any state law or rule, any legislation pending or proposed before the general court, or any pending or proposed administrative rule.

8 Executive Branch; Code of Ethics; Volunteer Service. RSA 21-G:25 is repealed and reenacted to read as follows:

21-G:25 Ethical Standards for Volunteer Public Service. Volunteers shall not use public service for an executive branch agency, directly or indirectly, and whether for themselves or for their employers or business associates:

I. To obtain economic benefit; or

II. To advance personal or pecuniary interests through non-public communications with executive branch officials for the purpose of influencing the performance of their duties.

9 Effective Date. This act shall take effect 60 days after its passage.

AMENDED ANALYSIS

This bill changes the registration requirements for lobbyists and the frequency and content of the statements required to be filed. The bill also repeals the restriction on simultaneous employment and public service.

HB 715, combining the state heritage collections committee and the joint legislative historical committee. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Michael J. Reuschel for Legislative Administration: The committee feels that studying combining the two current committees would help resolve questions of purview and also would help in establishing and clarifying policies and procedures so that our important historical assets are preserved and protected for future generations. Vote 10-0.

Amendment (0324h)

Amend the title of the bill by replacing it with the following:

AN ACT establishing a committee to study the state heritage collections committee and the joint legislative historical committee.

Amend the bill by replacing all after the enacting clause with the following:

1 Committee Established. There is established a committee to study the state heritage collections committee and the joint legislative historical committee.

2 Membership and Compensation.

I. The members of the committee shall be as follows:

(a) Three members of the house of representatives, appointed by the speaker of the house of representatives.

(b) Three members of the senate, appointed by the president of the senate.

II. Members of the committee shall receive mileage at the legislative rate when attending to the duties of the committee.

3 Duties. The committee shall review the existing policies and purview of the state heritage collections committee, established in RSA 227-C:18, and the joint legislative historical committee, established in RSA 17-I:1, to determine whether the committees may be combined into one historical heritage committee. The committee shall solicit information and testimony from members of the state heritage collections committee, members of the joint legislative historical committee, and such additional persons and organizations as may be helpful to the committee in the performance of its study.

4 Chairperson; Quorum. The members of the study committee shall elect a chairperson from among the members. The first meeting of the committee shall be called by the first-named house member. The first meeting of the committee shall be held within 45 days of the effective date of this section. Four members of the committee shall constitute a quorum.

5 Report. The committee shall report its findings and any recommendations for proposed legislation to the speaker of the house of representatives, the president of the senate, the house clerk, the senate clerk, the governor, and the state library on or before November 1, 2007.

6 Effective Date. This act shall take effect upon its passage.

AMENDED ANALYSIS

This bill establishes a committee to study the possibility of combining the state heritage collections committee and the joint legislative historical committee.

HB 343, relative to religious organization property tax exemption requirements. **INEXPEDIENT TO LEGISLATE.**

Rep. Timothy Butterworth for Municipal and County Government: The relief requested – excusing tax exempt religious organizations from filing the BTLA form 4-9 annually – seemed minor compared to the benefits received from the taxpayers of the state. It also seemed that absence of this report would inculcate the organization from prosecution if the town ever tried to reclaim unpaid taxes through the courts. Vote 14-0.

HB 379, relative to the adoption, revision, and amendment of municipal charters. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Betsey L. Patten for Municipal and County Government: RSA 49-B covers the charter process for municipalities. Currently the time line and requirements are so complicated that few

municipalities want to get into trying to make a change in their form of government. The committee has been studying the process for at least three years. The amendment removed how the names of the candidates would be placed on the ballot. The bill streamlines the charter process by dividing the chapter into the subdivisions of Adoption of Municipal Charter, Revision of Municipal Charter, Amendment of Municipal Charter and Provisions Applicable to All Charter Actions. The committee believes that this revised statute will enable local municipalities to have clearer guidelines to take them through to another form of government if they so choose. Vote 15-0.

Amendment (0719h)

Amend RSA 49-B:3, V as inserted by section 1 of the bill by replacing it with the following:

V. Immediately after the foregoing question, the names of the candidates for the charter commission shall be presented in accordance with RSA 49-B:4, I, together with a statement in substance as follows:

"If a majority of voters answer 'yes' to the preceding question, a charter commission shall be elected from among the following candidates. Regardless of how you voted on the preceding question, you should vote for candidates for the commission. Vote for not more than 9 candidates."

Amend RSA 49-B:4, I as inserted by section 1 of the bill by replacing it with the following:

I. The charter commission shall consist of 9 members, all of whom shall be registered voters of the municipality. Members shall be elected at the municipal or biennial state election described in RSA 49-B:3, III in the same manner as the municipal officers except that they shall be elected at large and without party designation. Declarations of candidacy for the commission shall be filed in the manner and during the period specified in RSA 669:19.

HB 380, relative to the forms of government under town charters. **OUGHT TO PASS.**

Rep. Betsey L. Patten for Municipal and County Government: Currently most towns in New Hampshire are governed by the general laws of the state relating to town government which gives statutory power and duties to the town meeting and board of selectmen. There is also an option for towns to adopt a charter which establishes a different form of government. However, there has been a requirement in the statutes that a charter HAS to provide for the appointment of a town manager. This bill gives the towns the option of appointing a town manager, appointing a town administrator or not appointing any such officer at all. Also the existing titles of the five optional forms of government are somewhat confusing and will be clarified by HB 380. The governing bodies are clearly identified for each of the forms of government – Town council, Official ballot-town council, Town meeting-town council, Official ballot-town meeting and Representative town meeting. The committee voted to pass HB 380 since it is an important step forward for municipalities that are interested in adopting a charter form of government. Vote 16-0.

HB 393, relative to information filed by utilities paying the utility property tax. **OUGHT TO PASS.**

Rep. Betsey L. Patten for Municipal and County Government: Currently June 1 is the date by which all utilities have to file a list of changes made to the property since the prior April 1. The testimony from the Department of Revenue Administration states the current time lines are not adequate and there is not enough information to develop adequate basis for setting the utility property tax using the income approach for assessing. Currently there is no penalty for NOT filing any changes. In order to have enough time and information this bill was introduced to remedy the situation by changing the date to May 1 and requiring operating expenses, original cost and depreciation values by the utilities. An extension of time is allowed if requested and there is adequate justification. However it may not exceed 30 days per request and not more than two extensions in a given tax year are to be granted. Section 2 of HB 393 adds a penalty for failure to file of one percent of the property tax. Also if there will be a change of ownership the current taxpayer is required to notify the department with the details. The committee feels that utility property owners need to file adequate information so that the assessments at the local level are documented and transparent. Vote 14-0.

HB 423, allowing municipalities to adopt a business incentive property tax credit. **INEXPEDIENT TO LEGISLATE.**

Rep. Bennett F. Moore for Municipal and County Government: This legislation does not have a requirement of a public benefit to qualify for the property tax credit. Other legislation (HB 692) reported by this committee as OTPA, will address similar needs with clear language and addresses public benefit. Vote 14-0.

HB 462, relative to site plan review of agricultural operations. **INEXPEDIENT TO LEGISLATE.** Rep. Anthony F. Simon for Municipal and County Government: This bill would prevent agriculture from "being limited by other governmental agencies or political bodies." It would also effectively exempt agricultural operations from site plan review by a local planning board. The committee believes that the effect of these provisions is to improperly deny municipalities the authority to regulate an agricultural operation that could have a significant impact on a community. This destroys the careful balance that currently exists in state law that is designed to preserve and encourage agriculture in appropriate locations throughout the state. Vote 17-0.

HB 551, allowing cities to use capital reserve funds for debt replacement. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Larry Brown for Municipal and County Government: This bill, as amended, had the unanimous support of the committee which recognized both the variety and complexity of funding sources, the particular specifications of the terms of repayment, and the need to conform to IRS rules. It properly restricts funding to a specific program and promotes transparency in expenditure and audit. No dangers were seen for smaller municipalities and the practical needs of cities were enhanced. Vote 16-0.

Amendment (0556h)

Amend the bill by replacing all after the enacting clause with the following:

1 Municipalities; Establishment of Reserves. Amend RSA 34:1, V-VI to read as follows:

V. The acquisition of a tax map of such city; [or]

VI. Municipal and regional transportation improvement projects including engineering, right-of-way acquisition and construction costs of transportation facilities, and for operating and capital costs for public transportation[-]; or

VII. *The repayment of bonded debt issued for the purpose specified in the fund, in conformance with existing Internal Revenue Service rules.*

2 Municipalities; Expenditures of Reserve. Amend RSA 34:10 to read as follows:

34:10 Expenditures.

I. The trustees of trust funds holding said capital reserve funds in trust, as hereinbefore provided, shall hold the same until such time as the city councils shall name agents of the city to carry out the objects designated by the city councils as prescribed by RSA 34:2. Expenditures from said capital reserve funds shall be made only for or in connection with the purposes for which said fund was established, or as amended as provided by RSA 34:11.

II. *Notwithstanding the prohibition of debt retirement fund establishment in RSA 33:2, capital reserve funds may be used for multiple payments of lease purchase agreements for the purpose stated for the capital reserve provided the lease purchase agreement does not contain an "escape clause" or a "non-appropriation clause."*

III. *Notwithstanding the prohibition of debt retirement fund establishment in RSA 33:2, capital reserve funds may be used to make multiple payments under a financing agreement for the purpose for which the capital reserve was established.*

3 New Paragraph; Municipalities; Expenditure of Reserve. Amend RSA 35:15 by inserting after paragraph III the following new paragraph:

III-a.(a) Notwithstanding the prohibition of debt retirement fund establishment in RSA 33:2, capital reserve funds may be used to make multiple payments under a financing agreement for the purpose stated for the capital reserve.

(b) If agents have been named according to RSA 35:15, then no further vote is required to disburse funds.

4 Effective Date. This act shall take effect 60 days after its passage.

HB 566-FN-L, relative to the housing of inmates in county correctional facilities. **OUGHT TO PASS.**

Rep. Betsey L. Patten for Municipal and County Government: Currently there is a requirement that each county have suitable correctional facilities as stated in RSA 23:3. HB 566 makes this requirement an option that will assist the counties in the housing of their inmates. The sponsor of this bill has concerns that his county does not have suitable facilities for female prisoners and there are legal opinions that may put the counties at risk. Currently the Commissioner of the Department of Corrections can enter into contracts with the counties, the governments of other states, and the

federal government and appropriate private agencies or facilities as outlined in RSA 21-H:8, VI. HB 566 allows a county to contract with the state or another county for reception and confinement of prisoners committed to or who are ordered to be detained at a county correctional facility. This bill also removes the requirement of placing the offender in the county facility where the offense was committed and charges the county in which the offense was committed. The committee believes that these changes will open up interesting options for the county correctional facilities. Vote 14-0.

HB 616-FN-L, exempting certain persons age 65 and older from 25 percent of the state and local education portion of property taxes. **INEXPEDIENT TO LEGISLATE.**

Rep. Larry Brown for Municipal and County Government: It was the unanimous opinion of the committee that it was unwise to establish a de-facto user fee system for public education, to set major groups in opposition to each other on what should be a settled issue of cherished common good. There also seemed to be insufficient consideration of demographic trends which may effect the economic vitality of the state or of the resources which the "any person who is age 65 or older" may have on how many persons over 65 may be counted per a primary residence. Vote 16-0.

HB 646-FN-L, establishing a fee for copies of police and fire reports. **INEXPEDIENT TO LEGISLATE.**

Rep. Anthony F. Simon for Municipal and County Government: This bill would establish a uniform statewide fee schedule for obtaining copies of "police or fire agency reports." The committee feels that current law on this subject is reasonable, clear and explicit, that this is manifestly a local control issue and that any concerns or complaints about overcharges for such reports should be directed to the municipality involved. Vote 16-1.

HB 649, relative to the disposition of real estate given, devised, or bequeathed to a town for charitable or community purposes. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Andy Peterson for Municipal and County Government: The bill, as amended allows for greater public input prior to the court process which is required in order for a community to sell or change the use of real estate given, devised or bequeathed to a town. The amendment placed the language of the bill in a more appropriate section of the RSA's and renewed the requirement for a town vote, as advised by the Attorney General's office. Vote 16-0.

Amendment (0835h)

Amend the bill by replacing all after the enacting clause with the following:

1 Cy Pres Doctrine. Amend RSA 498:4-a to read as follows:

498:4-a Cy Pres Doctrine.

I. If property is or has been given in trust to be applied to a charitable purpose, and said purpose or its application is or becomes impossible or impracticable or illegal or obsolete or ineffective or prejudicial to the public interest to carry out, the trust will not fail. Upon petition by the trustee or trustees or the attorney general, the superior court may direct the application of the property to some charitable purpose which is useful to the community, and which charitable purpose fulfills as nearly as possible the general charitable intent of the settlor or testator. In applying the doctrine of cy pres, the court may order the distribution of the trust assets to another charitable trust or to a charitable corporation to be held and administered by it in accordance with the terms of the governing instrument as said terms may be modified by the application of cy pres under this section and RSA 498:4-b.

II. Prior to any court proceeding on the intent to offer for sale or change the use of any land, buildings, or both, given, devised, or bequeathed to the town for charitable or community purposes, the municipality shall hold 2 public hearings at least 14 days apart.

2 Effective Date. This act shall take effect 60 days after its passage.

AMENDED ANALYSIS

This bill requires a municipality to hold public hearings prior to any court proceeding concerning the disposition of land given to the town for charitable purposes.

HB 680, allowing municipalities to determine the hours for the Saturday session for correction of the checklist. **INEXPEDIENT TO LEGISLATE.**

Rep. Joseph A. Guthrie for Municipal and County Government: This bill would allow the supervisors of the checklist to hold the session that is required on the Saturday 10 days prior to election day at hours that would be determined by the governing body. The supervisors of the check list can presently hold any session as they determine. This legislation was not considered to be necessary. Vote 13-0.

HB 691, excluding the value of a view from property tax assessments on working farms. **INEXPEDIENT TO LEGISLATE.**

Rep. Betsey L. Patten for Municipal and County Government: Property in New Hampshire is assessed at fair market value. The statutes and court rulings have defined fair market value as "the property's full and true value as the same would be appraised in payment of a just debt due from a solvent debtor." HB 691 takes one factor, view on working farms, out of the assessed town valuation. The intent was to protect our New Hampshire farmers from being taxed off their land. The Assessing Standards Board, the Current Use Board and the committee are trying to resolve this issue. HB 294 has been retained in order to work with all the stakeholders to find a solution. The ideas and definitions in HB 691 will be forwarded to both boards and will be taken up during the summer and fall as a subcommittee looks at all factors influencing fair market value. The committee noted that this issue needs to be studied and resolved. Vote 19-0.

HB 692, allowing municipalities to adopt a property tax exemption for industrial construction. **UGHT TO PASS WITH AMENDMENT.**

Rep. Anthony F. Simon for Municipal and County Government: This bill would re-establish a limited industrial construction exemption from property taxation to assist the economically depressed counties and municipalities within those counties in our state. Participation in this program is a local option, that to be implemented in any community, must first be approved by the voters. Vote 16-0.

Amendment (0816h)

Amend the title of the bill by replacing it with the following:

AN ACT allowing certain municipalities in economically depressed counties to adopt a property tax exemption for industrial construction.

Amend the bill by replacing all after the enacting clause with the following:

1 Statement of Intent. It is the purpose of this act to foster the economic development of economically depressed counties by enabling eligible, economically depressed municipalities to encourage new construction, rehabilitation, and improvement of property industrial use through the adoption of tax exemptions. It is the further purpose of this act to ensure that, once adopted, such exemptions shall be administered uniformly within the taxing districts so as to avoid the risk of unconstitutional ad hoc or discriminatory tax benefits.

2 New Subdivision; Industrial Construction Exemption. Amend RSA 72 by inserting after section 74 the following new subdivision:

Industrial Construction Exemption

72:75 Definitions. In this subdivision:

I. "Economically depressed county" shall mean any county of the state which meets the following 3 criteria as established by the director of the office of energy and planning:

(a) Is within the lowest 30 percent of counties based on equalized taxable valuation per person for the most recent year available prior to the vote taken to adopt the provisions of this subdivision;

(b) Is within the highest 30 percent of counties based on unemployment rate for the average of the 3 most recent years available prior to the vote taken to adopt the provisions of this subdivision; and

(c) Is within the lowest 30 percent of counties based on population growth for the most recent 5-year period available prior to the vote taken to adopt the provisions of this subdivision.

II. "Eligible municipality" shall mean any city or town located in an economically depressed county and which meets 2 of the following 3 criteria as established by the director of the office of energy and planning:

(a) Is within the lowest 30 percent of municipalities based on equalized taxable valuation per person for the most recent year available prior to the vote taken to adopt the provisions of this subdivision;

(b) Is within the highest 30 percent of municipalities based on unemployment rate for the average of the 3 most recent years available prior to the vote taken to adopt the provisions of this subdivision; and

(c) Is within the lowest 30 percent of municipalities based on population growth for the most recent 5-year period available prior to the vote taken to adopt the provisions of this subdivision.

III. "Industrial uses" shall include all manufacturing, production, assembling, warehousing or processing of goods or materials for sale or distribution, research and development activities,

or processing of waste materials. A town or city adopting a tax exemption under this subdivision may adopt by reference an alternative or additional definition of industrial uses as may be contained in that town or city's zoning ordinance.

72:76 Property Tax Exemption for Industrial Construction.

I. A town or city may adopt, modify, or rescind a new construction property tax exemption for industrial uses, according to the procedures in RSA 72:27-a. A vote adopting the exemption under this section shall remain in effect for at least 2 tax years. For subsequent years it may be rescinded or modified in the same manner as specified for adoption; provided, however, that for any application which has already been granted prior to such rescission or modification, the exemption shall continue to apply at the rate and for the duration in effect at the time it was granted.

II. Procedures for application, decision, and appeal shall be governed by RSA 72:33, RSA 72:34, and RSA 72:34-a. The commissioner of revenue administration may adopt rules pursuant to RSA 541-A for the interpretation, construction, and uniform observance and enforcement of the industrial construction exemption.

III. The exemption shall apply only for local municipal and local school property taxes assessed by the municipality which shall exclude state education property taxes under RSA 76:3 and county taxes assessed against the municipality under RSA 29:11 and shall be a specified percentage on an annual basis of the increase in assessed value attributable to construction of new structures, and additions, renovations, or improvements to existing structures. The exemption may run for a maximum period of 10 years following the new construction; provided, however, that the exemption for all years shall cumulatively not exceed 500 percent of the increased assessed value. Once adopted by the local legislative body, the percentage rate and duration of the exemption shall be granted uniformly within that municipality to all new construction for which a proper application is filed.

IV. The exemption shall specify the percentage of new assessed value to be exempted, the number of years duration of the exemption following new construction, and a reference to zoning use category definitions, if applicable. The exemption shall take effect in the tax year beginning April 1 following its adoption.

V.(a) An owner may apply for the exemption prior to construction, but in no case more than 12 months before the beginning of the tax year for which the exemption is sought. In such cases the selectmen or assessors may anticipatorily grant the exemption, subject to adjustment when the actual increase in assessed value becomes known. If construction is partially complete on April 1 of any year, the exemption for that year shall be based on the increased assessed value attributable to the partial construction, but the duration of the exemption shall be adjusted such that the cumulative amount of exemptions received, based on the construction as completed, is proportional to that received by other eligible properties.

(b) The selectmen or assessors may request such additional or updated information as is necessary to determine eligibility. If they are satisfied that the applicant has willfully made any false statement, or has refused to provide information after such a request, they may refuse to grant the exemption.

(c) If the municipality completes a revaluation during the period for which an exemption has been granted, the amount of the exemption shall be adjusted by the difference in equalization ratios applicable in the municipality before and after the revaluation.

72:77 Eligibility Criteria. The office of energy and planning established in RSA 4-C shall determine and make available the information necessary for the eligibility criteria in RSA 72:75.

3 Effective Date. This act shall take effect July 1, 2007.

AMENDED ANALYSIS

This bill allows certain municipalities in economically depressed counties to adopt a new construction property tax exemption for industrial uses.

HB 706, relative to requirements for highway agents. **INEXPEDIENT TO LEGISLATE.**

Rep. Timothy Butterworth for Municipal and County Government: While the committee agrees that training is important for highway agents, we believe that the essence of American democracy is that all our citizens can run for any office, with only limited restrictions on age and residency. When presidents, governors, US and state legislators, even honorable NH Representatives can run for office without education or training, it seems undemocratic to set up requirements that might discourage any child from dreaming to grow up to be a highway agent. Vote 15-0.

HB 709, making various changes to department of revenue administration authority concerning property tax administration. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Joseph A. Guthrie for Municipal and County Government: At the request of the department of revenue administration this bill clarifies the rulemaking authority of the Commissioner on certain property tax and revaluation matters. The bill also removes the penalty of \$100.00 per day for each late filing of municipal reports due the department of revenue. Vote 14-0.

Amendment (0732h)

Amend RSA 21-J:34, I as inserted by section 2 of the bill by replacing it with the following:

I. A report filed by the governing body of each city, town, or unincorporated place, shall certify the number of residents and total valuation of each class of property included in the inventory of residents and ratable estates. This report shall be filed by September 1 of each year, unless this filing date is extended by the commissioner for just cause. ~~[Municipalities which fail to timely file the report required by this paragraph due to willful neglect or intentional disregard of laws or rules and not reasonable cause shall pay a penalty to the state in the amount of \$100 for each day that the report is not timely filed. Within 30 days after the imposition of the penalty by the commissioner, officials of the city, town, or unincorporated place upon which the penalty was imposed may appeal by written application to the board of tax and land appeals or the superior court in the county in which the city, town, or unincorporated place is located. The board of tax and land appeals or the superior court, as the case may be, shall determine de novo the correctness of the commissioner's actions].~~

Amend RSA 72:36, I as inserted by section 5 of the bill by replacing it with the following:

I. The commissioner's interpretation of RSA 72:28, 72:29, 72:29-a, 72:30, 72:31, 72:32, 72:33, ~~[72:33-a,~~ 72:34, 72:34-a, 72:35, ~~[and]~~ 72:36-a, 72:37, 72:37-a, 72:37-b, 72:38-a, 72:38-b, 72:39-a, 72:39-b, 72:41, 72:62, 72:66, and 72:70; and

HB 724, allowing municipalities to require the provision of income and expense information of business property to assessing officials. **INEXPEDIENT TO LEGISLATE.**

Rep. Betsey L. Patten for Municipal and County Government: In order to have enough information to complete or evaluate the market value of commercial or industrial property the assessors need to know information from the property owners. HB 724 is asking for "income and expense" information to be provided upon request to the assessors, the board of tax and land appeals or the courts. The committee realized that the information requested as written may cause concern and anxiety with business owners because it looks like income and expense from their own private businesses. Another bill, HB 73, has been retained to work on this issue and the information in HB 724 will be addressed during the summer and fall. The committee will be asking the help of the Assessing Standards Board for its input during their study. Vote 12-0.

HB 732-FN, changing the interest rate on late and delinquent property tax payments and subsequent tax payments. **INEXPEDIENT TO LEGISLATE.**

Rep. Timothy Butterworth for Municipal and County Government: The committee determined that this bill would impose too burdensome a requirement on town clerks who might have to make the adjustments eight times a year. It was also considered that the interest rate for delinquent taxes must remain well above the IRS rate so businesses and others don't choose to pay other creditors first. Vote 12-0.

HB 736, relative to administrative enforcement of certain violations of municipal ordinances. **INEXPEDIENT TO LEGISLATE.**

Rep. Larry Brown for Municipal and County Government: It was the bipartisan conclusion of the committee that the discretion of the selectmen is a necessary and sometimes awkward responsibility in respect to violations which may be unaware or obdurate. Rote strictures dilute the community's proper respect and support for zoning. Administrative enforcement and fine begins in guilt. Overall it is better to prove guilt after due process. Vote 12-2.

HB 741, relative to the zoning requirement for child day care providers. **INEXPEDIENT TO LEGISLATE.**

Rep. Betsey L. Patten for Municipal and County Government: Currently, permits for child care program licensing require compliance with local land use and safety codes. HB 741 removes "family day care homes" and "family group day care homes" from compliance with the local codes.

Six children and up to three more children under the age of 10 years constitute a family day care home and 7 to 12 children and up to and additional five children under the age of 10 years constitute a group day care home. The committee feels that it is imperative that local municipalities still have the oversight and approval for these child care facilities since it becomes a local transportation and safety matter. Vote 14-0.

HB 742, relative to the issuance of building permits on class VI roads. **INEXPEDIENT TO LEGISLATE.**

Rep. Betsey L. Patten for Municipal and County Government: Building or not building on a Class VI highway has been the prerogative of the local governing body. Currently there is a process where the governing body may grant a building permit as long as the applicant knows that the municipality neither assumes responsibility for maintenance of the Class VI highway nor liability for any damages resulting from the use thereof and the applicant records that document in the Registry of Deeds. HB 742 would add another layer of approval in order for a permit for a non-commercial, seasonal or recreational use building to be issued by requiring the legislative body at a special or annual town meeting to approve the policy. The bill does not include any appeal process for applicants. Also there will be a negative effect on existing lots on Class VI highways that may be construed as a "taking" by the municipality if approval is not granted. The committee knows that RSA 674:41 "Class VI Roads; Building Permits" is a well balanced statute that does not need to be amended. Vote 14-0.

HB 747, relative to the special meeting requirements for municipalities. **INEXPEDIENT TO LEGISLATE.**

Rep. Robert J. Elliott for Municipal and County Government: The committee felt this legislation was unnecessary because under current statute (RSA 31:5 and RSA 41:14-a) the selectmen are required to first submit a proposed acquisition of or sale of any municipal land to the Planning Board before requesting a special meeting. The bill is a duplication of already existing statutes. Vote 13-0.

HB 769-FN, relative to determination of town's shares of county taxes. **INEXPEDIENT TO LEGISLATE.**

Rep. Bennett F. Moore for Municipal and County Government: This bill would modify apportionment of county costs to municipalities by adding a population factor to the existing equalized property value calculation. A municipality's share of county costs could not exceed its proportion of county population by more than 2%. The committee's recommendation of ITL is based on the failure of the bill to address how any shortfall in county cost allocations would be assessed and no willingness to add a population statistic (and the costs associated with ensuring its accuracy) to our tax apportionment calculations. Issues concerning county government are now being studied by a county government task force. Its report is expected to address not only the functions of counties but also recommendations on the fairness of cost sharing. Vote 13-0.

HB 770, requiring certain information in the financial reports of counties. **INEXPEDIENT TO LEGISLATE.**

Rep. Larry Brown for Municipal and County Government: This bill, as presented, requires a break out of information and a format of presentation which the committee could not tie to any failure of process significant on a statewide basis. The committee does support clarity and accountability in municipal spending and governance. There is a task force to study county government (SB 319, Chapter 221:1; laws of 2006) that is studying county governance. The committee would like this issue and file be given to that task force. Vote 13-0.

HB 785-FN, relative to user charges for excessive consumption of police and nuisance enforcement services. **INEXPEDIENT TO LEGISLATE.**

Rep. Robert J. Watson for Municipal and County Government: This bill would establish user charges for "excessive consumption" of police and nuisance enforcement services. The majority believes that the issues this bill attempts to resolve can best be addressed as they are now by the enforcement of municipal ordinances. Furthermore, the bill is ambiguous and could open the door to unintended consequences. Vote 13-1.

HB 798, allowing municipalities to adopt a property tax freeze for persons aged 65 and older. **INEXPEDIENT TO LEGISLATE.**

Rep. Larry Brown for Municipal and County Government: This bill like several the committee considered this session on tax relief is a bill of good will and seeks to protect the over age 65

residential home owner from the ravages of rising property taxes by setting an at age 65 freeze on the assessed value of their residence. However it is not means tested and requires additional and varied calculations of state and county taxes due and will have an unknown cost shifting burden on those outside the benefited group. On that basis the entire committee agreed that it was inexpedient to legislate. Vote 13-0.

HB 803, relative to the sale of tax-deeded property. **OUGHT TO PASS WITH AMENDMENT.** Rep. Betsey L. Patten for Municipal and County Government: Currently the municipality has a process for distributing proceeds from the sale of tax-deeded property. After three years of not paying taxes to the municipality, the property owner has three years to pay taxes before the property is deeded to the town and has a first option for the next three years to repurchase the property. That is a total of six years. HB 803 is a result of a subcommittee working group with the committee, tax collectors and other municipal officers. The requirement for notice has been changed from a range 120 days to 90 days to at least 90 days prior to the offering for sale. "Offering for sale" has been defined as the authorization by the municipality's governing body to its designee to sell the property. The committee agrees with the tax collectors that these changes will make the sale of tax-deeded property more efficient. Vote 14-0.

Amendment (0820h)

Amend the bill by replacing section 3 with the following:

3 Termination of Right. Amend RSA 80:89, VII and VIII to read as follows:

VII. ~~[For purposes of this section, the date of sale or conveyance of the property shall mean the date the municipality enters into a binding contract to convey the property to a third party buyer, whether or not such contract is subject to any contingencies.~~

~~VIII.]~~ The duty of the municipality to notify former owners and to distribute proceeds pursuant to RSA 80:88, and the former owners' right of repurchase under ~~[RSA 80:89,]~~ **this section** shall terminate 3 years after the date of recording of the deed.

HB 804, excluding the value of a view from property tax assessments. **INEXPEDIENT TO LEGISLATE.**

Rep. Larry Brown for Municipal and County Government: This committee has dealt with half a dozen or so bills on the issue of equitable property taxation and has carefully considered the impact of rising property taxes on several affected groups. In every case the committee has supported clarity in description, transparency in assessment procedures and full fair market valuations. Verbal blinders have no effect on what a willing buyer sees. This bill unreasonable seeks to skew and dilute the established standard of fair market value on which the property tax rests. The committee by a wide bi-partisan majority does not support this bill. Vote 11-1.

HB 829, establishing authority for a state property tax bank administered by the housing finance authority and requiring the housing finance authority board to develop a proposal and report to the general court. **INEXPEDIENT TO LEGISLATE.**

Rep. Jessie L. Osborne for Municipal and County Government: The committee felt that HB 829 had many technical problems including possible financial security problems with the financing sources. The agency chosen to administer the program, the New Hampshire Housing Authority, did not want to be involved with the bill, saying that they had significant concerns with the legislation and federal issues. Vote 14-0.

HB 892-FN, relative to bonding for subdivisions and condominium projects. **INEXPEDIENT TO LEGISLATE.**

Rep. Robert J. Watson for Municipal and County Government: This bill would place restrictions on when a municipality may require a developer to secure a bond in order to guarantee that certain required improvements are completed. It also mandates how the bonds will be administered, such as when a bond must be reduced for partial work completion. Although the intent of the bill may be constructive, the language is ambiguous and confusing. It could make it more difficult for our cities and towns to ensure that developers follow through on the improvements that they have promised to complete as part of a development. Vote 14-0.

HB 896-FN-L, relative to authority to waive interest on late paid property tax bills. **INEXPEDIENT TO LEGISLATE.**

Rep. Laurie J. Boyce for Municipal and County Government: This bill is totally local control and should be left to that. The selectmen already have the power to waive interest for those that need it. Vote 13-0.

HB 224, expanding the restriction on advertising devices to include all state highways. **INEXPEDIENT TO LEGISLATE.**

Rep. Edmond D. Gionet for Public Works and Highways: The committee considered the testimony given by DOT, whereas, they already have the authority to remove signs within the highway right-of-way that constitute a hazard. There is no reason to pursue this bill. Vote 15-0.

HB 516, authorizing the Mount Washington Chamber of Commerce to erect a sign on Interstate 95 in Portsmouth. **INEXPEDIENT TO LEGISLATE.**

Rep. Kevin K. Waterhouse for Public Works and Highways: While the committee appreciates the Mt. Washington Valley's Chamber of Commerce and its desire to use a state highway directional sign to make the traveling public aware of it, the words "Mt. Washington Valley" would replace the words "White Mountain Region." This change would unfortunately draw the public's attention to only one part of the White Mountains to the detriment of the other five communities of the region. The committee is concerned that this sign could signal a change in policy that would encourage other chambers of commerce to request erection of more signs within the right-of-way. Additionally, the Commissioner of DOT testified that too many signs create chaos. As a safety issue more signs create a distraction to the motorist and should be kept to a minimum. Vote 16-0.

HB 538-FN-A, making an appropriation for the renovation of the state park system. **INEXPEDIENT TO LEGISLATE.**

Rep. David B. Campbell for Public Works and Highways: This bill was filed by the House and Senate members of the SB 5 Commission to study the State's park system, to fulfill the commission's recommendation to bond \$10 million dollars in each of the next two biennium's for strategic planning to meet critical and deferred maintenance needs and for revenue enhancement projects. The Governor proposed approximately 6.4 million dollars in his Capital Budget and the committee has made provisions for the state parks in HB 25, the Capital Budget bill. Therefore, this legislative vehicle is no longer necessary. Vote 15-0.

HB 681-FN-A, relative to full cent gas pricing and road tolls. **INEXPEDIENT TO LEGISLATE.**

Rep. David B. Campbell for Public Works and Highways: The effect of this bill would be to raise the road toll (gas tax) by one-tenth of a cent, which would raise Highway Fund revenue by about \$850,000 per annum. However, since the House has already passed HB 103, which establishes a commission to study the State Highway Trust Fund, the committee believes that the needs and funding levels of the Highway Fund are best studied in their entirety by this commission. Whole cent pricing will also be addressed by the study commission. Vote 13-2.

HB 731, relative to the use of vehicle information or location tracked by an electronic toll collection system. **OUGHT TO PASS WITH AMENDMENT.**

Rep. David B. Campbell for Public Works and Highways: This bill (and the clarifying amendment) adds one sentence to the RSA to prohibit the use of the transponders, which are used for toll collection, to gather personal information or movements at any location except at the toll booths. Vote 11-2.

Amendment (0707h)

Amend the bill by replacing section 1 with the following:

1 New Paragraph; Evasion of Tolls and Charges. Amend RSA 236:31 by inserting after paragraph VI the following new paragraph:

VII. The transponders and the monitoring system used in electronic toll collection, shall not be used to track or determine the location of a vehicle or be used to collect the name, street address, post office box number, license or billing information, of the individual and vehicle associated with the transponder, except at each point where a toll is collected or incurred.

AMENDED ANALYSIS

This bill prohibits use of the electronic toll collection system and the electronic toll collection monitoring system to track or locate a vehicle except at the point where a toll is collected or incurred.

HB 219, relative to the membership of the wetlands council. **OUGHT TO PASS.**

Rep. James D. Aguiar for Resources, Recreation and Development: This bill increases the membership of the Wetlands Council from seven members to eight. The additional member would be an owner of farm land or forest land. The committee heard testimony that the decisions made by the Wetlands Council often have direct impact upon farm and/or forest land, hence the decision to give representation to these groups. Vote 16-0.

HB 319, relative to wetlands mitigation. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Susan R. Kepner for Resources, Recreation and Development: Currently, it is difficult for the state to expend funds from the Federal Emergency Watershed Protection Program within the required 220 days, since both federal and state permits are necessary. The federal permit process includes an eleven page environmental assessment that the state then reviews. Therefore, the committee felt there is not need for a lengthy, cumbersome state permit that is redundant. Vote 18-0.

Amendment (0566h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to emergency permits for projects funded through the Emergency Watershed Protection Program.

Amend the bill by replacing section 1 with the following:

1 New Paragraph; Fill and Dredge in Wetlands; Administrative Provisions. Amend RSA 482-A:11 by inserting after paragraph IX the following new paragraph:

X. The department shall have the authority to issue emergency permits for projects funded through the Emergency Watershed Protection Program of the Natural Resources Conservation Service, United States Department of Agriculture, when such projects are necessary to safeguard lives and property from floods and the products of erosion when a natural disaster is causing or has caused a sudden impairment of the watershed.

AMENDED ANALYSIS

This bill allows the department of environmental service to issue emergency permits for certain necessary projects.

HB 321, relative to river protection and restoration. **INEXPEDIENT TO LEGISLATE.**

Rep. Donald A. Brueggemann for Resources, Recreation and Development: This bill addresses the nominating process for participation in the Rivers Management and Protection Program. This popular program is a community driven process whereby rivers are nominated for additional protections based on resource characteristics such as environmental, recreational, wildlife and cultural qualities. This bill would add hydroelectric energy production to the list of characteristics to be considered, which is inherently in conflict with many of the other qualities to be considered under the program. In addition, HB 321 requires a river or river segment to be included in the local master plan of a town participating in the nomination process. This essentially reverses the process since the inclusion of a river resource in local master plans is the hoped for result of the Rivers Management and Protection Program. Lastly, HB 321 alters the membership of the Rivers Management Advisory Committee (RMAC) with the addition of six legislators. The current membership of RMAC represents a diverse group of interests including agriculture, conservation, recreation, municipal and water supply. Although the addition of legislators is not objectionable, neither is it necessary since nominated rivers or river segments must gain legislative approval. The current process works admirably as indicated by the recent approval of the Ammonoosuc River. The case for changes to the Rivers Management and Protection Program has not been made. Vote 14-0.

HB 383, relative to waterfront buffer and woodland buffer requirements in the comprehensive shoreland protection act. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Donald A. Brueggemann for Resources, Recreation and Development: This bill is one of four bills recommended by the Shoreland Protection Commission. The bill simplifies and clarifies regulations regarding waterfront buffers, allowing property owners to more easily understand what activities may and may not be undertaken within this most sensitive shorefront area. This clarity will promote greater compliance. The first 50 feet from the shoreline is designated as the waterfront buffer and is subject to restrictions on the removal of ground cover and the cutting of trees. Within this area, an easily understood formula replaces a complicated method for calculating al-

lowable alterations. The first 150 feet from the shoreline (including the waterfront buffer) is designated as the natural woodland buffer in which smaller areas must be maintained in an undisturbed state with the encouragement of other conservation measures. Lastly, for the first 250 feet from the shoreline (including the woodland buffer) the bill prescribes that no more than 20-30% of the total area may be covered with impervious surfaces, such as roofs, patios and most driveways. The majority of the committee felt this was a reasonable addition since the science indicates that watersheds are negatively affected by the disruption of as little as 10% of the area. Forest management and agriculture conducted in accordance with best management practices are exempted from these restrictions. The committee also looked at specific circumstances in order to be satisfied that these provisions do not constitute a taking, nor unreasonably restrict the ability of property owners to enjoy and develop their property. The committee believes HB 383 strikes a common sense balance between property rights and shoreland protection. Vote 18-1.

Amendment (0904h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to waterfront buffer and woodland buffer requirements in the comprehensive shoreland protection act.

Amend the bill by replacing all after the enacting clause with the following:

1 New Paragraph; Definitions. Amend RSA 483-B:4 by inserting after paragraph VII the following new paragraph:

VII-a. "Impervious surface" means any area that is paved, compacted, or otherwise modified to prevent or restrict the infiltration of storm water. Examples of impervious surfaces include but are not limited to, roofs, decks, patios, and paved, gravel, or crushed stone driveways, parking areas, and walkways.

2 New Paragraph; Definitions. Amend RSA 483-B:4 by inserting after paragraph X the following new paragraph:

X-a. "Natural ground cover" means any herbaceous plant or any woody seedling or shrub less than 3 feet in height. Natural ground cover shall also include naturally occurring leaf or needle litter, stumps, decaying woody debris, stones, and boulders. Natural ground cover shall not include lawns, invasive species as listed by the department of agriculture, markets and food in accordance with RSA 430:53, III or exempted by the department of environmental services in accordance with RSA 487:16-a, imported organic or stone mulches, or other artificial materials.

3 New Paragraph; Definitions. Amend RSA 483-B:4 by inserting after paragraph XXIV the following new paragraph:

XXIV-a. "Undisturbed state" means native vegetation allowed to grow without interference.

4 Waterfront Buffer. Amend RSA 483-B:9, V to read as follows:

V. The following minimum standards shall apply to *areas and activities within* the protected shoreland ~~[provided that]~~ *with the exception of* forest management *that is* not associated with shoreland development or land conversion, and *is* conducted in compliance with RSA 227-J:9; forestry ~~[involving]~~ *conducted by or under the direction of a water supplier for the purpose of managing a* water supply ~~[reservoir]~~ watershed ~~[management; or]; and~~ agriculture conducted in accordance with best management practices~~[- shall be exempt from the provisions of this chapter]~~ *as required by RSA 483-B:3, III:*

(a) MAINTENANCE OF A WATERFRONT BUFFER.

(1) *The waterfront buffer shall be those protected shorelands within 50 feet of the reference line. The purpose of this buffer shall be to protect the quality of public waters while allowing homeowner discretion with regard to water access, safety, viewscape maintenance, and lot design.*

(2) *Within the waterfront buffer all of the following prohibitions and limitations shall apply:*

(A) *No chemicals, including pesticides of any kind or fertilizers of any kind except those specified in RSA 483-B:9, II(d), shall be applied.*

(B) *Rocks and stumps and their root systems shall be left intact in the ground unless removal is specifically approved by the department, pursuant to RSA 482-A.*

(C) *No natural ground cover shall be removed unless removal is specifically approved by the department, pursuant to RSA 482-A.*

(D) Starting from the northerly or easterly boundary of the property, and working along the shoreline, the waterfront buffer shall be divided into 50 foot segments. Within each segment a minimum combined tree and sapling score of at least 50 points shall be maintained. If there is insufficient area for a full segment, the number of points required to be maintained in that partial segment shall be proportional to that required of a full segment.

(i) Tree and sapling diameters shall be measured at 4½ feet above the ground and are scored as follows:

<u>Diameter</u>	<u>Score</u>
1 inch to 6 inches	1
greater than 6 inches to 12 inches	5
greater than 12 inches	10

(ii) Dead, diseased, or unsafe trees shall not be included in scoring.

(iii) If the total tree and sapling score in any 50 foot by 50 foot segment exceeds 50 points, then trees and saplings may be removed as long as the sum of the scores for the remaining trees and saplings in that segment does not total less than 50 points. Trees and saplings may be removed from partial segments provided that the sum of the scores for the remaining trees and saplings in that partial segment is equal to or greater than the proportional point requirement.

(iv) The department may approve applications pursuant to RSA 482-A that include the planting of native trees and saplings as necessary to at least maintain either the existing combined tree and sapling score or the minimum score required. The department shall not approve any application that would result in a combined tree and sapling score less than the minimum score required.

(v) Owners of lots that were developed prior to the effective date of this paragraph may maintain but not enlarge cleared areas, including but not limited to existing lawns and beaches, within the waterfront buffer. Conversion to or planting of cleared areas with native species of ground cover, shrubs, saplings, and trees to comply with the point system shall not be required unless it is necessary to meet the requirements of RSA 483-B:9, V(g)(2) or RSA 483-B:9, V(g)(3).

(vi) Dead, diseased, or unsafe trees, saplings, or shrubs, that pose an imminent hazard to structures or have the potential for personal injury may be removed regardless of the score requirements of a segment. Such exception shall not be used to contravene the intent of the law.

(vii) Normal trimming, pruning, and thinning of branches to the extent necessary to protect structures, maintain clearances, and provide views is permitted. Trimming, pruning, and thinning of branches for the purpose of providing views shall be limited to the bottom 1/3 of the trees or saplings, or those portions of the natural ground cover exceeding 3 feet in height.

(viii) When necessary for the completion of construction activities permitted in accordance with RSA 483-B:6, a temporary 12 foot wide access path shall be allowed. The access path shall be completely restored and replanted with natural vegetation upon completion of construction except as allowed under RSA 483-B:9, V(a)(2)(D)(ix).

(ix) A permanent 6-foot wide foot path to the water body, configured in a manner that will not concentrate storm water runoff or contribute to erosion, is allowed.

~~(a)~~ (b) MAINTENANCE OF A NATURAL WOODLAND BUFFER.

(1) ~~Where existing,~~ A natural woodland buffer shall be maintained within 150 feet of the reference line. ~~The first 50 feet of this buffer is designated the waterfront buffer and is subject to the additional requirements of subparagraph (a).~~ The purpose of ~~this~~ the natural woodland buffer shall be to protect the quality of public waters by minimizing erosion, preventing siltation and turbidity, stabilizing soils, preventing excess nutrient and chemical pollution, maintaining natural water temperatures, maintaining a healthy tree canopy and understory, preserving fish and wildlife habitat, and respecting the overall natural condition of the protected shoreland.

(2) Within the natural woodland buffer ~~[of the protected shoreland under conditions defined in RSA 483-B:9, V, all of the following prohibitions and limitations shall apply]:~~

(A) ~~[Not more than a maximum of 50 percent of the basal area of trees, and a maximum of 50 percent of the total number of saplings shall be removed for any purpose in a 20-year period. A healthy, well-distributed stand of trees, saplings, shrubs, ground cover, and their living, undamaged root systems shall be left in place.] At least 50 percent of the area outside the permitted impervious surfaces of the lot as allowed under RSA 483-B:9, V(g) shall be maintained in an undisturbed state.~~

(B) Any person applying to the department for a septic system construction approval or alteration of terrain permit pursuant to RSA 485-A, or an excavating and dredging permit pursuant to RSA 482-A, within the protected shoreland shall include photographic documentation of the natural woodland buffer.

(C) ~~[Structures, as defined in RSA 483-B:4, XXII, within the natural woodland buffer shall be afforded an opening for building construction that shall be excluded when computing the percentage limitations under subparagraph (a)(2)(A):~~

~~(D) Dead, diseased, or unsafe, [or fallen] trees, saplings, or shrubs[, or ground cover may be removed. Their removal shall not be used in computing the percentage limitations under subparagraph (a)(2)(A)] that pose an imminent hazard to structures or have the potential to cause personal injury may be removed regardless of the amount of area required to be maintained in an undisturbed state in the natural woodland buffer. Such exemptions shall not be used to contravene the intent of the law.~~

~~(E) Stumps and their root systems, which are located within 50 feet of the reference line, shall be left intact in the ground, unless removal is specifically approved by the department under RSA 482-A:~~

~~(F) (D) Preservation of dead and living trees that provide dens and nesting places for wildlife is encouraged.~~

~~(G) (E) Planting efforts that are beneficial to wildlife are encouraged.~~

~~[(b)] (c) SEPTIC SYSTEMS.~~

~~(1) [All new lots, including those in excess of 5 acres, created within the protected shoreland are] The subdivision of a parcel of land shall be subject to the requirements for subdivision [approval by] plan submission to the department of environmental services under RSA 485-A:29 if any portion of the land to be subdivided is within the protected shoreland.~~

(2) The following conditions, based on the characteristics of the receiving soil as they relate to U.S. Department of Agriculture, Natural Resources Conservation Service drainage classes, shall dictate the setback requirements for all new leaching portions of new septic systems, as follows:

(A) Adjacent to ponds, lakes, estuaries, and the open ocean.

(i) Where the receiving soil downgradient of the leaching portions of a septic system is a porous sand and gravel material with a percolation rate equal to or faster than 2 minutes per inch, the setback shall be at least 125 feet from the reference line;

(ii) For soils with restrictive layers within 18 inches of the natural soil surface, the setback shall be at least 100 feet from the reference line; and

(iii) For all other soil conditions, the setback shall be at least 75 feet from the reference line.

(B) Adjacent to rivers the setback shall be no less than 75 feet.

(3) The placement of all septic tanks and leaching portions of septic systems for replacement systems shall comply with the requirements of subparagraph ~~[(b)(2)] (c)(2)~~, to the maximum extent feasible.

~~[(e)] (d) EROSION AND SILTATION.~~

(1) All new structures, modifications to existing structures, and excavation or earth moving within protected shoreland shall be designed and constructed in accordance with rules adopted by the department under RSA 541-A for terrain alteration under RSA 485-A:17, to manage stormwater and control erosion and sediment, during and after construction.

(2) New structures and all modifications to existing structures within the protected shoreland shall be designed and constructed to prevent the release of surface runoff across exposed mineral soils.

(3) A permit under RSA 485-A:17, I shall be required for improved, developed, or subdivided land whenever there is a contiguous disturbed area exceeding 50,000 square feet that is either partially or wholly within protected shoreland.

~~[(d)] (e) MINIMUM LOTS AND RESIDENTIAL DEVELOPMENT.~~ In the protected shoreland:

(1) The minimum size for new lots in areas dependent upon on-site septic systems shall be determined by soil type lot size determinations, as established by the department of environmental services under RSA 485-A and rules adopted to implement it.

(2) For projects in areas dependent upon on-site sewage and septic systems, the total number of residential units in the protected shoreland, whether built on individual lots or grouped as cluster or condominium development, shall not exceed:

(A) One unit per 150 feet of shoreland frontage; or

(B) For any lot that does not have direct frontage, one unit per 150 feet of lot width as measured parallel to the shoreland frontage that lies between the lot and the reference line.

(3) No lot [~~dependent upon an on-site septic system;~~] having frontage on public waters, shall be created with less than 150 feet of shoreland frontage.

(4) [~~Lots in areas serviced by municipal sewers shall conform to municipal minimum lot standards, and shall not be subject to any shoreland frontage requirement, except as provided by municipal standards.~~]

(5) Lots and residential units outside of the protected shoreland shall not be subject to this chapter.

~~(e)~~ (f) **MINIMUM LOTS AND NON-RESIDENTIAL DEVELOPMENT.** In the protected shoreland:

(1) The minimum size for new non-residential lots in areas dependent upon on-site septic systems shall be determined by soil type lot size determinations, as set forth under rules adopted under RSA 541-A.

(2) [~~Non-residential development requiring on-site water, sewage, and septic systems shall not be constructed on lots less than 150 feet in width.~~] *No lot having frontage on public water shall be created with less than 150 feet of shoreland frontage.*

(3) [~~Non-residential lots in areas serviced by municipal sewers shall conform to municipal minimum lot standards.~~]

(4) Non-residential lots outside of the protected shoreland shall not be subject to this chapter.

(g) **IMPERVIOUS SURFACES.** *Within 250 feet of the reference line, the maximum impervious surface area shall be:*

(1) *No more than 20 percent of the area of the lot located within the protected shoreland; or*

(2) *No more than 25 percent of the area of the lot located within the protected shoreland, provided:*

(A) *There is no tree cutting within the waterfront buffer if the waterfront buffer meets the 50-point tree score minimum; or*

(B) *Where the natural tree cover is less than a 50 point tree score in the waterfront buffer, additional tree planting is provided in the waterfront buffer to meet or exceed a 50-point tree score; and*

(C) *The lot shall be restricted by means of a permanent restriction recorded in the chain of title for the property to prohibit the cutting of vegetation within the waterfront buffer; or*

(3) *No more than 30 percent of the area of the lot located within the protected shorelands, provided:*

(A) *There is no tree cutting within the waterfront buffer if the waterfront buffer meets the 50 point tree score minimum, or*

(B) *Where the natural tree cover is less than a 50-point tree score in the waterfront buffer, additional tree planting is provided in the waterfront buffer to meet or exceed a 50-point tree score; and*

(C) *The lot shall be restricted by means of a permanent restriction recorded in the chain of title for the property to prohibit the cutting of vegetation within the waterfront buffer; and*

(D) *A stormwater management system designed to ensure that post-development total runoff volume shall not exceed the pre-development total runoff volume, and approved by the department of environmental services, shall be implemented.*

~~(f)~~ (h) **COMMON OWNERS AND RESIDENTIAL OR NON-RESIDENTIAL DEVELOPMENT.** In the protected shoreland, waterfront parcels held in common by one or more owners of contiguous interior parcels may be developed, but only in a manner consistent with the provisions of this chapter. Care shall be taken for the adequate provision of parking, toilet facilities, and related support systems to minimize the project's impact on the public waters.

~~(g)~~ (i) The commissioner shall have the authority to grant variances from the minimum standards of this section. Such authority shall be exercised subject to the criteria which govern the grant of a variance by a zoning board of adjustment under RSA 674:33, I(b).

5 Prior Approval; Permits. Amend RSA 483-B:6, I(c) to read as follows:

(c) Install a septic system as described in RSA 483-B:9, V[(b)](c)(1)-(3) shall obtain all permits pursuant to RSA 485-A:29.

6 Prior Approval; Permits. Amend RSA 483-B:6, I(e) to read as follows:

(e) Subdivide land as described in RSA 483-B:9, V[(d)](e) and [(e)](f) shall obtain approval pursuant to RSA 485-A:29.

7 Repeal. 2002, 114:2, relative to setback requirements.

8 Effective Date. This act shall take effect April 1, 2008.

AMENDED ANALYSIS

This bill adds a waterfront buffer requirement and modifies the natural woodland buffer requirement of the comprehensive shoreland protection act. This bill also repeals the authorization for certain municipalities to maintain defined primary building lines.

HB 459, relative to the identification of wells. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Frank A. Tupper for Resources, Recreation and Development: The purpose of this bill is to provide a method of recording the location of wells and technical information about their construction, such as depth, casing, etc. This will be valuable if there is water contamination in an area. Technical information will help future property owners who need to maintain or repair a well. The committee agreed with the amended version of this bill which now requires water well contractors and technical drillers of monitoring wells to supply a written record of specific technical and locational information to the Department of Environmental Services (DES). This will eliminate the need for locating by well tag identification, which well drillers testified was too onerous. Vote 15-0.

Amendment (0475h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to the identification of wells and monitoring wells.

Amend the bill by replacing all after the enacting clause with the following:

1 Record of Wells. Amend RSA 482-B:10 to read as follows:

482-B:10 Record of Wells; **Monitoring Wells.**

I. Within 90 days after completion of a well, [a] *the* water well contractor shall provide the board with a record of the well containing [such] *the following* information [as is required by rule.]:

(a) *Name of the owner of the property on which the well is situated.*

(b) *Name of the building contractor, if applicable.*

(c) *Location of the well by:*

(1) *Coordinates provided by global positioning technology in units of degrees and decimal minutes of latitude and longitude, with at least 3 decimal places of precision and referenced to the World Geodetic System 1984 (WGS84) datum or its successor;*

(2) *Street address of the property as listed in the enhanced 911 street address guide to the extent it is publicly available on the date of submission of the report;*

(3) *Tax map and lot number of the property; and*

(4) *A drawing indicating the position of each well, if more than one well is located within the lot, relative to significant permanent man-made or natural features at a given site.*

(d) *Date well was completed.*

(e) *Proposed use of well.*

(f) *Reason for constructing well.*

(g) *Type of well.*

(h) *Total depth of well.*

(i) *Casing details.*

(j) *Method or methods of sealing casing into bedrock, if applicable.*

(k) *Screen details, if applicable.*

(l) *Results, method, and duration of yield test or tests conducted.*

(m) *Static water level, if encountered.*

(n) *Depth to bedrock.*

(o) *Description and depth intervals of unconsolidated surficial deposits encountered during the well drilling process.*

(p) *Yield test at various depths, if performed.*

(q) *Hydro fracturing or other well development details, if applicable.*

(r) *Name of water well contractor or technical driller.*

(s) *Additional well seals installed, if applicable.*

(t) *A statement specifying whether a water quality sample was collected by the driller.*

(u) *If the well location does not comply with setback requirements for wells under New Hampshire law or rules of the water well board, a statement identifying the law or rule with which the wells do not comply.*

v. *Date of the report.*

(w) *Any other information required by rules adopted by the water well board.*

II. At a minimum, the technical drillers shall comply with the requirements of paragraph I for the deepest monitoring well installed at each property or place of business and for each monitoring well installed into the bedrock at each property or place of business.

III. If the technical driller does not comply with the requirements of paragraph I for all the monitoring wells the driller installs at a single property or place of business, then the technical driller shall prepare and submit a map showing the location of each monitoring well installed by the technical driller relative to significant permanent man-made or natural features at a given site and relative to wells located with GPS coordinates in accordance with paragraph I.

2 Sharing of Data for the Purpose of Maintaining Records of Wells. Amend RSA 106-H:14 to read as follows:

106-H:14 Information Not Subject to Right-to-Know Law. Any information or records compiled under this chapter shall not be considered a public record for the purposes of RSA 91-A **regardless of the use of such information under paragraph I or II.** Notwithstanding any provision of law to the contrary, the bureau shall only make information or records compiled under this chapter available **as follows:**

I. On a case-by-case basis to a law enforcement agency that requires the information or records for investigative purposes[?]; and

II. To the department of environmental services solely for the purpose of estimating the location of wells subject to RSA 482-B. Information shared with the department of environmental services under this provision shall be limited to geographic information systems data that will aid in locating such wells. The department of environmental services shall not release such shared data under RSA 91-A.

3 Effective Date. This act shall take effect 180 days after its passage.

AMENDED ANALYSIS

This bill:

I. Requires water well contractors and technical drillers of monitoring wells to supply specific information to the board.

II. Limits the availability of information or records compiled in the records of wells.

HB 648, establishing a commission to develop a comprehensive flood management plan. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Donald A. Brueggemann for Resources, Recreation and Development: This bill establishes a commission to develop a comprehensive flood management plan. The commission is composed of six House members, three Senate members and various other interests. Duties include the study of measures to minimize flood impacts on community and personal property. The amendment adds a member and the duty to consider proper management of public water resources. Vote 17-0.

Amendment (0601h)

Amend the bill by replacing sections 2-3 with the following:

2 Membership and Compensation.

I. The members of the commission shall be as follows:

(a) Six members of the house of representatives, including one member of the fish and game committee, one member of the environment and agriculture committee, one member of the resources, recreation and development committee, and one member of the science, technology and energy committee, appointed by the speaker of the house of representatives.

(b) Three members of the senate, appointed by the president of the senate.

(c) Two representatives of the office of the governor, appointed by the governor.

(d) One member of the rivers management advisory committee, established in RSA 483:8, appointed by the committee.

- (e) One member from the hydroelectric industry, appointed by the governor.
- (f) One member of the New Hampshire Municipal Association, appointed by that organization.
- (g) One member of the Nature Conservancy, appointed by that organization.
- (h) One member of the Army Corps of Engineers, appointed by the corps.
- (i) The director of homeland security and emergency management of the department of safety, or designee.
- (j) The commissioner of the department of environmental services, or designee.
- (k) One member representing the New Hampshire water works association appointed by that organization or, if the association fails to appoint a member, a public water supplier appointed by the governor.

II. Legislative members of the commission shall receive mileage at the legislative rate when attending to the duties of the commission.

3 Duties. The commission shall:

I. Study possible measures for controlling floods to minimize their impact on communities and individual properties throughout the state. These measures shall include but not be limited to:

- (a) Land treatment to reduce flood runoff.
- (b) Flood hazard assessment.
- (c) Management of flood waters by means of dams and reservoirs.
- (d) Removal or preservation of dams as an element of flood management.
- (e) Possible zoning and flood plain regulations.
- (f) Cooperative efforts between private dam owners and New Hampshire emergency management in the event of serious flood threats.
- (g) Flood forecasting practices.

II. The commission may also consider issues associated with flood control, including:

- (a) Tax exemption for private dam owners to encourage dam maintenance and restoration.
- (b) Expansion of hydroelectric power generation.
- (c) Use of flood plain lands for agriculture.
- (d) Wetland preservation.
- (e) Affect of floods on storm sewers and waste treatment plants.
- (f) Recreational use of water bodies used for flood control.
- (g) Availability of grants for flood control and dam improvement and restoration.
- (h) Recovery of moneys owed to the state for flood control dams.
- (i) Proper management of public water resources.
- (j) Other issues as the commission deems fit.

III. The commission shall be administratively attached to the department of administrative services.

HB 665-FN, relative to the comprehensive shoreland protection act. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Donald A. Brueggemann for Resources, Recreation and Development: This bill is one of four bills recommended by the Shoreland Protection Commission. The bill changes the method by which streams are classified, now using the New Hampshire hydrography data set, and clarifies the language in the definition of a "water dependent structure." In addition, HB 665 repeals legislation that exempted towns which had adopted a shoreland protection ordinance and certain designated rivers and river segments from the application of this act. Lastly, this bill adds third order streams to those water bodies to be protected by the shoreland protection act on January 1, 2009. The committee feels that this latter is an important step, but that a delayed enactment would give the Department of Environmental Services time to prepare the necessary groundwork for its implementation. Vote 18-1.

Amendment (0852h)

Amend the bill by replacing all after the enacting clause with the following:

1 Definitions. Amend RSA 483-B:4, XVI(c) to read as follows:

(c) Rivers, meaning all year-round flowing waters of fourth order or higher [~~as shown on the now current version of the U.S. Geological Survey 7 1/2" 2C topographic maps~~]. Stream order shall be determined using the *New Hampshire hydrography dataset archived by the geographi-*

cally referenced analysis and information transfer system (GRANIT) at the complex systems research center of the university of New Hampshire, and developed by GRANIT in collaboration with the department of environmental services. [~~Strahler method, whereby the highest year-round streams in a watershed are first order streams, their juncture yields second order streams, the juncture of second order streams yields third order streams, et seq.~~] A listing of the streams of fourth order and higher shall be prepared and [~~maintained~~] *periodically updated* by the [~~office of energy and planning~~] *GRANIT at the complex systems research center of the university of New Hampshire* and delivered to the commissioner 30 days after the effective date of this act.

2 Definitions. Amend RSA 483-B:4, XXVI to read as follows:

XXVI. "Water dependent structure" means a structure that [~~services and supports activities that require direct access to, or contact with the water, or both, as an operational necessity and that requires a permit under RSA 482-A, including but not limited to~~] *is a dock, wharf, pier, breakwater, beach, bathhouse, retaining wall, or launching ramp or other similar structure, or any part thereof, built over, on, or in the waters of the state.*

3 Definitions. Amend RSA 483-B, XVI(c) to read as follows:

(c) Rivers, meaning all year-round flowing waters of [~~fourth~~] *third* order or higher. Stream order shall be determined using the New Hampshire hydrography dataset archived by the geographically referenced analysis and information transfer system (GRANIT) at the complex systems research center of the university of New Hampshire, and developed by GRANIT in collaboration with the department of environmental services. A listing of the streams of [~~fourth~~] *third* order and higher shall be prepared and periodically updated by the GRANIT at the complex systems research center of the university of New Hampshire and delivered to the commissioner 30 days after the effective date of this act.

4 Repeal. The following are repealed:

I. RSA 483-B:19, relative to relative to the applicability of the comprehensive shoreland protection act.

II. RSA 483-B:20, relative to the exemption of certain designated rivers.

5 Effective Date.

I. Section 3 of this act shall take effect January 1, 2009.

II. The remainder of this act shall take effect April 1, 2008.

HB 716, relative to subdivision and septic system application waivers. **INEXPEDIENT TO LEGISLATE.**

Rep. James D. Aguiar for Resources, Recreation and Development: The committee heard testimony that the prime sponsor of the bill no longer supported the proposal after learning that the Department of Environmental Services had resolved the underlying issues through alternate means. Vote 16-0.

HB 722, relative to the rivers management protection program. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Elisabeth N. Sanders for Resources, Recreation and Development: This bill adds members to the Rivers Management Advisory Committee and allows local river management committees to include tributary drainage areas in their local management plans. These plans are advisory, like a local master plan. The bill also expands the scope of the state's Long-Range Rivers Management Plan for state-owned lands to include tributary drainage areas for each designated river. The overall goals of the local management plans and the long-range plan are to restore and maintain ecological integrity to meet existing and future multiple uses for New Hampshire's state protected rivers. The committee felt that the expansion of the scope of plans is appropriate as tributaries are important to the river's water quality. Vote 16-0.

Amendment (0811h)

Amend RSA 483:3 as inserted by section 1 of the bill by replacing it with the following:

483:3 Rivers Coordinator. There is established in the [~~office of planning~~] department of environmental services, a state rivers coordinator, who shall be a classified employee qualified by reason of education and experience, and who shall administer the New Hampshire rivers management and protection program.

Amend RSA 483:10-a as inserted by section 7 of the bill by replacing it with the following:

483:10-a Long-Range River Management Plans. The department shall prepare and adopt a long-range comprehensive plan for each designated river or segment which shall address the manage-

ment and protection of instream values and state lands within the corridor, *and tributary drainage areas*. State land within the designated river corridor *and tributary drainage areas* shall be administered and managed in accordance with the plan, and state management of fisheries, streams, waters, wildlife, and boating shall be consistent with the plan. In developing this plan, the department shall cooperate with the department of resources and economic development, the department of fish and game, the office of energy and planning, the department of agriculture, markets, and food, *the department of transportation*, and the local rivers management advisory committee.

Amend the bill by replacing section 8 with the following:

8 Notification of Rivers Coordinator. Amend RSA 483:12-a to read as follows:

483:12-a State Action; Notification of Rivers Coordinator; Petition for Review.

I. Any state agency considering any action affecting any river or segment designated under this chapter shall notify the rivers coordinator prior to taking any such action. Such agency shall forward to the rivers coordinator for review and comment copies of all notices of public hearings, or, where a public hearing is not required, a copy of the application for issuance of a permit, certificate, or license within the designated river or corridor under *RSA 485-C*, *RSA 485-A*, *RSA 483-B*, *RSA 12-E*, *RSA 270:12*, *RSA 482*, *RSA 482-A*, *RSA 149-M*, or *RSA 147-A*. If an agency is notified by the rivers coordinator that a proposed activity would violate a protection measure under *RSA 483:9*, *483:9-a*, *483:9-aa*, or *483:9-b*, such agency shall deny the application.

I-a. The rivers coordinator shall develop, in conjunction with affected state agencies and local river management advisory committees, the procedure by which the state shall notify the appropriate local river management advisory committee when state action is being considered which affects a designated river.

II. If an application is denied solely because the proposed activity would violate a protection measure under *RSA 483:9*, *483:9-a*, *483:9-aa*, or *483:9-b*, the applicant may petition the commissioner for a review. Within 30 days of receiving such a petition, the commissioner, in consultation with the advisory committee and the appropriate local rivers management advisory committee, shall review the application. If the commissioner determines that the proposed activity is consistent with the character of the designated river or segment or that the proposed activity would provide a public benefit sufficient to outweigh the public benefit of a protection measure under this chapter, the commissioner shall submit to the speaker of the house and the president of the senate a recommendation that the proposed activity be allowed to proceed. Such recommendation shall require review and approval by the general court and shall be filed as a bill in the next legislative session following the petition.

Amend the bill by replacing section 9 with the following:

9 Lakes Management Advisory Committee. Amend *RSA 483-A:6*, II(d) to read as follows:

(d) [~~An elected~~] A municipal officer of a lakefront community nominated by the New Hampshire Municipal Association.

HB 813-FN, expanding the definition of income of the land conservation investment program monitoring endowment. **OUGHT TO PASS.**

Rep. Sid Lovett for Resources, Recreation and Development: Replacing the terms "revenue" and "interest" with the term "income" as it applies to *RSA 162-C:8* helps the Department of Treasury to better manage the portfolio of the endowment of the Land Conservation Investment Program (a land protection program that preceded LCHIP). Vote 18-0.

HB 857-FN-L, relative to permitting responsibilities under the comprehensive shoreland protection act. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Donald A. Brueggemann for Resources, Recreation and Development: This bill is one of four bills recommended by the Shoreland Protection Commission. This bill clarifies permitting responsibilities under the comprehensive shoreland protection act. It is not uncommon for individuals to be unaware of what activities require a state permit and this bill clearly identifies those activities. In particular, an approval by a municipality is sometimes interpreted as a go-ahead for a project when state approval is also required. This bill clarifies that municipalities do not have the authority to offer waivers or variances to state shoreland regulations. The amendment clarifies language, adds a definition for nonconforming lots and structures and specifies what activities would not necessitate a permit under this act. Vote 18-1.

Amendment (0836h)

Amend the bill by replacing all after the enacting clause with the following:

1 Definitions. Amend RSA 483-B:4, XI-a to read as follows:

XI-a. "Nonconforming lot of record" means an existing lot which does not conform to the provisions of this chapter.

XI-b. "Nonconforming Structure" means a structure that does not conform to the provisions of this chapter.

XI-c. Ordinary high water mark" means the line on the shore, running parallel to the main stem of the river, established by the fluctuations of water and indicated by physical characteristics such as a clear, natural line impressed on the immediate bank, shelving, changes in the character of soil, destruction of terrestrial vegetation, the presence of litter and debris, or other appropriate means that consider the characteristics of the surrounding areas. Where the ordinary high water mark is not easily discernable, the ordinary high water mark may be determined by the department of environmental services.

2 Prior Approval; Permits. Amend RSA 483-B:6 to read as follows:

483-B:6 Prior Approval; Permits.

I. Within the protected shoreland, any person intending to:

(a) Engage in any earth excavation activity shall obtain all necessary local approvals in compliance with RSA 155-E.

(b) Construct a water-dependent structure, alter the bank, or construct or replenish a beach shall obtain approval and all necessary permits pursuant to RSA 482-A.

(c) Install a septic system as described in RSA 483-B:9, V(b)(1)-(3) shall obtain all permits pursuant to RSA 485-A:29.

(d) Conduct an activity resulting in a contiguous disturbed area exceeding 50,000 square feet shall obtain a permit pursuant to RSA 485-A:17.

(e) Subdivide land as described in RSA 483-B:9, V(d) and (e) shall obtain approval pursuant to RSA 485-A:29.

(f) Conduct an activity regulated under a local zoning ordinance shall obtain all necessary local approvals.

I-a. In addition to paragraph I, no person shall commence any of the following activities within the protected shoreland without prior written approval from the department:

(a) Construction of any structure on a nonconforming lot of record under RSA 483 B:10.

(b) Redevelopment of any site that contains nonconforming structures or any expansions of existing nonconforming structures under RSA 483 B:11, II

(c) Commencement of any construction that would require a variance under RSA 483-B:9, V(g).

II. In applying for these approvals and permits, such persons shall demonstrate to the satisfaction of the department ***or municipality*** that the proposal meets or exceeds the development standards of this chapter. ***The department shall develop minimum standards for information to be required on or with all applications under paragraph I.*** The department ***or municipality*** shall grant, deny, or attach reasonable conditions to ~~[a permit]~~ ***approvals issued under paragraph I-a or a permit*** listed in subparagraphs I(a)-~~(e)~~ (f), to protect the public waters or the public health, safety or welfare. Such conditions shall be related to the purposes of this chapter.

III. The department shall have the sole authority to issue variances and waivers of the provisions of this chapter as specifically authorized by this chapter.

IV. No variance, permit, or approval issued by a municipality shall exempt the owner from obtaining any other necessary permit or approval from the department as required by this chapter.

3 Nonconforming Structures. Amend RSA 483-B:11 to read as follows:

483-B:11 Nonconforming Structures.

I. Except as otherwise prohibited by law, nonconforming structures~~[erected prior to July 1, 1994,]~~ located within the protected shoreland may be repaired, renovated, or replaced in kind using modern technologies, provided the result is a functionally equivalent use. Such repair or replacement may alter the interior design or existing foundation, but ***shall result in*** no expansion of the existing footprint or outside dimensions ~~[shall be permitted]~~ ***except as authorized by the department pursuant to paragraph II.*** An expansion that increases the sewerage load to an on-site septic system, or changes or expands the use of a septic system or converts a structure to condominiums

or any other project identified under RSA 485-A:29-44 and rules adopted to implement it shall require approval by the department. Between the primary building line and the reference line, no alteration shall extend the structure closer to the public water, except that the addition of a deck or open porch is permitted up to a maximum of 12 feet towards the reference line *for nonconforming structures erected prior to July 1, 1994*.

II. When reviewing requests for the redevelopment of sites that contain nonconforming structures ~~[erected prior to July 1, 1994;]~~ *or any expansions of nonconforming structures*, the commissioner shall review proposals which are more nearly conforming than the existing structures, and may waive some of the standards specified in RSA 483-B:9, so long as there is at least the same degree of protection provided to the public waters. For the purposes of this section, a proposal that is “more nearly conforming” means a proposal for significant changes to the location or size of existing structures that bring the structures into greater conformity, or a proposal for changes to other aspects of the property, including but not limited to stormwater management, wastewater treatment or traffic volume or flow, or both types of proposal which significantly improve wildlife habitat or resource protection.

4 Effective Date. This act shall take effect April 1, 2008.

HB 903-FN, prohibiting delivery of oil to non-compliant underground storage facilities. OUGHT TO PASS WITH AMENDMENT.

Rep. Chris Christensen for Resources, Recreation and Development: This bill was introduced at the request of the Department of Environmental Services (DES) and the Oil Fund Disbursement Board (ODB). It is their joint responsibility under RSA 146-D to monitor underground oil storage tanks and provide extra insurance in the case of leaks. The state receives nearly \$1,000,000 in federal funds in support of these programs. This bill brings New Hampshire into compliance with federal guidelines to prevent deliveries to non-compliant tanks. The amendment clarifies procedures for reinstating service and changes the effective date to July 1, 2007. Vote 17-0.

Amendment (0580h)

Amend the bill by replacing section 2 with the following:

2 New Sections; Delivery Prohibition. Amend RSA 146-C by inserting after section 13 the following new sections:

146-C:14 Delivery Prohibition. No person shall deliver or cause the delivery of oil to a non-compliant storage tank or facility which has been red-tagged.

146-C:15 Non-Compliant Storage Tanks or Facilities; Red-Tagging Procedure. The department shall apply the following procedure in determining whether to red-tag a storage tank or facility:

I. The department shall perform an on-site inspection to determine whether a storage tank or facility is noncompliant with department rules for spill prevention, overfill protection, release detection, leak monitoring, or corrosion protection.

II. Upon determining non-compliant status, the department shall provide written notification to the facility owner and facility operator on the nature of the operational deficiencies, the applicable regulatory requirements, options available for correcting the deficiencies, and the deadline for completion of the work.

III. Upon failure of a facility owner or operator to correct such operational deficiencies to the satisfaction of the department by the established deadline, the department shall issue a written notice of “Intent to Red-Tag” to the facility owner and facility operator, and shall provide notification to all oil delivery companies that have requested to receive such notifications. The notice shall include the deadline after which date department personnel will red-tag the noncompliant storage tank or facility.

IV. The department shall publish a current list of all red-tagged storage tanks and facilities in the state, and shall provide notification of list changes to all oil delivery companies that have requested to receive such notification. No person shall be liable for delivery of oil to a noncompliant storage tank or facility that is not included on the department list of red-tagged storage tanks or facilities.

146-C:16 Appeals.

I. A facility owner may request, in writing, that the department rescind the delivery prohibition imposed under RSA 146-C:14. The department shall approve a request to rescind the delivery prohibition, upon determining the following:

(a) The facility owner or operator has corrected the operational deficiencies identified during the inspection conducted under RSA 146-C:15, I;

(b) Fines and penalties assessed by the department against the facility owner or operator, if any, have been paid; and

(c) The department has re-inspected the facility and determined the storage tank or facility is in compliance, or an owner or operator provided satisfactory documentation that operational deficiencies were corrected. The department may re-inspect the facility to verify the accuracy of such documentation after the delivery prohibition is rescinded.

II. Nothing in this section shall affect any authority of the department or the attorney general to enforce state law relative to oil discharges or storage tank compliance, or to seek injunctive relief, cost recovery, penalties, and any other sanctions for noncompliance with applicable requirements.

III. Any appeal of department action under this section shall not stay or suspend the department's action.

Amend the bill by replacing section 4 with the following:

4 Effective Date. This act shall take effect July 1, 2007.

HB 447, relative to net energy metering. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Jacqueline A. Cali-Pitts for Science, Technology and Energy: Current law permits electric customers to participate in a program to generate their own electricity while still remaining connected so as to receive electric service on an as-needed basis. When their own generation exceeds their own needs the excess is supplied to the grid and "the meter runs backwards." The participating customer pays for the net amount consumed. The bill as amended modifies the eligibility for net metering; it, very simply, encourages the use of alternative energy sources by modifying RSA 362 by raising the kilowatt hour limit from 25 to 100 as the maximum generation allowed for participation in the program. Vote 15-0.

Amendment (0258h)

Amend the bill by replacing all after the enacting clause with the following:

1 Definitions. Amend RSA 362-A:1-a, II-b to read as follows:

II-b. "Eligible customer-generator" means an electric utility customer who owns and operates electrical generating facilities powered by ~~[solar, wind, and/or hydro]~~ **renewable** energy with a total peak generating capacity of not more than ~~[25]~~ **100** kilowatts that is located on the customer's premises, is interconnected and operates in parallel with the electric grid, and is intended primarily to offset part or all of the customer's own electricity requirements.

2 Net Energy Metering. Amend RSA 362-A:9, I to read as follows:

I. A standard contract or tariff providing for net energy metering shall be developed and made available to eligible customer-generators by each electric distribution utility within 90 days of the start of retail choice of electric suppliers, or within 90 days of the final approval of net metering regulations issued by the commission, whichever comes first. Such tariffs or contracts shall be available on a first-come, first-served basis within each electric utility service area under the jurisdiction of the commission until such time as the total rated generating capacity owned and operated by eligible customer-generators totals ~~[0-05]~~ **one** percent of the annual peak energy demand distributed by each such utility as determined by the commission from time to time.

3 New Energy Metering. Amend RSA 362-A:9, IV(c) to read as follows:

(c) Where the electricity generated by the customer-generator exceeds the electricity supplied by the electric grid, the customer-generator shall be credited ~~[during the next billing period]~~ **over subsequent billing periods** for the excess kilowatt hours generated in accordance with this section.

4 New Energy Metering. Amend RSA 362-A:9, V to read as follows:

V. The commission shall adopt rules, pursuant to RSA 541-A, to establish reasonable interconnection requirements for safety, reliability, and power quality as it determines the public interest requires. **Such rules shall not exceed applicable test standards of the American National Standards Institute (ANSI) or Underwriters Laboratory (UL).**

5 Effective Date. This act shall take effect 60 days after its passage.

AMENDED ANALYSIS

This bill:

I. Modifies the definition of eligible customer-generator.

II. Requires the public utilities commission to conform to certain standards when adopting safety rules.

HB 694, establishing a commission to study the feasibility of tidal power generation under the Little Bay and General Sullivan Bridges, in Dover. **OUGHT TO PASS WITH AMENDMENT.** Rep. Thomas R. Fargo for Science, Technology and Energy: This bill creates a 20-member commission to study the feasibility of tidal power generation, primarily under the Little Bay and General Sullivan bridges in Dover and Newington. Membership on the commission represents a diverse group of stakeholders representing the General Court, state and federal agencies, municipalities, non-governmental environmental protection and commercial fishing interests, and the University of New Hampshire. Duties include the review of permitting standards, the public's and business community's attitude toward the project, environmental and wildlife impacts, and the costs and benefits of the project. The commission may, by 2/3 majority vote, expand its review to power generation at other appropriate infrastructure under New Hampshire jurisdiction. Vote 16-0.

Amendment (0717h)

Amend the bill by replacing all after the enacting clause with the following:

1 Commission Established. There is established a commission to study the feasibility of tidal power generation under the Little Bay and General Sullivan Bridges, in Dover.

2 Membership and Compensation.

I. The members of the commission shall be as follows:

(a) Three members of the house of representatives, appointed by the speaker of the house of representatives.

(b) Two members of the senate, appointed by the president of the senate.

(c) The commissioner of the department of transportation, or designee.

(d) The director of the office of energy and planning, or designee.

(e) The executive director of the public utilities commission, or designee.

(f) One member from the Northeast Regional Office of the National Marine Fisheries Service, designated by the regional administrator.

(g) One representative from the city of Dover, designated by the city council.

(h) One representative from the town of Newington, designated by the board of selectmen.

(i) One member of the New Hampshire Estuaries Project, designated by the management committee.

(j) The commissioner of the department of environmental services, or designee.

(k) The chief of the fish and game department, division of marine fisheries, or designee.

(l) The director of the Pease development authority, division of ports and harbors, or designee.

(m) One member of the New Hampshire Commercial Fishermen's Association

(n) One member of the public, appointed by the governor.

(o) Two representatives of different environmental protection or advocacy organizations, appointed by the governor.

(p) One representative from the university of New Hampshire, appointed by the university president.

II. Legislative members of the commission shall receive mileage at the legislative rate when attending to the duties of the commission.

3 Duties.

I. The commission shall:

(a) Identify and collect technical and sociological data, and investigate regulatory requirements necessary to determine the feasibility of building a system for tidal power generation under the Little Bay and General Sullivan Bridges in Dover and Newington. These data shall include, but are not limited to:

(1) Permitting standards, including regulatory barriers to permitting of such projects.

(2) The public's and business community's attitudes toward the project.

(3) The environmental and wildlife impacts.

(4) The cost and benefits of the project and potential for compensation to the state and municipalities.

(b) Identify the lead state agency to coordinate the efforts of the commission.

II. The commission may, upon 2/3 majority vote of the commission, expand its scope to study the feasibility of tidal power generation at other appropriate infrastructures under New Hampshire jurisdiction, as long as such studies are completed on or before November 1, 2008.

4 Chairperson; Quorum. The members of the study commission shall elect a chairperson from among the members. The first meeting of the commission shall be called by the first-named house member. The first meeting of the commission shall be held within 45 days of the effective date of this section. Nine members of the commission shall constitute a quorum.

5 Report. The commission shall make an initial report of its findings and any recommendations for proposed legislation to the speaker of the house of representatives, the president of the senate, the house clerk, the senate clerk, the governor, and the state library on or before November 1, 2007, and shall make a final report on or before November 1, 2008.

6 Effective Date. This act shall take effect upon its passage.

HB 880-FN, requiring the department of resources and economic development to implement a feasibility study for the production of alternative forms of energy using natural resources of the state of New Hampshire and making an appropriation therefor. **INEXPEDIENT TO LEGISLATE.** Rep. John H. Thomas for Science, Technology and Energy: The issues in this bill are encompassed in HB 467 which was passed by this committee. The bill is too explicit and restrictive as to who is to do the study. The Department of Resources and Economic Development (DRED) does not support the bill. There is no fiscal note. Vote 17-0.

HB 917, establishing a commission to study implementing a statewide emergency communications system. **OUGHT TO PASS WITH AMENDMENT.**

Rep. James M. Garrity for Science, Technology and Energy: This bill adds an additional duty to the existing standing Telecommunications Oversight Committee namely, to study the implementation of a statewide emergency notification system which is appropriate for both state and local needs. The committee shall consider a reverse 911 system and other means of notification. Originally this bill would have created a new study commission, but the committee felt that this topic could be adequately studied by an existing statutory study committee. The prime sponsor of this bill was in agreement with this approach. Vote 17-0.

Amendment (0728h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to the duties of the oversight committee on telecommunications.

Amend the bill by replacing all after the enacting clause with the following:

1 New Paragraph; Oversight Committee on Telecommunications; Duties. Amend RSA 374:22-j by inserting after paragraph XVI the following new paragraph:

XVII. Studying the implementation of a statewide emergency notification system which is appropriate for both state and local needs and considering possible funding sources for such system. The committee shall consider a reverse 911-system and other means of notification.

2 Effective Date. This act shall take effect upon its passage.

AMENDED ANALYSIS

This bill requires the oversight committee on telecommunications to study implementing a statewide emergency notification system.

HCR 8, urging Congress to rename the Veterans Administration Hospital the Styles Bridges Veterans Administration Hospital. **OUGHT TO PASS.**

Rep. Alfred P. Baldasaro for State-Federal Relations and Veterans Affairs: In this period of higher concern about the quality and availability of the health care delivery system for our veterans, the committee believes that placing a name and future on our only veterans' medical center would enhance our ability to help keep the medical center open without any additional decrease in services. The committee believes that naming the hospital after a former Governor, U.S. Senator and reserve military officer who invested time, effort and personal resources in ensuring the initial construction of the medical facility would be prudent and possibly helpful in keeping the hospital operational. Vote 12-0.

HJR 1, urging that more veterans' mental health counseling centers be established in New Hampshire. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Kris E. Roberts for State-Federal Relations and Veterans Affairs: This is an extremely important resolution where we have not only the ability but the responsibility to make a difference in the

lives of the men and women that we, as Americans, asked to go into harms' way. The resolution as amended not only asks that Congress continues to fund the Manchester Veterans' Center, the only one in the state of New Hampshire, but also to provide funding to establish a veterans' center in Berlin and in Keene. Veteran centers provide our combat veterans a place to seek help, to seek guidance and sometimes a simple, "brother I understand I have been there, I have experienced that." Veteran Centers around the country have given our combat veterans an opportunity to get their lives back, to get their families back, and to become productive members of society again. Every time a combat veteran in crisis has no where to go, no one to turn to, his or her chance of ending up in the criminal system increases sharply. Not only is it not the moral thing to allow, it is a waste of both taxpayers' funds and human potential for it is always far cheaper to do the right thing and prevent the problem from expanding than to punish for the end result. New Hampshire has the second highest ratio of veterans in the country. One veterans' center that could lose its funding next year just isn't the ethical way for us to treat the men and women of New Hampshire that were faced with the real possibility of paying the final and ultimate price. Vote 14-0.

Amendment (0703h)

Amend the title of the bill by replacing it with the following:

A RESOLUTION urging that more veterans' mental health counseling centers be established in New Hampshire and urging that funding be continued for the Manchester Veterans' Center.

Amend the resolution by replacing the first paragraph after the title with the following:

Whereas, New Hampshire has one veterans' mental health counseling center in Manchester which must continue to be funded; and

Amend the resolution by replacing all after the resolving clause with the following:

That the general court hereby urges that funding be continued for the Manchester Veterans' Center in Manchester, New Hampshire; and

That the general court hereby recommends and encourages the New Hampshire congressional delegation to support funding for the 2 additional veterans' mental health counseling centers; and

That copies of this resolution be sent by house clerk to each member of the New Hampshire congressional delegation.

AMENDED ANALYSIS

This house joint resolution urges that the Manchester Veterans' Center continue to be funded and that more veterans' mental health counseling centers be established in New Hampshire.

HB 188, excluding certain watercraft from the definition of ski craft. OUGHT TO PASS WITH AMENDMENT.

Rep. Sherman A. Packard for Transportation: This bill removes from the "Ski Craft" RSP definitions a boat called Craig Cat. It has 2 pontoons and side by side seats. It certainly does not fit into the Ski Craft definition. Vote 16-0.

Amendment (0370h)

Amend the bill by replacing section 1 with the following:

1 Definitions; Ski Craft. Amend RSA 270:73, V to read as follows:

V. "Ski craft" means any motorized watercraft or private boat which is less than 13 feet in length as manufactured, is capable of exceeding a speed of 20 miles per hour, and has the capacity to carry not more than the operator and one other person while in operation. The term includes a jet ski, surf ski, fun ski, or other similar device. *"Ski craft" does not include any watercraft or boat with twin hulls and which is greater than 11 feet long and greater than 5 feet wide.*

AMENDED ANALYSIS

This bill excludes any watercraft with twin hulls and which is greater than 11 feet long and greater than 5 feet wide from the definition of ski craft.

HB 247, allowing surviving spouses to retain special number plates for veterans for one year. OUGHT TO PASS WITH AMENDMENT.

Rep. Brenda L. Ferland for Transportation: This bill modifies the current veteran plate bill. It adds language to allow the surviving spouse the use of the plate for either the remainder of the current registration period after the death of the veteran or for 3 months if the registration expires during that 3 month period. Vote 17-0.

Amendment (0206h)

Amend the title of the bill by replacing it with the following:

AN ACT allowing surviving spouses to retain temporarily special number plates for veterans.

Amend the bill by replacing section 1 with the following:

1 Special Number Plates for Veterans; Surviving Spouse. Amend RSA 261:87-b, I to read as follows:

I. The director is hereby authorized to issue special number plates to be used on motor vehicles owned by veterans of the United States armed services, in lieu of other number plates. The design of these special plates shall be determined by the commissioner, and shall be distinct from the design or designs of those plates issued under RSA 261:86. Such plates shall be issued only to veterans as defined in RSA 21:50, I(a) upon application, proof of veteran status in a form authorized by RSA 21:50, I(b), and payment of a one time \$25 fee to recover production and administrative costs that shall be in addition to the regular motor vehicle registration fee and any other number plate fees otherwise required. The director shall also issue such plates to any person providing proof of honorable discharge from the armed services of any nation allied with the United States during World War II and proof of such person's service during World War II. Renewals of such special number plates shall be charged the fee assessed for standard motor vehicles as prescribed under RSA 261:141. The plates furnished pursuant to this section are non-transferable and shall expire upon the death of the veteran, *except that the surviving spouse may use the plates for either the remainder of the registration period after the death of the veteran, or for 3 months after the death of the veteran if the registration expires during that 3-month period.*

AMENDED ANALYSIS

This bill allows surviving spouses to retain temporarily special number plates for veterans.

HB 279, establishing the alternative motto "scenic" for motor vehicle number plates. **INEXPEDIENT TO LEGISLATE.**

Rep. Peter F. Bergin for Transportation: The committee had ten special plate bills this session. This is nothing unusual as this has happened in past sessions. Our actions on this bill giving a motorist the opportunity to use "scenic" or "live free or die" on license plates should not be viewed contrary to the intentions of the sponsor. As a result the Committee has retained HB 355 to review all matters relating to special license plates and the concerns of the sponsor of the bill will be included. Vote 15-0.

HB 290, relative to safe operation of vessels on New Hampshire waters. **INEXPEDIENT TO LEGISLATE.**

Rep. Sherman A. Packard for Transportation: The committee voted to retain HB 847 – a lakes speed limit bill. This was done to give the Dept. of Safety time to implement a 45 mph daytime and a 25 mph nighttime speed limit on certain parts of Lake Winnepesaukee. The public is split on this issue. Since we have not had a rash of accidents on our lakes boating is one of the safest sports in N.H. Vote 16-0.

HB 301, relative to nonresident registration of motor vehicles. **OUGHT TO PASS.**

Rep. Michael B. O'Brien for Transportation: Current law enables DMV to issue a non-resident registration to vehicles if they are garaged "exclusively" in NH. This means the vehicle cannot leave the state at any time or be eligible for non-resident registration. This bill cures that problem by substituting "primary" for "exclusively" and further defines "primary" as being garaged here for 350 days of the year. Vote 17-0.

HB 311, establishing a committee to study the feasibility of setting liability limits for commuter rail operations. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Michael B. O'Brien for Transportation: This bill establishes a committee to study the feasibility of setting liability limits for commuter rail operations. The committee will be appointed by the Speaker of the House and President of the Senate. This bill is one of the first steps in obtaining commuter rail service in our state. Vote 17-0.

Amendment (0715h)

Amend the title of the bill by replacing it with the following:

AN ACT establishing a committee to review liability issues for commuter rail operations.

Amend the bill by replacing section 1 with the following:

1 Committee Established. There is established a committee to review liability issues for commuter rail operations.

Amend the bill by replacing section 3 with the following:

3 Duties. The committee shall review liability issues for commuter rail operations.

AMENDED ANALYSIS

This bill establishes a committee to review liability issues for commuter rail operations.

HB 333, requiring driver education to include operation of manual transmission vehicles. **INEXPEDIENT TO LEGISLATE.**

Rep. C. Pennington Brown for Transportation: A practical consideration is the unavailability of manual transmission vehicles. The principles of operating these vehicles are already in the curriculum. Also, there are handicapped individuals who may not be physically able to operate a manual transmission. Vote 13-0.

HB 381, relative to the procedures for New Hampshire individuals taking driver education courses in Vermont. **INEXPEDIENT TO LEGISLATE.**

Rep. Paul H. Ingersoll for Transportation: This bill would have allowed New Hampshire residents to take driver education courses in Vermont. It was noted that Vermont motor vehicle laws are similar, but vary from New Hampshire law. It was also noted the difficulty of the New Hampshire DMV to monitor driver education courses in another state. Vote 15-0.

HB 382-FN, relative to vanity number plates for licensed amateur radio operators. **INEXPEDIENT TO LEGISLATE.**

Rep. Peter F. Bergin for Transportation: The committee had ten special plate bills this session. This is nothing unusual as this has happened in past sessions. Our actions on this bill giving a motorist the opportunity to denote "amateur radio" should not be viewed as contrary to the intentions of the sponsor. As a result the committee has retained HB 355 to review all matters relating to special license plates and the concerns of the sponsor of the bill will be included. Vote 16-0.

HB 397, relative to restricted drivers' licenses. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Carole J. Estes for Transportation: This bill recognizes and accepts the advances in eye surgery that eliminates the need for external corrective lenses. The advent of laser surgery provides visual acuity of 20/40 or better at minimal cost and effort. Vote 17-0.

Amendment (0699h)

Amend the bill by replacing section 1 with the following:

1 New Paragraph; Restricted Licenses; Corrective Eye Surgery. Amend RSA 263:13 by inserting after paragraph V the following new paragraph:

VI. If the department issues a license restricting the holder's operation because a visual impairment or deficiency, the director shall enter a rescission of the restriction in the records of the department upon receiving verification from a licensed physician or optometrist in a form satisfactory to the director that the holder of the license has received surgery to correct his or her vision and now has a visual acuity of 20/40 or better.

HB 405, establishing a committee to study the disposal of end of life vehicles. **INEXPEDIENT TO LEGISLATE.**

Rep. Brenda L. Ferland for Transportation: This bill was withdrawn at the request of the prime sponsor. The committee concurred. Vote 16-0.

HB 448-L, relative to early renewals of vehicle registrations. **OUGHT TO PASS WITH AMENDMENT.**

Rep. C. Pennington Brown for Transportation: This provides a convenience for vehicle owner renewing registrations and is supported by the New Hampshire City and Town Clerk's Association. Vote 16-0.

Amendment (0276h)

Amend the bill by replacing section 2 with the following:

2 Effective Date. This act shall take effect upon its passage.

HB 515-FN, relative to combat veteran stickers on number plates. **INEXPEDIENT TO LEGISLATE.**

Rep. Peter F. Bergin for Transportation: The committee had ten special plate bills this session. This is nothing unusual as this has happened in past sessions. Our actions on this bill giving the opportunity to put combat veteran stickers on license plates should not be viewed as contrary to the intentions of the sponsor. As a result the committee has retained HB 355 to review all matters relating to special license plates and the concerns of the sponsor of the bill will be included. Vote 17-0.

HB 547-FN, relative to the inspection of trucks. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Jean-Guy J. Bergeron for Transportation: The bill addresses truck inspection. Under the current statute a truck weighing 10,000 pounds gross vehicle weight has to be inspected twice a year. The committee was presented testimony indicating that truck weight 10,000 to 17,999 gross vehicle weight did not need to be inspected twice a year, as these vehicles are smaller trucks and as a result do not have to be inspected as frequently. These vehicles will be inspected once a year but vehicles over 18,000 pounds gross weight will have to be inspected twice a year. Vote 16-0.

Amendment (0842h)

Amend RSA 266:1, IX as inserted by section 1 of the bill by replacing it with the following:

IX. Notwithstanding any other provisions of this section to the contrary, all trucks exceeding ~~[10,000]~~ **18,000** pounds gross vehicle weight and all school buses *exceeding 10,000 pounds gross vehicle weight*, including buses owned or used by a religious organization or a nonprofit organization used exclusively as buses for the transportation of its members in connection with functions of the organization, shall be inspected semi-annually. The month for the first inspection shall be the month in which the birth date of the owner is observed, if the owner is a natural person; if the owner is other than a natural person, the first inspection shall be conducted during the month designated by the director as the registration month for such legal entity. In either case, the second inspection shall be 6 months later.

AMENDED ANALYSIS

This bill increases the maximum weight of a truck or school bus requiring a semi-annual inspection.

HB 634-FN-A, establishing a dropout prevention number plate. **INEXPEDIENT TO LEGISLATE.**

Rep. Brenda L. Ferland for Transportation: This was another plate bill. The committee has for many years taken the stance that these bills generate no money for the causes and only cost the Department of Safety a great deal of money to implement. It should also be noted that there is a study committee that will take up all number plate issues. Vote 16-0.

HB 659-FN, exempting certain motor vehicles manufactured prior to 1941 from vehicle equipment and inspection requirements. **OUGHT TO PASS.**

Rep. Jennifer M. Brown for Transportation: This bill exempts motor vehicles manufactured prior to 1941 from vehicle equipment and inspection requirements. Vehicles in this category are equipped much differently than later models and as a result their inspection cannot be done by regular inspection stations. They drive very few miles and at very low speeds. Their owners often belong to a club and have to have extensive repair knowledge themselves. The committee felt that requiring inspections would be unnecessary. Vote 17-0.

HB 726-FN-A, establishing land and community heritage investment program number plates. **INEXPEDIENT TO LEGISLATE.**

Rep. Brenda L. Ferland for Transportation: All special license plate legislation now will be taken up by a sub-committee. Based on that fact the committee has chosen to ITL all plate bills at this time, except HB 355. Vote 15-2.

HB 772, relative to suspension or revocation of original drivers' licenses. **INEXPEDIENT TO LEGISLATE.**

Rep. Sherman A. Packard for Transportation: For over 12 years the commissioner of transportation has been working on graduated licensing laws along with drivers education improvements. We have found that the most effective deterrent to teens disobeying motor vehicle laws is the fact that they will lose their license for 20 days on the first offense. If a true hardship exists the Dept. of Safety will waive the 20 day suspension. Nothing could be more dangerous to our teen drivers than to reduce the suspension from 20 to 7 days. Vote 17-0.

HB 807, requiring headlight use when windshield wipers are in use. **INEXPEDIENT TO LEGISLATE.**

Rep. Brenda L. Ferland for Transportation: This bill would have required drivers to have their headlights on when windshield wipers are in continuous use because of inclement weather. Current law requires lights to be on whenever rain, snow or fog shall interfere with the proper view of the road. Most makes of vehicles today have automotive lights that are usually on or that come on when wipers are turned on. Some people just flip their wiper switch on to intermediate settings thereby violating the language of the bill if it becomes part of the current law. The committee has had bills similar to this for more than 10 years. All were found not necessary based on today's current law. Vote 17-0.

HB 918-FN, relative to motor vehicle registrations for manufacturers. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Jennifer M. Brown for Transportation: This bill will allow manufacturers of vehicles in New Hampshire to have up to 12 special plates to put on cars after final assembly so that they can be test driven. We now have a manufacturing business in NH who make very small cars. It is necessary for them to drive these cars before sale and these plates will allow them to do that. Vote 16-0.

Amendment (0694h)

Amend the bill by inserting after section 1 the following and renumbering the original section 2 to read as 3:

2 Rulemaking. Amend RSA 21-P:14, III(w) to read as follows:

(w) Registration by motor vehicle manufacturers or dealers, including the posting of bond by a dealer, as authorized by RSA 261:97[~~-(+)+~~] **through RSA 261:111-a.**

HB 501-FN-A, relative to keno and using keno revenues for college scholarships. **INEXPEDIENT TO LEGISLATE.**

Rep. Michael G. Marsh for Ways and Means: While well intentioned, this legislation appears to have a number of technical problems that would cause problems were it to become law. The bill allows charitable organizations to run keno games of chance, and uses the revenues from these games to help fund college scholarships. The committee heard testimony from the lottery commission that the plan would be unworkable as proposed, because keno must be highly centralized, and doing this through occasional charity games would not work. There was also some question whether the prize limit per game of \$3500, taken from the bingo statute, would work with keno, where odds can run much higher. As all revenues are assigned to a college scholarship fund, there did not appear to be any incentive for charitable organizations to organize keno games. Finally, the committee was informed that directing all revenues to a college scholarship fund may violate Article 6b of Part 2 of the state constitution, which requires that all lottery money be used exclusively for the purpose of state aid to education. Vote 19-0.

HB 511, increasing the total prize value of a bingo game or series of games and establishing a study committee on increasing the price of lucky 7 tickets. **OUGHT TO PASS WITH AMENDMENT.**

Rep. William A. Hatch for Ways and Means: This bill would increase the value of bingo prizes and establish a study committee on increasing the price of lucky 7 tickets. After consulting with many players and organizations that sponsor the games the committee voted to increase bingo \$500 making a cap of \$4000 per game. The committee concluded an increase for lucky 7 is not appropriate and removed the study committee from the bill. Vote 18-0.

Amendment (0876h)

Amend the title of the bill by replacing it with the following:

AN ACT increasing the total prize value of a bingo game or series of games.

Amend the bill by replacing all after the enacting clause with the following:

1 Bingo Prizes. Amend RSA 287-E:7, XI to read as follows:

XI. Except as provided in paragraphs XIII and XV, all prizes, tokens, or awards used, given, offered or awarded in connection with any game or series of games conducted on one game date shall not exceed the total value of [~~\$3,500~~] **\$4,000.**

2 Bingo Prizes. RSA 287-E:7, XI is repealed and reenacted to read as follows:

XI. Except as provided in paragraphs XIII and XV, all prizes, tokens, or awards used, given, offered or awarded in connection with any game or series of games conducted on one game date shall not exceed the total value of \$3,500.

3 Study. The pari-mutuel commission shall study the impact of the increase in bingo prizes in RSA 287-E:7, XI and shall report its findings and any recommendations for proposed legislation to the speaker of the house of representatives, the president of the senate, the house clerk, the senate clerk, the governor, and the state library on or before November 1, 2008.

4 Effective Date.

I. Section 2 of this act shall take effect July 1, 2009.

II. The remainder of this act shall take effect 60 days after its passage.

AMENDED ANALYSIS

This bill increases the value of bingo prizes and requests a report from the pari-mutuel commission on increasing the value of bingo prizes.

HB 635-FN-A, removing exemptions under the interest and dividends tax. **INEXPEDIENT TO LEGISLATE.**

Rep. Michael G. Marsh for Ways and Means: The purpose of this bill was to remove a loophole in current tax statutes that could allow a taxpayer to create more than one exemption to the interest and dividend tax by registering a number of limited liability companies or partnerships. The committee heard testimony from the Department of Revenue Administration that this was not a serious problem, as the cost of creating a limited liability company or partnership and filing taxes for it would probably exceed the tax benefit derived by the effort. The committee also heard testimony from two asset management companies that indicated this change could negatively impact the state's goal to attract financial service companies to the state. Finally, there was a concern that the bill might put in jeopardy the state's ability to collect any interest and dividend tax if it was found to be unconstitutional. Vote 18-0.

HB 784-FN-A, requiring excess revenue stabilization reserve account funds to be used for a credit against business enterprise and business profits taxes. **INEXPEDIENT TO LEGISLATE.**

Rep. Frank W. Davis for Ways and Means: This bill would have required that if the balance in the revenue stabilization exceeded 10% of the general fund unrestricted revenues for the most recently completed fiscal year, then such excess would be used as a credit against business taxes. The committee concerns included the feeling that all taxpayers should be treated equally, and eligibility should not be restricted just to business tax credits, and that the stabilization account would not meet the level for distribution in the foreseeable future. The committee heard additional concerns from DRA including determining a) the increase in restricted revenue, b) the increase in state restricted expenditures, c) the need for additional clarification so that the program could be administered, and d) the additional administrative expenses required to verify and process the tax credits identified in the bill. Vote 17-2.

HB 844-FN, authorizing the commissioner of revenue administration to issue demands for records for purposes of interest and dividends tax audits and to seize and destroy unstamped and invalidly stamped tobacco products. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Norman L. Major for Ways and Means: This bill is a technical correction requested by the department of revenue administration. Section 1 of this bill creates Interest and Dividends tax record retention criteria similar to the Federal (I.R.S.) requirements and the New Hampshire Business tax laws. Section 2 of this bill puts a requirement on the Department to hold a hearing if tobacco products are seized. This fulfills the taxpayer's right to be heard in any case where unstamped cigarettes are seized. This provision will also help us to enforce the Tobacco Master Settlement Agreement. The amendment in section 1 changes the record retention requirement to 3 years from 5 years which is the same as the IRS standards for retaining records. Vote 18-0.

Amendment (0777h)

Amend RSA 77:37, I(b) as inserted by section 1 of the bill by replacing it with the following:

(b) Preserve such records for the period of 3 years or until any litigation or prosecution under this chapter is finally determined.

MOTION TO SPECIAL ORDER

Rep. DeJoie moved that **HB 697**, relative to responsible drug advertising, be made a Special Order for today in its regular calendar order.
Adopted.

REGULAR CALENDAR

HB 289, relative to joint agreements for the payment of postsecondary education expenses.
MAJORITY: INEXPEDIENT TO LEGISLATE. MINORITY: OUGHT TO PASS.

Rep. Edward P. Moran for the Majority of Children and Family Law: The committee majority felt that subjecting an agreement to divorce court enforcement would create a disincentive to voluntary agreements, and that a better approach would be to encourage parties to contribute to a tax advantaged college savings plan on a best efforts basis, much the same way college or charitable pledges are made. New Hampshire has one of the most successful 529 college plans in America. Vote 11-7.

Rep. Carolyn M. Gargas for the Minority of Children and Family Law: The minority supports the ability of parents to make voluntary agreements to provide for post secondary education expenses for children in their divorce decree. This order can be modified if there is a change of circumstances. Current law prohibits parents from making these agreements.

Reps. Gargas and Walz spoke against.

Rep. Moran spoke in favor.

Rep. Dumaine requested a roll call; sufficiently seconded.

and the majority committee report was adopted.

HB 519, requiring children 12 years of age or under to wear personal flotation devices. **MAJORITY: OUGHT TO PASS WITH AMENDMENT. MINORITY: INEXPEDIENT TO LEGISLATE.**

Rep. Mary E. Walz for the Majority of Children and Family Law: This bill raises from five to twelve the age when children are required to wear personal flotation devices, also known as life jackets, any time they are outside an enclosed cabin on a moving boat or other vessel. Boats with a three foot high enclosed side rail are exempted. This bill passed the House last year. Vote 13-6.

Rep. Edward P. Moran for the Minority of Children and Family Law: New Hampshire Marine Patrol Statistics over the past eight years showed no children ages 12 and under drowned in boating related incidents (the object of this bill). Those 12 and under who did drown did so while swimming or as a result of falling off a dock or an embankment (not included in the bill). Some drowned with flotation devices on. Further evidence indicated that 2 of the 3 major categories of flotation devices would not prevent unconscious people from having their heads submerged, and that the most

supportive was also the most constricting and expensive. The minority felt the statistics spoke eloquently about the level of responsibility shown by adult boaters for the children in their charge, and wondered if a perfect record of responsibility can't prevent legislative intrusion, what is required to be left alone? This seems a good example of where the citizenry who elect us are managing their affairs quite well, but the legislature, in its paternalistic wisdom feels compelled to coerce.

Majority Amendment (0350h)

Amend the bill by replacing section 1 with the following:

1 Persons 12 Years of Age or Under. Amend RSA 270:30-a to read as follows:

270:30-a Persons [5] **12 Years of Age or Under.** ~~[No person operating or in control of a boat or vessel upon the public waters of the state shall transport a child 5 years of age or under]~~ **No child 12 years of age or under shall operate, control, or be transported on the deck of a boat or vessel which is underway upon the public waters of the state** unless said child is wearing a personal flotation device of a type approved by the United States Coast Guard; provided, however, boats, vessels, and ships with continuous side rails enclosing the perimeter of the boat, vessel, or ship, 3 feet or more in height and enclosed between the deck and the top of the railing in a way that would reasonably prevent passage of a small child are exempted from the provisions of this section.

On a division vote, 301 members having voted in the affirmative and 39 in the negative, the majority committee amendment was adopted.

The question now being adoption of the majority committee report of Ought to Pass with Amendment. Rep. Campbell requested a roll call; sufficiently seconded.

SULLIVAN

Ferland, Brenda Gagnon, Raymond
and the majority committee report was adopted.
Ordered to third reading.

Reps. Infantine and Wendelboe did not vote and notified the Clerk that they wished to be recorded against.

HB 232, prohibiting retaliatory rent increases in manufactured housing parks. OUGHT TO PASS WITH AMENDMENT.

Rep. Paul McEachern for Commerce: This bill addresses a particularly onerous practice of isolated manufactured housing park owners raising rents due to adverse judgments gained by tenants. In essence it prohibits the practice. It also encourages mediation of disputes between owners and tenants. Vote 10-7.

Amendment (0844h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to retaliatory rent increases and mediation of manufactured housing park disputes.

Amend the bill by replacing all after the enacting clause with the following:

1 New Paragraph; Manufactured House Parks; Prohibitions; Rent Increase. Amend RSA 205-A:2 by inserting after paragraph XII the following new paragraph:

XIII. Impose a rent increase that is based, in whole or in part, on the cost to the park owner of a judgment or settlement of a claim arising under this chapter. This paragraph applies to both judgments and settlements of claims arising under this chapter regardless of whether the claims were filed in court or with the board of manufactured housing. No action shall be brought by a tenant under this paragraph if the total amount of all rent increases since the park owner was found to have violated this paragraph is less than \$15.

2 New Section; Manufactured Housing Parks; Mediation. Amend RSA 205-A by inserting after section 2 the following new section:

205-A:2-a Mediation.

I. If a tenant seeks mediation of a dispute between the tenant and park owner relative to a violation of this chapter, and the park owner refuses the tenant's request to mediate or is deemed by the mediator not to have mediated in good faith, and the tenant subsequently prevails in court to remedy the violation of this chapter, the court may:

(a) Award reasonable attorney's fees.

(b) Order that the amount of the judgment be offset against any rent due from the tenant until such judgment is satisfied.

(c) Retain jurisdiction over the case for one year from the judgment.

II. If the tenant files an action in court against the park owner relative to a violation of this chapter without first seeking to mediate the dispute, the tenant shall not be entitled to an award of attorneys fees regardless of the outcome of the litigation.

3 Effective Date. This act shall take effect 60 days after its passage.

AMENDED ANALYSIS

This bill prohibits rent increases based on judgments in manufactured housing park disputes. The bill also expands the type of relief available in manufactured housing disputes if the parties first seek to mediate the dispute in good faith.
Amendment adopted.

The question now being adoption of the committee report of Ought to Pass with Amendment.
Rep. Nancy Elliott requested a roll call; sufficiently seconded.

and the committee report was adopted.
Ordered to third reading.

HB 253, relative to the use of credit rating for automobile or homeowner insurance. **INEXPEDIENT TO LEGISLATE.**

Rep. Stephen T. DeStefano for Commerce: This bill makes it a discriminatory and unfair insurance trade practice to charge higher premiums for automobile and homeowners insurance based on credit rating. Current law allows the use of credit reports but bad credit cannot be the sole reason for higher premiums. The input for the bill came from a citizen whose credit score was inaccurate and not corrected within 30 days as required by law. The committee felt that this bill was not needed because credit reports are not the only reason for higher rates. Vote 12-2.

Rep. Hatch spoke against.

Rep. DeStefano spoke in favor.

On a division vote, 238 members having voted in the affirmative and 109 in the negative, the committee report was adopted.

HB 263-FN, relative to health insurance riders. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Stephen P. Spratt for Commerce: This bill provides an alternative option in the individual insurance market for individuals whose only other option would be the high risk pool. The committee saw this as an alternative to becoming uninsured due to the cost of the high risk pool and limited exclusion riders to one specified condition. Vote 15-2.

Amendment (0784h)

Amend RSA 420-G:5, I as inserted by section 1 of the bill by inserting after subparagraph (k) the following new subparagraph:

(l) Prior to providing coverage under this section, the health carrier shall obtain an acceptance form signed by the member that contains all of the information required by subparagraphs (c), (d), (g) and (i). Unless approved by the commissioner, the acceptance form shall use not less than 12-point type, and shall employ one of the following titles:

- (1) "Notice! See Elimination Rider Endorsement Included Herein."
- (2) "Notice! See Exclusion Rider Included Herein."
- (3) "Notice! See Exception Rider Included Herein."
- (4) "Notice! See Limitation Rider Included Herein."
- (5) "Notice! See Reduction Rider Included Herein."
- (6) "Notice! See Elimination Endorsement Included Herein."
- (7) "Notice! See Exclusion Endorsement Included Herein."
- (8) "Notice! See Exception Endorsement Included Herein."
- (9) "Notice! See Limitation Endorsement Included Herein."
- (10) "Notice! See Reduction Rider Included Herein."

Amendment adopted.

The question now being adoption of the committee report of Ought to Pass with Amendment.

Rep. Nord spoke against.

Rep. Spratt spoke in favor.

On a division vote, 333 members having voted in the affirmative and 16 in the negative, the committee report was adopted.

Ordered to third reading.

HB 305, establishing a task force to develop legislation for expanding access to affordable health insurance for the 2008 legislative session. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Jill Shaffer Hammond for Commerce: The task force established by this bill brings together a group of legislators, state agencies, policy groups, health care providers, insurance carriers, and consumer interests to study the programs of other states such as Massachusetts and Vermont, and develop legislation for the coming sessions, expanding access to affordable health coverage in New Hampshire. Vote 12-4.

Amendment (0828h)

Amend the title of the bill by replacing it with the following:

AN ACT establishing a task force to develop legislation for expanding access to affordable health insurance for the 2008 and 2009 legislative session.

Amend the bill by replacing all after the enacting clause with the following:

1 Task Force. There is established a task force to develop a legislative proposal for expanding access to affordable health insurance for the 2008 and 2009 legislative sessions of the general court.

I. The members of the task force shall be as follows:

(a) Three members of the house of representatives, appointed by the speaker of the house of representatives.

(b) Three members of the senate, appointed by the president of the senate.

(c) The commissioner of the insurance department, or designee.

(d) The commissioner of the department of health and human services, or designee.

(e) A representative of the governor's office, appointed by the governor.

(f) A representative of the New Hampshire community health centers, appointed by the governor.

(g) A representative of the New Hampshire Hospital Association, appointed by the association.

(h) A representative of the New Hampshire Medical Society, appointed by the society.

(i) A representative of the Endowment for Health, appointed by such organization.

(j) A representative of the New Hampshire Center for Public Policy Studies, appointed by the center.

(k) A representative of the Institute for Health, Law and Ethics at Franklin Pierce Law Center, appointed by the dean of the law center.

(l) A representative of the health insurance industry, appointed by the insurance commissioner.

(m) A representative of small business, appointed by the governor.

(n) A representative of organized labor, appointed by the governor.

(o) A representative of the New Hampshire healthy kids corporation, appointed by the corporation.

(p) A representative of the New Hampshire Citizens Health Initiative, appointed by the governor.

(q) A health care consumer, appointed by the governor.

II. The task force shall solicit information from any person or entity the task force deems relevant to its study.

III. Legislative members of the task force shall be voting members, and other members shall be non-voting members.

IV. Legislative members of the task force shall receive mileage at the legislative rate when attending to the duties of the task force.

3 Duties. The task force shall analyze and evaluate options and programs for expanding access to affordable health insurance and develop legislation to be proposed in the 2008 and 2009 legislative sessions. Such analysis and evaluation shall include the review of:

I. Laws in other states regarding access to affordable health insurance.

II. Expansion of the New Hampshire healthy kids corporation.

III. Any other matters that the task force deems necessary.

4 Chairperson; Quorum. The members of the task force shall elect a chairperson from among the members. The first meeting of the task force shall be called by the first-named house member. The first meeting of the task force shall be held within 45 days of the effective date of this section. Four voting members, and eleven members of the task force in all, shall constitute a quorum.

5 Report. The task force shall make an interim report with its findings and any recommendations for proposed legislation for the 2008 legislative session on or before November 1, 2007, and a final report with its findings and any recommendations for legislation on or before November 1, 2009 to the speaker of the house of representatives, the president of the senate, the house clerk, the senate clerk, the governor, and the state library.

6 Effective Date. This act shall take effect upon its passage.

AMENDED ANALYSIS

This bill establishes a task force to develop legislation for expanding access to affordable health insurance for the 2008 and 2009 legislative sessions.

Amendment adopted.

Committee report adopted and ordered to third reading.

HB 676, relative to interest on deposits required under gasoline franchise agreements. **INEXPEDIENT TO LEGISLATE.**

Rep. Stephen P. Spratt for Commerce: The committee felt that this bill addressed a unique situation and that its passage would legislate conditions of contractual agreements. With this in mind the committee voted inexpedient to legislate. Vote 13-4.

Committee report adopted.

HB 695, relative to regulation of wireless telephone service providers for consumer protection. **INEXPEDIENT TO LEGISLATE.**

Rep. Stephen P. Spratt for Commerce: The committee believed this bill addressed issues which are currently being satisfactorily addressed by disclosures from the issuing companies. These issues are also addressed in CTIA, the consumer code for wireless service. Vote 14-3.

Committee report adopted.

SPECIAL ORDER

HB 697, relative to responsible drug advertising. **INEXPEDIENT TO LEGISLATE.**

Rep. Jill Shaffer Hammond for Commerce: This bill sought to impose additional warnings on labels and advertising of prescription drugs. This is primarily regulated at the federal level. The amount of advertising originating in New Hampshire that might be affected would not be substantial and this measure would be hard to enforce. The sponsor of this bill brought a similar bill earlier in the session that was defeated by the House. Vote 14-3.

Rep. DeJoie spoke against and yielded to questions.

Rep. Jill Hammond spoke in favor.

Committee report adopted.

REGULAR CALENDAR (CONT'D)

HB 713-L, relative to displaying gasoline and diesel fuel prices. **MAJORITY: INEXPEDIENT TO LEGISLATE. MINORITY: OUGHT TO PASS WITH AMENDMENT.**

Rep. Edward A. Butler for the Majority of Commerce: This bill was requested by the owner of several gas stations. He would like the opportunity to change gas prices remotely and electronically, which is not currently possible on the smaller price signs on the top of the pumps. The majority of the committee agreed that the signs on the top of the pumps are important to consumers. Vote 12-4.

Rep. Joel F. Winters for the Minority of Commerce: On gas pumps, stations are required to post the price of fuel in 4 inch high numbers. The amendment to HB 713 would allow gas stations to provide notice of the fuel price to customers in 10 inch high numbers on a street sign instead. They would still be required to do one or the other; customers would still know how much they were paying for gas. Having considered the facts, the Minority believes that the amended HB 713 is common sense, enabling legislation.

Majority committee report adopted.

HB 728, relative to access to wireless telephone records. **INEXPEDIENT TO LEGISLATE.**

Rep. Jill Shaffer Hammond for Commerce: This bill sought to give private persons access to their cell phone records in case of an emergency. While it is certainly advantageous for law enforcement to have this access when a crime is committed, letting private individuals get this information, possibly through deceptive means such as pretexting, that could then be used detrimentally by an estranged spouse or a stalker, did not seem appropriate. Law enforcement personnel testified at the hearing that the matter should be left to law enforcement professionals. Vote 13-3.

Committee report adopted.

HB 738, requiring insurance coverage for infertility treatments. **MAJORITY: INEXPEDIENT TO LEGISLATE. MINORITY: OUGHT TO PASS.**

Rep. Robert F. Matheson for the Majority of Commerce: The bill requires insurance coverage for infertility diagnosis and treatment up to the birth of a child. The bill as presented leaves out many factors such as age of the women, number of times these procedures should be done if unsuccessful, who would be a likely candidate and other medical factors that are beyond the scope of the committee. Vote 9-4.

Rep. Jill Shaffer Hammond for the Minority of Commerce: Infertility treatments are no longer "experimental medicine." They have a 20-year track record of efficacy and costs have stabilized. It is time that coverage is included for the disease of infertility.

Rep. Crane spoke against.

Rep. Reardon spoke in favor.

Rep. Crane requested a roll call; sufficiently seconded.

and the majority committee report was adopted.

HB 767, relative to insurance for volunteer drivers. **OUGHT TO PASS.**

Rep. Stephen P. Spratt for Commerce: Due to the lack of public transportation in New Hampshire, charitable organizations rely heavily on volunteer transportation. This bill recognizes that fact and prohibits denial of insurance for automobiles or homeowner's insurance or a higher premium based on an individual's status as a volunteer driver. Vote 12-3.

Committee report adopted and ordered to third reading.

HB 790-FN, relative to dependent coverage under the healthy kids program and establishing the joint legislative oversight committee on insurance expansion initiatives. **MAJORITY: OUGHT TO PASS WITH AMENDMENT. MINORITY: INEXPEDIENT TO LEGISLATE.**

Rep. Jill Shaffer Hammond for the Majority of Commerce: This bill expands health coverage in family plans to young adults by defining a dependant as one under 26, who is unmarried; has no dependents of his or her own; is a resident of New Hampshire or is enrolled as a full-time student at an institution of higher education. Young adults (18-25) as a group have a high percentage of uninsured while being one of the healthiest and least costly to the health care system. This measure would provide continued coverage to many in state who attend college part time and work part time. By keeping this group insured and in the system, costs overall will be kept down and accounted for; and help encourage this age group to stay in New Hampshire. This bill also includes the intent of HB 78. Vote 8-7.

Rep. John B. Hunt for the Minority of Commerce: This bill represents an insurance coverage mandate that will add significant cost exposure to the business community, which is already struggling to pay health care costs, and may jeopardize existing coverage that dependents up to age 18 presently enjoy today. Employers will be required to continue to pay for family policies for a longer period of time, up to 7 years, or may be forced to make the very difficult economic decision to either require more or all of the premium to be paid by their employers. HB 790 may also have damaging effects on the individual market, which is presently growing and vibrant. The minority considers this bill to be the largest single mandate on business in the past 20 years.

Majority Amendment (0800h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to dependent coverage for health insurance and establishing the joint legislative oversight committee on insurance expansion initiatives.

Amend the bill by replacing all after the enacting clause with the following:

1 Insurance; Young Adults Added. Amend RSA 415:5, I(3) to read as follows:

(3) It purports to insure only one person, except that a policy may insure, originally or by subsequent amendment, upon the application of an adult member of a family who shall be

deemed the policyholder, any 2 or more eligible members of that family, including husband, wife, dependent children or any ~~children under a specified age which shall not exceed 18 years and any other person dependent upon the policyholder~~ *dependent under age 26. In this section "dependent" means a subscriber's child by blood or by law, who:*

(a) *Is less than 26 years of age.*

(b) *Is unmarried.*

(c) *Has no dependent of his or her own.*

(d) *Is a resident of New Hampshire or is enrolled as a full-time student at a public or private institution of higher education.*

(e) *Is not provided coverage as a name subscriber, insured, enrollee, or covered person under any other group or individual health benefits plan, group health plan, church plan or health benefits plan, or entitled to benefits under Title XVIII of the Social Security Act, Public Law 89-97, 42 U.S.C. 1395 et seq.*

2 New Subparagraph; Insurance; Young Adults Added. Amend RSA 415:5, I by inserting after subparagraph (3-a) the following new subparagraph:

(3-b)(a) The health insurance contract that provides coverage for a subscriber's dependent, who is a resident of New Hampshire, under which coverage of the dependent terminates at a specific age before the dependent's 26th birthday, on or after the effective date of this section, upon application of the dependent as set forth in subparagraph (c) provides coverage to the dependent after that specific age, until the dependent's 26th birthday.

(b) Nothing in this subparagraph shall be construed to require:

(1) Coverage for services provided to a dependent before the effective date of this section; or

(2) That an employer pay all or part of the cost of coverage for a dependent as provided pursuant to this section.

(c) A dependent covered by a subscriber's contract, which coverage under the contract terminates at a specific age before the dependent's 26th birthday, may make a written election for coverage as a dependent pursuant to this section, until the dependent's 26th birthday during an open enrollment period, as provided pursuant to the contract, if the dependent meets the requirements for dependent status of subparagraph I(3) of this section during the open enrollment period.

(d) Coverage for a dependent who makes a written election for coverage pursuant to subparagraph (c) of this subparagraph shall consist of coverage which is identical to the coverage provided to that dependent prior to the termination of coverage at the specific age provided in the contract. If coverage is modified under the contract for any similarly situated dependents for coverage prior to the termination of coverage at the specific age provided in the contract, the coverage shall also be modified in the same manner for the dependent.

(e) Coverage for a dependent provided pursuant to this subparagraph shall be provided until the earlier of the following:

(1) The dependent is disqualified for dependent status as set forth in subparagraph I(3) of this section;

(2) The date on which coverage ceases under the contract by reason of a failure to make timely payment of any premium required under the contract by the subscriber or dependent for coverage provided pursuant to this section. The payment of any premium shall be considered to be timely if made within 30 days after the due date or within a longer period as may be provided for by the contract; or

(3) The date upon which the employer under whose contract coverage is provided to a dependent ceases to provide coverage to the subscriber.

(f) Nothing in this subparagraph shall be construed to permit a health insurance carrier to refuse a written election for coverage by a dependent pursuant to subparagraph (c), based upon the dependent's prior disqualification pursuant to subparagraph (e)(1).

(g) Notice regarding coverage for a dependent as provided pursuant to this subparagraph shall be provided to a subscriber if:

(1) In the certificate of coverage prepared for subscribers on or about the date of commencement of coverage; and

(2) By the subscriber's employer:

(A) On or before the coverage of a subscriber's dependent terminates at the specific age as provided in the contract;

(B) At the time coverage of the dependent is no longer provided pursuant to this section because the dependent is disqualified for dependent status as set forth in subparagraph I(3), except this employer notice shall not be required when a dependent no longer qualifies based upon subparagraph I(3)(a) or (c);

(C) Before any open enrollment period permitting a dependent to make a written election for coverage pursuant to subparagraph I(3); and

(D) Immediately following the effective date of this subparagraph, with respect to information concerning a dependent's opportunity, for 12 months after the effective date of this subparagraph, to make a written election to reinstate coverage under a contract pursuant to subparagraph I(3-b)(c)(2).

3 New Section; Health Service Corporations; Dependent Coverage Added. Amend RSA 420-A by inserting after section 10 the following new section:

420-A:10-a Dependent Coverage.

I. A policy may insure, originally or by subsequent amendment, upon the application of an adult member of a family who shall be deemed the policyholder, any 2 or more eligible members of that family, including husband, wife, dependent children or any dependent under age 26. In this section "dependent" means a subscriber's child by blood or by law, who:

(a) Is less than 26 years of age.

(b) Is unmarried.

(c) Has no dependent of his or her own.

(d) Is a resident of New Hampshire or is enrolled as a full-time student at a public or private institution of higher education.

(e) Is not provided coverage as a name subscriber, insured, enrollee, or covered person under any other group or individual health benefits plan, group health plan, church plan, or health benefits plan, or entitled to benefits under Title XVIII of the Social Security Act, Public Law 89-97, 42 U.S.C. 1395 et seq.

II. The health insurance contract that provides coverage for a subscriber's dependent, who is a resident of New Hampshire, under which coverage of the dependent terminates at a specific age before the dependent's 26th birthday, on or after the effective date of this section, upon application of the dependent as set forth in subparagraph (b) provides coverage to the dependent after that specific age, until the dependent's 26th birthday.

(a) Nothing in this section shall be construed to require:

(1) Coverage for services provided to a dependent before the effective date of this section; or

(2) That an employer pay all or part of the cost of coverage for a dependent as provided pursuant to this section.

(b) A dependent covered by a subscriber's contract, which coverage under the contract terminates at a specific age before the dependent's 26th birthday, may make a written election for coverage as a dependent pursuant to this section, until the dependent's 26th birthday during an open enrollment period, as provided pursuant to the contract, if the dependent meets the requirements for dependent status of paragraph I of this section during the open enrollment period.

(c) Coverage for a dependent who makes a written election for coverage pursuant to subparagraph (b) shall consist of coverage which is identical to the coverage provided to that dependent prior to the termination of coverage at the specific age provided in the contract. If coverage is modified under the contract for any similarly situated dependents for coverage prior to the termination of coverage at the specific age provided in the contract, the coverage shall also be modified in the same manner for the dependent.

(d) Coverage for a dependent provided pursuant to this section shall be provided until the earlier of the following:

(1) The dependent is disqualified for dependent status as set forth in paragraph I of this section;

(2) The date on which coverage ceases under the contract by reason of a failure to make timely payment of any premium required under the contract by the subscriber or dependent for coverage provided pursuant to this section. The payment of any premium shall be considered to be timely if made within 30 days after the due date or within a longer period as may be provided for by the contract; or

(3) The date upon which the employer under whose contract coverage is provided to a dependent ceases to provide coverage to the subscriber.

(e) Nothing in this section shall be construed to permit a health insurance carrier to refuse a written election for coverage by a dependent pursuant to subparagraph (b), based upon the dependent's prior disqualification pursuant to subparagraph (d)(1).

(f) Notice regarding coverage for a dependent as provided pursuant to this section shall be provided to a subscriber if:

(1) In the certificate of coverage prepared for subscribers on or about the date of commencement of coverage; and

(2) By the subscriber's employer:

(A) On or before the coverage of a subscriber's dependent terminates at the specific age as provided in the contract;

(B) At the time coverage of the dependent is no longer provided pursuant to this section because the dependent is disqualified for dependent status as set forth in paragraph I, except this employer notice shall not be required when a dependent no longer qualifies based upon subparagraph I(a) or (c);

(C) Before any open enrollment period permitting a dependent to make a written election for coverage pursuant to paragraph I; and

(D) Immediately following the effective date of this subparagraph, with respect to information concerning a dependent's opportunity, for 12 months after the effective date of this subparagraph, to make a written election to reinstate coverage under a contract pursuant to subparagraph II(a)(2).

4 New Section; Health Maintenance Organizations; Dependent Coverage Added. Amend RSA 420-B by inserting after section 8-a the following new section:

420-B:8-aa Dependent Coverage.

I. A policy may insure, originally or by subsequent amendment, upon the application of an adult member of a family who shall be deemed the policyholder, any 2 or more eligible members of that family, including husband, wife, dependent children or any dependent under age 26. In this section "dependent" means a subscriber's child by blood or by law, who:

(a) Is less than 26 years of age.

(b) Is unmarried.

(c) Has no dependent of his or her own.

(d) Is a resident of New Hampshire or is enrolled as a full-time student at a public or private institution of higher education.

(e) Is not provided coverage as a name subscriber, insured, enrollee, or covered person under any other group or individual health benefits plan, group health plan, church plan, or health benefits plan, or entitled to benefits under Title XVIII of the Social Security Act, Public Law 89-97, 42 U.S.C. 1395 et seq.

II. The health insurance contract that provides coverage for a subscriber's dependent, who is a resident of New Hampshire, under which coverage of the dependent terminates at a specific age before the dependent's 26th birthday, on or after the effective date of this section, upon application of the dependent as set forth in subparagraph (b) provides coverage to the dependent after that specific age, until the dependent's 26th birthday.

(a) Nothing in this section shall be construed to require:

(1) Coverage for services provided to a dependent before the effective date of this section; or

(2) That an employer pay all or part of the cost of coverage for a dependent as provided pursuant to this section.

(b) A dependent covered by a subscriber's contract, which coverage under the contract terminates at a specific age before the dependent's 26th birthday, may make a written election for coverage as a dependent pursuant to this section, until the dependent's 26th birthday during an open enrollment period, as provided pursuant to the contract, if the dependent meets the requirements for dependent status of paragraph I of this section during the open enrollment period.

(c) Coverage for a dependent who makes a written election for coverage pursuant to subparagraph (b) shall consist of coverage which is identical to the coverage provided to that dependent prior to the termination of coverage at the specific age provided in the contract. If coverage is modified under the contract for any similarly situated dependents for coverage prior to the termination of coverage at the specific age provided in the contract, the coverage shall also be modified in the same manner for the dependent.

(d) Coverage for a dependent provided pursuant to this section shall be provided until the earlier of the following:

(1) The dependent is disqualified for dependent status as set forth in paragraph I of this section;

(2) The date on which coverage ceases under the contract by reason of a failure to make timely payment of any premium required under the contract by the subscriber or dependent for coverage provided pursuant to this section. The payment of any premium shall be considered to be timely if made within 30 days after the due date or within a longer period as may be provided for by the contract; or

(3) The date upon which the employer under whose contract coverage is provided to a dependent ceases to provide coverage to the subscriber.

(e) Nothing in this section shall be construed to permit a health insurance carrier to refuse a written election for coverage by a dependent pursuant to subparagraph (b), based upon the dependent's prior disqualification pursuant to subparagraph (d)(1).

(f) Notice regarding coverage for a dependent as provided pursuant to this section shall be provided to a subscriber if:

(1) In the certificate of coverage prepared for subscribers on or about the date of commencement of coverage; and

(2) By the subscriber's employer:

(A) On or before the coverage of a subscriber's dependent terminates at the specific age as provided in the contract;

(B) At the time coverage of the dependent is no longer provided pursuant to this section because the dependent is disqualified for dependent status as set forth in paragraph I, except this employer notice shall not be required when a dependent no longer qualifies based upon subparagraph I(a) or (c);

(C) Before any open enrollment period permitting a dependent to make a written election for coverage pursuant to paragraph I; and

(D) Immediately following the effective date of this subparagraph, with respect to information concerning a dependent's opportunity, for 12 months after the effective date of this subparagraph, to make a written election to reinstate coverage under a contract pursuant to subparagraph II(a)(2).

5 New Section; Preferred Provider Agreements; Dependent Coverage Added. Amend RSA 420-C by inserting after section 4 the following new section:

420-C:4-a Dependent Coverage.

I. A policy may insure, originally or by subsequent amendment, upon the application of an adult member of a family who shall be deemed the policyholder, any 2 or more eligible members of that family, including husband, wife, dependent children or any dependent under age 26. In this section "dependent" means a subscriber's child by blood or by law, who:

(a) Is less than 26 years of age.

(b) Is unmarried.

(c) Has no dependent of his or her own.

(d) Is a resident of New Hampshire or is enrolled as a full-time student at a public or private institution of higher education.

(e) Is not provided coverage as a name subscriber, insured, enrollee, or covered person under any other group or individual health benefits plan, group health plan, church plan, or health benefits plan, or entitled to benefits under Title XVIII of the Social Security Act, Public Law 89-97, 42 U.S.C. 1395 et seq.

II. The health insurance contract that provides coverage for a subscriber's dependent, who is a resident of New Hampshire, under which coverage of the dependent terminates at a specific age before the dependent's 26th birthday, on or after the effective date of this section, upon application of the dependent as set forth in subparagraph (b) provides coverage to the dependent after that specific age, until the dependent's 26th birthday.

(a) Nothing in this section shall be construed to require:

(1) Coverage for services provided to a dependent before the effective date of this section; or

(2) That an employer pay all or part of the cost of coverage for a dependent as provided pursuant to this section.

(b) A dependent covered by a subscriber's contract, which coverage under the contract terminates at a specific age before the dependent's 26th birthday, may make a written election for coverage as a dependent pursuant to this section, until the dependent's 26th birthday during an open enrollment period, as provided pursuant to the contract, if the dependent meets the requirements for dependent status of paragraph I of this section during the open enrollment period.

(c) Coverage for a dependent who makes a written election for coverage pursuant to subparagraph (b) of this subparagraph shall consist of coverage which is identical to the coverage provided to that dependent prior to the termination of coverage at the specific age provided in the contract. If coverage is modified under the contract for any similarly situated dependents for coverage prior to the termination of coverage at the specific age provided in the contract, the coverage shall also be modified in the same manner for the dependent.

(d) Coverage for a dependent provided pursuant to this section shall be provided until the earlier of the following:

(1) The dependent is disqualified for dependent status as set forth in paragraph I of this section;

(2) The date on which coverage ceases under the contract by reason of a failure to make timely payment of any premium required under the contract by the subscriber or dependent for coverage provided pursuant to this section. The payment of any premium shall be considered to be timely if made within 30 days after the due date or within a longer period as may be provided for by the contract; or

(3) The date upon which the employer under whose contract coverage is provided to a dependent ceases to provide coverage to the subscriber.

(e) Nothing in this section shall be construed to permit a health insurance carrier to refuse a written election for coverage by a dependent pursuant to subparagraph (b), based upon the dependent's prior disqualification pursuant to subparagraph (d)(1).

(f) Notice regarding coverage for a dependent as provided pursuant to this section shall be provided to a subscriber if:

(1) In the certificate of coverage prepared for subscribers on or about the date of commencement of coverage; and

(2) By the subscriber's employer:

(A) On or before the coverage of a subscriber's dependent terminates at the specific age as provided in the contract;

(B) At the time coverage of the dependent is no longer provided pursuant to this section because the dependent is disqualified for dependent status as set forth in paragraph I, except this employer notice shall not be required when a dependent no longer qualifies based upon paragraph I(a) or (c);

(C) Before any open enrollment period permitting a dependent to make a written election for coverage pursuant to paragraph I; and

(D) Immediately following the effective date of this subparagraph, with respect to information concerning a dependent's opportunity, for 12 months after the effective date of this subparagraph, to make a written election to reinstate coverage under a contract pursuant to subparagraph II(a)(2).

6 New Section; Delta Dental; Dependent Coverage Added. Amend RSA 420-F by inserting after section 5 the following new section:

420-F:5-a Dependent Coverage.

I. A policy may insure, originally or by subsequent amendment, upon the application of an adult member of a family who shall be deemed the policyholder, any 2 or more eligible members of that family, including husband, wife, dependent children or any dependent under age 26. In this section "dependent" means a subscriber's child by blood or by law, who:

(a) Is less than 26 years of age.

(b) Is unmarried.

(c) Has no dependent of his or her own.

(d) Is a resident of New Hampshire or is enrolled as a full-time student at a public or private institution of higher education.

(e) Is not provided coverage as a name subscriber, insured, enrollee, or covered person under any other group or individual health benefits plan, group health plan, church plan, or health benefits plan, or entitled to benefits under Title XVIII of the Social Security Act, Public Law 89-97, 42 U.S.C. 1395 et seq.

II. The health insurance contract that provides coverage for a subscriber's dependent, who is a resident of New Hampshire, under which coverage of the dependent terminates at a specific age before the dependent's 26th birthday, on or after the effective date of this section, upon application of the dependent as set forth in subparagraph (b) provides coverage to the dependent after that specific age, until the dependent's 26th birthday.

(a) Nothing in this section shall be construed to require:

(1) Coverage for services provided to a dependent before the effective date of this section; or

(2) That an employer pay all or part of the cost of coverage for a dependent as provided pursuant to this section.

(b) A dependent covered by a subscriber's contract, which coverage under the contract terminates at a specific age before the dependent's 26th birthday, may make a written election for coverage as a dependent pursuant to this section, until the dependent's 26th birthday during an open enrollment period, as provided pursuant to the contract, if the dependent meets the requirements for dependent status of paragraph I of this section during the open enrollment period.

(c) Coverage for a dependent who makes a written election for coverage pursuant to subparagraph (b) shall consist of coverage which is identical to the coverage provided to that dependent prior to the termination of coverage at the specific age provided in the contract. If coverage is modified under the contract for any similarly situated dependents for coverage prior to the termination of coverage at the specific age provided in the contract, the coverage shall also be modified in the same manner for the dependent.

(d) Coverage for a dependent provided pursuant to this section shall be provided until the earlier of the following:

(1) The dependent is disqualified for dependent status as set forth in paragraph I of this section;

(2) The date on which coverage ceases under the contract by reason of a failure to make timely payment of any premium required under the contract by the subscriber or dependent for coverage provided pursuant to this section. The payment of any premium shall be considered to be timely if made within 30 days after the due date or within a longer period as may be provided for by the contract; or

(3) The date upon which the employer under whose contract coverage is provided to a dependent ceases to provide coverage to the subscriber.

(e) Nothing in this section shall be construed to permit a health insurance carrier to refuse a written election for coverage by a dependent pursuant to subparagraph (b), based upon the dependent's prior disqualification pursuant to subparagraph (d)(1).

(f) Notice regarding coverage for a dependent as provided pursuant to this section shall be provided to a subscriber if:

(1) In the certificate of coverage prepared for subscribers on or about the date of commencement of coverage; and

(2) By the subscriber's employer:

(A) On or before the coverage of a subscriber's dependent terminates at the specific age as provided in the contract;

(B) At the time coverage of the dependent is no longer provided pursuant to this section because the dependent is disqualified for dependent status as set forth in paragraph I, except this employer notice shall not be required when a dependent no longer qualifies based upon subparagraph I(a) or (c);

(C) Before any open enrollment period permitting a dependent to make a written election for coverage pursuant to paragraph I; and

(D) Immediately following the effective date of this subparagraph, with respect to information concerning a dependent's opportunity, for 12 months after the effective date of this subparagraph, to make a written election to reinstate coverage under a contract pursuant to subparagraph II(a)(2).

7 New Section; Managed Care; Dependent Coverage Added. Amend RSA 420-J by inserting after section 8-b the following new section:

420-J:8-c Dependent Coverage.

I. A policy may insure, originally or by subsequent amendment, upon the application of an adult member of a family who shall be deemed the policyholder, any 2 or more eligible members of that family, including husband, wife, dependent children or any dependent under age 26. In this section "dependent" means a subscriber's child by blood or by law, who:

- (a) Is less than 26 years of age.
- (b) Is unmarried.
- (c) Has no dependent of his or her own.
- (d) Is a resident of New Hampshire or is enrolled as a full-time student at a public or private institution of higher education.
- (e) Is not provided coverage as a name subscriber, insured, enrollee, or covered person under any other group or individual health benefits plan, group health plan, church plan, or health benefits plan, or entitled to benefits under Title XVIII of the Social Security Act, Public Law 89-97, 42 U.S.C. 1395 et seq.

II. The health insurance contract that provides coverage for a subscriber's dependent, who is a resident of New Hampshire, under which coverage of the dependent terminates at a specific age before the dependent's 26th birthday, on or after the effective date of this section, upon application of the dependent as set forth in subparagraph (b) provides coverage to the dependent after that specific age, until the dependent's 26th birthday.

(a) Nothing in this section shall be construed to require:

(1) Coverage for services provided to a dependent before the effective date of this section; or

(2) That an employer pay all or part of the cost of coverage for a dependent as provided pursuant to this section.

(b) A dependent covered by a subscriber's contract, which coverage under the contract terminates at a specific age before the dependent's 26th birthday, may make a written election for coverage as a dependent pursuant to this section, until the dependent's 26th birthday during an open enrollment period, as provided pursuant to the contract, if the dependent meets the requirements for dependent status of paragraph I of this section during the open enrollment period.

(c) Coverage for a dependent who makes a written election for coverage pursuant to subparagraph (b) shall consist of coverage which is identical to the coverage provided to that dependent prior to the termination of coverage at the specific age provided in the contract. If coverage is modified under the contract for any similarly situated dependents for coverage prior to the termination of coverage at the specific age provided in the contract, the coverage shall also be modified in the same manner for the dependent.

(d) Coverage for a dependent provided pursuant to this section shall be provided until the earlier of the following:

(1) The dependent is disqualified for dependent status as set forth in paragraph I of this section;

(2) The date on which coverage ceases under the contract by reason of a failure to make timely payment of any premium required under the contract by the subscriber or dependent for coverage provided pursuant to this section. The payment of any premium shall be considered to be timely if made within 30 days after the due date or within a longer period as may be provided for by the contract; or

(3) The date upon which the employer under whose contract coverage is provided to a dependent ceases to provide coverage to the subscriber.

(e) Nothing in this section shall be construed to permit a health insurance carrier to refuse a written election for coverage by a dependent pursuant to subparagraph (b), based upon the dependent's prior disqualification pursuant to subparagraph (d)(1).

(f) Notice regarding coverage for a dependent as provided pursuant to this section shall be provided to a subscriber if:

(1) In the certificate of coverage prepared for subscribers on or about the date of commencement of coverage; and

(2) By the subscriber's employer:

(A) On or before the coverage of a subscriber's dependent terminates at the specific age as provided in the contract;

(B) At the time coverage of the dependent is no longer provided pursuant to this section because the dependent is disqualified for dependent status as set forth in paragraph I, except this employer notice shall not be required when a dependent no longer qualifies based upon paragraph I(a) or (c);

(C) Before any open enrollment period permitting a dependent to make a written election for coverage pursuant to paragraph I; and

(D) Immediately following the effective date of this section, with respect to information concerning a dependent's opportunity, for 12 months after the effective date of this subparagraph, to make a written election to reinstate coverage under a contract pursuant to subparagraph II(a)(2).

8 New Section; Special Enrollment Period. Persons newly qualified as dependents under RSA 415:5, I(3-b)(c), RSA 420-A:10-a, II(b), RSA 420-B:8-aa, II(b), RSA 420-C:4-b, II(b), RSA 420-F:5-a, II(b) and RSA 420-J:8-c, II(b) as of the effective date of this act shall be eligible to an enrollment period beginning on the effective date of this act and meeting the requirements of RSA 420-G:8.

9 New Section; Oversight Committee Established. Amend RSA 400-A by inserting after section 11 the following new section:

400-A:11-a Oversight Committee Established.

I. There is hereby established a joint legislative oversight committee on insurance expansion initiatives.

II. The committee shall consist of 5 members, 3 of whom shall be members of the house of representatives, appointed by the speaker of the house of representatives, and 2 of whom shall be senators, appointed by the president of the senate. Members shall be appointed for their term of office. All members shall be eligible for reappointment so long as they are qualified under this section. The members shall choose from their number a chairperson, provided that the chair shall rotate biennially between the house and senate members.

III. The committee shall review reports filed by the commissioner and the commissioner of the department of health and human services to monitor the effectiveness and cost of the insurance expansion program. The committee shall submit a written report of its findings, together with any recommendations for legislation, to the speaker of the house of representatives, the president of the senate, and the chairpersons of the house commerce committee and the senate banks and insurance committee on or before November 1 of each year.

IV. Members of the committee shall serve without compensation but shall receive mileage at the legislative rate when attending to the duties of the committee.

10 Effective Date. This act shall take effect 60 days after its passage.

AMENDED ANALYSIS

This bill expands the definition of dependent young adults to those who are less than 26 years of age for purposes of insurance coverage.

This bill also establishes the joint legislative oversight committee on insurance expansion initiatives.

Majority committee amendment adopted.

The question now being adoption of the majority committee report of Ought to Pass with Amendment. Rep. Hunt spoke against and yielded to questions.

Rep. Reardon spoke in favor.

Rep. Wallner requested a roll call; sufficiently seconded.

and the majority committee report was adopted.
Referred to the Committee on Finance.

HB 853, establishing a commission to study the effect of fiat currency on the wealth of New Hampshire citizens. **MAJORITY: INEXPEDIENT TO LEGISLATE. MINORITY: OUGHT TO PASS.**

Rep. Stephen T. Pelkey for the Majority of Commerce: This bill would have no effect or demands on the federal government to change our federal reserve system and therefore would be a poor use of our legislative resources. Although the sponsors' intent is to surface the discussion of fiat currency, the majority of the committee felt strongly that it should not be part of our legislative process. However, in support of the sponsors' intent, Thomas Jefferson was claimed to have said that, "If the American people ever allow private banks to control the issue of their money, first by inflation and then by deflation, the banks and corporations that will grow up around them will deprive the people of their property until their children will wake up homeless on the continent their fathers conquered." With that said, the Federal Reserve (a private bank) which controls our money (paper aka "fiat money" which is defined as inconvertible paper by a government decree which is backed insufficiently by gold and by the levying of future taxes) falls exclusively under the jurisdiction of the United States government, not the State of New Hampshire. Vote 14-1.

Rep. Joel F. Winters for the Minority of Commerce: Establishing a commission to study fiat currency is an idea which deserves support. When the Federal Reserve issues paper currency, the new money is not backed by anything of value, yet we treat it as though these pieces of paper actually had some inherent worth. Over time, as more and more money is printed, the law of supply and demand kicks in: the larger the money supply, the less valuable each piece of paper is worth (inflation). Realizing that this hidden tax hurts the poor most of all by diluting their purchasing power faster than their wages increase, the Minority is unable to support the Majority recommendation. Some of the rising cost of health care, gasoline, and housing can be attributed to inflation; does it not make sense to look at a root cause of these problems which hurt so many New Hampshire families?

Rep. Winters spoke against.

Rep. Pelkey spoke in favor.

Majority committee report adopted.

HB 860, relative to maintenance of draft beer equipment. **INEXPEDIENT TO LEGISLATE.**

Rep. Paul McEachern for Commerce: The legislation would have the effect of threatening the existence of independent contractors who now clean the lines of all draught lines in an establishment. It further would hinder diversity in the choices of draught beers available, especially in a small establishment which may only have three or four choices. Vote 14-2.
Committee report adopted.

HB 607-FN, relative to the death penalty. **MAJORITY: INEXPEDIENT TO LEGISLATE. MINORITY: OUGHT TO PASS**

Rep. Stanley E. Stevens for the Majority of Criminal Justice and Public Safety: This bill, as usual, was a close vote in the committee. It seeks to repeal the death penalty in Capital Murder cases. New Hampshire, unlike other states that still have the death penalty, has a very narrowly defined law with a very complex procedure that must be followed. It is crafted so as to be applicable only under very narrowly defined circumstances. Opponents argue that since there have been no executions since 1939, it is unnecessary. This speaks more to the fact that the law is so narrowly applied it is not necessary to use the penalty, not that it is inappropriate. One of the major protections provided by current law is to make the death penalty applicable for the murder of a police officer, a judge, or a corrections officer who are acting in their official capacity. For this reason alone, if for no other, this law is a necessary protection for the guardians of our society. Vote 10-8.

Rep. Lee M. Hammond for the Minority of Criminal Justice and Public Safety: Failing to pass this legislation would keep the death penalty in New Hampshire law and keep us in company with Saudi Arabia, North Korea, Iraq, Iran and China rather than in the community of nations, including all of Europe and most of the rest of what we consider the "civilized world." While our state has not had an execution since 1939, it remains an option that should not be part of our contemporary New

Hampshire society. The representatives of all religions who testified before us oppose the death penalty. It only embraces vengeance. It does not act as deterrence. The cost of implementing a single execution far exceeds that of a sentence of life imprisonment without the possibility of parole.

Reps. Lee Hammond and McEachern spoke against and yielded to questions.

Rep. Stevens spoke in favor and yielded to questions.

Rep. Splaine spoke against.

Rep. Pantelakos spoke in favor.

Rep. Splaine requested a roll call; sufficiently seconded.

MOTION TO RECONSIDER

Having voted with the prevailing side, Rep. Wendelboe moved that the House reconsider its action whereby it found **HB 607**, relative to the death penalty, Inexpedient to Legislate.

Rep. Wendelboe spoke against.

On a division vote, 152 members having voted in the affirmative and 206 in the negative, the motion failed.

REGULAR CALENDAR (CONT'D)

HB 556, relative to school emergency response plans. **MAJORITY: OUGHT TO PASS. MINORITY: INEXPEDIENT TO LEGISLATE.**

Rep. Barbara E. Shaw for the Majority of Education: The committee recognizes the importance for every public and nonpublic school in the state to have in place a site-specific emergency response plan. Many already have plans, but some do not. This bill provides the opportunity for assistance to the school districts for support in the development, implementation and review of an emergency response plan, as may be needed. Vote 12-6.

Rep. Sharon M. Carson for the Minority of Education: This bill requires that every school district across this state implement an Incident Command System and the National Incident Management System to address a variety of potential disasters that could affect any given school. A minority of the committee agrees school districts should have disaster preparedness plans, but to reference two specific programs with no financial assistance creates an unfunded mandate, a violation of Article 28a of the New Hampshire State Constitution.

Rep. Carson spoke against.

Rep. Barbara Shaw spoke in favor.

On a division vote, 213 members having voted in the affirmative and 142 in the negative, the majority committee report was adopted.
Ordered to third reading.

The House recessed at 12:55 p.m.

(Speaker Norelli in the Chair)

The House reconvened at 1:55 p.m.

REGULAR CALENDAR (CONT'D)

HB 927-FN, relative to the specific criteria and substantive educational program that define an adequate education. **MAJORITY: OUGHT TO PASS WITH AMENDMENT. MINORITY: OUGHT TO PASS WITH AMENDMENT.**

Rep. J. Timothy Dunn for the Majority of Education: This bill represents the hard work and deliberative process of a bipartisan subcommittee of the House Education Committee. The committee's philosophical premise underlying this bill is that the crucial policy decision regarding how to define an adequate education needs to be accomplished first and separate from any attempt at determining the specific methodology of costing it. We must first identify the specific content areas that make up an adequate education. This approach also responds to the mandate of the Supreme Court in the Londonderry decision to determine the definition of a constitutionally adequate education by July 1, 2007. This bill defines an adequate education as meeting the New Hampshire school approval standards and curriculum frameworks in nine specific content areas. The committee further believes that kindergarten is an essential component of an adequate education based on the overwhelming research in the field. In fact, the most requested aspect of adequacy given in testimony to the Joint Legislative Task Force was that kindergarten be included in the definition. While including half-day kindergarten, local communities still have flexibility in meeting that requirement, and the Attorney General's office reported to the subcommittee that including kindergarten would not create a 28-A, unfunded mandate problem because the state must pay for adequacy. A bipartisan subcommittee of House Education was assigned the task to review all the bills addressing adequacy and to recommend the best approach to defining adequacy for the state. This bill as amended represents that effort. It is the belief of the majority of the committee that this bill defines with specificity what constitutes an adequate education as required by the Londonderry decision and is costable as required by the court. Furthermore, the bill expresses the clear intent of the committee that when the general court moves on to determining the cost of an adequate education, it should account for the services, educational supports, and instructional resources, including teachers, that are necessary to provide the opportunity for an adequate education. Vote 11-6.

Rep. Sharon M. Carson for the Minority of Education: The committee was charged with the task of defining adequacy; however, the majority has stated that adequacy shall be defined independent of cost. It is the position of the minority of the committee that the Legislature must define adequacy, but that we must also determine the cost, fund it in a constitutional manner and ensure its delivery. While some have put emphasis on the definition, it is poor public policy to not discuss these other issues. The committee amendment to this bill proposes a definition of adequacy including mandatory kindergarten as a component of adequacy, which the courts have never weighed in on, nor suggested should be a part of adequacy. The Attorney General's office explained to the committee that including kindergarten in the definition of adequacy mandates the program statewide, and requires that the state fully fund it. This is a cost driver in the definition, yet one that we are told must be overlooked since it is not appropriate to discuss cost at this time. This will be a large expense borne by the state since kindergarten is not currently required, and several large communities (Hudson, Derry and Salem for example), do not have the facilities, means or existing programs to deal with this new mandate. This overrides local control. Further, the minority of the committee believes that the support for kindergarten should be determined in separate legislation and not be a component of adequacy. The evaluation of fiscal implications has been routine and essential when it comes to the legislative process, and no bill should be passed on without some sort of estimate at the very least. Unless we are prepared to discuss opening a whole new revenue stream, we must be cognizant of the cost of any definition we adopt. A minority of the committee offered an amendment that does much of what was agreed to in the adequacy subcommittee, but it adds specific criteria to the definition of adequacy in terms of hours at the elementary level and

credits at the high school level, similar to state standards. It addresses concerns of costing because it further establishes a legislative committee that is responsible for recommending costs of an adequate education and recommending the amount of aid to be distributed to communities, among other things. The proposed minority amendment more clearly reflects what the Legislature is responsible for in terms of defining and delivering an adequate education to the children of New Hampshire. We ask that the House pass the amendment to be offered by a minority of the committee.

Majority Amendment (0900h)

Amend the bill by replacing all after the enacting clause with the following:

I Statement of Purpose.

I. The general court embraces its duty to define a constitutionally adequate public education for every child in the state. The Encouragement of Literature clause of the New Hampshire constitution declares that knowledge and learning spread through a community are "essential to the preservation of a free government," and that "spreading the opportunities and advantages of education" is a means to preserving a free, democratic state. Beyond competencies in reading, writing, and arithmetic, a broad exposure to the social, economic, scientific, technological, and political realities of today's society is essential for New Hampshire students to compete, contribute and flourish in the twenty-first century.

II. The general court finds that a constitutionally adequate education in New Hampshire consists of the substantive education programs half-day kindergarten through twelfth grade that deliver the essential opportunities to acquire skills, competencies, and knowledge in the subject areas of English/language arts and reading, mathematics, science, social studies, the arts, world languages, technology, information and communication technologies, health and physical education. The general court finds that an adequate education should provide every child in New Hampshire with the opportunity to receive these substantive education programs in accordance with the specific criteria and high standards for these education programs that are set forth in the applicable school approval standards. The general court further finds that each child needs a range of services, educational supports, and instructional resources, including credentialed teachers, in order to receive the opportunity for the substantive educational programs that constitute an adequate education.

III. In September 2006, the New Hampshire supreme court ruled in Londonderry School District SAU #12 & a. v. State of New Hampshire that the state had not met its duty to define a constitutionally adequate education for New Hampshire's public school students by not identifying the specific criteria and the substantive education program that delivers the opportunity for an adequate education.

IV. In responding to its responsibility to determine the specific criteria and substantive education program that delivers the opportunity for an adequate education, the general court analyzed the current education delivery system established jointly through the legislative and executive branches. Specifically, the general court reviewed the standards for public school approval and the state's curriculum frameworks. As part of its review, the general court determined which of the standards and curriculum frameworks provide the opportunity for an adequate education. In analyzing the school approval standards and curriculum frameworks, the general court recognized that they were developed with the widespread participation of educators, business people, government officials, community representatives, and parents. As a result of the quality of both the standards and the frameworks, the general court uses them as the basis for its determination of the specific criteria for an adequate education.

V. The general court reviewed and debated numerous bills attempting to determine the specific criteria of an adequate education. An integral part of this legislative process was the gathering of public input through forums throughout the state at which educators, government officials, and members of the public offered their opinions on draft legislation.

VI. The specific criteria for an adequate education, as enacted in this act, are formulated to permit common understanding, foster meaningful application, and allow for objective measurement and assessment.

VII. This act is not intended to stand in isolation from the other statutes and rules, including both state and federal, but instead is one part of a comprehensive system that provides for the delivery of the opportunity for a constitutionally adequate education in New Hampshire.

2 New Section; Substantive Educational Content of an Adequate Education. Amend RSA 193-E by inserting after section 2 the following new section:

193-E:2-a Substantive Educational Content of an Adequate Education.

I. The specific criteria and substantive educational program that delivers the opportunity for an adequate education shall be defined and identified as follows:

(a) The general court establishes within the school approval standards the essential opportunities for educational programs in the following areas:

- (1) English/language arts and reading.
- (2) Mathematics.
- (3) Science.
- (4) Social studies.
- (5) Arts education.
- (6) World languages.
- (7) Health education.
- (8) Physical education.
- (9) Technology education, and information and communication technologies.

(b) The standards shall cover half-day kindergarten through twelfth grade and shall clearly set forth the opportunities to acquire skills, competencies, and knowledge expected to be possessed by students at the various grade levels, including the credit requirement necessary to earn a high school diploma.

(c) Public schools and public academies shall adhere to the standards identified in subparagraph (a).

(d)(1) The general court shall maintain procedures for updating, improving, or refining the standards identified in subparagraph (a), and shall ensure that the high quality of the standards is maintained.

(2) There is hereby established the joint legislative oversight committee on education adequacy which shall consist of 5 members of the house of representatives, appointed by the speaker of the house of representatives, and 5 senators, appointed by the president of the senate. The committee shall review all proposed changes to the school approval standards and the curriculum frameworks which could impact the definition of an adequate education as set forth in this chapter. The committee shall notify the chairpersons of house and senate education committees of any proposed changes to the school approval standards or the curriculum frameworks, and shall provide recommendations regarding these changes to the joint legislative committee on administrative rules. The members of the committee shall receive mileage at the legislative rate while attending to the duties of the committee.

(e) This section shall not prohibit or limit the adoption of additional school approval standards other than those standards identified in subparagraph (a).

(f) The general court requires the state board of education and the department of education to institute procedures for maintaining, updating, improving, and refining curriculum frameworks for each area of education identified in subparagraph (a). The curriculum frameworks shall present educational goals, broad pedagogical approaches and strategies for assisting students in the development of the skills, competencies and knowledge called for by the academic standards for each area of education identified in subparagraph (a). The curriculum frameworks shall serve as a guide and reference to what New Hampshire students should know and be able to do in each area of education. The frameworks do not establish a statewide curriculum. It is the responsibility of local teachers, administrators, and school boards to identify and implement approaches best suited for the students in their communities to acquire the skills and knowledge included in the frameworks, to determine the scope, organization, and sequence of course offerings, and to choose the methods of instruction, the activities, and materials to be used.

(g) In this section, "school approval standards" shall mean the applicable criteria that public schools and public academies shall meet in order to be an approved school, as adopted by the state board of education through administrative rules.

II. The general court shall use this definition of an adequate education to determine the cost of providing essential programs, considering educational needs and community resources. Because students' educational needs and the resources required to provide the opportunity to meet those needs vary from student to student and school to school, the resources needed to provide an adequate education will also vary from school to school, requiring more resources in districts with greater challenges.

3 Reference Changes. Amend the following RSA provisions by replacing "equitable" with "adequate": RSA 21-N:1, II(c); RSA 193:1, I(c); RSA 193-E:1, II; the section heading and introductory paragraph

of RSA 193-E:2; the section heading of RSA 193-E:3; RSA 194-B:3, II(i); RSA 195:14, I(c); RSA 195:14, I(d)(2)-(3); RSA 195:14-a, I; RSA 198:41, II(b); RSA 198:41, III; the section heading of RSA 198:42; RSA 198:42, I-II; RSA 198:43; RSA 198:48; and RSA 198:48-a, VII-VIII.

4 Effective Date. This act shall take effect upon its passage.

Reps. Carson, Ingbreton, Price and Hess spoke against.

Reps. Dunn, Casey, Reeve and Stiles spoke in favor.

Rep. Rous requested a roll call; sufficiently seconded.

Rodeschin, Beverly
and the majority committee report was adopted.
Ordered to third reading.

MOTION TO SUSPEND THE RULES

Rep. Hess moved that the Rules be so far suspended to allow referral of **HB 927-FN**, relative to the specific criteria and substantive educational program that define an adequate education, to the committee on Finance.

Rep. Marjorie Smith spoke against and yielded to questions.

Rep. Whalley spoke in favor.

The Speaker ruled that the motion to suspend the rules was not in order and **HB 927** did not require referral to the committee on Finance.

MOTION TO PRINT DEBATE

Rep. Daniel Eaton moved that the debate on **HB 927-FN**, relative to the specific criteria and substantive educational program that define an adequate education, be printed in the Permanent Journal. On a division vote, 332 members having voted in the affirmative and 26 in the negative, the motion was adopted.

HB 927-FN

DEBATE ON MAJORITY AMENDMENT

Speaker: The Chair recognizes the Representative from Londonderry, Rep. Carson.

Rep. Carson: Thank you, Madam Speaker and at this point I'd like to request a quorum call please.

Speaker: Will members please take their seats? The Chair determines that a quorum is present. You may continue.

Rep. Carson: Thank you, Madam Speaker and good afternoon. Good afternoon, honorable colleagues. I rise this afternoon to ask your support in overturning the committee report of Ought to Pass on this amendment. I would like to speak as to why. I don't think anyone who has served on House Education in the past, served on the subcommittee, who looked at adequacy, the committee members and probably every member in this Hall, can say that kindergarten is not a good thing. We all realize the benefits of kindergarten and that is not the point of the debate here this afternoon. The point of the debate this afternoon is that by mandating kindergarten in adequacy we are again creating a 28a violation of the New Hampshire state constitution. We have now, with this amendment, mandated kindergartens for the 13 districts in this state that do not have kindergarten and we have not identified a funding mechanism for these communities. Again, this is a clear violation of article 28a of the New Hampshire constitution which states that if the state mandates a program, the state pays all costs and that includes all ongoing costs which in my opinion, could create a possible violation of the equal protection clause and that some communities that have already implemented kindergarten will not receive the same amount of money as the districts that did not implement kindergarten and now will be paid 100% of all their costs. Again, when I spoke to school superintendents on Friday and yesterday about these communities that do not have kindergarten, I was quoted some pretty astronomical figures as to what its going to cost to implement kindergarten. Of the six superintendents that I was able to reach, I was told that it was going to cost for these six communities at least \$50 million dollars to implement kindergarten in these districts. Many of them have problems with space. They are going to either have to add on to an existing building or they are going to have to build a new building. They have to hire teachers. They have to come up with all the supplies, the desks, all of the equipment. They are going to have to pay for teachers benefits. They are going to have to pay for professional development, everything, all the way down the line. In these communities, the voters decided they did not want kindergarten and they decided for a number of reasons. But, again, we are now going to mandate it. We are going to say we are taking away your vote in your community as to whether or not you want kindergarten and we are now saying that the state will mandate it which I feel is a huge issue. So, there are going to be other speakers who are going to speak to other portions of this, but again, I would like your support. This is an unfunded mandate. The committee, the subcommittee, voted three times on this issue. Twice, it was turned down. It was only on the last vote that it was approved. So, please think very carefully about this when you vote. Think about the costs, what its going to cost the taxpayers of this state and how can we, as legislators, in good conscience, pass a law that is going to cost the taxpayers of this state significant dollars and not even have the courage to tell them how much its going to cost. Thank you.

Speaker: The question before the House is on the majority committee amendment. The Chair recognizes the representative from Keene, Representative Dunn.

Rep. Dunn: Thank you, Madam Speaker. Good afternoon members of the General Court. I rise today in support of the majority amendment. The Londonderry court case offers us a unique opportunity to do something we've never done. That is, of course, to define an adequate education. Beyond that, the court mandated that we do it before we concern ourselves with money. Doing it that way was difficult. As the subcommittee members were making points we would inadvertently say something about money or funding. We constantly needed to remind ourselves and each other that that was not a part of the court's directive at this point. Figuring out the cost and funding were steps two and three of the process to happen at a later date. Our mission then was to include all aspects of education we felt constituted an adequate education in the state of New Hampshire. The court further stipulated the definition be clear, specific, substantive, easily understood and easy to figure out costs. Because we have listed programs and stressed the fact that this definition is for every child in the state, establishing costs will be relatively easy to accomplish. In short, the courts directive was simple. Make sound educational policy the priority, not money. The amendment offered by the majority of the Education Committee, we think, meets all of these requirements. The subcommittee worked arduously, narrowing to meet the guidelines of the supreme court. We retained eight bills to use for information and guidance. Several of those bills contained more than the definition so the subcommittee chose to use HB 927 as less cutting was necessary and the others could be used in the next steps. General bipartisan agreement held that we would focus on curriculum, instruction and subject areas that matched 193-E:2, supported by state standards for school approval and state frameworks. As we proceeded, the subcommittee got guidance from the attorney general's office and from house counsel regarding aspects of the court's Londonderry decision. The joint task force on adequate education also became a source of information for us. Our greatest disagreement came when deciding to include kindergarten. The majority of the subcommittee agreed that kindergarten was necessary to include. The minority disagreed. When the subcommittee reported their work to the full committee, the same objection was raised. The objection is, was, that it raised a 28a issue. According to a representative from the attorney general's office, there is no issue here. The state involvement with education predates the passage of 28a and it didn't apply to many other changes in school standards when costs then were well known. They don't now. This amendment comes forward with bipartisan support from the House Education Committee and from the Senate members of the task force. I hope that you can see the honest effort put forth and agree and press the green button. Thank you, Madam Chairman and I will take no questions.

Speaker: The question before the House is on the majority committee amendment. The Chair recognizes the member from Haverhill, Representative Ingbreton.

Rep. Ingbreton: Thank you, Madam Speaker. I rise to oppose the majority report, but I don't represent the minority blurb. I represent a considerably different position. In the 1993 Claremont decision, the New Hampshire supreme court decided to change New Hampshire's historic education formula when it ruled that the encouragement of literature clause of the state constitution imposes duty on the state to "provide constitutionally adequate education to every educable child in public schools in the state and to guarantee adequate funding." The court's word "provide" again, going against two hundreds years of New Hampshire precedent, means that the state must assume responsibility for all elements of education now accomplished by local districts including the hiring of teachers, providing and maintaining school buildings, busing, etc. As many of you know, the implications of a state takeover have been studiously avoided by governors and legislators ever since that 1993 ruling. In December of 1997, the court further determined that local property taxes can't be used to pay for what the court described as the state's guaranteed funding obligation. Those among us happy to dispense of local control and especially with those darn local school property taxes might want to think again. The centralized education model which the court prescribed for New Hampshire is similar to systems employed by California and Hawaii. California and Hawaii scored dead last in education ranking in a recent study by the US Chamber of Commerce. Kentucky, from which the court got its adequacy outline, ranked no better than a D on that report. On the other hand, the same Chamber of Commerce study ranks New Hampshire among the top three states for educational quality. I submit that this is at least partly because education in New Hampshire is still a local function driven by and administered through local school boards, the cost being paid through local property taxes. Presentations before the Education Committee suggested that the court's approach would lower property taxes. In New Jersey the same promise was made and New Jersey's property taxes, which at that time were the highest in the nation, dropped for a while. Now, as with other states following this process, they are right back where they were. Many of us

in the New Hampshire House and Senate as well as the Governor have embraced the court's education adequacy model. This choice, I believe, will cost about \$9,000 per child and require \$1.2 billion in new state spending. This all but guaranteed to fail state run education system will require the imposition of state taxes and income taxes, state sales and income taxes because proposed revenue from other sources, including gambling, won't produce enough money to fund it, but if loss of local control and new higher taxes was all, that would be bad enough. To me, as a legislator, the part that makes no sense is giving the courts, against all historic precedent, the final say about what New Hampshire's education policy should look like. Even a court review of the Claremont litigation demonstrates that the contention of the court will defer to the legislative definition of adequacy cannot be taken seriously. In response to Claremont I, the state board of education wrote a definition of an adequate education. In Claremont II the court struck down that definition without even ever giving any substantive reasons why the definition wasn't any good and then decreed that a definition of an adequate education must be based on seven guidelines taken from a 1989 decision based by the supreme court of Kentucky. The legislature then dutifully wrote a definition that heralded the Kentucky case in Londonderry...I'm sorry, in the Londonderry one the court rejected that definition because it did not allow for an objective determination of cost and told the legislature that it had until July 1, 2007 to write a proper definition, or else. The courts jurisprudence makes it clear that it considers any legislative definition of an adequate education merely a rough draft for the court to edit as it sees fit. If you care about quality education for New Hampshire's kids, if you care about our tax advantage and if you care about our legislative prerogatives, you should be fighting this court mandated state takeover tooth and nail. Thank you very much.

Speaker: The question before the House is on the majority committee amendment. The Chair recognizes the member from East Kingston, Representative Casey.

Rep. Casey: Thank you, Madam Speaker. Honorable colleagues of the House, in the interest of sound educational policy and to respond to the supreme court mandate this bill defines what constitutes an adequate education by focusing on the specific curriculum, content and program which make up an adequate education. These curricular programs are English, Language Arts and Reading, Mathematics, Science, Social Studies, Arts Education, World Languages, Health Education, Physical Education, Technology Education and Information and Communication Technologies. The committee understood that the opportunity for this education is an obligation to each and every child. The committee intends that the opportunity for each child to have an adequate education necessitates that every child is provided with a wide range of services, educational supports and instructional resources. That intent is clearly established in the statement of purpose section. As our goal in this phase is to define the specific content that makes up an adequate education, we did not identify the specific services, supports and instructional resources required. The committee saw these as items as key aspects that need to be taken into account when the legislature develops its costing methodology in the next phase of the process. The committee's clear intent, however, is that when the legislature adopts a specific costing methodology that it needs to account for the services, supports and instructional resources that give students the opportunity to access an adequate education including, among other things, special education, English as a second language, guidance services and qualified teachers with appropriate professional development. Finally, the committee wanted to make sure the legislature has some oversight beyond the rule making authority process by establishing a joint legislative oversight committee on education adequacy which would review changes to the standards for school approval and the curriculum frameworks and address those which would have an impact on the definition. Who we are as a state, who we are as a people is directly mirrored by the aspirations and accomplishments of our children. By cherishing their education, we cherish them. We cherish them and directly link our history with our future. I respectfully urge my fellow House colleagues to support the amendment and subsequently the bill as amended. Thank you, Madam Speaker.

Speaker: The question before the House is on the majority committee amendment. The Chair recognizes the member from Nashua, Representative Price.

Rep. Price: Thank you, Madam Speaker. Members of the House, I rise in opposition to the majority amendment on HB 927. I oppose this amendment for a number of reasons. You have already heard the discussion about kindergarten. The minority does not believe that this bill is the place to discuss kindergarten. Secondly, the minority believes that this bill lacks the details and the specific criteria which are necessary at this point in the process. When you look at the definition of adequacy, you see a number of educational programs. The previous speaker already discussed the

programs that are included there and we further refer to the school approval standards and the curriculum frameworks. These are the elements that are determined to provide an opportunity for an adequate education. The majority blurb states that the bill expresses the clear intent of the committee and as my colleague stated that it is easily costable but when you look at some of the criteria and the elements which are included in the majority blurb, it should be clear that it's not at all clear what we are discussing. If you look at teachers and costs, are we including a first year credential teacher? The state of New Hampshire believes that a teacher who is out of school and receives a credential is good enough to teach in our schools. Is that what we are going to use to cost and define an adequate education or will we be using a fourth year teacher as was discussed in committee? How about the inclusion of benefits? Benefits are an item which is negotiated locally, should they be included or not? Professional development and some of the other aids to teaching, do you include the full dollar amount of these items or do you include a specific allotment? Perhaps \$50 an item? It should be clear that this bill has not gone to the level that the minority feels is important, has not made the policy decisions that we believe are important and is not easily costable. Cost is a consideration and it is routine with every decision that we make and to look at this bill at face value, we have no idea what we are voting for. Many in the minority had a great deal of problems with that. And, finally, the legislature has the authority to set policy. That includes education funding policy. However, set forth within the standards of adequacy, are the two elements I spoke about earlier, the school approval standards and the curriculum frameworks. Those are set by the executive branch, the state board of education and the department of education has the authority to change those items. The majority amendment will deal with those changes and oversight through the oversight committee and request that a joint education oversight committee review the changes and make recommendations to JLCAR. The minority believes that this is not strong enough, that we should retain full authority over the changes made to the adequacy policy. So for these reasons, I rise in opposition and ask that you please vote down the majority amendment so that we may take up a minority amendment which will address many of the items that we believe need to be detailed in this bill. Thank you, Madam Speaker.

Speaker: The question before the House is on the majority committee amendment. The Chair recognizes the member from Laconia, Representative Reeve.

Rep. Reeve: Thank you, Madam Speaker. Honorable colleagues I rise to support the idea of public kindergarten in our definition of adequate education. As I reflect on it, I felt a bit like Rip Van Winkle who, upon having awakened, has found that the debate has not changed but it is still going on. I served from 1976 until 1997 on the Laconia school board. In 1990 we had a year of significant budget cuts and our board decided to eliminate kindergarten. It was not a decision I take any pride in now. It was one of the only programs that we offered that was not mandated by the state and we had few other choices. We had already agreed to cut 29 teaching positions and football. We had no idea what an expensive cut that would turn out to be. The term short sighted comes to mind when I think back on it. Years later, they were still tracking that class throughout their time at Laconia school district. They found the class had overall lower scores and grades and needed much more individual attention. Four years ago, I was pleased and proud that during my time on the state board of education we voted to include kindergarten as one of the minimum standards of the educational approval of schools in the state of New Hampshire. Before the standards moved on to the legislature and after three of us left the board a new board voted to overturn that vote. They felt that the political cost of its inclusion would jeopardize the remaining standards. This is not a new debate in the state of New Hampshire and I'm well aware that this is not really a debate about the value of kindergarten, but a debate about whether the state can afford to fund kindergarten. Research has shown that kindergarten is educationally sound and effective. Several long term studies on the effects of kindergarten have shown the following outcomes for students: more students completed high school; they performed higher on achievement tests; they are better behaved in classrooms; they are more interested and curious; they place greater value on learning; they have higher occupational aspirations and expectations; and there are a decreased number of retentions in grade. In every other state in our nation, public kindergarten is available to all five year olds. The fact is that most of the country has moved on from the debate about kindergarten and is looking in investing in public preschool programs. Kindergarten is not just a sound educational policy, it is a sound fiscal policy. Studies tell us that every dollar we spend in the early years yields a significantly higher return than those dollars spent later so maybe the question should be can we

afford not to have kindergarten? I would like to close with some lines taken from All I Really Need to Know, I Learned in Kindergarten by Robert Fulghum. It was originally read on the floor of the US Senate. *"All I really needed to know about how to live and what to do and how to be, I learned in kindergarten. Share everything. Play fair. Don't hit people. Put things back where you found them. Clean up your own mess. Don't take things that aren't yours. Say you're sorry when you hurt somebody. Wash your hands before you eat. Flush. Warm cookies and cold milk are good for you. Live a balanced life. Learn some and think some and draw and paint and sing and dance and play and work every day some. Take a nap every afternoon. When you go out in the world, watch out for traffic. Hold hands and stick together. Be aware of wonder. Remember the little seed in the Styrofoam cup. The roots go down and the plant goes up and nobody knows how or why. We are all like that. Goldfish and hamsters, white mice and even the little seed in the Styrofoam cup, they all die and so do we. And then remember Dick and Jane and the first word to ever learn. The biggest word of all - look. Everything you need to know is in there somewhere. The golden rule and love and basic sanitation, ecology and politics and equality and sane living and it is still true. No matter how old you are when you go out in the world, it is best to hold hands and stick together."* Please press the green button for the inclusion of kindergarten and our definition of adequacy. Thank you.

Speaker: The question is on the majority committee amendment. The Chair recognizes the member from Hooksett, Representative Hess.

Rep. Hess: Thank you, Madam Speaker. Before I get into the substance of this legislation, I need to address a more immediate problem or issue. A number of you on both the right and the left, I know it is reversed, have approached me quizzically to ask why the change in (my) appearance. A number of you have asked the same questions with your looks. All I can tell you is this. Several days last week my wife and I were visiting our youngest son and his significant other and it occurred to me in order to have more rapport with the majority party in the House perhaps I ought to look more like some of you. And in that way perhaps gain more adherence to my cause than I might otherwise achieve in my previous appearance. Judging by the number of favorable comments I have heard from my colleagues on the left, apparently it's working to some extent. But I rise Madam Speaker, fellow members to urge you to vote "no" on the pending question regarding the committee amendment to 927 in order that we may take up the minority committee amendment which is printed in your calendar immediately behind the majority opinion at the end of your calendar. I do so for four reasons. First of all, the amendment that was adopted by the subcommittee and the committee goes far beyond the original bill as introduced before the education committee and as supported by the Governor. That bill as the Governor explained to us was relatively simple. It attempted to incorporate and define adequacy by reference to certain minimal school standards and curriculum frameworks that are contained in the department of education administrative rules. This amendment goes much, much further. It adds an entirely new dimension to the debate, kindergarten. And let's be clear again about what the debate is about. It is not about whether kindergarten is good or bad, it's about whether kindergarten should be a part of adequacy. I submit to you that we should certainly support kindergarten and encourage kindergarten like we have over the last decade, but it does not belong in the definition of adequacy. Of the nine supreme court decisions that have addressed the issue of adequacy, starting in 1993, kindergarten is not mentioned once, not once. If we are to adopt the minimum school approval standards and the curriculum frameworks, what do they have to say about kindergarten? Let me read it to you, it takes about fifteen seconds. It consists of two lines and two sentences. "Kindergarten - education rule 306.25 - every district shall strive to offer at least a half a day kindergarten program to every eligible student. A kindergarten program shall comply with all of the pertinent provisions of Ed 306." There is no provision in our administrative rules, in our minimum school standards regarding kindergarten. This is breaking new ground, ladies and gentlemen. This is expanding exponentially the issue of what is an adequate education and what the courts and previous entities have addressed as an adequate education. Secondly, by adding kindergarten or a half a day of kindergarten, this amendment creates a financial drain on the state budget and on the resources of the state. It is a mandate. Whether it be considered a mandate under 28a or a mandate as part of the definition of adequacy, it is a mandate and the supreme court has said, repeatedly, whatever the state identifies as consisting of an adequate education, the state has to pay for it. Not part of it, not a substantial part of it, but all of it. And if you adopt a definition of adequacy, which includes kindergarten or a half a day of kindergarten, you are adding a new dimension that never existed in either the case law of the supreme

court or in the minimum school standards before. That creates a clear cost factor. How much? A rough estimate is in the neighborhood of \$70 million or more because not only do we have to pay for kindergarten for the five or six towns that have not adopted it yet, if it is part of adequacy, we have to pay the entire cost of a half a day of kindergarten for every one of the 13,000 children who will be enrolled in public kindergarten should this be adopted. You can do it on the back of the envelope, divide the average cost of an elementary school student by half, multiply it by 13,000 and the figure comes up to roughly \$70 million give or minus some money. The size of this mandate is obfuscated by the generalized language of the amendment, but make no mistake about it, it is there. A third reason that I would like you to vote against this proposed amendment and take up the minority amendment is because this amendment flies in the face of the words of Governor Lynch in his State of the State address and in the spirit and the actions of Governor Jeanne Shaheen when she initially introduced kindergarten language and worked effectively for its passage. As the Governor told us in his State of the State address on February 15, we want to find New Hampshire solutions based upon New Hampshire values and traditions that continue to give us the New Hampshire advantage. A mandate from above is not in the New Hampshire tradition. It is not part of the New Hampshire values. Governor Shaheen knew that and she realized that the way to expand and spread kindergarten in this state was through voluntary programs extending the carrot to attract school districts to adopt that and that has been very successful. It has been very successful, only five school districts, I think, perhaps six, still don't have public kindergarten, the vast majority of our state does. This is the imposition of a decision from above. It violates local control, it violates the concept that government and education is best when it's closest to the people and when it reflects the concerns and desires of the local population. Finally and perhaps most importantly, this amendment has what I consider to be a fatal flaw. And the flaw is how adequacy is going to be defined as we go down the road. Let me direct your attention, if you wish to follow with me, to the specific language. It's contained on page 635 in section 2, paragraph Roman I-D of the amendment. Basically what this language does is abdicates legislative responsibility for the further definition of adequacy and places it in the first instance in un-elected bureaucrats entirely within the executive branch of government, mainly in the department of education because what this amendment does is adopt the administrative rules for minimum school standards and curriculum frameworks and provides that there will only be legislative oversight of any changes and they occur every five or six years if a select group of ten legislators thinks it warrants review and then brings it to the attention of JLCAR for possible action. This bill would abdicate your right and your responsibility and your authority to decide adequacy and delegate it to administrative entities and individuals in the department of education subject to only ten legislators' oversight and they may miss something or they may agree with what the administrators have done and so will not raise an issue. Meanwhile the definition of adequacy changes and you have not had one opportunity to vote for it. Folks, that is wrong, that is just plain wrong. It is an abdication of our responsibility. It's not the way we pass legislation here and it's just not right. In conclusion, I would urge you to vote "no" and press the red button on this amendment. If we want to maintain legislative oversight over adequacy, you can do it very simply, you can adopt language such as "no amendment modification or revision of any kind shall be made to the provisions of this section except through legislation enacted by the general court." That happens to be in the minority amendment which we hope you will consider after voting this amendment down. There are a lot of specific things that you can include in this legislation such as class size, qualifications of teachers, number of hours devoted to the particular core curriculum for adequacy. That can be done very easily and if you want to see an example of how that can be done, look at the minority report. Instead we have this generalized statement which makes every possible attempt to avoid the discussion about cost and let me tell you, the most important difference of opinion in the subcommittee on this issue was not about kindergarten, it was about putting off cost and discussion of cost until some later date. Every member of the subcommittee in every discussion ultimately talked about cost, whether they wanted to or not. It was only through a straightjacket limitation on discussion that cost was not discussed, but with kindergarten in here, there is no question that we are talking about mandated additional cost. To my friends in the majority, I suggest to you that what we are being asked to do with this amendment is buy into the colloquial phrase of pig in a poke. It is general, it is vague, it not susceptible to ready definition, it is not susceptible to being costed out in its present form and I urge you for all the reasons previously stated to vote "no" and press the red button so that we can get into specifics and discuss the details of what an adequate education should be with the second amendment. Thank you.

Speaker: The question before the House is on the majority committee amendment. We are down to our last speaker and a roll call has been requested so I would ask the Sergeant at Arms to encourage people to take their seats. The Chair recognizes the member from Hampton, Representative Stiles.

Rep. Stiles: Thank you, Madam Speaker. Honorable colleagues, I had the opportunity to serve on several of the subcommittees that helped develop HB 927. You have already heard the process that was used to arrive at the components included in HB 927. They were from school approval standards and curriculum frameworks. Subcommittee members know how I struggled with the inclusion of the half-day kindergarten in the definition. From a policy perspective, all of the research solidly indicates the value of early education and kindergarten curriculum is identified in our frameworks. It also provides the opportunity to identify areas that individual students may be struggling with so that supports can be given early in the process to avoid more expensive interventions later which come at a higher cost to both students and to the communities. I realize there is a perception that the inclusion of a half-day kindergarten will create un-funded costs at the local level. All but 11 of our communities in New Hampshire either have or are in the process of having kindergarten. 25 of our communities have actually moved to a full day kindergarten. The full day kindergarten would allow more time for curriculum as well as individual creativity. There is nothing in this bill that would require a school district to hire staff, to house within, to build, and to provide for the opportunity to access public kindergarten. I refer you to RSA 193:1- compulsory attendance. Compulsory attendance requires that any child at least 6 years of age attend public school. This still allows the prerogative of the parent to make the decision about kindergarten attendance. There is also nothing in this bill that prohibits local school districts from entering into contractual agreements with private non-sectarian kindergartens to accomplish the task of providing the opportunity to attend a half-day kindergarten maintaining local control options. For this and other reasons, I urge your support of HB 927. Thank you.

REGULAR CALENDAR (CONT'D)

CACR 7, relating to county officers. Providing that certain county officers shall be appointed rather than elected. **INEXPEDIENT TO LEGISLATE.**

Rep. Shawn N. Jasper for Election Law: This CACR would require that county treasurers, registers of probate, county attorneys, sheriffs and registers of deeds be appointed by counties. As written, it fails to specify who would make the appointments. It also fails to specify a term of office making it unclear as to whether the two year term remains or if it becomes a life-time appointment. Currently, the register of probate reports to the judicial branch. Under this proposal, it would appear that would change as well. The current system is working well and aside from a problem with one such elected official, there was insufficient testimony to convince the committee that the process should be changed. If the Constitution was amended in this manner, further legislation would be needed to make it work. Vote 14-2.
Committee report adopted.

HB 32, requiring photo identification to obtain a ballot. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Shawn N. Jasper for Election Law: The bill, as introduced, would have required photo identification for voting purposes. The sub-committee which was dealing with the bill was interested in creating voter identification cards. At the suggestion of the secretary of state's office, an amendment was adopted which replaced the original bill and forms a study commission to deal with the creation of voter registration cards. The commission would have six members of the House, four members of the Senate, a city clerk, a town clerk and the secretary of state. It would report back by November 1, in time for legislation to be introduced for 2008. Vote 14-2.

Amendment (0572h)

Amend the title of the bill by replacing it with the following:

AN ACT establishing a commission to study voter registration cards.

Amend the bill by replacing all after the enacting clause with the following:

1 Commission Established. There is established a commission to study voter registration cards.

2 Membership and Compensation.

I. The members of the commission shall be as follows:

(a) Two members of the election law committee of the house of representatives, appointed by the speaker of the house of representatives.

- (b) Two members of the election law committee of the house of representatives, appointed by the minority party leader.
- (c) Two members of the senate, appointed by the president of the senate.
- (d) Two members of the senate, appointed by the minority leader.
- (e) One city clerk, appointed by the New Hampshire City and Town Clerks Association.
- (f) One town clerk, appointed by the New Hampshire City and Town Clerks Association.
- (g) The secretary of state, or designee.

II. Legislative members of the commission shall receive mileage at the legislative rate when attending to the duties of the commission.

3 Duties. The commission shall review options available for the production and distribution of voter registration cards. The commission shall consider the information to be placed on the cards and ways to encourage the voluntary use of the cards by voters on election day.

4 Chairperson; Quorum. The members of the study commission shall elect a chairperson from among the members. The first meeting of the commission shall be called by the secretary of state. The first meeting of the commission shall be held within 45 days of the effective date of this section. Six members of the commission shall constitute a quorum.

5 Report. The commission shall report its findings and any recommendations for proposed legislation to the speaker of the house of representatives, the president of the senate, the senate clerk, the house clerk, the governor, and the state library on or before November 1, 2007.

6 Effective Date. This act shall take effect upon its passage.

AMENDED ANALYSIS

This bill establishes a commission to study voter registration cards.
Amendment adopted.

The question now being adoption of the committee report of Ought to Pass with Amendment.
Rep. Vaillancourt spoke in favor.
Committee report adopted and ordered to third reading.

HB 109, eliminating straight ticket voting. **INEXPEDIENT TO LEGISLATE.**

Rep. Shawn N. Jasper for Election Law: The committee has already held a hearing on SB 36, which is word for word the same as HB 109. We believe that it is not necessary to hold two debates on the same bill, nor do we believe that passing HB 109 and thus requiring the Senate to hold another hearing and vote on the same bill is in the public interest. The vote on this bill is not indicative of the committee's position on the issue of eliminating straight ticket voting. Vote 13-2.

LAI'D ON THE TABLE

Rep. Claudia Chase moved that **HB 109**, eliminating straight ticket voting, be laid on the table. On a division vote, 207 members having voted in the affirmative and 107 in the negative, the motion was adopted.

REGULAR CALENDAR (CONT'D)

HB 128, establishing a committee to study ballot reform. **MAJORITY: INEXPEDIENT TO LEGISLATE. MINORITY: OUGHT TO PASS.**

Rep. Paul Hopfgarten for the Majority of Election Law: Although the committee recognizes this bill was just calling for a study and appreciates the concern regarding ballot reform, the majority was concerned about some aspects of this bill including the complexity of "instant runoff voting." Additionally, it was felt that there are other vehicles for studying ballot reform available in that the committee has retained a number of other bills dealing with ballot reform issues. Vote 9-5.

Rep. Charles F. Weed for the Minority of Election Law: The intent of the sponsor was to increase voter interest and turnout as well as to increase the number of candidates who might be out of the mainstream of the major parties. Instant runoff voting would require ranking candidates according to preference. The winner of the election would be required to receive a majority and one of the votes; therefore it would require an amendment to the New Hampshire Constitution. The minority believes that there is substantial available information from places where instant runoff voting has been used which should be considered by the New Hampshire Legislature.

Majority committee report adopted.

HB 141, giving voters the option of bypassing voting machines. **INEXPEDIENT TO LEGISLATE.** Rep. Charles F. Weed for Election Law: The committee appreciates the sponsor's objective of increasing voter confidence in elections. However, we believe that voter confidence issues should be addressed and satisfied prior to the election with tightened chain of custody procedures, transparent and public tests of voting machines, and clear purposes for storing and examining voting machine software. The committee has retained all of these issues for further study. The lack of a guarantee that ballots bypassing the vote counting machines would be counted seemed a major flaw in the bill. Vote 13-3. Committee report adopted.

HB 191, relative to the authority of the secretary of state concerning sealed ballots in a state election. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Charles F. Weed for Election Law: The committee believes that this bill provides an easy cure to an infrequent, yet serious problem. From time to time, the "official election return" is sealed along with the ballots after a long election day. This bill provides a mechanism by which the "official election return" can be returned at the polls by unsealing the ballots in the presence of a state election official. Vote 15-1.

Amendment (0716h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to the authority to unseal ballots following a state election.

Amend the bill by replacing section 1 with the following:

1 Forwarding of Election Returns; Sealed Ballots. Amend RSA 659:75 to read as follows:
659:75 Forwarding; Retaining Copies of Return. One copy of the election return shall be forwarded by the town or ward clerk to the secretary of state no later than the Monday following a state election unless the secretary of state orders them sooner. The other shall be kept by the town or city clerk and shall be open to public inspection at reasonable times. *If an official state election return is sealed along with the ballots, the clerk having custody of the sealed ballots shall, at the request of the secretary of state, and in the presence of a state election official, unseal the ballots and retrieve the election return. The ballots shall be immediately resealed and the election return shall be delivered to the secretary of state by the election official.*

AMENDED ANALYSIS

This bill authorizes the clerk having custody of sealed state election ballots to unseal them if an election return is sealed with them.

Amendment adopted.

Committee report adopted and ordered to third reading.

HB 192-FN, requiring vote counting by election officials at polling places using vote counting machines. **INEXPEDIENT TO LEGISLATE.**

Rep. Charles F. Weed for Election Law: The committee plans to study the need for recounting ballots in order to assure the integrity of electronic voting machines. However, this bill would place an increased burden on election officials after a long day at the polls. In terms of tiredness, there would be reasonable doubt about the accuracy of the hand count. In terms of increased costs for paying election officials for extra hours, it would probably trigger an Article 28-a challenge. Vote 13-2. Committee report adopted.

HB 196, relative to changes of party registration on primary day. **INEXPEDIENT TO LEGISLATE.** Rep. Charles F. Weed for Election Law: The majority of the committee believes that since either or both parties have the option to close their primaries to non-party members should they choose, and that the number of New Hampshire voters who are undeclared is greater than those registered in either major party, therefore, the public interest is served by continuing to permit voters to return to undeclared status after casting their ballot while still at the polls during New Hampshire primary elections. Vote 11-5. Committee report adopted.

HB 276, relative to political advertising placed on state-owned rights-of-way. **INEXPEDIENT TO LEGISLATE.**

Rep. Paul Hopfgarten for Election Law: The committee understands the issue regarding sign pollution on our state rights-of-way. However, it was felt that this would be unfair to private land

owners on state rights-of-way including some whose stone walls are in the right-of-way and prevent the viewing of the sign on the highway. This is also a private property issue. Vote 14-2. Committee report adopted.

HB 413, relative to the order of names on ballots. **INEXPEDIENT TO LEGISLATE.**

Rep. Shawn N. Jasper for Election Law: The committee has retained HB 358 which deals with the same subject matter as this bill. We are in agreement that the committee should thoroughly study the issue of the placement of names on the ballot; however, it is not necessary to retain two bills for that purpose which was in fact the only disagreement we had in reaching our decision. Vote 15-1. Committee report adopted.

HB 429, relative to nominations by multiple parties. **OUGHT TO PASS.**

Rep. James R. Splaine for Election Law: This bill eliminates the provision that currently permits candidates to be nominated by multiple parties. The committee believes that there is value in providing voters the option of writing in candidates on their party ballot, and they will continue to be able to do so. This legislation will guarantee that voters know who is running on either party ballot with as much advance time ahead of a general election as possible and allows write-in of challenging candidates while preventing candidates already on the ballot of one party from getting a duplicate nomination on another party. Vote 14-1. Committee report adopted and ordered to third reading.

HB 465-FN, relative to marking ballots cast at elections. **INEXPEDIENT TO LEGISLATE.**

Rep. David M. Pierce for Election Law: This bill seeks to require that ballots be marked with a stamp provided by the secretary of state before being issued to voters for the purpose of preventing stuffing the ballot box with counterfeit (un-stamped) ballots. The secretary of state testified that there have been no verified instances of ballot stuffing or even any complaints of ballot stuffing. Also, the committee reasonably projects that if a ballot was inadvertently not stamped, that voter's vote would be lost and the voter unnecessarily disenfranchised. There being no need for the bill, the committee voted accordingly. Vote 15-1. Committee report adopted.

HB 480, relative to party columns listing names on ballots. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Janet F. Allen for Election Law: With a new column style ballot, there was confusion by voters, evidenced during recounts when candidates from different parties were listed on the same line. They were often thought of as opposite each other. By staggering the names such that candidates from different parties do not fall on the same line, HB 480 seeks to rectify this problem. It also allows the secretary of state to determine the location of any additional columns that may appear on the ballot. Vote 14-1.

Amendment (0640h)

Amend the bill by replacing section 1 with the following:

1 Party Columns. Amend RSA 656:5 to read as follows:

656:5 Party Columns. The names of all candidates nominated in accordance with the election laws shall be arranged upon the state general election ballot in successive party columns. Each separate column shall contain the names of the candidates of one party; except that, if only a part of a full list of candidates is nominated by a political party, 2 or more such lists may be arranged whenever practicable in the same column. ~~[The first column shall contain the names of the candidates of the party which received the largest number of votes at the last preceding state general election:]~~ *The party columns that list the names of candidates for offices that elect more than one person shall stagger the names of the candidates so that they do not line up evenly in a horizontal direction. The leftmost column shall begin one line below the column to its right. The secretary of state shall determine the location of any additional columns that may appear on the ballot.*

AMENDED ANALYSIS

This bill requires the staggering of names of certain candidates within the party columns on general election ballots. This bill also eliminates the requirement that the first column contain the candidates of the party receiving the largest number of votes at the last election. Amendment adopted.

Committee report adopted and ordered to third reading.

HB 687, requiring the redistricting of the house of representatives for the 2008 elections. **INEX-PEDIENT TO LEGISLATE.**

Rep. Charles F. Weed for Election Law: The committee believes that since the demographic data that would be used for redistricting prior to the 2008 state primary would be eight years old, changing district boundaries only two years in advance of the 2010 decennial census would be both premature and inaccurate. The committee was advised that the constitutional change adopted by the voters in 2006 did not require action in this session. Vote 12-3.

Rep. Renzullo requested a roll call; sufficiently seconded.

and the committee report was adopted.

HB 746, relative to listing candidates on election ballots. **INEXPEDIENT TO LEGISLATE.**

Rep. Charles F. Weed for Election Law: The committee believes this bill is unnecessary. HB 146, relative to nicknames passed the House on March 6, 2007. It dealt with clarifying a candidate's choice of how his or her name would be listed on the ballot including using a nickname. Vote 14-1. Committee report adopted.

HB 748, requiring disclosure of gifts and campaign contributions by lobbyists and political committees, and requiring lobbyist statements to include certain information. **INEXPEDIENT TO LEGISLATE.**

Rep. Charles F. Weed for Election Law: The committee believes there are many problems with this bill. It appears to require candidates to report information about contributions from lobbyists to the political committee contributing to the candidate which may not be known by the candidate. It requires lobbyists to list specific bills they are promoting or opposing instead of the general issue areas. Lobbyists point out which bills are in their interest change because of amendment process and are impossible to determine in advance. The extensive new filing requirements passed in the last session should be tried and scrutinized before new requirements are added. Vote 14-1. Committee report adopted.

SB 36, eliminating straight ticket voting. **OUGHT TO PASS.**

Rep. Deborah L. Billian for Election Law: Eliminating straight ticket voting rids confusion for the voter who, after checking off the box at the top of the ballot, proceeds down the ballot to check other candidates. Removing the party box at the top of the ballot will clarify the voter's intent. Vote 10-4. Rep. Vaillancourt spoke in favor. Committee report adopted and ordered to third reading.

MOTION TO SUSPEND RULES

Reps. Wallner and Whalley moved that the Rules be so far suspended to allow consideration at the present time of **HB 704-FN-A**, relative to the commission on the status of men and making an appropriation therefor, and if passed, immediate third reading.

Adopted by the necessary two-thirds.

CONSIDERATION OF HB 704

HB 704-FN-A, relative to the commission on the status of men and making an appropriation therefor. Rep. Kurk moved Ought to Pass with Amendment and offered floor amendment (0994h).

Floor Amendment (0994h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to the commission on the status of men and relative to appropriations to the STARC armory and making appropriations for state matching funds for federal emergency management agency disaster assistance grants and energy expense shortfalls.

Amend the bill by replacing all after the enacting clause with the following:

1 Capital Budget; Adjutant General; STARC Armory; Appropriation Amount Amended and Corrected. 2003, 240:1, I, B as extended by 2005, 259:25, III, and as amended by 2005, 259:14 and 2006, 272:2 is repealed and reenacted to read as follows:

B. STARC Armory - Concord	16,469,504
Less Federal	<u>-15,653,598</u>

Net state appropriation subparagraph B	815,906
--	---------

2 Total Adjusted; 2003. Amend 2003, 240:1, I, total state appropriation paragraph I to read as follows:

Total state appropriation paragraph I	[\$2,802,025]	\$2,859,656
---------------------------------------	----------------------------	--------------------

3 Total Adjusted; 2003. Amend 2003, 240:1, total state appropriation section 1, to read as follows:

Total state appropriation section 1	[\$75,026,533]	\$75,084,164
-------------------------------------	-----------------------------	---------------------

4 Total Bond Amount. Amend 2003, 240:6 to read as follows:

240:6 Bond Authorized. To provide funds for the total of the appropriations of state funds made in sections 1, 2, and 3 of this act, the state treasurer is hereby authorized to borrow upon the credit of the state not exceeding the sum of [~~\$90,673,023~~] **\$90,730,654** and for said purposes may issue bonds and notes in the name and on behalf of the state of New Hampshire in accordance with the provisions of RSA 6-A.

5 Lapse Extended. The appropriation made to the adjutant general for the STARC armory - Concord, in 2003, 240:1, I, B, as amended by 2005, 259:14 and 2006, 272:2, as extended by 2005, 259:25, III, and as amended by section 1 of this act, is hereby extended to June 30, 2009.

6 Appropriation; State Matching Funds for Federal Emergency Management Agency Disaster Assistance Grants. A sum of up to \$225,000 is hereby appropriated to the department of safety, division of emergency management for the fiscal year ending June 30, 2007, for the required 25 percent state match for disaster assistance grants, awarded by the Federal Emergency Management Agency (FEMA) for individual assistance in Rockingham, Hillsborough, Carroll, Merrimack, Strafford and Belknap counties for flood damage sustained in the May 2006 disaster (DR-1643). The governor is authorized to draw a warrant for said sums out of any money in the treasury not otherwise appropriated.

7 Adjutant General; Supplemental Appropriation; Energy Expense Shortfalls. The sum of \$203,000 for the fiscal year ending June 30, 2007 is hereby appropriated to the adjutant general for anticipated energy expense shortfalls in state-owned buildings. This appropriation is in addition to any other funds appropriated to the adjutant general. The governor is authorized to draw a warrant for said sum out of any money in the treasury not otherwise appropriated.

8 Department of Administrative Services; Supplemental Appropriation; Energy Expense Shortfalls. The sum of \$1,332,024 for the fiscal year ending June 30, 2007 is hereby appropriated to the department of administrative services for anticipated energy expense shortfalls in state-owned buildings. This appropriation is in addition to any other funds appropriated to the department of administrative services. The appropriation shall be a charge against the appropriate funds as follows:

General	Federal	Highway	Other
\$236,493	\$158,970	\$160,823	\$775,738

The governor is authorized to draw a warrant for said sums out of the appropriate fund.

9 Department of Safety; Supplemental Appropriation; Energy Expense Shortfalls. The sum of \$364,000 for the fiscal year ending June 30, 2007 is hereby appropriated to the department of safety for anticipated energy expense shortfalls in state-owned buildings. This appropriation shall be a charge against the highway fund and is in addition to any other funds appropriated to the department of safety.

10 Department of Resources and Economic Development; Supplemental Appropriation; Energy Expense Shortfalls. The sum of \$77,200 for the fiscal year ending June 30, 2007 is hereby appropriated to the department of resources and economic development for anticipated energy expense shortfalls in state-owned buildings. This appropriation is in addition to any other funds appropriated to the department of resources and economic development. The appropriation shall be a charge against the appropriate funds as follows:

General	Other
\$6,700	\$70,500

The governor is authorized to draw a warrant for said sums out of the appropriate fund.

11 Department of Environmental Services; Supplemental Appropriation; Energy Expense Shortfalls. The sum of \$10,000 for the fiscal year ending June 30, 2007 is hereby appropriated to the department of environmental services for anticipated energy expense shortfalls in state-owned buildings. This appropriation is in addition to any other funds appropriated to the department of environmental services. The appropriation shall be a charge against the appropriate fund.

12 Department of Corrections; Supplemental Appropriation; Energy Expense Shortfalls. The sum of \$1,400,000 for the fiscal year ending June 30, 2007 is hereby appropriated to the department of corrections for anticipated energy expense shortfalls in state-owned buildings and shortfalls in funds budgeted for water consumption. This appropriation is in addition to any other funds appropriated to the department of corrections. The governor is authorized to draw a warrant for said sum out of any money in the treasury not otherwise appropriated.

13 Regional Community Technical College System; Supplemental Appropriation; Energy Expense Shortfalls. The sum of \$700,000 for the fiscal year ending June 30, 2007 is hereby appropriated to the regional community-technical college system for anticipated energy expense shortfalls in state-owned buildings. This appropriation is in addition to any other funds appropriated to the regional community-technical college system. The governor is authorized to draw a warrant for said sum out of any money in the treasury not otherwise appropriated.

14 Liquor Commission; Supplemental Appropriation; Energy Expense Shortfalls. The sum of \$104,000 for the fiscal year ending June 30, 2007 is hereby appropriated to the liquor commission for anticipated energy expense shortfalls in state-owned buildings. This appropriation is in addition to any other funds appropriated to the liquor commission. The governor is authorized to draw a warrant for said sum out of any money in the treasury not otherwise appropriated.

15 Repeal. 2002, 267:3, relative to the prospective repeal of the commission on the status of men, is repealed.

16 Effective Date. This act shall take effect upon its passage.

AMENDED ANALYSIS

This bill:

I. Modifies and extends a capital appropriation made to the adjutant general for the STARC armory in Concord.

II. Makes an appropriation to the department of safety for state matching funds for federal emergency management agency disaster assistance grants.

III. Makes appropriation for energy expense shortfalls to the adjutant general, the department of administrative services, the department of safety, the department of resources and economic development, the department of environmental services, the department of corrections, the regional community technical college system, and the liquor commission.

IV. Repeals the prospective repeal of the commission on the status of men.

Rep. Kurk spoke in favor and yielded to questions.

Floor amendment (0994h) adopted.

Motion of Ought to Pass with Amendment adopted.

Ordered to third reading.

MOTION ON HB 704

Rep. Wallner moved that **HB 704-FN-A**, relative to the commission on the status of men and relative to appropriations to the STARC armory and making appropriations for state matching funds for federal emergency management agency disaster assistance grants and energy expense shortfalls, be read a third time and passed. Adopted.

Third reading and final passage

HB 704-FN-A, relative to the commission on the status of men and relative to appropriations to the STARC armory and making appropriations for state matching funds for federal emergency management agency disaster assistance grants and energy expense shortfalls.

MOTION TO PRINT DEBATE

Rep. Marjorie Smith moved that the debate on **HB 704-FN-A**, relative to the commission on the status of men and relative to appropriations to the STARC armory and making appropriations for state matching funds for federal emergency management agency disaster assistance grants and energy expense shortfalls, be printed in the Permanent Journal. Adopted.

DEBATE ON HB 704-FN-A

Rep. Kurk: Thank you, Madam Speaker. Members of the House, this bill comes before you as a fast track bill, and for those of you who are new to the House this is probably your first experience with such a bill. There are occasions when we have to act expeditiously and I know after days of debate you're probably doubting whether that is ever possible. Indeed it is. This will be one of those days, I believe. If this bill is passed, it will be directly sent to third reading, go across to the Senate, the Senate will hold a committee hearing on this bill tomorrow and will act on it on Thursday. If all goes well, they will not amend it. It will go directly to the Governor and with any luck this will be signed before April 1st. And here is why that's important. There is a building being constructed at the National Guard facility at the Concord airport and if we do not appropriate \$57,000 of general fund bonding authority, that building will lose \$2.5 million of federal funds and work on it will stop. That's the urgency. So, let me explain to you what the bill does. First, while this bill came to us as a bill about the commission on the status of men, we have used this as a vehicle to add a number of other things which have some urgency to them, including the item I just mentioned. But, let's talk first about the commission. The bill came to us with \$60,000 in it for the commission and a provision of eliminating the sunset, which if it goes into effect, will abolish the commission. We took the money out of this bill, but also abolished the sunset, thus allowing the commission to continue its existence until such time as we take other action. That is the only part of the bill that deals with the commission on the status of men. The rest of the bill contains three very important appropriations. The first one I already mentioned. \$57,000 and change in bonding authority so that we can avoid losing \$2.5 million of federal funding and continue construction of a building that is being built as we speak. And that must be done before April 1st. Secondly, we owe the federal government approximately \$225,000 as the state's 25% share of a FEMA grant to individuals who suffered damage in the May 2006 floods. The money has already been paid to them. We owe the money to the Feds. Between interest and penalties, we are paying about 8.1% on that bill. As you know, our State Treasurer cannot earn 8.1% on the money in the State Treasury, so it really pays to pay this bill quickly. The most important part of this, however, is dealing with many state agencies and departments who have not enough money in their energy accounts, like utilities, electricity - in order to pay the bills - this year - 2007. They have run out of money for two reasons. First, we didn't appropriate enough and secondly, energy prices sky rocketed more than anybody had anticipated. We need to pay those bills and that will cost us approximately \$2.4 million in general funds. That money will come out of the 07' budget. It will not affect 08' and 09', the budget yet to come. The third thing that requires action is the fact that...sorry, I covered all three; the money for the Adjutant General, the money for the FEMA grant and the money for the shortfall in energy appropriations. The total bill is \$4.2 million of which \$2.6 million are coming from general funds. There is enough money in surplus for us to pay this bill, but we are getting pretty close. I urge you to vote in favor of the amendment and in favor of the bill to make sure construction continues and the lights stay on. Thank you, Madam Speaker.

Speaker: Will the member yield to a question?

Rep. Kurk: Yes.

Speaker: The member yields, Rep. Graham you may inquire.

Rep. Graham: Thank you, Madam Speaker. Thank you, my colleague, for yielding. You said that \$2.4 million came from the general fund. Where is the rest of the money coming from?

Rep. Kurk: I thank the Representative from Bedford for his question. \$57,000 will be, as I said, general fund bonds. \$2.6 million will come from the general fund. \$158,000 will come from federal funds. \$524,000 will come from the highway fund and \$856,000 will come from other sources, which means usually agency income. And because I know my friend is concerned about the highway fund, I point out to you that this is a very appropriate appropriation since it keeps the lights on in the Department of Transportation. Thank you.

MOTION TO REMOVE FROM TABLE

Rep. Vaillancourt moved that **HB 109**, eliminating straight ticket voting, be removed from the table. (Pending question: Inexpedient to Legislate).

On a division vote, 104 members having voted in the affirmative and 240 in the negative, the motion failed.

REGULAR CALENDAR (CONT'D)

HB 234, establishing a committee to study state environmental laboratory fees and services. **ought to pass with amendment.**

Rep. Derek Owen for Environment and Agriculture: The amendment to this bill temporarily establishes environmental laboratory fees. A study for changes in fees would take place at a later date than the amendment states. The existing fee structure has been in force since 1999 and does not reflect increased costs. Vote 11-6.

Amendment (0851h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to revising the department of environmental services laboratory fee schedule.

Amend the bill by replacing all after the enacting clause with the following:

1 Environmental Laboratory Fees. RSA 131:3-a is repealed and reenacted to read as follows:

131:3-a Fee Required; Rulemaking Authority; Department of Environmental Services.

I. The department of environmental services shall collect a fee for analyses made pursuant to RSA 131:3 on the following schedule, provided that the fees listed may be changed by rules adopted pursuant to paragraph III:

(a) Fees for analyses offered as a service shall be set from the following schedule:

(1) Agricultural pesticides	\$ 200
(2) Alkalinity	\$ 15
(3) Ammonia	\$ 30
(4) Asbestos	\$ 35
(5) Bacteria as cts/100mL (all types)	\$ 20
(6) Bacteria as MPN (all types)	\$ 30
(7) Bacteria as P/A (all types)	\$ 15
(8) Biosuitability	\$ 145
(9) Biochemical oxygen demand	\$ 35
(10) Carbamates	\$ 120
(11) Chemical oxygen demand	\$ 28
(12) Chloride	\$ 12
(13) Chlorine residual	\$ 16
(14) Chlorophenoxy herbicides	\$ 130
(15) Cyanide	\$ 35
(16) Diquat	\$ 125
(17) E. colicts/100mL	\$ 10
(18) Ethylene dibromide/dibromochloropropane	\$ 75
(19) Ethylene/Propylere Glycol	\$ 150
(20) Fluoride	\$ 12
(21) Glycols	\$ 150

(22) Glyphosate	\$ 100
(23) Gross Alpha	\$ 60
(24) Haloacetic acids	\$ 100
(25) Heterotropic plate count	\$ 25
(26) Iron bacteria	\$ 25
(27) Metals (each)	\$ 15
(28) Metals preparation charge	\$ 20
(29) Methyl-tert-butyl ether	\$ 75
(30) Nitrate	\$ 12
(31) Nitrite	\$ 12
(32) Oil and grease (HEM)	\$ 60
(33) pH	\$ 9
(34) PM-10	\$ 30
(35) Polyaromatic hydrocarbons	\$ 150
(36) Phosphorus (all forms)	\$ 20
(37) Radium 226	\$ 150
(38) Radon	\$ 25
(39) Residue	\$ 14
(40) Semivolatile compounds	\$ 225
(41) Solids (all forms)	[\$20] \$ 30
(42) Special study (per hour)	\$ 50
(43) Specific conductance	\$ 10
(44) Sulfate	\$ 20
(45) Sulfide	\$ 20
(46) Thermometer calibration	\$ 15
(47) Total organic carbon	\$ 40
(48) Total Kjeldahl nitrogen	\$ 25
(49) Total petroleum hydrocarbons (DRO)	\$ 125
(50) Total petroleum hydrocarbons (GRO)	\$ 125
(51) Total trihalomethanes	\$ 75
(52) Toxaphene	\$ 75
(53) Turbidity	\$ 12
(54) Uranium (activity)	\$ 150
(55) UV-254	\$ 30
(56) Volatile organic compounds	\$ 120
(57) Non-specific analytical investigation	\$50/now

(b) Fees for analyses of the following special parameter groupings required by the federal Safe Drinking Water Act will be:

(1) Drinking water bacteria	\$ 15
(2) Haloacetic acids	\$ 100
(3) Inorganic chemicals	\$ 335
(4) Inorganic chemicals (new system)	\$ 395
(5) Lead/copper	\$ 30
(6) Nitrate/nitrite	\$ 12
(7) Radiological chemicals	\$ 75
(8) Synthetic organic chemicals	\$ 650
(9) Total trihalomethanes	\$ 75
(10) Volatile organic compounds	\$ 120
(11) Water quality parameters	\$ 40

(c) Fees for analyses of the following parameters in support of the department's private homeowner initiative shall be:

(1) Bacteria/nitrate/chloride	\$ 30
(2) Drinking water bacteria	\$ 15
(3) Fluoride	\$ 12
(4) Methyl-tert-butyl ether	\$ 60
(5) Radon	\$ 20

(6) Standard analysis	\$ 85
(7) Homeowner radiologicals	\$ 80
(8) Volatile organic compounds	\$ 120

II. All such fees collected by the commissioner of environmental services from federal or state grants or from other state agencies shall be credited against the operating costs of the laboratory. Fees collected from public or private clients shall be deposited with the state treasurer as unrestricted revenue, with the exception that 50 percent of every analysis fee shall be deposited with the state treasurer and reserved in a special nonlapsing fund to be used by the commissioner of environmental services for the purchase of replacement or new laboratory equipment designed to improve service. The commissioner may, with prior approval of the governor and council, use funds in the nonlapsing account for unanticipated personnel or supply expenditures made necessary by unexpected changes in or additions to federal or state required laboratory analyses, or unusual volume of samples.

III. The commissioner of the department of environmental services shall adopt rules pursuant to RSA 541-A relative to changes to the list of laboratory services to be provided under paragraph I and RSA 131:3, and changes to the schedule of fees for such services.

2 Rulemaking; Regarding Laboratory Fees. Amend RSA 131:4 to read as follows:

131:4 Service; Reimbursements; Rulemaking. The commissioner of the department of health and human services shall adopt rules pursuant to RSA 541-A relative to a list of laboratory services to be provided under ~~[this chapter]~~ **RSA 131:2** and a schedule of fees for such services. The fees may be waived by the commissioner when the commissioner determines it is in the best interests of the health of the public to do so. Fees collected under this section shall be forwarded to the state treasurer to be deposited in the general fund.

3 Testing of Water; Authority; Department of Environmental Services. Amend RSA 131:3 to read as follows:

131:3 Testing of Water Supplies. ~~[They]~~**The department of environmental services** shall make periodic inspections and analyses of the public water supplies of the state and any special investigations thereof that may be called for; also, when requested or as may be deemed by them necessary or expedient in the interests of the public health, make inspections or analyses of sources furnishing water to institutions, schools, hotels, camps, other places of public resort and individuals, and advise in connection with the same; and they shall enforce the laws pertaining to water supply and to the sanitation of public waters.

4 Effective Date. This act shall take effect January 1, 2008.

AMENDED ANALYSIS

This bill revises the schedule of environmental laboratory fees and gives the department of environmental services authority to adopt rules relative to laboratory services provided.

LAIID ON THE TABLE

Rep. Phinizy moved that **HB 234**, establishing a committee to study state environmental laboratory fees and services, be laid on the table.

Adopted.

REGULAR CALENDAR (CONT'D)

HB 332, relative to the procurement of eggs and egg products by the state. **INEXPEDIENT TO LEGISLATE.**

Rep. Robert H. Haefner for Environment and Agriculture: The intent of the bill is to mandate that the state procure eggs and egg products only from producers that do not have caged chickens. The majority was split on whether caged birds are good or bad. But it is clear that today there are no caged birds in New Hampshire. We were generally opposed to mandating where a product could be bought, since currently the procurement criteria is cost. According to testimony, egg prices would increase for the state if we used only un-caged birds as the source. Testimony indicated a doubling of egg prices was a reasonable expectation. The state buys a lot of eggs, led by the department of corrections. We do believe that the better mandate for food procurement by the state should be, where possible; buy from local New Hampshire producers. That is for another bill though. Vote 12-4. Committee report adopted.

HB 407-FN-A, establishing a dairy stabilization fund for dairy farmers. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Tara A. Sad for Environment and Agriculture: This bill provides emergency funding for New Hampshire dairy farms. It asks the state to appropriate \$3 million to this end. The committee considered the question of whether dairy farms should be subsidized when the rest of the state is suffering under a heavy property tax burden. Farmers have been paying the same high property taxes other residents pay, and in addition, are required, by the nature of their business, to pay Business and Enterprise Tax (BET), even when they take a loss for the year. During the hearings, farmers testified that, due to the extremely low bulk milk prices and increasing costs in utilities, grain, fertilizer and fuel – both on road and off – in all likelihood there would be extremely high losses which they can ill afford. Grain prices have nearly doubled over the last year and are expected to increase another fifty percent, due to the high demand for ethanol. It is not unusual for a dairy farmer's grain bill to have increased, as in one example presented to the committee, to \$25,000 per month from \$15,000. Yet milk prices – paid at the farm or, as it is known, 'farmgate' prices – fell through the floor last May to a low of \$12.61 per "hundred weight" of milk (100 pounds is the equivalent of 11.5 gallons of liquid milk). At the same time, average retail prices of milk were at a near high. Supermarkets were selling a gallon of whole milk for \$2.91 – only two cents off the average high for the year. In fact, milk used for making cheese (Class III) is the exact same price today as 1980. Experts estimate that a realistic breakeven price is about \$18.00 per hundred. At present, prices are hovering at around \$15.00. The farmer ("producer") meanwhile is receiving in real dollars only about \$6.09. In short, farmers are getting the same pay they received twenty-five years ago. The benefits that a farm provides are many. One milking heifer contributes approximately \$10,000 to \$14,000 to the local economy; therefore, a dairy farm with 100 milking heifers, which is considered the average for the state, generates on an annual basis about \$1,000,000 to \$1,400,000 locally. While that is justification in its own right, farms keep land open for wildlife, recreation, snowmobiling and hunting. Their presence enhances property values while providing indirectly revenue through various fees and taxes generated through tourism and recreation. Farmers not only till and maintain their own fields and pastures but those of other landowners. Farms are the most efficient and least expensive form of land conservation and preservation; moreover, open land does not place a demand on local services, nor the school system. If there is ever a serious interruption of the food chain, these same farms may be an important and necessary part of the food supply. Ten years ago, there were over five hundred working farms in New Hampshire. Currently there are only about 134. These farms create about 750 jobs. (In comparison, the five wood burning power plants account for only about 350 jobs, and the potential power plant which Public Service wants in Berlin probably only 50 jobs.) It is estimated that the dairy industry provides approximately \$70-80 million to the New Hampshire economy. These reasons are why we need to support our dairy farmers and why passage of this bill as amended is so necessary. New Hampshire cannot afford to lose any more farms. Vote 16-0.

Amendment (0920h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to assistance for milk producers.

Amend the bill by replacing all after the enacting clause with the following:

1 New Chapter; Emergency Dairy Assistance Program. Amend RSA by inserting after chapter 184-A the following new chapter:

CHAPTER 184-B

EMERGENCY DAIRY ASSISTANCE PROGRAM

184-B:1 Program Established. There is hereby established in the department of agriculture, markets and food, the emergency dairy assistance program for the fiscal year ending June 30, 2008.

184-B:2 Program Administration.

I. In order to apply for the emergency dairy assistance program, a milk producer as defined by RSA 184:79, IX, shall calculate his or her average production of milk in hundredweight for November 2006, December 2006, January 2007, and February 2007. Assistance shall be calculated by multiplying a milk producer's average milk production times the difference between the average Boston market price for November 2006, December 2006, January 2007, and February 2007 and the base price of milk at \$16.94 per hundredweight. Producers who were not in production in November 2006, December 2006, January 2007, and February 2007, but who were

in production in the calendar year of 2006, and who wish to receive this interim assistance shall provide the commissioner verifiable production evidence by September 1, 2007 for the lowest average 4 months' milk production in 2006. For the purposes of this chapter, a milk producer, as defined in RSA 184:79, IX who is receiving assistance shall not include governmental entities.

II. The milk producer shall apply to the commissioner of agriculture, markets, and food on forms provided by the commissioner for assistance by September 1, 2007 by reporting the average price. The commissioner may adopt rules, pursuant to RSA 541-A, relative to the content and form of the application forms. In addition to reporting the average price, a producer applying for assistance shall provide the commissioner of the department of agriculture, markets, and food with 3 months' worth of verifiable production evidence. Acceptable forms of verifiable production evidence include: milk marketing payment stubs, bulk tank records, milk handler records, and daily milk marketing records.

III. Assistance shall be distributed beginning July 15, 2007. Payment will be in the form of a check made out to the producer from the state of New Hampshire.

IV. The following milk is ineligible for calculation in a milk producer's average milk production for determination of assistance:

(a) Dumped milk that causes bulk load contamination for which a producer receives an insurance indemnity.

(b) Milk dumped on the farm by order of a department of agriculture, markets, and food or a department of health and human services official.

V. When applying for assistance, a milk producer shall sign an agreement to reimburse the department of agriculture, markets, and food for payments if the producer disperses the herd or reduces herd production by more than 50 percent by July 1, 2008. Funds collected by the department in the form of a reimbursement shall be deposited into the general fund.

184-B:3 Advisory Board.

I. There is hereby established an emergency dairy assistance program advisory board. Such board shall manage appeals arising from RSA 184-B:4.

II. The board shall consist of the following:

(a) One member of the house of representatives who serves on the environmental and agriculture committee, appointed by the speaker of the house of representatives.

(b) One member of the senate who serves on the energy, environment and economic development committee, appointed by the president of the senate.

(c) Three members of the public who are not milk producers or do not own a farm where milk is produced, appointed by the commissioner of the department of agriculture, markets, and food.

184-B:4 Appeals. The emergency dairy assistance program advisory board shall hear producer appeals. Appeals shall be based on unforeseen emergencies, contingencies, and extenuating circumstances.

184-B:5 Butterfat Content.

I. Producers with herds that produce milk with an average butterfat content between 3.5 percent and 4.0 percent shall receive assistance from the program as determined in RSA 184-B:2, I.

II. Producers with herds that produce milk with an average butterfat content between 4.1 percent and 4.5 percent shall receive assistance granted according to the formula in RSA 184-B:2, I, plus 10 percent.

III. Producers with herds that produce milk with an average butter fat content over 4.6 percent shall receive assistance granted according to the formula in RSA 184-B:2, I, plus an additional 20 percent.

2 Appropriation. The sum of \$3,000,000 for the fiscal year ending June 30, 2007, is hereby appropriated to the department of agriculture, markets, and food for the emergency dairy assistance program established in RSA 184-B:1. The governor shall draw a warrant for said sum out of any money in the treasury not otherwise appropriated. Any moneys not expended by June 30, 2008 shall lapse into the general fund.

3 Price of Milk. Amend RSA 434:56 to read as follows:

434:56 Establishment of Minimum Producer Dairy Prices. The commissioner, after consulting with the agricultural advisory board, may establish by order an equitable minimum price to be paid to dairy producers for raw milk produced in New Hampshire on the basis of the use thereof in the various classes, grades and forms. The commissioner, after consulting with the agricultural advisory

sory board, may from time to time make, amend or rescind an order if the commissioner finds that the federal milk marketing order covering New Hampshire is adequate or inadequate as the case may be to ensure a stable raw milk production and distribution system in the state. ~~[In no case shall the commissioner establish by order a price greater than the average price established for comparable classes, grades and forms of raw milk in the contiguous states.]~~

4 Effective Date. This act shall take effect June 30, 2007.

AMENDED ANALYSIS

This bill establishes and makes an appropriation for the emergency dairy assistance program. Amendment adopted.

Rep. Phinizy offered floor amendment (0971h).

Floor Amendment (0971h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to assistance for milk producers.

Amend the bill by replacing all after the enacting clause with the following:

1 New Chapter; Emergency Dairy Assistance Program. Amend RSA by inserting after chapter 184-A the following new chapter:

CHAPTER 184-B

EMERGENCY DAIRY ASSISTANCE PROGRAM

184-B:1 Program Established. There is hereby established in the department of agriculture, markets and food, the emergency dairy assistance program for the fiscal year ending June 30, 2008.

184-B:2 Program Administration.

I. In order to apply for the emergency dairy assistance program, a milk producer as defined by RSA 184:79, IX, shall calculate his or her actual production of milk in hundredweight for November 2006, December 2006, January 2007, and February 2007. Assistance shall be calculated by multiplying a milk producer's actual milk production times the difference between the average Boston market price for November 2006, December 2006, January 2007, and February 2007 and the base price of milk at \$16.94 per hundredweight. Producers who were not in production in November 2006, December 2006, January 2007, and February 2007, but who were in production in the calendar year of 2006, and who wish to receive this interim assistance shall provide the commissioner verifiable production evidence by September 1, 2007 for the lowest actual 4 months' milk production in 2006. For the purposes of this chapter, a milk producer, as defined in RSA 184:79, IX who is receiving assistance shall not include governmental entities.

II. The milk producer shall apply to the commissioner of agriculture, markets, and food on forms provided by the commissioner for assistance by September 1, 2007 by reporting the average price. The commissioner may adopt rules, pursuant to RSA 541-A, relative to the content and form of the application forms. In addition to reporting the average price, a producer applying for assistance shall provide the commissioner of the department of agriculture, markets, and food with 4 months' worth of verifiable production evidence. Acceptable forms of verifiable production evidence include: milk marketing payment stubs, bulk tank records, milk handler records, and daily milk marketing records.

III. Assistance shall be distributed beginning July 15, 2007. Payment will be in the form of a check made out to the producer from the state of New Hampshire.

IV. The following milk is ineligible for calculation in a milk producer's actual milk production for determination of assistance:

(a) Dumped milk that causes bulk load contamination for which a producer receives an insurance indemnity.

(b) Milk dumped on the farm by order of a department of agriculture, markets, and food or a department of health and human services official.

V. When applying for assistance, a milk producer shall sign an agreement to reimburse the department of agriculture, markets, and food for payments if the producer disperses the herd or reduces herd production by more than 50 percent by July 1, 2008. Funds collected by the department in the form of a reimbursement shall be deposited into the general fund.

184-B:3 Advisory Board.

I. There is hereby established for the duration of the program an emergency dairy assistance program advisory board. Such board shall manage appeals arising from RSA 184-B:4.

II. The board shall consist of the following:

(a) One member of the house of representatives who serves on the environmental and agriculture committee, appointed by the speaker of the house of representatives.

(b) One member of the senate who serves on the energy, environment and economic development committee, appointed by the president of the senate.

(c) Three members of the public who are not milk producers or do not own a farm where milk is produced, appointed by the commissioner of the department of agriculture, markets, and food.

184-B:4 Appeals. The emergency dairy assistance program advisory board shall hear producer appeals. Appeals shall be based on unforeseen emergencies, contingencies, and extenuating circumstances.

184-B:5 Butterfat Content.

I. Producers with herds that produce milk with an average butterfat content between 3.5 percent and 4.0 percent shall receive assistance from the program as determined in RSA 184-B:2, I.

II. Producers with herds that produce milk with an average butterfat content between 4.1 percent and 4.5 percent shall receive assistance granted according to the formula in RSA 184-B:2, I, plus 10 percent.

III. Producers with herds that produce milk with an average butter fat content over 4.6 percent shall receive assistance granted according to the formula in RSA 184-B:2, I, plus an additional 20 percent.

2 Appropriation. The sum of \$3,000,000 for the fiscal year ending June 30, 2007, is hereby appropriated to the department of agriculture, markets, and food for the emergency dairy assistance program established in RSA 184-B:1. The governor shall draw a warrant for said sum out of any money in the treasury not otherwise appropriated. Any moneys not expended by June 30, 2008 shall lapse into the general fund.

3 Price of Milk. Amend RSA 434:56 to read as follows:

434:56 Establishment of Minimum Producer Dairy Prices. The commissioner, after consulting with the agricultural advisory board, may establish by order an equitable minimum price to be paid to dairy producers for raw milk produced in New Hampshire on the basis of the use thereof in the various classes, grades and forms. The commissioner, after consulting with the agricultural advisory board, may from time to time make, amend or rescind an order if the commissioner finds that the federal milk marketing order covering New Hampshire is adequate or inadequate as the case may be to ensure a stable raw milk production and distribution system in the state. ~~[In no case shall the commissioner establish by order a price greater than the average price established for comparable classes, grades and forms of raw milk in the contiguous states.]~~

4 Effective Date. This act shall take effect June 30, 2007.

AMENDED ANALYSIS

This bill establishes and makes an appropriation for the emergency dairy assistance program. Rep. Phinizy yielded to questions.

Floor amendment (0971h) adopted.

Committee report adopted.

Referred to the Committee on Finance.

HB 416, relative to mercury reduction. **OUGHT TO PASS WITH AMENDMENT.**

Rep. James G. Phinizy for Environment and Agriculture: It is estimated that each year over 150 pounds of mercury are deposited in New Hampshire's solid waste landfills or incinerators. This bill bans the disposal of all mercury-added products, regardless of mercury content, in solid waste landfills, transfer stations and incinerators. Products such as mercury devices, switches, light bulbs and button batteries contribute to the toxicity of the waste stream. This bill will divert these products into a recycling program or will require disposal as a hazardous waste. Even though manufacturers are producing newer products with less mercury, there is still a cumulative effect. Also, it is particularly important to capture those products which are still in the public usage and which are high in mercury content. Industry and business are already required to recycle fluorescent light bulbs; it is only fitting, consistent and logical that New Hampshire residents follow the same standard. Vote 15-0.

Amendment (0584h)

Amend RSA 149-M:58, I as inserted by section 1 of the bill by replacing it with the following:

I. No person shall knowingly dispose of mercury-added products in solid waste landfills, transfer stations, or incinerators.

AMENDED ANALYSIS

This bill bans the disposal of mercury-added products in solid waste landfills, transfer stations, or incinerators.

Amendment adopted.

The question now being adoption of the committee report of Ought to Pass with Amendment. Rep. Phinizy yielded to questions.

Committee report adopted and ordered to third reading.

HB 552, prohibiting the intensive confinement of caged egg-laying hens. **MAJORITY: INEXPEDIENT TO LEGISLATE. MINORITY: OUGHT TO PASS.**

Rep. Richard H. Snow for the Majority of Environment and Agriculture: The bill requires that fowl that are used for the production of eggs can not be confined in a living space that prevents it from extending its limbs without touching the sides of the living space. The committee heard extensive testimony on this bill and carefully considered it. While the committee as a whole was sympathetic to the intent of the bill, the majority accepted the reality of modern, scientifically accepted methods of production necessary to manage the health and viability of the flock in a cost effective manner. Further, the state veterinarian testified that he can, and has in the past, exercised his authority to intervene if it becomes necessary in a case where an owner isn't treating their animals, including fowl, in an acceptable, moral, reasonable and utilitarian manner. Vote 15-2.

Rep. Linda J. McCarthy for the Minority of Environment and Agriculture: We all learned as long ago as high school biology that one of the primary defining characteristics of animals is the ability to move. Movement is essential to life, and the minority believes that this bill does nothing more than provide the chickens that produce a valuable commodity for our society, eggs, with the right to move. No one is asking for us to stop eating eggs. No one is even asking that chickens be allowed to roam freely. All this bill does is guarantee that caged chickens at least have enough room to spread their wings. Opponents note that these so-called battery cages are not currently used in New Hampshire. The minority responds, so much the better. Then, we are not inconveniencing even one single farmer or egg producer. At the same time, we are sending a powerful message that such cruelty would never be tolerated in New Hampshire, that we value the simple basic right of animals, even those confined for our benefit, to move a tiny bit. Since such cages are not used in New Hampshire, the price of eggs will not increase even one penny should this bill pass. This bill has great merit and should pass overwhelmingly. Note also that although the total indicates a minority of only two, the original ought to pass motion had six aye votes.

Rep. McCarthy spoke against.

Rep. Webb spoke in favor.

Majority committee report adopted.

HB 699, establishing a commission to study methods and costs of sewage, sludge, and septage disposal. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Leigh A. Webb for Environment and Agriculture: Methods and costs of disposal of sewage, sludge, and septage are an ongoing concern. The majority of the committee agreed that such issues as alternatives to current disposal methods and the feasibility of utilizing emerging technologies such as bioreactor landfills are worthy of study. Vote 12-1.

Amendment (0808h)

Amend the bill by replacing all after the enacting clause with the following:

1 New Subdivision; Sewage, Sludge, and Septage Disposal Commission. Amend RSA 485-A by inserting after section 57 the following new subdivision:

Sewage, Sludge, And Septage Disposal Commission

485-A:58 Commission Established. There is established a sewage, sludge, and septage disposal commission.

485-A:59 Membership and Compensation.

I. The members of the sewage, sludge, and septage disposal commission shall be as follows:

(a) Three members of the house of representatives, appointed by the speaker of the house of representatives.

(b) Three members of the senate, appointed by the president of the senate.

(c) One member from the division of water of the department of environmental services, appointed by the commissioner.

- (d) One member from the division of waste management, appointed by the commissioner.
- (e) The director of the office of energy and planning, or designee.
- (f) The commissioner of the department of agriculture, markets, and food, or designee.
- (g) The state epidemiologist, or designee.
- (h) A member representing the university of New Hampshire college of engineering and physical sciences appointed by the dean of the college.
- (i) A member representing the university of New Hampshire college of life sciences and agriculture, appointed by the dean of the college.
- (j) A member representing the institute for the study of earth, oceans, and space, appointed by the director of the institute.
- (k) a member representing the Thompson school of applied science, appointed by the dean of the school.
- (l) A member representing the university of New Hampshire cooperative extension, appointed by the director.

II. Legislative members of the commission shall receive mileage at the legislative rate when attending to the duties of the commission.

III. The commission shall choose a chairperson, a vice-chairperson and a clerk from its membership.

IV. Each legislative member of the commission shall be appointed to the commission for terms ending when the legislative term ends. Nonlegislative members shall be appointed to the commission for terms of 3 years.

485-A:60 Duties. The sewage, sludge, and septage disposal commission shall study:

- I. The costs involved with the disposal of sewage, sludge, and septage.
- II. The options used for sewage, sludge, and septage disposal.
- III. The technological alternatives to disposal methods used in New Hampshire and their costs.
- IV. The economic feasibility of alternatives to current disposal methods.
- V. The environmental impact of current and alternative disposal methods.
- VI. The costs, benefits, and feasibility of a state built bioreactor landfill.
- VII. The public health effect of current and alternative disposal methods.
- VIII. The definition of biosolids.

485-A:61 Meetings. The sewage, sludge, and septage disposal commission shall meet at least quarterly to discuss pending legislation and at such times as the chairperson may call.

485-A:62 Report. On or before November 1 of each year, the commission shall report its findings and any recommendations for proposed legislation to the speaker of the house of representatives, the president of the senate, the house clerk, the senate clerk, the governor, and the state library.

2 Effective Date. This act shall take effect upon its passage.

Amendment adopted.

Committee report adopted and ordered to third reading.

MOTION TO SPECIAL ORDER

Rep. Phinizy moved that **HB 812**, relative to making permanent certain exceptions to limits on land application of septage and sludge, be made a Special Order for March 28, 2007 as the first order of business.

Adopted.

MOTION TO SPECIAL ORDER

Rep. Phinizy moved that **HB 836**, prohibiting wastewater treatment plants from excluding towns for septage treatment and disposal services, be made a Special Order for March 28, 2007 immediately following HB 812.

Adopted.

REGULAR CALENDAR (CONT'D)

HB 907-FN, relative to the sale, distribution, and disposal of certain mercury-added products. **OUGHT TO PASS WITH AMENDMENT.**

Rep. James G. Phinizy for Environment and Agriculture: This bill phases out the sale of certain types of mercury-added products such as measuring devices, thermometers, flow meters, switches, relays and thermostats. These products contribute large amounts of mercury to the solid waste stream when they are discarded and all have existing, economical, non-mercury substitutes already

on the market. The bill exempts replacement switches and relays used in existing equipment, as well as those products mandated by federal requirement. The bill also contains an exemption process for mercury-added products that have no alternatives on the market. Products such as fluorescent light bulbs and button batteries are not affected by this bill. Vote 15-0.

Amendment (0756h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to the sale and distribution of certain mercury-added products.

Amend RSA 149-M:53, V(a) as inserted by section 2 of the bill by replacing it with the following:

V.(a) Beginning July 1, 2008, no person shall sell, offer for sale, or distribute a new manufactured mercury switch, mercury relay, or mercury thermostat individually or as a product component. This prohibition does not apply if the switch, relay, or thermostat is used to replace a switch, relay, or thermostat that is a component in a larger product in use prior to July 1, 2008 provided that no compatible non-mercury replacement component exists.

Amend the bill by deleting section 4 and renumbering the original section 5 to read as 4.

AMENDED ANALYSIS

This bill restricts the sale and distribution of mercury-added products.

Amendment adopted.

Committee report adopted and ordered to third reading.

HB 38, relative to terms of appointment for certain state officers. MAJORITY: OUGHT TO PASS WITH AMENDMENT. MINORITY: INEXPEDIENT TO LEGISLATE.

Rep. Patricia M. McMahon for the Majority of Executive Departments and Administration: This bill provides that commissioners of agencies in state government can remain in their positions after their term has expired if the governor gives written authorization for the commissioner to extend his/her service. The status of remaining in the position after a term expires is commonly referred to as a "hold over" which extends the incumbent's service in order to minimize disruption in replacing personnel and allows a governor to continue to search for and nominate a successor with the consent of the Executive Council should he/she choose. A bi-partisan majority of the committee believes that the amended version of HB 38 is in the interest of good government, good management and personnel practices as well as assuring accountability within the executive branch on behalf of New Hampshire citizens. Vote 11-4.

Rep. James F. Headd for the Minority of Executive Departments and Administration: The original bill applied to all appointees in classified positions as well as boards and commissions. The bill was amended to include only compensated employees. The minority's concern is that should the governor and council not agree on the nomination of a new commissioner, the deputy commissioner would then assume the commissioner's duties. This overlapping of position could last indefinitely with the deputy doing both jobs.

Majority Amendment (0517h)

Amend the bill by replacing all after the enacting clause with the following:

1 Terms of Appointment. RSA 21:33-a, III is repealed and reenacted to read as follows:

III.(a) That any commissioner or agency head of a department, as defined in RSA 21-G:5, VI, who is an unclassified employee of the state, and appointed to such position, shall serve for the appropriate term or unexpired portion thereof. The commissioner or agency head may serve beyond the appointed term or unexpired portion thereof with the written authorization of the governor. This subparagraph shall also apply to the adjutant general and the attorney general, and to appointees to the liquor commission, the lottery commission, the pari-mutuel commission, and the public utilities commission.

(b) That any other appointee to such position shall serve for the appropriate term or unexpired portion thereof and until a successor is appointed and qualified.

2 Commissioner of Resources and Economic Development. Amend RSA 12-A:2 to read as follows:

12-A:2 Commissioner of Resources and Economic Development. There shall be a commissioner of resources and economic development who shall be appointed by the governor and council for a term of 4 years from the date of [his] appointment [~~and until his successor is appointed and qualified~~]. A vacancy shall be filled for the unexpired term. It shall be the responsibility of the

commissioner to organize and direct the work of the department. The commissioner of resources and economic development shall appoint one member of his *or her* staff who shall act in ~~[his] the commissioner's~~ stead when said commissioner is absent from the state and at such other times as ~~[he is so]~~ directed by the commissioner. When acting for the commissioner said person shall have all the power, duties and authority of the commissioner. Directors of departmental divisions shall be subject to the supervisory authority of the commissioner, which authority shall include power to establish department and divisional policy as well as to control the actual operations of the department and all divisions therein. The commissioner shall consult with the advisory commission prior to the establishment of general and divisional departmental policy.

3 Commissioner of the Department of Corrections. Amend RSA 21-H:6, I to read as follows:

I. The commissioner of the department shall be appointed by the governor, with the consent of the council, and shall serve for a term of 4 years from the date of appointment ~~[and until a successor is appointed]~~.

4 Commissioner of the Department of Health and Human Services. Amend RSA 126-A:5, I to read as follows:

I. Administrative and executive direction of the department of health and human services shall be under the direction of a commissioner of health and human services who shall be appointed by the governor and council. The commissioner shall hold office for a term of 4 years from the date of the appointment ~~[and until a successor is appointed and qualified. RSA 21:33-a shall not apply to appointments made under this section]~~.

5 Liquor Commissioners. Amend RSA 176:1 to read as follows:

176:1 Commission. There shall be a state liquor commission consisting of 3 members appointed by the governor with the consent of the council. Not more than 2 members shall belong to the same political party. Each member shall hold office for a term of 6 years ~~[and until his successor has been appointed and qualified]~~. If a vacancy shall occur in the commission, it shall be filled for the remainder of the term. Any or all of the commissioners may be removed by the governor and council for cause.

6 Executive Director of the Fish and Game Department. Amend RSA 206:8, I to read as follows:

I. The commission, following a comprehensive and equitable search, shall nominate, and the governor and council shall appoint, an executive director of the fish and game department. If the governor and council fail to appoint the nominee, the commission shall nominate another person. Each nominee shall be a person with knowledge of, and experience in, the requirements for the protection, conservation and restoration of the wildlife resources of the state and shall be a competent administrator. The executive director shall hold office for a term of 4 years from the date of appointment ~~[and until a successor is appointed and qualified]~~. ~~[Notwithstanding RSA 21:33-a,]~~ A vacancy in such office shall be filled for ~~[a 4-year term from the date of appointment]~~ **the remainder of the unexpired term**. The governor and council shall have the authority to remove the executive director at any time, but only for just cause pursuant to RSA 4:1. In such case, the governor and council shall deliver to the executive director a copy of the charges and afford an opportunity of being heard publicly in person or by counsel after being given not less than 15 days notice. The executive director shall not hold any other public office, and shall be entirely devoted to the service of the state in the discharge of the official duties of the position. The executive director shall receive the compensation prescribed in RSA 94:1-4, and shall be reimbursed for all actual and necessary traveling and other expenses incurred in the discharge of official duties. Before entering upon the duties of the office, the executive director shall take the oath prescribed by the constitution, and shall, in addition thereto, swear that no other public office is held nor any position under any political committee or party is held. Such oath shall be filed with the secretary of state. The executive director shall have general supervision and control of all activities, functions, and employees of the fish and game department, and shall enforce all the provisions of the laws of this state relating to fish, wildlife resources, and marine species, and shall exercise all necessary powers incident thereto.

7 Labor Commissioner. Amend RSA 273:2 to read as follows:

273:2 Term of Commissioner; Removal. The commissioner shall hold office for 3 years from the date of ~~[his]~~ appointment ~~[and until his successor shall be appointed and qualified,]~~ and may be removed for cause by the governor, with the advice and consent of the council.

8 Commissioner of the Department of Employment Security. Amend RSA 282-A:108, II to read as follows:

II. The commissioner shall hold office for 5 years from the date of ~~[his]~~ appointment ~~[and until his successor is appointed and qualified]~~. Otherwise the commissioner may be removed only as provided in RSA 4:1.

9 Pari-Mutuel Commissioners. Amend RSA 284:6-a, I to read as follows:

I. There shall be a state pari-mutuel commission consisting of 6 members appointed by the governor with the advice and consent of the council. Three of the members shall represent the interests of greyhound racing. Three of the members shall represent the interests of thoroughbred horse racing and harness horse racing. Each member shall hold office for a term of 3 years ~~[and until a successor has been appointed and qualified]~~. Any vacancy shall be filled for the unexpired term. Annually, one member shall be chosen chairperson by the commission, and one shall be chosen as secretary.

10 State Lottery Commissioners. Amend RSA 284:21-a to read as follows:

284:21-a State Lottery Commission. There shall be and hereby is created a state lottery commission consisting of 3 members who shall be appointed and may be removed for cause by the governor with the advice and consent of the council. One member shall be appointed for one year, one for 2 years and one for 3 years, and upon the expiration of their terms of office their successors shall be appointed for a term of 3 years. Any vacancy shall be filled by appointment for the unexpired term. ~~[The members shall serve until their successors are appointed and qualified.]~~ No member of the commission shall have any pecuniary or other interest in any supplier or agent to the commission or in any licensee licensed under the provisions of this chapter.

11 Public Utilities Commissioners. Amend RSA 363:1 to read as follows:

363:1 Commission; Term. There shall be a public utilities commission, composed of 3 commissioners who shall be full-time employees and who shall engage in no other gainful employment during their terms as members. Their term of office shall be for 6 years ~~[and until their successors are appointed and qualified]~~. Of the 3 commissioners, one shall be an attorney and a member of the New Hampshire Bar and one shall have either background or experience or both in one or more of the following: engineering, economics, accounting or finance.

12 Public Utilities Commission; Executive Director. Amend RSA 363:27, III to read as follows:

III. EXECUTIVE DIRECTOR AND GENERAL COUNSEL. The commission shall appoint an executive director, *who shall serve for a term of 4 years.* ~~[and]~~ *The commission shall also appoint* a general counsel, ~~[each of whom]~~ *who* shall serve for a term of 4 years and until a successor is appointed and qualified.

13 Bank Commissioner. Amend RSA 383:1 to read as follows:

383:1 Commissioner and Deputy. There shall be a bank commissioner who shall be appointed by the governor with the advice and consent of the council, and ~~[his]~~ *whose* term shall be for 6 years ~~[or until his successor is appointed and qualified]~~. There shall be a deputy bank commissioner who shall be recommended by the bank commissioner and appointed by the governor with the advice and consent of the council, and ~~[his]~~ *whose* term shall be 6 years. The deputy may exercise the powers and perform the duties of the commissioner during ~~[his]~~ *the commissioner's* absence whenever and to the extent that he *or she* may be so authorized by the commissioner. In case of the temporary disability of the commissioner, or of a vacancy in the office, the deputy shall have the powers and perform the duties of the commissioner until another commissioner is appointed and qualified.

14 Insurance Commissioner. Amend RSA 400-A:3 to read as follows:

400-A:3 Insurance Commissioner; Appointment; Term. The head of the department shall be the insurance commissioner who is charged with the rights, powers, and duties pertaining to the enforcement and execution of the insurance laws of this state. The commissioner shall have all powers specifically granted to him *or her* or reasonably implied in order to enable him *or her* to perform the duties imposed ~~[upon him]~~ by this title. The commissioner shall have such additional rights, powers, and duties as may be provided by other laws. The commissioner shall be appointed by the governor with advice and consent of the council. The commissioner shall hold office for 5 years ~~[and until a successor has been appointed and has qualified]~~. Vacancies in the office of the insurance commissioner shall be filled for the unexpired term of such office. ~~[He]~~ *The commissioner* may be removed only as provided by RSA 4:1.

15 Commissioner of the Department of Agriculture, Markets, and Food. Amend RSA 425:3, I to read as follows:

I. The commissioner of the department of agriculture, markets, and food shall be appointed by the governor, with the consent of the council, for a term of 5 years ~~[and until a successor is appointed and qualified]~~. Prior to the appointment of a commissioner, the governor and council shall receive and consider the recommendations of the agricultural advisory board as to such appointment. The commissioner of agriculture, markets, and food shall be qualified by reasons of professional competence, education, and experience.

16 Repeals and Revisions; Term of Office. Amend RSA 624:8 to read as follows:

624:8 Term of Office. If the time of the beginning of a term of office is changed by the Revised Statutes Annotated, the incumbent of the office under the provisions of the former statute shall hold the office until the time fixed by the Revised Statutes Annotated for the beginning of the term ~~[and until a successor is chosen and qualified under the provisions of the Revised Statutes Annotated and not afterward]~~, except in cases otherwise specially provided for.

17 Effective Date. This act shall take effect 60 days after its passage.

AMENDED ANALYSIS

This bill provides that certain commissioners and agency heads shall serve for their appointed term, and not until a successor is appointed and qualified, unless the governor explicitly grants such an extension. The bill also removes language permitting them to retain office until a successor is appointed and qualified from the specific statutes that establish their positions and terms of appointment.

Majority committee amendment adopted.

Majority committee report adopted and ordered to third reading.

HB 229, relative to licensing requirements for operators of games of chance. **MAJORITY: OUGHT TO PASS WITH AMENDMENT. MINORITY: INEXPEDIENT TO LEGISLATE.**

Rep. Hector M. Velez for the Majority of Executive Departments and Administration: This is a combination of two bills related to charitable gaming. There was bi-partisan agreement that, if a facility allowed charitable gaming to be conducted less than three times in a calendar year, the facility in which the games of chance were conducted shall be exempt from licensing requirements. The bill also clarifies that all applicants shall be subject to national criminal background checks, including the submission of fingerprints to the Federal Bureau of Investigation for a criminal background check. The committee also had discussion around the fact that there is a study commission (set up by the Legislature in 2006), that has been taking an extensive look at charitable gaming in the State of New Hampshire and will continue to study charitable gaming. The report is due out to the Legislature by July 1, 2007. Vote 8-4.

Rep. Ken Hawkins for the Minority of Executive Departments and Administration: The minority can not agree with an amendment that was brought forth. The original bill allowed for the pari-mutual commission to implement fines after approval by the Joint Legislative Committee on Administrative Rules. Presently, they can only suspend or revoke a license, and this would have given them another avenue to use in the case of minor violations. The second more critical part that was taken out of the original bill was the removal of the section that mandated 35% of the gross revenues must go to charity and all other expenses would come from the remaining 65%. By removing this section, the charity would pay the rent of the hall out of their 35% and we do not feel that that is fair.

Majority Amendment (0917h)

Amend the bill by replacing all after the enacting clause with the following:

1 Ice Outs. Amend RSA 287-D:1, II to read as follows:

II. "Games of chance" means any game involving gambling as defined by RSA 647:2, II, or any lottery prohibited by RSA 647:1, but shall not include any game involving the use of a slot machine or any other device in the nature of a slot machine, *or* 50/50 raffles as defined in RSA 287-A:1, III, ~~or ice out contests as defined in RSA 287-D:1, IV~~.

2 Charitable Organization; Definition. Amend the introductory paragraph of RSA 287-D:1, III(a) to read as follows:

(a) "Charitable organization" means any bona fide religious, charitable, civic, veterans', or fraternal or church organization, including police and firemen's organizations which shall have been registered with the secretary of state for at least 2 years and in existence for at least 2 years in a town or city in this state, provided that the primary activities conducted by the organization were for the

purpose for which the organization was established and have not included charitable gambling operations; which ~~[is organized under the laws of this state, and to which contributions are exempt from federal income tax]~~ **is tax exempt under Internal Revenue Code Section 501(c)(3), 501(c)(4), 501(c)(7), 501(c)(8), 501(c)(10), or 501(c)(19), or is covered under authority of those sections.** To be eligible for licensure under this chapter, a charitable organization shall do all of the following:

3 New Paragraph; Ice Outs. Amend RSA 287-D:2 by inserting after paragraph VI the following new paragraph:

VII. The requirements of this chapter shall not apply if the only game being conducted by the charitable organization is an ice-out contest.

4 License Applications. Amend RSA 287-D:2-a, V(c) to read as follows:

(c) That neither the applicant nor any person who will be participating in the operation of the games of chance has been convicted of a felony **or a class A misdemeanor** within the previous 10 years which has not been annulled by a court, or a **class B misdemeanor** ~~[involving falsehood or dishonesty]~~ within the previous 5 years which has not been annulled by a court, or has violated any statutes or rules governing charitable gambling **in New Hampshire or any other state.**

5 License Applications; Charitable Organizations. Amend RSA 287-D:2-a, VI to read as follows:

VI. If a charitable organization intends to **use**, lease, or rent premises for the conduct of any game of chance from an entity other than a charitable organization or governmental subdivision, the entity leasing or renting out **or otherwise allowing a charitable organization to use** the premises shall be licensed by the pari-mutuel commission. **Any entity other than a charitable organization or governmental subdivision with a facility at which games of chance are held for no more than 3 game dates per calendar year shall be exempt from the licensing requirement of this paragraph.** The license shall be applied for by filing an application supplied by the pari-mutuel commission. The pari-mutuel commission may issue a license for a period of one year which shall expire on June 30 of each year unless sooner revoked or suspended for just cause by the pari-mutuel commission.

6 New Paragraph; License Applications. Amend RSA 287-D:2-a by inserting after paragraph IX the following new paragraph:

X. At least 45 days prior to each game date, the charitable organization shall submit the date and location of the game of chance, if this information has not already been submitted to the pari-mutuel commission pursuant to subparagraph II(a).

7 License Applications. Amend RSA 287-D:2-b, II-IV to read as follows:

II. No compensation shall be paid to operators of a game of chance unless agreed to in advance in writing by the charity. Compensation shall include, but is not necessarily limited to, money or any other thing of value. If the paid game operator's compensation is contingent upon the amount of revenue received from a game of chance, the compensation shall be a fixed percentage of the gross revenue from the game of chance excluding the paid game operator's expenses. If the compensation of a paid game operator is not contingent upon the amount of revenue received, the compensation shall be a reasonable estimate, expressed as a percentage of the gross revenue. The contract shall clearly disclose the assumptions upon which the estimate is based. The stated assumptions shall be based upon all of the relevant facts known to the paid game operator regarding the services to be provided and the past performance of games of chance operated by the paid game operator. **Any agreement entered into by the charity with the game operator shall be made available upon request, to the pari-mutuel commission for review. Such agreement shall take into consideration all other expenses related to the games of chance including security fees, facility rental fees, equipment rental fees, and advertising so that, after such expenses and fees are paid, the agreement shall result in the charity receiving no less than 35 percent of the gross revenues minus prices paid as specified in RSA 287-D:3, VIII, absent exigent circumstances as may be defined by the commission.**

II-a. Unless otherwise agreed to in advance, pursuant to paragraph II, in writing by the charitable organization, operators of games of chance may be reimbursed for their out-of-pocket expenses in an amount not to exceed \$25 per game date, provided that such expenses are itemized and submitted in writing to the charitable organization.

III. No one under the age of 18 years shall be admitted to the premises on which games of chance are being conducted, except when the games are being conducted at a carnival. Proof of age shall be produced upon request of the ~~[lottery]~~ **pari-mutuel** commission. When games of chance are conducted

at a carnival, persons under the age of 18 years may be admitted to the premises on which the games are being conducted when accompanied and supervised by a parent or legal guardian; but persons under the age of 18 shall not be permitted to play games of chance at a carnival.

IV. No games of chance shall be conducted prior to 11:00 a.m. on a weekday *or Saturday*, prior to noon on a Sunday, or after 1:00 a.m. on any day.

8 Operation of Games of Chance. Amend RSA 287-D:2-b, VII to read as follows:

VII. Only the treasurer of the charitable organization or a bona fide member of the charitable organization designated by the treasurer, shall ~~[handle]~~ ***be responsible for*** any monetary transactions related to the game of chance.

9 Licensing of Game Operators. Amend RSA 287-D:2-c, I to read as follows:

I. As used in this section, game operators means any consultant or any person other than a bona fide member of the charitable organization involved in conducting, managing, supervising, directing, or running the games of chance, and those involved in such tasks as dealing, running a roulette wheel, *or* handling chips~~[-and serving beverages or food]~~.

10 Licensing of Game Operators. Amend RSA 287-D:2-c, II(a) to read as follows:

(a) The name *and social security number* of the game operator *or for an organization the name and federal tax identification number. The pari-mutuel commission shall not disclose any social security number submitted.*

11 Licensing of Game Operators. Amend RSA 287-D:2-c, III(b) to read as follows:

(b) Has submitted a background and criminal ***record*** check pursuant to RSA 287-D:8; and
12 Equipment; Inspection. Amend RSA 287-D:3, II to read as follows:

II. Any and all devices and equipment used to conduct said games of chance shall be subject to inspection by duly authorized law enforcement *or pari-mutuel* officials.

13 Background and Criminal Records Check. Amend RSA 287-D:8, III to read as follows:

III. All applicants shall also be subject to a ***national criminal*** background check, ***including the submission of fingerprints to the Federal Bureau of Investigation for a criminal history background check***, by the pari-mutuel commission to determine if they are eligible for licensure under this chapter.

14 New Paragraph; Background and Criminal Records Check. Amend RSA 287-D:8 by inserting after paragraph III the following new paragraph:

IV. The pari-mutuel commission shall bill the applicant for any cost associated with the criminal or background record check to cover any fee charged by the department of safety for the criminal records check in paragraph I or by the Federal Bureau of Investigation for the background check in paragraph III.

15 License Applications; Charitable Organizations. Amend RSA 287-D:2-a, II(f) to read as follows:

(f) If any of the proposed games are to be held in a location licensed pursuant to RSA 287-D:2-a, VI, the name and address of the person or business from whom the space is being rented ***or permission for use has been granted.***

16 Repeal. The following are repealed:

I. RSA 287-D:2-b, XIII, relative to submission of information to the pari-mutuel commission.

II. RSA 287-D:2-d, IV, relative to authorization of specific games.

III. RSA 284:23, V, relative to tax rates for Rockingham Park.

17 Effective Date. This act shall take effect 60 days after its passage.

AMENDED ANALYSIS

This bill:

I. Expands the definition of "charitable organization" for the purposes of games of chance.

II. Expands the information about a game operator that must be submitted to the pari-mutuel commission.

III. Makes certain changes to rules of licensure for operators of games of chance.

IV. Repeals a tax expiration provision relative to Rockingham Park.

This bill was requested by the pari-mutuel commission.

Majority committee amendment adopted.

Majority committee report adopted and ordered to third reading.

HB 543, establishing a commission to study the licensing process for licensed alcohol and drug counselors. **OUGHT TO PASS.**

Rep. A. Laurie Harding for Executive Departments and Administration: This bill calls for an interdisciplinary commission to explore the licensing process for alcohol and drug counselors. The original statute was passed in 1998. Much has been learned about substance abuse since that time. The charge to the commission is to review and make recommendations regarding the following: the number of hours of supervision required for those in training, the course content required for licensure, the number of relevant work hours required and the scope of practice for individuals licensed under the RSA. Vote 15-2.

Committee report adopted and ordered to third reading.

HB 571-FN, relative to full-time seasonal state employees. **MAJORITY: OUGHT TO PASS. MINORITY: INEXPEDIENT TO LEGISLATE.**

Rep. Ken Hawkins for the Majority of Executive Departments and Administration: This bill will allow full-time temporary state employees to be included in the death benefit under RSA 21-I:29. Currently, they have no benefits that a normal employee would have. They are hired for seasonal work – such as college students during the summer. It was discussed in committee that we would be now giving a benefit that was not negotiated, but these people do not belong to any union that could negotiate for them. They work in sometimes challenging positions along our state highways and could be killed by motorists or equipment. The funeral expenses can be a burden to their family. One young man did in fact die last year (while swimming on lunch break), and that is what brought this issue forward. Vote 10-6.

Rep. John Reagan for the Minority of Executive Departments and Administration: This bill was prompted by an emotional reaction to a tragedy befalling a New Hampshire family. The family's loss was made worse by the deceased having made no provision for his final expenses. The young man died during a work day for the Department of Transportation while on his lunch break. As a seasonal employee, he was not entitled to a death benefit that is commonly negotiated for state classified employees. His survivors did receive a workers compensation settlement. It is not our function as guardian of the taxpayer's dollar to confer benefits on state employees because they failed to purchase life insurance. The hiring authority negotiates or grants benefits in order to recruit and maintain a productive workforce. It was not found necessary to offer a free life insurance policy to maintain the seasonal workforce. The Legislature should not second guess the executive function of hiring employees or the wisdom of the executive regarding the use of benefits to compensate the workforce. There is a process to negotiate wages and benefits for state employees. It is not appropriate for the Legislature to override the compensation process administered by the Personnel Division in Administrative Services. We are sorry for the family of the unfortunate person who lost his life. We are at the same time conscious of the burden of paying taxes to maintain state government.

On a division vote, 165 members having voted in the affirmative and 112 in the negative, the Majority committee report was adopted.

Ordered to third reading.

HB 593-FN, relative to penalties for violations of licensing requirements for certain regulated professions. **INEXPEDIENT TO LEGISLATE.**

Rep. Suzanne E. Beauchesne for Executive Departments and Administration: This bill would increase penalties for violations of licensing requirements for a number of regulated professions. On the day of the hearing, the sponsor did not appear to present or defend the bill, nor was any testimony – pro or con – made available. Vote 13-2.

Committee report adopted.

HB 653, relative to the membership of the New Hampshire retirement system board of trustees. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Patricia M. McMahon for Executive Departments and Administration: The committee amended this bill to include aspects of a number of retirement bills and to retain the defined benefit plan of the New Hampshire Retirement System (NHRS). This comprehensive approach is a first step to stabilize the pension fund and the employee and employer rates. The aim is to attain a funding level of the consolidated retirement system equal to or greater than 85% of full funding of the retirement costs of all current employees and retirees. The funding methodology for financing the NHRS will change to "entry age normal" (pay as you go) and is anticipated to require a 30 year

amortization of unfunded actuarial accrued liabilities (UAAL) of all public retirement systems by the Governmental Accounting Standards Board. This change will reduce the volatility of the employer's contribution to the pension fund and assure predictability for the beneficiaries and the employers. In the future, the employer rates will be no less than the employees' rates. After the consolidated retirement system is 85% fully funded, funds may go to the special account. Earnings of the remaining assets of the retirement system which are in excess of 10 and one-half percent (a trigger) will be allocated to the special account. More flexibility will be allowed for the fiscal committee to provide supplemental allowances (cost of living allowances – COLA's) should they see fit to consider any additional benefits. One new member has been added to the board of trustees of the NHRS to provide representation from the management in local government. Vote 16-0.

Amendment (0930h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to the determination of benefits, funding, and administration of the New Hampshire retirement system.

Amend the bill by replacing all after the enacting clause with the following:

1 Gender Neutral; Definition; Average Final Compensation. Amend RSA 100-A:1, XVIII to read as follows:

XVIII. "Average final compensation" shall mean the average annual earnable compensation of a member during his *or her* highest 3 years of creditable service, or during all of the years in his *or her* creditable service if less than 3 years.

2 New Section; Maximum Benefit Amount. Amend RSA 100-A by inserting after section 6 the following new section:

100-A:6-a Maximum Retirement Benefit. Notwithstanding any other provision of this chapter to the contrary, any member's initial calculation of the retirement benefit granted under the provisions of RSA 100-A:5 or RSA 100-A:6 shall not exceed 100 percent of the member's highest year of earnable compensation. This provision shall not limit the application of supplemental allowances under RSA 100A: 41-a.

3 Board of Trustees; Local Government Member Added. Amend RSA 100-A:14, I to read as follows:

I. The administration of this system is vested in a board of ~~[13]~~ **14** trustees. The state treasurer shall be an ex officio ~~[voting]~~ **nonvoting** member of the board. The governor and council shall appoint 2 trustees, to be known as non-member trustees, who shall be qualified persons with business experience and not be members of the system, and who shall serve for a term of 2 years and until their successors are appointed and qualified, except that the original appointment of one of the non-member trustees shall be for a term of one year. The remaining ~~[10]~~ **11** members of the board shall consist of 2 employees, 2 teachers, 2 permanent policemen, 2 permanent firemen, one member of the senate who ~~[serves on the insurance committee and who]~~ shall be appointed annually by the senate president, ~~[and]~~ one member of the house of representatives who serves on the executive departments and administration committee and who shall be appointed annually by the speaker of the house, **and one person representing management in local government**. Whenever a vacancy occurs, the senate president or the speaker of the house shall fill the vacancy in the same manner by appointing a senate or a house member who shall serve for the unexpired term. The New Hampshire state employees' association, the New Hampshire education association, the New Hampshire police association, ~~[and]~~ the New Hampshire state permanent firemen's association, **and the New Hampshire Local Government Center** shall each annually nominate from their members a panel of 5 persons, all of whom **except for the panel of the Local Government Center** shall be active members of the retirement system, or one of the 4 predecessor systems, no later than May 31 of each year, and the panels so named shall be filed with the secretary of state no later than June 10 of each year. From each of the above named panels the governor and council shall ~~[originally]~~ appoint ~~[2 persons, and thereafter]~~ **one person** annually to the board, **except for the panel of the Local Government Center, which shall have one person appointed every 2 years**. Members appointed to the board in the manner aforesaid shall serve for a term of 2 years~~[, except that the original appointments of one of the persons from each panel shall be for a term of one year]~~. Each member so appointed shall hold office until his or her successor shall be appointed and qualified. Whenever a vacancy occurs, the governor and council shall fill the vacancy by appointing a member who shall serve for the unexpired term from the same panel from which the former member was appointed. The governor shall designate one of the non-member trustees to serve as chairman of said board of trustees.

4 Board of Trustees; Quorum. Amend RSA 100-A:14, IV to read as follows:

IV. Each trustee shall be entitled to one vote in the board of trustees. [~~Six~~] **Seven** trustees shall constitute a quorum for the transaction of any business. [~~Six~~] **Seven** votes shall be necessary for any resolution or action by the board at any meeting.

5 Method of Financing. Amend the introductory paragraph of RSA 100-A:16 to read as follows:

100-A:16 Method of Financing. All of the assets of the retirement system shall be credited, according to the purpose for which they are held, between 2 funds, namely, the member annuity savings fund and the state annuity accumulation fund. Each of the funds shall be subdivided on account of the various member classifications. In making the determinations required under this section for financing the retirement system, the board of trustees shall use the [~~open group aggregate~~] **entry age normal** funding methodology. The board of trustees shall direct the system's actuary to prepare biennial valuations of the system's assets and liabilities commencing with the valuation prepared as of June 30, [~~1991~~] **2007**. Such biennial valuation shall be the [~~sole~~] basis for determining the annual contribution requirements of the system until the next following biennial valuation.

6 Gender Neutral. Amend RSA 100-A:16, I(d) to read as follows:

(d) The accumulated contributions of a member withdrawn by [~~him~~] **the member**, or paid to his **or her** estate or [~~to his or her~~] designated beneficiary in event of his **or her** death in service, shall be paid from the member annuity savings fund. Upon the retirement of a member, his **or her** accumulated contributions shall be transferred from the member annuity savings fund to the state annuity accumulation fund.

7 Method of Funding; Unfunded Accrued Liability. Amend RSA 100-A:16, II(d) to read as follows:

(d) Immediately following the actuarial valuation prepared as of June 30[~~, 1968~~] **of each fiscal year**, the board shall have an actuary determine the amount of the unfunded accrued liability for each member classification as the amount of the total liabilities of the state annuity accumulation fund on account of such classification which is not dischargeable by the total of the funds in hand to the credit of the state annuity accumulation fund on account of such classification, and the aforesaid normal contributions to be made on account of the members in such classification during the remainder of their active service. The amount so determined with respect to each member classification shall be known as the "unfunded accrued liability" with respect to such classification. On the basis of each such unfunded accrued liability, the board shall have an actuary determine the level annual contribution required to discharge such amount over a period of [~~20 years from June 30, 1968~~] **30 years or the maximum period allowed by standards adopted by the Government Accounting Standards Board, whichever is less**.

8 Method of Funding; Special Account; Normal Contribution Rate. Amend RSA 100-A:16, II(h) and (i) to read as follows:

(h) There shall be a special account for additional benefits held by the board of trustees. Beginning July 1, 2003, the special account shall be subdivided into components representing the 4 retirement system member classifications, as defined in RSA 100-A:1, with each component subdivided proportionally between employees of the state and employees of the political subdivisions of the state. The balance of the special account attributed to each component as of June 30, 2003 shall be subdivided between state and political subdivision classifications based upon the actuarial liabilities of the member and retiree groups. Beginning with the fiscal year ending June 30, 1990, the amount credited annually to the special account shall be determined as follows:

(1) Each component of the special account shall first be credited with all the earnings of that component for the fiscal year.

(2) **If the actuary determines that the funded ratio of the consolidated retirement system as of June 30 of any given year is equal to or greater than 85 percent, then** all of the earnings of the remaining assets of the retirement system which are in excess of [~~the assumed rate of return plus 1/2 of one~~] **10 and one-half percent** [~~added to such rate~~] shall be allocated to the 4 member classifications. The assumed rate of return shall be determined by the board of trustees.

(3) Any funds held in special reserve as of June 30, 1996, shall be transferred to the respective component of the special account according to the following schedule:

(i) One-half of the funds held in special reserve as of June 30, 1996.

(ii) One-half of the remaining funds as of June 30, 1997, plus earnings from July 1, 1996 to June 30, 1997.

(iii) All remaining funds as of June 30, 1998, plus earnings from July 1, 1997, to June 30, 1998.

(4) [Repealed.]

(5) None of the assets held in the special account shall be used in the actuarial determination of the rate percent of normal contribution as set forth in subparagraphs (b), (c) and (d).

(6) [Repealed.]

(7) The actuarial cost of all legislation enacted during each fiscal year and calling for funding from the special account shall be withdrawn from the respective components of the special account, as of June 30 of each year, after funds are credited to the special account as provided in this subparagraph.

The special account shall be used only to fund or partially fund additional benefits as follows: first, to provide supplemental allowances, or COLAs, pursuant to RSA 100-A:41-a and, second, ~~[to the extent that funds may be available in the special account in excess of a 3-year 5 percent COLA reserve,]~~ to provide additional benefits *in accordance with RSA 100-A:50 through RSA 100-A:55* to retired members and beneficiaries of the retirement system with the specific approval of the appropriate policy committees and approval of the general court. ~~[Nothing in this section shall preclude the appropriate legislative policy committees and the general court from adopting legislation that provides additional benefits in the event that the special account does not contain a 3-year, 5 percent COLA reserve.]~~

(i) If the actuarially determined normal contribution rate as set forth in subparagraphs (b)[~~;~~] ~~and (c)[~~;~~ and (d)]~~ on account of any of the various member classifications shall be negative in any fiscal year, then the excess amount resulting from the difference between zero and the negative actuarially determined normal contribution rate shall be used to reduce the employee contribution rate for that member classification in that fiscal year.

9 Employer Contributions. Amend RSA 100-A:16, III to read as follows:

III. EMPLOYER CONTRIBUTIONS.

(a) On or before the first day of October next preceding each regular session of the state legislature, the board of trustees shall certify to the commissioner of administrative services the amounts which will become due and payable by the state during the biennium next following to the retirement system and it shall be the duty of the commissioner of administrative services in preparing the executive budget for each ensuing biennium to include in the budget the amounts so certified which amounts shall be appropriated by the legislature. The amounts so certified under this subparagraph shall include the unfunded accrued liability of the retirement system. *The annual employer contribution requirements effective July 1, 2008 and as calculated each year thereafter shall not be less than the employee contribution rates under RSA 100-A:16, I(a).*

(b) A county, city, town, school district or other political subdivision of the state having any employee members who are paid directly by the state but for whom the staff is later reimbursed for the part of their compensation not chargeable to state funds shall likewise reimburse the state for that part of the contribution made by the state to this system which is based on such part of compensation not chargeable to state funds.

(c) At the beginning of each year commencing on the first day of July the board of trustees shall certify to each employer other than the state the percentage rates of contribution due the system from each such employer, and shall assess upon each such employer such percentages of the earnable compensation of members in its employ, and it shall be the duty of the treasurer or other disbursing officer of each such employer to pay to the board of trustees such portion of the annual amount so assessed at such times and in such manner as the board of trustees may prescribe. Each such employer is hereby authorized to appropriate the sums necessary for the payment of such assessments. *The annual employer contribution requirements effective July 1, 2008 and as calculated each year thereafter shall not be less than the employee contribution rates under RSA 100-A:16, I(a).*

10 Repeal. The following are repealed:

I. RSA 100-A:4, VII, relative to purchase of nonqualified service credit.

II. RSA 100-A:16, II(d) relative to the procedure for determining contribution rates.

11 Effective Date. This act shall take effect July 1, 2007.

AMENDED ANALYSIS

This bill changes the procedure for calculating contribution rates and for determining cost-of-living adjustments. The bill also repeals the authority for nonqualified service credit and adds a local government member to the board of trustees.

Amendment adopted.

The question now being adoption of the committee report of Ought to Pass with Amendment. Rep. Patricia McMahon spoke in favor and yielded to questions.

Rep. Kurk spoke in favor.

On a division vote, 325 members having voted in the affirmative and 12 in the negative, the committee report was adopted.

Ordered to third reading.

Rep. John Thomas declared a conflict of interest on **HB 653** and did not participate.

HB 828-FN, relative to a state ethics officer. **OUGHT TO PASS WITH AMENDMENT.**

Rep. A. Laurie Harding for Executive Departments and Administration: This bill, as amended, requires that the secretary of state designate an employee of the department of state to be the state "ethics officer." The mandated responsibilities of this individual will be to follow through on the administrative requirements related to the submission and review of the specific legislative reporting forms, to communicate with candidates for public office re: completion and submission of forms, respond to all inquiries from candidates for public office, and make or forward complaints alleging violations of the state ethics code to the attorney general. This individual will be a knowledgeable, consistent voice for current and prospective office holders as well as members of the executive branch on the ethics laws over which the secretary of state has jurisdiction. The amended version of the bill removes any responsibilities that may have necessitated the "ethics officer" become a new position. Therefore, there is no longer a fiscal note attached to this bill. Vote 12-3.

Amendment (0822h)

Amend RSA 21-G:28-a as inserted by section 1 of the bill by replacing it with the following:

21-G:28-a Ethics Officer; Appointment; Duties and Responsibilities.

I. The secretary of state shall designate an employee of the department of state as the state ethics officer, who shall be responsible for the administration of this subdivision.

II. The ethics officer shall:

(a) Review the administrative requirements of this subdivision and the submission of forms pursuant to RSA 15-A and RSA 15-B.

(b) Communicate with all candidates for public office and all executive branch officials on the administrative requirements of this subdivision and the submission of forms pursuant to RSA 15A and RSA 15-B.

(c) Respond to any inquiries from candidates for public office and executive branch officials on the administrative requirements of this subdivision and the submission of forms pursuant to RSA 15-A and RSA 15-B.

(d) Make or forward complaints alleging violations of the provisions of the state ethics code to the attorney general or the executive branch ethics committee, established under RSA 21G:29.

III. The state ethics officer shall not be authorized to render legal advice.

IV. The state ethics officer shall attend meetings of the legislative ethics committee, the executive branch ethics committee, and any other ethics committees or commissions established by statute.

V. Any state agency, commission, or committee authorized by statute to issue opinions interpreting a state ethics law shall submit a copy of any written decision or opinion to the state ethics officer and to the secretary of state. Such written decisions or opinions may be redacted prior to submission in order to protect confidential or nonpublic information.

On a division vote, 220 members having voted in the affirmative and 116 in the negative, the committee amendment was adopted.

The question now being adoption of the committee report of Ought to Pass with Amendment.

On a division vote, 217 members having voted in the affirmative and 120 in the negative, the committee report was adopted.

Ordered to third reading.

HB 881-FN, relative to the licensure and regulation of interior designers. **INEXPEDIENT TO LEGISLATE.**

Rep. Catriona D. Beck for Executive Departments and Administration: This bill relates to establishing a board of interior designers which would implement regulation and licensure certification in the practice of interior design within the state of New Hampshire. The committee recognized and commended members of New Hampshire Interior Design Coalition (NHIDC) for the amount

of hard work and effort put forth to present their case in expressing their support of licensure for the interior design profession within the state of New Hampshire. The committee, having heard testimony from countless members of the interior design community with differing opinions regarding licensure and regulation within the industry, could not find sufficient or compelling enough evidence to support licensure for interior designers at this present time. It was noted that only four states require regulation and licensure of the interior design profession. The committee took into consideration the financial impact on small businesses within the industry, the restrictive conditions and hardship this bill would cause to many New Hampshire interior designers, the lack of educational courses offered within our state, the wide philosophical differences within the New Hampshire interior design community and lack of impact on the welfare and safety of the public at large. Vote 12-4. Committee report adopted.

(Rep. Foster in the Chair)

REGULAR CALENDAR (CONT'D)

HB 923, prohibiting dog racing in New Hampshire and establishing a committee to make recommendations for mitigating the impacts of prohibiting dog racing. **MAJORITY: INEXPEDIENT TO LEGISLATE. MINORITY: OUGHT TO PASS.**

Rep. Francis B. Sullivan for the Majority of Executive Departments and Administration: This bill would prohibit dog racing in New Hampshire and establish a committee to make recommendations to study the impact of eliminating racing. This bill would in effect shut down an entire industry by abolishing dog racing in New Hampshire. The committee heard extensive testimony over two days of hearings from all sides on this issue. Passage of this bill would mean the 500 plus employees of race tracks (most of whom are New Hampshire residents), the state employees who regulate the industry and employees of the kennels who care for the dogs would lose their jobs. Every aspect of the business is highly regulated. For example, every employee involved must be licensed by the state. The race tracks contribute millions of dollars to the economy of our state including over \$500,000 in taxes and fees to the three communities where the tracks are located. Information presented also demonstrates that many injuries referred to by the bill's proponents in fact did not occur during a race, but resulted from everyday activity just as it could happen to a pet in a home. The majority of the committee believes that the racing dogs are well cared for. We have confidence in state regulators that they hold the welfare of the dogs in the highest importance. Vote 14-3.

Rep. John Reagan for the Minority of Executive Departments and Administration: The arguments against this bill are directed at the economic impact of closing the tracks. The bill allows for a study commission aimed at the economic impact of not allowing dog racing. Everyone agreed many injuries occurred to the animals. Proponents stated not all injuries occurred during actual races. We all do agree all injuries occur to the animals while they are at the track. The difference is between incidental and accidental occurrences of death and injury compared to overlooking regular injury and death at the tracks. Our society should not accept a state revenue dollar amount as justifying an immoral activity.

MOTION TO LAY ON THE TABLE

Rep. Graham moved that **HB 923**, prohibiting dog racing in New Hampshire and establishing a committee to make recommendations for mitigating the impacts of prohibiting dog racing, be laid on the table.

Rep. Dumaine requested a roll call; sufficiently seconded.

Franklin, Peter
Jillette, Arthur Jr
and the majority committee report was adopted.

HB 928, relative to the Christa McAuliffe planetarium commission. **OUGHT TO PASS.**

Rep. Pamela V. Manney for Executive Departments and Administration: This bill would repeal the provision which administratively attaches the Christa McAuliffe Planetarium Commission to the department of regional community technical colleges. The administrative repeal is needed because the regional community technical colleges are proposing to separate from the state and therefore would no longer offer state services to the Christa McAuliffe Planetarium. If passed, oversight of the Christa McAuliffe Planetarium Commission would be that of the governor and council. Both the governor and the department of regional technical colleges support the repeal. This bill also makes technical corrections to RSA 12-L relative to the Christa McAuliffe Planetarium and Alan B. Shepard Discovery Center. Technical changes would include: adding an "aviation" and "earth" science component to the planetarium's mission; making education community members serving on the commission as coming from the private sector; change the word "shall" to "may" regarding receipt of payment of mileage for those serving on the commission and adding having the authority to accept "grants and donations" of money and property. Vote 11-4.
Committee report adopted and ordered to third reading.

HB 46-FN-A-L, making an appropriation to support kindergarten programs in the towns of Merrimack, Hampstead, and Goffstown. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Robert A. Foose for Finance: The state now takes three years to include students in its count for the purpose of state aid. The state agreed to fund \$1,200 per student during the three year period while waiting for the kindergarten students to be counted by the state. This agreement has been extended many times over the years. It is the belief of the committee that we should continue this policy to assist towns who commit to school kindergarten. Vote 24-0.

Amendment (0965h)

Amend the title of the bill by replacing it with the following:

AN ACT making an appropriation to fund kindergarten programs in the towns of Merrimack, Hampstead, Goffstown, and Fremont, and in the Timberlane regional school district.

Amend the bill by replacing all after the enacting clause with the following:

1 Appropriation. There is hereby appropriated the sum of \$2,004,000, for the fiscal year ending June 30, 2007, from the education trust fund established in RSA 198:39 to the department of education, to provide \$1,200 per pupil grants for kindergarten programs in the towns of Merrimack, Hampstead, Goffstown, and Fremont, and in the Timberlane regional school district, which is comprised of the towns of Plaistow, Atkinson, Danville, and Sandown. Such funds shall lapse on June 30, 2009, and shall be distributed as follows:

- (a) Merrimack shall receive the sum of \$548,400.
- (b) Hampstead shall receive the sum of \$196,800.
- (c) Goffstown shall receive the sum of \$223,200.
- (d) Fremont shall receive the sum of \$192,000.
- (e) The Timberlane regional school district shall receive the sum of \$843,600.

2 School Money; Education Trust Fund. Amend the introductory paragraph in RSA 198:39, I to read as follows:

I. The state treasurer shall establish an education trust fund in the treasury. Moneys in such fund shall not be used for any purpose other than to distribute adequate education grants to municipalities' school districts and to approved charter schools pursuant to RSA 198:42, [and] to provide low and moderate income homeowners property tax relief under RSA 198:56-198:61, *and to fund kindergarten programs as may be determined by the general court.* The state treasurer shall deposit into this fund immediately upon receipt:

3 Effective Date. This act shall take effect upon its passage.

AMENDED ANALYSIS

This bill makes an appropriation from the education trust fund to the department of education to fund \$1,200 per pupil grants for kindergarten programs in the towns of Merrimack, Hampstead, Goffstown, and Fremont, and in the Timberlane regional school district.

Amendment adopted.

Committee report adopted and ordered to third reading.

HB 553-FN-A, requiring the state to pay legal fees for certain supreme court justices. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Frederick W. King for Finance: This bill requires the state, through the Department of Administrative Services, to pay the full and final legal fees incurred by certain Supreme Court justices as a result of claims they were subjected to, and prevailed as to, involved in impeachment proceedings initiated by the legislature. Vote 16-6.

Amendment (0740h)

Amend the title of the bill by replacing it with the following:

AN ACT requiring the state to pay legal fees for certain supreme court justices and making an appropriation therefor.

Amend the bill by replacing all after the enacting clause with the following:

1 Payment of Legal Fees of Certain Supreme Court Justices.

I. The department of administrative services shall pay up to the following amounts to the following persons as full and final payment for legal fees incurred by such persons in the capacity as supreme court justices as a result of claims they were subjected to, and prevailed as to, involved in impeachment proceedings initiated by the legislature:

- (a) Retired Chief Justice David A. Brock \$474,000
- (b) Retired Associate Justice Sherman D. Horton, Jr. \$30,000
- (c) Chief Justice John T. Broderick, Jr. \$90,000

II. Prior to payment of the sums under paragraph I, retired justices Brock and Horton and chief justice Broderick shall submit to the department of administrative services copies of all invoices for legal fees charged for the impeachment proceedings along with signed release statements from themselves that the payments made under paragraph I are full and final payments for legal fees incurred for the impeachment proceedings.

2 Appropriation. The sum of up to \$594,000 is hereby appropriated to the department of administrative services for the fiscal year ending June 30, 2007, for the purposes of section 1 of this act. The governor is authorized to draw a warrant for said sum out of any money in the treasury not otherwise appropriated.

3 Effective Date. This act shall take effect upon its passage.

AMENDED ANALYSIS

This bill requires the state to pay legal fees for certain supreme court justices as a result of claims they were subjected to, and prevailed as to, involved in impeachment proceedings initiated by the legislature. The bill makes an appropriation for such payment.

On a division vote, 198 members having voted in the affirmative and 96 in the negative, the committee amendment was adopted.

Rep. Sorg offered floor amendment (0989h).

Floor Amendment (0989h)

Amend the title of the bill by replacing it with the following:

AN ACT prohibiting the payment or reimbursement by the state of legal fees to any justice impeached by the legislature.

Amend the bill by replacing all after the enacting clause with the following:

I New Subdivision; Payment or Reimbursement of Certain Legal Fees Prohibited. Amend RSA 490 by inserting after section 35 the following new subdivision:

Payment or Reimbursement of Certain Legal Fees Prohibited

490:36 Payment or Reimbursement of Certain Legal Fees Prohibited. The state shall not pay or reimburse any justice of any state court for legal fees incurred as a result of impeachment proceedings against such justice by the legislature,

2 Effective Date. This act shall take effect upon its passage.

AMENDED ANALYSIS

This bill prohibits payment or reimbursement by the state for legal fees incurred by justices during impeachment proceedings.

(Speaker Norelli in the Chair)

Rep. King spoke against.

Reps. Sorg and DiFruscia spoke in favor.

Rep. Dumaine requested a roll call; sufficiently seconded.

and floor amendment (0989h) failed.

Rep. Sorg offered floor amendment (0990h).

Floor Amendment (0990h)

Amend the title of the bill by replacing it with the following:

AN ACT prohibiting payment or reimbursement by the state of certain legal fees to former supreme court chief justice David A. Brock.

Amend the bill by replacing all after the enacting clause with the following:

1 Payment or Reimbursement of Legal Fees Prohibited. The state shall not pay or reimburse legal fees incurred during impeachment proceedings to former supreme court chief justice David A. Brock, based upon a determination of the house of representatives, by a vote of 233 to 95, that by clear and convincing evidence justice Brock committed those violations and impeachable offenses set forth in articles I through IV of HR 51 adopted in the 2000 session of the house of representatives.

2 Effective Date. This act shall take effect upon its passage.

AMENDED ANALYSIS

This bill prohibits the state from paying or reimbursing legal fees incurred during impeachment proceedings by former supreme court chief justice David A. Brock.
Rep. Sorg spoke in favor and yielded to questions.

LAI D ON THE TABLE

Rep. Campbell moved that floor amendment (0990h) be laid on the table.
On a division vote, 171 members having voted in the affirmative and 155 in the negative, the motion was adopted.

MOTION TO LAY ON THE TABLE

Rep. Hopfgarten moved that **HB 553-FN-A**, requiring the state to pay legal fees for certain supreme court justices, be laid on the table.
Rep. Hopfgarten requested a roll call; sufficiently seconded.

and the motion failed.

MOTION TO RECONSIDER

Having voted with the prevailing side, Rep. Bergin moved that the House reconsider its action whereby it adopted the committee report of Ought to Pass with Amendment on **HB 553-FN-A**, requiring the state to pay legal fees for certain supreme court justices.

Rep. Bergin spoke against.

On a division vote, 134 members having voted in the affirmative and 194 in the negative, the motion failed.

MOTION TO RECONSIDER

Having voted with the prevailing side, Rep. Daniel Eaton moved that the House reconsider its action whereby it adopted the majority committee report of Ought to Pass with Amendment on **HB 927-FN**, relative to the specific criteria and substantive educational program that define an adequate education.

Rep. Daniel Eaton spoke against.

On a division vote, 107 members having voted in the affirmative and 220 in the negative, the motion failed.

RESOLUTION

Rep. Wallner offered the following: **RESOLVED**, that the House now adjourn from the early session, that the business of the late session be in order at the present time, and when the House adjourns today it be to meet Wednesday, March 28, 2007 at 10:00 a.m.

Adopted.

LATE SESSION**UNANIMOUS CONSENT**

Rep. Wendelboe addressed the House.

MOTION TO PRINT REMARKS

Rep. Vaillancourt moved that the remarks made by Rep. Wendelboe be printed in the Permanent Journal.

On a division vote, 114 members having voted in the affirmative and 209 in the negative, the motion failed.

RECESS MOTION

Rep. Wallner moved that the House stand in recess for the purpose of introduction of bills and receiving Senate messages.

Adopted.

The House recessed at 7:15 p.m.

RECESS**(Speaker Norelli in the Chair)**

Rep. Wallner moved that the House adjourn.

Adopted.

HOUSE JOURNAL No. 11

Wednesday, March 28, 2007

The House assembled at 10:00 a.m., the hour to which it stood adjourned, and was called to order by the Speaker.

Prayer was offered by House Chaplain, Reverend Jared A. Rardin, Pastor of the South Congregational Church in Concord.

The Psalm of Wednesday

O God, You who are the Alpha and the Omega, the Beginning and the End of all being, be also the Middle of our week and our lives. Poor Wednesday, sandwiched in this busy week, may we find within it countless divine visits. Holding hidden epiphanies, sudden insights, within its folds, may it be for us a Holy Wow Wednesday.

O God of Hide and Seek, who loves surprises, give us a peek at the new hidden inside the old. Since life is like a many-layered onion, may we peel back a new layer this day.

O God, Ever-Present Beginning and End, help us this day to let some things end and others begin, and to our delight may we discover a fresh face of You. Amen.

Rep. Susan Almy, member from Lebanon, led the Pledge of Allegiance.

The National Anthem was sung by Rep. James Garrity, the member from Atkinson.

LEAVES OF ABSENCE

Reps. Brennan, Peter Cote, Stephanie Eaton, Heald, Jeudy, Stephen Johnson, Laliberte and Velez, the day, illness.

Reps. Mark Clark, Donald Flanders, Haley, Plifka, Rochette, Srnc, Stohl and Burton Williams, the day, important business.

Rep. Spaulding, the day, death in the family.

INTRODUCTION OF GUESTS

Maureen von Rosenvinge, guest of Rep. Beck. Janet Bridgham, wife of Rep. Bridgham. Kristin Stewart and Jennifer Sullivan, guests of Rep. Ryan. Adam Patinkin, guest of Rep. Pierce.

INTRODUCTION OF SPECIAL GUESTS

SSG Virginia Allatt, SSG Donald Frechette, SSG Daniel Bouvier, SGT Paulleroy Morisseau, SGT Franklin Walker and SGT Kevin Uitts, recently returned from serving in Iraq. Alpha Company, 368th Engineer Battalion and the Londonderry Armed Forces Reserve Center.

HOUSE RESOLUTION NO. 11

Memorializing State Representative James H. Oliver of Hooksett

WHEREAS, we have learned with great sorrow of the death of our friend and colleague James H. Oliver of Hooksett, who was in his third term as a member of the House of Representatives serving the citizens of Merrimack County District 9, the town of Hooksett; and,

WHEREAS, Jim Oliver served with diligence and distinction as a valued member of the Committee on Criminal Justice and Public Safety, earning the respect of his colleagues for his depth of knowledge and understanding in considering the many issues that were presented to the committee, knowledge and understanding gained during his long career in law enforcement; and

WHEREAS, Jim Oliver, following his service in the United States Army, served sixteen years in the Bureau of Special Services as a detective with the New York City Police Department, receiving the Department's Honor Legions Medal of Valor prior to his retirement as a homicide detective, and

WHEREAS, arriving in Hooksett to serve as the Chief of a small, part time police department, he oversaw its development into a full time, twenty-four person agency before his retirement, and WHEREAS, Jim Oliver helped found the Hooksett Emergency Relief Committee, which offers financial assistance to citizens who may not necessarily meet state welfare requirements, and in 2000 was named Hooksett's Citizen of the Year, now, therefore, be it

RESOLVED, by the New Hampshire House of Representatives in Regular Session convened, that James H. Oliver be granted the highest praise and accolades for his dedicated service to his community and his state, and be it further

RESOLVED, that expressions of heartfelt sympathy be extended to his family and that a suitable copy of this Resolution be prepared for presentation to them.

Offered by the House of Representatives.

Adopted.

MOMENT OF SILENCE

A moment of silence was observed in memory and honor of New Hampshire State Representative James H. Oliver of Hooksett.

SPECIAL ORDER BILLS

HB 812, relative to making permanent certain exceptions to limits on land application of septage and sludge. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Robert H. Haefner for Environment and Agriculture: Nine farms along the NH riverways have been given an exception since 1998, allowing them to apply biosolids (sludge) to livestock feed crops within 75 feet if it is mixed in or 125 feet if top dressed (consistent with other state requirements) of waterway, drainage or wetlands. No degradation of water quality has been detected during testing in the last nine years. The bill makes the nine exceptions permanent, as long as farmers continue to comply with all requirements. Vote 10-4.

Amendment (0514h)

Amend RSA 483:8-b as inserted by section 1 of the bill by replacing it with the following:

483:8-b Land Application Restrictions; Exceptions. The septage and sludge land application restrictions contained in RSA 483:9, VI(c), RSA 483:9-a, VII(b), RSA 483:9-aa, VII(b), and RSA 483:9-b, VII(b) shall not apply to any currently-permitted land upon which septage or sludge has been spread in accordance with all applicable rules adopted by the federal Environmental Protection Agency and the New Hampshire department of environmental services, during any portion of the 3-year period prior to January 1, 1998. In addition, there shall be no termination of this restriction exemption for qualifying land that is used for scientific research on septage or sludge. Any continued application of septage and sludge pursuant to this section shall comply with all applicable federal and state laws and any best management practices published by the university of New Hampshire cooperative extension. Failure to comply with the requirements of this section shall terminate the exception.

Rep. Beaulieu spoke against.

Rep. O'Connell spoke in favor.

Amendment adopted.

Committee report adopted and ordered to third reading.

HB 836, prohibiting wastewater treatment plants from excluding towns for septage treatment and disposal services. **INEXPEDIENT TO LEGISLATE.**

Rep. Leigh A. Webb for Environment and Agriculture: Although well intentioned, the committee found several problems with this bill. The committee recognizes the right of municipalities to develop their own ordinances to regulate or ban the use of land application of biosolids, but also believes that those same municipalities should not be exempt from the economic impact of those decisions. Passage of this bill would have the unintentional consequence of limiting the authority of cities and towns with their own waste treatment facilities from promulgating their own rules and regulations regarding septic treatment and disposal services. Additionally, the Department of Environmental Services opposed passage of this bill for many of the reasons stated above plus the bill's attempt to change definitions already in common usage in federal and state statutes and rules. Vote 14-2.

Rep. Beaulieu spoke against and yielded to questions.

Rep. Powers spoke against.

Reps. Webb, Essex and Patten spoke in favor.

On a division vote, 295 members having voted in the affirmative and 55 in the negative, the committee report was adopted.

(Rep. Foster in the Chair)

REGULAR CALENDAR (CONT'D from March 27, 2008)

HB 558, requiring any education trust fund surplus to be transferred to the revenue stabilization reserve account. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Kenneth L. Weyler for Finance: The Education Trust Fund was created for the first Adequate Education Grants in 1999. It was to assure the donor towns, (who contributed about 4%) that all their funds would go to schools. It was the repository of several surtaxes and some one-time revenues to reassure the public that we were following the mandate. From its inception it was a problem for both revenue and budget calculations. The split between the base tax and the increase due to the surtax took lengthy discussions. Some errors were made in distributing money between the General Fund (GF) and the Education Trust Fund (ETF). The most recent example occurred last session when we believed that the revenue at the end of the biennium would yield a 40 million dollar surplus. Hours later, after allocating the surplus to programs, we were informed that it was really only 18 million. Twenty-two million had to stay in the ETF. In most budgets the ETF was short of funding the Adequacy Grants. An amount from the GF made up the difference. The Education Trust Fund was misnamed from the start. It never was a Trust Fund. The name was designed to give the public some confidence that the money that was raised was to meet the State's requirement to fund an adequate education. But it is the existence of the General Fund, not of the so-called Education Trust Fund that guarantees that the State fulfills this obligation. A final problem relates to our bond rating. The rating is based on the per cent of our unrestricted General Fund Revenue that is used for bonding. By isolating the hundreds of millions in the ETF, they can not be used in the calculation. If the ETF were eliminated, as the amendment does, then, even though all that money could still go to education, by passing it through the General Fund, some believe that our bond rating might benefit. Please support the unanimous vote of the Finance Committee; simplify our lives. Ten years of supporting school funding should be sufficient evidence that the General Court intends to honor our obligation to support education. Vote 23-0.

Amendment (0853h)

Amend the title of the bill by replacing it with the following:

AN ACT repealing the education trust fund.

Amend the bill by replacing all after the enacting clause with the following:

1 Reports on Status of Monthly Tax Refunds. Amend the introductory paragraph in RSA 21-J:45, I to read as follows:

I. The commissioner of the department of revenue administration shall report to the fiscal committee of the general court within 10 days after the close of each month, the status of monthly refunds pending from the ~~[combined]~~ general fund ~~[and education trust fund]~~ for the following taxes:

2 Determination of Amounts Returnable. Amend RSA 31-A:4, I to read as follows:

I. Its 1978 distribution under RSA 31-A plus its share under the equalized formula of an annual increase of 5 percent in the previous year's aggregate distribution, through the year 1981, excluding revenue derived from RSA 77-A:20. ~~[The amount of money which is removed from the formula for deposit in the education trust fund shall not affect the remaining municipal revenue sharing distribution.]~~ The same amount distributed to each municipality in fiscal year 1998, excluding the amount apportioned to the school district in the 1998 property tax calculations, shall be distributed to each municipality in fiscal year 1999 and each year thereafter until the legislature revises the formula or provides additional appropriations that will affect the distribution amount.

3 Commissioner's Warrant. Amend RSA 76:8, III to read as follows:

III. Municipalities are authorized to assess local property taxes necessary to fund school district appropriations not funded by the statewide enhanced education tax, by distributions from the ~~[education trust]~~ **general** fund ~~[under RSA 198:39]~~, or by other revenue sources.

4 Tax on Meals and Rooms; Disposition of Revenue. Amend RSA 78-A:26, III to read as follows:

III. Beginning on July 1, 1999, and for each fiscal year thereafter, the department shall pay over all revenue collected pursuant to RSA 78-A:6, II-a to the state treasurer for deposit in the ~~[education trust fund established by RSA 198:39]~~ **general fund**.

5 Utility Property Tax; Administration. Amend RSA 83-F:7, I to read as follows:

I. The commissioner shall collect the taxes, interest, additions to tax and penalties imposed under this chapter and shall pay over to the state treasurer for deposit in the ~~[education trust fund established by RSA 198:39]~~ **general fund** the amount of the funds collected.

6 Charter and Open Enrollment Schools; Funding. Amend RSA 194-B:11, I(d) to read as follows:

(d) The source of funds for payments under this section shall be moneys from the ~~education trust fund established in RSA 198:39~~ **general fund**.

7 Appropriation for Unanticipated Funds. Amend RSA 198:20-b, II to read as follows:

II. Such money shall be used only for legal purposes for which a school district may appropriate money. No funds disbursed from the ~~education trust~~ **general fund** pursuant to RSA 198:42 shall, under any circumstances, emergency or otherwise, be deemed to be unanticipated money under the provisions of this section.

8 State Aid for Educational Equality; Education Trust Fund; Subdivision Heading Amended. Amend the subdivision heading preceding RSA 198:38 to read as follows:

State Aid ~~[for Educational Equality; Education Trust Fund]~~ **to Education**

9 Distribution Schedule. Amend RSA 198:42 to read as follows:

198:42 Distribution Schedule of Equitable Education Grants; Appropriation.

I. The equitable education grant determined in RSA 198:41 shall be distributed to each municipality's school district or districts legally responsible for the education of the pupils who attend approved public schools within the district or in other districts or who attend approved programs for educationally disabled children, as the case may be, from the ~~education trust~~ **general fund** in 4 payments of 20 percent on September 1, 20 percent on November 1, 30 percent on January 1, and 30 percent on April 1 of each school year; provided that for a dependent school district, the grant determined in RSA 198:41 shall be distributed to the municipality, which shall appropriate and transfer the grant funds to its dependent school department.

II. For the fiscal year beginning July 1, 2005, and every fiscal year thereafter, the amount necessary to fund the grants under RSA 198:41 is hereby appropriated to the department from the ~~education trust fund created under RSA 198:39~~ **general fund**. The governor is authorized to draw a warrant from the ~~education trust~~ **general fund** to satisfy the state's obligation under this section. Such warrant for payment shall be issued regardless of the balance of funds available in the ~~education trust~~ **general fund**. If the balance in the ~~education trust~~ **general fund**, after the issuance of any such warrant, is less than zero, the commissioner of the department of administrative services shall inform the fiscal committee and the governor and council of such balance. This reporting shall not in any way prohibit or delay the distribution of equitable education grants.

III. The department of education shall certify the amount of each grant to the state treasurer and direct the payment thereof to the school district. When a payment of a grant is made to a school district, the municipality on whose behalf the payment is made shall receive notification from the state treasurer of the amount of the payment made to its school district or districts.

IV. For the fiscal year beginning July 1, 2006, and every fiscal year thereafter, the amount necessary to fund charter school tuition payments under RSA 194-B:11, I is hereby appropriated to the department from the ~~education trust~~ **general fund** established under RSA 198:39. The ~~education trust~~ **general fund** shall be used to satisfy the state's obligation under this paragraph. The payment shall be issued regardless of the balance of funds available in the ~~education trust~~ **general fund**.

10 Duties of the Department of Education and the State Board of Education. Amend RSA 198:44 to read as follows:

198:44 Duties of the Department of Education and the Board of Education. The department of education shall submit a report by December 31 to the speaker of the house of representatives and the senate president to be used for purposes of determination by the legislature of the appropriation to the ~~education trust~~ **general fund**. A copy of such report shall, at the same time, be given to the department of revenue administration.

11 Excess Statewide Enhanced Education Tax Payment. Amend RSA 198:46, II to read as follows:

II. The commissioner of the department of revenue administration shall collect from the municipality the excess tax and pay the excess tax over to the state treasurer for deposit in the ~~education trust~~ **general fund** ~~[established by RSA 198:39]~~.

12 Alternative Kindergarten Programs. Amend RSA 198:48-a, VII(a) to read as follows:

VII.(a) Upon the effective date of this paragraph, and for each fiscal year through June 30, 2003, an equitable education grant of \$1,200 per pupil shall be distributed to school districts, from the ~~education trust fund created in RSA 198:39~~ **general fund**, for the education of its resident kindergarten pupils enrolled in an approved alternative kindergarten program established under this section.

13 Low and Moderate Income Homeowners Property Tax Relief. Amend RSA 198:61 to read as follows:

198:61 Refund of Tax Claims. The department of revenue administration shall review a claim for tax relief filed with it and, if such claim is determined to be valid, shall certify such amount to the state treasurer within 120 days who shall pay such claims from funds in the ~~[education trust]~~ **general** fund. Such sums are hereby appropriated and the governor is authorized to draw a warrant from the ~~[education trust]~~ **general** fund to satisfy the state's obligation under this section. Such warrant for payment shall be issued regardless of the balance of funds available in the ~~[education trust]~~ **general** fund. If the balance in the ~~[education trust]~~ **general** fund, after the issuance of any such warrant, is less than zero, the commissioner of the department of revenue administration shall inform the fiscal committee and the governor and council of such balance. This reporting shall not in any way prohibit or delay the payment of valid claims. The department shall notify a claimant whose claim is rejected in whole or in part of such determination within 90 days of the department's receipt of the claim and all required documentation.

14 Lottery; Establishment. Amend RSA 284:21-j, I to read as follows:

I. The state treasurer shall credit all moneys received from the lottery commission and all moneys received from the pari-mutuel commission under RSA 287-D and RSA 287-E, and interest received on such moneys, to a special fund from which the treasurer shall pay all expenses of the commission incident to the administration of this subdivision and all administration and enforcement expenses of the pari-mutuel commission under RSA 287-D and RSA 287-E. Any balance left in such fund after such expenses are paid shall be deposited in the ~~[education trust fund established under RSA 198:39]~~ **general fund to be used exclusively for the purpose of state aid to education.**

15 Repeal. The following are repealed:

I. RSA 6:12, I(65), relative to funds deposited into the education trust fund.

II. RSA 198:39, establishing the education trust fund.

III. RSA 77-A:20-a, relative to the distribution of funds from the business profits tax to the education trust fund.

IV. RSA 77-E:14, relative to the distribution of funds from the business enterprise tax to the education trust fund.

V. RSA 78:32, relative to distribution the of funds from the tobacco tax to the education trust fund.

VI. RSA 78-B:13, relative to the distribution of funds from the tax on transfer of real property to the education trust fund.

16 Effective Date. This act shall take effect June 30, 2007.

AMENDED ANALYSIS

This bill repeals the education trust fund and provides that all sources of revenue formerly dedicated to the education trust fund shall remain in the general fund, and all disbursements formerly made from the education trust fund shall be made from the general fund.

Amendment adopted.

Committee report adopted and ordered to third reading.

(Speaker Norelli in the Chair)

REGULAR CALENDAR (CONT'D)

HB 583-FN, relative to funding for HIV/AIDS services. **OUGHT TO PASS WITH AMENDMENT.** Rep. John DeJoie for Finance: This waiver became necessary due to the loss of \$1,000,000 of federal funds, which have been replaced by state general funds in this year's budget. It is hoped that this waiver may permit additional federal dollars to be matched to the general fund dollars, to effectively expand provision of these services. This bill requires the Department of Health and Human Services to submit a waiver to the Centers for Medicare/Medicaid (CMS) regarding services for HIV/AIDS affected individuals. Amendments to the bill clarify that the department, in preparing its planned waiver, shall consider potential costs to develop the waiver and any costs for implementation of the proposed waiver. A copy of the proposed waiver will be reviewed by the Legislative Fiscal Committee, prior to being submitted to CMS. Vote 17-8.

Amendment (0949h)

Amend the bill by replacing section 1 with the following:

1 New Section; HIV/AIDS Waiver. Amend RSA 126-A by inserting after section 4-b the following new section:

126-A:4-c HIV/AIDS Waiver. The department shall develop a Medicaid waiver to support the extension of Medicaid-allowable HIV/AIDS services. The department shall present the proposed waiver design, including proposed coverage groups, budget neutrality calculation, a cost estimate of the proposed waiver, and an explanation of the potential fiscal impact of seeking a state plan amendment, to the legislative fiscal committee prior to submission of a final concept paper to the Centers for Medicare and Medicaid Services (CMS) for federal approval. The department shall provide periodic reports to the legislative fiscal committee throughout the waiver development, approval, and implementation processes. The department shall seek input from health care providers and the public in the course of developing the waiver. The department shall ensure that budget neutrality is maintained or exceeded through the 5-year life of the waiver. A report shall be made to the legislative fiscal committee within 6 months of the end of the first full year of waiver implementation and subsequently on an annual basis.

Amendment adopted.

Committee report adopted and ordered to third reading.

MOTION TO SPECIAL ORDER

Rep. Baldasaro moved that **HR 10**, opposing President George W. Bush's Iraq policy and urging the President and Congress to take actions relative to veterans' benefits and the war in Iraq, be made a Special Order as the next order of business.

Rep. Daniel Eaton spoke against.

Reps. Baldasaro and Whalley spoke in favor.

Rep. Hess requested a roll call; sufficiently seconded.

SPECIAL ORDER

HR 10, opposing President George W. Bush's Iraq policy and urging the President and Congress to take actions relative to veterans' benefits and the war in Iraq. **MAJORITY: OUGHT TO PASS WITH AMENDMENT. MINORITY: OUGHT TO PASS.**

Rep. Pamela D. Coughlin for the Majority of State-Federal Relations and Veterans Affairs: This House Resolution continues to support the troops while asking the President and Congress to fully fund veterans' medical needs, as well as the need to pursue diplomatic avenues to end the present war in Iraq. The citizens of the State of New Hampshire strongly support the soldiers serving in the United States armed forces. The citizens of the State of New Hampshire recognize, support and appreciate the great sacrifices the soldiers and families protecting our freedoms for our state and country. The original House Resolution as written could have serious and detrimental effect on our soldiers deployed today and all of our current veterans. The committee felt that the original text of the Resolution needed to be amended to better reflect the oral and written testimony given by New Hampshire citizens. Vote 10-7.

Rep. Eleanor Glynn Kjellman for the Minority of State-Federal Relations and Veterans Affairs: The minority believes that the original intent of HR 10 was to express disapproval of the escalation of

the war in Iraq by the deployment of 20,000 plus troops, to fully fund all veterans benefits and appropriately care for veterans returning from war, to encourage the President and Congress to begin talks with countries in the Middle East and most importantly to begin the orderly withdrawal of American military forces from Iraq. The minority confirms that HR 10 as written does not require any timeline. Further, we noted that "orderly withdrawal" could be interpreted to mean that Americans could be taken off the front lines, that they would train and support Iraqis who would be the primary ones to defend their own country, patrol the streets, search neighborhoods and homes, and settle their own disputes. We believe that the amendment so changes the original Resolution as to completely reverse the intention. The amendment does not address the escalation in troop strength and its effect on our over-extended military. The amendment mimics the original resolution's phrase "begin the orderly withdrawal of American military forces from Iraq" but adds the qualifier "upon task completion." This completely reverses the intent of the original resolution. There is no definition of the "task" and no indication of how to measure completion and no indication of who is to say when the task is completed. As we enter the fifth year in the war in Iraq, a country that has been in conflict for centuries, the minority thinks the open-ended nature of "upon task completion" requires that the amendment fail, and that the HR 10 in its original form be passed by the House.

Majority Amendment (0850h)

Amend the title of the bill by replacing it with the following:

A RESOLUTION urging the President and Congress to take actions relative to veterans' benefits, fully funding and expediting improvements to veterans' facilities, and the war in Iraq.

Amend the bill by replacing all after the enacting clause with the following:

Whereas, in the history of military campaigns for over 2 centuries beginning with the Revolutionary War, the people of the United States of America have engaged in military and diplomatic initiatives to gain and preserve freedom for all people; and

Whereas, the citizens of the state of New Hampshire strongly support the men and women serving in the United States Armed Forces in Iraq, Afghanistan, and arenas known and not yet known; and

Whereas, over 3,000 American military personnel, including 18 from New Hampshire, have died since March of 2003 in the hostilities in Iraq, and tens of thousands have returned home with significant unmet physical and other health care needs; and

Whereas, the citizens of the state of New Hampshire recognize, appreciate, and are forever thankful for the sacrifices that all of our American and New Hampshire soldiers have made, especially those who have given their lives or been wounded in previous and current battles to protect our freedoms; and

Whereas, the New Hampshire house of representatives has an obligation to speak out on matters which affect the people of our state, and the ability of our government to protect us at home; now, therefore, be it

Resolved by the House of Representatives:

That the New Hampshire house of representatives and the American people will continue to support and protect the members of the United States Armed Forces and the New Hampshire national guard who are serving or who have served bravely and honorably in Iraq and elsewhere; and

That the New Hampshire house of representatives calls on the Bush Administration and Congress to fully fund and expedite all benefits for veterans and fully fund and expedite improvements to veterans' facilities, in order to appropriately care for our brave men and women when they return from this war and other combat; and

That the New Hampshire house of representatives urges the President and Congress to commence talks with the neighbors in the Middle East and begin the orderly withdrawal of American military forces from Iraq upon task completion; and

That the clerk of the New Hampshire house of representatives send copies of this resolution to governor John Lynch, the president and minority leader of the New Hampshire state senate, the President of the United States, the United States Secretary of Defense, the United States Secretary of State, the President of the United States Senate, the Speaker of the United States House of Representatives, and the New Hampshire congressional delegation.

AMENDED ANALYSIS

This house resolution urges the President and Congress to take actions relative to veterans' benefits, fully funding and expediting improvements to veterans' facilities, and the war in Iraq.

Reps. Kjellman and Vaillancourt spoke against and yielded to questions.
 Reps. McEachern, Perry, Burke, Splaine, Schmidt, Edwards and Fontas spoke against.
 Rep. Baldasaro spoke in favor and yielded to questions.
 Reps. Sorg, David Smith and Coughlin spoke in favor.
 Rep. Kjellman requested a roll call; sufficiently seconded.
